Biochemist: The United States Civil Service Commission announces an open competitive examination for biochemist for both men and women for duty in Washington or elsewhere, at salaries ranging from $1,800 to $3,000 a year. Certification to fill the higher-salaried positions will be made from those attaining the highest average percentages in the examinations. Competitors will not be required to report at any place but will be rated on education and experience and publications or thesis to be filed with application.

POTATO ACREAGE IN ENGLAND INCREASED ABOUT 25 PER CENT

Consul Dennison, at Birmingham, reports:

The British food controller announces that preliminary returns have now been obtained and tabulated from all persons farming 1 acre of land and upwards in Great Britain, which indicate that the potato acreage of 1918 will exceed that of 1917 by about 25 per cent.

When allotments and cottage gardens, which are not included in the return, are taken into account, it appears that the total acreage of 1918 will approximate 900,000 acres.

Plenty of Seed Available.

There are still plenty of seed potatoes available, and a final effort on the part of every farmer who has land to spare during the next few weeks in which planting can still be undertaken should bring the country well within sight of the million acres for which the Prime Minister appealed. As the entire crop, apart from what is needed on the farms, will be purchased by the ministry of food, no grower incurs any risk of growing more potatoes than he can sell.

The board of agriculture reports that some of the land under oats shows signs of wireworm, and points out that where "mending" is needed potatoes are one of the best crops.

Every County Shows Increase.

One remarkable feature is that every single county in England, Wales, and Scotland shows an increase over the 1917 acreage. The agricultural community has made a magnificent response to the calls made upon them, and unless the season should prove abnormally unfavorable to potatoes there will be no risk of any shortage of supplies during the coming year.—Commerce Reports.

They also serve who buy war-savings stamps—if they save and buy to the utmost of their ability, and buy in time.

CONTRACTS BY HARDWARE AND METALS DIVISION

(Continued from page 14.)

Vise, 4-inch jaw (Prentiss Shop type), steel beam with anvil; approximately 2½ by 3½ inches; diameter of screw, ⅝ inch; length over all when closed, 15½ inches; height, 6½ inches; approximate weight, 30 pounds 1
Lag screws, ½ by 3 inch 2
9,298 sets of saddler's tools, each set to contain following tools to be purchased separately, not in sets:
Collar awl, with handle (Osborne No. 8 or equal) 1
Pad awl, with handle (Osborne No. 3 or equal) 1
Harness awl blades (3 each, Osborne Nos. 43 to 48, inclusive) 18
Hafts for harness awl blades (Osborne No. 142 or equal) 3
Glue brush, G. B. 2, per specifications for brooms and brushes, approved Nov. 3, 1905 1
Oiler, ¼-pint capacity, with detachable sealing spout 1
Cold chisel, ⅝ by 8 inches 1
Stitching clamp, with socket (stitching horses) cast iron, 13½ inches over all, 3-inch jaw, hinged 3 inches from bottom, bottom ⅝ inch square, taper to 1½ inches square 2 inches from bottom, where there is a shoulder (bottom to fit into socket, which is placed in lid of case), jaws clamped together by a 5-inch bolt with 3-inch hand wheel, and to be provided with a coil spring to hold jaws apart, weight 5 pounds 1
Tin cup, 1-pint 1
Wing dividers (compasses), 8-inch (Osborne No. 27 or equal) 1
6-inch taper file 1
Riveting hammer, size 3 (Osborne No. 57 or equal) 1
Shoe hammer, size 3 (Osborne No. 54 or equal) 1
Upholsterer's hammer, with white hickory handle (Osborne No. 213 or equal) 1
Draw gauge (Osborne No. 515 or equal) 1
Head knife, 4½-inch (Osborne No. 71 or equal) 1
Round knife, 6-inch (Osborne No. 70 or equal) 1
Shoe knife, round handle (Osborne No. 76 or equal) 1
8-inch end-cutting nippers (Osborne No. 96 or equal) ..... pair 1
Revolving belt punch, 6-tube (Osborne No. 155 or equal) 1
Round saddler's punches, 1 each No. 2 and 9 (Osborne No. 158 or equal) 2
6-inch flat-nose pliers (Osborne No. 98 or equal) ..... pair 1
Rule, 36-inch (Osborne No. 190 or equal) 1
Screw driver, 6-inch (Champion pattern) 1
Lag screws, ⅜ by 2½ inches 2
Rivet set, size 8 (Osborne No. 120 or equal) 1
Bent trimmer's shears, 10-inch (Osborne No. 164 or equal) ..... pair 1
Oil stone, mounted, 6 by 2 by 1 inch (Washita No. 1 or equal) 1
Saddler's thimbles, open end No. 1, steel or aluminum 2
Saddler's tickler, size 4 (Osborne No. 12 or equal) 1
Claw tool (Osborne No. 124 or equal) 1
Edge-tool, size 3 (Osborne No. 125 or equal) 1
Vise, 3-inch jaw (Prentiss Shop pattern), steel beam, anvil on back 2 by 2 inches, diameter of screw ⅝ inch, length over all when closed approximately 12 inches, weight approximately 12 pounds 1

Killed by Fall in Dock.

The Navy Department is informed that William Patrick Clark, seaman, second class, United States Navy, serving on the S. S. *Feltore*, fell from a gangway while the ship was in dry dock, striking his head against the side of the dock, and was drowned, July 6. He enlisted at Seattle, Wash., giving as next of kin his mother, Mrs. Frances Clark, 3541 South L Street, Tacoma, Wash.

Progress in Combatting Social Diseases Among Troops at Home and Abroad by Medical Corps

The War Department authorizes the following statement from the office of the Surgeon General:

Measures taken by the American military authorities against the spread of venereal diseases among the soldiers of the Expeditionary Forces have resulted in the lowest annual rate per 1,000 ever recorded for American troops.

The latest report from overseas June 13 gives the annual rate for all overseas troops at 47.8 per 1,000. This means that at the present ratio less than 1 man per 1,000 contracts venereal disease every week. The best figure for the Regular Army in the United States in peace time was in 1916, when the annual rate per 1,000 was 91.23.

During a period of 32 weeks the overseas forces had the lowest record, with the exception of 2 weeks, of all American armies. The record of the Expeditionary Forces has been well below the 75-per-1,000 figure as an annual rate. Even this is actually less than 2 men reported per 1,000 each week.

Still Better Figure in United States.

Within the United States the record is still better, the comparable figures showing an estimated annual rate of less than 21 per 1,000 as against 91.23 per 1,000 prior to the present war. The new policy of the War Department which was adopted with the application of the draft—that is, accepting men infected with venereal disease for Army service—has made the prevalence of disease among the troops in the United States appear much higher. Thus the figures for a 37-week period for the three armies in the United States are higher than the figures for the Expeditionary Forces. The averages from September, 1917, to May, 1916, inclusive, were as follows: National Guard, 76; Regular Army, 98; National Army, 128.

The highest rate of venereal cases reported from any of the armies during one month was from the National Army in September, 1917, when the annual rate was 312 per 1,000. The lowest rate of the troops in this country is credited to the National Guard, whose rate of 50 per 1,000 men was recorded during April, 1918. The highest figure for the National Guard is 130. This was recorded in September, 1917. The highest Regular Army figure was 193 during May, 1918, and the lowest 69 during October, 1917. All figures given are expressed as annual rate per 1,000. The mean rate for all troops from September 21 to May 31 is 103.8.

Of the total number of these cases among the troops in this country five-sixths were contracted before induction into the military service. Of the newly inducted men 7 out of every 100 have the diseases when brought to the camps.

Greatest Cause of Disability.

Venereal disease is the greatest single cause of disability in the Medical Department. The percentage of venereal disease was higher during the period from September 21, 1917, to May 31, 1918, than any single communicable disease, such as measles, pneumonia, scarlet fever. More men were taken from active service for this cause than were caused by injuries.

Of the number that come into the Army suffering from this disease and of the number who contract it while in the military service only about 1 in 100 have to be discharged as unfit for military service.

Special care is taken to prevent the spread of the disease in the camps. Acute or active cases are segregated and every precaution is taken to protect soldiers who expose themselves to disease. Regular stations for inspection and treatment are maintained in every camp.

Zones have been established surrounding every cantonment from which prostitutes are excluded, and wherever camps are situated near towns and cities the segregated districts have been wiped out, the municipal officers cooperating with the military authorities in the suppression of resorts and the punishment of offenders.

Before the present war the principal emphasis in the prevention of venereal disease in the Army was placed in the instruction of the soldier against exposure and in the administration of the early, or prophylactic, treatment to those who had exposed themselves in spite of instructions.

Civilian Officials Aiding.

The Army had little success in persuading the civilian communities near Army posts to protect soldiers against exploitation through commercialized prostitution and the sale of liquor. Conditions near Army camps were prone to be made worse than elsewhere. In the present war everyone appears to be interested in the welfare of the soldiers, and most communities respond to any definite request of the Army for correction of conditions which would tend to demoralize or disable the fighting men.

Within the camps the soldier is instructed in the conduct expected of him and its bearing on his avoidance of exposure to venereal disease. This is done through company commander's talks, special lectures, moving pictures, stereomotograph exhibits, and pamphlets. The Army film, "Fit to Fight," is proving effective. As an additional safeguard they are told that if in the event that they exposed themselves and do not take the treatment provided by the physicians they will be court-martialed. At least twice a month every soldier is inspected for venereal disease. If found infected, he is put under treatment, so that he can be rendered noninfectious and returned to duty as soon as possible. As a protection to the civilian community he is restrained to the camp. He loses his pay while disabled, and he is also tried by court-martial and punished if he violates the order requiring the taking of treatment.

Many times the soldier who has venereal disease may be questioned as to the source of his infection, and the information found to be available for planning cooperation with civilian authorities in discovering venereal disease cases which need isolation and treatment.

At the present time 27 commissioned officers of the Sanitary Corps of the Army are engaged in the Law Enforcement Division of the War Department Commission on Training Camp Activities in combating venereal diseases by means of stimulating the enforcement of municipal, State, and Federal laws having to do with the suppression of prostitution and of liquor selling to soldiers. In this way more than 80 red-light districts have been abolished, including 34 outside of the prescribed 5-mile zones in camp communities, and at distances varying from 7 to 100 miles. More than 200 cities and towns have cooperated in the abolishment of districts, the more drastic enforcement of present laws, and the enactment of new legislation, especially that designed to enable the authorities to cooperate effectively with the Surgeons General of the Army and Navy in protecting soldiers and sailors against venereal disease.

The Army, Navy, and Public Health Service are receiving the cooperation of many agencies in venereal disease control among civilians. The Red Cross is maintaining 24 venereal disease clinics in extra cantonment zones, and the Public Health Service is furnishing the medical personnel. States and cities are organizing venereal disease control work, often under a separate bureau or division with special funds.

PURCHASE OF THE CUBAN SUGAR CROP DISCUSSED AT CONFERENCE

The Food Administration authorizes the following:

At a conference held July 11 at the offices of the Food Administration, attended by Señor Carlos Manuel Cespedes, Cuban minister to the United States, R. B. Hawley, and Manuel Rionda, special commissioners appointed by the President of Cuba, Gen. H. H. Morgan, formerly of the State Department and at present representing the United States Food Administration in Cuba, and representatives of the United States Government and the International Sugar Committee, plans for the purchase of the Cuban crop, 1918–19 were discussed.

Will Submit Cost Figures.

No definite conclusions were reached, but the Cuban Commissioners have been requested to submit a brief showing the cost of production of sugar in Cuba at the present time, and the anticipated increase in the cost of the 1918–19 crop as compared with the cost of the production of the 1917–18 crop.

The purchase of the 1917–18 crop was arranged for by the International Sugar Committee last November, and the crop was bought at 4.60 basis f. o. b. Cuba, which was equivalent to 6.005, duty paid, landed in American ports.

No indication has been given by those present at the conference as to the trend of discussion regarding the price that will be paid for the next crop.

The conference was adjourned to meet within 10 days, to consider statements to be presented by the Cuban Commission.

CONTRACTS FOR 61 VESSELS OF 439,800 DEAD-WEIGHT TONS LET BY THE SHIPPING BOARD

47 TO BE OF STEEL CONSTRUCTION

Skinner and Eddy Corporation of Seattle to Build Thirty-Five of the Ships—Fourteen, of 47,000 Tons, to be Wooden Vessels.

The Shipping Board authorizes the following:

During the week ending July 13 contracts for 61 vessels, representing 439,800 dead-weight tons, were let by the United States Shipping Board and Emergency Fleet Corporation. Of this tonnage 392,800 will go into steel construction, the rest into wooden ships.

Thirty-five to One Company.

To the Skinner & Eddy Corporation, of Seattle, went a contract for the building of 35 steel cargo steamships of a dead-weight tonnage of 332,800. The Mobile Shipbuilding Co., of Mobile, Ala., received a contract to build 12 steel freighters of a combined tonnage of 60,000, making 47 of the steel type provided for in the new contracts.

Wooden Ship Contracts.

Contracts for building 14 wooden ships were divided between K. M. Murdock, of Jacksonville, Fla., who will construct 6 of this type, with a total tonnage of 21,000. The Missouri Valley Bridge & Iron Co., of Quantico, Va., which will build 7 of an aggregate tonnage of 24,500, and the Continental Shipbuilding Corporation, of Yonkers, N. Y., which was given a contract for building 1 vessel of 1,500 tons.

Reports Lieut. Roosevelt Missing in Air Battle

The Secretary of War has authorized the making public of the following cablegram:

The ADJUTANT GENERAL,
Washington, D. C.:

Headquarters 1st Brigade, Air Service, reports First Lieut. Quentin Roosevelt, 95th Aero Squadron, first pursuit group, missing. Last seen on enemy's sides of lines in combat with enemy plane(s) about 9.15 morning July 14. Nearest relative, Col. Theodore Roosevelt, Oyster Bay, Long Island, N. Y.

PERSHING.

U. S. TROOPS ADVANCE IN COUNTER ATTACK WITH GREATEST DASH

The Secretary of War made the following statement to the press yesterday afternoon:

The department has received from Gen. Pershing an official confirmation of the opening of the counteroffensive along the lines carried in the newspaper dispatches. American troops are participating both as complete divisions and as units in association with the French. The first objectives seem everywhere to have been attained, and while no accurate count has been made it is clear that many prisoners have been taken, and guns and other war matériel captured.

Our official reports also confirm the fact that the American soldiers advanced with the greatest dash and gallantry, and were still advancing when last heard from.

MINOR MUST PROVE HE IS 18 BEFORE HE CAN ENTER ARMY

The act of Congress approved May 18, 1917, establishes the minimum age limit for voluntary enlistment in the United States Army at 18 years.

A circular letter recently issued by The Adjutant General of the Army says:

"The large number of applications received from parents and guardians for the discharge of minors under 18 years of age, inclosing satisfactory evidence that the soldier is under this age, indicates the necessity of more care on the part of recruiting officers in order to avoid unnecessary expense to the Government and annoyance to troops in the field in the subsequent discharge of such men, and to avoid placing a blot for life on the record of a boy whose offense of misstatement of his age arises usually from a patriotic desire to serve his country.

"Hereafter no applicant under the registration age will be accepted or enlisted until he has proven to the complete satisfaction of the recruiting officer that he has reached the age of 18 years. The proof required will be (a) birth certificate, baptismal record, or school certificate, or, in case (a) is not available, (b) affidavit of parent or of guardian with legal evidence of guardianship."

U. S. S. WESTOVER SUNK BY TORPEDO ON JULY 11 IN EUROPEAN WATERS; TEN OF CREW MISSING

WAS A SUPPLY VESSEL

Ship Was Eastbound When Sunk—Eighty-Two of the Crew Rescued—Assistant Paymaster R. H. Halstead and Ensign R. D. Caldwell Among Those Missing.

The Navy Department authorizes the following:

The Navy Department is informed that the U. S. S. *Westover* was torpedoed and sunk in European waters on July 11. Eighty-two of the crew were saved. Ten have been reported missing, as follows:

Asst. Paymaster Robert Herbert Halstead, United States Naval Reserve Force. Next of kin, Mrs. Myrta J. Halstead, 227 North Sycamore Street, Lansing, Mich.

Ensign Ralph Dillingham Caldwell, United States Naval Reserve Force. Next of kin, Mrs. Lena S. Caldwell, 20 Runnels Street, Woodsford, Me.

John Cole, mess attendant, third class. Father, Louis Jorden Cole, Brentwood, Md.

Bryan Deal, fireman, second class. Mother, Mrs. Ollie Deal, London, Ind.

James Brown Estes, seaman, second class. Mother, Mrs. Drucie B. Estes, Hartwell, Ga.

Edward Lewis Griffin, fireman, third class. Mother, Mrs. Almira F. Griffin, 2032 Ellsworth Street, Baltimore, Md.

Harvey Harrison, fireman, second class. Mother, Mrs. Dora Harrison, Noblesville, Ind.

Frank Willard Hollows, chief machinist's mate. Wife, Mrs. Lucille Hollows, 344 Fourteenth Street SE., Washington, D. C.

Wilfred Joseph Serey, water tender. Father, Jack Serey, Winchester Avenue, Ashland, Ky.

Austin Clyde Wilson, seaman. Father, George C. Wilson, 311 East Twelfth Street, Muncie, Ind.

The *Westover* was a supply ship of about 5,000 gross tons, 410 feet long and 54-foot beam. She was eastbound when torpedoed.

ALIEN PROPERTY CUSTODIAN TAKES OVER THE BECKER STEEL COMPANY AS AN ENEMY OWNED CORPORATION

PLANT IN WEST VIRGINIA

Secret of Making German "High-Speed" Steel Will Be Americanized — Enemy Ownership Disclosed by Investigation, After Vice President Had Reported It Was 100 Per Cent American.

The Alien Property Custodian authorizes the following:

A. Mitchell Palmer, Alien Property Custodian, announced yesterday that he had taken over the Becker Steel Co. of America, with offices at 90 West Street, New York, and a plant at Charleston, W. Va. The Becker Steel Co. owns the patent rights in this country for the manufacture of "high-speed" steel, so important in the construction of aeroplane and automobile motors, and dental and surgical tools.

As a result of the taking over of this company by the Alien Property Custodian the secret German process for the making of "high-speed" steel will be Americanized. The Becker Steel Co. is now doing considerable work in connection with Government contracts.

German Ownership Disclosed.

This company was taken over by the Alien Property Custodian after an investigation by Francis P. Garvan, director of the Bureau of Investigation of the Alien Property Custodian's office, had disclosed its German ownership.

Previous to Mr. Garvan's investigation, Adolph J. Becker, vice president of the company, had made a report to the Alien Property Custodian setting forth that the company was entirely American owned. As a result of Mr. Garvan's disclosures, however, Wilhelm Peters, president of the concern, has made a formal report to the Alien Property Custodian saying that of the 5,297 shares of stock issued in his name 5,000 were held in trust for the enemy interests. This stock is being held for Reinhold Becker, and the Atkien Gesellschaft, of Willich, Germany.

Money Also Held.

Following Mr. Garvan's investigation, Adolph J. Becker discovered that he was holding $54,476 for his brother, Reinhold Becker. He made a formal report of this money to the Alien Property Custodian two days ago.

This report disclosed the fact that in the fall of 1916 Adolph J. Becker purchased tungsten and ferrovanadium with $140,000, which he claims his brother gave to him. He claims this was a personal transaction. Becker said that he purchased 33,075 pounds of tungsten with $90,956 of this money, which he shipped to Germany by the German submarine *Deutschland*. He also purchased 22,050 pounds of ferrovanadium for $25,664, but was unable to ship this to Germany and later sold it at a profit of $6,000. As a result of this transaction Becker reported to the Alien Property Custodian on July 15 last that he was now holding $54,476.38 for the benefit of his brother Reinhold Becker, or Stahlwerk Becker A/G.

Attempt to Camouflage Ownership.

In his investigation of the affairs of the Becker Steel Co., Mr. Garvan discovered a novel attempt to camouflage the enemy ownership. Adolph J. Becker, vice president of the company, is the brother of Reinhold Becker, managing director of the Stahlwerk Becker A/G., of Germany, the business of which is the manufacture of parts for high-power motors, engines used in aeroplanes, and accessories for aeroplanes. In June, 1918, he made a sworn report to the Alien Property Custodian that there were no enemy interests in the Becker Steel Co. He claimed that the 5,000 shares of stock originally held by the enemy interests had been canceled, and that the company was 100 per cent American owned.

Paid Visit to Germany.

Adolph J. Becker claimed that 2,500 of these shares were canceled because his brother, Reinhold Becker, had failed to live up to a contract to deliver certain machinery to the Charleston plant. He also claimed that in June, 1916, he went to Germany and purchased 2,500 additional shares from his brother, and that later he turned this stock into the company and had it canceled. The alleged cancellation of stock was supposed to have taken place early in February, 1917, and shortly after the United States severed diplomatic relations with Germany. He produced no voucher or documentary evidence to substantiate this statement, however.

When Becker was questioned by Mr. Garvan as to whether or not he had any documentary evidence or proof that he had purchased the 2,500 shares of stock from his brother, he claimed that he had same papers regarding the extension of credit to the Stahlwerk Becker Co., Reinhold Becker and himself, and whereas no actual money passed on the sale, the consideration was the future extension of credit, and that these papers when he left the German border were all destroyed by German censors and examining officers. He claims that his clothes were not only examined, but that he was stripped and his back washed with a solution of alcohol to eradicate any message or memorandum that might be printed on his back.

Peters a German Subject.

In adition to the 5,000 shares of enemy-owned stock Mr. Peters reported $250,000 in bonds and $42,000 in accrued interest as being German owned. Mr. Peters is a German subject, but Adolph J. Becker is a naturalized American.

In 1899 Adolph J. Becker came to the United States and he was naturalized in 1907. In 1911 he opened a New York branch of the German house by organizing the Becker Steel Co. of America, a New York corporation, with a capital stock of $10,000, later increased to $250,000.

In 1914 the New York corporation purchased the Baldwin Steel Co. of Charleston, W. Va., and a deed of trust was executed in favor of the Title, Guarantee & Trust Co. of New York of the entire plant and property, securing a $500,000 bond issue.

The New York corporation was dissolved, being succeeded by the Becker Steel Co. of America, a corporation organized in the State of West Virginia, and is at present authorized to do business in the State of New York. The authorized capital stock was $750,000. The company purchased from Reinhold Becker, of Crefeld, Germany, the patents and processes for the making of steel and tools for which they paid $500,000, by the payment of $250,000 in capital stock of the New York corporation, and $250,000 of the bonds of the corporation.

Directors Appointed by Property Custodian to Manage Steel Company

A. Mitchell Palmer, Alien Property Custodian, announces that he has appointed the following directors to act for his office in the management of the Becker Steel Co. of America, which has been taken over by him:

William H. English, vice president of the Empire Trust Co., 120 Broadway, New York City.

E. M. Sawtelle, 5 Beekman Street, New York.

Paul T. Brady, Westinghouse Electric & Manufacturing Co., 165 Broadway, New York.

George Dix, Midvale Steel & Ordnance Co., Philadelphia, Pa.

W. A. McCorkle, president of the Citizens' National Bank, Charleston, W. Va.

Royal A. Weller, 31 Nassau Street, New York, and ex-United States Senator William E. Chilton, of Charleston, W. Va., will act as counsel for the company.

NAVAL MEN ON SAME SYSTEM AS CIVILIANS IN SUGAR BUYING

The Food Administration authorizes the following:

Naval officers and their families who buy at commissary stores have gone on the same honor system of sugar purchase established by the Food Administration for civilians throughout the country. A recent order from Rear Admiral Samuel McGowan, paymaster general, calls attention of commanding officers of shore stations to the fact that 3 pounds per capita per month is the maximum ration and that not more than 2 pounds can be sold at a time to city customers and 5 pounds to dwellers in the country.

Supply officers in charge of commissary stores have been asked to bring this matter to the attention of their patrons.

Trophy Captured by U. S. Marines In Furious Battle in Belleau Wood On Way to Washington Headquarters

Big Maxim Machine Gun Was Used by Platoon Against Germans for Four Days—Two Minewerfers Taken From Enemy May Go to West Point and Annapolis—Correspondence Made Public.

Secretary Daniels authorizes the following:

A heavy German maxim machine gun, captured by United States marines from the Germans in Belleau Wood on June 11, when more than 100 prisoners were taken and 23 German machine guns captured and destroyed, is on its way from the marines in France to Marine Corps headquarters in Washington. This German gun was, with five others that were captured, used by the marines against the Germans for four days.

Two heavy German minewerfers that were captured by the marines in Belleau Wood are to be presented one each to Annapolis and West Point, according to the intention of Brig. Gen. J. G. Harbord, National Army, commanding the marines overseas, if arrangement for their transportation can be made.

The capture of these trophies by the marines at Belleau Wood is made public, through the release of the following Marine Corps' correspondence, for publication:

Correspondence Made Public.

From: Company commander, 76th Company, Sixth Marines.
To: Major General Commandant American Expeditionary Forces, France, June 21, 1918.
Subject: Trophy captured by 3d platoon, 76th company.

I am sending to the Major General Commandant a heavy German maxim machine gun captured at 5.15 a. m., June 11, 1918, in a successful attack on the woods of "Bois de Belleau" by the 3d platoon of the 76th company.

Besides capturing over 100 prisoners, we captured and destroyed 23 German machine guns. We put 6 of the captured guns in my front line, and by excellent operation by my noncommissioned officers numbers of Germans fell victims of their own weapons.

This gun, if it ever reaches the commandant, helped to strengthen my position wonderfully, and it, with five other light maxims, were in excellent operation in my company sector for four days.

(Signed) MACON C. OVERTON,
First Lieutenant, U. S. M. C., Commanding.

HEADQUARTERS FOURTH BRIGADE,
MARINE CORPS, A. E. F.,
June 10, 1918.

From: Commanding General.
To: Commanding Second Division, American Expeditionary Forces.
Subject: Captured minewerfers.

The 1st battalion sixth marines this morning captured in the Bois de Belleau two heavy German minewerfers, caliber approximately 7-inch.

It is recommended that authority be obtained to ship these minewerfers to the United States—one to be presented to the United States Naval Academy and the other to the United States Military Academy. It is recommended, if this be approved, that the minewerfers be shipped as suggested and the academic authorities be requested to provide suitable inscriptions, showing that these weapons were captured by the 1st Battalion Sixth Marines of the Fourth Brigade, American Expeditionary Forces, and are presented with the compliments of the Fourth Brigade, United States Marines.

J. G. HARBORD,
Brigadier-General, National Army.

Copy to Major General Commandant, United States Marine Corps.

Men Who Captured Gun.

The Marine officer commanding the company whose platoon captured the Maxim machine gun supplemented his report with a list of these marines who shared in its capture:

SERGEANTS.

Claude S. Beldin, platoon leader; Julia O. Beldin, mother, Sinnamahoning, Pa.

Richard A. Evans; Etta Evans, mother, substation 2, Richmond, Va.

Eric T. Thompson; Rosa Thompson, mother, 1000 Thompson Street, Carbondale, Ill.

George E. Cilley; George Cilley, father, Harmony, Me.

CORPORALS.

Clarence D. Bradford; Lim Bradford, father, Ashland, Tex.

William J. Gurley; George C. Gurley, father, 196 West Henry Street, Richmond, Va.

Charles M. Clark; Charles R. Clark, father, Ellsworth, Me.

Winfield S. Bredt; Marion Bredt, mother, 2318 Fifteenth Street, Moline, Ill.

Marion R. Calmes; Mrs. Emma Calmes, mother, Stanford, Ky.

PRIVATES.

Richard B. Tucker; Adelbert Tucker, father, Lee, Mich.

Leo P. Linneman (killed); Bart Stuntebeck, uncle, Pike and Washington Streets, Covington, Ky.

James W. Kaiser; William and Eliza Kaiser, parents, 1221 Pennsylvania Avenue, East Liverpool, Ohio.

Thomas D. Glen, jr. (killed); Thomas D. Glen, father, R. F. D. No. 6, Atlanta, Ga.

Joseph F. Newitt (killed); Lucie Newitt, mother, 5322 Magazine Street, New Orleans, La.

John W. Mofield (killed); Mary Mofield, mother, Hondo, Tex.

Peter Marcusse; Jacob Marcusse, brother, 107 Burdick Street, Kalamazoo, Mich.

Clarence N. McKee; Robert H. McKee, father, Carters Creek, Tenn.

Leo J. Cunniff; Mary M. Cunniff, mother, 80 Delevan Street, Rochester, N. Y.

William T. Altizer; Bertha Altizer, mother, Sweetwater, Tex.

Lawrence A. Hack; Mrs. Angeline Hack, mother, 615 West Fifth Street, Monroe, Mich.

Roy F. White; Myra White, mother, Campbell Hill, Ill.

Thomas H. Sanders; Nora Sanders, mother, Iola, Tex.

Gerald E. Mathis; John A. Mathis, father, general delivery, Enfield, Ill.

Morris C. Schwartz; Daniel Schwartz, father, 3608 Irving Park Boulevard, Chicago, Ill.

Harry W. Clark; Emily Clark, mother, 3712 Calumet Avenue, Chicago, Ill.

Even P. Wells; Saley Wells, mother, Bonne Terre, Mo.

William H. Faga; Mary Faga, mother, 1134 North Franklin Street, Chicago, Ill.

Ray E. Sullens; George M. Sullers, father, Hillsboro, Mo.

Arvid H. Hanson; Ida Marie Hanson, 4035 Clayton Avenue, St. Louis, Mo.

John A. Weber, jr.; John A. Weber, sr., 6026 Blackstone Avenue, Chicago, Ill.

Finley G. Iseman; John Iseman, father, general delivery, Burlington, Kans.

Locke P. Tuttle; N. P. Tuttle, father, Lubbock, Tex.

Clarence F. Mundstock; Gertrude Mundstock, mother, 3938 Trevor Avenue, Cheviot, Ohio.

Abner T. Eskew; Tilda Eskew, mother, R. F. D. No. 2, Palmetto, Ga.

Martin Eigelbach; Peter J. Eigelbach, father, 533 Garden Avenue, Louisville, Ky.

John V. Bryan; John V. Bryan, father, Box No. 90, Downers Grove, Ill.

Hiram B. Pottinger; Lawrence Pottinger, 2226-A Indiana Avenue, St. Louis, Mo.

Verner Lindstrom; Emma Lindstrom, mother, Lemont, Ill.

John P. Bell; Mrs. Albert A. Bell, 5006 Catalpha Avenue, Hamilton County, Md.

Elmer I. Nygren; John Nygren, father, 3004 Lundal Street, Chicago, Ill.

Steven G. Kropilak; Steven Kropilak, father, 1612 Tiago Street, Shamokin, Pa.

George M. Ebel, jr.; Margaret Ebel, mother, 408 Bristol Street, Eufalla, N. Y.

John E. Malecki; Jennie Malecki, mother, 409 Arthur Avenue, Milwaukee, Wis.

Robert L. Dutro; Clarence S. Dutro, father, Groveport, Ohio.

John F. Meehan; Bridget Meehan, mother, 3555 Southport Avenue, Chicago, Ill.

Joseph R. Whipple; Mrs. Maude Lennon, sister, R. F. D. No. 57, South Wilton, Conn.

Howard P. Burton; William Burton, father, Vevay, Ind.

SERVICE BUREAU
. . . OF THE . . .
COMMITTEE ON PUBLIC INFORMATION
FIFTEENTH AND G STREETS
WASHINGTON, D. C.
Information available as to Officials, Functions, and Location of all Government Departments

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor*.

RATES BY MAIL.

Daily	One year	$5.00
	Six months	3.00
	One year, postage prepaid to foreign countries	8.00
	Six months, postage prepaid to foreign countries	4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

U. S. FARM HELP SPECIALISTS TO AID COTTON CROP HARVEST

The United States Department of Agriculture issues the following:

Federal farm-help specialists from all the Southern States, with representatives of the United States Department of Agriculture and the State agricultural colleges, are in session in Birmingham, Ala., to consider ways of assuring sufficient labor for the harvesting of the South's great crop of cotton.

In some States plans to assure labor already have been made. Reports from these States will be received by the farm-help specialists, and arrangements will be made to adopt their plans in other States so far as possible.

Harvest Begins August 15.

The cotton crop, one of the largest the South has ever grown, will begin to be generally harvested about August 15. It presents a problem of particular importance, according to officials of the United States Department of Agriculture.

Prof. G. I. Christie, of Purdue University, in Indiana, who, as assistant to the Secretary of Agriculture, represents the department in farm-labor matters, is to present the farm-labor policy of the department. Dr. E. V. Wilcox, of the office of farm management, also is to attend the conference.

Better than money because they earn money; buy a WAR-SAVINGS STAMP TO-DAY.

American Official Communique on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique, No. 65.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES, *July 18, 1918.*

Section A.—American troops, cooperating with the French in an attack on the enemy's positions between the Aisne and the Marne, penetrated his lines to a depth of several miles, capturing many prisoners and guns.

Section B.—On the night of July 15 to 16 a platoon of our troops operating east of Rheims was attacked by a raiding party of 21 Germans. Our men went over the top to meet them and killed the entire party with the bayonet without loss to themselves.

One of our regiments in this same region reports that a party of Germans, with French helmets and coats, attempted to penetrate one of our trenches. The leader succeeded in approaching our machine gunner, posted at this point, saying that he was French. When within a short distance of the gun the German threw a grenade, which wounded our gunner. The gunner's team mate seized the gun, turned it on the Germans, and put them to flight. Another of our regiments in the same locality reports that an officer in French helmet and coat approached an outpost guard, saying that he was bringing back a detachment of French from farther front and requested the guard not to fire. The detachment proved to be Germans in French helmets and coats.

COMPTROLLER OF CURRENCY NAMES CHIEF BANK EXAMINERS

The office of the Comptroller of the Currency issues the following:

The Comptroller of the Currency announces the appointment of the following chief national bank examiners for the first, ninth, and twelfth Federal reserve districts, effective at once:

FEDERAL RESERVE DISTRICT NO 1.

Daniel C. Mulloney, chief national bank examiner, headquarters Boston.

FEDERAL RESERVE DISTRICT NO. 9.

Fred Brown, chief national bank examiner, headquarters Minneapolis.

FEDERAL RESERVE DISTRICT NO. 12.

Walter E. Wilcox, chief national bank examiner, headquarters San Francisco.

Chief Examiner Daniel C. Mulloney, of Maine, was appointed as a national bank examiner on February 21, 1913. For some years prior to his appointment as examiner he had been attached to the Comptroller's office at Washington. Upon appointment he was first assigned to the State of Maine and later was given an assignment of banks in the larger cities (other than New York City) in the States of New York and New Jersey. On January 1, 1918, following the resignation of former chief examiner James D. Brennan, Mr. Mulloney was appointed acting chief national bank examiner for the first district.

Chief Examiner Fred Brown, native of Colorado, was appointed a national bank examiner December 1, 1911. Prior to his appointment he had had 17 years banking experience in the State of Idaho, to which State he was assigned as examiner. On January 1, 1918, Mr. Brown was appointed as acting chief national bank examiner for the ninth district, succeeding Mr. P. M. Kerst, resigned.

Chief Examiner Walter E. Wilcox was commissioned as a national bank examiner on January 30, 1911, having previously been cashier of a national bank in Kansas. He was first assigned to a district in Kansas, but later was designated as examiner-at-large to undertake special work, and subsequently was placed in charge of the Los Angeles (Cal.) territory. On February 20, 1918, Mr. Wilcox was appointed as acting chief examiner for the twelfth district, succeeding Mr. Claud Gatch, resigned.

ANOTHER RECONSTRUCTION UNIT SOON TO JOIN FIRST IN FRANCE

The following statement from the Office of the Surgeon General is authorized by the War Department:

A request has been received from overseas for another unit of reconstruction aides. These have been selected and will shortly join the first unit which has been working in France since early in May.

All Trained Specialists.

About half of these women are trained specialists in physio therapy and the balance in occupational therapy. They are graduates of either normal schools of physical education and have had experience in dealing with pathological cases or have been trained as craft workers in schools of industrial arts and crafts.

Assigned to Hospitals.

They are assigned to base and general hospitals where they function in physical and mental reconstruction which is given to the disabled soldiers until they are discharged from the Army.

Reconstruction aides are civilian employees of the Medical Department of the Army. Their pay when serving in the United States is $50 per month with allowance for quarters and subsistence and $60 per month when serving abroad.

Easy to buy, convenient to handle, no red tape—Get a WAR-SAVINGS STAMP to-day.

WORK OF CONGRESS BRIEFLY TOLD

In the Senate yesterday Senator Gore, chairman of the Committee on Agriculture, concluded the speech he began last Monday in opposition to the veto of the agricultural appropriation bill containing the amendment increasing the guaranteed price of wheat to $2.40 a bushel. He charged that the veto had been based upon misinformation concerning the wheat situation that had been supplied to the President. Because of the action of the Government, Mr. Gore said, the wheat farmers of the Northwest were compelled to accept approximately 80 cents a bushel less for their wheat than the market price for the product.

A petition signed by "Friends of Irish Freedom" asking the United States to secure independence for Ireland was laid before the Senate yesterday by Senator Lewis with a request that it be printed in the Record. Senator King entered an objection and the petition was referred to the Committee on Printing to consider the advisability of giving it a place in the Congressional Record.

NAVY MEN LOSE LIVES SAVING BATHERS FROM DROWNING

The Navy Department authorizes the following:

The Navy Department has informed the next of kin of Henry Peter Hanson, machinist's mate, second class, N. N. V., and Chalmer L. Pollitt, electrician, second class, U. S. N. R. F., of the heroic manner in which they met their death.

An unexpected tide rip endangered the lives of many bathers at Ocean Beach, Cal., May 5, and the commanding general of the Fortieth Division, U. S. A., reports that Hanson and Pollitt, after saving several men from drowning, lost their lives in attempting to rescue others who were in danger.

Hanson enlisted at Seattle, Wash., September 1, 1917; father, H. P. Hanson, Seattle, Wash. Pollitt enlisted at Los Angeles, Cal., April 10, 1917; mother, Mrs. Emma Pollitt, Los Angeles.

Secretary Daniels has commended Rudolph Oeser, chief yeoman, U. S. N., and Lamonte J. Brundige, electrician, third class (radio), U. S. N. R. F., for their heroism, on the same occasion, in assisting in the rescue of men from drowning. Oeser and Brundige went into the water repeatedly until completely exhausted, and succeeded in rescuing a number of persons whose lives were endangered.

Oeser enlisted at San Diego, Cal., March 24, 1914; mother, Mrs. Rudolph Oeser, San Diego. Brundige enlisted at Los Angeles, April 28, 1917; father, Lewis A. Brundige, Whittier, Cal.

RECORD W.-S. S. SALES.

Receipts of $16,431,933, July 9, from war-savings and thrift-stamp sales were the largest of any single day since these securities were offered to the public. Sales during the first nine days of July totaled $46,552,529.

STATEMENT ON SOUTHERN PINE PRICES ON GOVERNMENT ORDERS

The War Industries Board authorizes the following:

SETTLEMENT OF QUESTION OF PRICE WITH SOUTHERN PINE EMERGENCY BUREAU AS TO ORDERS ON HAND PRIOR TO MIDNIGHT, JUNE 14, 1918.

On all Government orders on which the price is fixed by the Government the price in effect on the date of shipment rather than the price in effect on the date the order is placed shall control, unless expressly stipulated to the contrary at the time the price is fixed, or unless a different rule is adopted by mutual agreement between the Government and the manufacturer.

Condition to the Rule.

As a condition to this rule, it must be understood, however, that the shipper will exercise due diligence in an effort to prepare and move the items covered by such order, and that the Southern Pine Emergency Bureau will exercise its best efforts in inducing the members with whom orders are placed to send shipments forward as promptly as possible; provided that if it is established that due diligence has not been used by any mill, the price shall be the lower price applying in the price-fixing periods involved.

Orders Unshipped.

All orders for the Government unshipped on June 14, 1918, shall take the price prevailing at the time such orders were placed with the bureau; provided that this rule shall not be construed to apply to orders placed prior to June 14, 1918, for shipment after September 14, 1918. All restrictions as to deferred shipments are permitted to be removed. If not permitted by car builders to be shipped by September 14, the price applying at the time of delivery shall apply.

SECRETARY DANIELS COMMENDS FIVE NAVY MEN FOR HEROIC ACTS

Secretary Daniels has commended Arthur Richard Schoener, seaman, United States Navy, for his gallantry in jumping overboard from the U. S. S. *Isabel* and rescuing another enlisted man from drowning. As a sailing launch was being hoisted the relieving hook became detached, allowing the launch to drop and throwing Seaman Wyllie, the bowman, into the water in a stunned condition. Schoener dived from the deck of the *Isabel* and rescued his shipmate. Schoener enlisted at New York April 30, 1917. George Schoener, father, New York City (no street address given).

Charles J. Lyons, boatswain, first class, United States Naval Reserve Force, has been commended for his gallantry in jumping overboard from the U. S. S. *Mount Vernon* and rescuing from drowning a seaman who had accidentally fallen overboard while at work in one of the ship's boats. Lyons enlisted at Boston June 4, 1917. Annie Lyons, mother, Dorchester, Mass.

Secretary Daniels has commended Hernando E. Allen, chief machinist's mate; Harry Koppel, seaman, second class; and William H. Kane, seaman, second class, United States Naval Reserve Force, for rescuing from drowning Second Asst. Lighthouse Keeper Austin Foss on June 16. Koppel and Kane saw an overturned boat off shore with a man clinging to it. Fastening themselves together with a heaving line, they waded out to a ledge. A heavy surf was breaking on them, but they swam out to another ledge, which was partially under water. From this point they heaved a line to Foss, who just had strength enough to make it fast. By this means they dragged him to the ledge.

Patrol Boat to the Rescue.

In the meantime help had been summoned and the scout patrol boat *Pauline*, which was commanded by Allen, went to the rescue of the three men. The heavy surf made it impossible for the vessel to approach near the ledge to which the men were clinging. Allen thereupon got into the boat, which he had picked up, and sculled to the rocks, rescuing the imperiled men.

Allen enlisted at Machias, Me., April 17, 1917; Mrs. Beatrice J. Allen, wife, Machias, Me. Koppel enlisted at Boston December 13, 1917; Mrs. Sarah Koppel, mother, Revere, Mass. Kane enlisted at Boston December 13, 1917; Mrs. Josephine V. Kane, mother, Cambridge, Mass.

U. S. FUEL ADMINISTRATION REVOKES DEALER'S LICENSE

The United States Fuel Administration issues the following:

Action was taken by the United States Fuel Administration July 17 revoking fuel distributor's license X-02284, held by John W. Moore, of Columbus, Ohio, effective July 31. Notice to that effect has been sent all State fuel administrators, all licensees, and all district representatives of the Fuel Administration.

In addition to the revocation of the license, The Elk Coal Co., of which Mr. Moore is president, will be required to refund, to the extent of several thousand dollars, commissions charged and collected by it upon transactions carried on under the license issued by the Fuel Administration to Mr. Moore.

Held Distributor's License.

On April 20 a fuel distributor's license was issued to Mr. Moore, entitling him to carry on the business of a distributor of coal. Later it was discovered that the Elk Coal Co. was circularizing the trade and carrying on a business of selling coal other than their own product, under the license issued to the president of the company personally, and was displaying on its letter heads the rubber stamped number of the license held by Mr. Moore.

Correspondence on file in the Fuel Administration revealed that the Elk Coal Co. had rejected the opportunity to become a licensee to carry on the business of selling coal, stating that the president of the company, Mr. Moore, would apply personally for the license. In the hearings upon the case held in Washington June 27 and July 12, Mr. Moore's only plea in mitigation of his offense was alleged ignorance of the regulations of the Fuel Administration.

53,515 MORE DRAFT MEN CALLED BY PROVOST MARSHAL GENERAL

Further draft calls have been issued by the Provost Marshal General, as follows:

For 46,000 white men for general military service; date of entrainment August 5–9, as follows:

Alabama, 1,100. Camp Shelby, Hattiesburg, Miss.

Arizona, 150. Camp Fremont, Cal.

Arkansas, 1,000. Camp Shelby, Hattiesburg, Miss.

California, 1,500. Camp Fremont, Cal.

Colorado, 700. Camp Fremont, Cal.; 1,500. Fort Logan, Colo.

Connecticut, 500. Fort Slocum, N. Y.

Delaware, 100. Camp Wadsworth, Spartanburg, S. C.

District of Columbia, 50. Camp Shelby, Hattiesburg, Miss.

Florida, 100. Camp Shelby, Hattiesburg, Miss.

Georgia, 500. Camp Greenleaf, Fort Oglethorpe, Ga.

Idaho, 2,000. Camp Fremont, Cal.

Illinois, 1,000. Jefferson Barracks, Mo.

Indiana, 1,000. Fort Thomas, Ky.

Iowa, 800. Jefferson Barracks, Mo.

Kansas, 1,000. Fort Riley, Kans.

Kentucky, 800. Fort Thomas, Ky.

Louisiana, 300. Camp Shelby, Miss.

Maine, 100. Fort Slocum, N. Y.

Maryland, 700. Camp Wadsworth, Spartanburg, S. C.

Massachusetts, 200. Fort Slocum, N. Y.

Michigan, 1,000. Fort Thomas, Ky.

Minnesota, 1,000. Jefferson Barracks, Mo.

Mississippi, 1,000. Camp Shelby, Hattiesburg, Miss.

Missouri, 1,000. Jefferson Barracks, Mo.

Montana, 300. Camp Fremont, Cal.

Nebraska, 100. Camp Fremont, Cal.

Nevada, 100. Camp Fremont, Cal.

New Hampshire, 50. Fort Slocum, N. Y.

New Jersey, 800. Camp Wadsworth, Spartanburg, S. C.

New Mexico, 200. Camp Cody, Deming, N. Mex.

New York, 2,500. Camp Greenleaf, Fort Oglethorpe, Ga.; 4,000. Fort Slocum, N. Y.

North Carolina, 2,500. Camp Wadsworth, Spartanburg, S. C.

North Dakota, 200. Jefferson Barracks, Mo.

Ohio, 2,500. Columbus Barracks, Ohio.

Oklahoma, 1,200. Camp Fremont, Cal.

Oregon, 400. Camp Fremont, Cal.

Pennsylvania, 5,000. Camp Wadsworth, S. C.

Rhode Island, 100. Fort Slocum, N. Y.

South Carolina, 800. Camp Wadsworth, Spartanburg, S. C.

South Dakota, 400. Camp Fremont, Cal.

Tennessee, 1,100. Camp Shelby, Hattiesburg, Miss.

Texas, 1,800. Camp Cody, Deming, N. Mex.

Utah, 250. Camp Fremont, Cal.

Vermont, 50. Fort Slocum, N. Y.

Virginia, 100. Camp Wadsworth, S. C.

Washington, 800. Camp Fremont, Cal.

West Virginia, 200. Columbus Barracks, Ohio.

Wisconsin, 1,000. Jefferson Barracks, Mo.; 350. Camp Shelby, Miss.

Wyoming, 100. Camp Fremont, Cal.

Call for 7,116 Men.

For 7,116 white and colored men, grammar-school graduates, voluntary until July 22, for general military service; date of entrainment August 15 (except Massachusetts and Connecticut, Aug. 1), as follows:

Connecticut, 106. University of Maine, Orono, Me.

District of Columbia, 100. Alabama Polytechnic Institute, Auburn, Ala.

Indiana, 460. Indianapolis Chamber of Commerce.

Kansas, 360. University of Kansas, Lawrence, Kans.

Kentucky, 219. Alabama Polytechnic Institute, Auburn, Ala.

Louisiana, 200. Alabama Polytechnic Institute, Auburn, Ala.

Massachusetts, 100. University of Maine, Orono, Me.

Minnesota, 412, University of Minnesota; 515, University of Minnesota Agricultural College, Minneapolis.

Missouri, 900. Rahe Auto School, Kansas City, Mo.

Nebraska, 500. Rahe Auto School, Kansas City, Mo.

North Carolina (colored), 150. Negro Agriculture and Technical College, Greensboro, N. C.

Ohio, 500. Rahe Auto School, Kansas City, Mo.

Pennsylvania, 412, University of Pennsylvania; 144, Erie School Building, Erie, Pa.

West Virginia (colored), 138. Negro Agriculture and Technical College, Greensboro, N. C.

Wisconsin, 1,900. Sweeney Auto School, Kansas City, Mo.

Cooks and Bakers.

For 399 cooks and bakers, voluntary until July 23; date of entrainment August 1, as follows:

California, 128. Presidio, Cal.

Louisiana (col.), 36. Fort Riley, Kans.

New York, 235. Camp Upton, N Y.

FOOD FIRMS DISCIPLINED FOR VIOLATION OF REGULATIONS

The Food Administration authorizes the following:

J. A. Buzzell, of 32 Almont Avenue, Worcester, Mass., has been deprived of his license to deal in foodstuffs by the Food Administration for three months, from July 15, for unfair practices in trade. Buzzell is a wholesaler and jobber of fresh fruits and vegetables and the specific charge against him was the unwarranted rejection of a carload of potatoes.

Hirasch Bros., of Chicago, Ill., have lost their license to deal in rice flour and dried fruits for 60 days for making an excess profit on these commodities. They were given the opportunity to make a contribution of $500 to the Rel Cross in lieu of a further revocation of their license.

For refusing to accept a shipment of hay the license of King & Hearns, hay dealers, of Kinston, N. C., has been revoked. The firm offered various unfounded excuses for rejecting the shipment and refusing to handle in accordance with the direction of the Food Administration.

MEN'S AND YOUTHS' CLOTHING ECONOMY PROGRAM IN EFFECT

The War Industries Board authorizes the following:

The Woolens Section of the War Industries Board has sent to makers of men's and youths' clothing a letter informing them that the tentative program of June 22 covering the manufacture of such clothing and eliminating certain styles is now in effect for the spring of 1919, and that it applies to garments made of all fabrics. The letter adds:

"It has come to the attention of the Woolens Section that there are large stocks of cloth and clothing already made up in the United States. In fact, the information at hand indicates that this supply, if used with reasonable care and thought, should suffice to meet all the ordinary requirements of the country for at least 12 months.

"However, this does not mean that conservation of material is unnecessary. On the other hand, rigid conservation measures must be followed. This is necessary in order to assist the Government in meeting present war conditions and to free as much of our limited stocks of raw supplies and machinery as possible so that production of fabrics for the fighting forces can be increased."

Accompanying this announcement are recommendations for the saving of cloth through the reduction in size of salesmen's samples.

TRADE COMMISSION MAKING IMPORTANT COST INQUIRIES

The Federal Trade Commission authorizes the following:

The Federal Trade Commission is now conducting or has just completed investigations of production costs into some 20 industries for the confidential use of the war branches of the Government.

Of these, the commission's economic division reported, 2 were undertaken for the Fuel Administration, 12 for the War Industries Board, 3 for the Food Administration, and 1 each for the Railroad Administration and the Army.

Complete figures and data on the cost of production are being furnished by the commission. Much of this, it is expected, will be used in determining fair prices on commodities purchased by the Government and in some instances the general public.

The investigations embrace cost inquiries into bituminous coal, petroleum, coke, pig iron, ingots, rolled steel products, copper, zinc, nickel, lumber, sand and gravel, locomotives, canned foods, textiles, military food supplies, meats, and grains.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

ARMY

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	5
Died from wounds	1
Died of disease	7
Died from accident and other causes	1
Wounded severely	58
Missing in action	1
Total	73

Killed in Action.

Sergt. Ralph Barker. Francis M. Barker, Mount Vernon, Ind.

PRIVATES.

Louis U. Chartier. Anthony Chartier, 255 Massaesic Street, Manchester, N. H.

Albert Ernest Dralle. Charles Emel Dralle, Seward, Kas.

William Duffy. Mrs. Mary Duffy, Minerville, Pa.

Erwin Martinson. Mrs. Minnie Martinson, Anchor, Ill.

Died from Wounds.

Sergt. Charles E. Cunningham. Mrs. Augusta Bangbourne, 1317 Lafayette Avenue, Grand Rapids, Mich.

Died of Disease.

Cook Orin E. Amundson. Amund Amundson, Gruver, Iowa.

PRIVATES.

Wilford J. Breckenridge. Henry Breckenridge, New Richmond, Wis.

MARINE CORPS

The following casualties in the Marine Corps are reported by the Commanding General of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	16
Died of wounds received in action	11
Total	27

Killed in Action.

Sergt. John E. Kilgellon. Catherine Kilgellon, mother, 711 Lawrence Street, Canton, Ohio.

Sergt. Henry West. Mrs. Henry West, wife, 60 Congress Street, Boston, Mass.

PRIVATES.

William H. Brown. A. F. Rumbuck, stepfather, 1102 Thirty-third Street, Galveston, Tex.

Charles F. Burns. Mary Burns, mother, 104 Seventh Street, Duquesne, Pa.

Joseph E. Dowling. Joseph P. Dowling, father, 2417 Nicholas Street, Philadelphia, Pa.

Wigbert A. Fien. Mary Fien, mother, 1094 Lyell Avenue, Gates, N. Y.

Edward P. Forbes. Jesse R. Forbes, father, Windsor, Colo.

David Goldberg. Carrie Goldberg, mother, 506 Mansfield Place, Brooklyn, N. Y.

Albert E. Jones. Ann Jones, mother, 857 River Street, Troy, N. Y.

Maroni Kleinman. Lulu Kleinman, mother, Toquerville, Utah.

Robert R. Lanham. Mary Lanham, mother, 748 Hilger Street, Detroit, Mich.

William F. Peloubet. Francis W. Peloubet, father, R. F. D. No. 1, Asheville, N. C.

William J. Resendes. Emma Resendes, mother, General Delivery, Bodega, Cal.

John P. Thompson. Joe H. Thompson, brother, 1208 Clay Avenue, Houston, Tex.

David G. Wisted. Marie Roe, sister, 1201 East Fourth Street, Duluth, Minn.

Michael Zippay. John Zippay, father, 1217 McKean Avenue, Charleroi, Pa.

Died of Wounds.

Corpl. Oscar J. Moore. Jake Moore, father, Oxford, Ark.

Corpl. Gail O. Phillips. Darins Phillips, father, 342 Eastern Avenue, Herkimer, N. Y.

PRIVATES.

Archibald D. Benners. George B. Benners, father, Ambler, Pa.

Arthur Card. Anna Card, mother, 40 Alexandra Avenue, Madison, N. J.

William A. Clark. Kittie Clark, mother, 3849a Flad Avenue, St. Louis, Mo.

Joseph Danielson. Johanna Danielson, mother, 4315 North Central Park Avenue, Chicago, Ill.

McKinley Deaton. Dan Deaton, father, Barbourville, Ky.

Bert Gordon. (None given.)

Alton E. Muncey. Edith M. Muncey, mother, 186 Pitch Avenue, Providence, R. I.

John Talaska. Carl Talaska, father, 63 Waddale Way, Rochester, N. Y.

Edmund M. Wilson. William Wilson, brother, 4631 Filmore Street, Pittsburgh, Pa.

TWO NAVAL CASUALTIES.

The Navy Department reports the following casualties:

Robert G. Mitchell, chief yeoman, U. S. N. R. F., accidentally drowned July 14 while on liberty. Body was recovered. Mother, Mrs. Florence Mitchell, Fairfax, Cal.

Francis Joseph Driscoll, seaman, U. S. N., accidentally knocked overboard from coal lighter and drowned July 12, at Hampton Roads, Va. Father, C. Driscoll, 71 Warren Street, Revere, Mass.

Denial that Washington's Retail Meat Prices are Highest in this Country Made by Bureau of Labor Statistics

FIGURES IN OTHER CITIES GIVEN

Commodities Other Than Meats Also Higher in June in Certain Places, According to Comparisons Made By the Bureau.

The Department of Labor authorizes the following:

It is not the desire of the Bureau of Labor Statistics to defend prices charged in Washington, but it does wish to correct erroneous statements which have been made concerning retail prices of food in various cities of the United States. The impression that the District of Columbia leads the Nation in prices of meats, and that meats in 35 other cities are lower than here is misleading. A proper explanation of the figures compiled by the bureau is due both to the merchants who send prices regularly each month to the bureau and to the District food administration for its work in stabilizing prices.

Comparisons have been made of April prices. The statement that Washington is higher than any other city in meats is not true. On April 15 Philadelphia was higher than Washington on four out of the five cuts of beef, for which prices are collected by the bureau. New York was higher on two of the five beef quotations. Baltimore was higher on plate beef. Scranton was higher on rib roast. Prices in 8 cities were higher than Washington on sirloin steak; 6 cities higher on round steak; 11 cities higher on rib roast; 6 cities higher on chuck roast; 11 cities higher on plate boiling beef; 25 cities higher on sliced bacon and 1 other city had the same price; 9 cities were higher on sliced ham; 3 cities higher on leg of lamb and 1 had the same price; 21 cities higher on canned salmon. Only 3 out of the 46 cities were cheaper on all meats than Washington.

Grades of Meat Differ.

The figures alone do not afford a just comparison in meats in different localities as grades of meat on the market and methods of cutting differ to quite an extent in different parts of the country.

The statement was made that such articles as round steak, eggs and potatoes are from 25 to 35 per cent higher in Washington than in a majority of the 35 cities. In April, 10 cities out of 46 for which prices are shown in the bureau's report, had higher prices for potatoes, and 5 cities had the same price as Washington. Eleven cities were higher in April for eggs than Washington, and 7 cities had higher prices on round steak than Washington.

In making the comparison of the price of sirloin steak in Washington in April, 1914, and April, 1918, the statement has been made that the price had nearly doubled. During the period mentioned, sirloin steak increased in Washington only 52 per cent.

Figures have just been compiled for 50 cities for June, 1918. These figures show an increase for the United States in all articles of food in the five-year period, June 15, 1913, to June 15, 1918, of 66 per cent; in the one-year period from June 15, 1917, to June 15, 1918, of 7 per cent; and in the one month from May 15 to June 15, 1918, of 2 per cent.

If prices in Washington on June 15 were compared with other near-by cities, it shows that out of the 28 articles of food shown by the bureau, prices were higher in Philadelphia for 10 articles than in Washington; in New York prices were higher for 7 articles; in Baltimore prices were higher for 4 articles; in Scranton prices were higher for 8 articles. Below is a list of the articles higher in the other cities than in Washington on June 15.

Philadelphia was higher for sirloin steak, round steak, ham, eggs, butter, cheese, flour, corn meal, rice, and potatoes. Rib roast was the same price as in Washington.

New York was higher for plate boiling beef, eggs, cheese, flour, corn meal, potatoes, and onions.

Baltimore was higher for plate boiling beef, ham, flour, and corn meal.

Scranton was higher for plate boiling beef, sliced bacon, canned salmon, eggs, flour, corn meal, sugar, and coffee. Bread was the same price as in Washington.

Fair Price List.

Comparing prices for June 15, 1918, only on the articles quoted by the District Food Administration in their weekly "Fair Price List" in Washington, in Philadelphia, Baltimore, New York, and Scranton, Washington had the lowest prices for flour and corn meal. The price in Washington for cheese was lower than in New York, Philadelphia or Baltimore; the price on eggs was lower than in New York, Philadelphia, or Scranton; the price for sliced ham was lower than in Philadelphia or Baltimore; the price on potatoes was lower than in New York or Philadelphia; the price on sliced bacon was lower than in Scranton. Bread in Scranton and Washington was higher than in Philadelphia, New York, or Baltimore. Washington had the highest price only on beans and lard.

U. S. RAILROAD ADMINISTRATION TO FORM ACCOUNTING STAFF

U. S. Railroad Administration,
Division of Public Service
and Accounting,
Washington, July 10, 1918.

P. S. and A. circular no. 15.

The chief accounting officers of Class I carriers are requested to at once submit the name of any male employee under their jurisdiction who can be spared from his present duties and who, in their judgment, is qualified to correctly interpret and apply the provisions of General Order No. 17.

It is proposed to temporarily attach such persons to an accounting organization to be formed here at Washington for the purpose of examining the accounts stated upon the Federal books and to see that the proper separation between the corporate and Federal interests has been made thereon.

In submitting the name of a candidate for one of these places there should also be furnished information indicating the age of the person recommended and the amount of salary which he now receives or is likely to receive from the railroad in the near future. No employees receiving over $4,000 per annum should be included among the names of persons recommended.

C. A. Prouty, *Director.*

STEPS TO RELIEVE CONGESTION IN JERSEY FACTORY DISTRICT

The Department of Labor authorizes the following:

There are 34 large factories engaged on war contracts in South Amboy, Perth Amboy, and Elizabeth, N. J. It is a highly congested district and one in which 18,000 additional workingmen have been taken on since 1915. Available accommodations of a sanitary and wholesome nature have long since been exhausted. But, on the other hand, at Asbury Park, Long Branch, Ocean Grove, Bradley Beach, and elsewhere along the New Jersey coast a canvass through postmen reveals more than 600 vacant houses and flats and several thousand vacant rooms in hotels and private dwellings.

The Bureau of Industrial Housing and Transportation has had a detailed canvass made of every vacant house, flat, and room in this district. A registry has been established in Perth Amboy with branches in Asbury Park and Long Branch, and arrangements have been made for a special train, which ran for the first time July 18, leaving Asbury Park at 6 o'clock a. m. This train runs express to Morgan and South Amboy, where connection is made with a train on the Raritan River Railroad. Returning, this train leaves South Amboy at about 4 p. m.

The running time between Asbury Park and South Amboy will be about 40 minutes. Special round-trip tickets are provided for workingmen employed in war industries at 30 cents apiece.

Employees Given Four Addresses.

Extensive publicity has been carried on within the factories at Morgan, South Amboy, and Perth Amboy, through employment managers to reach the workingmen. Each employee will be supplied with addresses of four houses, flats, or rooms, as preferred, in the Asbury Park district, and guides will be provided at the station to take them to these vacant quarters. Detailed statements are available concerning size, rent, location, sanitation, and equipment of all quarters listed. It is, therefore, possible to provide each worker with the type of houses he prefers.

It is hoped, by means of these special trains morning and night, to induce considerable numbers of war workers in this congested district to take residences in the Asbury Park district, where wholesome quarters and excellent civic, educational, and recreational facilities are available.

PROPERTY OF PENNA. STATE LIBRARY NOT TO BE TAKEN FROM THE LIBRARY

U. S. S. SAN DIEGO SUNK OFF NEW YORK HARBOR; NO KNOWN LOSS OF LIFE; CAUSE NOT DETERMINED

WAS ARMORED CRUISER

Carried a Complement of 1,114 Officers and Men—Captain Believes Sinking Was Due to Torpedo, But Conclusive Factors, on Which to Base Definite Opinion, Are Lacking.

The Navy Department yesterday (July 19) issued the following:

The Navy Department has received reports from the Third Naval District stating that the U. S. S. San Diego was sunk 10 miles southeast of Fire Island Light at 11.30 o'clock this morning.

One officer and two boats' crews were landed at Life Saving Station No. 82, on Long Island. Other survivors are in boats and four steamers are standing by.

So far as can be ascertained, there appears to have been no loss of life. The cause of sinking has not yet been determined.

The San Diego was an armored cruiser of 13,680 tons displacement, and carried a complement of 1,114 officers and men.

Report From Chief of Staff.

The Navy Department this morning (July 20) received the following dispatch from the Chief of Staff, Cruiser Force:

The captain of the San Diego reports that he is inclined to the belief that the ship was sunk by torpedo. There are no conclusive factors, however, on which to base a definite opinion at present, in view of following circumstances:

1. No torpedo wake was seen.

(Continued on page 7.)

"LIGHTLESS NIGHTS" ORDER AFFECTING WHOLE COUNTRY IN EFFECT NEXT WEDNESDAY

BELIEVES GEN. FOCH CONVINCED ALLIED STRENGTH IS SUFFICIENT TO DELIVER OFFENSIVE BLOWS

STATEMENT BY SECRETARY BAKER

Gradual Extension of the Heavy Counter Attacks by French and Americans Indicated—Position of Germans Less and Less Tenable.

The Secretary of War in his daily press conference said yesterday:

"The attention of the world is, of course, focused on the tremendous counter blow being delivered by Gen. Foch. Gradual extension of these operations to the east is indicated in the press dispatches, but as yet is not officially confirmed. The gain on the front of the original counter thrust has been deepened, narrowing the salient, and making the position of its German occupants less and less tenable.

Fall of Soissons Indicated.

"We have no report of the capture of Soissons, but the battle has been raging at that part of the front, and the fall of Soissons seemed to be indicated by the progress made at the time of latest official dispatch.

"The significance of this movement lies in the fact that the supreme commander evidently feels that the allied forces are now sufficiently strong to justify vigorous offensive action.

Quartermaster General Nomination.

"In sending the nomination of a permanent Quartermaster General to the Senate by the President, Gen. Rogers was named, and this incidentally raised the question as to why Gen. R. E. Wood's name was not sent. Under the law Gen. Wood is not eligible. The nominee has to be one of the ranking officers in that corps, and he must have served a certain length of time in the corps. Gen. Wood has neither of these qualifications.

Gen. Wood's Administration.

"Gen. Wood is not going to leave at once. Gen. Rogers will not come from France for a while. When the change is made Gen. Wood will go to France for very important work there. Gen. Wood's work as Acting Quartermaster General has met with the unqualified approval of the War Department."

FOUR DAYS A WEEK IN EASTERN STATES

Monday and Tuesday Only In Rest of the Nation—Applies to All Outdoor Illumination, Except Roof Gardens, Restaurants and Open-Air Picture Theaters—Restrictions on Street Lighting.

The Fuel Administration authorizes the following:

The United States Fuel Administration yesterday made public an order, effective July 24, restricting the use of fuel for outdoor illumination. Under the order the use of light generated or produced by the use or consumption of coal, gas, oil, or other fuel for illuminating or displaying advertisements, announcements, or signs, or for the external ornamentation of any building, will be discontinued entirely on Monday, Tuesday, Wednesday, and Thursday of each week within New England and the States of New York, Pennsylvania, New Jersey, Delaware, Maryland, and the District of Columbia, and will be entirely discontinued on Monday and Tuesday of each week in all the remainder of the United States. The order excepts bona-fide roof gardens and outdoor restaurants and outdoor moving-picture theaters.

Street Lighting Restricted.

Street illumination in all cities will be restricted to the hours between sunset and sunrise, and the amount of public lighting in any city will be reduced to that necessary for safety. The order charges local fuel administration officials with the duty of arranging with the proper municipal authorities for the regulation of public lighting, in accordance with the provisions of the order.

The use of light for illumination or display in shop windows, store windows, or in signs in show windows will be discontinued from sunrise to sunset and will be discontinued entirely on the "lightless nights" designated by the order.

The Bureau of Standards of the Department of Commerce has advised the Fuel Administration that it is estimated that about 500,000 tons of coal per year is used for advertising purposes, including

(Continued on page 15.)

FRANCO-AMERICAN FORCES HAVE GAINED 7 MILES ON 22-MILE FRONT, GEN. MARCH STATES, IN DESCRIBING GEN. FOCH'S BLOW; MORE THAN 1,200,000 MEN SENT ACROSS

German Drive Along the Marne Definitely Halted—Seven Divisions of American Soldiers Engaged—One Regiment of Colored Troops Also Participating in Battle.

Statement of Gen. March, Chief of Staff, to the press:

"Since I last talked with you the field of interest has shifted from the Italian and Balkan fronts to our own sector in France. Last Monday, the 15th, the Germans began an attack which covered a 60-mile front, one-half of which covered the very hilly ground between Chateau Thierry and Rheims, the other half the plain of the Champagne between Rheims and the Forest of Argonne.

"In the Champagne district the position which was held largely by French troops, with the assistance of one American division and a regiment of United States colored troops, was penetrated only a short distance at a few points. The Champagne district is under the command of Gen. Gouraud, of the French Army. Gouraud is one of the most striking personalities in France among the army commanders. He is a man about 50 years of age, as he seemed to me, erect and soldierly. He has been in action all over the world and has on his sleeve the five blesse' stripes, wound chevrons, which means that he has been wounded five times; several of the wounds were of such a character that he was absolutely shot up; he has lost one arm, and a man of less determination and force could never have survived. The French call him 'tres soldat'—'every inch a soldier.' He is a man of such determination and force that in any German drive against his troops his men will be inspired by his presence to die where they are.

Extent of German Advance.

"Along the Marne between Chateau Theierry and Rheims, the Germans made an advance of from 4 to 5 miles on a 23-mile front. The terrain at that point is very difficult, wooded hills rising up to a height of from 400 to 500 feet, perhaps. This general movement has been brought to a standstill. The object of the entire German attack was not a great strategic object like an advance on Paris or an advance on the English ports. It plainly had for its objective simply the applying of the nutcracker process on the city of Rheims. If it were possible for them to come in there and squeeze Rheims they could force a surrender in time. Rheims, however, as has been shown, is very well organized for defense. Without going into details, it is organized for house-to-house defense, and that has been the reason why the Germans have not been able to get in.

"As soon as the German advance along the line Marne east of Chateau Thierry had been brought to a standstill, Foch struck hard along the western side of the salient. The series of lines you see on the map represents the German advances which produced that salient, day by day, and at the start of this fight which began last Monday our line was along here (indicating a line running southward from the Aisne to the Marne). The blue cord represents the line I pointed out to you on the larger detailed map, showing former German advances day by day, and our troops held that line when the counter-offensive began. The front over which we advanced 22 miles, and the maximum penetration so far reported officially has been to a depth of 10 miles, and at the other points indicated there has been a penetration of 7 miles, so that we have gone forward 7 miles on a 22-mile front. This is the official statement of how far we have gone. The last indication we had in the official reports was that fighting was still in progress, and the official reports also indicate the capture of guns and prisoners.

Seven American Divisions.

"In this advance, and opposing the advance of the Germans, there are seven American divisions and one regiment of colored troops.

"The press has carried during the past few days statements about the number of troops we have continued to send over. It was an estimate made by some person who arrived at his conclusion by assuming that we were sending troops over at the same rate we did last month, and, like many guesses, it is wrong. The statement published in the papers was that we had sent over about 90,000 men last week, and that the number was now a little short of 1,200,000. The fact of the matter is that we have passed the 200,000 mark on the second million. We have over 1,200,000 embarked. If you will wait for these things I will tell you the facts; they are always better than when you guess.

Illinois National Guard.

"One question asked me has been: 'Will you be good enough to tell us where the Illinois National Guard, which trained at Fort Logan H. Roots, is situated in France?' The division is commanded by Gen. George Bell, jr., and is in the English training sector. A unit from that division took part in the fighting which was reported last week where the Australians made an advance accompanied by American troops, so that the training has progressed to a point where they can actually take part in the fighting.

"Another question is: 'Where is the 77th Division, and are they operating as a division?' The 77th is in the line near Luneville and is operating as a division, complete, under its own commander.

"In the stenographic account of what I told you about the organization of the three corps, I stated that the 78th Division was composed of drafted men from Delaware and New York, omitting the State of New Jersey, which furnished a large proportion of that contingent. Almost half the men in that division came from New Jersey."

Questions.

In answer to questions, Gen. March said:

"Our reports do not indicate that Soissons has fallen. We have no information it has fallen so far. It is, of course, under artillery fire. Our troops have come up to the point where they are so close to it that the town must be heavily bombarded; but it is perfectly evident that the Germans have thrown into the defense of that line a large number of reserves which did not accompany them during the original attack along the Marne, and fighting is going on very heavily at that point.

"The American divisions which are on the front of the large offensive are the 1st, 2d, 3d, 4th, 26th, and 28th divisions. The colored regiment belongs to the 93d Division. The other division now in line is the 42d. In the immediate path of the German attack and our counter offensive are the seven divisions I have indicated. These divisions are not operating as a corps, but are used wherever it is necessary for us to use them.

No Information on Casualties.

"We have nothing to indicate how costly our casualty lists are. No reports on casualties have come in, and we do not know yet what it will cost us.

"I can give no information as to the number of prisoners, because the only reports we have refer to prisoners which were captured by French corps in which American divisions were operating and no disassociation was made in the reports; but, as far as I can judge, they followed quite closely the newspaper accounts.

"Taking the salient as it stands, one of the prime reasons for making this advance is the position of the railroads. Soissons is connected with Chateau Thierry by railroad, and it is assumed that the Germans get part of their supplies at Chateau Thierry from that railroad, and, of course, that has an important bearing on how long those troops can stay there. If the Germans have to withdraw they have practically only one line through which they can get out, so Foch is hammering on this side, the western, which is very much better than massing a great number of troops on the nose of the salient and hammering there, which would only drive them back in the direction of the railroads."

In response to a question as to the total number of American troops engaged, Gen. March said:

"If the whole divisions were there the number of combatant troops would be 27,000 in each division, and in my talks to you you can estimate them at 27,000 per division unless I tell you otherwise. Including Service of Supply troops and combatant troops a division comes to 45,000 men."

Special Orders, No. 159:

60. Maj. Benjamin H. Namm, Engineers, National Army, now on duty at the General Engineer Depot, Washington, D. C., will report to the chief of staff for duty in the purchase and supply branch of the purchase, storage, and traffic division, General Staff.

Baseball Playing Is a Nonessential Occupation, Secretary Baker Rules, In Sustaining the Decision Against Deferred Classification of Ainsmith

The Secretary of War authorizes the following statement in the matter of the appeal of Edward Ainsmith, Order No. 1239, Serial No. 1137, Local Board No. 9, District of Columbia.

The record in this case presents the following facts:

Edward Ainsmith, a resident of the District of Columbia, is of draft age and is a registrant under the jurisdiction of Local Board for Division No. 9 of the District of Columbia. His occupation is that of baseball player on the Washington American League baseball team. He was served, by order of his local board, with Form No. 1036, directing him to appear before said board and to show cause why deferred classification in Class IV, previously awarded him on the ground of the dependency of his wife and child, should not be withdrawn on account of the character of his occupation. The question presented, therefore, was whether the employment of Mr. Ainsmith as a baseball player is a nonproductive employment within the meaning of the regulation of the President authorizing the reclassification of persons having deferred classification who engage in so-called nonproductive occupations. The registrant and his employer appeared, presented all the evidence they desired, and the local board held, on the facts of this case, that the occupation of a baseball player is nonproductive in the sense of the regulations and ordered that the registrant's deferred classification and order number be withdrawn.

The district board for the District of Columbia affirmed the decision of the local board, and this appeal seeks a review of that determination.

Language of Regulation.

The language of the regulation pertinent here occurs in paragraph C of section 121–K, as follows:

"Persons, including ushers and other attendants engaged and occupied in and in connection with games, sports, and amusements," etc.

Obviously, baseball players are persons occupied in a sport, so that the ruling of the local and district boards must be sustained as plainly correct.

It is suggested, however, that the regulations ought to be changed to exclude baseball players from their operation, and this appeal is not really based upon any doubt as to the correctness of the determination made by the local and district boards, but is addressed to the wisdom of the regulations.

The Arguments.

The arguments in this behalf are three in number:

1. That baseball is a business in which very large investments of money have been made, involving the erection of properties, useless and unprofitable unless permitted to be continued in the use for which they were erected; and that the application of the regulations to members of professional baseball teams would so far disorganize this business as to destroy it and render this property temporarily valueless.

2. That the occupation of a professional baseball player requires a very high degree of specialized training and skill, procurable only by a substantially exclusive devotion of the time of persons aspiring to become professional players, so that there is not much likelihood of such players having any other available occupation, or fitness for any other occupation, at all adequate in its returns to maintain for themselves and their families the standard of living which has been established on the earnings in their professional occupation.

3. That baseball has been accepted as the national sport of the people of the United States, that it affords wholesome outdoor relaxation and enjoyment to large numbers of the American people, and is to many workers and business men of the United States almost the only opportunity for such recreation; so that to bring about the cessation of professional baseball would work a social and industrial harm far out of proportion to the military loss involved by the exemption of the limited number of players in question.

Upon each of these grounds separate comment is appropriate.

Answers to Argument.

As to the first: The situation of professional baseball differs in no wise from other civilian peace-time business which, by reason of the stress of war and its demands upon the industries and energy of the country, must be content to bear whatever burden is imposed by temporary inactivity. While the number of men affected by the order may be sufficient to disorganize the business, many of the players are beyond the present draft age, and it is by no means certain that complete disorganization of the business would follow adherence to the order as made.

As to the second: Baseball players are men of unsual physical ability, dexterity, and alertness. It has been necessary for us in this country to institute processes of rapid industrial training, and it is quite inconceivable that occupations can not be found by these men which not only would relieve them from the onus of nonproductive employment, but would make them productive in some capacity highly useful to the Nation. This change will be welcomed by the individuals involved, and its usefulness to the country, both direct and indirect, is obvious.

Times Not Normal.

The third consideration is of course the serious one, and is the one which has brought about the present appeal to the President. The stress of intensive occupation in industry and commerce in America in normal times, such as to give the highest importance and social value to outdoor recreation. It may well be that all of the persons who attend such outdoor sports are not in need of them, but certainly a very large preponderance of the audiences in these great national exhibitions are helped, physically and mentally, and made more efficient, industrially and socially, by the relaxation that they there enjoy. But the times are not normal; the demands of the Army and of the country are such that we must all make sacrifices, and the nonproductive employment of able-bodied persons, useful in the national defense, either as military men or in the industry and commerce of our country, can not be justified. The country will be best satisfied if the great selective process by which our Army is recruited makes no discriminations among men, except those upon which depend the preservation of the business and industries of the country essential to the successful prosecution of the war.

I am therefore of the opinion that the regulation in question should not be changed, but, rather, that the scope of its provisions should be so enlarged as to include other classes of persons whose professional occupation is solely that of entertaining. Our people will be resourceful enough to find other means of recreation and relaxation if there be not enough persons beyond the useful military or industrial age to perform such functions, and they will be wise and patriotic enough not to neglect the recreation necessary to maintain their efficiency merely because they are called upon, in the obvious public interest, to sacrifice a favorite form of amusement.

The appeal is denied and the order of the Local and District Boards is affirmed.

NEWTON D. BAKER,
Secretary of War.

FOOD ADMINISTRATOR HOOVER AND STAFF ARRIVE IN ENGLAND

The Food Administration issues the following:

Mr. Herbert C. Hoover, accompanied by Joseph P. Cotton, head of the Meat Division of the Food Administration; James W. Bell, head of the Milling Division; George S. Jackson, vice president of the Grain Corporation; and Lewis Strauss, Mr. Hoover's secretary, have arrived in England.

Purpose of the Trip.

Mr. Hoover's purpose in the trip is to confer with the food authorities of the European allies in order to ascertain their requirements and to determine the program necessary on this side of the ocean in order to meet these requirements.

Dr. Alonzo Taylor, of the Food Administration, who has had wide experience with the food problems in Europe since the outbreak of the war there, preceded Mr. Hoover by several weeks and has been gathering data and information for use at the conferences.

First Meeting Monday.

The first meeting of Mr. Hoover with the European food controllers has been set for Monday, July 22, in London.

You may not be able to fight, but you can save and buy war-savings stamps.

Official U. S. Bulletin

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

Letter of Lord Reading Notifying Gen. March of Honors Bestowed by King

The War Department makes public the following letter:

BRITISH EMBASSY,
Washington, July 18, 1918.

My Dear General March: It gives me great pleasure to inform you that His Majesty the King has been pleased to confer upon you the Grand Cross of the Order of St. Michael and St. George.

I have already informed the Secretary of State and the Secretary of War of this award, and in making this personal communication to yourself I wish to take the opportunity of expressing the sincere gratification which I feel at this recognition by the King of the most valuable services which you have rendered to the cause of the allies.

Believe me,
Very sincerely, yours,
READING.

GEN. PEYTON C. MARCH,
War Department, Washington, D. C.

DEATH OF NAVAL OFFICER.

The Navy Department has been advised of the death of Lieut. (junior grade) Arthur F. Souther, U. S. Naval Reserve Force, which occurred as the result of a seaplane accident at East Greenwich, R. I., on July 19. Next of kin, mother, Mrs. M. F. Souther, 1840 East Eighty-seventh Street, Cleveland, Ohio.

American Official Communique on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique,
No. 66.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
July 19, 1918.

Section A.—Between the Aisne and the Marne our troops continue to make progress.

Section B.—The Commander in Chief has awarded the Distinguished Service Cross to the following members of the American Expeditionary Forces for the acts of gallantry set forth after their names:

FIRST LIEUT. WALTER R. FLANNERY, Infantry: "At great peril to his life on the night of June 3, 1918, he voluntarily swam the river Marne, near Sauvigny, France, and brought back a wounded French soldier who, having escaped from his German captors, was unable to return to his own lines."

FIRST LIEUT. JOSEPH J. BROWN, Infantry: "In the Bois de Belleau, June 20, 1918, he went out into 'no man's land,' in the face of violent German machine-gun fire to carry back into his own trenches a severely wounded soldier."

SERGT. JAMES HYDE, Infantry: "In the Bois de Belleau, on June 20, 1918, he went out into the open under heavy machine-gun fire to carry in a wounded man. Being unable to pick him up, he laid down and pulled the man on his back and crawled to his position."

SERGT. CHARLES E. CUNNINGHAM, Infantry: "Although seriously wounded during a surprise attack by a German patrol in the vicinity of Hecken, Alsace, on May 27, 1918, he continued to direct his men and succeeded in driving the enemy off."

CORPL. HENRY WILLARD, Infantry: "In the Bois de Belleau, on June 20, 1918, he went out from his position for a distance of 75 yards, under heavy machine-gun fire, and by rifle fire took possession of one of the guns, brought it back and proceeded to put it in operation against the Germans.

Stopped Baseball Game to Salute French Hymn

National war work council, Y. M. C. A., authorizes the following:

The negro stevedores were playing baseball—playing it tooth and nail, without a thought for anything else in the world. They hadn't been so wrapped up in anything since they landed in France.

Suddenly, on the fringe of the thick, noisy, black line of rooters across the outfield, men began to turn their backs on the game, stiffly standing at attention. Over their heads, from the direction of the band, came faint but thrilling music, to which they automatically fitted words:

"To arms, ye brave, to arms!
"We'll form battalions strong,
"March on ——."

"Attention!" shouted the big colored soldier who, but a moment before, had been rattling the pitcher. More men, and down the rooters' line yet more men, were straightening, stiffly erect. The runner, 10 feet off second, spun half a turn on his heel. The pitcher dropped his ball and the batter his stick. Even the "ump" was called to silence. Away back, the Y. M. C. A. man saw a lazy catcher stand, elbow crooked, and with his black hand to the forehead of his wire mask.

The Marseillaise had hushed the great American game!

RESEARCH COUNCIL ANNOUNCES A COMMITTEE ON EXPLOSIVES

To Survey and Report on All Investigations — Dr. C. E. Munroe Named as Chairman.

The National Research Council authorizes the following:

By request of the Secretary of War and the Secretary of the Navy the National Research Council has formed a committee on explosives investigations composed of Lieut. Col. W. C. Spruance, jr., Ordnance, National Army, nominated by the Chief of Ordnance of the Army; Lieut. Commander T. S. Wilkinson, United States Navy, nominated by the Chief of Ordnance, United States Navy; and Mr. L. L. Summers, representing the War Industries Board, with Dr. Charles E. Munroe, dean of the faculty of graduate studies of the George Washington University, as chairman.

The functions of the committee as officially defined are:

(1) To survey the investigations on explosives now under way and to keep closely in touch with their subsequent progress.

(2) To gather and communicate to the proper military and naval authorities all information available in regard to such investigations.

(3) To bring to the attention of the proper military and naval authorities proposals for supplementary investigations relating to explosives, and to arrange for the prosecution of such investigations by the civilian bureaus of the Government, by industrial companies, and by universities and endowed research institutions.

The office of the committee is in the building of the National Research Council at 1023 Sixteenth Street, Washington, D. C.

RELIEF SUPPLIES FOR RUSSIA TO BE SENT SOON BY RED CROSS

Arrangements Made For Special Ship to Carry Large Cargo of Foodstuffs, Etc.

The American Red Cross authorizes the following: The American Red Cross has made arrangements to dispatch to Russia at the earliest possible moment a large cargo of relief supplies. A special ship is to be used for this purpose and the cargo will be accompanied and distributed by a group of Red Cross representatives who will work under the direction of the American Red Cross commission now in Russia. The cargo will consist particularly of foodstuffs, clothing, and medicine for the use of the civilian population, returning prisoners, and refugees of Russia. The Red Cross has been advised that those deserving of peculiar attention and assistance are Russian prisoners returning from captivity in Germany. They have been starved and large numbers of them are afflicted with tuberculosis.

This shipment is, of course, to be made with the full approval of the United States Government and will involve a gift by the American people through the Red Cross.

Statement by Mr. Davison.

In announcing this shipment, Mr. Henry P. Davison, chairman of the War Council of the American Red Cross, authorized the following statement:

"In spite of all that has happened in Russia, the American Red Cross has had members of its commission always there, always ready to lend a helping hand without regard to political considerations and without regard to what party in Russia was in power. We have sought by every means in our power to keep alive in Russia the feeling that the people of the United States, through their Red Cross, were eager to be of service to the Russian people in their distress and affliction. In other words, our whole policy has been in accord with the statement of President Wilson at the great Red Cross meeting in New York City on May 18, that so far as he was concerned, he intended to stand by Russia as well as France.

"Opportunity has now developed for carrying out this idea on a large scale, and it is the hope and expectation of the American Red Cross that the material in the relief ship, now to be dispatched, will be accepted as an effective token of the real spirit of the American people for what we know is the real longing of the people of Russia."

Assigned for Duty with Price-Fixing Committee

The War Industries Board authorizes the following:

A memorandum from Maj. Gen. McIntyre says:

"The Secretary of War directs that, in addition to his present duties, Lieut. Col. R. H. Montgomery, N. A., be assigned for duty with the War Department Board of Appraisers to represent the War Department Board of Appraisers on the Price-Fixing Committee of the War Industries Board."

Coal Fields Breaking Production Records

The Fuel Administration authorizes the following:

Coincident with the news of the big drive against the foe made by American soldiers in France comes the news that the mine workers in many districts in this country are also making a big drive and smashing records for coal production. Reports of district representatives coming in to the United States Fuel Administration show that production records are going by the board in many instances, indicating that operators and mine workers are a unit in their industrial drive for victory.

E. A. Holmes, district representative for Alabama, reports the production for the week ending July 13 as 412,478 net tons. The previous high record for this district was 379,737 tons, showing an increase of 32,741 tons. C. M. Roehrig, district representative for the Big Sandy and Elkhorn districts of Kentucky, reports a new record production of 157,996 tons for the same week. The previous high record for this district was 137,993 tons, showing an increase of 20,003 tons.

From central Pennsylvania, J. P. Cameron, district representative, reports a production increase amounting to 150,000 tons. The previous high record for this district was 1,175,833 tons.

C. E. Lenhart, district representative at Uniontown, Pa., reports all records smashed by 8,000 tons in the production accomplished in his district during last week.

Credits of $100,000,000 to Italy; $9,000,000 to Belgium

The Treasury Department authorizes the following:

An additional credit of $9,000,000 has been extended to Belgium, making a total of $145,250,000 to that country. An additional credit of $100,000,000 has also been extended to Italy, making a total of $760,000,000 to that country. The total amount loaned to the allies is $6,380,040,000. The advances average about $400,000,000 a month.

Ex-Gov. Stuart Appointed to Price-Fixing Committee

The War Industries Board authorizes the following:

Ex-Gov. Henry C. Stuart of Virginia has been appointed a member of the Price-Fixing Committee of the War Industries Board. Gov. Stuart brings to the Committee a broad knowledge of matters pertaining to agriculture.

COMMISSION TO ESTABLISH STANDARDS OF SCREW THREADS

The Department of Commerce, Bureau of Standards, has issued the following statement regarding the commission for standardizing screw threads:

An act, H. R. 10852, to provide for the appointment of a commission to standardize screw threads, was passed by Congress on July 13, 1918, and has received the signature of the President.

Purpose.

The purpose of the commission is to ascertain and establish standards of screw threads for acceptance and adoption in manufacturing plants under control of the War and Navy Departments, and as far as practicable, for screw threads in general use throughout the United States.

Organization.

Nine commissioners are to be appointed, one of whom shall be the Director of the Bureau of Standards, who will be chairman of the commission; two commissioned officers of the Army, to be appointed by the Secretary of War; two commissioned officers of the Navy, to be appointed by the Secretary of the Navy; and four to be appointed by the Secretary of Commerce, two of whom shall be chosen from nominations made by the American Society of Mechanical Engineers and two from nominations made by the Society of Automotive Engineers. The commission shall cease and terminate at the end of six months from the time of its appointment.

Questions to be Considered.

There are mentioned herewith several items in connection with screw-thread standardization which will probably be brought before the commission for consideration.

(1) Consideration as to type of thread to be used, such as U. S. Standard Form, Whitworth Form, or International Thread Form.

(2) Establishment of dimensions and tolerances for U. S. Standard threads; A. S. M. E. threads, and also fine pitch threads which will result in interchangeable screws and nuts of different grades.

(3) The establishment of rules or formulas which will specify such tolerance and dimensions as to insure interchangeability, and to provide for different grades of work.

Bids Invited for Housing Project at Bridgeport

The Department of Labor authorizes the following:

The Bureau of Industrial Housing and Transportation of the Department of Labor has invited bids for the construction of housing accommodations for 600 families in Bridgeport, Conn., from the following contractors:

Cauldwell-Wingate Co., New York City; C. T. Wills (Inc.), New York City; The H. Wales-Lines Co., Meriden, Conn; Casper Ranger Construction Co., Holyoke, Mass.; Jarrett Chambers Co., New York City; George A. Fuller Co., Boston, Mass.; T. J. Pardy Construction Co., Bridgeport, Conn.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	16
Died from wounds	15
Died of disease	11
Died of aeroplane accident	1
Died from accident and other causes	13
Wounded severely	57
Wounded, (degree undetermined)	1
Missing in action	6
Total	120

Killed in Action.

CORPORALS.

Jesse D. Gillespie. Mrs. Hester Pinson, R. F. D. 2, Central, S. C.

Jean Kendall. R. A. Kendall, Elkville, N. C.

Bugler Frank L. Hubbell. Mrs. Lucy Hubbell, 140 North Dickerson Street, Indianapolis, Ind.

PRIVATES.

Arthur E. Curran. Mrs. Mammie McGee, 704 North Twenty-eighth Street, Richmond, Va.

Daniel Donahue. Mrs. Nora C. Donahue, 1034 Flora Street, Elizabeth, N. J.

David Fannick. Michael Fannick, 233 Abbott Avenue, Waterbury, Conn.

Henry L. Galitzeck. Miss Gertrude Galitzeck, Stockett, Mont.

George W. Holm. John E. Holm, R. F. D. 1, Garrison, Kans.

James T. Jarvis. Wallace Jarvis, Massena Springs, N. Y.

Morris Kersonsky. Max Cohen, 240 Lombard Street, Philadelphia, Pa.

Anthony Moscarella. Mrs. Antonia Moscarella, 35 Carmine Street, New York, N. Y.

Mominico Muluzza. Miss Calogara Muluzza, 123 East Houston Street, New York, N. Y.

James F. Mungavin. John Mungavin, 162 South Elm Street, Waterbury, Conn.

Merritt R. Raymond. Mrs. Louis Raymond, Bernhards Bay, N. Y.

Garrard Stillings. Mrs. Ina Stillings, 411 Eaton Avenue, Hamilton, Ohio.

George Vallance. Mrs. M. M. Vallance, 2556 North Thirty-third Street, Philadelphia, Pa.

Died from Wounds.

CORPORALS.

Walter J. Behrens. Mrs. Rose Behrens, 245 Wood Street, Lafayette, Ind.

Bertice F. Bottler. Flora Bottler, Radersburg, Mont.

Mitchel Houchin. Mrs. Mary Strode, 210 South Fourth Street, Burlington, Iowa.

Harold J. Hunt. Addison B. Hunt, Hightstown, N. J.

Thrive by thrift.

UNITED STATES CRUISER SUNK OFF THE HARBOR OF NEW YORK

(Continued from page 1.)

2. No convincing evidence that periscope was seen.

3. No submarine appeared, in spite of the fact that three unarmed rescue ships were in the vicinity for about two hours.

4. Ship was struck on port side abaft beam, which discourages mine theory.

5. Weather was fine, smooth sea.

Captain Last to Leave Ship.

Rear Admiral Palmer, Acting Secretary of the Navy, authorizes the following:

Reports received by the Navy Department indicate that when the armored cruiser *San Diego* was sunk the conduct of officers and men was in accordance with the best traditions of the Navy.

Capt. H. H. Christy, the commander, was the last to leave the ship. As the ship was turning over, he made his way over the side to the top of the armor belt, thence to the bilge keel, and jumped overboard from the docking keel, which was then 8 feet from the water. As the captain left the ship the men in the boats cheered him and the executive officer. They cheered the ship as it went down. As the flag was raised on the launch, the men in the boats sang "The Star Spangled Banner."

When the vessel was struck, officers and men instantly obeyed orders, going immediately to their stations and remaining at their posts until the order was given "All hands abandon ship." The ship was abandoned in good order, the men taking to the boats as directed.

American naval vessels found and destroyed five or six mines in that vicinity last night. No reports have been received of any submarine having been sighted or any further submarine activity in the vicinity.

THE WEEKLY WEATHER FORECAST

The Weather Bureau issues the following forecast for the period July 22 to 27, inclusive:

North and Middle Atlantic States.—Warm weather first part of week probably followed by some moderation second half. Fair weather generally, although showers probable by Tuesday night or Wednesday.

South Atlantic and East Gulf States.—Frequent day showers in Florida Peninsula, but elsewhere no precipitation of consequence indicated. Temperatures near or slightly above normal.

West Gulf States.—From present indications it appears that fair weather will prevail during the week with temperatures near or somewhat above normal.

Ohio Valley and Tennessee.—The week will open warm with some moderation after Tuesday and probably nearly normal temperatures thereafter. Some slight prospects of showers about Tuesday, otherwise fair weather will prevail.

Region of Great Lakes.—Showers and cooler Monday in Upper Lakes and Tuesday Lower Lakes; fair weather remainder of week with nearly normal temperatures.

Upper Mississippi and Lower Missouri Valleys.—Showers probable Monday with some moderation in temperature. Generally fair weather remainder of weak with nearly normal temperatures.

LIST OF CASUALTIES AS REPORTED AMONG THE U. S. MARINES OVERSEAS

The following casualties in the Marine Corps are reported by the Commanding General of the Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in Action.

Pvt. Ralph Lindly. Hattie Lindly, mother, Paoli, Ind.

Pvt. Merwyn C. Shawe. Merwyn C. Shawe, father, 123 West Twenty-seventh Street, Baltimore, Md.

Previously Reported Missing, Now Reported Prisoners in Germany.

Pvt. Elmer C. Myers. Blanche Myers, sister, Labelle, Mo.

Pvt. Leslie Cunningham. Mary J. Cunningham, mother, 121 Spring Street, Sturgeon Bay, Wis.

PERIOD OF ANXIETY OVER FOOD NOT YET ENDED IN ENGLAND

Drouths, Frosts, and Labor Shortage Expected to Cut Home Production Below Estimates.

The Food Administration authorizes the following:

The food-production situation in England is outlined in a cable just received by the Food Administration from the British ministry of food, indicating that the season of anxiety is not yet over. Drought, early frosts, and labor shortage will cut home production below previous estimates. The cable says:

"British agriculturists have been seriously concerned about drought, which checked the growth of wheat here for six weeks, particularly on light soils. Barley and oats also suffered, as well as root crops, and even potatoes were retarded by cold weather and lack of rain. Luckily the weather has now broken and rain is plentiful. Nevertheless, it still looks as though early optimism about the possibility of the wheat crops in the United Kingdom will have to be modified, owing to difficulties of newly broken ground and lack of labor. True, women and children are being rapidly recruited for the forthcoming harvest; but even with the help of urban holiday makers and German prisoners, farmers are skeptical whether they will be able to get in all that they have raised.

Unforeseen Shortage of Jam.

"Owing to early frosts and insect attacks on fruit, the food controller is now battling with an utterly unforeseen shortage of jam for our armies and civilian populations. There is still a shortage of cheese, and lard has just been formally rationed. Hogs, too, have not been raised as rapidly on this side of the Atlantic as was hoped, owing to the abnormally high prices demanded for breeding sows and weaning pigs. This, too, in spite of a great outburst of municipal enterprise.

"Generally, the food situation is better, but the season of anxiety is not yet over."

Enormous Increase Shown In Allotments by Soldiers

The Treasury Department issues the following:

Allotments to dependents of United States soldiers have increased from 10,000 at the beginning of the war to 800,000. For the month of May these allotments total $5,000,000. Thirty thousand commissioned officers are allotting $1,000,000 a month to their families; [illegible] commissioned officers and privates, $1,000,000.

In addition nearly $50,000,000 of Liberty loan bonds of the second Liberty loan will have been paid for by members of the Army and will be turned over to the purchasers during August, the payments having been made out of allotments made for the purpose.

Show your patriotism by contributing to the American Red Cross Fund.

POLICY AS TO SUPPLYING HARD COAL TO FOUR CENTRAL STATES

The United States Fuel Administration authorizes the following:

The policy of the United States Fuel Administration providing for the distribution of anthracite coal in the four central States—Michigan, Ohio, Indiana, and Illinois—was announced July 19 in regulations sent to the State fuel administrators in the States affected.

The Policy Adopted.

The policy, which has been agreed to by the various State administrators, provides that in any State in which the allotment of anthracite coal for the current year has been materially curtailed, domestic anthracite sizes should be distributed first to those communities within the State which would experience the greatest inconvenience, difficulty and possible suffering in changing from the use of anthracite to the use of bituminous coal.

Follow Prearranged Schedule.

In conformity with this policy the State administrators will distribute within their States the allotment of anthracite following carefully arranged schedules as to locations, which have been furnished them by the administration at Washington for their guidance.

NATIONAL BANK STATEMENT FOR THE WEEK ENDING JULY 19

Applications to the Comptroller of the Currency during the week ending Friday, July 19, 1918, for authority to organize national banks and to convert State banks into national banks; charters issued, charters extended and reextended; increases and reductions of capital approved; changes of title approved and national banks placed in voluntary liquidation.

Applications for Charter.

	Capital.
For organization of national banks:	
The American National Bank of Idabel, Okla.; succeeds the Idabel State Bank, Idabel, Okla	$25,000
For conversion of State banks:	
The First National Bank of Coffee Springs, Ala.; conversion of The Bank of Coffee Springs	25,000
Total	50,000

Charters Issued.

Original organizations:	
The First National Bank of Westby, Mont	$25,000
The First National Bank of Gridley, Cal.; succeeds the Farmers Bank of Gridley	30,000
The Seymour National Bank, Seymour, Iowa; succeeds the Bank of Seymour	50,000
Total	105,000

Increases of Capital Approved.

	Amount.
The Second National Bank of Culpeper, Va., from $50,000 to $75,000	$25,000
The First National Bank of Fairfax, S. Dak., from $25,000 to $50,000	25,000
The First National Bank of Chaffee, Mo., from $25,000 to $50,000	25,000
The National Bank of Commerce of Wichita Falls, Tex., from $100,000 to $200,000	100,000
The Security National Bank of Oklahoma City, Okla., from $200,000 to $300,000	100,000
	275,000

EXPORT LICENSES FOR POSTAGE, REVENUE, AND OTHER STAMPS

The War Trade Board authorizes the following:

The War Trade Board announces, in a new ruling (W. T. B. R. 171) the following regulations governing the exportation of postage stamps, revenue stamps, and other stamps of similar character, either canceled or uncanceled, which amplify the regulations announced May 14, 1918 (W. T. B. R. 109):

Cancelled Stamps.

Licenses may be granted freely authorizing the exportation to one or more consignees, whose names need not be specified on the license, of a single parcel or an unlimited number of parcels of canceled or uncanceled postage stamps, revenue stamps or other stamps of a similar character. Such licenses shall be valid for a period of 90 days and for the transmission of said stamps by registered or first-class mail only. They shall not be valid for shipments to persons on the enemy trading list.

In Care of Censorship Committee.

The parcel shall bear plainly marked on the wrapper the license number and description of contents and must be addressed to the consignee in care of the Postal Censorship Committee at either New York City, N. Y., Key West, Fla., New Orleans, La., San Antonio, Tex., San Francisco, Cal., Seattle, Wash., or Honolulu, Hawaii, and the shipment shall be subject to such rules and regulations as the Postal Censorship Committee may from time to time promulgate. The name and address of the consignor must also appear on the wrapper and the postage must be fully prepaid to the country of final destination.

NAVAL AVIATOR KILLED.

The Navy Department is informed that Charles Edward Percival, chief quartermaster, aviation, United States Naval Reserve Force, was instantly killed at Miami, Fla., about 6.15 p. m. July 17. The seaplane in which he was operating came out of heavy storm cloud in a nose dive and fell about 1,500 feet. On enlistment, November 5, 1917, at New York, Percival gave as his next of kin, father, William Albert Percival, Portville, N. Y.

Voluntary Liquidations.

For consolidation with other national banks:	
The Grange National Bank of Mansfield, Pa. (Liquidating committee: M. H. Shepard, Mansfield, Pa., C. S. Ross, and W. W. Allen. Absorbed by the First National Bank of Mansfield. Liability for circulation not assumed under section 5223, U. S. R. S.	50,000

Summary.

	Capital.
Applications for charter (2 banks)	$50,000
Applications rejected	None
Charters issued (3 banks)	105,000
Charters extended	None
Charters reextended	None
Increases of capital approved (5 banks)	275,000
Reductions of capital approved	None
Changes of title approved	None
Voluntary liquidation for consolidation with other national bank (1 bank)	50,000
Other liquidations	None

Recommendations of Agricultural Advisory Committee as Submitted to Secretary Houston

The Department of Agriculture authorizes the following:

Secretary Houston has received the recommendations of the agricultural advisory committee reported at the conclusion of its meeting in Washington, June 27 to July 2. The following are among the most important subjects considered by the committee:

1. Indorsement of Henry C. Stuart, chairman of the agricultural advisory committee, for appointment on the War Industries Board as representative of agriculture.

Following is the text of the resolution:

Resolved, That the full committee indorses the action of the executive committee in asking for the appointment of the Hon. Henry C. Stuart, the chairman of the committee, upon the War Industries Board.

Furloughs for Agricultural Workers.

2. Facts were submitted to the committee showing that the harvest of spring wheat would come at a season when soldiers would probably just be entraining for military services, and they would therefore be lost to the wheat harvest in the spring wheat region. The committee, therefore, passed a resolution, to be presented to Provost Marshal Gen. Crowder, asking that temporary deferred classification be granted to the men called July 22–27, before their entrainment, that they might help in the harvest before leaving home, rather than to report at their cantonments and then be furloughed back, thus saving expenses to the Government and preventing a loss of time for the men.

Improvement of Transportation Conditions.

3. A full discussion was had of the unusual car shortage and the delays in the shipments of live stock and grain during the past winter, resulting in large financial loss to the producers. Attention was called to the fact that transportation conditions were still unsatisfactory and the Department of Agriculture and the Food Administration were requested to take up the matter again with the Railroad Administration, with the view of insuring relief in these matters. A subcommittee on transportation was appointed, of which Henry C. Stuart was chairman, to act with the two departments in placing this matter before the Director General.

Investigation of Wool and Hide Situation.

4. Consideration was given to criticisms that had been made in regard to the application by division heads of the rules and regulations of the War Industries Board regarding wool. There seemed to be ground for believing that some of the interpretations of the rules worked a hardship on the wool growers. A subcommittee was appointed to look into this matter and make such recommendations as seemed to them necessary to a readjustment of the matters complained of, and a recovery of losses incurred, if any.

5. The committee devoted a large portion of its time during the first three days of its session to a discussion of the grades and prices of wheat in which Mr. Hoover and members of his staff, with representatives of the Grain Division and the Bureau of Markets of the Department of Agriculture, participated. Practically all of the recommendations of the committee were provided for in the final draft of the announcement issued July 1.

A subcommittee had formulated an expression of suggested explanations of terms and conditions that were thought to be helpful in giving the farmer a clear understanding of the regulations and his personal status in their administration.

These suggestions were heartily indorsed by the full committee and the Food Administration.

Prevention of Tuberculosis.

6. A resolution was passed giving indorsement of the plan of the Bureau of Animal Industry for stamping out tuberculosis in cattle. Suggestions were made that some of the plans might be slightly modified in the matter of facilitating the disposition of tubercular animals.

Farm Machinery.

7. Whereas the Department of Agriculture has submitted for our consideration a proposal for the elimination of certain less-essential types or designs of farm machinery and parts thereof, giving as a reason therefor that because of the war demands the allotment of steel for the manufacture of farm machinery must be limited to the amount strictly necessary to enable our farmers to maintain crop production, and that the multiplicity of types and designs now existing places an unnecessary burden upon steel mills in preparing steel and iron therefor; and whereas we believe the reasons given are just and valid and that the demand upon us is in line with the demands made upon other industries: Therefore be it

Resolved, That we indorse the schedule of eliminations submitted by the Department of Agriculture, with certain minor changes, with the understanding and with the assurance on the part of those who have prepared the schedule that no change in design of any implement has been made which will lessen its strength or efficiency, and no machine or implement has been eliminated which is essential for the efficient production of agricultural products in any extensive region, and the work performed by which can not be as efficiently done by other machines, the manufacture of which shall be permitted. We recommend, however, that measures be taken to afford full protection to farmers owning machines of types eliminated by requiring that manufacturers make and place on the market repair parts for eliminated machines or eliminated parts of machines for a length of time equal to the average normal life of such machines or parts.

Repair Parts of Farm Machinery.

The committee passed resolutions urging the Department of Agriculture to insist on the standardization of parts of farm implements, such as cultivator teeth, mower and harvester guards, mower and harvester sections, threads on bolts, skeins on wagons, surface cultivator knives, and many other parts on which patents have expired. It was the opinion of the committee that this would result in very material economy in every way and increased convenience to the farmer in securing implement parts.

8. After discussing the prevalent prices of farm machinery and the advances made during the past three years, the committee passed a resolution, asking for an investigation at the earliest possible date, into the cost of manufacturing farm implements and asked that the industry be required to operate on a basis of cost plus a reasonable profit.

Perishable Products.

9. The committee recorded its appreciation of the good work done by the Food Administration in increasing the consumption of potatoes, thus partially relieving the stress arising from the production of a heavy spring crop in the South, with large storage stocks held over in the North.

The promotion of war gardens was commended, as it was believed by the committee that the results not only showed a larger supply of fresh vegetables but converted many acres to the growing of staple crops that helped to increase the total food supply and to lessen transportation difficulties.

The Department of Agriculture was commended for its work in the selection and breeding of potatoes in the various potato-growing sections.

Much interest was expressed in the dehydration of vegetables, especially potatoes, and it was recommended that this work should be followed up.

Record was filed, briefly reviewing the poultry conditions of the country, showing that although the price of poultry had not advanced in keeping with the price of feeds, more eggs have been shipped and stored than at the same time in 1917, this being partly due to the early warm season and partly to the patriotic adherence to the industry in spite of adverse conditions.

A resolution was passed expressing the opinion of the committee that the vegetable forcing industry was important, and so blended with the forcing of plants for field crops, that the industry should be fostered and protected as far as the exigencies of the war may permit.

Labor for Wheat Harvest.

10. On reports of members of the committee from the West and South where wheat has already been harvested, regarding the highly efficient service rendered by the Farm Labor Division of the United States Department of Agriculture and the Federal Department of Labor, in the mobilization and distribution of harvesters to the wheat fields of the South and West up to the present time, the committee asked for a continuation of this service to the completion of the harvest in the spring-wheat region.

Exchange Milling.

11. The following resolution was adopted by the committee:

Whereas absolute war necessity and shortage of wheat for export has required that, in the exchange milling of his own wheat, the farmer be restricted to a supply of flour equal to his household needs and those of his farm employees for 30 days days; and

Whereas the present crop prospects seems to make this necessity less acute, be it

Resolved, That the Food Administration be requested to remove this restriction as early as conditions will allow.

(Continued [illegible])

ACCIDENT RATE IS DECREASING IN THE SHIPBUILDING YARDS THROUGHOUT UNITED STATES

SAFETY ENGINEERS ARE EMPLOYED

Insidious German Propaganda Is at Work, Says Shipping Board Statement, and Falsehoods Circulated Concerning Industry.

The Shipping Board authorizes the following:

A new and insidious form of German propaganda is at work—furtive stories to the effect that more men are being killed and injured in our shipyards than are being killed and injured in the trenches. This has been brought to light through letters received by the United States Shipping Board and Emergency Fleet Corporation.

Through its industrial relations group the Shipping Board has issued the following statement:

In spite of structural additions to most yards and the confusion attendant upon increasing capacity in practically all yards the rate of accidents in connection with shipbuilding to-day is not as high as that which obtains in the manufacture of steel, and is practcally the same as the general industrial rate. The Department of Labor statistics show that the accident rate in shipyards from 1912 to 1916 is approximately 21.8 for every 1,000 men. It will be noted that these figures cover a period previous to the enlarged shipbuilding activities in this country.

Safety Engineers Cooperating.

Anticipating that the necessity for speed and the heavy enlargements in many yards would have a tendency to raise the accident rate, the Emergency Fleet Corporation organized last January a department of safety engineering, which operates under the direction of the industrial relations group. To-day every district in the country has its competent safety engineer who is cooperating with the shipyards to keep down the number of accidents and prevent the hazards that are common to any structural industry. Furthermore, the department of health and sanitation, which is in the same group, has been helping the yards in inaugurating and maintaining proper emergency methods and dispensaries in every yard in the country. To-day men are encouraged to go to the dispensary with the slightest scratch so that there may be no danger of infection and so that every injury may be recorded. The men are asked to report back at certain intervals to insure proper treatment and cae, and a careful record is kept of the progress of each case and its final outcome.

Accidents Are Decreasing.

Hog Island, which has been built and organized from nothing, seems to be a fair example of the attention which is being given accident prevention. During May the average force of men was 20,497. The number of accidents which caused loss of time was 107, which gives a frequency rate of 6 as compared to the rate of 21.8 for the period from 1912 to 1916.

The comparison of these figures with the average figures for 1912 to 1916 is not only interesting, but it proves very conclusively that the efforts of the employer and the Fleet Corporation are bearing splendid fruit.

Furthermore, the percentage of accidents is constantly decreasing to such an extent that it is confidently predicted that within the next few months the shipyards will be showing a lower rate than the most favored private industrial institutions.

Tribute Paid to Japanese Red Cross By Mr. Davison at Dinner of Welcome To Special Commission Visiting U. S.

The Red Cross authorizes the following:

The special commission of the Japanese Red Cross, which is on its way to Europe to study American Red Cross war relief work, was entertained Thursday night at a dinner at the Willard Hotel. Representing Japan were Prince Tokugawa, head of the commission; Viscount Ishii, ambassador of Japan; Dr. Arata Ninegawa, Dr. Shigemi Sawamuro, Dr. Yasushi Naito, Dr. Sadaka Kageyama, Mr. Hidea Yoshida, Mr. Hideya Furusawa, Mr. Chuechiro Fujimori, Count Kuwa-hi Katsu, and K. K. Kawakami, secretary to Prince Tokugawa, members of the commission. Representatives of various departments of the United States Government and of the American Red Cross were guests.

Henry P. Davison, chairman of the war council of the American Red Cross, spoke, in part, as follows:

"We meet to welcome a commission from the Red Cross Society of Japan. They come to us upon a remarkable errand. Our country has been honored before this by commissions from different nations, on financial, commercial, or diplomatic errands, but the presence amongst us of a humanitarian commission is an unique event. I choose to interpret it as an expression by the people of Japan of their desire for a closer fellowship and a better understanding of the people of the United States.

"This war is teaching us many lessons. To me its greatest lesson is that without love of fellowman, without heart, without charity, without faith in and understanding of one another, society can not be successfully carried on, or life, in its nobler sense, be lived.

"And these, in essence, are the ideals of the Red Cross—ideals which have aroused the enthusiasm and solidified the purpose of civilized mankind, ideals expressed so clearly and beautifully by the President of the United States, himself recognized as the world's chief spokesman for the cause of humanity.

"In the early part of the present year we of the American Red Cross were deeply touched by a message from the distinguished president of the Japanese Red Cross Society—Baron Ishigura—expressing the sentiment his society felt, that 'they were working with us as in the same room and in the same cause of humanity.' In that message he added, 'The Red Cross has no boundary of State, neither has it any relationships, prejudices, or racial distinctions.' Certainly no more beautiful expression could be given to our own appreciation of the character and scope of Red Cross endeavor.

"When I was in France recently the revered governor of one of the French Provinces, in an address of welcome to a group of Red Cross visitors, said: 'We had long known of America's power, her energy, her enterprise, but this war has revealed to us America's heart.' And this war is, indeed, revealing to us the hearts of nations as it is searching out the hearts of men. We had known of the initiative and efficiency of Japan, but the Japanese Red Cross is disclosing to us the deeper meaning of Japanese aspirations and a truer understanding of Japanese character. We, therefore, welcome this mission from the Japanese Red Cross as but another effort of the Japanese people to have us know them as they know themselves.

* * * * *

"Prior to this war, all the other Red Cross societies in the world, with one exception, were, like ourselves, known to their people as potentialities rather than great activities. That exception was the Red Cross Society of Japan. At the beginning of the European war the American Red Cross had about 200,000 members. On the same date the Red Cross Society of Japan had 1,800,000 members, and was the leading Red Cross society of the world. It is, therefore, to Japan that we must bow in recognition of her foresight and vision in first effecting a comprehensive agency in the interest of mankind.

* * * * *

"We, therefore, to-day welcome with peculiar satisfaction the eminent commission, headed by his excellency, Prince Tokugawa. I am confident that the American people will interpret the honor done them by this visit as a concrete expression of earnest desire on the part of the Japanese people to cooperate cordially, fully, and in a most friendly spirit with the people of the United States. I am equally confident that the American people will respond in like spirit and for like purpose to the people of Japan.

"Incident to this war, the Japanese and the American peoples are and will continue to be confronted with may vexatious problems. Solution of these problems will involve action; above all, it will involve cooperation and trust in one another. Such cooperation can only be based upon character and confidence and mutual knowledge of a common purpose to serve unselfishly and equitably those now suffering from the indescribable destruction caused by our common enemy.

"We should, therefore, be frank with each other. We should call upon each other for service, for assistance, and for help wherever and by which ever nation such service can best be rendered in the interest of mankind. We should join hands in a spirit of good faith, a spirit of cooperation, and a spirit of sympathy.

"I believe that nothing is more important than that the people of Japan and the people of the United States should appreciate the value of such a relationship."

THE AGRICULTURAL ADVISORY COMMITTEE'S RECOMMENDATIONS

(Continued from page 9.)

12. The committee was of the opinion that ground rock phosphate and acid phosphate should have the same freight classification as agricultural lime, taking an increased freight rate of one cent a hundred pounds, instead of an increase of 25 per cent, as applied to general commodities, and it was directed that request be made of the Director General of Railroads that the desired classification be granted.

13. Resolutions were passed by the committee favoring:

(1) Regulation of the use of mill feeds by the mixers of proprietary feeds, so as to secure to the dairyman the benefits of the efforts of the Food Administration to lower the price of mill feeds.

(2) Regulation of the manufactories of mixed feeds.

(3) Equitable distribution of mill feeds.

(4) Use of sugar substitutes in ice cream manufactories.

(5) The disallowance of sugar to manufacturers of ice cream failing to comply with reasonable standards of butter fat and solids not fat.

(6) Purchase of dairy products by Army and Navy.

(7) Expression of appreciation to the Food Administration for the publicity given to the economic value of milk.

(8) Recommendation to the Government to extend the standardization of dairy and other agricultural products.

(9) Commendation to the market report service by the Bureau of Markets.

The subcommittee on dairy products presented to the tariff department of the Railroad Administration an explanation of the hardship upon the small shipper of milk and cream, because of the minimum charge of 50 cents on any individual shipment.

The regulation was promptly modified so as to nullify the application of a minimum charge.

MINERS TO WORK ON FUNERAL DAYS TO INCREASE PRODUCTION

The Fuel Administration authorizes the following:

It has been the custom in the anthracite coal fields for many years for employees of a colliery to remain away from work on the day of the funeral of any fellow worker who has been killed at the colliery. In order to prevent the loss of tonnage which follows the observance of this custom the operators and the leaders of the mine workers have agreed that the collieries shall work on the day of the funeral.

It is agreed that a committee of six shall be appointed to attend the funeral and the company is to pay the day's wages of the six men on the committee. In addition the companies have agreed to pay the nearest heirs of the worker killed the sum of $150 over and above the compensation allowed by law.

This agreement, designed to increase production, is another indication of the steadily growing spirit of cooperation between operators and mine workers.

WANTED:
25,000 WOMEN TO ENROLL
IN THE
UNITED STATES STUDENT NURSE RESERVE

The following statement is issued by the woman's committee of the Council of National Defense:

The Government is calling for 25,000 young women to join the United States Student Nurse Reserve and hold themselves in readiness to train for service as nurses.

The war is creating an unprecedented demand for trained nurses. Only those who have taken the full training course are eligible for service with our forces overseas. These nurses are being drawn largely from our hospitals at home. Their places must be filled by student nurses enrolled for the full training course of from two to three years. Every young woman who enrolls in the United States Student Nurse Reserve is releasing a nurse for service at the front and swelling the home army which we must rely on to act as our second line of hospital defense. Upon the health of the American people will depend the spirit of their fighting forces.

Age.—The call is for women between the ages of 19 and 35.

Qualifications.—Intelligent, responsible women of good education and sound health are wanted—the pick of the country. A college education is a valuable asset, and many hospitals will give credit for it. Credit will also be given for a special scientific equipment or for preliminary training in nursing, such as that given in special courses now being conducted by various colleges and schools. Some schools, on the other hand, do not even require a full high-school education.

Enrollment.—Women will be given an opportunity to enroll in the United States Student Nurse Reserve in any one of three ways:

(1) As engaging to hold themselves in readiness until April 1, 1919, to accept assignments to nurses' training schools. These women will be sent to the schools as fast as vacancies occur. Those of superior qualifications will be given preference, and it is, of course, possible that not everyone who enrolls will be accepted.

(2) As desiring to become candidates for the Army Nursing School recently established by authority of the War Department, with branch schools in selected military hospitals.

(3) As engaging to hold themselves in readiness until April 1, 1919, to accept assignments to either a civilian training school or the Army Nursing School. Those who so enroll will be called where the first need arises. The Government hopes that a majority of those who enroll will thus put down their names for both.

There are 1,579 nurses' training schools in this country. Their need is as great and imperative as that of the Army School of Nursing. Those who enroll for these schools will be assigned as vacancies occur.

The enrollment card will indicate two classes of registrants—preferred and deferred. The preferred class will be those who are ready to accept assignment to whatever hospital the Government directs them, although they may state what training school they prefer to be sent to. Those who register in the preferred class will be assigned first, and all possible consideration will be given to their preference as stated. The deferred class is composed of those who limit their pledge of service; that is, who will not engage to go except to certain hospitals. This class is intended largely for those who, for family reasons, can not accept training at a distance from their homes. Those who register in the deferred class will be assigned only after the preferred class is exhausted.

The Government relies on the patriotism of those who enroll to fill out preferred cards if they possibly can, thus volunteering to go where they are most needed.

Nobody will be assigned to any schools whose conditions of training are not approved by the State board of nurse examiners.

Terms of training.—The term of training varies from two to three years, according to the requirements of the particular school to which the student nurse may be sent. No course takes less than two years nor more than three.

What the training course prepares for.—At present every woman who completes satisfactorily her training in any accredited school is eligible for service as an Army nurse at the front and stands a chance of being assigned to duty abroad. At the same time she will be qualified to earn her living in one of the noblest professions open to women. It should be remembered, furthermore, that her usefulness will begin not when she graduates from the training school, but as soon as she enters it.

Finances.—The student nurse gets her board, lodging, and tuition free at practically every training school, and in most cases receives a small remuneration to cover the cost of books and uniforms. After graduation she has an earning capacity of from $100 to $300 a month. Private-duty nurses now receive an average of from $100 to $120 a month together with board while on duty; institution nurses from $50 to $250 a month together with board, lodging, and laundry; and public-health nurses from $100 to $250 a month without maintenance.

An honorable service.—Ever since the days of Florence Nightingale the nursing profession has been one of especial honor. It was never so honorable as it is to-day.

Enroll at the nearest recruiting station established by the Woman's Committee of the Council of National Defense.

Health Conditions at the National Guard, National Army, and Regular Army Camps as Reported for the Week Ending July 12

Herewith is a detailed report on the health conditions of troops in the United States [including Porto Rico] for the week ending July 12. The report of the Division of Sanitation to the Surgeon General of the Army for that week is as follows:

1. General.—The health of troops continues very good. Admission and noneffective rates are slightly higher than last week, due chiefly to the comparatively high incidence of venereal diseases and measles among new men. The death rate for disease (3.01) continues low.

2. Divisional camps.—Camp Cody continues to hold the best health record of the week of all camps of this group (admission 468.2, noneffective 18.2, no deaths). Camp Beauregard has the highest admission rate (1,831.9). The number of new cases of various diseases reported compared with last week, follows:

	This week.	Last week.
Pneumonia	42	56
Measles	207	218
Malaria	72	55
Dysentery	9	1
Venereal diseases	558	1,206

Of the 72 cases of malaria, 32 were reported from Camp Beauregard, 14 from Camp Shelby, and 11 from Camp Sevier. Eight out of the total of nine cases of dysentery are credited to Camp Beauregard.

3. *Cantonments.*—Camp Grant has the lowest sick rates of all camps of this group (admission, 506; noneffective, 15.8). Camp Pike has the highest sick rates of the larger camps. Camp Las Casas, P. R., a comparatively small camp, has the highest sick rates of all camps and stations. No serious diseases are prevailing in that camp, though 49 new cases of dengue were reported, against 98 last week. The number of new cases of various diseases reported compared with last week follows:

	This week.	Last week.
Pneumonia	91	94
Measles	456	312
Malaria	85	71
Dysentery	4	0
Venereal diseases	1,784	2,720

Twenty-two of the 91 new cases of pneumonia are reported from Camp Funston. Camp Pike leads in the number of new cases of measles (129); Camp Dodge is second with 61 cases; Camps Lee, Taylor, and Custer follow in the order named, each with more than 50 new cases. Camp Pike reports 45 admissions for malaria out of the total of 85 for all camps of this group.

4. Departmental and other troops.—The Eastern and Northeastern Departments have the lowest sick rates of all departments. There has been an increase in the number of cases of measles in this group (160 against 148 last week). Other diseases show a decline as compared with last week. Four cases of typhoid fever are reported from Camp Greene (Aviation Section).

Summary.

Troops.	Noneffective rate.		Admission rate for disease.		Death rate.			
					All causes.		Disease only.	
	This week.	Last week.	This week.	Last week.	This week.	Last week.	This week.	Last week.

Upton	12.1	1	1		147 (7)	4			36.7

[1] First figure in this column for each camp gives the total number of new cases during the week; the figure in parenthesis is the number of those cases which were contracted during the week by men in that camp's command at the time of contracting the disease, the difference therefore, is the number of cases first reported during the week which were either (*a*) cases brought from civil life by recruits or (*b*) cases brought by men transferred from other camps to the camp under which the case is reported, or (*c*) old cases which have previously evaded detection. An interrogation point signifies that the report from that camp did not segregate cases contracted at the camp from other cases.

[2] Per 1,000.

[3] Two new cases of typhoid fever also reported from Camp Stuart, 1 case at Northeastern, 1 at Shelby, 1 case of paratyphoid and 1 case of typhoid at Gordon, 1 case at Lewis.

Causes of deaths by camps.

Camp or Department.	Number of deaths.	Causes.	Camp or Department.	Number of deaths.	Causes.
Merritt	5	Pneumonia, 2; meningitis, 1; septicemia, 2.	Northeastern	2	Meningitis, 1; alcohol poisoning, 1.

Soldiers Who Died Last Week.

List of names of soldiers reported to The Adjutant General's Office as having died in the United States and its possessions during the week ending July 12, 1918. (Included in this list are the names of soldiers, not previously published, who died in the United States and its possessions prior to the week mentioned and subsequently to March 8, 1918. These names are indicated by an asterisk.)

Camp Bowie, Tex.—Pvt. Randall R. Moreland, Canyon, Tex.

Camp Custer, Mich.—Pvt. John Wesley Deramore, 1049 North Pershing Avenue, Indianapolis, Ind.; Pvt. Harry Krueger, R. F. D. No. 1, Box 51, Buffalo, Mich.; Pvt. Hugh S. Newell, General Delivery, Coral, Mich.*

Camp Devens, Mass.—Pvt. John L. Francis, Briggsville, North Adams, Mass.; Pvt. Oscar W. Nickerson, 15 Garfield Avenue, West Roxbury, Mass.; Pvt. Lester W. Waite, R. F. D., No. 1, Rantoul, Kans.

Camp Dix, N. J.—Pvt. Samuel Boswell, Route 3, Box 43, Newton, Ga.; Pvt. Pleamond Durham, Poulan, Ga.; Pvt. Frederick Elmore, Madison, Fla.; Pvt. George F. Higgins, 160 Prospect Avenue, Buffalo, N. Y.; Pvt. Harold C. Jostman, 5818 Theodosia Avenue, St. Louis, Mo.

Camp Dodge, Iowa.—Recruit Albert R. Ranger, 2942 Cottage Grove, Flat F, Chicago, Ill.*

Camp Gordon, Ga.—Pvt. James E. Hershberger, Cessna, Pa.*; Pvt. Tom Phinizee, Route 1, Fitzgerald, Ga.; Pvt. King Tatum, Ellaville, Ga., R. F. D. No. 1.

Camp Johnston, Fla.—Pvt. Williams L. Comas, Torrey, Fla.; Pvt. Arthur E. Moese, 1918 Winnemac Avenue, Chicago, Ill.

Camp Jackson, S. C.—Pvt. Arthur J. Chestnut, Warsaw, N. C.; Pvt. Peter Felicitti, 839 Wabash Avenue, Chicago, Ill.; Pvt. George Peters, 58 Grand Avenue, Downersgrove, Ill.

Camp Kearny, Cal.—Pvt. Henry J. Trimberger, Route A, R. F. D., Box 27, Lodi, Cal.

Camp Lee, Va.—Pvt. Robert B. Adams, 638 South Columbus Street, Alexandria, Va.; Pvt. John G. Calvey, Wyoming, Pa.; Pvt. Benny R. Owens, Tetotum, Va.

Camp Lewis, Wash.—Pvt. Chris H. Condare, 58 Henry Street, San Francisco, Cal.; Sergt. William A. Fetterly, Los Angeles, Cal.

Camp Meade, Md.—Pvt. Jacob Williams, Battle Creek, Kakis, Grand Turk, Texisland, British West Indies.

Camp Merritt, N. J.—Pvt. Arthur Flowers, Centerville, Tenn.; Pvt. Charles W. Haeg, rural route No. 3, Station F, Minneapolis, Minn.; Pvt. Harry Huntington, Gisham, Wis.; Pvt. Capt. Turman, Glenn, Ga.

Camp Mills, N. Y.—Pvt. Russell J. Walker, Meadville, Pa.

Camp Pike, Ark.—Pvt. Louis Marcel, jr., Convent, La.; Pvt. Robert Sanford, R. F. D. No. 1, Box 60, Humboldt, Tenn.

Camp Shelby, Miss.—Pvt. Chester S. Biggs, 301 South Adams Street, Marion, Ind.; Sergt. Walter F. Gabet, New Haven, Ind.

Camp Sheridan, Ala.—Pvt. Edward Wilkins, Lake Placid, N. Y.

Camp Sherman, Ohio.—Pvt. Thomas J. Berrian, 2205 Central Avenue, Cleveland, Ohio; Corpl. Walter Farver, 537 Corrall Street, Akron, Ohio.

Camp Stuart, Va.—Pvt. Albert Linebarger, McHue, Ark.; Pvt. Harold Estes Stewart, 2055 North Market Street, Wichita, Kans.*

Camp Taylor, Ky.—Pvt. John Gilbert, Saulsberry, Ky.

Camp Travis, Tex.—Pvt. Fred Akles, Elderville, Tex.; Pvt. Max Petretic, 3201 East Ninety-second Street, Chicago, Ill.; Pvt. Dock Ridge, Carson, Tex.

Camp Upton, N. Y.—Pvt. Dave Boone, Box 37, Lillie, La.

Camp Wadsworth, S. C.—Pvt. Claude R. Hale, Elvins, Mo.

Camp Wheeler, Ga.—Pvt. Thomas N. Allen, Clarkstown, Ga.; Pvt. Pearl S. Doren, Pekin, Ill.; Corp. Henry C. Lord, Andalusia, Ala.; Pvt. Alfred L. Norquist, 4124 North Whipple Street, Chicago, Ill.*; Pvt. Tom M. Thompson, South Main Street, Harrisburg, Ill.

Fort Adams, R. I.—Recruit Truman R. Rose, 1711 Mount Pleasant Avenue, Hamilton, Ohio.

Fort Bliss, Tex.—Band Leader Edward J. Heinrich, Cedarburg, Wis.

Fort Greble, R. I.—Pvt. Alfred M. Confer, Tyrone, Blair Co., Pa.

Fort Sam Houston, Tex.—Pvt. Salvatore Amato, Rock Island, Ill.; Pvt. William H. McDonald, 312 Knarr Street, Dubois, Pa.

Fort Hunt, Va.—Corpl. Clarence H. Wiseman, 316 Spring Street, Mankato, Minn.

Fort Oglethorpe, Ga.—Pvt. Robert William Flook, Centerville, Ind.;* Pvt. Crawford Wethington, Clementsville, Casey County, Ky.

Fort Riley, Kans.—Pvt. Ross Fulkerson, Defiance, Mo.; Pvt. George B. Ross, 2053A Ogden Street, Denver, Colo.; Pvt. Johnny Strowder, Mittie, La.

Fort Sill, Okla.—Capt. Donald F. Ray, Fayetteville, N. C.

Fort Thomas, Ky.—Recruit Charles E. Reed, Miller and Martha Streets, Indianapolis, Ind.*

Fort Worden, Wash.—Pvt. Frank Hemstock, R. F. D. No. 1, Sparta, Wis.*

Fort Worth, Tex.—Pvt. Thomas C. Anderson, 4724 East Fifth Avenue, Dallas, Tex.;* Pvt. John W. Shue, Route 2, Box 132, Malakoff, Tex.

Columbus Barracks, Ohio.—Recruit Edward H. Hale, 221 Wisconsin Street, Kenosha, Wis.

Jackson Barracks, La.—Pvt. Roy L. Keith, Chaffee, Mo.

Jefferson Barracks, Mo.—Recruit Roy C. Halterman, Moberly, Mo.*

Schofield Barracks, Hawaii.—Pvt. (first class) Harry Walter McNorton, Cambria, Va.; Pvt. Mariano Monsieur, Carsiara, Philippine Islands; Pvt. Roman Smiarowski, 390 Bailey Court Street, Akron, Ohio.*

Vancouver Barracks, Wash.—Pvt. Roy Beals, Chenowith, Wash.; Pvt. Walter L. Campbell, 214 Randolph Street, Indianapolis, Ind.; Pvt. John G. Prinzing, Great Falls, Mont.*

Call Field, Tex.—Second Lieut. Harry Shelmire Ross, 5420 Angora Terrace, Philadelphia, Pa.

Gerstner Field, La.—Maj. John P. Mitchel, 258 Riverside Drive, New York City.

Hazelhurst Field, N. Y.—Pvt. [illegible], Colonel, 210 West [illegible] Street, [illegible], Ind.

Selfridge Field, [illegible] Jackson, jr., 3507 Gilham Road, Kansas City, Mo.

Post Field, Okla.—Second Lieut. Charles Luther Cone, 1205 Tennessee Street, Lawrence, Kans.

Taliaferro Field, Hicks, Tex.—Second Lieut. William De C. Ravenal, 1611 Riggs Place, Washington, D. C.

Ardmore, Okla.—Sergt. (First Class) Edward Charles Doyle, 453 Prospect Avenue, Grand Rapids, Mich.; Second Lieut. Edward Burke Sullivan, 226 Bill Green Avenue, San Antonio, Tex.

Atlantic City, N. J.—Pvt. Mathias McMillan, Mount Hope Street, St. Davids, Grenade, British West Indies.

Baltimore, Md.—Pvt. Thomas J. Moore, 4910 Justine Street, Chicago, Ill.

Belvoir, Va.—Corpl. Adolph Krause, 3449 Hope Street, Philadelphia, Pa.*

Corpus Christi, Tex.—Pvt. Ever H. Kullenberg, 1416 South Kendall Street, South Bend, Ind.

Dalton, Ga.—Sergt. Stanley G. Jablonski, 1406 West Superior Street, Chicago, Ill.

Des Moines, Iowa.—Pvt. Carl C. Speckhart, La Grange, Mo.

Detroit, Mich.—Pvt. Henry G. Knispel, 122 Fifteenth Street, Detroit, Mich.

Glen Echo, Md.—Pvt. Frank Gillespie, Clayton, Wash.

Honolulu, Hawaii.—Pvt. Faustino Tingking, Siquijur, P. I.

Hot Springs, Ark.—Capt. Addison J. Provost, 89 Mount Vernon Street, Oshkosh, Wis.

Hot Springs, N. C.—Corpl. James S. Elliott, Pikeville, Ky.

Kansas City, Mo.—Pvt. Howard G. Lawler, R. R. No. 4, Vandalia, Ill.*

Lakewood, N. J.—Pvt. Julius Finstad, Priest River, Idaho.

Glamorgan, Va.—Pvt. Forest Williams, Glamorgan, Va.

Lowell, Mass.—First Class Sergt. Dewery G. McFarland, Oakland, Minn.

Markleton, Pa.—Pvt. Robert L. Speights, Pittsburg, Okla.

Midland, Mich.—Pvt. Walter Marchmant Hayward, Wickford, R. I.

New York, N. Y.—Pvt. Vernon L. Ammons, New Augusta, Miss.; Capt. Mack Bray, 1316 New Hampshire Avenue NW., Washington, D. C.; First Class Sergt. John G. Calhoun, 504 Seventh Street, Owensboro, Ky.*

Norfolk, Va.—Corpl. Mac Eugene Hudspeth, 218 North Magnolia Street, McComb, Miss.*

Oak Park, Ill.—Maj. Robert E. Brooks, Ewing, Holt County, Nebr.*

Pemberton, N. J.—Pvt. Thomas F. Ryan, 8 Mills Street, Charleston, Mass.

Port Clinton, Ohio.—Capt. Watson Reynolds, De Witt, Ark.

Portland, Oreg.—Pvt. Orlin G. Flowers, 255 Cherry Street, Portland, Oreg.

Rockford, Ill.—Pvt. Sylvester J. Wargen, Ogleby, Ill.

San Francisco, Cal.—Pvt. Wesley Archibald, 1614 North Tripp Avenue, Chicago, Ill.; Pvt. William E. Foster, 1920 West Tenth Street, Marion, Ind.; Pvt. Frederick Potin, Southport, La.;* Pvt. Aburey F. Shriver, College City, Colusa County, Cal.

San Juan, P. R.—Pvt. Monata Cortez, Utuado, P. R.

Shreveport, La.—Pvt. Arthur W. Carter, care of Ebenezer Carter, Wynnewood, Okla.

Springfield, Mass.—First Lieut. Frederick Koch, Highland Falls, Orange County, N. Y.

St. Paul, Minn.—Pvt. Charles W. Hodges, 319 West Avenue, Los Angeles, Cal.

Toledo, Ohio.—Pvt. Charles Buckman, 907 Freedom Street, East Toledo, Ohio.*

Tuskegee, Ala.—Pvt. Henry Gordon, Bradentown, Fla.*

Seattle, Wash.—Pvt. Perley L. Linton, Geraldine, Mont.*

Welsh, La.—Second Lieut. Clinton Sumner Ferry, Sheldon, Mo.

West Point, N. Y.—First Lieut. Thomas W. Churchill, 332 West Eighty-fourth Street, New York City.

MAJ. BOLLES ORDERED HERE.

Special Orders No. 158:

296. Maj. Frank G. Bolles, Ordnance Reserve Corps, is relieved from duty at the plant of the Mosler Safe Co., Hamilton, Ohio, and will proceed at once to Washington, D. C., and report to the Chief of Ordnance, 451 Pennsylvania Avenue, for duty.

Help your Government and yourself at the same time—buy war-savings stamps.

LIST OF PURCHASE ORDERS AND CONTRACTS PLACED BY THE GENERAL ENGINEER DEPOT OF THE ARMY

Contracts have been awarded by the General Engineer Depot, War Department, as follows:

July 13, 1918.

Smith & Hemenway Co., Irvington, N. J., climbers, lineman's.
Dow Wire & Iron Co., Louisville, Ky., screw posts.
T. A. Willson & Co. (Inc.), Reading, Pa., spectacles.
United States Graphite Co., Saginaw, Mich., graphite compound.
Pittsburgh Piping Equipment Co., Pittsburgh, Pa., steel pipe.
The Ashcroft Manufacturing Co., New York City, aircraft iron cases.
Victor Brass Manufacturing Co., Cleveland, Ohio, globe valves.
Monitor Bi-Loop Radiator Co., Lancaster, Pa., hot-water heaters.
Eberhard Faber, Washington, D. C., office supplies.
Vistol Co., Boston, Mass., art gum.
Fir Production Board, Washington, D. C., select common fir.
Dennison Manufacturing Co., Framingham, Mass., gummed labels.
General Electric Co., Schenectady, N. Y., tread rollers.
Reading Chain Block Co., Reading, Pa., chain blocks.
Bethlehem Steel Corporation, Washington, D. C., tie plates.
J. Schwarzalder & Co., Hoboken, N. J., wooden-stave water tanks.
C. E. Jennings & Co., New York City, bits.
C. F. Pease Co., Chicago, Ill., blue-print frame.
Eugene Dietzgen, New York City, drawing materials.
Peck, Stow & Wilcox, Southington, Conn., tinners' snips.
Archer-Daniels Linseed Co., Minneapolis, Minn., raw linseed oil.
Lakewood Engineering Co., Cleveland, Ohio, railroad supplies.
Deuffel & Esser Co., Hoboken, N. J., trough compass sets, etc.
The Globe-Wernicke Co., Washington, D. C., office furniture.
William B. Grimshaw Co., Philadelphia, Pa., locomotive cranes.
John A. Roebling's Sons Co., Washington, D. C., ropes, cable and double.
E. C. Atkins & Co., Indianapolis, Ind., compass saws.
Landis Machine Co., Waynesboro, Pa., repair parts.
Midvale Steel Ordnance Co., Washington, D. C., steel rails.
Champion Spark Plug Co., Toledo, Ohio, spark plugs.
Foran Foundry Manufacturing Co., Flemington, N. J., deck fittings.
The Industrial Works, Bay City, Mich., locomotive cranes.
Buffalo Forge Co., Buffalo, N. Y., blowers, electric motor-driven.
Worcester Electric Manufacturing Co., Worcester, Mass., voltmeters and ammeters.
The Ingersoll-Rand Co., Washington, D. C., screw columns and jack-hammer mounting.
Blakeslee Manufacturing Co., Duquoin, Ill., duplex pump.
The Barrett Co., New York City, waterproofing pitch.
The Consolidated Safety Valve Co., New York City, spares for Baldwin locomotives.
Baldwin Locomotive Works, Philadelphia, Pa., spares for gasoline locomotives.
The Browning Co., Cleveland, Ohio, locomotive cranes.
J. Faessler Manufacturing Co., Moberly Mo., boiler-tube expanders.

July 15, 1918.

The Lufkin Rule Co., Saginaw, Mich., tape-repair outfits.
Howells Mining Drill Co., Plymouth, Pa., earth augers.
Conneaut Shovel Co., Conneaut, Ohio, grafting spades.
Smith & Hemenway Co., Irvington, N. J., climbers, lineman's.
Underwood Typewriter Co. (Inc.), Washington, D. C., typewriters.
Davis-Bournonville Co., Washington, D. C., oxy-acetylene-welding outfits.
E. T. Fraim Co., Lancaster, Pa., padlocks.
The Bastian Blessing Co., Chicago, Ill., hose couplings.
American Oil, Pump & Tank Co., Cincinnati, Ohio, portable wheel tanks.
Pittsburgh Steel Co., Washington, D. C., barb wire.
Fred S. Lincoln (Inc.), Washington, D. C., files.
Mark Manufacturing Co., Chicago, Ill., foot valves.
Roanoke Spoke & Handle Co., Roanoke, Va., hatchet handles.
Warren Tool & Forge Co., Warren, Ohio, bars, wrecking.
Oshkosh Manufacturing Co., Oshkosh, Wis., timber-carrier handles and maple peavie handles.
American Logging Tool Co., Evart, Mich., timber carriers.
Acme Rubber Manufacturing Co., Trenton, N. J., hose.
Kelly Axe Manufacturing Co., Charleston, W. Va., scythes.
Enlow Co. (Inc.), New York City, matches.
Goodyear Tire & Rubber Co., Washington, D. C., rubber gaskets.
Stanley Rule & Level Co., New Britain, Conn., blacksmith's rivet tongs.
Boston Woven Hose & Rubber Co., Boston, Mass., hose.
Dennison manufacturing Co., Baltimore, Md., wax, sealing.
W. D. Allen Manufacturing Co., Chicago, Ill., hose clamps.
Plymouth Cordage Co., North Plymouth, Mass., Manila rope.
Eisemann Magneto Co., Brooklyn, N. Y., distributor gears.
Western Electric Co., New York City, special transformers.
Katzenbach & Bullock Co., New York City, sal ammoniac, granular.
Bausch & Lomb Optical Co., Rochester, N. Y., mirror, searchlight.
A. B. Dick Co., Washington, D. C., Dermax stencil paper.
Landers, Frary & Clark, New Britain, Conn., knives.
Ames Iron Works, Oswego, N. Y., heavy-duty compression engines.
Chicago Insulated Wire & Manufacturing Co., Sycamore, Ill., wire.
Oswego Tool Co., Oswego, N. Y., pipe cutters.
The Foxboro Co., New York City, recording pressure gauges.

July 16, 1918.

Fuchs & Lang Co., New York City, glass marbles.
Henry Disston & Sons, Philadelphia, Pa., files.
Hibbard, Spencer, Bartlett Co., Chicago, Ill., soldering coppers.
The Benton Manufacturing Co. (Inc.), New York City, hand tally machines.
Lufkin Rule Co., Saginaw, Mich., tape repair outfits.
Baldwin & Brown, Richmond, Va., cant hooks.
American Steel Wool Co. (Inc.), New York City, steel wool.
Keystone Manufacturing Co., Buffalo, N. Y., wrenches.
Stanley Rule & Level Co., New Britain, Conn., spike mauls.
Crucible Steel Co., Pittsburgh, Pa., bars, tool steel.
Southern Electric Co., Baltimore, Md., slate panel.
The Buda Co., Washington, D. C., drills.
Mechanical Appliance Co., Washington, D. C., armatures and spares.
E. T. Fraim Lock Co., Lancaster, Pa., padlocks.
Imperial Electric Co., Akron, Ohio, generators.
Fenn Manufacturing Co., Charlotte, Mich., snaths.
General Electric Co., Schenectady, N. Y., rollers with studs.
Little Giant Punch & Shear Co., Sparta, Ill., punch and shear cutting iron with punches and dies.
I. Block & Son, New York City, lantern wicks.
Ford Motor Co., Detroit, Mich., parts for searchlight carriages.
Taylor Instrument Co., Rochester, N. Y., hydrometers.
Chelsea Clock Co., Boston, Mass., clocks, switchboard.
Carborundum Co., Niagara Falls, N. Y., oil stones.
Sperry Gyroscope Co., Brooklyn, N. Y., searchlights.
Rudolph & West Co., Washington, D. C., wrenches and saw vises.
Splitdorf Electrical Co., Newark, N. J., magnetos, armatures.
Jackson Manufacturing Co., Harrisburg, Pa., tubular wheelbarrows.
Wright-Austin Co., New York City, vertical screwed ends.
J. K. Larkin Co., New York City, galvanized barb wire.
Crucible Steel Co., Pittsburgh, Pa., bars, tool steel.
Dennison Manufacturing Co., Baltimore, Md., wax, sealing.
The Lakewood Engineering Co., Washington, D. C., clam shell buckets.
Bethlehem Steel Corporation, Washington, D. C., turnouts, of Russian rail.
Chicago Insulated Wire & Manufacturing Co., Sycamore, Ill., wire, firing, double lead.
The Oswego Tool Co., Oswego, N. Y., wheel and wheel pins for Barnes pipe cutter.
Kalbfleisch Corporation, New York City, alum filter.
Borden Co., Warren, Ohio, die stocks.
Nathan Manufacturing Co., Flushing, Long Island, N. Y., sight feed lubricators.
Government Printing Office, Washington, D. C., field note books.
Aborn Steel Co., New York City, carbon tool steel.
J. H. Weil & Co., Philadelphia, Pa., beam compasses.
Pike Manufacturing Co., Pike, N. H., oil stones.
Keuffel & Esser Co., Hoboken, N. J., frames, blue printing.
Eugene Dietzgen Co., New York City, frames, blue printing.
Crown Iron Works Co., Minneapolis, Minn., screw posts.
Whitall-Tatum Co., Philadelphia, Pa., rods, stirring, glass; pestels and mortars.
The C. F. Pease Co., Chicago, Ill., Payzant lettering pens.

July 17, 1918.

District of Columbia Paper Manufacturing Co., Washington, D. C., blotting paper.
Pike Manufacturing Co., Pike, N. H., oil stones.
Charles G. Statt & Co. (Inc.), Washington, D. C., twine, Elbe binders.
Adams Westlake Co., Chicago, Ill., switch lanterns.
J. Schwarzalder & Son, Hoboken, N. J., wooden stave water tanks.
Clyde Iron Works, Duluth, Minn., electric hoists.
Winsted Edge Tool Co., Winsted, Conn., socket gouges.
Roberts Brass Co., Milwaukee, Wis., gate valves.
The Edwards & Chamberlin Hardware Co., Kalamazoo, Mich., nails.
B. F. Gladding & Co., South Otselic, N. Y., chalk line.
Art Metal Construction Co., Washington, D. C., office bookcases and files.
Republic Rubber Manufacturing Co., Youngstown, Ohio, hose.
W. Bingham Co., Cleveland, Ohio, carpenters' slicks.
General Electric Co., Washington, D. C., exhaust fans.
H. Mueller Manufacturing Co., New York City, lead melting furnaces.
Chain Belt Co., Milwaukee, Wis., concrete mixers.
Government Printing Office, Washington, D. C., field notebooks.
Massey Vise Co., Chicago, Ill., mechanics' bench vises.
Warren Tool & Forge Co., Warren, Ohio, blacksmiths' flatters.
Aborn Steel Co., New York City, carbon tool steel.
Republic Rubber Co., Youngstown, Ohio, hose.

NEW "LIGHTLESS NIGHTS" ORDER

(Continued from page 1.)

display and show window lighting in the United States. Similar estimates fix the amount of coal used in advertising lighting in New York City at 16,000 tons per year.

With the miners of the country responding loyally to the appeals of the Fuel Administration for increased production, the weekly output of bituminous coal is surpassing all previous records. The efforts of the Fuel Administration, operators, and miners to increase production must be supplemented, however, by the elimination of every wasteful or unnecessary use of coal. The enormous war demand for fuel makes it imperative that the country make the most economical use possible, even of the constantly increasing output.

Text of the Order.

The order restricting lighting reads:

It appearing to the United States Fuel Administrator that it is essential, in furtherance of the national security and defense, the successful prosecution of the war, and the support and maintenance of the Army and Navy, to lessen and prevent the waste of fuel, and to secure an adequate supply and equitable distribution and prevent, locally and generally, scarcity thereof, and that to these ends, it is necessary that the use of fuel shall be limited and restricted in the manner hereinafter set forth.

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby adjudges that in his opinion the use of fuel or of light generated or produced by the use or consumption of fuel for any of the purposes hereinafter described, except as hereinafter provided, is wasteful, and that any person using fuel or light for such purposes, except as aforesaid, is engaging in a wasteful practive or device in handling or dealing with fuel, and that the use of fuel or light for such purposes except as aforesaid is prejudicial and injurious to the national security and defense, and a cause of scarcity, locally and generally, and said United States Fuel Administrator hereby orders and directs that, until further or other order of the United States Fuel Administrator, and subject to modification hereafter from time to time, and at any time,

Public and Private Lighting.

1. No city, village, or town and no person, firm, or corporation under any contract with any city, village, or town, shall use or consume any coal, oil, gas, or other fuel for the maintenance of lights in the streets, parks, or other public places of such city, village, or town, except under the following restrictions and limitations.

(a) Street illumination automatically lighted, maintained by or for any such city, village, or town, in the streets, parks, or other public places thereof, shall not be lighted before sunset and shall be turned out not later than sunrise;

(b) Street illumination lighted by hand in any such city, village, or town shall conform as nearly as may be to the requirements hereinabove prescribed for automatic lights;

(c) The amount of public lighting in any city, village, or town shall be only so much as may be necessary for safety, and the use of lights commonly known as cluster lights for purposes of display or decoration shall be reduced to such portion only of the cluster as is necessary for safety.

2. The local fuel administration for the territory within which any city, village, or town is located shall arrange with the proper municipal or town authorities of such city, village, or town for the regulation of public lighting in accordance with the provisions of paragraph Number 1 of this order. Regulations for public lighting so arranged shall in each case be subject to the approval of the proper State Fuel Administrator, and in case regulations in accordance with said paragraph 1 for the public lighting of any city, village, or town, satisfactory to the State Fuel Administrator of the State within which the same is located, shall not have been arranged between the local fuel administration and the proper municipal or town authorities as hereinabove provided, within ten (10) days from and after the effective date of this order, said State Fuel Administrator is hereby authorized and directed to prescribe such regulations for such city, village, or town, and the same shall be valid and binding.

Lighting After Sunset.

3. Outdoor lights within a city, village, or town, other than those mentioned in paragraph 1 of this order, which involves, directly or indirectly, the use or consumption of coal, oil, gas, or other fuel shall not be lighted until 30 minutes after sunset.

4. (a) The use of light generated or produced by the use or consumption of coal, gas, oil, or other fuel for illuminating or displaying advertisements, announcements, or signs, or for the external ornamentation of any building shall be entirely discontinued on Monday, Tuesday, Wednesday, and Thursday of each week within New England and the States of New York, Pennsylvania, New Jersey, Delaware, Maryland, and the District of Columbia and shall be entirely discontinued on Monday and Tuesday of each week in all the remainder of the United States.

Exception: Bona fide roof gardens where meals are served and outdoor restaurants, also establishments devoted exclusively to the exhibition of outdoor moving pictures at which admission is charged are exempt from this section.

4. (b) The use of light generated or produced by the use or consumption of fuel for illuminating or displaying any shop windows, store windows, or any signs in show windows shall be discontinued from sunrise to sunset and shall also be discontinued on the nights specified in paragraph 4 (a).

5. The State fuel administrators within the several States are hereby directed and authorized to see that the provisions of this order are observed and carried out within their several States, to report violations thereof to the United States Fuel Administrator, and to recommend to him action to be taken with respect to such violations.

This order shall be effective on and after July 24, 1918.

SECRETARY CHARGED TO ENFORCE CHILD LABOR CONTRACT CLAUSE

Following the weekly meeting July 19 of the War Labor Policies Board, Chairman Felix Frankfurter authorized the following statement:

The War Labor Policies Board, at its meeting to-day, voted to make the Secretary of Labor responsible for the enforcement of the contract clause with reference to the employment of children which was agreed to by the board at its meeting last week.

Clause in All Contracts.

All Government contracts are, according to last week's agreement, to contain a clause providing that the contractor shall not directly or indirectly employ, in the performance of the contract, any child under the age of 14 years, or permit any child between the age of 14 and 16 years to work more than 8 hours in any one day, more than 6 days in any one week, or before 6 a. m. or after 7 p. m.

The action taken last week by the War Labor Policies Board follows the well-established precedent of the Government in making contracts subject to certain well-established industrial standards. The adoption of these standards, in the opinion of the board, promotes the immediate, as well as the ultimate, welfare of the country. English and French experience has demonstrated that the employment of children under 14 or of those over 14 for long hours or on night work is not in the interest of sustained efficiency of production.

Children's Bureau in Charge.

The action taken by the board to-day in delegating to the Secretary of Labor the enforcement of this clause probably means that it will be delegated to the Child Labor Division of the Children's Bureau. The issuance of certificates of age, inspection, and cooperation with State officials required for the administration of the Federal child labor law was delegated to the Children's Bureau by the Secretary of Labor.

The centralization in the Department of Labor of the enforcement of this child labor contract clause has the advantages of utilizing existing administrative machinery, with which employers and State officials are already familiar, and the avoidance of the confusion and duplication incident to enforcement by each department concerned.

HONOR LATE U. S. MINISTER.

Bolivian President Appoints July 23 Day of National Mourning.

A telegram to the Department of State from La Paz states that the President of Bolivia has issued a decree declaring July 23 a national day of mourning for John D. O'Rear, late American minister to Bolivia. Official memorial services will be held.

RED CROSS HOME SERVICE

Information for Soldiers' and Sailors' Families, Issued by Department of Civilian Relief.

Red Cross Institute for the Blind Is Created By The War Council

The Red Cross war council has supplemented the Army's plans for the care and reeducation of blinded soldiers, as announced in THE OFFICIAL BULLETIN of March 21, by creating the Red Cross Institute for the Blind, in order that certain phases of the social and economic supervision of these men may be provided for. The specific purposes of the Red Cross appropriation are "to supply the organization and funds to promote the industrial care of the blinded soldiers after the completion of their reeducation and discharge by the Army."

The medical officer of the Surgeon General's staff, who is responsible for the official Army program for the blind has been appointed director of the Red Cross institute for the blind, and will work in close touch with the Federal Board for Vocational Education, thus insuring thoroughgoing unity of policy and control.

This combination of an official organization with additional private resources will make possible the continuous and perpetual care of blinded soldiers after they are discharged from the Army. Not only education and placement are contemplated, but subsequent industrial supervision for the balance of the soldier's life. It must be remembered that many blinded soldiers will, in addition, be suffering from other forms of disability. In blindness caused in the industries 98 per cent of the eye injuries are without such complications, whereas in war 40 per cent are multiple; that is, these blind men also have amputations of arms or legs, or both, facial burns, destruction of jaws, and so on. To these particularly unfortunate individuals the Nation owes a lasting duty. Patriotic zeal will provide adequate care for these men at present, but only invested capital and far-reaching plans will make their future certain.

As soon as the American soldiers, blinded in battle, recover from their immediate wounds at the base hospital the special work for them will be commenced. At first the chief effort will be to amuse them and inspire them with some degree of hope. Later, as the men improve, they will be concentrated at the port of embarkation in France under care of a special staff which will expand the measures of elementary instruction, teaching the men to get about and care for their immediate needs—in other words, teaching them "how to be blind." On the way home they will be grouped according to the degree of injury, and upon arrival in the United States they will be sent to the United States Military General Hospital No. 7 at Baltimore for further medical and surgical treatment and special teaching.

Will Instruct One Relative.

Here, in addition to the technical training provided by the Government, under paid professional instructors, several important features in the care and comfort of these men have been made possible by the Red Cross appropriation. The Red Cross institute, for example, will undertake to provide a home and transportation to Baltimore for the relative who will be responsible for the care of the blinded man when returned to his home. It is the intention to instruct one such relative in the Government training school side by side with the blinded soldier, as is now done by the British and French Armies. The purpose is that the blind man's family may be informed as to his difficulties, ambitions, training, and needs, so as to prevent the mental deterioration which often results from false sympathy. Friendly relations between the family and teachers will be a potent means of stimulating the interest of the blind man. In order that the division bureaus of civilian relief of the Red Cross may be in a position to provide expert advice in the aftercare of the blind, the same training facilities will be made available to selected staff representatives from each of the division offices.

Another function of the institute will be to provide certain necessary financial aid to equip the blind man after his reeducation is completed. For example, every blind man who enters commercial life will need a typewriter, and one of the special stenographic machines used in conjunction with typewriters.

A central purchasing bureau and a central selling agency will be established to promote the successful operation of special workshops for those blind men who can not reenter commercial or industrial establishments.

A survey must be made to unearth new occupations for the blind. The average wage of the blind man is now about $4.62 per week. A special board will undertake this study of possible occupations not merely to determine the type of education necessary, but to suggest the adoption of appliances which will minimize danger and increase efficiency.

Other Functions.

Other functions of the Red Cross Institute for the Blind will be to provide additional facilities for the production of literature for the blind, to plan the aftercare and supervision of the blind men placed in industry, and to establish homes and arrange home work for those who can not go into factories or offices. An important feature will be a savings association to encourage thrift and investment of part of the liberal compensation of $100 a month or more, depending upon the family, which the totally blinded men will be entitled to on their discharge and while still under the care of the institute.

The blind man has three serious difficulties to overcome before he can make his own living—his own timidity, the reluctance of industry to employ him, and the misplaced sympathy of his family and friends. To overcome his own handicap the Government will educate him. To offset the reluctance of industry it will be demonstrated that the trained blind man can take his place and do his part. To help the family realize both the limitations and possibilities of the blind man reliance is placed upon the plan of educating one member of each man's family and upon the intelligent and informed aftercare work which will be organized by the Red Cross Institute for the Blind in cooperation with the home-service sections.

Training for Assistants.

Arrangements are being made for a limited number of staff assistants attached to division bureaus of civilian relief to take a six-weeks' course of training at the Baltimore school. Under the supervision of these workers home-service sections will be called upon to furnish essential information as to the blinded soldier's personal, family, and community background, so that the most effective plans for his treatment and aftercare may be carried out. This information will, for instance, enable a wise decision to be made as to the member of the man's family selected to accompany him through the training course at Baltimore.

The Commutation of Quarters for Commissioned Officers.

The President recently approved a bill providing that "every commissioned officer of the Army of the United States on duty in the field or on active duty without the territorial jurisdiction of the United States, who maintains a place of abode for a wife, child, or dependent parent shall be furnished at the place where he maintains such place of abode" with quarters for such wife, child, or dependent parent, and that "in case such quarters are not available every such commissioned officer shall be paid commutation thereof," including commutation for heat and light.

The Comptroller of the Treasury has issued an opinion construing this act and describing as follows the procedure which an officer should follow in making application for its benefits.

In ordinary cases the evidence required by the disbursing officer to authorize payment of commutation of quarters, heat, and light will be the officer's certificate attached to his pay account showing the full name and post office address of each person for the maintenance of whom the commutation is claimed and the exact degree of relationship of such person to the officer.

(a) If wife, a statement that she is then his lawful wife.

(b) If a child, the date of the child's birth and whether married or unmarried, and if aged 18 or more years, the mental condition of the child should be given.

(c) If a parent, there should be a statement showing that such parent was actually dependent upon officer. (The qualifying word "dependent" is construed to mean that the officer has, before April 16, or may thereafter actually and necessarily contribute regularly more than one-half of the cost of a reasonable living for the parent.)

(d) If an adopted child or an adoptive parent there should be presented proper record evidence that all the formalities required for adoption by the law of the domicile were complied with.

In addition to this the officer should state in his certificate whether or not application was made to a quartermaster of the Army for rooms for such dependent and if not, why not, * * * and he should certify as to the number and location of the rooms actually occupied by the wife, child, and dependent parent and as to the exact period such rooms were so occupied.

SUBMARINE SINKS A TUG AND THREE BARGES OFF MASSACHUSETTS COAST SUNDAY BY SHELL FIRE

ATTACK NEAR ORLEANS

All of Crew of the Tug Rescued and Taken to Coast Guard Station No. 40—One Man Injured by Fire From the U-Boat—Shelling Witnessed From the Shore, Says Naval Report.

The Navy Department authorizes the following:

The Navy Department at noon yesterday (July 21) received a dispatch from the First Naval District stating that Coast Guard Station No. 40, at Orleans, Mass., on the coast between Cape Cod and Chatham, Mass., reported sighting a tug on fire and three barges being shelled by a submarine.

The department yesterday afternoon received a dispatch stating that the tug and barges were sunk. All the crew of the tug were rescued, the report stated, one man being injured by shell fire. The men were taken to Coast Guard Station No. 40, at Orleans.

CANADIAN BLANKET LICENSE REVOCATION IS POSTPONED

The War Trade Board issues the following:

The revocation of the general import license covering the importation of commodities from Canada and Newfoundland as to shipment of articles on the list of restricted imports, which by a ruling of the War Trade Board (W. T. B. R. 161), published July 8, was to have been effective from July 20, 1918, has been postponed until August 15, 1918.

W. S. S. SALES PASS $400,000,000.

The National War Savings Committee issues the following:

Treasury Department receipts from the sale of war savings and thrift stamps on Wednesday (July 17) passed the $400,000,000 mark, amounting up to and including July 16 to $401,572,927.88.

MOTOR-TRUCK INDUSTRY CLAIMS FOR STEEL AND FUEL PRIORITY

Character as War Essentials Set Forth at Hearing Before Commissioner Parker.

The War Industries Board authorizes the following:

At a hearing before Edwin B. Parker, priorities commissioner, and other representatives of the War Industries Board, at which a committee representing the motor-truck industry of the United States presented the claims of the industry to preference treatment in its supply of raw materials, especially steel and fuel, the following conclusions were tentatively reached:

1. That motor trucks, in so far as they are used directly or indirectly for war purposes, are war essentials and their production must be facilitated accordingly.

2. That in so far as motor trucks are employed in civilian industries for essential uses they constitute an important transportation medium, and their curtailment for such uses should be avoided as far as practicable.

3. That there exists in the industry, as in many others, an element of nonessentiality because of the uses to which its products are devoted, and a plan has been devised and will be put into effect promptly to insure against the manufacture or delivery of motor trucks for any other than essential uses.

Regardless of the point of essentiality, however, the War Industries Board does not undertake to guarantee to the industry any proportion of its steel requirements.

4. Steel and other war materials may be conserved through the observance by manufacturers, retailers, and operators of the strictest supervision of the use of motor trucks, by maintaining and repairing each vehicle for operation as long as possible before replacing it with a new one and by observing other economies which were discussed and will be further developed.

(Continued on page 5.)

Independence Day Greeting to Colombia's President

The President has sent the following message to the President of Colombia:

THE WHITE HOUSE,
July 20, 1918.

His Excellency JOSE VICENTE CONCHA,
President of Colombia, Bogota:

On this anniversary of the independence day of Colombia I extend to the Government and people on behalf of my countrymen and in my own name cordial felicitations.

WOODROW WILSON.

3 KILLED, 47 MISSING, 12 NOT ACCOUNTED FOR, OF CREW OF THE SUNKEN U. S. CRUISER SAN DIEGO

SINKING IS DESCRIBED

Perfect Order Is Preserved After Shock of Explosion and as Men Abandon the Ship—Gun Crews Stand By Guns Until the Last. Cheers for Captain, Executive Officer, and the Ship.

Rear Admiral Palmer, Acting Secretary of the Navy, authorizes the following:

Fuller particulars received regarding the sinking of the U. S. S. *San Diego* show that the explosion took place on the port side just aft of the forward port engine-room bulkhead. The feed tank and circulating pump were blown in, and the port engine wrecked. Full speed ahead was rung, and the starboard engine operated until it was stopped by water rising in the engine room. Machinist's Mate Hawthorne, who was at the throttle in the port engine room was blown four feet under the engine-room desk. He got up, closed the throttle on the engine, which had already stopped, and then escaped up the engine-room ladder. Lieut. Millen, on watch in the starboard engine room, closed the water-tight door to the engine room, and gave the necessary instructions to the fireroom to protect the boilers.

Turns Turtle and Sinks.

The ship listed to port heavily so that water entered the gun ports on the gun deck. The vessel listed 8 degrees quickly, then hung for seven minutes; then gradually listed, the speed increasing until 35 degrees was reached. At this time the port quarterdeck was 3 feet under water. The ship then rapidly turned turtle and sank. Capt. Christy went from the bridge down two ladders to the boat deck, slid down a line to the armor belt, then dropped down 4 feet to the bilge keel, and thence to the docking keel, which at that time was eight feet above water. From there he jumped into the water. The ship was about five minutes in turning over after she reached 35 degrees heel.

No wake of a torpedo was seen. The first thing Capt. Christy noticed was, while standing on the wheelhouse, 8 feet above the forward bridge, he felt and heard a dull explosion. He immedi-

afely sounded submarine defense quarters and the general alarm.

Everything went quietly and according to drill schedule. The captain rang full speed ahead, and sent an officer to investigate the damage. At the time he thought the ship would not sink. Two motor sailers were ordered rigged out, but not to be lowered until further orders.

At the submarine defense call the men went quietly to their stations and manned the guns. They stood by the port guns until they were awash, and by the starboard guns until the list of the ship pointed them up into the air.

When it seemed obvious that the vessel would capsize, the order was given to abandon ship, except the port-side gun crew, which were to remain at their stations as long as the guns would bear. Boats were ordered lowered, and two sailboats, one dinghy, one wherry, and two punts were launched. The life rafts were launched and the lumber pile on deck was loosed and set adrift. Fifty mess tables and a hundred kapok mattresses were thrown overboard. Abandon ship was complete before the vessel began to capsize.

Sing on the Rafts.

Perfect order was preserved, the men cheering. When on the rafts they sang "The Star Spangled Banner" and "My Country 'Tis of Thee," cheered for the captain, the executive officer, and the ship, and cheered when the United States ensign was hoisted on the sailboat.

Two dinghies with six officers and 21 men pulled to shore, and arrived safely at 1.20 p. m. The steamer *Malden* came into sight and picked up 370 officers and men. The steamer *Bossom* reached the scene 20 minutes later and picked up 708 officers and men. The steamship *S. P. Jones* came up and took aboard 78 men. These three steamers searched the entire vicinity for survivors until 3 p. m. A fourth steamer came up later, but so far as known, did not pick up any survivors. The three steamers took the survivors to New York, where they were taken on board a United States ship on which every provision had been made for their reception. They were given food and clothing. American Red Cross representatives were on hand when the men arrived and distributed 1,200 blankets, comfort kits, sweaters, socks, pajamas, and watch caps. Army embarkation officers assisted in every way in transferring the men from the steamers.

Three Killed by Explosion.

The Navy Department has received information that three men are positively known to have been killed by the explosion when the vessel was sunk.

The survivors were taken to port on different vessels, and one boat load was landed at a lighthouse on Long Island. The names of the survivors are being telegraphed to the Navy Department, and the next of kin are being notified as fast as the names are received.

Reports received of survivors landed have been compared with the latest muster roll of the U. S. S. *San Diego* and indicate the following:

Known dead	**3**
Missing	**47**

President's Message of Greeting to King Albert and Belgian People

The President has sent the following message to the King of the Belgians:

THE WHITE HOUSE, *July 21, 1918.*

His Majesty, ALBERT, *King of the Belgians,*
Grandquartier-General-Belge.

On this day, sacred in the annals of Belgium, the hearts of my countrymen beat in sympathy with the Belgian people, with whom we are linked in the resolute struggle to conserve the rights and liberties of free communities. Your country has been torn asunder before by alien oppression and by attempted domination, and beneath the searing blasts of oppression has learned to prize and develop the qualities that stimulate a true-hearted people to assume among the powers that high place that rightly belongs to free and independent nations. I join with my countrymen in extending to Your Majesty and to the people of Belgium, who have so nobly given their lives and treasure for the safeguarding of national freedom and equal justice, heartfelt greetings on this auspicious day, in the confidence that it presages for reenfranchised Belgium a still greater and more glorious place in the proud annals of human achievement in the paths of liberty.

WOODROW WILSON.

Known Dead.

Thomas Everett Davis, fireman, first class. Mother, Mrs. Alma Davis, South Mansfield, La.

James Francis Rochet, engineman, second class. Next of kin, Mrs. V. C. H. Dean, Blue Lakes, Cal.

Frazier O. Thomas, machinist's mate, second class. Father, Lochard A. Thomas, Charlestown, W. Va.

Missing.

Robert William Aitken, seaman, second class. Mother, Mrs. Mae Miller Aitken, San Diego, Cal.

Carlos Allen Black, seaman, second class. Mother, Mrs. Charles E. Black, 2535 Ellsworth Street, Berkeley, Cal.

Clyde Chester Blaine, engineman, second class. Stepmother, Mrs. Bertha Blaine, Lomita, Cal.

Frank John Boot, chief electrician (G). Mother, Mrs. Kate Boot, 350 Clayton Street, Denver, Colo.

Henry Oliver Buxton, electrician, third class (radio). Mother, Mrs. Oila Buxton, Forest Grove, Oreg.

William Henry Chilcott, seaman. Father, John Chilcott, Eureka, Cal.

Carl Clifton Couivillion, seaman, second class. Mother, Mrs. Ella W. Couivillion, 2011 Terry Street, Houston, Tex.

Benjamin Raymond Cox, seaman, second class. Father, Jesse J. Cox, Wamego, Kans.

Allan Bertram Croke, musician. Father, James Croke, 92 Appleton Street, Arlington Heights, Mass.

Tandy K. Culpepper, fireman, third class. Father, Tandy Key Culpepper, sr., Halsell, Ala.

Benjamin Borton Dillon, coppersmith, first class. Wife, Mrs. Emma Dillon, 1206 Santa Clara Avenue, Alameda, Cal.

James Regie Duke, seaman. Grandfather, William R. Winfrey, Box 52, Troy, Tex.

Rudolph Leon Duncan, electrician, first class (radio). Mother, Mrs. Louise Duncan, Hamburg, Iowa.

George William Farrin, seaman. Mother, Mrs. Rebecca J. Farrin, Akron, Iowa.

Jesse James Foster, chief boatswain's mate. Father, Homer Foster, Stuttgart, Ark.

Leon Goodnow, seaman, second class. Father, Charles Goodnow, 29 North Street, Fairport, N. Y.

Stephen Heard Grant, seaman, second class. Father, John T. Grant, Andrews, S. C.

Leonard Osborn Hall, seaman. Mother, Mrs. Willie M. Warren, general delivery, Grass Valley, Cal.

Miles N. Howk, seaman, second class. Mother, Mrs. Nancy J. Howk, Box 85, Burr Oak, Mich.

John Condadine Larkin, electrician, first class (G). Mother, Mrs. Bertha Larkin, 859 Fourth Avenue, North Troy, N. Y.

Wilford Larsen, seaman. Sister, Mrs. Art. Stapley, Mammoth, Utah.

Henry Herbert Law, landsman for yeoman. Mother, Mrs. Catherine Law, 5 Woodcrest Avenue, White Plains, N. Y.

Samuel Everett McDowell, chief yeoman. Sister, Pearl M. Smelcer, Mondovi, Wash.

George Lewdwie Meyer, fireman, first class. Uncle, Fred Paeper, Washington, D. C.

Alexander Horton Loper, seaman, second class. Mother, Mrs. Rose B. Loper, Fulton and Gold Streets, Rosedale, Long Island, N. Y.

James Raymond Moler, seaman. Brother, Richard Moler, Rosedale, Ind.

Andrew Munson, machinist's mate, second class. Mother, Mrs. Karna Munson, 446 Maria Avenue, St. Paul, Minn.

Julius Leland Murphy, boatswain's mate, first class. Mother, Mrs. Altha May Murphy, 418 Garfield Street, Fort Collins, Colo.

John Edward Pearce, seaman, second class. Mother, Mrs. Anna Pearce, Milton, Wis.

Fred Lewis Polk, seaman, second class. Mother, Mrs. Malinda L. Polk, Lumberton, Miss.

Charles Arthur McKibben, chief boatswain's mate. Wife, Mrs. Martha Elizabeth McKibben, 148 West Eighty-second Street, New York, N. Y.

Norman Peter Robertson, seaman. Father, Peter Robertson, 147 Nicholas Street, St. Clair, Pa.

Eugene Leon Rooks, fireman, first class. Father, Eugene L. Rooks, Tela, Honduras.

Richard Russell, seaman, second class. Father, H. G. Russell, R. F. D. No. 3, Leonard, Tex.

Carl Nathan Shank, seaman, second class. Aunt, Minnie Mummert, Mount Joy, Pa.

Angelo Joe Sibilia, seaman, second class. Mother, Mrs. Louisa Sibilia, 43 Tillary Street, Brooklyn, N. Y.

Elon Chriss Sorensen, seaman, second class. Father, Chriss Sorensen, Mammoth, Utah.

Manard Waldfred Sundquist, seaman, second class; mother, Mrs. Christine Sundquist, 432 North Normandie Avenue, Los Angeles, Cal.

Francis Murry Tiffany, seaman, second class; mother, Mrs. Nellie W. Tiffany, 1046 Mason Street, San Francisco, Cal.

Full Pay and All Service Allowances For U. S. Soldiers Held as Prisoners

Comptroller of the Treasury's Ruling Does Not Include Members of Nurse Corps, Army Field Clerks, and Other Civilian Employees—Full Text of Decision.

The Treasury Department authorizes publication of the following:

WASHINGTON, *July 16, 1918.*

THE HONORABLE THE SECRETARY OF WAR:

SIR: I received your request of July 5, 1918, for a decision of the questions propounded by the Acting Quartermaster General of the Army as follows:

"(1) Are commissioned officers and enlisted men of the Regular Army, National Army, the National Guard, and commissioned officers of the Officers' Reserve Corps, and enlisted men of the Enlisted Reserve Corps, entitled to pay while held as prisoners of war by an enemy nation?

"(2) Are the officers and enlisted men named in question 1 above entitled to pay during the period for which they may be reported as 'missing' in action?

"(3) Are members of the Army Nurse Corps, field clerks, or other civilian employees of the War Department, entitled to pay while held as prisoners of war by an enemy nation, or for the period for which they may be reported as 'missing'?

"(4) Should an enemy nation at war with the United States make payments of a stipulated amount as monthly pay to commissioned officers of the United States held prisoners of war under an agreement to be reached between the United States and such nations, will the amount so paid such officers by enemy nations be deducted from pay due them for the period of their captivity or will such officers be entitled to receive from a disbursing officer of the War Department the full amount of their monthly pay and allowances without regard to the amount they may receive as pay and allowances from an enemy nation while held as prisoners of war?"

Section 14 of the act of March 30, 1814 (3 Stat., 115), provides:

That every noncommissioned officer and private of the Army or officer, noncommissioned officer and private of any militia or volunteer corps in the service of the United States, who has been or who may be captured by the enemy, shall be entitled to receive during his captivity, notwithstanding the expiration of his term of service, the same pay, subsistence, and allowance to which he may be entitled whilst in the active service of the United States.

This provision has been embodied in the Revised Statutes, section 1288, as follows:

Every noncommissioned officer and private of the Regular Army, and every officer, noncommissioned officer and private of any militia or volunteer corps in the service of the United States who is captured by the enemy, shall be entitled to receive during his captivity, notwithstanding the expiration of his term of service, the same pay, subsistence and allowance to which he may be entitled while in the actual service of the United States; but this provision shall not be construed to entitle any prisoner of war of such militia corps to any pay or compensation after the date of his parole, except the traveling expenses allowed by law.

The act of June 3, 1916 (39 Stat., 166), provides:

That the Army of the United States shall consist of the Regular Army, the Volunteer Army, the Officers' Reserve Corps, the Enlisted Reserve Corps, the National Guard while in the service of the United States, and such other land forces as are now or may hereafter be authorized by law.

The language of section 1288 is broad enough to warrant the inclusion of commissioned officers and enlisted men of the Regular Army, National Army, the National Guard and commissioned officers of the Officers' Reserve Corps, and enlisted men of the Enlisted Reserve Corps in the benefit of its provisions, and the first question you submit is answered in the affirmative.

Whether officers and enlisted men named in your first question are entitled to pay during the period for which they may be reported as "missing in action" involves the determination of a question submitted on unknown premises, because so many conditions differing in their legal application may be embraced in the phrase "missing in action." If the officer or private so reported should be a prisoner captured by the enemy, and that fact should be established, then such officer or private would be entitled to pay during such time as they were prisoners. If either an officer or private reported "missing in action" should be killed, or die later from wounds received in battle, his status in the matter of pay or allowance would be determined accordingly. It is possible that a man might desert his organization or die as the result of his own misconduct, or become disabled, not in service or action, and be reported "missing," and in such cases the circumstances of the particular case would govern. An officer or private might be dead and reported as missing in action without the fact of his being dead becoming established.

It is clear, therefore, that no definite general rule that shall cover pay of officers and enlisted men reported missing in action can be formulated. Their pay should be withheld until their status can be definitely ascertained. In case no information establishing their status can be obtained, individual cases must be considered on their merit and determined upon such evidence as may be obtainable.

Your second question is answered accordingly.

The question whether members of the Army Nurse Corps, field clerks, or other civilian employees of the War Department are entitled to pay while held as prisoners of war by an enemy nation, or for the period for which they may be reported as "missing," is answered in the negative because neither of the classes of employees named is included in the statute as being entitled to receive during his captivity the pay, subsistence, and allowance therein provided, and the conditions of "missing" are too numerous and complex to render a decision which could govern as a precedent, unless these conditions are known.

The fourth question submitted involves a decision of matters pertaining to and dependent on an agreement not now in existence, and should be definitely decided only when such a condition arises. An answer if made at this time must be confined to the general statement that it is not the policy or the practice of the Government in matters of pay to render a double or duplicate payment for any service covered in its contract of employment.

Undoubtedly conditions have arisen, and will continue to arise in the present war which are not provided for by statutory enactment, and which urgently call for legislation, but until such is accomplished, the questions submitted and all future questions can only be decided, in so far as decision can be rendered, upon the laws now in force.

Light on some of the questions submitted would be afforded if the terms of the Hague Convention had been ratified and put in operation by Germany and Austria-Hungary, the countries with which the United States are at war, Article XVII of the convention of 1907, declaring that "officers taken prisoners shall receive the same rate of pay as officers of corresponding rank in the country where they are detained, the amount to be ultimately refunded by their own government," but until there shall be such ratification that article can not have application in deciding the questions.

Respectfully,

W. W. WARWICK,
Comptroller.

WAR INDUSTRIES NOW SHORT 25,000 UNSKILLED LABORERS

The Department of Labor authorizes the following:

The present shortage of unskilled labor in war industries and the increasing extent to which unskilled workers will be needed in war production in the next two months is indicated in the returns now being made to the United States Employment Service by concerns engaged on war work.

Reports from 600 Plants.

The first 600 war plants to send their requirements to the Federal Employment Service ask for approximately 25,000 common laborers now and about 40,000 during August and September. The 25,000 men wanted now represent a shortage.

Asked to Telegraph Needs.

Every concern in the country engaged in war work has been instructed to telegraph its immediate needs and those of the next two months to the national office of the Employment Service at Washington. Detailed statements as to these present and future requirements are sent by each plant to the State office of the employment service for the State in which it is located.

FOUR PROMOTED TO CAPTAINS.

Special Orders, No. 163:

192. The appointments of the following-named officers in the Engineers, National Army, with rank from July 9, 1918, are announced:

To be captains.—First Lieuts. Herbert F. Taylor, David S. Ferguson, James A. Cameron, and Edward B. Pollister.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor*.

RATES BY MAIL.

Daily	One year	$5.00
	Six months	3.00
	One year, postage prepaid to foreign countries	8.00
	Six months, postage prepaid to foreign countries	4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

OFFICERS AND DIRECTORS FOR SUGAR EQUALIZATION BOARD

The Food Administration issues the following:

Officers of the Sugar Equalization Board, formed recently by the Food Administration with the approval of the President, were elected to-day (July 19) at the Food Administration, where temporary offices have been established. The following were chosen:

George M. Rolph, president; Theodore F. Whitmarsh, treasurer; Robert A. Taft, secretary; Dana F. Ackerly, general manager; all of the Food Administration.

The directors are: Herbert Hoover, chairman; Prof. F. W. Taussig, of the United States Tariff Commission; Theodore F. Whitmarsh and George Zabriskie, of the Food Administration; Clarence Woolley, of the War Trade Board; William A. Glasgow, jr., chief counsel of the Food Administration.

STOP EATING BROILED TURKEY.

The United States Food Administration issued the following:

The slaughter of broiler turkeys weighing from two to four pounds, which is about 25 per cent of the weight of a mature bird, is obviously wasteful. The Food Administration is now appealing to hotels, clubs, and restaurants, where most of the broilers are consumed, to discontinue serving them.

It is also desired that dealers refrain from purchasing these immature birds, and that they urge farmers to raise their turkeys to maturity, thereby adding to our meat supply.

American Official Communiques on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique, No. 67.

HEADQUARTERS AMERICAN EXPEDITIONARY FORCES,
July 20, 1918.

Section A.—Between the Aisne and the Marne our troops again broke the enemy's resistance and continued their advance, taking many additional prisoners.

Section B.—It was reported at 6.30 o'clock on the evening of July 19: "Aviation reported dense clouds of smoke covering the bridges over the Marne. This may be to hide a withdrawal. Large assembly of troops in the region southeast of Ville en-Tardenois are reported by aviation. This may be for a counter-attack on the center of allied attack of yesterday. German counterattacks were very strong to-day, especially from Aisne to Chaudun, where they seem to have reached the middle of plateau west of Ploisy, and to have taken Chaudun. Further south we progressed to Chouy and Neuilly-St. Front. On the Marne-Rheims front the enemy appears on the defensive, and we advanced slightly in places."

It was reported 11.30 o'clock on the evening of July 19: "Advance continues. Counterattacks thrown back. We have taken Courmelles and are near (west of) Villemontoire, west of (about 500 meters) Plessier Huleu, and have taken Rozet St. Albin and Maubry. In the Rozet St. Albin region the Germans appeared to be fleeing, as few prisoners were made."

It was reported at 1 o'clock on the morning of July 20: "We have taken 17,000 prisoners, actually counted, and 560 guns. At the north, near Soissons, we hold the Montaigne de Paris, then further south we hold Courmelles. Villemontoire is held by the Germans, but we are still advancing. We are just west of Tigny. Rozet St. Albin is ours. Maubry is ours. Above we are west of Plessier Huleu. We are making good progress during the night."

Reported at 10.30 o'clock on the morning of July 20 from French general headquarters: "Germans have retreated across the Marne River. There are no Germans on the south side. French are attacking more or less everywhere. Attacking on the west, but the morning reports have not come in so far.

American Official Communique No. 68.

HEADQUARTERS AMERICAN EXPEDITIONARY FORCES,
July 21, 1918.

Section A.—Between the Aisne and the Marne the day has brought fresh successes to our troops. With undiminished vigor and spirit they have continued to force the enemy to yield bitterly contested positions. In the fighting of the past few days more than 6,000 prisoners, more than 100 cannon, and many trench mortars and machine guns have been taken by our divisions.

Section B.—There is nothing to report in this section.

TREASURY STATEMENT.

Washington, D. C., July 19, 1918.

RECEIPTS.

Customs receipts	$698,854.13
Internal-revenue receipts:	
Income and excess-profits tax	3,420,367.47
Miscellaneous	4,205,463.72
Miscellaneous revenue receipts	232,135.23
Total ordinary receipts	8,556,820.55
Panama Canal receipts	
Public-debt receipts	43,975,956.85
Balance previous day	395,138,180.05
Total	1,447,670,957.45

DISBURSEMENTS.

Ordinary disbursements	$39,134,805.19
Panama Canal disbursements	33,635.74
Purchase of obligations of foreign Governments	52,000,000.00
Purchase of Federal farm loan bonds	505,342.46
Public-debt disbursements	14,805,649.05
Balance in general fund to-day	1,341,191,525.01
Total	1,447,670,957.45

Special Orders, No. 163:

154. Maj. Julius C. Peterson, Coast Artillery Corps, will proceed at once to San Francisco, Cal., and report in person to the commanding general, Western Department, for temporary duty.

ASSISTANT SECRETARY OF NAVY ROOSEVELT ARRIVES OVERSEAS

The Navy Department authorizes the following:

Secretary Daniels stated this morning that news had been received that Assistant Secretary of the Navy Roosevelt had arrived on the other side. He left Washington some days ago and made the trip on a destroyer. The purpose of Mr. Roosevelt's visit is to generally look over the naval administration on the other side, especially questions of contracts, leases of buildings and lands, expenditures, and other matters connected with the business organization of the Navy Department. He will also confer with the representatives of other departments regarding matters which require cooperation and close coordination.

In addition, Mr. Roosevelt will bring back his personal observation of conditions abroad and such information relative to naval activities generally as he can gather.

During his absence the office of Assistant Secretary Roosevelt will be in charge of Mr. McL. Howe, who has been his assistant for over five years.

LATIN-AMERICAN DIPLOMATS TO VISIT SHIPBUILDING YARDS

Invited by Chairman Hurley Through State Department to Inspect Hog Island.

The Shipping Board authorizes the following:

The great interest which Latin America is displaying in the shipbuilding program of this country has induced Chairman Hurley of the Shipping Board to invite the diplomatic heads of all nations lying south of us to an inspection of the great shipyard at Hog Island.

Big Yard Nearly Complete.

This vast yard with its fifty ways is now about 90 per cent complete. The first vessel is to be launched there on August 5 and by the middle of that month there will be a number of hulls gliding down the ways.

It is this gigantic work which will be thrown open for the inspection of the guests from South America, invitations to them from Chairman Hurley having been extended. Arrangements have been made by which the party will leave Washington on an 8 o'clock train on the morning of July 26 and arriving in Philadelphia at 11 a. m., be taken by automobiles to the yard.

List of Those Invited.

Those included in the invitations, extended through the State Department, are:

Ambassador da Gama, of Brazil; Ambassador Naon, of Argentina; Ambassador Bonillas, of Mexico; Senor Varela, charge d'affaires of Chile; Minister Calderon, of Bolivia; Minister Mendez, of Guatemala; Minister Velasquez, of Paraguay; Minister Menos, of Haiti; Minister Cespedes, of Cuba; Minister Dominici, of Venezuela; Minister Zaldivar of Salvador; Minister Quesada, of Costa Rica; Minister Porras, of Panama; Minister Elizalde, of Ecuador; Minister Ureueta, of Colombia; Minister Santander, of Peru; Minister Gutierrez, of Honduras; Minister Galvan, of the Dominican Republic; Senor de Pena, charge d'affaires, of Uruguay, and Senor Ramon Enrique, charge d'affaires, of Nicaragua.

MOTOR-TRUCK PRIORITY.

(Continued from page 1.)

5. The manufacturers and dealers fully realize that steel is to-day the world's most needed metal and that, in view of the urgent war demands of this Nation and the allies, it is well-nigh treasonable to consume a pound of it that can be saved. With this in view, the manufacturers and dealers pledged themselves to reverse their practices of normal times, and, instead of selling through solicitation as many trucks as possible and furnishing new trucks to replace old ones, to use their utmost endeavor to induce owners and operators to repair and use the trucks they have as long as possible, to operate them fully loaded, and, through shifts of drivers and otherwise, to keep them in use during the greatest possible portion of each day, to the end that each unit will perform a maximum of service and thus reduce proportionally the necessity for building new trucks.

EMPLOYERS AND LABOR LEADERS IN CONFERENCE OVER WAR NEEDS

Plans Laid to Cooperate With the Government in Recruiting to Begin on August 1.

The Department of Labor authorizes the following:

Leaders of industrial management and labor in 28 States east of the Mississippi came to Washington Friday, July 19, to learn the details of the Government's central war labor recruiting program and to be charged with the formation, together with the State directors of the United State Employment Service of the Department of Labor, of the State and local boards through which the program will be administered. They were told that the State advisory boards and community labor boards, projected by the Employment Service, must be organized by next Wednesday, in order that all will be in readiness when the Government takes over unskilled labor recruiting on August 1.

Representation Equally Divided.

At the conference was one accredited representative each of the wage earning and the employing interests of each of these States. The employers' representatives had been nominated by the Chamber of Commerce of the United States and other manufacturers' associations and those of labor by the State federations.

The conference represented, according to Nathan A. Smyth, acting assistant director general of the Employment Service and chief of its unskilled-labor section, "the taking of the Nation into partnership with the Employment Service and its task from the word go." The spokesmen for employers and workers pledged the complete cooperation of their organizations. E. D. Howard, of the industrial bureau of the Chamber of Commerce of the United States, said that that body and its constituent organizations would work with the national and field officers of the service, while Charles P. Howard, of Portland, Oreg., made a similar promise as spokesman for the American Federation of Labor.

Present and Future Needs.

"The war industries of the country are at present short of 500,000 unskilled workers and their coming needs will call for between 2,000,000 and 3,000,000 more," Mr. Smyth told the conferees.

"Similarly, the demand for skilled workers for war production exceeds the immediately available supply and before long we will have to take every toolmaker and die sinker in on war work and put him in war industry. Our industrial army's mobilization is a task more difficult than that of the raising of the fighting forces and the community labor boards of the Employment Service, which will have general charge of the recruiting and distribution of labor among local industries, have a task that is of greater magnitude than that of the draft boards.

"If America is to 'carry on in the industrial side of the war,' he continued, "nonwar enterprises must make sacrifices with respect to labor just as they are making them with respect to fuel, steel, and other materials."

SAN DIEGO'S DEAD AND MISSING

(Continued from page 2.)

Ashley C. Venning, seaman; aunt, Josie B. Seignious, 130 Spring Street, Charleston, S. C.

Silas Waters, fireman, third class; mother, Mrs. Florence Waters, Route 6, Gainesville, Ga.

Chance M. Weeks, gunner's mate, second class; brother, R. R. Weeks, Lilbourne, Mo.

Dewey Hestwood Wheeler, seaman, second class; mother, Mrs. Millie Wheeler, Brooklyn, Iowa.

John L. Williams, seaman, second class; brother, B. Williams, Plainview, Ark.

Lysle Linscott Willey, seaman, second class; mother, Mrs. Viona Willey, Island Falls, Me.

Chester John Hamilton, seaman; grandfather, Agnus McT. Hamilton, 632 Iowa Street, Denver, Colo.

Orrin O. Pollock, seaman; father, James R. Pollock, Powerville, Mo.

Unaccounted for (Supposed to Be on Leave).

Charles Leo Backus, ship's cook, third class; brother, Charles Leo Backus, Grunwalk, Iowa.

Kenneth Arthur Barnes, machinist's mate, first class; father, Martin A. Barnes, 3407 West Third Street, Duluth, Minn.

Walter J. Chambers, chief electrician; wife, Mrs. Blanche Marie Chambers, 1288 California Street, San Francisco, Cal.

James Edmund Compton, coxwain; mother, Mrs. Minnie Compton, R. F. D. No. 6, San Jose, Cal.

Henry Coy Constant, boilermaker, second class; father, H. F. Constant, Wills Point, Tex.

M. Joseph L. Corbett, gunner's mate, third class; mother, Mrs. Mary Corbett, La Grande, Oreg.

Edward Francis Doyle, storekeeper, second class; father, James Doyle, Pittsburgh, Pa.

William Henry Gage, chief machinist's mate; mother, Mrs. Gage, 2461 Champa Street, Denver, Colo.

Charles Herbert Garrison, seaman, second class; mother, Mrs. Cora Garrison, 914 Washington Avenue, Jonesboro, Ark.

Elwood Painter Holmes, seaman; mother, Mrs. Martha E. Holmes, 8804 B Street, Oakland, Alameda County, Cal.

Leon E. Dahlstedt, quartermaster, second class; mother, Mrs. Salino Isakson, Marquette, Nebr.

Lawrence Hubert Spaulding, seaman; father, William Spaulding, Bethel Avenue, Sherman Drive, Indianapolis, Ind.

Felix Frankfurter, assistant to the Secretary of Labor and chairman of the War Labor Policies Board, said that with the working out of the selective-service act the administration of the war labor supplying program will stand as the supreme monument of what voluntary cooperation can accomplish in a democracy. "The voluntary cooperation of a free people is the greatest force behind the war labor recruiting program," he said.

Appreciation by the country of the patriotism of its wage earners was urged by Charles P. Howard, speaking for the American Federation of Labor. The local community boards, he said, should do much to improve local conditions of transportation, housing, and other conditions to increase the efficiency of workers.

Dudley Kennedy, employment manager of the American International Corporation, at Hog Island, said that the Employment Service had overcome his original skepticism through its ability to supply his company's 30,000-man plant with labor.

Other speakers were John B. Densmore, director general of the Employment Service, who presided; William E. Hall, national director of the Public Service Reserve, the recruiting arm of the Employment Service; and E. D. Howard, of the Chamber of Commerce of the United States.

Total Army and Marine Corps Casualties.

The following weekly statement is authorized by the War Department:

The total number of casualties of the American Expeditionary Forces to date, including those reported yesterday, is as follows:

Killed in action (including 291 at sea)	1,801
Died of wounds	678
Died of disease	1,399
Died of accident and other causes	543
Wounded in action	5,817
Missing in action (including prisoners)	593
Total to date	10,831

Following is a summary of the Marine Corps casualties to date:

Officers:	
Deaths	25
Wounded	29
Missing	1
Enlisted men:	
Deaths	654
Wounded	1,095
In hands of enemy	4
Missing	77
Total	1,885

LIST OF CASUALTIES AS REPORTED AMONG THE U. S. FORCES OVERSEAS

ARMY

JULY 21, 1918.

Russell J. Wakefield. William Wakefield, father, Northville, Mich.

ARRIVES AS EDUCATIONAL HEAD OF STUDENTS' TRAINING CORPS

The following is authorized by the War Department:

President R. C. Maclaurin, of the Massachusetts Institute of Technology, has just reported in Washington to act as the educational head of a students' army training corps, which will make of every important college in the country a military post for the training of the men for the Army, Navy, and essential industries. A group of representative college presidents, called to Washington by the Emergency Council of Education, has just completed plans for giving this corps publicity throughout the country, and Thursday three large training camps, at Plattsburg, Presidio of San Francisco, and Fort Sheridan, Ill., with an attendance of 7,000, for members of college faculties and selected students began a 60-day course designed to prepare men to assist in the work of military instruction in the colleges this year.

Details Speedily Worked Out.

Notwithstanding the speed with which this plan has been organized, the details have been carefully worked out. Detachments of the Students' Army Training Corps will be established in every college which has 100 or more able-bodied volunteers for the work. Students will be allowed to volunteer at the age of 18. They will become members of the Army (though individuals may be eventually transferred to the Navy or to one of the essential industries), subject to the call of the President at any time, wearing the uniform, and receiving daily military instruction. While the men may be called whenever military necessity demands, the policy of the Government will be to keep them in college at least until their draft age is reached.

By the time they reach this age they will be ready to enter the Army, the Navy, or the essential industries, not as raw recruits, but with enough military and professional training to make them useful as officers, engineers, doctors, chemists, or as experts in the many other lines, military or civil, essential in modern warfare.

Died of Wounds.

Sergt. Charles Hollingshead. Annie Hollingshead, mother, 3 Mount Pleasant Street, Derry, N. H.

Sergt. Frank J. Fagan, Mary A. Fagan, mother, 48 Dorchester Street, Worcester, Mass.

Alexander Short, jr. Walker S. Short, father, Catlettsburg, Ky.

William S. Stott. William A. Stott father, Petersburg, Ill.

Emmette Trousdale. Lee Trousdale, father, Route No. 1, Sheffield, Ala.

John W. Winston. Ada E. Winston, mother, Hollyford Road, Memphis, Tenn.

SUPPLEMENT TO REVISED ENEMY TRADING LIST WITH ADDITIONS, REMOVALS, AND CORRECTIONS

The War Trade Board has issued the following cumulative supplement to the enemy-trading list (revised) containing additions, removals, and corrections from March 15, 1918, to June 28, 1918:

Notes on the Enemy Trading List.

1. By section 3 (a) of the trading with the enemy act persons in the United States are prohibited under penalties from trading or attempting to trade "either directly or indirectly with, to, or from, or for, or on account of, or on behalf of, or for the benefit of, any other person, with knowledge or reasonable cause to believe that such other person is an enemy or ally of enemy, or is conducting or taking part in such trade, directly or indirectly, for, or on account of, or on behalf of, or for the benefit of, an enemy or ally of enemy," except under license from the President. By section 2 of the act "enemy," "ally of enemy," "trade," and "person" are given specific definitions which are not coextensive with their ordinary popular use.

2. The War Trade Board, to which the President has delegated the administration of the act, publishes this list to give American merchants, bankers, shippers, and others notice that "trade" with the persons and associations whose names appear on it may involve a violation of the act unless a license therefor has been granted by the board in accordance with section 3 (a) of the act. For the technical definition of "trade," reference is made to section 2 of the act.

3. This is not a complete list of persons and associations with whom it is illegal to trade under the terms of the act. Obviously it can include only those names concerning which the War Trade Board has sufficient information to justify listing. Therefore trade with a person or association known or suspected to fall within the prohibitions of the act is not justified by the fact that his or its name does not appear on the list.

4. The revised edition of the enemy trading list, of which this is a supplement, entirely supersedes all lists, supplements, and announcements of changes published by the War Trade Board previous to March 15, 1918. This supplement is cumulative, and therefore supersedes all previous supplements to the revised list.

5. The listing of an "enemy" or "ally of enemy" partnership is equivalent to listing all the partners individually, as well as the association.

6. The listing of a member of a partnership as an "enemy" or "ally of enemy" applies against trade with the partnership as well as trade with the listed person.

7. The indication of an address for a name on the list, or in supplements to it, is not intended to exclude other addresses of the same person or association. Unless otherwise specified, a listed name refers to all branches of the business in the country.

8. In order to minimize as far as possible the inconveniences caused to American merchants by the dislocation of foreign trade through the operation of the trading-with-the-enemy act, the War Trade Board is collecting and classifying the names of nonenemy firms who might be substituted for those within the prohibitions of the act. A considerable amount of information already is available. In cases where the board is not prepared to suggest a substitute firm, on request it will inquire of United States consuls abroad. If the applicant wishes this done by telegraph it will be necessary that he undertake to pay the cost of telegraphic correspondence.

The board assumes no responsibility whatever for the credit or commercial or financial reliability of substitute firms. Its recommendations are confined to the character of the firms under the provisions of the trading-with-the-enemy act.

It will facilitate the work of the War Trade Board if applicants in making inquiries will specify the particular trades in which substitutes are required.

9. Supplements to the list, containing additions, removals, and variations, will be published approximately on alternate Fridays.

10. The Enemy Trading List and all supplements thereto are telegraphed immediately to the representative of the United States of America in each country abroad, who is instructed to notify all American consuls. Therefore, persons abroad who wish to know whether or not a name is on the list should apply for information to an American consul. Firms in the United States of America which have agencies or branches abroad should furnish them with copies of the list and supplements as they are published.

11. The list and all supplements and revisions will be mailed as issued to persons whose names appear on the mailing list of the War Trade Board, Washington, D. C. Names and addresses will be added to this mailing list upon application.

12. The list and all supplements and revisions are published in pamphlet form and also in THE OFFICIAL BULLETIN (issued daily by the Committee on Public Information, 10 Jackson Place, Washington, D. C.), which is for sale at $5 per year, and in Commerce Reports (issued daily by the Bureau of Foreign and Domestic Commerce, Department of Commerce, Washington, D. C.), which is for sale by the Superintendent of Documents, Washington, D. C., or may be obtained at the district offices of the Bureau of Foreign and Domestic Commerce as listed below, at $2.50 per year.

13. Copies of the list and supplements in pamphlet form may be obtained from the branch offices of the War Trade Board and the district and cooperative offices of the Bureau of Foreign and Domestic Commerce.

MISLEADING REPORTS ON WAGE SCALES SET AT REST BY THE WAR LABOR BOARD

Statement Correcting Impression That No Changes Could Be Made Pending Standardization of Pay and Conditions.

The National War Labor Board authorizes the following:

Disquieting reports circulated among workers in war industries in several sections of the country, particularly the great industrial centers of the East, that the War Labor Policies Board had taken action making impossible the changing of rates of wages or of working conditions in industry pending definite standardization of pay and conditions by that body has been set at rest at Bridgeport, Conn., by representatives of the National War Labor Board, of which former President William H. Taft and Frank P. Walsh are the joint chairmen.

The reports have had a notably unfortunate effect in Bridgeport, where the War Labor Board is now conducting investigations preliminary to a readjustment of the wage scale and working conditions throughout the entire industrial community, embracing 57 essential war plants employing more than 50,000 workers.

Approved by Policies Board.

Assurances by the National War Labor Board representatives that the fears of the workers were entirely unfounded were made with the complete sanction and approval of Felix Frankfurter, chairman, and his fellow members of the War Labor Policies Board. Such was the importance attached by groups of workers to the reports that the National War Labor Board's decision, were it to involve a general wage increase within their jurisdiction, would be nullified by the Policies Board that Fred Hewitt, editor of the Machinists' Journal and representative of the International Association of Machinists, felt compelled to interrupt the hearing at Bridgeport to ask for specific information so that the workers would know exactly the extent to which the success of their demands would be affected by the reported action of the Policies Board and so that the prevailing unrest on that account might be allayed.

W. Jett Lauck, secretary of the National War Labor Board, had been made aware of the situation which had arisen in Bridgeport and other localities by reason of the reports and, after ascertainment of all the facts from the Policies Board, transmitted that to the examiners at Bridgeport. Thus the entire situation was made clear to Mr. Hewitt and other representatives of the workers.

It was explained by W. L. Stoddard, examiner for the War Labor Board, that inquiry from Mr. Frankfurter had revealed the facts to be as follows:

1. That the resolution of the Policies Board of June 14, concerning which the reports were circulated, did not recommend, as reported, that changes in wage scales should not be made, but did urge upon the various Government departments and boards to "refrain from making changes in present standards pending the standardization now under consideration." This does not invite in any way a request that wages which are now below the highest standards set by any of the various wage adjustment boards should not be increased to the level of such standards. Rather, it was explained, it is the expressed desire of the Policies Board that wages which are between standards should be brought up to that point. Concisely, the Policies Board intended to convey the thought that the standards themselves should not be disturbed where they are in force and that they should be applied where they are not in force.

Principles Agreed Upon.

2. Of greater importance to the groups of workers now involved in controversies before the National War Labor Board and especially to those at Bridgeport, it was made known that the Policies Board has definitely adopted the principles and policies of the National War Labor Board as its own guiding principles and policies. This was done by resolution adopted July 12. This resolution, read to the workers' representatives at Bridgeport, is as follows:

"*Be it resolved*, That it is the understanding of the War Labor Policies Board that the general principles and policies governing the relations of employers and labor adopted by the War Labor Board and approved and pronounced by President Wilson are incorporated and embodied as part of the general guiding principles and policies of the War Labor Policies Board, and that the executive secretary of the board be instructed to so notify the War Labor Board."

Meaning of the Resolution.

This resoluiton commits the Policies Board to the following principles now so well understood throughout industry:

1. The right of the workers to organize into trade unions and to bargain collectively with their employers.

2. The continuance of existing union standards where they have heretofore applied, plus the right of the workers to obtain improved conditions, wages, or hours or work through decisions of the National War Labor Board or any umpire it may select in specific cases.

3. Equal pay for equal work, whether performed by men or by women.

4. Recognition of the basic eight-hour day where a law requires it and settlement of the question of hours in other cases with due regard to governmental necessities and the welfare, health, and proper comfort of the workers.

5. Maintenance of the maximum of production.

6. Due regard for the labor standards, wage scales, and other conditions in particular localities in fixing wages, hours, and conditions of labor.

7. Declaration of the right of all workers to a living wage, insuring the subsistence of each worker and his family in health and reasonable comfort.

In addition to the above assurances, a message from Mr. Frankfurter to Mr. Lauck, secretary of the National War Labor Board, explaining the purpose of the original resolution was made public at Bridgeport. It says: "Inasmuch as wage stability was recognized as the essential need by labor and by the Government, the purpose of the resolution was to prevent changes in the standards which had been created either through an adjustment board such as the Labor Wage Adjustment Board of the Emergency Fleet Corporation, or the arsenal and navy yard standards or the standards which govern the Cantonment Adjustment Board, but under no circumstances was it intended to prevent the lifting of wage scales in specific instances up to the standards."

Representatives of the workers at Bridgeport expressed themselves as thoroughly in accord with the facts as explained, and assured the War Labor Board representatives that the cooperative statement would undoubtedly have the effect of dispelling the diquietude which the original reports created.

EIGHT-HOUR LAW SUSPENDED ON ALL WAR-HOUSING WORK

Executive Order.

In order to secure the more expeditious construction, etc., of the projects contemplated by the act of Congress entitled "An act to authorize the President to provide housing for war needs," approved May 16, 1918, and by the act of Congress entitled "An act making appropriations to supply additional urgent deficiencies in appropriations for the fiscal year ending June 30, 1918, on account of war expenses and for other purposes," approved June 4, 1918, in so far as the same relates to "Housing for war needs," by virtue of the authority vested in me by the provisions of the act of Congress approved March 4, 1917 (39 Stat., 1192), entitled "An act making provisions for the naval service for the fiscal year ending June 30, 1918, and for other purposes," whereby it is provided

That in case of national emergency the President is authorized to suspend provisions of law prohibiting more than eight hours labor in any one day of persons engaged upon work covered by contracts with the United States: *Provided further*, That the wages of persons employed upon such contracts shall be computed on a basic rate of eight hours work, with overtime rates to be paid for at not less than time and one-half for all hours worked in excess of eight hours.

I do hereby suspend during the present national emergency the provisions of law prohibiting more than eight hours of labor in any one day by persons engaged in or on any and all work to be done in connection with or under contracts for the construction, equipment, management, maintenance, alteration, repair, improvement, or suitable arrangement for living purposes of houses, buildings, improvements, or any parts thereof, in providing housing and facilities related thereto for industrial and other war needs. This order will take effect from and after this date.

Woodrow Wilson.

The White House,
July 18, 1918.

THIRD BIWEEKLY OFFERING OF U. S. TREASURY CERTIFICATES IS REDUCED TO $500,000,000

DUE TO OVERSUBSCRIBED LOANS

Increased Returns From War-Savings Stamps and Income Taxes Also Help to Make Possible the Low Minimum Set by Secretary.

The Treasury Department authorizes the following:

In consequence of the oversubscription of the first two issues of Treasury certificates in anticipation of the fourth Liberty loan and the increased returns from war-savings certificates and from income and excess-profits taxes the Secretary of the Treasury finds it possible to reduce the minimum amount of the third biweekly offering of Treasury certificates to five hundred million dollars. This, however, is only a minimum amount and those institutions which have made arrangements to subscribe their share on the basis of an offering of seven hundred and fifty million dollars will be free to do so.

Bear Interest From July 28.

The Secretary of the Treasury, under the authority of the act approved September 24, 1917, as amended by the act approved April 4, 1918, offers for subscription, at par and accrued interest, through the Federal Reserve Banks, $500,000,000 or more Treasury certificates of indebtedness, Series IVC, dated and bearing interest from July 23, 1918, payable November 21, 1918, with interest at the rate of 4½ per cent per annum. Applications will be received at the Federal Reserve Banks. Subscription books will close at the close of business July 30, 1918. Certificates will be issued in denominations of $500, $1,000, $5,000, $10,000, and $100,000. Said certificates shall be exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) graduated additional income taxes, commonly known as surtaxes, and excess-profits and war-profits taxes, now or hereafter imposed by the United States, upon the income or profits of individuals, partnerships, associations, or corporations.

Interest Exempt From Taxes.

The interest on an amount of bonds and certificates authorized by said act approved September 24, or by said act as amended by said act approved April 4, 1918, the principal of which does not exceed in the aggregate $5,000, owned by any individual, partnership, association, or corporation, shall be exempt from the taxes provided for in clause (b) above. Upon 10 days' public notice, given in such manner as may be determined by the Secretary of the Treasury, the certificates of this series may be redeemed as a whole at par and accrued interest on or after any date, occuring before the maturity of such certificates, set for the payment of the first installment of the subscription price of any bonds offered for subscription by the United States after the offering and before the maturity of such certificates. The certificates of this series, whether or not called for redemption, will be accepted at par, with adjustment of accrued interest, if tendered on such installment date in payment on the subscription price then payable of any such bonds subscribed for by and allotted to holders of such certificates.

Do Not Bear Circulation Privilege.

The certificates of this series do not bear the circulation privilege and will not be accepted in payment of taxes. The right is reserved to reject any subscription and to allot less than the amount of certificates applied for and to close the subscriptions at any time without notice. Payment at par and accrued interest for certificates allotted must be made on and after July 23, 1918, and on or before July 30, 1918. After allotment and upon payment Federal Reserve Banks will issue interim receipts pending delivery of the definitive certificates. Qualified depositaries will be permitted to make payment by credit for certificates alloted to them for themselves and their customers up to an amount for which each shall have qualified in excess of existing deposits when so notified by Federal Reserve Banks. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions and to make allotment in full, in the order of the receipt of applications up to amounts specified in their respective districts.

NEGLECTFUL NEW ENGLAND COAL DEALERS HAVE SUPPLY CUT OFF

Failed to Heed Warning to File Weekly Reports Required of Them by Officials.

The United States Fuel Administration authorizes the following:

Carrying out the warning, conveyed by telegrams to 750 coal dealers in New England, that if they did not file the weekly reports required of them by July 10 their supply of coal would be cut off, letters were forwarded by Fuel Administrator Garfield, July 18, to State fuel administrators instructing them to request railroad agents in each town in their respective States to divert coal moving to dealers who have failed to report reconsigning all coal to dealers in the same town who have reported.

State Administrators Sent Lists.

A list of dealers who have failed to comply with the instructions of the United States Fuel Administration has been sent to the State fuel administrators. The list included 3 dealers in Connecticut, 3 in New Hampshire, 2 in Vermont, 5 in Rhode Island, 20 in Massachusetts, and 37 in Maine.

In his letter Mr. Garfield says: "It is extremely important that we impress all these dealers with the importance of mailing report cards promptly each week, and there is no more forcible way of bringing this home to them than by stopping their shipments when they fail to do their part."

A country worth fighting for is a country worth saving for. Buy THRIFT STAMPS.

CARNIVAL CANCELED SO AS NOT TO RETARD COAL PRODUCTION

The United States Fuel Administration authorizes the following:

Unnecessary attractions in the coal-mining fields that might be expected to distract the mine workers from their duty are being eliminated through the efforts of the United States Fuel Administration with the patriotic cooperation of citizens and mine workers.

At Spangler, Pa., there was a firemen's convention scheduled for Cambria County the week beginning August 11. There was to be a carnival show and other gayety throughout the week. James B. Neale, director of production for the United States Fuel Administration, urged the abandonment of the plans, fearing that such a carnival would retard coal production to a great extent. He wrote:

"In view of the exceedingly serious coal shortage which, above all things, threatens the carrying out of our war program, I feel that a firemen's convention should not be held in any point in the coal fields during this summer and fall. We can not afford to lose one ton of coal which can possibly be mined."

Convention Is Canceled.

In reply to Mr. Neale's letter came a telegram stating that in order to meet the wishes of the United States Fuel Administration the proposed convention had been canceled.

Appreciation of this patriotic action was expressed by the director of production, who wrote:

"I very much appreciate the courtesy of the Citizens' Fire Co. of Spangler in canceling the convention which was to have been held in August. I shall be glad if you will express to the members of the fire company my appreciation. With the hearty cooperation being given by the patriotic citizens throughout the coal fields there can be no doubt but that the tonnage will be materially increased. The situation created by the coal shortage is grave indeed, and it will retard our war program unless taken in hand promptly and vigorously by both the operators and the mine workers. Before them lies a great opportunity for patriotic service, and I am sure they will make the best of it and show to the world by a marked increase in tonnage that they are doing their full duty toward winning the war."

Thanked By Mr. Garfield.

United States Fuel Administrator H. A. Garfield also wrote to J. G. Nicholson, Barnesboro, Pa.:

"I desire to express my appreciation of the patriotism displayed by the Spangler Fire Co. in canceling firemen's convention and carnival this year. Fuel and then more fuel is necessary to win the war and your action in foregoing your carnival adds to the fuel supply by keeping the mines at work."

CROSSING OF THE MARNE BY ALLIED TROOPS AND CUTTING OF A RAILROAD CONFIRMED BY MR. BAKER

GIVES OFFICIAL REPORT

Large Quantities of War Material Captured — Operations Still Very Active — Thinks Inference That 17,000 Prisoners Had Been Taken by Americans, Drawn From Pershing's Dispatch, Was Erroneous.

Daily press interview (July 22) by Secretary Baker:

"Our official reports do confirm the crossing of the Marne by allied troops. They do not specify Americans, though. They confirm minor crossings by allied troops.

"The general effect of the news of last night and this morning is to show very substantial gains of territory both in the Chateau Thierry salient and farther east. The exact location of the line changes from time to time, but for two days has changed favorably with every change.

"There has been no recent substantial addition to the number of prisoners and no exact estimate of war material captured, but it seems quite clear that large quantities of war material have been taken. As operations are still very active, we can not look for definite details."

The Number of Prisoners.

Asked regarding number of prisoners, he said:

"I have had estimates, of course. They are mere estimates. I have had official estimates of 20,000 prisoners. The inference drawn this morning of 17,000 prisoners and 560 guns as captured by the Americans was an erroneous inference from the American dispatch. I think Gen. Pershing meant that the allies, rather than the American forces, had captured that number of prisoners.

"We have nothing official on our losses of any kind.

Railroad Line Broken.

"The railroad line is certainly broken from Soissons to Chateau Thierry. Whether broken by actual occupation or insufferable proximity to artillery I do not know. The line is certainly unavailable for use. This deprives the Germans of their main reliance in the matter of supplies."

Two Identification Tags Worn by Each Member of Expeditionary Forces

The War Department authorizes publication of the following order from General Headquarters, American Expeditionary Forces, published in France on June 10, 1918:

Two aluminum identification tags, each the size of a silver half-dollar and of suitable thickness, will be worn by each officer and soldier of the American Expeditionary Forces and by all civilians attached thereto. These tags will be worn suspended from the neck, underneath the clothing, by a cord or thong passed through a small hole in the tag, the second tag to be suspended from the first one by a short piece of string or tape.

In the case of officers the tags will be stamped with the name, rank, regiment, corps, or department of the wearer and the letters "U. S." either in such form as "U. S. Infantry," "U. S. Air Service," "U. S. Tank Corps," or simply the letters "U. S. A." when an officer is not a member of an organization, corps, or department.

In the case of soldiers, the tags will be stamped with the soldier's name and the letters "U. S. A." on one side and his Army serial number on the other side. The stamping on tags previously issued will be altered as practicable to conform with this order.

This is an added means of identification.

ORDERS TO POSTMASTERS ON SHIP ADVERTISEMENTS

The Post Office Department authorizes the following:

OFFICE OF THE
POSTMASTER GENERAL,
Washington, July 20, 1918.

Instructions to Postmasters:

Your attention is called to the following statement of the Secretary of the Navy, published in THE OFFICIAL BULLETIN of the Committee on Public Information on July 6, 1918:

To the Press in America:

The appearance of submarines on the Atlantic Coast makes it imperative that no mention should be made in any newspapers either in the advertising or news columns, of the sailing or departure, or location, or supposed location of any ship in American waters.

This information conveyed by advertising is as dangerous as in the news columns, and I am making this request to all the newspapers in the country in the assurance that they will

(Continued on page 5.)

CHANGES IN PRICE OF HIDES AGREED UPON AT CONFERENCE

New Schedule the Basis for All Other Differentials Soon to be Announced.

The War Industries Board authorizes the following:

The following price changes were agreed upon at a meeting of the hide interests in the United States with the price-fixing committee of the War Industries Board on July 19, 1918:

Packer hides.—Heavy native steers, No. 1, 30 cents; heavy butt branded steers, No. 1, 28 cents; heavy Texas steers, No. 1, 28 cents; heavy Colorado steers, 27 cents; light native cows, No. 1, 24 cents.

Prices of Country Hides.

Country hides (for best sections).—Extremes, 25 to 45 pounds, 22 cents; buffs, 45 to 60 pounds, 21 cents.

All country hides are to be bought and sold on a selected basis.

River Platte Frigorifico hides.—Maximum price on steers, $53 Argentina gold; maximum price on cows, $40 Argentina gold. (F. o. b. shipped, including export duty and lighterage, but not including salting charges.)

The new schedule applies to August, September, and October take-off on all domestic hides and skins, and August, September, and October shipment from origin of all foreign hides and skins.

Basis for Differentials.

These prices are the basis for all other differentials, which will be published in due course. These readjustments of maximum fixed prices will more nearly equalize the actual market conditions as reflected in prices of country hides and need not affect the prices of cattle. There have been widespread complaints that the small hide producer has been unable, owing to marketing conditions, to secure a fair price for his hides. The War Industries Board has, therefore, under consideration the appointment by permit of hide dealers, similar to the system adopted in wool.

3 American Prisoners At Unknown Enemy Camp

The War Department is in receipt of information that the following three men are prisoners of war in Germany, camp unknown:

Albert Brook, private, first class. John Brook, sr., father, 22 Spruce Street, Princeton, N. J.

Harry K. James, private, first class. Mrs. S. C. Dimond, mother, 123 High Street, Bristol, R. I.

Henry Joseph Leavitt, lieutenant aviator, Royal Flying Corps. Emergency address unknown.

OVER HALF A MILLION MEN NOW IN THE AMERICAN NAVY

About 594,000 Persons in All, Including Civil Employees, Secy. Daniels Announces.

The Committee on Public Information issues the following:

Secretary Daniels announced this morning (July 23) that the Navy has passed the half-million mark in personnel. Following is the strength of the various branches of the naval service:

	Enlisted men.	Officers.	Total.
Regular Navy	209,831	9,327	219,158
Naval Reserve Force	203,720	15,846	219,566
Marine Corps	56,545	1,918	58,463
Coast Guard	6,377	228	6,605
	476,473	27,319	503,792

In accordance with the provisions of the naval appropriation act recently passed by Congress, the National Naval Volunteers, comprising 785 officers and 14,028 men, are now combined with the Naval Reserve Force.

In addition to the military branches of the service, more than 80,000 mechanics and laborers are employed at navy yards and stations, and there are in addition about 10,000 employees of the Navy Department and its various bureaus and stations. This makes a total of about 594,000 persons in the Naval Establishment.

PLEA FOR CHANGE IN LUMBER PRICE RULING IS REFUSED

The War Industries Board authorizes the following:

The Price Fixing Committee of the War Industries Board, after careful consideration of arguments submitted by representatives of wholesale lumber dealers, has determined not to modify its ruling of July 2, by which it was provided that no manufacturer, dealer, or other person should accept orders for mill shipment at a greater price per item than established in the schedule of maximum prices fixed by agreement on June 14. The wholesale dealers submitted arguments for a change in this ruling and also a supplementary memorandum on the same subject.

In reaching this conclusion the committee states that it wishes it clearly understood that the wholesalers are recognized to render a service. The committee believes that under the ruling of July 2 they will be able to continue rendering service to the community.

FIELD ARTILLERY CAPTAINS.

Special Orders, No. 163:

195. The appointments of the following-named officers in the Field Artillery, National Army, with rank from July 12, 1918, are announced:

To be captains.—First Lieut. Frederick E. Tibbets, jr., Field Artillery, United States Army; First Lieut. Rudolph Stanley-Brown, Field Artillery Reserve Corps.

Honduras Declares War on Germany; Decree is Communicated to U. S.

The Minister of Foreign Affairs of Honduras has formally transmitted to the American Minister at Tegucigalpa the text of a decree pronouncing a declaration of war against Germany. At the same time the Minister of Foreign Affairs expressed lively sentiments of cordiality on the part of the Government of Honduras and the desires which animate it in favor of the cause which the United States defends for the liberty of peoples.

Following is the text of the decree:

"Francisco Bertrand, drafting constitutional president of the Republic of Honduras,

"Considering that the motives which originated the severing of the diplomatic relations of this Republic with the German Empire have become accentuated, being characterized every day by greater gravity for the international life of all the peoples.

"Considering that continental solidarity imposes upon the States of America the duty to contribute according to the measure of its abilities toward the triumph of the cause of civilization and of right which, with the allied nations, the United States of America defends, and consequently demands a definite attitude in the present conflict of the world,

"Therefore, in council of ministers, decrees:

"Article 1: It is declared that there exists a state of war between the Republic of Honduras and the Government of the German Empire.

"Article 2: Account shall be rendered to the National Congress at its next sessions.

"Given in Tegucigalpa the 19th day of July, 1918."

(Signatures of the President and of all the members of the cabinet follow.)

SHIPPING BOARD WILL CHARTER TRAINING SHIP AT NEW ORLEANS

The Shipping Board authorizes the following:

The Shipping Board has authorized Capt. Henry Howard, director of recruiting service under the Shipping Board, to charter a Mississippi River steamboat and utilize the vessel for the training of men for that great new merchant marine which the Shipping Board is so rapidly upbuilding.

Capt. Howard, who had been investigating the situation in New Orleans, had reported to the Shipping Board that if a training ship was stationed at New Orleans it would be easily possible to make use of the large number of negroes who are anxious to serve the Nation, and who could be enrolled on such vessel and trained for duty in the fireroom. As the new merchant fleets are going to require an immense number of these and as the supply has been none too numerous, the Shipping Board gave orders that a suitable vessel be immediately secured and put in commission for this service.

PLEDGE BY 1,200 THRASHERMEN.

A conference of over 1,200 thrashermen of South Dakota was held at Aberdeen, S. Dak., last Friday, under the chairmanship of Gov. Herreid, and pledged its cooperation to the Food Administration in the following telegram: "We pledge our loyal, devoted effort toward feeding the hungry world and in carrying the cause of human liberty toward a glorious victory."

WILL INVESTIGATE HAZARDS TO WOMEN IN WAR INDUSTRY

The Department of Labor authorizes the following:

The creation of a committee of experts to investigate the special hazards which war industry offers women is announced by Miss Mary Van Kleeck, director of the Women in Industry Service of the Department of Labor.

The committee will visit various centers where women have been drawn into industries at work on war contracts. Hazards such as the use of industrial poisons will be inquired into with reference to their effects upon the health of the women employed.

Will Visit Niagara Falls.

The committee will first visit Niagara Falls, N. Y., with a view to learning whether the chemical industries there offer such dangers to the health of women that their employment should be prohibited. Those invited to serve on the committee consist of the following:

Lieut. Col. Harry E. Mock, Surgeon General's Office, chairman; Capt. Austin D. Reiley, Ordnance Department, secretary; Dr. Alice Hamilton, Bureau of Labor Statistics; Miss Mary Anderson, Women in Industry Service; Commander Donald Riley, Navy Department; John Vogt, New York State Department of Labor; Dr. Richard M. Pearse, National Research Council; Capt. Bradley, Gas Defense Service; Miss Nellie Swartz, New York State Department of Labor; Dr. J. W. Schereschewesky, United States Public Health Service.

CERTAIN LANDS IN THIS CITY SET ASIDE FOR HOUSING PURPOSES

Executive orders setting aside lands in the District of Columbia for providing housing for employees of the United States Government follow:

EXECUTIVE ORDER.

In pursuance of the power and authority vested in me under the act of Congress entitled "An act to authorize the President to provide housing for war needs," approved May 16, 1918, I hereby authorize the Secretary of Labor, in the construction of buildings in the District of Columbia, to make use of the following-described premises:

Squares 229 and 230 of the District of Columbia, such premises being owned by the United States, and having not heretofore been dedicated by act of Congress for specific buildings, and being deemed by me suitable for the purpose of providing housing for employees of the United States whose duties require them to reside in the District of Columbia.

WOODROW WILSON.

THE WHITE HOUSE,
July 15, 1918.

EXECUTIVE ORDER.

In pursuance of the power and authority vested in me under the act of Congress entitled "An act to authorize the President to provide housing for war needs," approved May 16, 1918, I hereby authorize the Secretary of Labor, in the construction of buildings in the District of Columbia, to make use of the following-described premises:

Squares 685 and 634 of the District of Columbia, such premises being owned by the United States and having not heretofore been dedicated by act of Congress for specific buildings, and being deemed by me suitable for the purpose of providing housing for employees of the United States whose duties require them to reside in the District of Columbia.

WOODROW WILSON.

THE WHITE HOUSE,
July 15, 1918.

Squares 229 and 230 consist of the land between Fourteenth and Fifteenth Streets NW., extending from B Street to Ohio Avenue. Squares 685 and 634 consist of that portion of the Union Station Plaza not included in the Baltimore & Ohio Railroad agreement with the United States Housing Corporation of the Department of Labor.

Three Naval Airmen Are Picked up at Sea

The Navy Department has received a dispatch stating that Ensign Briscoe, Ensign Griffin, and Chief Machinist's Mate Upton, of the Naval Flying Corps, and the airship on which they were operating reached port yesterday on a Swedish vessel, which picked them up at sea last Sunday after the airship had become disabled.

Special Orders, No. 163:

211. Lieut. Col. Sam F. Bottoms, Coast Artillery Corps, will proceed to Fort Monroe, Va., and report to the commanding officer, Coast Defenses of Chesapeake Bay, for assignment to duty.

Additional Draft Calls for 13,402 Men Issued

The Provost Marshall General has issued draft calls as follows: Ten thousand white men for limited service, to report at Syracuse Recruiting Camp, Syracuse, N. Y.; date of entrainment July 29–August 2.

BRITISH AVIATORS TO MAKE AIR TOUR OF MIDDLE WEST

Brig. Gen. Charles F. Lee, commanding the British Aviation Mission to this country, assisted by Capts. J. J. Hammond, James Fitz Morris, W. A. Hannay, and G. D. Hunter, will make an airplane tour of the middle western States. They expect to start from Indianapolis on or about August 14, and stop at 16 of the principal mid-western cities to give exhibitions and lectures. The total air distance to be flown cross-country is approximately 2,500 miles.

The purpose of the tour is to demonstrate, in a practical manner, what fighting in the air is. These distinguished officers of the Royal Air Force, all of whom have seen active service in the present war, will show that "stunting" in the air can be accomplished with ease and safety, and will point out in their public talks the necessity for teaching advanced flying to our young aviators who are now preparing for the front.

The itinerary probably will include air flights by at least three machines between Indianapolis, Cincinnati, Dayton, Columbus, Cleveland, Buffalo, Detroit, Toledo, Chicago, Milwaukee, Minneapolis, St. Paul, Des Moines, Omaha, Kansas City, and St. Louis, probably in the order mentioned. Flights over these cities will also be made, the fliers going through aerial battle tactics and all the air antics known to-day. The entire tour will extend through August, ending early in September.

The airplanes used will be a Bristol fighter and a De Haviland fighting machine, both two-seated planes, and two British Avro two-seated training planes. It is hoped that some of the single-seated Sopwith Camels and S. E. 5's will be available, but it is possible that they may not arrive in time.

The Committee on Public Information has arranged for these talks and flights and secured the cooperation of the civil authorities. Capt. G. D. Hunter, R. A. F., left Washington recently for Indianapolis, where he will start on a trip around the proposed circuit, making arrangements and selecting landing sites. As soon as definite arrangements have been made a detailed schedule will be announced.

ATLANTA CAR STRIKE ENDED.

Army Ordnance Department Announces Settlement.

The Army Ordnance Department announces the settlement of the street-railroad strike which had been in progress in Atlanta, Ga., for four days, seriously hampering munitions production. Maj. Albert E. Peck acted as mediator for the Industrial Service Section of the Ordnance Department.

Under the terms of the settlement the Georgia Railway & Power Co. recognizes that there is a union and concedes the right of its employees to join this union. The employees recognize the company's rights to retain nonunion employees and in the future to employ nonunion workers without discrimination. Future disputes are to be settled by the National War Labor Board, whose findings are to be final and binding for the duration of the war.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor*.

RATES BY MAIL.

Daily—
- One year $5.00
- Six months 3.00
- One year, postage prepaid to foreign countries 8.00
- Six months, postage prepaid to foreign countries 4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

American Communique

The following is authorized by the Secretary of War:

American Official Communique No. 69.

HEADQUARTERS AMERICAN EXPEDITIONARY FORCES,
July 22, 1918.

Section A.—Yesterday evening our troops continuing their advance in cooperation with the French, south of the Ourcq, crossed the Soissons-Chateau Thierry Road between the Ourcq and the Clignon and passed through the towns of Bezu, Epieds, and Charteves. Other American units have crossed the Marne from positions south of the river and have occupied towns, the condition of which shows that the army abandoned them in great haste.

Premiums on Fidelity Bonds of R. R. Employees

U. S. RAILROAD ADMINISTRATION,
Washington, July 18, 1918.

GENERAL ORDER No. 36.

Premiums on fidelity bonds, which have heretofore been paid by or charged to officers, agents, and employees on transportation lines now, or which may hereafter be placed, under Federal control, shall no longer be so handled, but shall be charged to operating expenses.

W. G. MCADOO,
Director General of Railroads.

Flying Field Fatalities in Week Ending July 13

The War Department authorizes the following:

Herewith is a summary of deaths in aviation accidents at flying fields in this country for the week ending July 13, 1918:

Place at which fatality occurred.	Number of fatalities.
Barron Field, Everman, Tex	2
Call Field, Wichita Falls, Tex	1
Gerstner Field, Lake Charles, La	1
Hazelhurst Field, Mineola, L. I., N. Y.	1
Scott Field, Belleville, Ill	2
Total	7

The seven deaths during the week ending July 13 represent one fatality for every 3,237 hours flown, or 260,000 miles air travel.

Correction.—The two fatalities reported on May 15, 1918, as having occurred at McCook Field on May 2, 1918, should have been reported as having occurred at Moraine City, Ohio.

Save for the country's sake.

Crew of Oosterdijk, Sunk in Collision, Lands

The Navy Department is informed that the steamship *San Jacinto*, escorted by a naval vessel, has arrived at an Atlantic port, bringing in the crew of the U. S. S. *Oosterdijk*, which was sunk in collision with the *San Jacinto* on July 10, about 800 miles from the American coast.

All the personnel of the *Oosterdijk* are reported saved, and are being sent to the receiving ship at Boston.

The *Oosterdijk* was one of the Dutch vessels recently taken over by the United States Government, and was a steamship of 11,554 tons, 450 feet long, 55 feet in breadth, with a draft of 31.9 feet.

SERVICE BUREAU

FIFTEENTH AND G STREETS
WASHINGTON, D. C.
Information available as to Officials, Functions, and Location of all Government Departments

ADDITIONS AND MODIFICATION TO EXPORT CONSERVATION LIST

The War Trade Board announces (in a new ruling (W. T. B. R. 173) the addition of the following commodities to the export conservation list effective July 22, 1918.

Dried peaches, X-1.
Dried prunes, X-1.
Peaches, dried, X-1.
Prunes, dried, X-1.
Silverware containing no tin. (Individual licenses not required to Canada and Newfoundland.)

The modification to the export conservation list, as shown below, has been adopted, also effective July 22, 1918. Item listed in column 1 includes the new modification and should be substituted for the corresponding item in column 2:

Column 1.	Column 2.
Effective July 22, 1918. Silver, manufactured, and articles containing silver. (Individual licenses not required to Canada and Newfoundland if no tin contained.)	Export conservation list July 16, 1918. Silver, manufactured, and articles containing silver.

Secretary McAdoo Announces Oversubscription Of July 9th Issue of Treasury Certificates

The Treasury Department authorizes the following:

The Secretary of the Treasury announces that the offering of $750,000,000 or more Treasury certificates of indebtedness, series IV B, dated July 9, 1918, subscriptions for which closed on July 16, was oversubscribed. The Federal Reserve districts of New York, Philadelphia, St. Louis, and Kansas City exceeded their tentative quota. The following is a list of the Federal reserve districts giving their quota and the amount of subscriptions received and allotted:

Federal Reserve Bank.	Quota.	Allotment.
Treasury, U. S.		$41,153,000
Boston	865,000,000	56,273,500
New York	274,000,000	273,219,600
Philadelphia	52,000,000	73,100,000
Cleveland	68,000,000	66,550,000
Richmond	26,000,000	15,075,500
Atlanta	22,000,000	16,021,500
Chicago	107,000,000	101,203,000
St. Louis	50,000,000	33,260,500
Minneapolis	26,000,000	22,100,000
Kansas City	30,000,000	30,031,500
Dallas	18,000,000	14,492,000
San Francisco	73,000,000	32,000,000
Total	750,000,000	759,438,000

Food Dealer Donates $12,800 to Red Cross

The Food Administration authorizes the following:

The firm of F. Romeo & Co., 374 Washington Street, New York City, has made a donation of $12,800 to the Red Cross following an investigation of the firm's business by the United States Food Administration.

The monthly reports of the firm indicated that it was making excess profits on canned tomatoes, dried beans, and cottonseed oil. A hearing was held before the New York Federal Food Board and the firm agreed to make the Red Cross contribution which represents the estimated overcharges on the commodities listed.

WORK OF CONGRESS BRIEFLY TOLD

During discussion in the Senate yesterday Senator Thomas, of Colorado, spoke in strong disapproval of strikes in war industries, and appealed to the patriotism of working men not to do anything that would hinder the production of those things necessary in the prosecution of the war.

Senator Lewis, of Illinois, paid a tribute to the valor of the American troops now fighting in France, in the course of the brief discussion during the morning hour, to which the biweekly sessions of the Senate are restricted.

Outlining informally some of the findings that will be made by the subcommittee of the Military Committee that has been investigating aeroplane production, Senator Thomas, of Colorado, said it had been shown that 1,200 training planes, costing $6,000,000, recently were cast aside as "junk" because they were regarded as too dangerous for use; that several aviators have been killed in flights with dangerous types of machines and that amateurs in the engineering and administrative sections have contributed to the delays in production. All members of the committee are agreed that the Liberty motor is a complete success. It is, however, too heavy for the Bristol machine, and that type, so successful in Great Britain, has been abandoned by the War Department.

The Ways and Means Committee of the House has tentatively agreed, it was stated to-day, upon a plan to assess a normal income tax of 10 per cent on all incomes of individuals after deducting the existing exemptions of $1,000 for single persons and $2,000 for married persons. The proposal, however, is subject to readjustment and has not been closed by the committee. Chairman Kitchin stated yesterday, after the session of the committee that data submitted to the committee shows that during the calendar year 1918 the net income reported by corporations will reach $10,000,000,000, and by individuals $7,000,000,000.

TREASURY STATEMENT.

TREASURY DEPARTMENT,
Washington, D. C., July 22, 1918.

Total	1,362,123,232.55

Contribute to the Red Cross fund.

Men in Overseas Army Must Make Income Tax Returns by October 1

The War Department authorizes the publication of the following order from general headquarters, American Expeditionary Forces, published in France June 18, 1918:

Officers and enlisted men of the American Expeditionary Forces having incomes of $1,000 or more for the calendar year 1917 are required to prepare income tax returns on the form prescribed by the Commissioner of Internal Revenue, and mail same to reach the office of the proper collectors of internal revenue in the United States on or before October 1, 1918.

The personnel of the American Expeditionary Forces should forward their individual returns of income to the collector of internal revenue for the district in which they maintain their legal residence; those without a permanent residence should forward their returns to the collector of internal revenue at Baltimore, Md.

Income tax forms will be obtainable at an early date through the offices of the disbursing quartermasters throughout the American Expeditionary Forces.

ADVANCE IN PRICE OF GASOLINE OF ONE-HALF CENT AUTHORIZED

The Fuel Administration issues the following:

The National Petroleum War Service Committee has been advised by the United States Fuel Administration that it will not object to an advance of one-half cent a gallon in the wholesale tank wagon market price of gasoline, naphtha, and refined oil throughout the entire United States, effective Monday morning, July 22, 1918. The reason for this advance is the recent increase in railroad rates throughout the United States.

Price to the Consumer.

In no instance shall the increase in the wholesale prices of these products be permitted to cause an advance in the price to the consumer of more than one-half cent per gallon, and it is believed that in many cases the present retail margin of profit is ample to permit of the absorption by the retailers of this increase in cost of one-half cent per gallon without any advance in price to the consumer.

ISSUES ORDER TO POSTMASTERS

(Continued from page 1.)

cooperate with the Government in its effort to prevent any information about ships reaching submarines which may be off the American coast.

JOSEPHUS DANIELS,
Secretary of the Navy.

My attention has been called to the fact that the above request of the Secretary of the Navy is being ignored by a number of publishers, and from information received from several sources I am convinced that the publication of this class of news and advertisements is actually being used to promote the cause of the enemies of the United States in the present war. You are, therefore, directed to promptly advise all publishers within the delivery of your office that this department will, after notice of these instructions, regard the publication of such shipping news as giving aid and comfort to the enemy and that such matter is nonmailable under the Espionage Act.

A. S. BURLESON,
Postmaster General.

BIDS ON RESIDENCE HALLS FOR WAR WORKERS ARE INVITED

The Department of Labor authorizes the following:

The Bureau of Industrial Housing and Transportation announces that contractors have been invited to send in bids for Government residence halls planned for war workers in the District of Columbia.

Groups containing unit buildings, each consisting of 150 rooms, will be located at the Union Station Plaza and on the site bounded by Fourteenth, Fifteenth, and B Streets and Ohio Avenue NW. Each unit of 150 rooms will have its own office, reception room, sitting rooms, and other facilities. The units will be called residence halls and will be operated as hotels.

Room for Each Person.

Each room will measure 9 by 11 feet, and each will be provided with a clothes closet and running water, hot and cold. Shower baths and tubs and toilets will be provided for each group of about 25 rooms. The rooms are all designed for occupancy by one person.

In the basements will be small supplementary laundries for the use of residents. Small kitchenettes are planned also in the basements.

At the Union Station three groups of buildings are to be erected. Two groups will consist of three units, each unit having 150 rooms. The third group will consist of six units of 150 rooms each.

Will Have Apartments.

At the Fourteenth and Fifteenth Street site there will be five units of 150 rooms each. There will also be two apartment units consisting of three and four room apartments, numbering about 50 all told. The buildings will be of terra-cotta blocks covered with stucco, three stories in height. Each group will contain a central administration office and a public hall, in which dances and other public meetings may be held. Every individual unit will also possess a small hall.

Apartments will be available for married couples. Plans are now being made for a building for men at the Union Station site.

Contracts should be awarded within a week. The Bureau of Industrial Housing hopes to secure the completion of the buildings within four months. They would thus be ready for occupancy in December.

Give up your luxuries that the Kaiser may be made to give up his ambitions.

LIST OF CASUALTIES AS REPORTED AMONG THE U. S. FORCES OVERSEAS

ARMY

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	24
Died of wounds	3

U. S. FUEL ADMINISTRATION FIXES CANNEL COAL PRICES

The United States Fuel Administrator, acting under authority of an Executive order of the President of the United States dated August 23, 1917, appointing said Fuel Administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders that the regulation dated February 21, 1918, effective on that date, entitled "Ruling regarding prices for mixed cannel and bituminous coal" be and the same hereby is cancelled from and after 7 a. m., July 16, 1918.

And hereby further orders that the regulation dated June 28, 1918, effective on June 29, 1918, entitled "Regulation fixing the price of cannel coal" be amended to read as follows from and after 7 a. m., July 16, 1918, until further or other order and subject to modification hereafter from time to time and at any time:

REGULATION FIXING THE PRICE OF CANNEL COAL AND THE MIXTURE OF CANNEL COAL AND BITUMINOUS COAL.

SECTION 1.—The prices of cannel coal shipped on and after the effective date of this regulation are hereby fixed f. o. b. cars at the mine per net ton at not to exceed the applicable Government mine price for bituminous coal at the mine where such cannel coal is produced: *Provided, however*, That if the producer of such cannel coal shall obtain from the United States Fuel Administration a permit therefor, lump cannel coal may be sold for a sum not to exceed $1 per net ton above the applicable Government mine price for run of mine bituminous coal at the mine where such coal is produced.

SEC. 2.—Any producer desiring to obtain a permit to make the additional charge for cannel coal provided in section 1 of this regulation, may file with the Bureau of Prices of the United States Fuel Administration, Washington, D. C., an application therefor in such form as said Bureau of Prices may from time to time prescribe.

SEC. III.—All invoices for cannel coal for which the additional charge provided in section I hereof is made must bear the number of the permit of the producer of such coal.

SEC. IV.—When cannel coal is loaded into box cars, a charge of 50 cents per net ton, in addition to the prices fixed in section I hereof, may be made to cover the cost of labor and material necessary to load such coal into box cars. No such charge shall be made on shipments in box cars of cannel coal mixed with bituminous coal.

SEC. V.—When run of mine or prepared cannel coal is mixed with bituminous coal of any size the mixture shall be sold at a price not to exceed the Government mine price for bituminous screenings applicable at date of shipment at the mine where such cannel coal is produced.

SEC. VI.—When cannel coal, from which the lumps have been screened, is mixed with bituminous coal of any size the mixture shall be sold at a price not to exceed the Government mine price for bituminous screenings applicable at date of shipment at the mine where such cannel coal is produced less 30 cents per net ton.

H. A. GARFIELD,
United States Fuel Adminstrator.

SENT TO PRISON FOR POSING AS U. S. FOOD REPRESENTATIVES

The Food Administration authorizes the following:

Six months' imprisonment in the Allegheny County jail and $100 fine is the penalty imposed by the United States Court for the western District of Pennsylvania upon Charles E. Meyers and James A. Alwin for falsely representing themselves to be agents of the United States Food Administration. These offenders were indicted on May 13, 1918, under sections 32 and 37 of the Federal Criminal Code. Their pleas of not guilty, entered on May 14, were withdrawn on May 22, when the above fine and imprisonment were imposed by the court, following their pleas of guilty.

Arrested in Ohio.

Meyers and Alwin made several visits at Donora, Pa., falsely representing themselves to be Government food inspectors as part of a fraudulent scheme to obtain money. They were arrested in Ohio, where they were again falsely posing as Government officials. It is understood that other arrests have been made and other prosecutions will follow against associates of Meyers and Alwin.

It is not believed that the practice of falsely pretending to act as Government inspectors is at all common. These prompt convictions and drastic penalties of $100 fine and six months' imprisonment should serve to protect the public from further activities by such impostors.

FURTHER RESTRICTIONS ON SMOKELESS COAL SHIPMENTS

The United States Fuel Administration authorizes the following:

An order was issued by the United States Fuel Administration July 18, effective 7 a. m. July 18, prohibiting any person owning or operating a dock on Lake Michigan or Lake Superior from selling, shipping, delivering, or distributing smokeless coal received at any such dock from the New River, Pocahontas, Tug River, or other field producing low volatile smokeless coal for any purpose other than making illuminating gas, by-product coke, or coal briquettes, or for such other special purposes as may be designated by the Fuel Administration by special permits.

The prohibition contained in the order also includes any such coal carried over from stocks of last year. Also, it applies to all shipments of smokeless coal which are permitted under the zone orders as well as to all out-of-zone shipments under zone permits.

To sell or deliver smokeless coal except as specified under the order of to-day special permits must be obtained from the district representative of the United States Fuel Administration in charge of docks on Lake Michigan and Lake Superior.

RED CROSS AIDS DESTITUTE RUSSIANS IN SWITZERLAND

The Red Cross authorizes the following:

The sum of $75,000, or its equivalent, 300,000 Swiss francs at the present rate of exchange, has been appropriated by the war council to be expended through the central committee of the Society of Russian Citizens and two other societies in Switzerland, under the supervision of the American Red Cross representative in Switzerland, for the relief of sick or needy Russians in Switzerland.

Mr. Taylor, the Red Cross representative at Berne, cabled that the assistance was desperately needed. He said that there were probably some 6,000 Russians in Switzerland, many of them people of education, who, before the revolution, lived there on incomes received from Russia. Of these a considerable number were students. There were also many women and children.

The revolution has prevented these people from receiving money from Russia. Their resources in Switzerland have gradually dwindled until with many it is a question of food and shelter. Until recently the Russian legation, which belongs to the Kerensky regime, has given aid to the most deperate cases but is no longer in a position to do so.

Some of these Russians work in factories and others in the fields. Many, however, are old and unaccustomed to physical labor. At least 2,000 are utterly destitute. Of these 1,000 are ill, of whom a large proportion have tuberculosis.

The Swiss Red Cross would have helped these Russians but it lacked funds.

This money is considered a sufficient sum to relieve the most needy cases for a period of three months.

MARINE CORPS CASUALTIES

FEDERAL RESERVE BOARD'S WEEKLY BANK STATEMENT

The Treasury Department authorizes the following:

Aggregate gains of 15.4 millions in gold reserves accompanied by an equally large increase in investments and a slightly larger gain in Federal reserve note circulation are indicated in the Federal Reserve Board's weekly bank statement issued as at close of business on July 19, 1918.

Investments.—Discounted paper on hand shows an increase for the week of 43.5 millions, mainly at the Chicago, Kansas City, and Philadelphia banks. Of the total discounts shown, 601.4 millions, as against 606.6 millions the week before, is represented by war paper; i. e., member banks' notes and customers' paper secured by United States war obligations. Acceptances on hand indicate net liquidation of 12.5 millions for the week and of 122.9 millions since March 22, when the maximum holdings of this class of paper were reported. Redemption by the Government of 15 millions of certificates held by the New York bank on June 12 accounts largely for the decrease in Government securities shown. Total earning assets increased 15.4 millions.

Government Deposits Decrease.

Deposits.—Government deposits show a decrease of 24.6 millions, largely at the Cleveland, Chicago, and Atlanta banks. Members' reserve deposits increased 48.7 millions, all the banks except those of St. Louis and Dallas reporting gains for the week. Net deposits increased about 13 millions.

Reserves.—Transfers of Government funds from other Federal reserve banks resulted in considerable concentration of reserves at the New York bank, which holds at present 43.5 per cent of the total cash reserves of the system as against 38 per cent the week before. The ratio of reserves to aggregate deposit and Federal reserve note liabilities shows a slight decline from 55.9 to 59.8 per cent.

Federal reserve circulation.—During the week the agents issued 18.9 millions net of Federal reserve notes. The banks report an increase of 15.6 millions of Federal reserve notes in actual circulation besides a slight increase in their liability on Federal reserve bank notes in circulation.

Capital.—Payment by newly admitted members for Federal reserve bank stock accounts largely for an increase of $59,000 in paid-in capital, chiefly of the Chicago and New York banks.

Condition of Member Banks July 12.

Substantial gains in deposits accompanied by somewhat smaller increases in loans and investments are indicated by the weekly statement of condition on July 12 of over 700 member banks in leading cities.

Notwithstanding the larger number of reporting banks, the holdings of United States bonds, other than circulation bonds, show a decrease for the week of 4.5 millions. On the other hand, certificates of indebtedness, notwithstanding the redemption by the Government on July 9 of the outstanding balance of the April 10 issue, increased 122.6 millions, of which over 80 millions represents the increase under this head for the banks in the three central reserve cities. Other loans and investments show an increase of 40.4 millions, though for the central reserve city banks a decline equally large is noted. As a result of the week's developments the share of United States war obligations in the total loans and investments shows a rise from 13.3 to 14.1 per cent. For the central reserve city banks a rise from 15 to 16.3 per cent is noted.

Government deposits decreased during the week 99.2 millions, largely at the banks outside the central-reserve cities. Net demand deposits went up about 271 millions, of which 152.6 millions represents the gain at the central-reserve-city banks. A gain of 23.1 millions in time deposits is confined largely to country banks. Total reserves show an increase of 62.3 millions, chiefly for the central-reserve-city banks, while cash in vault went up 15.3 millions.

Ratio of Aggregate Loans.

Owing to the slightly larger gain in deposits the ratio of aggregate loans and investments to deposits declined from 123.6 to 123.1 per cent. For the central-reserve-city banks this ratio shows a decline from 115.3 to 113.3 per cent. The ratio of combined reserve and cash to deposits shows an increase from 14.2 to 14.7 per cent for all reporting banks, and from 15.1 to 15.7 per cent for the banks in the central-reserve cities. Total excess reserves, in the calculation of which no account is taken of Government deposits, increased from 38.9 to 69.9 millions, by far the larger part of the increase falling to the share of the central-reserve-city banks.

ECONOMIES IN MANUFACTURE OF BLANK BOOKS AGREED UPON

The War Industries Board authorizes the following:

A committee of representative blank-book manufacturers at conferences with T. E. Donnelley, chief of the pulp and paper section of the War Industries Board, agreed to economies to be practiced by the manufacturers of stock blank books to become effective August 1. It is intended that all stocks now on hand shall be used.

Following is to be the basis of weights of paper: Low grade or machine finish, 25 by 38, 30, 35, 40, 45, 50, and 60 pounds maximum; medium grade, 17 by 22, 28 pounds substance.

Other Economies Proposed.

Other economies include use of cotton thread instead of linen thread, where practicable, discontinuance of marble and fancy paper for fly leaves, plain edges substituted for marble or fancy edges, and green edges for gold or metal edges. The coloring of edges is to be discontinued on all low grade or popular price memorandum books.

Changes of material in bound blank books include greater use of high-grade Fabri-hide or Texhide for fleshars, as well as for buffing or cowhide, and oriental leaf for finishing in place of gold. Fabri-hide is to be used for the backs and corners on cloth or canvas side books, and paper is to be substituted for leather titles. Smooth sheep skiver on all goods is to be discontinued. Manifold books are to be wrapped instead of boxed; the covers are to be of Fabri-hide, instead of buffing, and the sides of cloth grained paper instead of cloth.

The present thickness of boards in all blank books is to be reduced approximately 20 per cent, and the manufacturers are urged to reduce the number and adopt a uniform basis of sizes and thickness for memorandum books of all kinds.

SPY-PROOF LETTERS SENT TO GERMANY THROUGH RED CROSS

The American Red Cross authorizes the following:

The American Red Cross is the officially designated agency through which welfare messages may be transmitted to persons in enemy territory. The practice of permitting inquiries and messages of this character between civilians in countries which are at war with each other is an outgrowth of the principle of international law which allows prisoners of war to send letters to their friends at home and to receive letters from them.

A Humanitarian Work.

In carrying out this work, which is essentially of a humanitarian character, the Red Cross also acts to prevent the transmission of information of benefit to the enemy, either through the efforts of professional or amateur spies, or through messages of innocent intent. A system of operation has been devised by the State Department which is as nearly "spy proof" as it possibly could be. The process of itself is simple, but a great amount of painstaking labor is required to make the safeguards complete. This will be readily appreciated when the scheme of conveying messages is considered along with the fact that an average of 1,300 letters a day are being sent to persons living beyond the enemy lines.

Little Chance for Spies.

The plan, as devised, prevents all use of the code. Any person wishing to send a message to a relative or friend in Germany or Austria must write it in some office of a Red Cross chapter. Messages written out in the chapters are sent, through the division, to the office of the director of the Bureau of Communication at National Red Cross headquarters. Here they are cut down in most cases, and in all cases the wording is absolutely changed. A message might have left the chapter with invisible ink somewhere on it. There can be no such thing when it has been paraphrased and put on a new form in the Bureau of Communication.

Pass Through Censor.

From the Bureau of Communication the messages go to the censorship board, by which they are passed or refused, as the case may be. When they reach a neutral country they are translated, put on another form, and forwarded. In most cases they are delivered by the Red Cross of the place to which they go.

Since put into effect a few weeks ago the plan above outlined probably has been utilized in the great majority of instances by persons who are in no sense enemies of the United States. It is causing infinite satisfaction to many people who fear for their families in the invaded districts.

Railroads Called Upon to Make Detailed Reports on Effect Of Application of Wage-Increase Order on Charge Accounts

The United States Railroad Administration, Division of Public Service and Accounting, issues the following:

JULY 15, 1918.

P. S. & A. CIRCULAR No. 17.

In the matter of application of the provisions of the Director General's Order No. 27, Wages of Railroad Employees.

It will be necessary for carriers to report the effect of the application of the provisions of that order upon operating and other costs, and to that end you are directed to compile and report the data hereinafter specified in connection with labor costs applicable to employees whose salaries and wages are chargeable to the accounts enumerated in the inclosed forms for special reports.

(1) Special report on wage increases, Form 1. Ascertain separately for the months of January, March, and May, 1918:

(a) The total pay roll charges to the operating expenses and other accounts designated in the form, based on wages actually accrued in those months under the wage rates which prevailed before the order was issued.

(b) The increases, in each of the accounts and totals designated in the form, brought about by the application of the provisions of the order.

(c) The percentage of the increase (b) to the total pay roll (a) in each of the accounts and totals designated in the form for each of the three months, and in the averages for the three months combined.

(2) Special Report on Wage Increases, Form 2. Show separately for the month of August, 1918:

(d) The total pay-roll charges to operating expenses and other accounts subdivided according to the accounts designated on the form.

(e) The increases in August, 1918, over the rates in effect on December 31, 1917, due to the application of the provisions of the order.

(f) The increases in August, 1918, due to advances in wage rates over those of December 31, 1917, other than the increases authorized by the order—such as collateral increases and wage adjustments due to other causes.

(3) Special Report on Wage Increases, Form 3. Show for the month of October, 1918, the same information as called for under (2) for August, 1918.

(4) The pay-roll figures reported on the three forms should include all salaries and wages, whether charged or to be charged to operating expenses, additions, betterments, individuals, companies, or other accounts.

(5) The three reports shall be made (in duplicate) to the Director, Division of Operation, and copies sent to the regional director and Federal manager having jurisdiction. Form 1 (for January, March, and May, 1918) should be sent on or before August 1, 1918, and Forms 2 and 3 (for August and October, 1918) should be sent on or before October 1 and December 1, 1918, respectively.

C. A. PROUTY,
Director.

SPECIAL REPORT ON WAGE INCREASES, FORM 1.

UNITED STATES RAILROAD ADMINISTRATION,
W. G. MCADOO, Director General of Railroads.

Increases in total payments for wages and salaries due to application of General Order No. 27, based on months of January, March, and May, 1918.

WORLD-WIDE WORK OF THE RED CROSS DONE THROUGH ITS FOREIGN DIVISION SHOWN IN LETTER TO THE PRESIDENT

The American Red Cross authorizes the following:

President Wilson, replying to a letter written to him by Henry P. Davison, chairman of the war council of the American Red Cross, setting forth the development of Red Cross chapter work in insular territory and in foreign countries all over the world, expresses his deep appreciation of the work.

Mr. Davison's Letter.

Mr. Davison's letter to the President was as follows:

JULY 9, 1918.

MY DEAR MR. PRESIDENT: There is one feature of the development of our Red Cross work to which particular attention has not been called, but which has interested me especially and I believe will interest you.

Soon after the war council was appointed we determined to effect an organization which would enable us to call on every American man and woman in the world whom it was possible to reach for service. To carry out this plan we organized what is called our territorial, insular, and foreign division, or fourteenth division. The chapters of that division to-day are located in Argentina, Bolivia, Brazil, Canal Zone, Chile, China, Costa Rica, Cuba, Dominican Republic, Egypt, Guam, Guatemala, Haiti, Hawaii, Nicaragua, Paraguay, Japan, Peru, Philippine Islands, Porto Rico, Spain, Sweden, Switzerland, Uruguay, Venezuela, and Virgin Islands.

Generous Response to Call.

In our call for manufactured goods and contributed articles, we look to this division as regularly and confidently as to our other 13 divisions in this country. The result of this call has been more than gratifying, as on every incoming steamer from these foreign countries there are cases of manufactured goods, made of their native raw materials and following as closely as possible the design called for by us. It is estimated that these goods are now coming in at the rate in value of about $1,500,000 a year. Civilian relief and home service, too, are being efficiently organized in our insular possessions where the men are being called for military duty.

In our second Red Cross war fund drive we looked to the fourteenth division for the sum of $300,000, making specific allotments, following our custom at home. The response to the drive, according to preliminary reports, was, in round numbers, as follows:

Arabia	$50. 00
Argentina	100, 000. 00
Bolivia	[2]
Brazil	45. 165. 00
Canal Zone	30, 000. 00
Chile	27, 000. 00
China	100, 000. 00
Costa Rica	2, 700. 00
Cuba	155. 000. 00
Dominican Republic	80, 000. 00
Egypt	[2]
Guam	5, 800. 00
Guatemala [1]	50. 00
Haiti	3. 000. 00
Hawaii	677, 000. 00
Honduras [1]	4, 500. 00
Japan	60, 000. 00
Mexico	41, 000. 00
Nicaragua [1]	1, 600. 00
Paraguay [1]	359. 00
Peru	15, 000. 00
Philippine Islands	20, 000. 00
Porto Rico	106, 388. 00
Spain	6, 000. 00
Switzerland [1]	138. 00
Sweden [1]	76. 00
Uruguay [1]	3, 854. 00
Venezuela [1]	681. 00
Virgin Islands [1]	[3] 216. 00
Total	1, 485, 577. 00

[1] Amount actually received. Other figures estimated.
[2] Returns not received.
[3] Full returns not received.

Membership of Division.

The members of this division to-day number about 100.000 adults, with approximately 125,000 junior members, enrolled principally through the public schools of our insular depencies. This does not include associate members, as for instance, in China, where we have about 50,000 Chinese, who pay a dollar a year to our local Red Cross chapters and are known as associate members. This custom is practiced in other countries as well.

Of course, it is not the value of the goods or the number of dollars involved, but rather the effect such a relationship must have upon the American who has been so long away from home that he may have begun to believe himself a "man without a country."

My imagination has been allowed to play with the greatest satisfaction in this particular undertaking, as I feel that the American in a foreign land has been, at least in spirit, brought home and made to realize a new sense of responsibility and obligation. The result of it is that he is a better man, has a better standing in his own community, and the spirit now permeating our own country is carried effectively into the remote community in which this man lives. Perhaps, too, through these agencies, fuller international understanding and friendships may proceed, for your society in its foreign branches, always organized with domestic approval, offers a medium through which humane, as well as patriotic forces, may best find expression.

Sincerely, yours,

HENRY P. DAVISON,
Chairman Red Cross War Council.

THE PRESIDENT,
The White House, Washington, D. C.

President Wilson's Reply.

The President's reply to the above letter follows:

THE WHITE HOUSE,
Washington, July 11, 1918.

MY DEAR MR. DAVISON:

Your letter of July 9 tells me of an exceedingly interesting thing, the work of the Territorial, Insular, and Foreign Division of the Red Cross. It is a remarkable story and I share with you the deepest satisfaction for what these comrades of ours scattered throughout the world have done.

Sincerely, yours,

WOODROW WILSON.

Hon. HENRY P. DAVISON,
American Red Cross.

List of Labor Controversies Adjusted During the Week Ending July 20

The Department of Labor issues the following statement of labor controversies adjusted during the week of July 15 to July 20:

Name.	Conciliator.	Workmen affected. Directly.	Workmen affected. Indirectly.
Controversy, Willys-Overland Co. and diesinkers, die and tool makers, machinists, machine operators, and tool grinders, Toledo, Ohio.	C. Bendheim	5,000	3,000
Controversy, Saxon Manufacturing Co. and machinists, etc., Toledo, Ohio.	do	100	
Controversy, Electric Auto-Lite Corporation and diesinkers, etc., Toledo, Ohio.	do	2,100	
Controversy, Albany Car Wheel Works, Schenectady, N. Y.	J. R. Buchanan	100	125
Threatened strike, foundry employees, American Locomotive Co., Schenectady, N. Y., Dunkirk, N. Y., Paterson, N. J., and Richmond, Va.	do	400	200

Controversy, Standard Tin Plate Co., Canonsburg, Pa.	C. Reeves	350	1,500
Controversy, National Belting Co. and 5 other companies, New York City, N. Y.	B. M. Squires	100	
Controversy, chain manufacturers and chain makers, 5 States (Adjustment secured for duration of war).	H. L. Kerwin, J. J. S. Rodgers.	800	

UNIFORM PHYSICAL STANDARD FOR ALL U. S. ARMY BRANCHES

Medical Department Adopts Regulations to Govern in All Examinations.

The following statement is authorized by the War Department from the Office of the Surgeon General:

Uniform standards of physical examination governing the entrance to all branches of the armies of the United States for the use of all medical officers of the Medical Department of the Army and of local and medical advisory boards under the selective-service regulations have just been printed and are now being mailed.

Guide to Local Physicians.

Adherence to the new rules and regulations by the local boards will, it is expected, result in uniform examinations in all parts of the country and should prevent men physically disqualified for military service from being sent to camps. At the same time the new standards will enable local physicians to make examinations with a better understanding of the needs of the Army and will clear away misconceptions and misunderstandings which will result in the sending of men to camps who heretofore were rejected.

The new standards are applicable to the Regular Army, National Army, and the National Guard. Explicit instructions are given as to what classes of men may be accepted for limited service as well as what classes may be accepted pending treatment for remediable defects.

The experience of the past year has enabled the medical authorities to establish standards of examination which will relieve the local boards of considerable doubts as to just what decisions to make in unusual cases. Enough of these cases have been examined to establish a policy in determining their military fitness.

Standards Different Heretofore.

Heretofore the physical standards of the three armies have differed and instances have been noted where men who have been rejected for service by the recruiting officers of the Regular Army have been accepted for military service by draft board physicians. Under the new standards this will not be possible unless the disqualifying defect be subsequently removed. The rule for all three armies is that to make a good soldier a man must be able to see well, have comparatively good hearing, his heart must be able to stand the stress of physical exertion, he must be intelligent enough to understand and execute military maneuvers, obey commands, and protect himself, and must be able to transport himself by walking as the exigencies of military life may demand.

The exceptions made to the foregoing general rule are in the case of the men accepted for special and limited service.

Remember! the men in our Army and Navy do not expect luxuries. Should we at home expect them? Buy necessities and war-savings stamps.

RAILROADS CALLED UPON TO MAKE DETAILED REPORTS

(Continued from page 9.)

SPECIAL REPORT ON WAGE INCREASES, FORM 2.

UNITED STATES RAILROAD ADMINISTRATION,
W. G. McADOO, Director General of Railroads.

Increases in total payments for wages and salaries due to application of General Order No. 27, and to other increases made since December 31, 1917. (Increases in both Columns B and C based on December, 1917.) Month of August, 1918.

Salaries and wages chargeable to—	Actual pay-roll charges to operating expenses and other accounts.	Increases over December, 1917.	
		Due to application of G. O. No. 27.	Due to increases other than those under G. O. No. 27.

Executive Order Prescribing Additional Regulations and Defining the Powers of the Alien Property Custodian

An Executive order prescribing additional rules and regulations, and making certain determinations respecting the exercise of the powers and authority and the performance of the duties of the Alien Property Custodian:

By virtue of the authority vested in me by "An act to define, regulate, and punish trading with the enemy, and for other purposes," approved October 6, 1917, known as the trading-with-the-enemy act, as amended by "An act making appropriations to supply urgent deficiencies in appropriations for the fiscal year ending June 30, 1918, and prior fiscal years, on account of war expenses and for other purposes," approved March 28, 1918, I hereby make the following orders, rules and regulations, and determinations.

Definitions.

1. The word "person," as used herein, shall be deemed to mean an individual, partnership, association, company, or other unincorporated body of individuals, or corporation or body politic.

2. The word "enemy," as used herein, shall be deemed to mean either an "enemy" or "ally of enemy," as the case may be.

Powers of Management and Administration, Including Sale or Other Disposition.

The Alien Property Custodian shall have power, and he is authorized and directed, to hold, manage, administer, protect, preserve, control, and sell or otherwise dispose of, in accordance with the following rules and regulations, any and all property other than money which has been or shall be conveyed, transferred, assigned, delivered, and/or paid over to him pursuant to the provisions of the trading-with-the-enemy act as amended and the Executive proclamations and orders issued pursuant thereto, or which has been or shall be required so to be conveyed, transferred, assigned, delivered, and/or paid over to him.

1. The Alien Property Custodian shall have the power and authority to do any and all things reasonable and proper in or about the custody, management, administration, protection, preservation, and control of any such property according to the nature and character of the property and the attendant circumstances, including (but without limiting the generality of the foregoing) the power and authority to collect all bills, notes, accounts, dividends, interest, rents, royalties, annuities, and other receivables, and income and profits and accumulations and distributions of principal or income; to pay all rents, royalties, interest, and other accounts and liens or charges; to make repairs, additions and alterations to property, whether real or personal; to rent, lease or otherwise grant the use or right to use or occupy property of any kind; to insure property against loss, and to cancel or surrender insurance policies and collect return premiums and surrender values, and to do any other act or thing with respect to insurance or insurance policies; to grant by lease, license, or otherwise, the right to use or other rights under or in respect of patents, copyrights, trade-marks, trade secrets, and other similar rights; to vote in person or by proxy shares of stock or other beneficial interest in corporations, unincorporated associations, companies, or trusts upon any questions at all times and upon all matters upon which any owner of such stock or other beneficial interest shall have the right to vote, including the power and authority to vote for or against and to take part in any sale, dissolution, consolidation, amalgamation, or reorganization of any sort, of any such corporation, unincorporated association, company, or trust, or of its assets of any part thereof, and to exercise any rights or privileges that may be or become appurtenant to the ownership of such stock or other beneficial interest with like force and effect and under like circumstances in all respects as though the absolute owner thereof; to give any notices and file any papers or writings of any kind, proper or necessary for the creation, perfection, protection, liquidation, or otherwise in respect of any claims, demands, choses in action, or other rights of any kind, and to settle, compromise, and adjust claims, demands, and choses in action; to intervene in any suit or proceeding, and to file and maintain claims, demands, and suits of all kinds in or before, any court, board, commission, or other body; to determine and pay all reasonable and proper expenses incurred in or about or with respect of the exercise of any of the powers and authority vested in the Alien Property Custodian or any depository for him, including expenses that may be incurred in or about securing possession, custody, or control of any such property, and including also taxes and other charges heretofore or hereafter lawfully assessed upon or against such property by any body politic: *Provided*, That this shall not be construed to require the payment of any stamp or other taxes upon or on account of conveyance, transfer, assignment, or delivery of property to the Alien Property Custodian or to any agent, attorney, bailee, nominee, or depositary for him; *And provided further*, That this shall not in any way affect the power of the Commissioner of Internal Revenue or any regulations made by him or under his authority.

2. Whenever any such money or other property or any part or parcel thereof is or shall be subject to any claim of lien, charge or incumbrance, or is or shall be held or retained adversely to the Alien Property Custodian or to any requirement with respect to such money or other property made by him, the Alien Property Custodian may compromise or settle such controversy and pay any such claim in any way that he shall decide to be proper and as though he were the absolute owner of the money or other property involved; and he shall have the power and authority to make any payment or payments necessary and to execute and deliver any instruments or writings necessary and proper to effect or evidence the same.

3. Whenever any such property or any part or parcel thereof shall be used or employed in the conduct or other operation of a mine, plant, factory, railroad or other transportation facility, warehouse, mercantile or trading establishment or any sort of a going business or undertaking, the Alien Property Custodian, in addition to the rights, powers, and authority elsewhere herein conferred upon him, in respect of the property so used or employed, may continue the conduct or other operation of such business or undertaking; and for such purpose he shall have the right, power and authority to employ and discharge agents, attorneys, servants and other employees; to buy and sell supplies, materials and commodities required or necessary for the conduct of such business, or dealt in or handled thereby, or mined, produced, manufactured or created by it; to take out insurance; to require money owing by banks, trust companies or other depositaries on special or general deposit to be paid to him or upon his order; to collect debts and other receivables owing to the said business or undertaking or to the former enemy owner or owners thereof and created out of or by the operation of such business or undertaking, and also debts, accounts and other receivables accruing or arising out of the conduct or other operation of such business or undertaking, by the Alien Property Custodian or under his direction or authority; to pay the wages and salaries of agents, attorneys, servants and other employees, and rents, royalties, and other current accounts and liabilities; to intervene in any suit or action pending in any court or before any board, commission or other body, in which such business or undertaking or any of the property or assets thereof shall be involved or concerned and to prosecute or defend, as the case may be; to file, prosecute and maintain in the name of the Alien Property Custodian or otherwise as may be proper, any claim or suit arising out of or based upon transactions had prior or subsequent to the time when such property was conveyed, transferred, assigned, delivered and/or paid over to the Alien Property Custodian or was required so to be, but growing out of the conduct or operation of such business or undertaking or any other use, custody, control or management of any property or assets thereof; and generally to manage, administer, preserve, conduct, operate and control such business or undertaking and any or all parts or parcels and assets thereof as though the absolute owner, either in the name of the Alien Property Custodian or otherwise as he shall determine.

4. The Alien Property Custodian may appoint agents, attorneys, bailees, depositaries, and/or managers who, under his direction and control and within the limits of the authority conferred by him, shall be authorized and directed to hold, manage, administer, protect, preserve, and otherwise control property conveyed, transferred, assigned, delivered, or paid over to him, or required so to be, or any part or parcel thereof; and they may be authorized and directed to continue the conduct or other operation of any going business or other undertaking which the

Executive Order on Powers of Alien Property Custodian

Alien Property Custodian himself, as provided elsewhere herein, could continue. Such agents, attorneys, bailees, depositaries, and managers shall have and exercise the rights, powers, and authority which shall be from time to time conferred upon him or them by the Alien Property Custodian; and such rights, powers, and authority may be enlarged, restricted, or revoked by the Alien Property Custodian at any time and without giving any notice or reason therefor; and the remuneration of all such agents, attorneys, bailees, depositaries, and managers shall be fixed by the Alien Property Custodian and may be increased or reduced at any time.

5. The Alien Property Custodian shall have full power and discretion with respect to property to be sold, and may sell any property or properties as an entirety or in such groups or parcels and at such time or times as he shall determine, and without reference to the previous enemy or ally of enemy ownership thereof. Whenever any such property shall be used or employed in the conduct or other operation of any mine, plant, factory, railroad, or other transportation facility, mercantile establishment, or any sort of going business or undertaking, the Alien Property Custodian may sell such property as a going business or undertaking and may include not only the tangible property, but any and all patents, trademarks, trade names, good will, and other intangible rights and assets; and any number of such going businesses or undertakings may be sold together as above specified.

6. Whereas said trading with the enemy act as amended provides that "any property sold, except when sold to the United States, shall be sold only to American citizens, at public sale, to the highest bidder, after public advertisement of the time and place of sale, which shall be where the property or a major portion thereof is situated, unless the President, stating the reasons therefor in the public interest, shall otherwise determine,"

Now, therefore, I do thus determine otherwise as follows:

(*a*) Shares of stock or other beneficial interest in a corporation, unincorporated association, company or trust, and claims, receivables and intangibles of all kinds may be advertised and sold wherever the Alien Property Custodian shall determine; and it shall be immaterial whether such shares of stock or other beneficial interest and such claims, receivables and intangibles be represented or evidenced by certificates or instruments or writings of any kind, and whether the Alien Property Custodian shall or shall not have possession or control thereof in the event that the same shall be thus represented or evidenced.

(*b*) Any corporation incorporated within and under the authority of the laws of any State or Territory of the United States or of any of its insular possessions shall be allowed to bid at any sale of any such property, but the Alien Property Custodian shall have the right to exclude from bidding at any such sale and/or from purchasing or otherwise acquiring property from him directly or indirectly, any corporation which he shall after investigation determine to be controlled, managed or operated wholly or mainly by or for the account or benefit of a person or persons not a citizen or citizens of the United States or of its insular possessions.

(*c*) The Alien Property Custodian, upon order of the President stating the reasons therefor, shall have the right to reject all bids for any property thus sold and to resell such property at public sale or otherwise as the President may direct; but the Alien Property Custodian may at or before any sale, by public announcement or by publication, fix a period after the expiration of which the right thus to reject all bids and to resell such property will not be exercised.

My reasons for the foregoing determinations in the public interest are:

(*a*) That such sales may be made at the place of favorable demand and under the best circumstances to secure the market price therefor.

(*b*) That bidders able to purchase and pay for the properties to be sold may be secured.

(*c*) That the powers of sale given to the Alien Property Custodian may be effectively exercised by him.

7. Any property sold by the Alien Property Custodian either at public or private sale may be sold for cash or upon credit, and in the latter event such security for the payment of that portion of the purchase price remaining unpaid may be taken as he shall deem proper in the premises. He shall be authorized to set a minimum or upset price upon any property offered for sale by him; to fix and prescribe the terms and conditions upon which bids will be received; to determine generally and specially qualifications to be met by persons offering to bid; to require deposits from prospective bidders; to determine generally or specially the nature and extent of information concerning any property or properties offered or to be offered for sale which shall be given prospective bidders, and the inspection thereof which shall be allowed; to have made auditor's reports and appraisals of property or properties offered or to be offered for sale; and to make and establish general and special terms and conditions to govern any and all sales to be made by him. Any property or properties thus sold may be sold subject to or free from any or all debts, claims, obligations, and liabilities of all kinds created or arising out of or in respect of any such property or properties or the conduct or other operation of any such business or other undertaking by the Alien Property Custodian or otherwise; and subject to or free from liens, charges, or incumbrances; and payment of such debts, claims, obligations, liabilities and liens, charges and incumbrances, and of all expenses of such sale or sales, or may be required to be made or assumed by the purchaser, as the Alien Property Custodian shall determine.

8. All costs and expenses incurred by reason of or in respect of, and all claims and demands of every kind, character, and description based upon or arising out of, the custody, management, administration, protection, preservation, and control of any such property and the conduct or other operation of any such going business or other undertaking and the sale or other disposition of any such property, shall be limited to and paid or satisfied out of only the property or business or undertaking involved and out of which, on account of which, or in respect of which such cost, expenses, claim, or demand shall have been incurred and shall have arisen or been created; provided that whenever such property or the income therefrom or the assets of any such going business or other undertaking shall be insufficient therefor, such cost, expenses, claim, or demand shall be charged thereto, but may be paid or satisfied out of money or other property received from or as the property of, the same enemy. Neither the Alien Property Custodian nor any agent, attorney, bailee, manager, or depositary appointed by him shall be liable personally to any one for or on account of anything done or omitted in respect of, or for any debt or other obligation of any kind or character owing, created, or growing out of or in any other way arising from, any such property, or the custody, management, administration, protection, preservation, control, and/or sale or other disposition thereof, and/or from the conduct or other operation of any going business or undertaking, except in the event of intentional injury or fraudulent misconduct by the person attempted to be charged with liability.

9. The Alien Property Custodian and agents, attorneys, bailees, managers, and depositaries for him, within the limits of the authority granted by him, shall have power and authority to do any and all things resasonable or proper in or about or in respect of the exercise of any of the powers and authority specifically granted above; and in addition are authorized and directed hereby to manage all such property and to do any act or things in respect thereof or make any disposition thereof or any part thereof by sale or otherwise and exercise any rights or powers which may be or become appurtenant thereto or to the ownership thereof, in like manner as though the Alien Property Custodian were the absolute owner thereof, subject to no limitations or restrictions other than those specifically set forth herein or in said trading-with-the-enemy act as amended or any prior Executive orders issued pursuant thereto not in conflict herewith.

Power to Issue Requirements Not Inconsistent With Licenses Granted Under the Authority of the President.

1. Whenever the Alien Property Custodian shall, after investigation, determine that any money or other property, including any going business or other undertaking, which is being held, managed, used, or employed under a license granted by the President, or in the exercise of the power and authority conferred upon the President by said trading-with-the-enemy act as amended, is owing or belonging to or held for, by, on account of, on behalf of, or for the benefit of an enemy or ally of enemy, and such license provides as one of its terms or conditions that such property shall, upon demand or requirement of the Alien Property Cus-

NAVY DEPARTMENT CONTRACTS PLACED BY BUREAU OF SUPPLIES AND ACCOUNTS

The Bureau of Supplies and Accounts of the Navy Department has placed contracts as follows:

July 12, 1918.

Lord & Burnham Co., Irvington-on-Hudson, N. Y., material for dispensary building.
Ford Motor Co., Detroit, Mich., ambulance.
Togan-Stiles Co., Grand Rapids, Mich., portable buildings.
Independent Pneumatic Tool Co., Chicago, Ill., scaling hammers.
Kemp Machinery Co., Baltimore, Md., drilling machines.
Smith-Booth Usher Co., Los Angeles, Cal., precision lathe.
D. Saunders Sons (Inc.), Yonkers, N. Y., machinery.
Landis Machine Co., Waynesboro, Pa., machinery.
The Oster Manufacturing Co., Cleveland, Ohio, machinery.
Firestone Tire & Rubber Co., Akron, Ohio, tires and tubes.
Orr & Sembower (Inc.), Reading, Pa., hoisting engine.
Goodyear Tire & Rubber Co., Akron, Ohio, airships.
Machold & Riddell, Philadelphia, Pa., pipe telescope.
Titan Metal Co., Bellefonte, Pa., brass.
Lansing Co., New York City, N. Y., trucks and dollies.
Howe Scale Co. of New York, New York City, N. Y., trucks and dollies.

July 13, 1918.

Walworth Manufacturing Co., South Boston, Mass., pipes and fittings.
Herring Hall Marvin Safe Co., Hamilton, Ohio, petty officers' safes.
York Safe & Lock Co., York, Pa., petty officers' safes.
Central Tube Co., Pittsburgh, Pa., steel conduit.

July 15, 1918.

Manning, Maxwell & Moore, New York City, N. Y., valves.

CONTRACTS AND PURCHASES APPROVED BY THE SURGEON GENERAL OF THE ARMY

The following contracts and purchases have been approved by the Surgeon General of the Army:

July 9, 1918.

C. M. Sorensen & Co., New York City, suction apparatus.
Powers-Weightman-Rosengarten Co., Philadelphia, drugs.
I. Ravich & Sons, Long Island City, N. Y., surgical cases.
R. H. Long Co., Framingham, Mass., belts for enlisted men.
Kny-Scheerer Corporation, New York City, laboratory equipment.
Eagle Pencil Co., New York City, office supplies.
Burgess Battery Co., Madison, Wis., batteries.
Boston Woven Hose & Rubber Co., Boston, blankets.
Blaisdell Pencil Co., Philadelphia, Pa., pencils.
Bausch & Lomb Optical Co., Rochester, laboratory equipment.
Madison Trading Co., New York City, drugs.
The Henkle Co., Fremont, Ohio, surgical scissors.
American Druggist Syndicate, Long Island City, cotton.
Rector Chemical Co., New York City, drugs.
E. R. Squibbs & Son (Inc.), New York City, drugs.
Bauer & Black, Chicago, cotton.
Holliston Woolen Mills, Holliston, Mass., blankets.

July 12, 1918.

J. Sklar Mfg. Co., Brooklyn, laboratory equipment.
Western Instrument Co., Chicago, laboratory equipment.
Cannon Mfg. Co., New York City, towels.
Johnson & Johnson, New Brunswick, N. J., cotton.
Pennsylvania Rubber Co., Jeannette, Pa., rubber goods.
Goodyear Tire & Rubber Co., Akron, Ohio, rubber goods.
M. Shields Co., Chicago, coconut shells.
Barley Confectionery Co., Portland, Me., coconut shells.
Lewis Bros., Newark, N. J., coconut shells.
Bradas & Gheens, Louisville, Ky., coconut shells.
Far Eastern Mfg. Co., New York City, coconut shells.
Somerville Mfg. Co., Somerville, Conn., blankets.
Mianus Mfg. Co., Coscob, Conn., blankets.
Manhattan Soap Co., New York City, foot powder.
The Durand Keering Glass Co., Vineland, N. J., drugs.
Faultless Rubber Co., Ashland, Ohio, rubber tubing.
J. Sklar Mfg. Co., Brooklyn, hammers.
The Mendleson Corporation, New York City, drugs.
Gimbel Bros. (Inc.), New York City, bath robes.
The Simmons Co., Kenosha, Wis., hospital furniture.
Austin Nichols & Co., Brooklyn, provisions.
The Dentists' Supply Co., New York City, dentist equipment.
Eastman Kodak Co., Rochester, X-ray equipment.
G. Gennert, New York City, drugs.
The Consolidated Dental Mfg. Co., New York City, dental equipment.
The S. S. White Dental Mfg. Co., Philadelphia, dental equipment.
Werner Drug & Chemical Co., Cincinnati, drugs.
F. A. Hardy Co., New York City, laboratory supplies.
Herkert & Meisel Trunk Co., St. Louis, Mo., chests.
Francis E. Myers & Bro., Ashland, Ohio, disinfectors.
B. F. Goodrich Rubber Co., Akron, Ohio, rubber goods.
Hoffman-Corr Mfg. Co., New York City, body cords.
Western Instrument Co., Chicago, Ill., hammers.
Hospital Supply Co., New York City, bed cradles.
P. Blakiston Sons & Co., Philadelphia, books.
The H. A. Metz Laboratory, New York City, drugs.
Charles Bolte, Mayville, N. Y., trays.
Sargent & Co., New York City, tools.
Bromley-Merseles Mfg. Co., Chicago, dish washers.
Fink & Schindler Co., San Francisco, chairs.
Kimble Glass Co., Vineland, N. J., syringes.

July 16, 1918.

H. K. Mulford Co., Philadelphia, drugs.
Pitman Moore Co., Indianapolis, drugs.
Sharp & Dohme, Baltimore, drugs.
Baker Caster Oil Co., New York City, drugs.
Leon Hirsch & Son, New York City, drugs.
Lafayette Pharmacal Co., Lafayette, Ind., drugs.
Heyden Chemical Co., New York City, drugs.
The Buffalo Dental Mfg. Co., Buffalo, dental equipment.
E. Machlett & Son, New York City, X-ray supplies.
Chas. F. Hindle, New York City, X-ray equipment.
American Uniform Co., New York City, aprons.
Waite & Bartlett Mfg. Co., New York City, X-ray equipment.
W. M. Sharpe Mfg. Co., Binghamton, N. Y., dental mirrors.
The Columbus Aseptic Furniture Co., Columbus, Ohio, cabinets.
Bugler & Goebel Co., Chicago, coconut shells.
The B. F. Goodrich Rubber Co., Akron, Ohio, rubber equipment.
The Cocoanut Specialty Co., Philadelphia, coconut shells.
Lion Specialty Co., Chicago, coconut shells.
American Mills Co., Waterbury, Conn., webbing.
S. Fisher & Co., Hoboken, N. J., coconut shells.
Button Machine Co., Hoboken, N. J., ivorynut shells.
Philip Wunderlee, Philadelphia, coconut shells.
Quaker City Chocolate & Confectionary Co., Philadelphia, coconut shells.
North America Button Mfg. Co., Philadelphia, ivorynut shells.
Louis Metzger & Son, Brooklyn, Brazil nut shells.
F. H. Roberts Co., Boston, Mass., coconut shells.
Kelly-Koett Mfg. Co., Covington, Ky., X-ray equipment.
Gendron Wheel Co., Toledo, Ohio, invalid chairs.
Passaic Metalware Co., Passaic, N. J., X-ray supplies.
Simmons Hardware Co., St. Louis, Mo., knapsacks.
The Goodyear Tire & Rubber Co., Akron, Ohio, face pieces.
Mallinkrodt Chemical Works, St. Louis, Mo., drugs.
McKesson & Robbins, New York City, drugs.
McCambridge & McCambridge Co., Washington, D. C., drugs.
Schaefer Alkaloid Works, Maywood, N. J., drugs.
The Sweetser Co., New York City, laboratory supplies.
Mitchell Motors Co., Racine, Wis., litter carriers.
Jefferson Distilling & Denaturing Co., New Orleans, alcohol.
American Camphor Refining Co., Boston, drugs.
Parke Davis & Co., Detroit, Mich, drugs.

ENGINEER DEPOT NOTICE.

GENERAL ENGINEER DEPOT,
U. S. ARMY,
July 17, 1918.

Referring to Circular Proposal No. 1028, calling for pinch bars, opening July 26, kindly note the following change:

Item 33. Pinch bars, large, specification to be changed to read:

"Pinch point, solid steel, 4 ft. 8 in. long, weight 12 lbs.; of bar steel having not less than 1.1 carbon; type No. 31, Verona Tool Works, Catalog No. 11."

EARL WHEELER.
Lt. Col., Engineers, N. A.

EXECUTIVE ORDER ON POWERS OF ALIEN PROPERTY CUSTODIAN

(Continued from page 13.)

todian, be conveyed, transferred, assigned, delivered, and/or paid over to him, the Alien Property Custodian may, without the revocation of such license, require that said money or other property or any part or parcel thereof be conveyed, transferred, assigned, delivered, or paid over to him; subject, however, to the continued exercise of such license, but under his supervision or under such other supervision as he may prescribe, and for such period of time or until the happening of such event as he shall prescribe.

Whenever such money or property or any part thereof, at the time such requirement is made, shall be used or employed in or about the conduct or management of any mine, plant, factory, railroad, or other transportation facility, warehouse, mercantile or trading establishment, or any sort of a going business or undertaking, the Alien Property Custodian may require that such money or other property and/or the proceeds from the conduct or management of such business be conveyed, transferred, assigned, delivered, or paid over to him, subject to the continued exercise of such license and the continued conduct or management of such business or other undertaking as above provided; and he may leave all or such part of the money or other property of such business or other undertaking in the possession of the licensee or the agent or representative of the licensee to be used, disposed of, and accounted for, in the continued exercise of such license. Any requirement made by the Alien Property Custodian pursuant to the provisions hereof shall be subject to modification or change by him at any time prior to the final compliance therewith. Any of such property other than money, including any such going business or undertaking, may be advertised and sold by the Alien Property Custodian, subject to the exercise of any such license, but for the account of the Alien Property Custodian or for the account of the purchaser as the Alien Property Custodian may determine; and until the purchaser of such property shall be placed in the possession thereof or during such other period as the Alien Property Custodian may determine.

Effect Upon the Statutory Powers of the Alien Property Custodian and Upon Prior Executive Orders.

1. Nothing herein contained shall limit or shall be construed to limit in any way the rights, powers and authority conferred upon the Alien Property Custodian by the trading-with-the-enemy act and the amendments thereto and the Executive orders heretofore issued pursuant thereto.

2. All Executive orders heretofore made are amended and modified hereby to such an extent as may be necessary to conform with the provisions hereof; but with this exception, all of such orders in force and effect at the time this order is issued are expressly ratified and continued in full force and effect.

WOODROW WILSON.

THE WHITE HOUSE,
July 16, 1918.

FOOD MERCHANTS DISCIPLINED FOR VIOLATING REGULATIONS

The Food Administration authorizes the following:

The Food Administration announces that last week two merchants had their licenses to deal in foodstuffs revoked, while several others were suspended for a month or more for violations of Food Administration rules.

Charles Pedersen, of Kimball, Nebr., violated the substitute rule and his place has been closed, effective July 15.

New Mexico Company Loses License.

The Herstein Seed Co., of Clayton, N. Mex., lost its license for unfair practices in regard to the purchase and distribution of pinto beans. The order applies also to the stores at Estancia, N. Mex., and at Greeley, Colo., and became effective July 9.

David Gartzman, a baker, of 215 Vine Street, Philadelphia, Pa., has been deprived of his license until September 13 for having an excessive amount of flour on hand, improper storage of flour, and the insufficient use of substitutes.

Has License Suspended.

The North Adams (Mass.) Flour & Grain Co. has had its license revoked until September 15 for selling flour without a proper amount of substitutes.

The Butler Coal & Grain Co., of Adams, Mass., lost its license for one month, effective July 15, for selling flour in too great quantities and with insufficient substitutes.

Krall Bros., of Carnegie, Pa., lost their license for one month, effective July 15, for selling flour with insufficient substitutes, having more than a 30-day supply on hand, failing to make reports, and failing to appear at hearing.

Firm Elects to Close Doors.

The firm of J. Kulla Company, 2 Stone Street, New York City, which was given the option of making a $25,000 donation to the Red Cross or going out of business for violation of the Food Administration rules, has elected to close its doors. The order became effective July 17.

This company, which is a large wholesaler and jobber in wheat and rye flour, was found guilty of selling flour and substitutes at an excessive profit and making sales of flour without substitutes. In one month it was proved that three-fourths of the company's transactions were at an excessive profit and other months almost as bad. In some cases the rule requiring substitutes was ignored.

The Federal Food Board of New York reviewed the case in full and came to the conclusion that if the firm would make the Red Cross donation, which approximated the amount of the illegal profits made, that it could continue in business. Otherwise the firm would have to dissolve and the business cease entirely. Kulla declined to make the donation, electing to go out of business.

Flour Dealers Assessed $10,000.

The Food Administration has permitted Samuel Eckstein, of 449 East One hundred and twenty-third Street, New York City, to make a contribution of $10,000 to the Red Cross in lieu of a permanent revocation of his license for profiteering. This contribution is an estimated return to the public of the excess profits made.

It was proved that Eckstein had made as high as $1.90 a barrel on flour, that he had violated the substitute rule, and had made sales to unlicensed dealers. He admitted familiarity with Government regulations but said that it was impossible for a dealer like him to obey the regulations.

Digest of Opinions Recently Rendered by Judge Advocate General of the Army

Expenses of Civil Officer.

As a general rule, where civil officers have been requested by the military authorities to arrest and deliver soldiers absent without leave, and they perform the services in good faith, they will be entitled to reimbursement of their necessary expenses, which payment may be made from the appropriation "Contingencies of the Army" (40 Stat., 40) upon the approval and authority of the Secretary of War. No payment for services of the civil officer can be made from this appropriation. In all such cases, in view of the absence of any general authority for incurring such expenses on behalf of the Government, it is recommended that the War Department ascertain whether the officer requesting such services acted under authority of his division or department commander, and, if he did not, that he be required to reimburse the Government unless he can show that the circumstances were exceptional and urgent, and that it was not practicable to obtain such authority in advance.

(Ops. J. A. G. 251, Mar. 6, and 250.7, Mar. 29, 1918.)

Citizenship of American Born.

A man who was born in this country, though of German parents, is a natural-born citizen of the United States. (United States Constitution, fourteenth amendment.) Such person had a double allegiance by birth, but his permanent residence in the United States after attaining his majority indicates an election of United States citizenship. Thus, the American view is that he was an American citizen originally and that he has now no other citizenship (3 Moore's Dig. Int. Law, 532–539). Furthermore, it is probable that his residence in this country for 10 years prior to January 1, 1914, resulted in a loss of German citizenship according to the German view. (North German law of June 1, 1870, sec. 21; German imperial citizenship law of July 22, 1913, sec. 31.)

(Ops. J. A. G. 014.33, Mar. 23, 1918.)

Rights of Allied Armies.

Officers and enlisted men of the allied armies on duty as instructors with United States troops in this country are, by Bulletin No. 68, W. D., Dec. 3, 1917, issued pursuant to the authority of the act of October 6, 1917 (40 Stat., 345, 361), entitled to per diem allowances in lieu of subsistence and lodgings and to reimbursement of traveling expenses at rates therein provided. In fixing these rates of allowances it evidently was not contemplated that such persons would have the privilege of purchasing subsistence supplies from the Quartermaster Corps, and in the absence of a real necessity therefor such sales would not be legally justified. (Ops. J. A. G. 400.32, Mar. 19, 1918.)

Ticket Tax and Foreign Soldiers.

Under the urgency deficiency act of October 6, 1917 (40 Stat., 345, 361), the expenses of travel incurred by officers and enlisted men of foreign armies attached to the Army of the United States during the present emergency are payable from the appropriation for "Transportation of the Army" (40 Stat., 345, 361). Their services, therefore, are rendered to the United States within the meaning of section 502 of the internal-revenue act (40 Stat., 300, 315); accordingly such expenses of travel are exempt from the tax imposed by section 500 of the said internal-revenue act. An officer of a foreign army on such a duty may therefore sign a certificate similar to that of an officer or employee of the United States in respect to the expenses of such travel. (Ops. J. A. G. 012.1, Mar. 12, 1918.)

Expenses of Escorts for Funerals.

Under existing law and the custom of the service there is no authority for the expenditure of Government funds for expenses of military escorts, firing parties, buglers, and pallbearers, detailed from Army posts or camps for funerals of enlisted men of the National Guard and National Army who have died in the service and whose bodies have been sent home for internment, unless in a specific instance directed by the Secretary of War; but Government transportation may be used for this purpose whenever it is practicable to do so. (Ops. J. A. G. 293.3, Mar. 22, 1918.)

Status of Contract Surgeon.

A contract surgeon is not a military officer and has no military rank; he is not a part of the Military Establishment but is merely a civilian in the employ of the United States by contract for his personal services as a medical attendant to the troops. (Dig. Ops. J. A. G. 97.) Accordingly he is not entitled to the benefits of the war-risk insurance act of October 6, 1917 (40 Stat., 398); nor is he an officer within the meaning of section 9 of the selective draft act of May 18, 1917 (40 Stat., 76), authorizing the examination of officers by boards appointed to determine their fitness for service.

(Ops. J. A. G. 211.26, Mar. 7, 1918.)

Office of Notary Public.

A noncommissioned officer may accept and hold the office of notary public, provided that his performance of the functions thereof does not interfere with his military duties.

(Ops. J. A. G. 220.4, Mar. 21, 1918.)

NEW DRAFT AGE LIMITS WILL BE RECOMMENDED BY SECRETARY OF WAR WHEN CONGRESS MEETS

WILL ASK LARGER APPROPRIATIONS

Baseball Hearing To-day on Question of What Groups Should Be Included in Recent Order—Mr. Baker Explains Situation With Regard to Brigading of American Troops.

Daily press interview given by the Secretary of War July 23, 1918:

"I understand the baseball question is to be argued before General Crowder tomorrow; he is going to have representatives of the industry before him, and I am going to confer with him after he gets through. I will make the decision. Apparently there are two theories; one group wants to have the order modified so as to provide that it shall not affect anybody automatically, and that the order shall not apply to a man until he has been notified by the local board; and the other group wants a modification of the order providing that it shall not go into effect until the end of the present season. In the opinion which I gave out I said that the likelihood was that the number of men affected would not be enough to disorganize the industry, and I understand they are collecting data as to the number of men who would be affected, showing that it will completely disorganize the industry.

"I am having the Provost Marshal General study the question as to what groups should be included under the order.

Draft-Age Modification.

"When Congress reconvenes I shall present a plan which will involve increased appropriations, modifications of the draft age, and somewhat larger mobilization of our military forces. The question as to the draft age limits is being studied to determine how we can get the necessary number of men with the least interference with the industry of the country. I will recommend definite age limits."

"With regard to the brigading of our troops with the British, the situation is simple. The purpose of brigading with

PRESIDENT WILSON'S PROCLAMATION TAKING OVER CONTROL OF ALL WIRES, TELEGRAPH, TELEPHONE, AND CABLE

Three Named as Committee By the Postmaster General To Assist in Management of U. S. Controlled Wires

TELEGRAPH AND TELEPHONE SERVICE,
Washington, D. C., July 23, 1918.

Bulletin No. 1.

Postmaster General Burleson to-day issued the following order for the governmental control of the telegraph and telephone systems covered by the proclamation of the President dated July 22, 1918.

"John C. Koons, First Assistant Postmaster General; David J. Lewis, commissioner, United States Tariff Commission; and William H. Lamar, solicitor for the Post Office Department, are hereby appointed a committee for the governmental management, operation, and control of the telegraph and telephone systems covered by the proclamation of the President dated July 22, 1918, of which committee the Postmaster General shall be chairman."

In announcing the appointment of this committee the Postmaster General stated that while the committee would have charge of the governmental management, operation, and control of the telegraph and telephone systems, yet it would be necessary to divide the work to a certain extent and that Mr. Koons and the Postmaster General would have charge of the administration and organization of the service, Mr. Lewis and the Postmaster General of its operation, and Mr. Lamar and the Postmaster General of the finances.

German Language Barred by the Censorship Board in Letters Leaving U. S.

The following resolutions have been passed by the Censorship Board:

"Be it resolved that all outgoing communications in the German language, subject to the United States Censorship, shall not be passed by the United States Censorship, with

POSTMASTER GENERAL NAMED AS DIRECTOR

Government Possession and Operation Under Mr. Burleson to Begin at Midnight, July 31st—Present Officers and Employees to Be Continued Until Otherwise Ordered—Company Finances to Be Protected.

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA.

A PROCLAMATION.

Whereas the Congress of the United States, in the exercise of the constitutional authority vested in them, by joint resolution of the Senate and House of Representatives, bearing date July 16, 1918, resolved:

That the President, during the continuance of the present war, is authorized and empowered, whenever he shall deem it necessary for the national security or defense, to supervise or to take possession and assume control of any telegraph, telephone, marine cable, or radio system or systems, or any part thereof, and to operate the same in such manner as may be needful or desirable for the duration of the war, which supervision, possession, control, or operation shall not extend beyond the date of the proclamation by the President of the exchange of ratifications of the treaty of peace: Provided, that just compensation shall be made for such supervision, possession, control, or operation, to be determined by the President; and if the amount thereof, so determined by the President, is unsatisfactory to the person entitled to receive the same, such person shall be paid 75 per centum of the amount so determined by the President and shall be entitled to sue the United States to recover such further sum as, added to said 75 per centum, will make up such amount as will be just compensation therefor, in the manner provided for by section 24, paragraph 20, and section 145 of the Judicial Code: Provided further, that nothing in this act shall be construed to amend, repeal, impair, or affect existing laws or powers of the States in relation to taxation or the lawful police regulations of the sev-

eral States, except wherein such laws, powers, or regulations may affect the transmission of Government communications or the issue of stocks and bonds by such system or systems.

And whereas it is deemed necessary for the national security and defense to supervise and to take possession and assume control of all telegraph and telephone systems and to operate the same in such manner as may be needful or desirable;

Now, therefore, I, Woodrow Wilson, President of the United States, under and by virtue of the powers vested in me by the foregoing resolution, and by virtue of all other powers thereto me enabling, do hereby take possession and assume control and supervision of each and every telegraph and telephone system, and every part thereof, within the jurisdiction of the United States, including all equipment thereof and appurtenances thereto whatsoever and all materials and supplies.

It is hereby directed that the supervision, possession, control, and operation of such telegraph and telephone systems hereby by me undertaken shall be exercised by and through the Postmaster General, Albert S. Burleson. Said Postmaster General may perform the duties hereby and hereunder imposed upon him, so long and to such extent and in such manner as he shall determine, through the owners, managers, boards of directors, receivers, officers, and employees of said telegraph and telephone systems.

Until and except so far as said Postmaster General shall from time to time by general or special orders otherwise provide, the owners, managers, boards of directors, receivers, officers and employees of the various telegraph and telephone systems shall continue the operation thereof in the usual and ordinary course of the business of said systems, in the names of their respective companies, associations, organizations, owners, or managers, as the case may be.

Regular dividends hitherto declared, and maturing interest upon bonds, debentures, and other obligations may be paid in due course; and such regular dividends and interest may continue to be paid until and unless the said Postmaster General shall, from time to time, otherwise by general or special orders determine, and, subject to the approval of said Postmaster General, the various telegraph and telephone systems may determine upon and arrange for the renewal and extension of maturing obligations.

By subsequent order of said Postmaster General supervision. possession, control, or operation, may be relinquished in whole or in part to the owners thereof of any telegraph or telephone system or any part thereof supervision, possession, control, or operation of which is hereby assumed or which may be subsequently assumed in whole or in part hereunder.

From and after 12 o'clock midnight on the 31st day of July, 1918, all telegraph and telephone systems included in this order and proclamation shall conclusively be deemed within the possession and control and under the supervision of said Postmaster General without further act or notice.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done by the President, in the District of Columbia, this 22d day of July, in the year of our Lord 1918, and of the independence of the United States the 143d.

[SEAL.] WOODROW WILSON.

By the President:
FRANK L. POLK,
Acting Secretary of State.

STATEMENT BY MR. BURLESON CONCERNING U. S. WIRE CONTROL

Outlines Steps to be Taken to Improve the Telegraph and Telephone Service.

Postmaster General Burleson has issued the following statement:

I realize the immensity of the task which has been entrusted to me by the President's order. The telegraph and telephone service as conducted by those who have had the responsibility under conditions heretofore existing has been remarkably successful considering the unusual additions to their task and the unprecedented difficulties in the way of its full performance which have arisen out of the war—difficulties which could be overcome only by a unity of administration, particularly a unification of the use of the telephone and telegraph lines, which could not be realized without the aid of the Government.

Opportunities Under New Order.

Under the President's order conditions are changed and greater opportunity is afforded to effect improvements and economies and a larger use by the people of these facilities which have become an imperative need in their everyday life. Whether advantage can be taken of these opportunities to improve this service to the public remains to be disclosed by experience. Every effort of the department will be directed to the accomplishment of this end. It will be the purpose of the Post Office Department to broaden the use of the service at the least cost to the people, keeping in mind that a high standard of efficiency must be maintained. I shall avail myself of an early opportunity to consult with those who have heretofore had the responsibility of directing the affairs of the various wire systems taken over and I doubt not will be greatly benefited by suggestions they may be kind enough to offer me. The operation or control of what are commonly called farmers' telephone lines will be interfered with only for the purpose of facilitating their connections with the longer lines. There will be no change affecting the press wire service except to improve it wherever possible.

Survey of General Situation.

Of course, no general policy has been decided upon and will not be until a most careful survey of the whole situation is had and a grasp of conditions as they now exist secured. I shall freely avail myself of all advice and suggestions which those in a position to make same valuable may be good enough to offer me.

Whenever it is necessary to inaugurate any changes of policy announcement of such will be made through the Postmaster General.

A. S. BURLESON,
Postmaster General.

LISTS OF SHOPS DISCRIMINATING AGAINST SOLDIERS TO BE POSTED

Secretary Baker Says Some Dealers Charge Civilians One Price and Army Men Another.

The Secretary of War has made the following statement:

My attention having been called to instances of discrimination against soldiers in the prices charged in retail stores, I directed a Nation-wide inquiry into this subject, with the following results:

At most places no discrimination was found. At many points there is a more or less marked tendency to give discounts to soldiers. Instances of discrimination were found, though, as a rule, not among the best class of dealers. Apparently the most frequent discriminations occur in articles of necessity for officers.

Two Sets of Prices.

The results of the examination which are before me show identical articles sold to civilians at one price and to soldiers at a higher price, the differences sometimes being as great as 50 per cent against the soldier.

Conduct of this kind can not continue, I think, in any community in this country, if brought to the attention of the people there. I have accordingly directed by general order each camp and post commander in the United States to cause from time to time fresh examinations into this matter, and to post on the bulletin board for the information of all soldiers the names of such shops and dealers as are found discriminating against soldiers and officers; and to hand to the president of the chamber of commerce in each city, and to the editors of the local newspapers, copies of such lists.

NEW DRAFT AGE LIMITS.

(Continued from page 1.)

the British and French is for training, and the understanding with both the British and the French is that the question as to when the men are adequately trained and are to be returned to Gen. Pershing is left with Gen. Pershing. A very large number of men who have been brigaded with the British have been returned to Gen. Pershing, and others taken over later are brigaded with the British now, so that two or three sets of men have been through the brigading process. While with the British they are a part of the British combatant forces."

Battle Situation Good.

"We have nothing later than the newspaper dispatches of this morning, but the official dispatches confirm the newspaper reports. The situation is generally good and the progress of the attack is satisfactory; we are taking more and more territory all the time. We have confirmation of an attack having taken place in the Montdidier sector."

POSITION OF THE ALLIED ARMIES DUE TO COUNTER DRIVE BY GENERAL FOCH OUTLINED BY GEN. MARCH

CROSSING OF MARNE

Retreat Protected by Smoke Clouds and Under Cover of Night—Position Made Untenable as Soon as Rail Communication Was Threatened — Six New American Divisions To Be Organized.

Press interview by Gen. March July 24, 1918:

At the request of the newspaper men I am going to have a conference on Wednesdays and Saturdays hereafter while this drive is on.

On Saturday I called your attention to the importance of the railroad system in the salient which was under discussion as influencing the position of the Germans south of the Marne, and while I was talking the Germans were actually withdrawing from that salient across the Marne. Our official accounts indicate that he retreated from this position protected by smoke clouds, and continued his passage at night across the stream as soon as the line of railroad which furnished him with supplies, food, etc., was apparently destined to fall into our hands.

Marne and Rheims Salient.

Along the salient here, between the Marne and Rheims, on the east flank of the salient, the enemy has been pushed back over a 10-mile front for an average distance of 1½ to 2 miles. This has been done by British, French, and Italian troops through a very wooded country, and over high ground, reaching up something like perhaps 500 feet above the streams.

Along the Marne itself the Americans and French have crossed the river at a number of points, and now hold villages to the north of the Marne.

The response of the Germans to the counter-offensive of Foch was to throw in at Soissons and south of it, a large number of reserve divisions which he had not used in his advance across the Marne. Our belief is that he threw in there 15 divisions, and the advance of the allies at that point has been practically stopped for the last two days as far as our official information goes.

Looking at the larger-scale map, the railroad running from Soissons to Chateau Thierry is now either in our hands or under our fire. The only way in which the enemy can get out now, or get supplies over railroad, is shown by the remaining line running from Nanteuil on the Ourcq to Bazoches on the River Vesle. He may have constructed in addition to that in and along the valleys, small temporary field railroads, military roads, which would be of advantage in handling supplies, but his main line of retreat must be along that main railroad. That is the only way he can get out large matériel. It will be observed that it was necessary for him, if he did not intend to be caught absolutely in a pocket, to keep troops from advancing and cutting off this road which would put him entirely at the mercy of the allied forces.

Compared to Piave Crossing.

It is very interesting to note in connection with this entire movement the similarity between the Austrian advance across the Piave. The enemy having once gotten committed to it, the floods came and rendered further bringing up of supplies difficult and his retreat still more difficult, and in the instance of the counter offensive the storm, of which you have read, concealed the movement of our tanks and made the enemy practically unaware of what was going on. It seems that the Lord has gotten tired of the alleged partnership of Me und Gott.

The total area in the Marne salient lost by the enemy during the past week is about equal to the area gained by him in the drive in Flanders last April.

The small attack by the French, alluded to in their communique as a local affair north of Montdidier, is not of essential importance with reference to the entire game, but it keeps the Germans guessing just the same.

During this entire counter-offensive the American divisions which I have told you about before have been constantly engaged and were still engaged at our last official accounts.

Six New American Divisions.

With reference to the American program, I have directed to be organized in the United States six new divisions in the month of July. These six divisions will be organized at Camps Devens, Meade, Sheridan, Custer, Funston, and Lewis, and will be numerically designated from 9 up to 14. In the organization of these divisions we intend to use as a nucleus in each one of them two Regular regiments of infantry which have been taken from the Regular regiments still left in the United States guarding utilities, quietly replacing them during the last month or two by Home Guards. These regiments are now moving into the designated camps as the National Army moves out, and the divisions will be an increase to the American forces. The remaining elements of these divisions will be formed by National Army drafted men.

One of the correspondents has asked if I can tell what the 28th Division is doing. I will state that the present location of that division is unknown, but of course in an offensive like that where everybody is fighting the commanding general uses the American troops, with the French, whenever he needs to.

2,000,000,000 Mark Passed in Manufacture of Cartridges, While 1,886,769 Rifles and 82,540 Machine Guns Have Been Produced

The War Department authorizes the following statement from the Ordnance Department:

The United States has passed the two-billion mark in the manufacture of small-arms ammunition.

Since this country entered the war, and up to and including July 19, 1918, the total output of cartridges for rifles, pistols, revolvers, and machine guns, inspected and accepted, was 2,014,815,584. The daily average output is approximately 15,000,000. The maximum number inspected and accepted in a single day was 29,466,000 on July 5.

The latest figures available on the production of small arms, including rifles, pistols, revolvers, and machine guns, inspected and accepted, are up to and including July 13, 1918. They show:

Total number of rifles of all types	**1,886,769**
Total number of pistols, Model 1917	**217,000**
Total number of revolvers, Model 1917	**169,367**

The total number of rifles given does not include the 600,000 Springfield rifles which the Government had at the outset of the war, nor does it include the thousands of complete rifles represented by the spare parts manufactured. It does include 1,417,284 rifles of the U. S. Model, 1917 type, and 280,049 Russian rifles taken over by this Government.

The production of rifles for the week ending July 13 was 54,211, inspected and accepted; pistols, 8,700; revolvers, 6,104.

Figures for machine guns show a total number manufactured, inspected, and accepted, up to and including the week of July 13, 1918, of 82,540. The total production of all types during that week was 6,681, or 1,564 in excess of the previous week's production.

Production of Browning machine guns since we entered the war has amounted to 10,204 light Brownings and 5,959 heavy. During the week ending July 13 the production was 2,018 light Brownings and 1,075 heavy. In both instances the numbers represent machine guns actually inspected and accepted.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor*.

RATES BY MAIL.

Daily	One year	$5.00

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

COMPARISON OF FOOD PRICES PREVAILING IN FIFTY CITIES

The Department of Labor authorizes the following:

Retail prices are compiled by the Bureau of Labor Statistics for the following fifty cities—Atlanta, Baltimore, Birmingham, Boston, Bridgeport, Buffalo, Butte, Charleston, Chicago, Cincinnati, Cleveland, Columbus, Dallas, Denver, Detroit, Fall River, Houston, Indianapolis, Jacksonville, Kansas City, Little Rock, Los Angeles, Louisville, Manchester, Memphis, Milwaukee, Minneapolis, Mobile, Newark, New Haven, New Orleans, New York, Norfolk, Omaha, Peoria, Philadelphia, Pittsburgh, Portland, Me., Portland, Oreg., Providence, Richmond, Rochester, St. Louis, St. Paul, Salt Lake City, San Francisco, Scranton, Seattle, Springfield, Washington.

Comparisons With Washington.

A comparison of the prices on June 15 in these 50 cities with those in Washington shows that 27 cities had higher prices on sliced bacon; 22 cities were higher for American cheese and one city had the same price; 20 cities were higher for eggs; 15 cities were higher for milk and three had the same price; 26 were higher for bread and five had the same price; 37 were higher for flour; 36 were higher for cornmeal; and 35 were higher for sugar than Washington.

Pledge yourself to save to the utmost and to buy a definite amount of war-savings stamps each month.

American Communique

The following is authorized by the Secretary of War:

American Official Communique No. 70.

HEADQUARTERS AMERICAN EXPEDITIONARY FORCES,
July 23, 1918.

Section A.—South of the Ourcq troops have continued to press the retreating enemy. Our units crossing the Marne have gained possession of Jaulgonne and the woods to the west.

Section B.—In Lorraine a hostile raiding party was repulsed by our troops during the night, July 22–23.

In the Thann sector, on July 20, our troops carried out a successful raid on the enemys' lines, capturing several prisoners. On the same day one of our patrols in the St. Die sector entered a German trench and killed several of the enemy.

MR. STETTINIUS AND STAFF IN EUROPE FOR WAR DUTIES

The Secretary of War authorizes the following:

Edward R. Stettinius, Second Assistant Secretary of War, has arrived in Europe, accompanied by a numerous staff. Mr. Stettinius's visit to France is for a variety of purposes and covers a large field; as the size of our Army in France has increased its business and industrial operations have expanded, and it has become necessary to install similar statistical and accounting methods on both sides, in order that complete cooperation may be possible. He will make a general survey of the services of supply, including all matters of accounting, requisition, and finance. He will also represent the interests of the War Department in the conferences of the Munitions Council, the general industrial interests of the United States being represented by the War Industries Board.

The length of Mr. Stettinius's stay in Europe is indefinite.

Mr. Perkins Assistant Secretary.

Thomas Nelson Perkins was to-day appointed an assistant to the Secretary of War in matters of purchase and supply for all bureaus of the War Department, to act during the absence of Edward R. Stettinius.

Thomas Nelson Perkins, born Milton, Mass., May 6, 1870; Harvard College A. B. 1891; Harvard Law School 1894; lawyer, firm Ropers, Gray, Boyden & Perkins, 60 State Street, Boston; fellow of Harvard College; came to Washington in October, 1917, as counsel for the War Industries Board; went abroad almost immediately with Col. House as a representative of the War Industries Board; was made member of priority committee while abroad; returned to the United States December 15, 1917; when Mr. Stettinius was appointed surveyor general of supplies Mr. Perkins joined him and has continued to be associated with him since his appointment as Second Assistant Secretary of War.

URGES CHRISTMAS GIFTS BE IN WAR STAMPS THIS YEAR

Defense Council's Suggestion to Economize in Labor, Material and Transportation.

The Council of National Defense authorizes the following:

On June 24 the Council of National Defense made the following statement:

"The Council of National Defense and Advisory Commission have received inquiries as to the attitude of the Government toward Christmas buying. Manufacturers and merchants are desirous to be advised at this time in order intelligently to plan for their Christmas stocks. Therefore, the Council and Advisory Commision now announces that it is their belief that Christmas giving which involves the purchase of gifts should be discouraged as relieving to that extent the present heavy burden placed upon labor, transportation, and other resources of the Nation, and also as being in harmony with the previous announcement of the Council and Advisory Commission urging thrift and economy upon the country."

Policy Further Elucidated.

This resolution was communicated to the State councils of defense by the Council of National Defense, with the request that it be brought to the attention of manufacturers and merchants in order that they might plan their Christmas stocks with full knowledge of the recommendations of the Government.

A number of requests for further information have been received by the Council of National Defense and the several State councils of defense. The following explanatory statement is now authorized:

The policy of the Council of National Defense has been determined upon as a necessary measure of economy. It was adopted for the sake of saving the labor and materials which usually go into the manufacture of Christmas gifts, the labor required to handle the Christmas rush in retail stores, and the transportation facilities of the Nation—railroads, express companies, and mails. Labor, materials, and transportation facilities must all be conserved this year for war purposes.

Labor in War Channels.

The labor which ordinarily goes into the manufacture or sale of Christmas articles can be utilized in munition plants, shipyards, and other forms of war work; and no shipment of munitions or war supplies should be delayed because the railroads, the express, or the mails are congested with Christmas packages. The suggestion of the Government involves far-reaching modifications in our Christmas customs, but the Council of National Defense believes that the people of the country will be glad to aid in a necessary national economy.

It is recommended that families who are in the habit of giving each other Christmas gifts shall this year put into the purchase of war savings stamps or Government bonds or into the support of war charities the amount of money which usually they collectively spend on their presents.

WORK OF CONGRESS BRIEFLY TOLD

The House Ways and Means Committee yesterday spent considerable time discussing corporate incomes with three proposals before it. Subsequently it was stated that while no final conclusions were reached the majority of the committee apparently favored increasing the net income tax on corporations from the present 6 per cent to 18 per cent, with a proviso that on the amount distributed to shareholders, only 12 per cent should be levied. At the conclusion of yesterday afternoon's session of the committee Chairman Kitchin issued the following statement:

"The committee had under discussion the income tax on corporations, discussing practically all day the rates.

"The followng rates were suggested and dscussed:

"1. Twenty per cent on the net income of corporations, with a proviso that on the amount distributed to shareholders only 10 per cent should be levied.

"2. Eighteen per cent on the net income of corporations, with a proviso that on the amount distributed to shareholders only 12 per cent should be levied.

"The following rates were also suggested:

"A flat rate of 15 per cent on the net income, and a flat rate of 12 per cent on the net income.

"While no definite decision was reached, it seemed that a majority of the committee favors the proposition of the 18 per cent rate on the net income, with the reduction to 12 per cent on the amount distributed to shareholders."

ONLY 8 OF SAN DIEGO'S CREW MISSING OR UNACCOUNTED FOR

The Navy Department authorizes the following:

According to the latest information received all but eight of the men of the U. S. S. *San Diego* who were reported missing or on leave have been accounted for and are now known to have been rescued. Further reports are expected to show that several, if not all, of the eight still not finally accounted for have been saved. These are:

Clyde Blaine, engineman, second class. Stepmother, Mrs. Bertha Blaine, Lomita, Cal.

George W. Farrin, seaman. Mother, Mrs. Rebecca J. Farrin, Akron, Iowa.

Leon Goodnow, seaman, second class. Father, Charles Goodnow, 29 North Street, Fairport, N. Y.

Wilfred Larson, seaman. Sister, Mrs. Art Stapley, Hammoth, Utah.

Henry H. Law, landsman for yeoman. Mother, Mrs. Catherine Law, 5 Woodcrest Avenue, White Plains, N. Y.

Andrew Munson, machinist's mate, second class. Mother, Mrs. Karna Munson, 446 Maria Avenue, St. Paul, Minn.

Silas Waters, fireman, third class. Mother, Mrs. Florence Waters, R. F. D., Route 6, Gainesville, Ga.

James E. Compton, coxswain. Mother, Mrs. Minnie Compton, R. F. D., Route No. 6, San Jose, Cal.

Only three, as previously reported, are known to have been killed by the explosion:

Thomas E. Davis, fireman, first class. Mother, Mrs. Alma Davis, South Mansfield, La.

James F. Rochet, engineman, second class. Next of kin, Mrs. C. H. Dean, Blue Lake, Cal.

Frazier O. Thomas, machinist's mate, second class. Father, Lochard A. Thomas, Charlestown, W. Va.

FRENCH MINISTER ACTS TO STOP HIGH PRICES FOR COMMODITIES CHARGED TO AMERICAN SOLDIERS

THE War Department authorizes publication of the following bulletin issued by the commanding general of the American Expeditionary Forces:

"The following is published for the information and guidance of all concerned:

Circular to French Prefects.

"The French minister of agriculture and supplies has sent to the prefects of France the following circular:

"'From various sources my attention has been called to the action of certain storekeepers, who, profiting by the presence of American and British troops on our territory, sell them goods at excessive prices and in all cases greater than that paid by the French consumers.

"'I can not condemn too greatly such a procedure, as it is in complete opposition to the spirit which should exist between allies.

"'Let us not forget that for the same ideal and with the same effort the armies of our allies of Europe and America are marching with ours to dispute, foot by foot, the aggressions of the enemy on the soil of our invaded regions.

"'Undoubtedly I realize that some of the increases in prices may be explained, at least in part, by the difficulties of our retailers in getting provisions and the work of our small producers. But these reasons can not justify the asking of higher prices to men who are united to us by the fraternity of arms on the battle fields of France.

"'The Government is therefore resolved to put a stop to these regrettable practices. Consequently, you are invited, after having reminded those concerned of the considerations above mentioned, to see that all persons guilty of such acts are delivered to justice to be tried by the application of the law of April 20, 1916, on illegal increasing of prices.'

Gen. Pershing's Order.

"2. The above indicates clearly the attitude of the French Government as regards the treatment it desires accorded in the matter of prices to the officers and soldiers of the American Expeditionary Forces by French dealers. Officers and soldiers of all units will familiarize themselves with a list of current prices and take the necessary steps to see that the spirit of these regulations is carried out. Effective results can be obtained only through cooperation with the local French authorities. Cases of overcharging should be reported to the local American assistant provost marshal, whose duty it shall be to make report of same to the proper French authority. Attention is specially directed to the fact that failure to follow these instructions will result in a general rise in prices, affecting directly not only members of the American Expeditionary Forces, but also the French civilian population.

"3. The question of prices for official purchases is published in General Orders from General Headquarters, American Expeditionary Forces, and Headquarters Service of Supply, American Expeditionary Forces."

To Preserve War Films in Fireproof Vaults of a Special Design Erected in Washington

The War Department authorizes the following statement:

To safeguard the valuable collection of photographic negatives and the thousands of feet of moving-picture films of the present war, the War Department has authorized the building in Washington of fireproof storage vaults.

Under the direction of the historical division of the General Staff thousands of still and moving pictures have been taken, both in this country and in Europe, for the purpose of historical record. These have been stored in various places in Washington, because heretofore no suitable place had been provided for their safe-keeping. As thousands of dollars have already been spent in making the negatives and many more thousands of pictures are yet to be taken, the need for fireproof storage became more manifest.

The vaults will be located in one building, but between each vault there will be built fireproof walls. The doors of the vaults will also be fireproof. For the proper preservation of the negatives, the vaults will be so constructed that ventilation and a fairly even temperature will be maintained.

GERMAN LANGUAGE BARRED.

(Continued from page 1.)

the exception of the mail of enemy prisoners of war.

"Be it resolved that on and after August 15, 1918, removal by cutting will be the only authorized form of deletion used by the United States Censorship."

Give our boys in the Army and Navy every fighting chance. Pledge yourself to save to the utmost of your ability and to buy war-savings stamps.

"THIS IS YOUR WAR, BEGIN IT NOW," URGES PROVOST MARSHAL GENERAL IN ADDRESS TO CLASS 1 DRAFT MEN

Provost Marshal General Crowder has issued the following address to class 1 selective service men:

You have been selected by the Congress of the Nation and by the board of your own community to fill the ranks of our National Army. Your appointed task is to defend our country from the force and fraud of a ruthless enemy. Begin now!

Your call to arms is coming in due season. But in the meantime your very selection by the boards of your community marks you as possessing already a privilege and a duty. You are not only to bear arms when the time comes. You are to prepare to be worthy and capable. Begin now!

Think it Over and Act.

The more you think now about the things which a true soldier must know the more competent and satisfied you will be when the actual call arrives. What do you know of a soldier's daily duties? What do you know of an army's organization? What do you know of the work and the science of its several branches—Infantry, Cavalry, Artillery, Signal, Quartermaster, Ordnance, and the rest? What do you know of the weapons, the tools, and the materials that each of them uses? What do you know of the geography of the great battle field of Europe? What do you know of the nations arrayed for and against us? How intelligent are you as to the causes and objects of this war? Do you realize that as a good soldier you have much to learn, and that the sooner you learn it the better a soldier you will be when you arrive in camp? Begin now!

Get Acquainted With Comrades.

Do you know the men of this town and county that are to join the ranks with you? Have you reflected that the greatest friendship that one man ever has for another in this world is the friendship that grows up between those who have fought side by side? Have you realized that all of you, here in this county, now form a picked band of brothers in arms, destined to see each other through, in many a crisis, in the days to come? Have you made a start of these friendships yet? Begin now!

Have you ever thought that our enemy is attacking us, not only in Europe, but at home? Have you realized that his especial trickery consists in seeking to make men disloyal here in our own community? Have you tried to discover and suppress the enemy's work here in the peaceful region of our own homes? Since your appointed task is to act as the defenders of our country, why wait till you are called to camp? Your time for that has come already. Begin now!

From Now On a Selected Patriot.

From now on regard yourselves as a selected fraternity of active patriots. Strengthen those who are weak. Encourage those who are timid. Inspire the indifferent. Inform the ignorant. Search out the slackers. Begin now to make every one of you into a good soldier, a capable defender of our country, in spirit, in knowledge, and in physical fitness.

There never was a war to which men could give themselves with greater confidence and devotion. There never was a war in which a man had less excuse for holding back. There never was a time when a man could be more desirous to be known as a soldier. There never will be a century in the world's history in which a man's family, his townsmen, and has countrymen will be prouder to point him out as one of their men—one of the men who had the honor of being in the Army.

This is your war. You are going to win it by what you are—good Americans and good soldiers. You are good Americans already. It will take some time to make good soldiers out of you. The sooner you start the sooner you will arrive. Begin now!

E. H. CROWDER,
Provost Marshal General.

OPPOSES LAWLESS TREATMENT OF DISLOYALTY SUSPECTS

The State councils section of the Council of National Defense has issued the following:

To the Several State Councils of Defense:

In the past few months in many parts of the country there has been a tendency toward lawless treatment of those suspected of disloyalty. However patriotic may have been the motives which prompfed these outbursts, their effect is deplorable. They are blots upon the war record of a nation which has declared itself to be fighting for a universal reign of law; they furnish ammunition to those makers of enemy propaganda who are trying to make the world believe that the enemies of Germany, too, are capable of atrocities; and frequently by rousing anger and fear, they tend to undo the work which the Councils of Defense, through their educational campaigns, their Americanization work, and their community organization have done and are successfully doing to unite the Nation in the fellowship of war work.

Invokes Aid of Councils.

The only way to prevent such un-American occurrences is by setting against them the full weight of public opinion. The Council of National Defense, therefore, calls upon the State councils of defense and their county and local councils, as the leaders of the organized public opinion of the country, to bring home to the isolated communities which tolerate such disorders the fact that whatever their purposes in effect they embarass the Government and weaken the fighting power of the country. The Council of National Defense looks to each State council of defense to see to it that these disorders do not occur in its State, but that sedition is henceforward stamped out by lawful means and by lawful means only; and that differences and disputes are adjusted, not by voluntary or selfconstituted committees, but by official authorities.

This task calls for leadership and action. The Council of National Defense makes this request in the full confidence that each State council will assume the responsibility for keeping the fair record of its own State clean from this time forward.

Very truly, yours,

ARTHUR H. FLEMING,
Chief of Section.

COLORED NURSES TO SERVE THEIR OWN RACE AT CAMPS

The War Department authorizes the following statement from Emmett J. Scott, special assistant to the Secretary of War:

Orders were issued to-day (July 22) by the War Department to the office of the Surgeon General which will enable colored nurses who have been registered by the American Red Cross Society to render service for their own race in the Army. Colored nurses will be assigned to the base hospitals now established at Camp Funston, Fort Riley, Kans.; Camp Grant, Rockford, Ill.; Camp Dodge, Des Moines, Iowa; Camp Taylor, Louisville, Ky.; Camp Sherman, Chillicothe, Ohio; and Camp Dix, Wrightstown, N. J. At these camps a total of about 38,000 colored troops are stationed. Gen. Pershing has been asked by cable whether the services of colored nurses can be utilized to advantage among the American Expeditionary Forces.

CIVIL SERVICE RULES WAIVED FOR WAR GAS INVESTIGATORS

EXECUTIVE ORDER.

The Secretary of War is hereby authorized to employ, without reference to the requirements of the civil-service act, such persons in the Research Division, Chemical Warfare Service, at the American University, as may be needed in conducting certain investigations and construction work relating to gases and chemicals used in war, it being understood that all possible use will be made of the registers of eligibles of the Civil Service Commission. This authority shall continue only during the present war.

The commission concurs with the War Department in recommending this order because of the urgent and highly confidential character of the work involved and the fact that it must be organized and prosecuted with the greatest dispatch and be safeguarded most effectively.

WOODROW WILSON.

THE WHITE HOUSE,
July 19, 1918.

RELIEVED AS DIRECTOR.

Special Orders, No. 164:

110. Maj. Edwin V. Bookmiller, United States Army, retired, is relieved from duty as director of civilian marksmanship.

LIST OF CASUALTIES AS REPORTED AMONG THE U. S. FORCES OVERSEAS

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	20
Died from wounds	14
Died of disease	17
Died of aeroplane accident	2
Died from accident and other causes	5
Wounded severely	48
Missing in action	1
Prisoner	1
Total	108

Killed in Action.

LIEUTENANTS:

William P. Fitzgerald. Mrs. Mary Fitzgerald, 3 Walcott Street, Worcester, Mass.

Fredrick K. Hirth. Mrs. J. S. Hirth, 140 Twenty-first Street, Toledo, Ohio.

William Charles Orr, jr. William C. Orr, 2207 South Fifteenth Street, Philadelphia, Pa.

Sergt. George E. Hunsaker. George W. Hunsaker, Dawson Springs, Ky.

PRIVATES:

Leo Bell. Mrs. Margaret Bell, 507 Union Street, Chicago, Ill.

Raymond Blackwell. Rush Blackwell, 335 Bluefield Avenue, Bluefield, W. Va.

Charles Crames. Mrs. Tillie Crames, 851 Kelly Street, New York, N. Y.

Charles Glemzer. Edward Johnson, 3900 North Clark Street, Chicago, Ill.

Marold R. Heap. Mrs. Elnore Heap, 507 Union Street, Joliet, Ill.

Joseph F. Kennedy. Thomas Kennedy, 1018 Fourth Street, Catasaqua, Pa.

Joseph Meyer. Mrs. Lena Meyer, 108 South Jackson Street, Belleville, Ill.

Tim Moriarty. Tim Moriarty, 418 East Marcian Street, St. Louis, Mo.

James Papovasilupulos. James Karounos, 1824 West Harrison Street, Chicago, Ill.

George R. Pfahl. August Pfahl, 674 Evergreen Avenue, Brooklyn, N. Y.

Starling Emmett Rowland. Leneis M. Rowland, Water Street, Warren, Pa.

Herman A. Schmidt. Mrs. Nellie A. Schmidt, 1516 Kansas Avenue, East St. Louis, Mo.

Marshall C. Smith. Dennis Smith, Morganton, N. C.

Clayton C. Somerville. Mrs. Martha Jennings, Raleigh, N. Dak.

Carl J. Teunones. Paul Uza, 5008 Magon Avenue, East Chicago, Ind.

Ernest Franklin Watt. George S. Watt, 114 North Carver Street, Warren, Pa.

Died of Wounds.

Sergt. Earl S. Finley. J. A. Finley, 22 South Harrisburg Street, Steelton, Pa.

PRIVATES.

Bernard Albert. Mrs. Pauline Sands, 910 Jennings Street, New York, N. Y.

John Blasius, jr. Mrs. Anna Blasius, 1937 North Keystone Avenue, Chicago, Ill.

Harold Boswell. Mrs. Viola Powell, 4545 Hazel Avenue, Chicago, Ill.

William Budzynski. Mrs. Stanley Galewski, South Bend, Ind.

Helge Dale. Finnebott Brothers, Grandview, Wash.

Wilford Degree. Miss Alice Degree, Stewart, Minn.

Erving H. Graham. Mrs. Nettie Graham, Greensboro, Ala.

Charlie Gunsburg. Mrs. Agnes Gunsburg, 123 Harris Street, Staunton, Ill.

Frank Wesley Helikson. Mrs. Josephine Helikson, Franklin Mine, Houghton County, Mich.

Frank Maxwell King. Bessie Green, Buffalo Dry Goods Store, Depew, N. Y.

Alfred E. Lyng. William Klairtee, 1440 Larrabee Street, Chicago, Ill.

Dominick Oberto. Mrs. Margaret Oberto, 316 Minnesota Street, Spring Valley, Ill.

Joseph Reil. Sebastian Reil, Wathena, Kans.

Died of Disease.

Sergt. John R. Reeder. Art C. Reeder, Tipton, Iowa.

Mechanic John R. Veary. Mrs. Mary Gerrivaceo, Merced, Cal.

Bugler, Frank E. Prandie. Mrs. Charlotte Prandie, 1612 North Marston Street, Philadelphia, Pa.

PRIVATES.

Harley W. Bragg. William Bragg, Cedar Gap, Mo.

Eddie Benton. Mrs. Victoria Pickel Didley, Bridgeboro, Ga.

William Conlon. Mrs. Dellia Conlon, 214 East Seventh Street, Anaconda, Mont.

Altus A. Cox. Mrs. Lucy Cox, White Sulphur Springs, Mont.

Norris J. Deland. Mrs. Violet Deland, 13 North Thirty-ninth Street, Philadelphia, Pa.

Henry A. Hill. Mrs. Mary Hill, general delivery, Cowgill, Mo.

Harrison Johnson. Clara Abriam, 1233 Poydras Street, New Orleans, La.

Harry E. Lean Elk. Mrs. Lusie N. Hart, Fort Yates, N. Dak.

John James McEvoy. Joseph Aloyous McEvoy, general delivery, Station C, Detroit, Mich.

Dominick J. Marren, Thomas A. Marren, 327 East Thirty-third Street, New York, N. Y.

Eugene J. Reilly, jr. E. J. Reilly, 58 Lussex Avenue, East Orange, N. J.

Thomas Rodvanski. Frank Jauseke, 1720 West Twenty-second Street, Chicago, Ill.

Herbert Guy Spencer. A. C. Spencer, Ashland, Oreg.

Paul E. Williams. Mrs. Cora Williams, 2235 Sunset Avenue, Bakersfield, Cal.

Died of Aeroplane Accident.

Lieut. Casper M. Kielland. Sir S. Munch Kielland, Lehigh Terminal Building, Buffalo, N. Y.

Sergt. James C. Mosher. Charles F. Mosher, 711 Seventh Avenue, San Luis Obispo, Cal.

Died from Accident and Other Causes.

Lieut. Edgar A. Fisher. Chesmur A. Fisher, Oriska, N. Dak.

Sergt. Ralph E. Harlacher. Mrs. Archie Guy Henninger, 208 North Sixth Street, Allentown, Pa.

PRIVATES.

Lester E. Kettering. Mrs. Sylvia M. Kettering, 102 Twenty-first Street NW., Washington, D. C.

Charles S. Moon. Mrs. Cynthia Moon, 943 Seventh Street, South Bend, Ind.

Luscius D. Poyner. Mrs. Mary Poyner, R. F. D., Box 126, Norfolk, Va.

Severely Wounded.

Sergt. Peter Gladys. William Gladys, general delivery, Moundsville, W. Va.

CORPORALS.

Bailey J. Berry. J. A. Berry, Colbran, Ala.

Thomas J. Fisher, jr. Mrs. Catherine Fisher, 504 Lincoln Avenue, Brooklyn, N. Y.

John J. G. Nicolson. Mrs. John Nicolson, 458 Wilmot Avenue, Bridgeport, Conn.

Chester Randolph. William Randolph, Bay St. Louis, Miss.

Lester E. Walker. E. J. Walker, R. F. D. No. 7, Skowhegan, Me.

MECHANICS.

Phillip D. Mitchell. Frank Mitchell, 216 East Madison Street, Alexandria, Ind.

George Stockhoff. Charles Busch, 3122 North Sawyer Avenue, Chicago, Ill.

Cook John Moller. Mrs. Isabella Moller, Grand Street, Maspeth, N. Y.

Bugler Earl A. Webster. George A. Webster, Manchester, N. H.

PRIVATES.

William M. Aris. Mrs. Emily Aris, 784 East Fourth Street, Brooklyn, N. Y.

George Culligan. Mrs. Mary A. Culligan, Algoma, Wis.

Enoch V. Deason. Mrs. Minnie Deason, McCrory, Ark.

Frank Deaton. D. A. Deaton, Clarendon, Ark.

Fred Einum. John Einum, Menominee, Wis.

Ludwik Gotembiewski. Miss Pauline Gotembiewski, 1514 West North Avenue, Chicago, Ill.

John C. Green. James H. Brown, Shelbyville, Mo.

William R. Haskell. Riley Haskell, R. F. D. No. 2, Albion, N. Y.

Quillian V. Hayes. Mrs. Cull Hayes, 111 D Street, Lindale, Ga.

Joseph L. Heath. Robert M. Heath, Stanmore, Alberta, Canada.

Arthur E. Holgate. Mrs. W. W. Holgate, Corvallis, Oreg.

Milton Kelly. Robert Briley, Carlisle, Ky.

Michael Kent. Miss Mary McCarroll, 210 West One hundred and forty-eighth Street, New York, N. Y.

John Francis Lally. Charles Geier, 14 Palisade Avenue, Yonkers, N. Y.

Joseph Ligato. Mrs. Teressa Ligato, 824 South Main Street, Seymour, Conn.

Robert Macklin. William Macklin, Benton, Ill.

Herbert L. Miller. Mrs. George Tompkins, Hillsboro, Oreg.

Frank R. Parker. Mrs. Marg. V. Parker, 722 Court Street, Woodland, Cal.

August Ploegert. Mrs. Sophia Ploegert, 425 Pine Street, Janesville, Wis.

Pete Poor. John Henry Poor, R. F. D. No. 5, Mountainburg, Ark.

Charles P. Prine. Mrs. O. E. Morgan, 1624 North East Street, Lansing, Mich.

Edward C. Rath. Mrs. Berly Rath, 72 Doris Street, Buffalo, N. Y.

Richard Rau. Mrs. Margaret Jacobs, 2500 Eighth Avenue, New York, N. Y.

Hines W. Roberts. Ed. G. Roberts, Leakesville, Miss.

Frank Rosar. Mrs. S. Rosar, 514 Eleventh Street, Milwaukee, Wis.

Stephen Shuster. Matt Shuster, Beaverdale, Pa.

Peter Subacz. Anthony Subacz, 1219 Elm Street, Lawrence, Mass.

Edward Tallire. Mrs. William Tallire, Wabeno, Wis.

Julius Toth. Andrew Toth, 9803 Yeakle Avenue, Cleveland, Ohio.

Arthur L. Vanderlip. Mrs. Adeline Vanderlip, 135 East Elm Street, Hornell, N. Y.

Peter John Van Linn. Jacob Van Linn, South Kaukauna, Wis.

Elmer Wagner. Mrs. Bertha Wagner, 258 Waldon Avenue, Buffalo, N. Y.

Conrad Wagner. Mrs. Mary Wagner, McLaughlin Road, Bridgeville, Pa.

Ray Wainwright. Alonzo G. Wainwright, R. F. D. No. 1, Rossie, N. Y.

Theodore W. Warren. Mrs. Catherine Warren, 107 Academy Hill Road, Brighton, Mass.

William Webber. Mrs. Lena Webber, 331 North Franklin Street, Janesville, Wis.

Charles D. Wells. Mrs. Mary J. Wells, Lebanon, Okla.

Paul I. Wilson. James Wilson, Kimbolton, Ohio.

Missing in Action.

Pvt. John W. Wright. Elwin Wright, Whitehall, N. Y.

Prisoner.

Lieut. Clarence M. Young. Theo. G. Young, Valley Junction, Iowa.

Prisoners (Previously Reported Missing).

Corpl. George M. Williams. Ewing Williams, 340 South Green Street, Henderson, Ky.

PRIVATES.

John W. Jones. Mrs. Mary Jones, 1014 Church Street, Oxford, Ala.

Edward N. Pope. Frank E. Pope, Hardwick, Vt.

Naval Casualties

The Navy Department reports the following casualties:

Clarence Starr Moore, quartermaster, first class, U. S. N. R. F., lost at sea from submarine chaser *311* on July 17. Mother, Mrs. May H. Lewis, 3823 Alki Avenue, Seattle, Wash.

John Cooke Adams, seaman, U. S. N. R. F., fell from dock at New Orleans, La., and drowned, July 19. Mother, Mrs. A. C. Adams, 308 Stonewall Place, Memphis, Tenn.

William Nichols Stenerson, fireman, third class, U. S. N., drowned at New London, Conn., July 19. Mother, Mrs. Celina M. Stenerson, Lowell, Ind.

BIDS ASKED FOR PUMPING UNIT.

The Department of the Interior, United States Reclamation Service, has advertised for bids for a direct-pumping unit for the Price-Stub Pumping Plant, Grand Valley project, Colo. Proposals will be received at Denver, Colo., until 2 o'clock p. m., August 12, 1918.

PREFERENTIAL TREATMENT FOR HOLLOW TILE MANUFACTURERS

The War Industries Board authorizes the following:

The Priorities Division of the War Industries Board has reached a decision that hollow tile manufacture is in part a war industry and in part one of national importance, and as such is entitled to a place on the preference list for fuel and transportation.

In a letter to hollow tile manufacturers Judge Edwin B. Parker, Priorities Commissioner, says: "The Priorities Board is of the opinion that yours is in part a war industry, because your product is used in many of the building operations carried on directly by the war agencies of the Government and in the collateral, yet indispensable, housing programs which are being and will be prosecuted in communities where soldiers, seamen, and war workers are being concentrated. In the opinion of the board your industry is also in part one of national importance, in that a portion of your product is used in land drainage operations and in ensilage saving processes, making possible a higher production per acre and per farmer of foods and feeds, taking into account the labor expended in applying such products to the land."

Will Receive Applications.

The Priorities Board will receive the application of manufacturers of hollow tiles for a place on the preference list. It will consider the fuel situation of each such manufacturer, the amount of his direct and indirect Government business, and the uses to which the remainder of his products are devoted.

The manufacturer must give a pledge of coöperation with the Government that he will not use materials except in the manufacture of products for essential uses as defined and applied by the Priorities Division of the War Industries Board, and that he will guard against resale of his product for any except essential uses. This is not to prevent, however, the sale of small quantities of materials for repairs of or extensions to existing structures involving, in the aggregate, a cost not exceeding $2,500.

Where Not Defined as Essential.

If in any case the use proposed to be made of the product shall be one not defined as essential, but is one which the proposed user conceives to be in the public interest and of such essentiality that it should not be deferred, the proposed user may make a statement of the facts in writing, under oath, to the regional or local representative of the Resources and Conversion Section of the War Industries Board in his district, applying to such representative for his approval of the proposed construction.

Should the regional representative approve the project he should transmit the application for a permit, with his approval and reasons therefor, to the Building Materials Section of the War Industries Board at Washington for submission to the Priorities Division. If approved by that division a construction permit will be issued by the Building Materials Section.

OFFICERS AND SOLDIERS FORBIDDEN TO WRITE LETTERS TO STRANGERS

WAR DEPARTMENT,
Washington, June 22, 1918.

General Orders, No. 58:

III—1. The dangers of inadvertently communicating valuable military information to the enemy and the necessity of closing every possible gate against enemy propaganda make it necessary that the strictest attention be paid to the correspondence of both officers and enlisted men. Efforts are constantly being made by strangers to find soldiers with whom they may correspond, in most cases innocently enough, but the opportunity which might be offered to a wholesale propaganda in the Army by well-organized groups of enemy sympathizers is obvious.

2. All officers and men are forbidden—

a. To insert advertisements or letters in any publication inviting strangers to communicate with them.

b. To enter into correspondence with strangers in response to advertisements or other invitations.

3. Officers in command of troops are directed not to furnish names of men to any persons who attempt in any manner to enter into correspondence with soldiers with whom they are personally unacquainted.

By order of the Secretary of War:

PEYTON C. MARCH,
General, Chief of Staff.

Official:

H. P. MCCAIN,
The Adjutant General.

TREASURY ADVANCES TO BANKS MAKING DROUGHT SECTION LOANS

The Treasury Department authorizes the following:

The board of directors of the War Finance Corporation announced to-day (July 23) that at the suggestion of Secretary McAdoo it had wired the Federal reserve banks at Dallas, Kansas City, and Minneapolis, requesting them to notify the banks and trust companies in their respective districts, nonmembers as well as members of the Federal reserve system, of the willingness of the War Finance Corporation to make advances under Section VII of the War Finance Corporation act to banks and trust companies which had made loans to farmers and cattlemen.

Aid to Drought Sections.

It is hoped that this measure will enable these institutions to extend credit freely both to farmers and cattlemen whenever necessary to insure the preservation of these essential industries in localities where droughts have seriously impaired their productivity.

Under the terms of the War Finance Corporation act these advances are limited to 75 per cent of the amount of the loans made by the borrowing institution or to 100 per cent in case the borrowing institution itself furnishes additional collateral to the extent of 33 per cent of the advance. Such advances will be made by the War Finance Corporation upon written application through the several Federal reserve banks, acting as its fiscal agents, buy only after consideration of their recommendations upon the promissory note of the borrowing institution, secured by the obligations of the farmers and cattlemen to which loans have been made by the borrowing institutions, together with any security taken for such obligations.

Secretary McAdoo's Telegram.

The following is quoted from Secretary McAdoo's telegram to Gov. Harding:

"Droughts in Montana, parts of North Dakota, Kansas, and Texas are creating a serious situation for the farmers there, involving possible abandonment of farms and sacrifice of live stock. I think that effective assistance can be rendered by the War Finance Corporation. This corporation was created to help finance industries essential to the war, and I know of no industry more vital to the war than that of raising wheat, corn, live stock, and other food products. Aid should be extended by the War Finance Corporation to the farm industry and to every other industry which is vital to the prosecution of the war. I think the War Finance Corporation should make loans to National and State banks on farmers' paper. This would enable all National and State banks to extend loans to deserving farmers, with full knowledge of the fact that such paper can and will, under the terms of the act, be taken by the War Finance Corporation. I am sure that the Department of Agriculture will be glad to cooperate in the same direction through the agents and agencies of that department."

TREASURY STATEMENT.

TREASURY DEPARTMENT,
Washington, D. C., July 23, 1918.

RECEIPTS.

Customs receipts	$595,839.65
Internal-revenue receipts:	
Income and excess-profits tax	1,429,108.74
Miscellaneous	3,274,347.60

SPECIAL RULES GOVERNING MANUFACTURERS AND DEALERS AND BROKERS AND COMMISSION MERCHANTS IN BUTTER

The Food Administration issues the following special regulations governing manufacturers, dealers, brokers, and commission merchants in butter:

No. XX.

RULE 1. *Butter to be sold at reasonable advance over cost.*—The licensee dealing in butter shall sell such butter without regard to the market or replacement value at the time of the sale at not more than a reasonable advance over cost to him of the particular butter sold.

Provided, That any dealer may average the cost of all cold-storage butter of the same grade placed by him in a cold-storage warehouse in any calendar month, and may sell such butter at not more than a reasonable advance over such average cost. When a dealer averages the cost of any butter stored in a calendar month, he must average the cost of all butter stored in that month.

Costs for the purpose of this rule shall include:

1. Purchase price.
2. Transportation charges, if any.
3. Storage charges actually incurred on cold-storage butter.
4. Insurance charges actually incurred on cold-storage butter.
5. Interest on money invested at the current rate while butter is in cold storage.
6. Actual cost of printing if the butter is put in print form from tubs or cubes.

Cost shall not include any allowances for shrinkage in weight, commissions, or other expenses than those herein listed.

NOTE.—Reports to be furnished on demand: The licensee must be prepared to furnish to the United States Food Administration or to the Federal food administrator of his State upon demand a full report on costs and margins charged or on the maximum prices charged in any given period for any grade of butter or any other information which may be considered necessary for the purpose of this rule.

Maximum margins: The Food Administration will consider the sale of any grade of butter by any dealer other than a manufacturer or retailer at an advance over cost, as hereinbefore defined, of more than the following margins as prima facie evidence of a violation of the food-control act and the above rule:

(a) 1 cent per pound on carlot sales.
(b) 1½ cents per pound on sales less than a carlot, but amounting to 7,000 pounds or more.
(c) 2 cents per pound on sales of less than 7,000 pounds, but amounting to 3,500 pounds or more.
(d) 2½ cents per pound on sales of less than 3,500 pounds, but amounting to 700 pounds or more.
(e) 3 cents per pound on sales of less than 700 pounds, but amounting to 100 pounds or more.
(f) 3¾ cents per pound on sales of less than 100 pounds.

In addition to the selling margin, which normally should be considerably below the above maximum margins, and must in no case exceed such maximum margins, any dealer who carries butter in cold storage more than two full calendar months may add a margin of not more than 1 cent per pound, and an additional one-fourth cent per pound for each calendar month thereafter, during which he carries the butter in storage. The total amount for carrying butter in cold storage so added shall not exceed 2 cents per pound.

The above maximum margins are not to be regarded as fair normal margins or as so recognized by the Food Administration. They are intended only to prevent speculation and are purposely made wide enough to cover cases where the methods of doing business are more expensive, to the extent that such methods are justified. These maximum advances must not be exceeded in selling any lot of butter and the prices charged by any dealer must not in any case be more than sufficient to return to him a reasonable profit on his investment.

Sales from branch houses: Where butter is transferred by any dealer to a branch house of such dealer in the same or another city, such transfer shall not be made at an advance over cost of more than three-fourths cent per pound, regardless of quantity. In such case, however, when the transaction is in as direct a line of distribution as practicable the branch house may figure the transfer price as its purchase price and may sell butter at an advance over cost on such basis not greater than the maximum margins indicated above. If the branch house transfers the butter to another branch house of the same dealer the total maximum margin added by both houses shall not be greater than the maximum margin allowed to the first branch house by this rule.

Collusive sales: Any sale by a dealer to another dealer at a price higher than the price which the second dealer would have to pay in buying on the open market will be considered evidence of a collusive sale intended to defeat the purpose of Rule 1 by increasing the purchaser's cost and the price which he may charge upon a rising market.

RULE 2. Manufacturers who perform services of wholesale or jobber.—Any manufacturer who acts as a wholesaler or jobber shall be subject in such action to the rules and maximum margins governing wholesalers and jobbers, provided that in figuring his purchase price as a wholesaler or jobber he shall—

1. Compute the cost of raw materials and the expense of manufacture; or

2. In the case of cold-storage butter consider as his cost the market quotation on the kind and grade of butter placed in cold storage as quoted in a well recognized daily commercial price current in the city where and on the day when the goods are placed in storage. In case there is no well recognized daily price current in the city where the gools are stored then he may use the quotation given in a daily commercial price current in the large market nearest the place of storage. From this must be deducted the amount by which the freight from the point of manufacture to the place of storage is less than the freight from the place of manufacture to such large market. In case the freight from the place of manufacture to the place of storage exceeds the freight from the place of manufacture to such large market, the excess may be added to the market quotation.

RULE 3. Commissions limited to three-quarters cent per pound.—No licensee shall pay and no commission merchant shall receive a commission on butter of more than three-quarters cent per pound. The licensee shall inform any commission merchant selling butter for him of the maximum permitted price at which such butter may be sold.

NOTE.—Under rule 1 the selling price may not be increased by reason of the payment of a commission.

JUSTIFIABLE RESALES.

The attention of all licensees is called to the provisions of general rule 6.

General rule 6.—The licensee, in selling food commodities, shall keep such commodities moving to the consumer in as direct a line as practicable and without unreasonable delay. Resales within the same trade without reasonable justification, especially if tending to result in a higher market price to the retailer of consumer, will be dealt with as an unfair practice.

For the purposes of this rule and special rule 4 following, all persons licensed to manufacture or deal in butter shall be divided into three classes:

Class 1: Manufacturers.
Class 2: Wholesalers and jobbers. These include all persons, firms, corporations and associations who distribute butter in any way except at retail and all manufacturers who perform services customarily performed by wholesalers and jobbers.
Class 3. Retailers, hotels, restaurants and institutions.

Any transactions that savor of dealing in which a profit accrues to the dealer without corresponding service, are clear violations of the rule and will subject the offender to revocation of his license and to such other penalty as the law provides.

The following types of sales between dealers will be considered justifiable, but sales other than those described between dealers in the same class will be con-

(Continued on page 14.)

ALIEN PROPERTY CUSTODIAN TAKES OVER THE CONTROL OF TWO LARGE GERMAN-OWNED METAL CORPORATIONS

The Alien Property Custodian authorizes the following:

A. Mitchell Palmer, Alien Property Custodian, announced Monday that he had taken over the business of L. Vogelstein & Co. (Inc.), 42 Broadway, New York, and of Beer, Sondheimer & Co. (Inc.), 61 Broadway, New York, both of which were large German-owned metal concerns. In taking over these, and other metal businesses, the Alien Property Custodian has smashed for all time the German control of the metal industry in this country. The assets of L. Vogelstein & Co. are upward of $9,000,000, and those of Beer, Sondheimer & Co. (Inc.) are upward of $5,000,000.

Result of Investigation.

The two companies were taken over by Mr. Palmer as the result of investigations conducted by Francis P. Garvan, director of the Bureau of Investigation of the Alien Property Custodian's office. Further investigation into the metal situation is being made by him.

Beer, Sondheimer & Co. (Inc.) and L. Vogelstein & Co. (Inc.) were closely affiliated with the German Metal Gesselschaft, which for some years has dominated the entire metal market of the world. They dominated the metal market of this country in such a manner that they were enabled to sell copper, aluminum, zinc, and other metals in Germany at a price much lower than the American consumer had to pay.

The enemy interest in Stallforth & Co., of New York, dealers in silver bullion, with a capitalization of $1,000,000, has also been taken over by the Alien Property Custodian. This concern was another link in the chain of the German control of the metal markets of this country. F. Stallforth, the principal stockholder in this company, is now interned at Fort Oglethorpe, Ga.

Some of the Company Holdings.

With the American Metals Co., the large enemy interest in which has already been taken over by the Alien Property Custodian, Beer, Sondheimer & Co. and L. Vogelstein & Co. controlled most of the principal metal and smelting companies of this country, either by complete ownership of stock or by the ownership of enough stock to give them substantial representation on boards of directors.

Beer, Sondheimer & Co. own a one-half interest in the National Zinc Co., the entire stock of the Cuba Copper Co., the Cuba Copper Leasing Co., and the Norfolk Smelting Co., and 30,000 shares of the Minerals Separation American Syndicate (Ltd.).

Vogelstein & Co. have large holdings in the United States Metal Refining Co. and the American Zinc, Lead & Smelting Co. This latter concern controls the Wisconsin Zinc Co., American Zinc Co. of Illinois, the American Zinc Co. of Tennessee, the American Zinc Ore Separating Co., the American Pipe Line Co., and the Oglesby Gas Co. Of the 70,000 shares of capital stock of the American Metals Co., 15,180 shares are owned by the Metallbank and M. C. of Frankfurt A/M, and 18,180 shares by the Metallsgesellschaft of the same place.

The American Metals Co. completely owns the following companies: American Zinc & Chemical Co., Langeloth Coal Co., Langeloth Mercantile Co., Langeloth Townsite Co., American Metal Transport Co., Bartlesville Zinc Co., and South American Metal Co.

It had large holdings of stock in the following companies: Ohio & Colorado Smelting & Refining Co.; Compania Minera de Penoles, South America; Compania de Minerales y Metales, South America; Compania Metalurgica de Torreon, South America; Compania Minera Paloma y Cabrillas, South America; Compania de Combustibbs Agujita, South America; Fundicion de Guayacan, South America; Balback Smelting & Refining Co.; and Nichols Copper Co.

Firm's Part in the War.

From the evidence which Mr. Garvan unearthed it is apparent that L. Vogelstein and Beer, Sondheimer & Co. played an important part in Germany's declaration of war, and of the continuation of the war after Germany had gotten into it. Through their domination of the metal industry in this country these concerns were enabled to send vast supplies of copper and other necessary metals to Germany.

The activities of these German concerns in supplying necessary metals to Germany seems to have continued even after the beginning of the war in August, 1914, and only came to an end when the United States joined in the European struggle.

In 1914 the profits of Beer, Sondheimer & Co. were $116,624; in 1915 the profits of this concern jumped to $1,013,676; and in 1916 they reached the large total of $2,000,000. In 1917, after the United States got into the war, the profits of this company dropped to $196,900.

The profits of L. Vogelstein & Co. since April, 1916, were extremely large, the firm's business for the last three years approximating $70,000,000. Between April and December of 1916 the profits of Vogelstein & Co. amounted to upward of $2,500,000.

New Directors Appointed.

To make these concerns 100 per cent American the Alien Property Custodian has appointed as directors Americans who are well known in the business and financial life of the country.

The directors named for Vogelstein & Co. are Edward M. McIlvain, former president of the Bethlehem Steel Co.; Louis A. Watres, president of the Scranton Trust Co. and former lieutenant governor of Pennsylvania; James N. Wallace, president of the Central Trust Co. of New York; Alfred H. Smith, president of the New York board of aldermen; C. C. Daniels, of New York City.

The Alien Property Custodian will allow Paul L. Vogelstein and Ernest Hethern to act as directors also. Isidor J. Kresel, 37 Wall Street, New York City, will act as counsel for this company.

Messrs. Wallace, McIlvain, and Watres will also act as directors of Beer, Sondheimer & Co., in addition to John P. Greer, 15 Broad Street, New York City, and Ford Huntington, 15 Dey Street, New York City. Benno Elkan and Otto Frohnknecht will act with the above directors.

Joseph F. Davies, former chairman of the Federal Trade Commission, and Isidor J. Kresel will act as counsel for this company.

Represent Enemy Interests.

The directors whom the Alien Property Custodian has selected to represent the enemy interest in the American Metals Co. are Henry Morgenthau, former ambassador to Turkey; Andrew W. Mellon, of Pittsburgh; George McAneny, assistant publisher of the New York Times; Lewis L. Clarke, of the American Exchange National Bank of New York; E. C. Converse, of the Bankers Trust Co. of New York. John J. Fitzgerald will act as counsel.

Mr. Wallace, with Francis P. Garvan, has been chosen by the Alien Property Custodian to act as directors for Stallforth & Co.

L. Vogelstein & Co. and Beer, Sondheimer & Co. filed reports with the Alien Property Custodian as required by the trading-with-the-enemy act, in which they claimed that they were American-owned New York corporations. Mr. Palmer referred these reports to his bureau of investigation, and after several months of investigation Mr. Garvan, the director of this bureau, found that an endeavor had been made to cover up the German ownership of the assets and that, in spite of the process of Americanizing them, undertaken after the outbreak of the war, their ownership was thinly disguised.

Establishment in New York.

Prior to the war Beer, Sondheimer & Co., of Frankfort am Main, German dealers in metals, especially copper, established an American branch in New York (about 1904), which was managed by Benno Elkan and Otto Frohnknecht. They had written agreements with the home office whereby each was to receive a salary varying in amount, and each was to participate in the profits of the American business.

The American branch had control of the firm's business in the United States, Canada, Mexico, South America, and Central America. In 1912 Elkan and Frohnknecht made an agreement with the home office in Germany whereby each would receive a salary of $900 per month and in addition 12½ per cent of the net profits of the American branch, the German firm guaranteeing to each that the salary and participation in the profits should equal not less than $18,700 per year. The German office provided all of the capital that was required in the business. At the time these agreements were made Elkan and Frohnknecht were German citizens. Although they had been in this country for a number of years, they never took out naturalization papers until early in 1917.

In August, 1915, the New York corporation was organized with the corporate name of Beer, Sondheimer & Co. (Inc.).

Custodian Seizes Two Large German-Owned Metal Concerns

The reason for the organization of this new corporation is perhaps best stated by Elkan and Frohnknecht in their report to the Alien Property Custodian, in which they say:

"On the outbreak of the European war it became increasingly difficult, and finally impossible, to communicate with the same partnership (the German partnership), and it has therefore been impossible to have a final statement of their accounts, as such managers of said American branch, with said partnership. In August, 1915, the New York corporation was organized with the corporate name of Beer, Sondheimer & Co. (Inc.), under the direction of Sullivan and Cromwell, as counsel."

Wireless Message Quoted.

That the home office was familiar with the plans for the organization of the American company, and that the latter was organized upon the advice of the German concerns is shown by the following wireless dispatch, dated August 28, 1915:

BEER, SONDHEIMER CO.,
Frankfort, Main:

Have completed the corporation as planned under name Beer, Sondheimer & Co.; incorporated capital, $1,000,000.

ELKAN FROHNKNECHT.

The capital stock of the new American corporation consisted of 10,000 shares of the par value of $1,000,000 and were all issued to the German copartnership, thus recognizing that the assets of the American branch at that time belonged to the German firm.

It is regarded as significant that the capitalization of the new company was only $1,000,000, whereas the books show that on June 30, 1915, the assets exceeded the liabilities by $3,200,000, so that the book value of each share of stock was more than $300. Five shares of stock in the new company were issued to qualify directors and the balance of 9,995 shares were put into a voting trust, the voting trustees being Elkan and Frohnknecht, one Falck, bookkeeper of the concern, and a lawyer named Nelson.

Elkan became president of the new corporation and Frohnknecht the vice-president. The new corporation voted them exactly the same salary and the same percentage in the net profits of the business as was provided for them in 1912 agreement with the German firm.

Purchase of German Stock.

In the spring of 1916, when the war clouds began to look threatening in this country, Elkan and Frohnknecht engaged one E. O. Jacobson to go to Europe for the alleged purpose of purchasing from the German partnership 3,000 shares of the stock owned by the German partnership in the American corporation. They claimed that Jacobson bought this stock at $80 a share and that they paid $240,000 for it, paying $151,000 in cash and transferring to the German firm $50,000, which they had on deposit with it, and $39,000 likewise on deposit on a subscription to the German war loan. Jacobson is said to be dead. The only receipt submitted by Elkan and Frohnknecht is for $89,000.

It was claimed that Jacobson while abroad obtained from the German firm a power of attorney, pursuant to which he sold to the American corporation the 6,995 shares of stock left in the ownership of the German firm after the pretended sale of the 3,000 shares to Elkan and Frohnknecht. In other words, Jacobson was at the same time attorney in fact for Elkan and Frohnknecht, and for the German firm, and dealt with himself in both capacities. Acting under power of attorney for the German firm Jacobson sold to the American corporation, who apparently were only Elkan and Frohnknecht, the remaining 6,995 shares of stock.

Price Statements Contradictory.

Contradictory statements were made as to the price at which this sale was made. In the report to the Alien Property Custodian by Elkan and Frohnknecht, in which they undertake to give the history of this pretended sale, it is stated that the American corporation in January, 1917, purchased this stock out of its accumulated surplus, paying therefor the sum of $700,000 in cash. It is also stated in the report that in addition to the $700,000 approximately $2,410,000 was paid by the American corporation to the German firm as "the balance of the original investment," the claim being that the German firm was willing to sell out its interest here for the amount of the original investment. Later Elkan and Frohnknecht claimed that the $700,000 was not the amount of the purchase price, but that the purchase price was $700,000 plus the balance of the original investment so paid back.

In the course of his investigation Mr. Garvan discovered that in July, 1916, Elkan and Frohnknecht each drew $75,500 from the American corporation, thus making up $151,000, which, added to the $89,000 on deposit in Germany, enabled them to pay $240,000 as the alleged purchase price for the 3,000 shares of stock.

Convinced Sale Was "Camouflaged."

Mr. Garvan became convinced that the sale of the German-owned stock in the American concern was camouflaged. It appeared that all of the money, with the possible exception of $89,000 held by Elkan and Frohnknecht, came from the treasury of the American corporation, which in turn was owned by the German partnership. It appeared also that for the sum of $240,000 Elkan and Frohnknecht purchased a property that during the year in which they purchased it yielded a profit of $2,000,000.

In fact there was considerable doubt as to whether more than $89,000 of this purchase price was actually paid. In January, 1917, when the purchase was supposed to have been made, the American corporation had net assets over all liabilities amounting to $4,866,000, and the profits of the corporation in 1916 were $2,000,000. Thus it would seem that the German partnership took about $3,000,000 of $4,866,000, made a present of $1,866,000 to Elkan and Frohnknecht, in addition to giving them the business which in one year made a net profit of $2,000,000.

That the Germans knew that the sale was only a pretended and pro forma transaction is shown by a wireless which they sent to one Harry Falck, an employee of the American branch, acknowledging the receipt of part of the $240,000. In that wireless they referred to the shares as "pro forma Jacobson shares." The following is the wireless:

BERLIN, *November 26, 1916, 9.25 p. m.*
HARRY FLACK,
61 Broadway, New York.

Friday, 24th. Don't sell now steels below 110. Understood your remittance kronen 340,000 Knauth Nachod 290,000 mark against proforma Jacobson shares, but will not arrange for balance shares same kind. Wire whether arrangement White made as per our letter 7544. How is phosphate position and domestic market? Could you sell part stock domestic?

BEER, SONDHEIMER.

Among other steps to hide the alien character of the assets of this concern was a purported consolidation of the New York corporation with another corporation called Pendennis Metals Corporation.

The Pendennis corporation was a mere shell, which was organized for the very purpose of consolidating it with Beer, Sondheimer & Co. It had no assets; only $1,000 worth of stock was ever issued, and the stockholders were clerks in the office of the lawyer under whose supervision the consolidation was effected.

Vogelstein Naturalized Citizen.

Ludwig Vogelstein is the head of L. Vogelstein & Co. He is a naturalized American citizen. For many years he has represented in this country the firm of Aaron, Hirsch & Sohn, of Halberstadt, Germany. He had charge of their business in the United States, Canada, and Mexico. The concern did a very large business, the average for the past three years being about $70,000,000 a year. He had an arrangement with the German firm whereby he received a share in the profits made upon the firm's business in America. His interest in the profits was about 15 per cent and he also had an interest in the profits of this firm's business in Germany. These profits were determined annually from accounts rendered at the end of each year. Vogelstein claims that since 1915 he has been unable to get an accounting from the German firm.

Up to December, 1916, the American branch was conducted as a partnership and Aaron Hirsch was one of the partners. In December, 1916, Vogelstein formed a New York corporation, capitalized at $5,000,000. All the property of the partnership was transferred to the corporation, including, according to Vogelstein, the accumulated profits belonging to the German firm, which in April, 1916, amounted to upward of $1,600,000.

Vogelstein claimed that in April, 1916, his agreements with the German firm were terminated, but the Alien Property Custodian declined to accept that statement and contended that the interest of

(Continued on page 16.)

Scope and Methods Outlined for Boards of Instruction To Prepare Selected Men Before They Are Called to Duty

The Provost Marshal General authorizes publication of the following:

JULY 4, 1918.

To all local boards:

The attention of this office has been favorably attracted by the successful results in several cities and towns of a systematic plan of instruction for selectives prior to their call in the draft. The plan includes all such measures as are best calculated to prepare the selectives to go to camp willing, loyal, intelligent, clean, and sober, and thus better to fit them for rapid progress in their military education after joining the Army. It is believed that such a plan will prove useful and practicable in other local board areas. Wherever such a plan of instruction has not already been undertaken and the local sentiment will sustain it, the plan should be now put into effect by the appointment of a special board of instruction. In order that the movement may be coordinated, supervised, and controlled in all its relations to the selective service system, the board of instruction should be under the authority of the local board and should serve to relieve the local board of all personal burden involved in the instruction.

Constitution of Boards.

The board of instruction will consist of an appropriate number of citizens having the highest character and ability and enjoying the confidence of the community. The members will be selected by the local board. Wherever other agencies have already actively undertaken such work in the same area (and particularly the local committees or war councils under the State councils of defense), the local board can, if it sees fit, accord them a representation in the board of instruction. Every member of the board of instruction will be expected to take an active personal part in the work of the board and to contribute his time and effort without money compensation.

A list of the members of each board of instruction will be furnished for filing in the office of the Provost Marshal General.

A board of instruction may be appointed to cover two or more areas of local boards where the local boards thereof consent to cooperate.

Methods of Instruction.

Subject to the ultimate authority of the local board, each board of instruction will perform its work by individual interview and group meetings with the selectives by giving advice and instruction on all subjects that are necessary or useful to future soldiers and by arranging for preparatory military drill and instruction where feasible.

The authority of each local selective service board will control in the work done within that area; but it is expected that there will be full cooperation and harmony in the same manner heretofore experienced with the legal advisory boards.

Local boards are authorized and directed to furnish to the boards of instruction access to the records for the purpose of compiling lists of names and addresses and to send out in the name of the local boards any notices of meetings or interviews as desired and requested by the boards of instruction.

Herewith is inclosed a leaflet outlining the plan in more detail.

E. H. CROWDER,
Provost Marshal General.

Meetings of the Draftees.

WAR DEPARTMENT,
OFFICE OF THE PROVOST MARSHAL GENERAL,
Washington, July 10, 1918.

To all local boards:

It is suggested that as soon as a sufficient number of members have been appointed to the board of instruction described in the letter of July 4 from this office and in P. M. G. O. Form No. 76 the local board call an evening meeting of all the young men of age 21 newly registered on June 5 last. The members of the board of instruction can make this their first opportunity for getting acquainted with the young men and announcing the general scope of their plans. As it is important to get in touch with the 1918 group at the earliest possible moment, it is further suggested that the entire roster of 1918 men be summoned to this meeting, without waiting for the completion of the classification and the final designation of Class I men.

At the meeting it would be appropriate for the chairman of the local board to preside; and the inclosed message to the new selective service men from the Provost Marshal General may be read by the chairman as striking a keynote for the occasion.

E. H. CROWDER,
Provost Marshal General.

OUTLINE OF SCOPE AND METHODS.

Object.

To put the selective-service men into camp willing, loyal, intelligent, clean, and sober, and thus to fit them better for rapid progress in becoming good soldiers.

And to accomplish this by systematic personal instruction given beforehand to each selective by members of a local committee of reputable citizens in each board area acting under the auspices of the local board.

Necessity for Working for This Object.

Very few selectives have seen any military training before reaching camp. A larger number have some intelligent idea of what awaits them and why they go. A still larger number are loyally, though ignorantly, willing to go. But, after all these allowances, there remain enormous numbers, represented in every local board area, who are neither willing, nor intelligent, nor loyal, nor fit, in the proper degree. Moreover, the family surroundings often tend to emphasize this condition; family sentiments affect the drafted man, and may make him less ready to go. All this is especially true in the cities where foreign-born populations abound.

Further, camp surgeons report that the man's mental attitude affects his physical condition. Any one of a score of small ailments may develop into a cause for discharge if nurtured by a wrong mental attitude, or may become negligible if the man has the will and the motive to overcome them.

Thus the efficiency of the National Army is affected by the mental condition of the individual after selection in Class I and before arrival in camp. Moreover, the existence of these conditions among drafted men has entailed immense additional labor for the selective-service boards in overcoming them.

The foregoing elements of inefficiency can be largely removed by personal instruction. Experience has demonstrated this conclusively. To send a contingent of men who have been put into fit condition mentally and morally is to gain at least a month, and often more, in time, for the readiness of the division to leave for the battle field of human freedom.

For this reason the work of such instruction should now be organized on a large scale under the auspices of the local boards and the Provost Marshal General.

To accomplish this in the existing peculiar conditions cited requires a group of men that will devote themselves unselfishly and unreservedly to the immediate elimination of the obstacles, and to the presentation of the patriotic inducement in terms such as all types of American youth can comprehend. Recognizing that not numbers alone but also the morale of the American Army is a conquering factor, this group of men by using their personal influence on the mental and moral make-up of the selectives will be able to evoke and strengthen that fundamental patriotic impulse which every true man possesses.

There are proven methods by which the results desired can be accomplished. Their operation calls for the most patriotic devotion by men whose only compensation is the consciousness that they are contributing to that spirit in the American soldier which is to win the war.

Organization.

Local board of instruction in every area.—1. The general plan of operation will be to use local boards of instruction, to be appointed by the local selective-service board. As the final result is to depend upon personal sympathetic contact with selectives, the members will be individually selected with reference to their local repute and standing; their character and human experience; ardor to help win the war; willingness to serve without compensation or exploitation; appreciation of the possibilities of the plan; intelligent conception of the kind of soldiers the Nation needs; ability to analyze young men's difficulties and to inspire in them a patriotic desire to serve.

Every community in the country has such exceptional men who are eager to devote themselves to some patriotic work which is worth while. The local board, through its extensive relationships, will discover these men, personally enlist

Scope and Methods Outlined for Boards of Instruction

their spirit and conviction, and command their cooperation. Men who have sons in the service find a particular inducement to engage in this work.

This is not the difficult task that it appears, for comparatively few men are required in any given community. These men will be brought together, and after complete explanation of the method will be installed to work the plan. The chairman should have the responsibility of making assignments to duty and of keeping oversight of details.

2. Wherever one or more existing agencies has already undertaken some part of this work, sanction should be given by the local board, if it approves the kind of work and the personnel in charge. No doubt many offers of service will be received. These should be fully and cordially availed of so far as feasible, preference being given to those who have already demonstrated by successful experience their capacity to perform the task. The work already organized and under way in many communities under direction of the State councils of defense should here receive as ample recognition as possible. But it will rest with the local board to organize the personnel of the board of instruction in such manner as to insure conformity to the purposes and methods here outlined, and to emphasize rigorously the main object of preparing the men to be better soldiers when the time comes for their call to the colors.

Methods.

The following methods are suggested in outline:

I. At the time of the medical examination the registrants are assembled in small groups, for a personal interview, and particular information is given by individual members of the boards of instruction. Perplexities are cleared; encouraging suggestions made as to the personal value of military training and of outdoor life, the chances for promotion, etc.; and the aid and friendly support of the Red Cross, the Army K. of C., the Y. M. C. A., the Hebrew Welfare Board, the Commission on Training Camp Activities, are mentioned.

This personal interview establishes a relation between the board member and the drafted men which is of immense initial importance; he is a friend, the one encouraging personality in a system which to many of them represents only compulsion.

The power of this man to influence their estimates of the service and their patriotic ideals can not be overestimated.

II. During the preinduction period the selected men will be called together once or twice, by selective service board order, at which time they will be met in groups for instruction as follows:

(a) The provision which the Government has made for the protection and welfare of disabled soldiers and, in the event of death, of their families or dependents, through its War Risk Insurance Bureau. This information will not be given in the official manner in which it will be presented after entry into the service, but for the purpose of neutralizing the family opposition due to ignorance of such safeguard.

(b) The Government provision for allowances and allotments to soldiers' dependents. This information has the power to relieve apprehension in the soldier's home and to inspire respect for all the Government's demands.

(c) Discussion of these topics: Why America entered the war; why America must win the war; the necessary character of the American soldier; sexual restraint and the avoidance of liquor as a patriotic obligation; camp life.

Free discussion of these subjects develops the principles of American democracy, personal character, conduct, personal habits, patriotic abstemiousness, and soldierly ideals and obligations.

(d) At the time of mobilization for service two or three 10-minute talks by selected speakers leave a profound impression.

III. Preliminary military drill will be conducted, to familiarize the men with first principles. The favorable results of this practice have already been proven in many areas; it has placed the men a month or so ahead in capacity to become efficient military units. Most communities contain men of military experience, competent to instruct selected men in the fundamental principles of military discipline, and in the customs, etiquette, and ethics of the distinctive branches of the service. They will be utilized wherever available.

Wherever local militia reserve organizations already exist, the selectives will be encouraged to join them for training during the period of waiting. Lists of selectives will be furnished to the local officers, and every effort will be made to cooperate.

IV. Members of boards of instruction will find it highly desirable, if not indispensable, to pay a visit to the nearest Army camp containing selectives, and to spend a day or so there, observing the methods and incidents of camp life. This experience will give them a greater assurance of statement in any allusions they may be called upon to make to the needs and duties of a soldier. It will also add much to the confidence which will be placed in them by the selectives whom they may address in their instruction. Committees which have done this testify to its essential importance as an asset in obtaining proper influence over the selectives.

In other ways also the boards of instruction may well prepare themselves by making an elementary study, if necessary, of war conditions, the selective service system, military methods, etc., etc.

V. Each phase of this instruction is to supplement and not to duplicate any similar effort which already is or may be authorized by the Government.

The labor required from the selective service boards themselves, after appointing the boards of instruction, will be confined to the issuance of two or three board orders, for the purpose of securing interviews with the men.

JULY 4, 1918.

HEALTH OF SOLDIERS AT SEA BEING CAREFULLY SAFEGUARDED

The Navy Department authorizes the following:

To safeguard the health of American soldiers on the transports going to France, strict medical and sanitary precautions are taken. These are set forth in regulations adopted by the Bureau of Medicine and Surgery of the Navy.

Before embarking a thorough examination of troops is made by Army medical officers to eliminate the sick. Within five days of sailing the commanding officer of troops submits to the senior naval surgeon a statement that all his men have received protective vaccinations; and if any have not, he designates the men to be vaccinated.

Deck Exercise Daily.

After embarkation all troops must spend at least an hour and a half daily on deck, each man bringing his blankets to be aired. Commanding officers must see to it that their men receive 30 minutes of physical exercise during this period. The men are expected to stay in the open as much as the weather will permit.

All men and their effects must be inspected twice weekly by medical and commanding officers to detect the sick and make sure that the men are observing the rules of hygiene. The men sleep "head and points" to prevent, as far as possible, the spread of infection by coughing. The officers are instructed to see that the men sleep with proper coverings and that they do not sleep on deck or elsewhere unless properly protected.

Men are not permitted to close the ventilators or otherwise interfere with the flow of air. They are not permitted to eat food in berth spaces. Food is not served in rooms or other unauthorized places unless so ordered by the senior naval surgeon in case of sickness. Guards are stationed day and night at drinking fountains and other points to enforce cleanliness.

Strict Sanitary Regulations.

Spitting on deck is strictly forbidden. Every man must take a shower bath daily and change his underclothing at least once during the voyage. Cleaning details for troop spaces and other parts of the ship "will be held strictly accountable to the police officer and to the Army officer acting as sanitation officer for the proper performance of their duties."

These and other regulations were promulgated by the Surgeon General of the Navy. The senior naval surgeon is made responsible for the sanitation of the ship and for the routine care of all men who are sick enough to require treatment other than first aid. Arrangement is made for the cooperation of the medical officers of the Army aboard and members of the Army hospital and sanitation corps.

The food YOU waste to-day may mean HUNGER to Someone, Somewhere, Sometime. Be Saving!

ADDITIONAL LIST OF AMERICAN PRISONERS AND GERMAN CAMPS WHERE THEY ARE HELD

The War Department announces this additional list of American prisoners of war interned at various prison camps in Germany as reported by the Royal Prussian war ministry, central information bureau, which list was forwarded to the American Legation at Berne by the Royal Spanish Embassy at Berlin:

Name.	Rank or occupation.	Date and place of capture.	Emergency address.
CAMP DARMSTADT.			
Aliano, Frank	Private	Apr. 20, 1918; Sechepprey.	J. Aliano, 66 Park Street, Bristol, Conn.
Allen, Vincent	do	do	Thomas Allen, 223 Main Street, Norwalk, Conn.
Antkonik, Frank	do	do	Antkonik, 8 George Street, Webster, Mass.
Barnes, Edwin	Corporal	do	M. G. Barnes, 604 Second Aveneu, West Haven, Conn.
Barnes, Percival	Private	do	Do.
Brandon, Daniel	Sergeant	do	Patrick Brandon, Towners, N. Y.
Cardell, William	Private	do	Mary Cardell, 119 Homestead Avenue, Granston, R. I.
Caverly, Harry	do	do	Mary Caverly, 225 Green Street, Manchester, N. H.
Chapman, Augustus	do	do	Jennie De Wolf Hunt, 96 Platse Street, New Haven, Conn.
Chardette, Clyde	do	do	Ethel Davis, Barton, Vt.
Chmiel, Walter	do	do	Anna Chmiel, Bridge Street, Brooklyn, N. Y.
Clark, Lester	do	do	E. Mary Clark, 335 Norton Street, New Haven, Conn.
Collver, George	do	do	Alice Collver, 105 Franklin Street, New Haven, Conn.
Cronin, John	Corporal	do	Harold Hodge, 96 Main Street, Portland Conn.
DeMartino, Ernesto	Private	do	Mary Lacava, Brewer Street, Kockauma, Conn.
Doble, Enoch	do	do	W. H. Doble, 24 South Street, Quincy, Mass.
Elliott, Oliver	do	do	Oliver Elliott, 17 Davis Street, Boston, Mass.
Fischman, Maurice	do	do	Samuel Fischman, 457 Greenwick Avenue, New Haven, Conn.
Gesner, Alfred	do	do	Alfred Gesner, Hadlyme, Conn.
Gillespie, Frank	do	do	J. Y. Gillespie, 683 Columbia Road, Dorchester, Mass.
Hier, William	do	do	George Hier, Box 158, Bristol, Vt.
Hitchcock, Thomas	Sergeant	Mar. 6, 1918; Chateau Salius.	Aiken, S. C.
Hopke, William	Private	Apr. 20, 1918; Seichoprey.	August Hopke, 358 Bainbridge Street, Brooklyn, N. Y.
Johnson, Herbert	do	do	Charles T. Johnson, 10 Court Street, West Haven, Conn.
Lamere, Lee	do	do	C. F. Lamere, 20 Stafford Street, Laconia, N. H.
Lenhart, Lewis	do	do	Geo. Lenhart, Somerfield, Pa.
Lysett, Thomas	do	do	Thomas Lysett, 140 Beekman Street, Saratoga Springs, N. Y.
McGovern, Charles Henry.	do	do	Homer Bennit, 143 Henry Street, New Haven, Conn.
Maher, Leo	do	do	John Maher, 139 Blio Hill Avenue, Roxbury, Mass.
Mielewski, Eugene	do	do	A. Millewski, 18 Eden Street, Providence, R. I.
Milan, John	do	do	Mary Milan, 925 East Broadway, South Boston, Mass.
Novoselski, Teodor	do	do	Adam Novoselski, 8 Grand Street, Union City, Conn.
Pecerrilo, Louis	do	do	B. Peccerll, 38 Auburn Street, New Haven, Conn.
Perlmutter, Laurence	do	Apr. 14, 1918; St. Mihiel.	Lena Pearl, 16 East One hundred and eleventh Street, New York, N. Y.
Plant, Peter Francis	Corporal	Apr. 20, 1918, Seichoprey.	Mickel Plant, 145 Crescent Street, West Quincy, Mass.
Sala, Daniel	Private	do	G. Sala, West Wareham, Mass.
Sefton, William H.	do	do	A. Sefton, 25 Greeville Avenue, Manton, R. I.
Smith, Francis	do	do	Mary Smith, Powiat Makow Rosan, Poland.
Stefanowsky, Alex	do	do	Jror Smyder, 63 Capitol Avenue, Hartford, Conn.
Sutcliffe, Frank	do	do	Walter Sutcliffe, 199 Japonica Street, Pawtucket, R. I.
Swanson, Harry	do	do	N. B. Swanson, 100 Beach Street, Waverly, Mass.
Tucker, Harold	Sergeant	do	J. R. Tucker, 6 Villa Avenue, Providence, R. I.
Whalen, John	Private	do	Thomas Whalen, 83 Aldrich Street, Rosslindale, Mass.
Young, Ellis	do	do	Calvin Young, Hancock, Me.
CAMP VILLINGEN.			
Blom, Johann Arnold	Captain "John H. Kirby."	Nov. 30, 1917; Cape of Good Hope.	Abo, Finland.
Bowman, Charles	Second officer "Encore."	July 17, 1917; Indian Ocean.	Simon Olshom, Oschesund, Sweden.
Buckard, Matthew	First officer "Beluga."	July 9, 1917; South Pacific.	Mrs. Marie Buckard, 761 Clayton Street, San Francisco, Cal.
Colstad, Adolf	Second officer merchant ship.	Nov. 30, 1917; South Indian Ocean.	401 Water Street, New York City.
Crawford, James Frank	Lieutenant	Apr. 10, 1918; Lacontre	Warsaw, N. Y.
Mackenzie, A. Eneas	Second lieutenant.	July 19, 1917; Ypres	Wm. Mackenzie, 354 Twelfth Street, Portland, Oreg.

(Continued on page 15.)

SPECIAL RULES GOVERNING DEALERS IN BUTTER

(Continued from page 9.)

sidered as prima facie evidence of violation of general rule 6:

A. A sale by any dealer in butter to a dealer in any succeeding class will be considered as in the direct line of distribution.

B. One sale and only one sale of the same goods between dealers in class 2 in the same city will be considered justifiable when necessary to supply the reasonable requirements of the buyer's business, without the special consent of the local Federal food administrator, provided, however, that a second sale of the same goods between dealers in class 2 in the same city will be permitted without the consent of the local Federal food administrator if this sale is made at any advance over cost of not more than one-half of the margins indicated above, and provided that the seller notifies the buyer that this is a second sale.

C. In addition to such resales as are otherwise indicated as justifiable, sales between dealers in class 2 in different cities will be considered justifiable, provided, that an actual delivery of the butter follows the sale, and that the shipment is for the purpose of obtaining supplies from primary markets for reasonable requirements of the purchaser's business; provided further, that not more than three such sales of any lot of butter between dealers in class 2 shall be made without special permission; and the third sale shall be made at an advance over cost of not more than one-half of the above margins.

D. Any resale between dealers without any advance over cost will be considered as justifiable in addition to such other resales as are permitted.

RULE 4. The license making second sale in same class to notify buyer.—The licensee in class 2 as defined above who purchases butter from another wholesaler or jobber in such class or from a manufacturer performing the services of a wholesaler or jobber and who resells to another dealer in class 2 shall notify such dealer of the prior sales of such butter within that class of which he has knowledge.

HERBERT HOOVER,
United States Food Administrator.
JULY 19, 1918.

The above regulations supersede the Special Regulations Governing Manufacturers, Dealers, Brokers, and Commission Merchants in Cold Storage Butter, issued as No. XX–B, effective June 19, 1918, as amended.

NEW UNIFORMS AND INSIGNIA FOR RED CROSS MOTOR CORPS

The American Red Cross authorizes the following:

More than six thousand women now are included in the personnel of the Red Cross Motor Corps Service. As a result of a conference recently held in Washington at the call of the director of the Bureau of Motor Corps Service, the motor service in six of the principal cities of the country which previously had been independent in its organization, was amalgamated with the Red Cross Corps. This makes the Red Cross Motor Corps Service a thoroughly coordinated institution, able to meet the local and interlocal demands for transportation throughout the length and breadth of the land on a nationalized basis.

The organizations which have become parts of the Red Cross Motor Corps Service are the Motor Messenger Service, of Philadelphia; the National Service League Motor Corps, of Atlanta; the National Service League Motor Corps, of New York City and Buffalo; the Emergency Motor Corps, of New Orleans; and the Emergency Drivers, of Chicago. All these organizations were represented at the conference by their commanding officers, who now become commanders of the Red Cross Motor Corps Service in their respective cities. The four independent services added more than six hundred members to the motor corps ranks.

Requirements Now Standardized.

In the comparatively few months during which the national bureau has been in control of the volunteer motor corps of the various cities, important progress has been made in efficiency and uniformity of service. Rules and requirements have been standardized so that those not enthusiastically sincere in their work find no interest in the service. Under the conditions existing a certified driver feels pride in her position. Physical fitness, driving expertness, mechanical knowledge, independence in case of road accident, and military drill are requirements for members of the transportation division. For ambulance drivers the additional requirements are first-aid and stretcher drill. For auxiliary aides, who are nondriving members, 12 days experience in the accident ward of a hospital is necessary.

Uniform of Oxford Gray.

In conformity with the request of the War Department, the uniform of khaki and the insignia formerly employed have been discarded. The new regulation uniform of the Motor Corps is to be of the Red Cross Oxford gray. Commanders will wear three silver diamonds, embroidered on their shoulder straps. Captains will wear two silver diamonds, first lieutenants one, and second lieutenants a gilt diamond. Pearl gray tabs on the collar will indicate staff officers. Service stripes will be worn on the sleeves.

The cars of the service are to be distinguished by a white metal pennant, bearing the red cross and the words "Motor Corps." This and the driver's identification card will be sufficient to give the cars the right of way when on official business.

ORDERS MORE AND BETTER COAL FOR COAST AND OVERSEA SHIPS

The United States Fuel Administration authorizes the following:

An order issued by the United States Fuel Administration, effective 7 a. m. July 23, revises former orders and regulations relative to the required quality and grades of coal for bunkering steamships at Atlantic and Gulf ports. The purpose of the order is to improve the quality and enlarge the quantity of coal for ships in the Atlantic trade.

Some of the Changes.

Among the changes of consequence is the designation of the Tug River field of West Virginia as a field apart from the Pocahontas field and admitting as permissible bunker coal the coal originating in the Pocahontas, New River, and Tug River fields, which has been or may be classified by the Tidewater Coal Exchange for consignment to pool No. 1 or pool No. 2 at Hampton Roads. Also, specifying as permissible bunker coal that coal which has been or may be classified for consignment to pool No. 44 at Hampton Roads. This coal consists of lump and egg coal, but not nut coal, originating in these fields.

To improve the quality of coal for overseas trade at New York, Philadelphia, and Baltimore, the order directs the admission of coal originating at mines on the acceptable list of the United States Navy, which has been or may be classified by the Tidewater Coal Exchange for consignment to pool No. 1, when used by itself and not mixed with coal from any other pool. Also, it admits coal originating at mines on the Pennsylvania, Baltimore & Ohio, and Western Maryland Railways, or any of their connecting lines which has been or may be classified by the Tidewater Coal Exchange for consignment to pool No. 9, when used by itself and not mixed with coal from any other pool.

Admitted for Coastwise Trade.

Coal originating on the New York Central Railroad or any of its connecting lines which has been or may be classified by the Tidewater Coal Exchange to pool No. 4 and pool No. 10, and coal originating on the Pennsylvania, Baltimore & Ohio, or Western Maryland, or any of their connecting lines, for consignment to pool No. 10, as well as pool No. 1 and pool No. 9 coal, is admitted as permissible bunker coal for coastwise trade.

Coal for "overseas trade" is described as including coal furnished ships engaged in trade between ports of the United States and ports of foreign countries, either trans-Atlantic or via Panama Canal, and between ports of the United States and the Panama Canal Zone or Porto Rico, and coal furnished to all Navy vessels and Army transports of the United States and its allies, whether engaged in trans-Atlantic service or otherwise.

Coastwise Trade Defined.

Coal intended for "coastwise trade" includes coal furnished ships in service between Atlantic ports of the United States and between such ports and Canada.

The order prohibits the shipment of [illegible] sizes of coal smaller than run of mine to any port for bunker purposes or to any pool except when special permission of the United States Fuel Administration has been obtained.

NOTE.—Lists of American prisoners of war are received by the War Department from different sources, semi official and official. Information regarding some of the prisoners herewith mentioned have previously been given to the public. The names of the same American prisoners often appear on different official lists furnished by the German Government—e. g., when a prisoner is transferred from one prison camp to another, this information is furnished on an official list showing him to be at a different camp.

CUSTODIAN SEIZES TWO LARGE GERMAN-OWNED CONCERNS

(Continued from page 11.)

Aaron Hirsch & Sohn in the American business has continued to date and that except for Mr. Vogelstein's participation in the profits, all of the assets of the American concern belong to the German firm.

Large Quantities of Copper Stored.

Mr. Garvan in his investigation discovered that Vogelstein & Co. had stored large quantities of copper for delivery after the war to Aaron Hirsch & Sohn. He also found that the latter concern had guaranteed notes for several hundred thousand dollars given to a New York bank by L. Vogelstein & Co.

When Vogelstein formed the corporation he recognized that Aaron Hirsch & Sohn owned at least some of the stock, and the entire $5,000,000 of capital stock was placed in the possession of Vogelstein's attorneys to await an accounting with the German firm at the end of the war. Mr. Palmer has taken possession of the entire $5,000,000 of stock and has taken control of the business.

NEW UNIFORMS AND INSIGNIA FOR RED CROSS MOTOR CORPS

(Continued from page 15.)

It has been decided that women of the American Red Cross Motor Corps Service shall carry the official telegrams containing information regarding over-seas casualties to the homes of relatives of the killed and wounded. In performing this work auxiliary members of the corps are in position to render home service of a tender sort as well, at a time when a woman's help and sympathy are most valuable.

Official Bulletin

PUBLISHED DAILY under order of THE PRESIDENT of THE UNITED STATES by COMMITTEE on PUBLIC INFORMATION
GEORGE CREEL, Chairman ★ ★ ★ COMPLETE Record of U. S. GOVERNMENT Activities

VOL. 2 WASHINGTON, THURSDAY, JULY 25, 1918. No. 369

U. S. DESTROYER COMMISSIONED 70 DAYS AFTER KEEL WAS LAID

World Record Broken at Mare Island Navy Yard, Says Secretary Daniels.

Secretary Daniels this morning announced that he had received a telegram stating that the U. S. destroyer *Ward* was put into commission yesterday at Mare Island Navy Yard, Cal., 70 days after her keel was laid.

"This breaks the world's record," said the Secretary in making the announcement. "Before the war from 20 to 24 months were required to complete a destroyer. The keel of the *Ward* was laid on May 15 at 7.30 a. m. The vessel was launched at 8.30 p. m. June 1—17½ days after her keel was laid. She was put into commission June 24—70 days after the laying of the keel.

"The *Ward* was built at the Mare Island Navy Yard, which has set a fast pace in destroyer construction, and in building the *Ward* has made a new world's record."

CONGRATULATES HONDURAS ON HER DECLARATION OF WAR

Upon receipt of a note from the minister from Honduras officially informing the department of his Government's action in regard to the declaration of a state of war with Germany, the Department of State has instructed the American minister at Tegucigalpa to inform the Government of Honduras that it is with deep satisfaction that the Government of the United States learns that the Government of Honduras has decreed the existence of a state of war between Honduras and Germany.

The Government of the United States considers this action against the common foe of civilization a further proof that Honduras firmly espouses the cause of democracy, and tenders its congratulations to its sister Republic upon the noble and high-minded position it has assumed in placing itself on the side of the other free nations which are championing the cause of humanity.

TWO ENGINEER MAJORS.

Special Orders, No. 163:

236. The appointments of the following-named officers in the Engineers, National Army, with rank from July 12, 1918, are announced:

To be majors.

Capt. Thomas B. Whitted, Engineer Reserve Corps.

Capt. John W. Wickersham, Engineer Reserve Corps.

AMERICAN FISHING BOAT SUNK BY GERMAN SUBMARINE BOMB

Secretary Daniels authorizes the following:

Information has been received that the two-masted American schooner, *Robert and Richard*, owned by John Chisholm & Son, Gloucester, Mass., was sunk by a submarine on July 22, between 10 a. m. and 11 a. m., about 100 miles off Cape Ann, while returning to Gloucester from fishing grounds.

The submarine fired a shot across the bow of the *Robert and Richard* but did not hit the vessel. The crew left the ship. The submarine then came alongside and ordered the captain of the schooner to put German officers and men aboard. The Germans placed bombs in the forward part of the ship, which was blown up.

The schooner's crew were allowed to remain in the boats and all have been landed. One dory with four survivors reached shore. Twelve of the crew were picked up by a collier and three men and one boy by a tug.

Shell Fired by Mistake Hits a U. S. Submarine

The Navy Department is informed that a United States submarine was fired on by mistake by an armed merchant vessel on July 23 off the American coast. One shell penerated the outer hull of the submarine, but did not explode. No material injury was done, only a small section of shell plating being damaged. No one aboard was injured, and the submarine proceeded to her base under her own power.

SEAMAN IS DROWNED.

The Navy Department is informed that Patrick Kinny, seaman, second class, United States Naval Reserve Force, was drowned at Great Lakes, Ill., July 20. Next of kin, brother, Michael Kinny, 3749 South Halstead Street, Chicago, Ill.

RED CROSS SUPPLIES RUSHED TO WOUNDED CZECHO-SLOVAKS AND REFUGEES IN MANCHURIA

AMERICAN WARSHIPS CROWDED

Relief Work at Vladivostok in Charge of Department of Commerce Trade Commissioner—Dr. Tuesler Hurrying From Tokyo.

The American Red Cross authorizes the following:

Hospital supplies, ambulances, medical personnel, and necessary funds have been rushed to Vladivostok by the American Red Cross for the care of wounded Szecho-Slovak soldiers, who are reported engaged in serious fighting at Nikolsk and other points in the vicinity of Vladivostok, with heavy casualties. Refusing to recognize the peace between Russia and the Central Powers and endeavoring to withdraw their forces from Russia toward Vladivostok, they have met with determined opposition from former German and Austrian war prisoners.

Wounded on United States Warship.

The urgent needs of the situation were brought to the attention of the American Red Cross by Secretary Daniels, who reported that an American man-of-war was caring for 83 wounded, but that the facilities of the warship were wholly inadequate for the rapidly increasing number of wounded.

Relief measures were immediately instituted by Otis H. Cutler, director of the Bureau of Foreign Relations of the American Red Cross, through foreign chapters of the organization. Dr. R. B. Tuesler, head of St. Luke's Hospital at Tokyo, was requested by cable to hasten to Vladivostok with necessary hospital supplies and personnel and assume charge of the relief work. Pending his arrival, Charles L. Preston, a prominent American merchant at Vladivostok, was secured to take charge of immediate relief needs. Mr. Preston is a trade commissioner for the Department of Commerce, by which he was temporarily released. The assistance of American Red Cross chapters at Tokyo and Shanghai was enlisted.

Need of Food and Funds.

Mr. Preston reported that the wounded Czechs now in naval hospitals are in dire need of proper food supply and lacking necessary funds. He reported the imperative need of doctors, medicines, and bandages, and was authorized to draw on the American Red Cross for $10,000 to care for immediate needs. The Japan chapter of the American Red Cross, assisted by the staff of St. Luke's Hospital, has undertaken the organization and

equipment of a hospital unit to be located on a Russian island.

Charles K. Moser, American consul at Harbin and head of the American Red Cross chapter there, has also been authorized to draw on the American Red Cross to amount of $5,000 for the care of Russian refugees whose condition he reported to the American Red Cross, through the State Department, in the following cable:

Reports Refugees Destitute.

"Eight hundred refugess are now living in tents and freight cars at Manchuria whose homes were destroyed by advancing Bolsheviks and war prisoners after Semenoff's retreat—50 per cent being children and 30 per cent women. They are mostly farmers, coal miners, and railway employees, and are completely destitute. They are being fed at present by Semenoff's private means, but he can not furnish supplies. They have appealed to the Russian-American Red Cross for clothing and homes sufficient during warm weather, but if winter comes before order is restored they will require shelter. In any case many were driven out before they could plant crops and there will be no harvest. They must be fed during the winter. Thirty thousand also were driven from Siberia by war prisoners' advance, and have taken refuge in Manchuria and are destitute of everything. To-day they appealed to Howarth and all the consular agents and American Red Cross for help, which we must have immediately."

INVESTIGATION OF THE REPORTS OF BAD MEAT AT CAMP TRAVIS

The Department of Agriculture authorizes the following:

The Department of Agriculture has completed its investigation of the statement made and widely published some weeks ago that meats and poultry unfit for food had been sold or offered for sale for Army consumption at Camp Travis, and finds that the Federal meat inspection was not involved. This announcement is made by the department because inquiries received indicate an impression that the reports reflected on its meat-inspection service.

Basis for Statements.

The published statements were based partly on information given out by the Federal Trade Commission, but a letter from Commissioner Victor Murdock to Dr. John R. Mohler, chief of the Bureau of Animal Industry, makes it clear that no blame is attached to the meat inspection. Mr. Murdock says:

The question of meat contracted for by the Army and examined by your inspector at San Antonio is not at issue. No complaint was heard of the meats issued by the camp quartermaster at Camp Travis. * * * The meats referred to in the complaints * * * were offered to the camp through channels which do not have the benefit of Federal inspection * * *.

NEW DIRECTOR OF LUMBER.

The War Industries Board authorizes the following:

Charles Edgar, formerly acting chief of the lumber section, has been appointed director of lumber of the War Industries Board. Mr. Edgar succeeds R. H. Downman, resigned.

RED CROSS SUPPLIES SERUM TO PREVENT WOUND INFECTION

The Red Cross makes public the following:

A six months' supply of bacilli Welchi serum for the cure and prevention of the deadly gaseous gangrene, or malignant gaseous edema, amounting to 120,000 doses, has been ordered by the American Red Cross in this country for shipment to the Red Cross Commission in France. The serum is a development of the last year or so and the supply is limited. When a request was received from the commission to France for the shipment of 20,000 doses monthly, the War Council immediately took steps to insure a supply for the future by placing an order, as above stated. The sum appropriated for the purpose was $91,800.

Discovered By Dr. Welch.

The bacilli Welchi, a small, spore-bearing germ which is the cause of gaseous gangrene, was discovered by Dr. W. H. Welch, of Johns Hopkins University, a member of the medical advisory committee of the American Red Cross, in 1892. The disease in question develops within a few hours of the time when the wound is received and, if left to itself, invariably proves fatal. Its duration is from 12 hours to 4 days. From careful anatomical studies it has been demonstrated that the disease develops only in wounds involving muscle tissue.

Immune Serum Developed.

Experiments recently conducted in the Rockefeller Institute for Medical Research, by Dr. Carroll, G. Bull, and Ida W. Prichett, seemed to prove conclusively that the former ideas as to the action of this germ were erroneous, and that its pathological results are due to an exotoxin, manufactured locally and absorbed into the circulation. In the experiments five cultures of bacillus Welchi were studied and compared. Four came from infected wounds in the western theater of the war and one was obtained from a personal article of clothing, a favorite habitat of the germ.

As a result of the experiments an immune serum, or antitoxin, has been developed. This antitoxin is protective and curative against infection with the spore and the vegetative forms of the bacillus Welchi. It is used and is in its effect the same as the antitoxin of diphtheria in the present-day treatment of the latter disease.

REVIEW OF ENGLISH TRADE RESTRICTIONS SINCE THE WAR

The Department of Commerce, Bureau of Foreign and Domestic Commerce, authorizes the following:

British trade restrictions since the beginning of the war are outlined in a report made public by the Bureau of Foreign and Domestic Commerce, Department of Commerce. These restrictions have a very important bearing on American industry and commerce and hundreds of inquiries have been received in Washington concerning them.

The Government's report traces the history of the various steps that have been taken to restrict British imports and exports and makes clear the scope of the measures so far adopted. A complete list of commodities affected up to June 10 is included.

The bulletin is entitled "British Control of Imports and Exports," tariff series No. 39, and is sold at 5 cents a copy by the Superintendent of Documents, Government Printing Office, Washington, D. C., and by all district and cooperative offices of the Bureau of Foreign and Domestic Commerce.

CONFERENCE TO DISCUSS STATUS OF DISABLED SOLDIER WORKERS

The Federal Board for Vocational Education authorizes the following:

One of the most difficult problems in connection with the training and employment of disabled soldiers and sailors resulting from the war, as provided under the vocational rehabilitation act, approved June 27, is the status of such men in industry after their return to employment.

Joint Conference Called.

The office of the Federal Board for Vocational Education, to which has been intrusted by Congress the administration of this law, believes it to be necessary at the outset to obtain the advice and assistance of the State compensation boards and leading casualty companies of the country in working out this problem. The Federal board has, therefore, called a joint conference of such boards and such companies to be held in Washington Friday, July 26, in the committee room of the Senate Office Building, adjoining room 226, when the subject will be gone into fully.

Precedent in England.

The matter of rates of casualty companies on plants carrying accident insurance and employing disabled men who have been vocationally reeducated will be one of the subjects of major importance. In Great Britain the casualty companies have unanimously and by formal action of their association refused to advance the rates on employers of retrained soldier labor, thus refusing to add any obstacles to the finding of employment for these men who have been refitted for industrial life.

FUEL ADMINISTRATION ORDERS COAL RUSHED TO LAKE PORTS

The Fuel Administration issues the following:

The United States Fuel Administration has ordered district representatives to still further expedite the shipment of coal to lake ports for transportation to the Northwest. This action was taken to insure the shipment of sufficient coal, via lakes, to fill the requirements of the Northwest before lake navigation closes.

All district representatives were notified to give preference in their shipments to the lake coal which their districts are required to ship. Shipments to the lakes will be moved ahead of all other coal leaving the fields, except that intended for railroad fuel, for by-product coke plants, and for the manufacture of illuminating gas until further orders.

NEW FLOUR AND FEED PRICE SCHEDULE FOR ALL MILLING POINTS IN COUNTRY

SUPERSEDES OLD PLAN

Certain Costs, Including Those of Packages, Are to Be Added to "Fair" Figures—Copies of Schedule Being Mailed Out by the Food Administration.

The Food Administration issues the following:

The United States Food Administration's so-called temporary plan of flour milling profit control, which was made effective July 1, is now being superseded by a plan which is expected to be permanent throughout the 1918–19 crop year, with possibly some modifications under special circumstances.

The temporary plan established flour prices at seaboard points, and local prices were worked out from these by deducting freight. The new plan established definite fair prices at every mill point in the United States.

Distribution of Schedules.

Up to the evening of July 21 over 4,800 of these individual fair price schedules had been forwarded to mills, and it is expected that by the evening of July 24 the fair price schedules will have been calculated and forwarded to practically every mill in the country, at least east of the Rocky Mountains.

These price schedules will give the price for flour and various kinds of mill feeds that are considered by the Food Administration as fair for sales, on cash or draft payment prices, in carload lots in bulk at the mill. However, it is expected that competition will very often result in lower prices than the so-called fair price schedule.

Fixing Upon Fair Price.

A list of these prices at several points of the country is given below. To find what may be considered a fair price, from the consumer's standpoint, it is necessary to add to these prices the cost of packages which for flour at the present time averages approximately 65 cents per barrel where flour is shipped in 98 pounds or larger sacks, with cost of other containers running as high as $2.55 a barrel over the bulk price where flour is shipped in small packages such as 2 pound cotton sacks. Feed sacks are today costing equivalent to $5.50 to $6 per ton of feed.

Also to find the delivered cost of flour in carload lots, it is necessary to add the freight from the milling point which in carload lots from Minneapolis to New York at the present time is 69 cents per barrel and, of course, there are similar or relative freight rates between other points of the country. When sales are made by mills in smaller than carload quantities, it is considered fair by the Food Administration that additional charges be made because of the additional cost of handling the smaller sales and shipments, namely, sales in less than carload lots, 50 cents per barrel on flour, and sales to individual consumers by mills $1.20 per barrel.

Sales by Jobbers.

A jobber is required to sell at not more than 25 to 50 cents over the delivered cost to him, and the retailer at not more than $1.20 over the price which he pays for the flour.

One advantage of the new plan is that as each invoice of the mill must have printed on it the so-called fair prices, it is very easy for any representatives of the Food Administration or for any buyer to know whether a mill has overcharged.

Schedule of Prices.

Schedule of fair flour and feed prices, basis carload lot bulk, at mill:

Cost of freight and packages and cost of handling less than carload quantities to be added to these prices to find delivered cost to the purchaser from mill.

Milling point.	Flour.	Bran.	Mixed feed.	Middlings, shorts, and red dog.

RED CROSS ISSUES STATEMENT REGARDING MEN OF DRAFT AGE

The American Red Cross authorizes the following:

In response to queries from several of the Red Cross divisions regarding the policy of the national organization with respect to the employment of men within the draft age, the acting general manager has issued the statement that follows:

"Our policy in respect to enrolling such men in foreign service is as follows: They are not accepted unless they have been placed in class 5, section G, because of physical disability, and, furthermore, unless the disability is visual. This removes all question as to whether the representatives of the Red Cross in foreign service should be in the Army, as at a glance it can be seen that they would not be qualified for such service. The same policy applies in respect to men enrolled for service in camps and cantonments in this country.

"Our policy in respect to enrolling such men at Division Headquarters is as follows: The Red Cross has never asked for the exemption of any one and does not expect to do so. Therefore any man so enrolled at Division Headquarters is nevertheless in all respects subject to the draft. In respect, however, to those men who have been placed in class 4, because of dependency, or placed in class 5 G, because of physical disability as above set forth, and are not therefore available for military service, but who must under the recent ruling of the Provost Marshal General be engaged in some useful work, our position is that such men so employed in important positions with the Red Cross are within the Provost Marshal's ruling and should be retained in Red Cross service.

"In the event of this question arising, each individual case should be examined and passed upon by a responsible Red Cross official in the Division office."

PROMOTED TO BE MAJOR.

Special Orders, No. 163:

150. The appointment of John E. McKerracher as major, National Army, with rank from July 13, 1918, is announced. He will proceed to Washington, D. C., and report in person to the Chief of Staff for assignment to duty.

FOREIGN TRADE OF UNITED STATES FOR 1918 SHOWS SLIGHT DECREASE UNDER LAST YEAR

The Bureau of Foreign and Domestic Commerce, Department of Commerce, issues the following:

American foreign trade fell off slightly in the fiscal year 1918, the total being $8,874,000,000, compared with $8,949,000,000 in 1917.

The imports for 1918 show an increase of $287,000,000, reaching a total of $2,946,000,000. Exports, however, show a decrease of $362,000,000, the total for 1918 being $5,928,000,000, as compared with $6,290,000,000 in 1917. The excess of exports over imports amounted to $2,982,000,000 in 1918, against $3,631,000,000 in 1917.

Exports and imports both show a falling off for June, 1918, as compared with May and April. Imports totaled $260,000,000, as compared with $323,000,000 in May, while exports amounted to $485,000,000, as against $551,000,000 in May.

Imports of gold during the fiscal year amounted to only $124,000,000, as compared with $977,000,000 in 1917, while exports were valued at $191,000,000, compared with $292,000,000 in 1917.

Silver imports amounted to $70,000,000 in 1918 against $35,000,000 in 1917, and silver exports increased from $78,000,000 in 1917 to $139,000,000 in 1918.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

American Communique

American Official Communique No. 71.

EXPEDITIONARY FORCES,

Section A.—Between the Ourcq and the Marne our troops participated in further forcing back the enemy's [illegible] the enemy's positions were penetrated to a depth of from 1 to 2 miles.

Section B.—There is nothing to report [illegible]

CAMP HUMPHREYS BUILDINGS TO COST NEARLY 3 MILLIONS

The War Department authorizes the following statement:

[illegible] has been authorized [illegible] of enlarging Camp Humphreys, located at Accotink, Va., to accommodate 30,000 troops. The work is being done by the construction division of the Army.

The expansion calls for 200 barracks, [illegible] officers' quarters, [illegible] 2 medical buildings, 4 administration buildings, 1 post exchanges, 30 storehouses, 30 stables and sheds, and 2 repair shops.

The buildings will be similar in type to [illegible] nature in other camps.

Camp Humphreys is used as a training [illegible] for engineers.

ECONOMIES IN WALL PAPER MANUFACTURE CONTEMPLATED

The War Industries Board authorizes the following:

At a conference of the war service committee of the wall paper manufacturers with Thomas E. Donnelley, chief of the pulp and paper section of the War Industries Board, plans of curtailment with a view to the conservation of paper were agreed on tentatively. Unless protested by the industry, these economies will become effective August 5.

The plans provide:

1. That in factories running under contracts [illegible] employees such printing machines as have already been allowed to operate shall be operated during the year August 1, 1918, to July 31, 1919.

2. That in factories not running under such contracts printing machines shall be operated only in the same proportion to their total machines as the machines allowed to be operated in said union factories is to the total number of all the machines in all union factories.

3. All overtime during the year August 1, 1918, to July 31, 1919, shall be discontinued.

CIVIL-SERVICE RULES WAIVED IN WAR LABOR APPOINTMENTS

EXECUTIVE ORDER.

During the continuance of the present war the Secretary of Labor is authorized to make appointments to the various positions in the War Labor Administration services without regard to the civil-service rules, it being understood that all possible use will be made of the registers of eligibles of the Civil Service Commission.

This is purely an emergency measure based upon the exigencies of the present situation, which require that these services be organized and extended as rapidly as possible. This order will be revoked when the necessity for it ceases to exist.

WOODROW WILSON.

ONLY SIX MEN BELIEVED LOST WITH THE CRUISER SAN DIEGO

Secretary Daniels authorizes the following:

Substantially complete information relative to the officers and enlisted men on the U. S. S. *San Diego* indicates that only six were lost with the sinking of that vessel. They were:

Clyde Chester Blaine, engineman, second class. Mother, Mrs. Bertha Blaine, Lomita, Cal.

Thomas Everett Davis, fireman, first class. Mother, Mrs. Alma Davis, South Mansfield, La.

Paul John Harris, seaman, second class. Father, John W. Harris, 2522 Hackberry Street, Cincinnati, Ohio.

Andrew Munson, machinist's mate, second class. Mother, Mrs. Karna Munson, 446 Maria Avenue, St. Paul, Minn.

James Francis Rochet, engineman, second class. Next of kin, Mrs. C. H. Dean, Blue Lake, Cal.

Frazier O. Thomas, machinist's mate, second class. Father, Lockard H. Thomas, Charlestown, W. Va.

One other member of the crew has not yet been heard from, but there is reason to believe that he is safe.

SUGAR AND GLYCERINE SAVED IN SOAP PURCHASES FOR ARMY

The War Department authorizes the following:

Considerable savings in sugar and glycerin are being effected by the Quartermaster Corps in discontinuing the purchase of so-called glycerin soaps for the Army. Both of these products are used in the manufacture of soap for the purpose of improving its appearance, but are unnecessary, as they do not add to the value except for commercial purposes.

Saving in a Single Lot.

A recent order from a quartermaster called for 100,000 pounds of glycerin soap. Based on the usual formula, this soap would contain 15 per cent of sugar, or a total of 15,000 pounds, which would have been a complete waste. The soap was provided, but it did not contain sugar or glycerin, so that 15,000 pounds of sugar was saved for food and a proportionate amount of glycerin was saved for the manufacture of powerful explosives.

Subsistence Division Economies.

The subsistence division of the Quartermaster Corps, through its inspection branch and the food-investigation section, is responsible for Army economies in the manufacture and supply of foodstuffs and for the saving of needed foods which are not essential in the production of supplies for the Army.

TWO MAJORS PROMOTED

Special Orders, No. 163:

155. The appointment of the following-named officers in the National Army, with rank from July 8, 1918, is announced:

To be lieutenant colonels.—Maj. John T. Nance, United States Army, retired; Maj. Edward B. Cassatt, Inspector General's Reserve Corps.

WORK OF CONGRESS BRIEFLY TOLD

The Ways and Means Committee, now considering the war revenue bill, yesterday devoted its attention to the subject of taxes on estates. Although final action was not taken it was tentatively agreed that the taxes on estates between $50,000 and $8,000,000 should be increased by 50 per cent. In the case of estates over $8,000,000 and not above $10,000,000 the present tax of 22 per cent would be increased to 35 per cent, while estates valued at more than $10,000,000 would be increased from the existing rate of 25 per cent to 40 per cent.

"We have been considering estate taxes all day," said Chairman Kitchin at the conclusion of the session, "and have been trying to agree upon rates. While our conclusions are tentative and subject to revision at any time, a majority of the committee seems to favor an increase of 50 per cent in estate taxes up to estates worth $8,000,000. Beyond that figure and up to $10,000,000 the tax will be 35 per cent, with a 40 per cent tax on estates worth more than $10,000,000."

These proposed taxes would increase the total taxes collected on estates for the year 1919 to $100,000,000 as compared with $70,000,000 for the fiscal year 1918. Figures submitted to the committee yesterday by Treasury experts indicate that the committee's tentative increases on personal incomes will yield $1,800,000,000 and on corporate incomes $2,800,000,000.

If the bill, when reported to the House, provides for inheritance taxes as tentatively agreed upon yesterday the taxes would be as follows:

On estates not exceeding $50,000, 3 per cent.

On estates exceeding $50,000 and not exceeding $150,000, 6 per cent.

Exceeding $150,000 and not exceeding $250,000, 9 per cent.

Exceeding $250,000 and not exceeding $450,000, 12 per cent.

Exceeding $450,000 and not exceeding $1,000,000, 15 per cent.

Exceeding $1,000,000 and not exceeding $2,000,000, 18 per cent.

Exceeding $2,000,000 and not exceeding $3,000,000, 21 per cent.

Exceeding $3,000,000 and not exceeding $4,000,000, 24 per cent.

Exceeding $4,000,000 and not exceeding $5,000,000, 27 per cent.

Exceeding $5,000,000 and not exceeding $8,000,000, 30 per cent.

Exceeding $8,000,000 and not exceeding $10,000,000, 35 per cent.

Exceeding $10,000,000, 40 per cent.

D. W. COOKE APPOINTED FUEL ADMINISTRATOR FOR NEW YORK

The Fuel Administration authorizes the following:

United States Fuel Administrator Garfield announces the appointment of Mr. D. W. Cooke as Federal fuel administrator for New York. Mr. Cooke is vice president of the Erie Railroad Co. To assume his new duties with the Fuel Administration he will resign his position as chairman of the traffic executives of the allies, but will remain a member of that organization and will represent it on the Exports Control Committee. Mr. Cooke, in company with Fuel Administrator Garfield and operating executives of the Railroad and Fuel Administrations, spent all day Monday visiting the harbor facilities of New York City and inspecting all coal piers in New York Harbor.

Dr. Garfield announced at the same time the appointment of Mr. Charles E. Robertson and Mr. Reeves Schley as assistant Federal fuel administrators for New York. The former has been a deputy under Mr. Wiggin and a member of his advisory committee. The latter has been Federal fuel administrator for New York County.

In making the announcements, Dr. Garfield called attention to the fact that, notwithstanding the regrettable and unavoidable delay in the appointment of Mr. Wiggin's successor, the work of the Fuel Administration in New York has been proceeding in regular course and New York has been receiving its full allotment of coal. Under the present distribution plan each State will receive a fixed part of the available supply, as determined by Washington, and New York is accordingly bound to receive its full part in any event, whether delivered now or later.

FUEL ADMINISTRATION ORDER TO CORRECT OIL TRADE ABUSES

The Fuel Administration issues the following:

Complaint was filed with the Federal Trade Commission by one of the oil companies of Shreveport, La., alleging unfair practices on the part of one of its competitors.

An investigation was made by the Federal Trade Commission, and the complaint, together with the result of the commission's investigation, was referred to the United States Fuel Administration.

Administration Issues Instructions.

A hearing was held in Washington by the Oil Division of the Fuel Administration on July 11, 1918, resulting in instructions being issued on July 19 by the Fuel Administration, directed to all oil companies operating in Shreveport and vicinity, as follows:

Pending the issuance of a general order, you are directed as follows: Make no allowance to retailers on gasoline or kerosene exceeding 1 cent per gallon. Make no drayage allowance to consignees on drum or barrel shipments. No permanent equipment shall be given or loaned, and sale or rental must be based on a fair value. Give no premiums, secret fees, or rebates. Coupon books (if sold) not more than 2 per cent discount for cash. Neither buy nor rent premises nor equipment from existing retailers. Furnish retailers no employees. Pay retailers no salaries or commissions.

Will Issue General Order.

It is the intention of the Fuel Administration to issue after full investigation a general order regulating the trade practices of oil-marketing companies throughout the United States. The oil industry will be asked to give prompt consideration to all existing trade practices and to advise the Oil Division of the Fuel Administration in regard thereto. This may be done either direct or through the National Petroleum War Service Committee or its subcommittees throughout the country. It is hoped that by this means the order when issued will be as fair and as far-reaching as possible, so as to bring about a correction of whatever discriminations and abuses may now exist.

ANTI-CONTINGENT FEE CLAUSE IN INTERIOR DEPT. CONTRACTS

DEPARTMENT OF THE INTERIOR.
Washington, D. C., June 24, 1918.

ORDER.

Hereafter all contracts made under this department shall contain the following form of covenant:

The contractor expressly warrants that he has employed no third person to solicit or obtain this contract in his behalf, or to cause or procure the same to be obtained upon compensation in any contingent, in whole or in part, or promised or agreed to pay, to any third person, in consideration of such procurement, or in compensation for services in connection therewith, any brokerage, commission, or percentage upon the amount receivable by him hereunder; and that he has not, in estimating the contract price demanded by him, included any sum by reason of any such brokerage, commission, or percentage; and that all moneys payable to him hereunder are free from obligation to any other person for services rendered, or supposed to have been rendered, in the procurement of this contract. He further agrees that any breach of this warrant shall constitute adequate cause for the annulment of this contract by the United States, and that the United States may retain to its own use from any sums due or to become due thereunder an amount equal to any brokerage, commission, or percentage so paid, or agreed to be paid.

ALEXANDER T. VOGELSANG,
Acting Secretary.

COST OF OPERATING AIR MAIL ABOUT FIFTY CENTS PER MILE

The Post Office Department authorizes the following:

The first report of the comparative cost of the operation and maintenance of the Air Mail Service shows that the airplanes used in this service have broken all records for economy of gas consumption.

The total of all operating expenses of nine airplanes covering flights aggregating 7,234 miles, was $3,682. The total consumption of gas representing 113 hours and 8 minutes of flying was 1,277 gallons, which is $32.50 per hour—something over 50 cents per mile. The total cost of gas was $405 in flying 7,234 miles.

The best performance in flying was made by a Curtis J-N-4 machine, which flew 26 hours and 40 minutes at a cost of $28.01 an hour and covered 1,719 miles at a cost of 43½ cents per mile. A plane equipped with a Hispano-Suiza 150 horsepower engine used approximately 8 gallons of gas per hour, and a plane equipped with a 400-horsepower Liberty motor used 17 gallons per hour. This shows 40 per cent less gas consumed than generally required for airplane engines of these sizes.

The calculation of operating cost includes departmental overhead charges, interest on investment, replacement of parts, deadhead time of mechanics, gas, lubricating oils, office force, motor cycles and trucks; rent, fuel, light, and telephone; pay of pilots, hangar men and mechanics.

The average consumption of gas for the nine planes was 12 gallons per hour.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	32
Died from wounds	6
Died of disease	3
Died from accident and other causes	3
Wounded severely	123
Wounded slightly	1
Wounded (degree undetermined)	16
Missing in action	2
Prisoners	2
Total	188

Killed in Action.

SERGEANTS.

Frank R. Maddox. Mrs. Anna Maddox, 39 Glenwood Street, Marlboro, Mass.

Clarence N. Turner. Mrs. Susan Turner, R. F. D., Van Buren, Ark.

Linfred S. Tweedy. J. P. Tweedy, Ireton, Iowa.
Edward J. Voss. Mrs. Fred Voss, Pomeroy, Iowa.

ITALY FIXES MAXIMUM PRICES FOR SUPERPHOSPHATE SALES

Consul General David F. Wilber at Genoa reports:

By a decree published in the Gazzetta Ufficiale of May 29, Italy fixed the maximum sale prices of superphosphates to farmers. The price is per unit of phosphoric anhydride soluble in citric[illegible] ammonia in sacks of 100 kilos (220.46 pounds), good canvas, f. o. b. port, as follows: At the ports of Genoa, Spezia, Leghorn, Civitavecchia, Portici (Granatello), Milazzo, Porto Empedocle, and Taranto, 1.55 lire per unit [at normal exchange the Italian lira is worth 19. cents American gold]; Barletta and Ancona, 1.56 lire; Ravenna, 1.57 lire; Venice, 1.58 lire.

For goods consigned in bulk or [illegible] belonging to the purchaser and sacked by him the above maximum prices shall be diminished by 23 centesimi per unit and shall accordingly be 1.32 lire, 1.33 lire, 1.34 lire, and 1.35 lire, respectively. For goods consigned in sacks of 50 kilos (110.23 pounds) the base prices may be increased by not more than 14 centesimi per unit.—Commerce Reports.

Missing in Action.

PRIVATES.

Byron E. Belknap. Mrs. Prudence Belknap, 446 Clinton Street, Lockport, N. Y.
William P. Fernandes. Angelo Fernandes, 107 Christopher Street, New York, N. Y.

Prisoners.

Corpl. John L. Murray. Mrs. William Bailey, Falls Village, Conn.
Pvt. Edward M. Greene. Mrs. Mary Greene, 135 Farmington Avenue, Bristol, Conn.

Notes.

Previously reported killed in action, is now officially reported prisoner—Lieut. Leslie B. Allen. John Allen, Saugatuck, Conn.

Previously reported missing in action, now officially reported as having returned to duty.—Pvt. Lucius M. Cook. Mrs. William M. Cook, care of Dr. McCullough, Mill Neck, N. Y.

Additional List of American Prisoners and the Camps Where They Are Held

The War Department authorizes the following

The following is a list of soldiers of the American Expeditionary Forces whom it has been ascertained are now prisoners of war in Germany:

Name.	Rank.	Emergency address.
CAMP DARMSTADT.		
Bichum, Tony	Private	Michael Bichura, brother, 28 Grove Street, New Brighton, Staten Island, N. Y.
Gravatt, Chester D.	do	Mrs. Henry Gravatt, mother, 144 Emmett Street, Newark, N. J.
Murray, John L.	Corporal	Mrs. William Bailey, aunt, Falls Village, Conn.
CAMP LIMBURG.		
O'Sullivan, William	Private	Michael J. O'Sullivan, father, Camp Street, Peterville, Vt.
CAMP NOT KNOWN.		
Brown, Joseph H.	Private	Mrs. M. Brown, mother, 1749 Richmond Terrace, West, New Brighton, Staten Island, N. Y.
Knowlton, Charles W.	do	Mrs. Clara Knowlton, mother, Fairfield, Conn.
Lagassey, Joseph Z.	Private, first-class.	Anthony Lagassey, father, South Elm Street, Bristol, Conn.
Stewart, Randolph S.	Private	Alfred Stewart, father, 22 West Main Street, Plainville, Conn.
Jones, John W.	do	Mrs. Mary Jones, mother, 1014 Church Street, Oxford, Ala.
Williams, George M.	Corporal	Ewing Williams, father, 340 South Green Street, Henderson, Ky.

Requirements as to Consignment of Shipments of Material Needed For Government Work Are Outlined

UNITED STATES
RAILROAD ADMINISTRATION,
Washington, D. C., July 24, 1918.
GENERAL ORDER No. 38.

Pursuant to the act approved March 21, 1918, entitled "An act to provide for the operation of transportation systems while under Federal control, for the just compensation of their owners, and for other purposes," it is ordered that on and after the 15th day of August, 1918, the following requirements and provisions shall apply and be observed in respect to the shipments hereinafter described.

1. Shipments intended for use of any one of the Government departments, either directly or through a contractor with the United States Government, shall not be entitled to or receive any privilege which may be accorded on account of being intended for use of one of the United States Government departments, either directly or indirectly through a contractor with the United States Government, where said shipments are consigned otherwise than in one of the following ways: (a) To a Government officer designated, not by the name of the individual, but by the title of his position, as for example: Supply Officer, Naval, Inspector, or Constructing Quartermaster. (b) To a Government officer designated not by name but by title as above, followed by the words "For account of," and then followed by the name of the contractor or agent for the Government engaged on the work at the point of destination. (c) On some contracts the Government has entered into an agreement designating certain parties as agent, or agents, for the Government on that particular contract. Shipments for such parties shall be consigned to the particular department for which the work is being done, followed by the words "For account of," and then followed by the name of the agent, as, for instance: "Ordnance Department, for account of du Pont Engineering Co., agent, Penniman, Williamsburg, Va.," or "Ordnance Department, for account of T. A. Gillespie Loading Co., agents, South Amboy, N. J." (d) Shipments of material, equipment, and supplies for any person repairing or building ships under the supervision of the United States Shipping Board Emergency Fleet Corporation, shall be consigned only to the United States Shipping Board Emergency Fleet Corporation, followed by the words "For account of," and then followed by the name and location of the particular concern performing the work, as for instance: "United States Shipping Board Emergency Fleet Corporation, for account of American International Shipbuilding Corporation, Hog Island, Pa."

2. It is forbidden (a) in consigning a shipment to use the words "United States Government" or substantially that term, or abbreviations thereof, as the sole description of the consignee; (b) or to consign a shipment to and in the name of the United States Government, followed by words indicating that it is sent "care of" a private person, firm, or corporation; (c) or to consign a shipment to a Government official or to an officer of the Army or Navy by his name as an individual; (d) or to consign a shipment to a Government official or to an officer of the Army or Navy followed by words indicating that it is sent "care of" a private person, firm, or corporation.

3. No shipper or other person seeking or obtaining any privilege which may be accorded on account of the shipment being intended for the use of any one of the United States Government departments, either directly or indirectly through a contractor with the United States Government, shall, without authority, use, or cause to be used, as consignee the name or title of the United States or of any department, bureau, agency, employee, or officer thereof, or of the United States Shipping Board, Emergency Fleet Corporation, or of any officer, agent, employee thereof, or of any other person, or the designation "Emergency Fleet Corporation"; nor shall any shipper or other person offer or cause to be received for carriage, or transported, without authority, any such shipment consigned as specified in the foregoing paragraphs, numbers 1 and 2, for the purpose of securing by such consignment any privilege which may be accorded on account of the shipment being intended for the use of any one of the United States Government departments, either directly or indirectly, through a contractor with the United States Government.

4. Agents are forbidden to sign or issue bills of lading or receipts for shipments which in any manner conflict with any of the foregoing provisions.

W. G. MCADOO,
Director General of Railroads.

(Violation of the foregoing order is punishable by fine of not more than $5,000 or by imprisonment for not more than two years or by both such fine and imprisonment.)

RATES OF PAY FOR MECHANICS ON RAILROADS ANNOUNCED

The Railroad Administration issues the following:

Director General McAdoo announces that he has approved supplement No. 4 to General Order No. 27, which provides the following minimum rates and increases for employees of the mechanical departments on all railroads under Federal control:

1. Machinists, boiler makers, blacksmiths, sheet-metal workers, molders, and first-class electrical workers, 68 cents per hour.

2. Car men and second-class electrical workers, 58 cents per hour.

3. Helpers, 45 cents per hour.

4. Foremen, paid on hourly basis, 5 cents per hour more than respective crafts.

5. Foremen, paid on monthly basis, increase $40 per month, minimum $155 and maximum $250.

6. New rates are retroactive to January 1, 1918.

7. Beginning August 1, 1918, eight-hour day, with time and one-half for overtime, Sunday work, and seven specified holidays.

8. Payments of back pay will be made just as soon as they can be calculated.

The new order is lengthy and in detail and its full text will be printed and issued from Washington on or before August 1, 1918.

TRAINING OF COLLEGE STUDENTS FOR MEDICAL CORPS OFFICERS

The War Department authorizes the following statement from the office of the Surgeon General:

The Medical Department of the Army, through the National Research Council, will shortly issue an appeal to American colleges and universities urging them to alter their curriculum so that third and fourth year students may receive special training which will enable them to qualify as officers and for other work in the Medical Department.

Sent to All Colleges.

The appeal will be sent to all the principal colleges and universities in the country, but as it is realized that important institutions may not for various reasons receive the appeal the request is made that all directing heads of such institutions write to either Dr. Richard M. Pearce, of the National Research Council, Washington, or to the Division of Laboratories, Office of the Surgeon General, Washington, for details of the proposed plan.

These colleges will render valuable assistance to the Government by offering these special courses to their students who will enter the Army when they become of age or in the event that they volunteer before that time. The students desired are those who are taking the various scientific courses. The course proposed by the Medical Department should appeal to men who are specializing in biology, zoology, plant pathology, and in industrial and agricultural bacteriology.

Arranging the Courses.

In a number of institutions the necessary courses can be arranged by a simple modification of the already existing course in bacteriology with added emphasis on special subjects of value to the Army.

After completing such courses arrangements for enlistment can be made through the Surgeon General's Office if the applicant is under draft age, and if of draft age he can be inducted into the service and assigned where his special training will be of value.

Plan Already Tested.

This plan has already been tested in two colleges and the success attained has led the Medical Department to apply it to as many colleges as possible. From one such institution every man taking the modified course was admitted directly into the Army and went to one of the training schools, where a portion of them will later qualify for commissions in the Sanitary Corps. Others have qualified for positions at field or mobile laboratory units and as assistants in base and evacuation hospitals.

The philosophy of the W. S. S. is save, save, save.

OIL CONTROL PROGRAM IS OUTLINED IN AN ADDRESS BY DIRECTOR REQUA TO PRODUCERS AT TULSA, OKLAHOMA

VOLUNTARY ACTION IS URGED UPON ALL

Government Prepared to Deal with Any Who Fail to Cooperate in Patriotic Spirit Animating the Oil Industry—Stabilized Price Differentials Between Crude and Refined Proposed.

In an address to oil producers at Tulsa, Okla., on Monday, July 22, Mr. M. L. Requa, general director of the oil division, United States Fuel Administration, speaking on "The Necessity for Government Control of the Oil Industry," said in part:

Your Oklahoma papers have in all seriousness asked "Why?" Have stated that the producers of oil in Oklahoma wanted to be let alone; that they can not understand why Government control or supervision of the industry should be necessary, nor who will benefit by the stabilization of prices.

This war can not be won without the product of petroleum.

We are confronted by conditions never paralleled in the history of the world. Innumerable industries are under restraint and the manufacturers allowed to operate only for the actual needs of the United States Government.

Is the oil industry unique or exempt? Does it seek for itself the right to go unchallenged and uncontrolled? I confess that that is not my conception of the spirit of the industry. The proposal that I am making is that stabilized differentials be created as between crude petroleum and finished products at the refinery and as between refinery prices and the price to the ultimate consumer; that these differentials be maintained and move in unison with the price of crude; that if necessary the volume of business be frozen and new business equitably distributed; that the old theory of competition give way for the war period to a condition of mutual helpfulness in behalf of national welfare, and that all these things be brought about by the voluntary action of the industry in harmonious cooperation with the Fuel Administration.

Curb for Selfishness.

If any there be who are so lacking in the spirit of the times as to build up selfishly their own business at the expense of others, regardless of the larger view, I am sure that we will find some way to control their activities. It is perfectly obvious that if a large proportion of the refining industry patriotically sets and observes a reasonable standard of premiums for crude, the Government can not permit other refineries to take that crude at increased prices, to the injury and detriment of the patriotic citizen.

The present discussion will not go into the question of the price of crude. That price should be eminently satisfactory to the producers. Certainly never before in the history of the industry have they received profits equal to those now being gained. Our discussion has to do with the subject of premiums to be paid above the base price for crude of superior quality.

A Request, Not an Order.

It is not to be understood in any sense as an order to pay premiums, but simply as an inquiry—a request—to the industry to determine the amount of premium a refiner may pay, if he so elects, without subjecting himself to criticism. I have presented no plan, but have simply asked that the industry for the national welfare determine a method that will most satisfactorily accomplish the desired result. I am here for the purpose of discussing with you the reason for this request and to ask you to determine what method will in your opinion be most satisfactory. In approaching the subject, I ask that you keep in mind the abnormal conditions that surround us, and that you remember we may no longer apply old standards of measurement, but must surround ourselves with the atmosphere of war and use the national necessity as our measuring stick.

It has been intimated that any interference with premiums upon crude would tend to eliminate the independent and throw the entire business into the hands of the Standard or other great organizations. It is unthinkable to presume that the Government should take one action that might prevent the refiner from securing his crude and not take another action that would assure him his source of supply, permitting him to continue his activities.

The Allocation of Oil.

The quantity of oil so provided is to be based upon some past volume of business, keeping in mind the paramount necessity to see to it that our Army and Navy and the armies and navies of our allies are amply supplied. This in effect means the allocation of oil, which will be undertaken if necessary, but only after most careful deliberation and consideration of all the complexities involved.

There is nothing unfair and there is nothing unjust in a request such as is made upon the oil industry by the Fuel Administration. The producers of oil, the refiners, and the marketers are trustees on behalf of the Nation; and they can not shirk the responsibility that comes with that trusteeship, nor can that trust be righteously administered at this time save in the national interest.

An International Problem.

The problem of petroleum is not a domestic problem, but is one which vitally concerns not only the welfare of our American soldiers and sailors, but the welfare of the allies also. I am perfectly sure that when the history of these times shall have been written there will be no brighter page than the one which tells of the triumphant success of your industry in meeting every call made upon it for its different products and of its having so governed itself as to deserve the highest praise for its patriotic devotion and demonstrated ability to rule itself wisely and conservatively—a triumphant vindication of the principles of democracy.

I can not believe that the oil industry comprehends how utterly helpless it would be at this time without the services of this department.

I want you to understand as clearly as possible that under existing conditions the oil industry can no more get along without the assistance of the Government than can the Government get along without the products of petroleum.

Necessity for Government Aid.

We are engaged in a great war. We have joined with other nations in defending the cause of human liberty and freedom. The representatives of the people—the Congress of the United States—has passed war measures for the purpose of national defense. The times demand stern discipline; powers have been conferred that may be justified only on the plea of national safety. Among those acts is the so-called Lever bill, giving to the President authority over foods, feeds, and fuels, including oil; so far-reaching in effect that I question whether many of you here present fully realize the power and the authority vested in the President, who, in turn, has authorized Mr. Garfield to act for him in the administration of the bill so far as coal and oil are concerned.

The Lever bill expressly authorizes the determination of just, reasonable, and fair profits and practices. I know you must agree that under the terms of this law there is ample authority for the most sweeping control.

Faith in the People.

It is because of these drastic provisions that I have been especially careful in the application of them. I have gone on record as believing that a free people, schooled in democracy, could successfully police their own industries as a voluntary and spontaneous tribute to the form of government under which they live. I am still of that opinion; and it is because of that belief that I am here to-day to lay before you the problem of the Fuel Administration as related to the oil industry and to counsel with you to the end that you may see the necessity not only of concerted action but of voluntary action in behalf of national regulation.

THREE CHAPLAINS APPOINTED.

Special Orders, No. 163:

158. The appointment is announced of the following named as chaplains. National Army, with rank of first lieutenant from the dates set opposite their names. They will proceed to Portland, Oreg., and report not later than July 27, 1918, to the commanding officer, spruce production division, for assignment to duty under his command: Fred Harmon Ross, July 11, 1918; Paul R. Reynolds, July 12, 1918; Paul Edward Dubois, July 13, 1918.

COMMITTEES APPOINTED TO ADJUST FREIGHT TARIFFS AMONG CARRIERS

The United States Railroad Administration authorizes publication of the following letter:

Division of public service and accounting, Charles A. Prouty, director.

Division of traffic, Edward Chambers, director.

WASHINGTON, D. C., *July 20, 1918.*

Messrs. B. Campbell, chairman, eastern freight traffic committee, 143 Liberty Street, New York, N. Y.; E. P. Bates, eastern freight traffic committee, 143 Liberty Street, New York, N. Y.; W. C. Maxwell, eastern freight traffic committee, 143 Liberty Street, New York, N. Y.; J. C. Lincoln, Merchants' Association of New York, New York, N. Y.; G. M. Freer, Cincinnati Chamber of Commerce, Cincinnati, Ohio; Randall Clifton, chairman, southern freight traffic committee, Atlanta, Ga.; N. B. Wright, southern freight traffic committee, Walton Building, Atlanta, Ga.; Joseph Hattendorf, southern freight traffic committee, Walton Building, Atlanta, Ga.; H. T. Moore, Atlanta Freight Bureau, Atlanta, Ga.; J. S. Davant, Memphis Freight Bureau, Memphis, Tenn.; A. C. Johnson, chairman, western freight traffic committee, Chicago, Ill.; F. B. Houghton, western freight traffic committee, Transportation Building, Chicago, Ill.; S. H. Johnson, western freight traffic committee, Transportation Building, Chicago, Ill.; H. C. Barlow, Chicago Association of Commerce, Chicago, Ill.; Seth Mann, San Francisco Chamber of Commerce, San Francisco, Cal.; G. H. Eaton, Boston & Maine Railroad, Boston, Mass.; R. Van Ummersen, Boston & Albany Railroad, Boston, Mass.; W. H. Chandler, Boston Chamber of Commerce, Boston, Mass.; H. C. Burnett, Lehigh Valley Railroad, New York, N. Y.; H. R. Stocker, San Francisco Chamber of Commerce, San Francisco, Cal.; S. H. Love, Zion Co-Operative Association, Salt Lake City, Utah.

GENTLEMEN: When General Order No. 28 was issued it was anticipated that it would be necessary to make numerous readjustments for the purpose of carrying out the spirit of that order and at the same time avoiding inequality and injustice. To provide more fully for matters of this general character the committees below mentioned are appointed for the purpose of considering, reporting facts, and recommending action as to all such freight-traffic matters of carriers under Federal control as are subject to publication in lawful tariffs. The committees so appointed will supersede the freight committees heretofore appointed by officers of the United States Railroad Administration to deal with similar questions.

The railroad traffic officers on the eastern, southern, and western freight traffic committees (hereafter referred to as the general committees) have been named by the regional directors and approved by the director, division of traffic; the railroad officers on the district committees have been named by the railroad traffic officers on general committees and approved by director, division of traffic; and the representatives of the shipping public on both the general and district committees are appointed by director, division of public service and accounting.

The general committees will have jurisdiction, respectively, over official, southern, and western classification territories, and over the several district committees as appointed in each of these territories. They will, when necessary, refer matters to the district committees, or may consider such matters and report directly to Washington. They will also receive reports from the district committees and transmit them to the directors, division of traffic and division of public service and accounting, with their recommendation, sending each director a copy.

The district committees will investigate the matters brought to their attention, those sent to them by general committees or from Washington, or such as in their opinion require investigation and recommendation. They will report to the general committees unless otherwise instructed in particular instances.

The committees hereby appointed are as follows:

Eastern freight traffic committee, official classification territory:

B. Campbell, chairman; E. P. Bates, W. C. Maxwell, J. C. Lincoln, G. M. Freer, members; C. C. McCain, secretary, office 143 Liberty Street, New York City.

New England district freight traffic committee, Boston, Mass.: G. H. Eaton, chairman; R. Van Ummersen, W. H. Chandler, members.

New York district freight traffic committee, New York, N. Y.: H. C. Burnett, chairman; H. R. Lewis, Charles J. Austin, members.

(Continued on page 15.)

Special Training of Bombing Crews For the American Aerial Squadrons Descibed in Authorized Statement By Military Aeronautic Department

The War Department authorizes the following statement from the Department of Military Aeronautics:

During the first year of the war there were no aerial bombing organizations in the allied flying corps. Practically all the work in the air was in the nature of observation. No pilots could be spared for anything else, whereas to-day probably 25 per cent of the aerial arms are bombing squadrons of 12 machines per squadron.

Fly in Large Groups.

The first bombing was done by volunteer pilots who flew over the German lines and dropped three or four bombs made from artillery shells on concentration camps and cantonments. Showers of small steel arrows were sometimes spilled upon convoys, troop trains, and bodies of massed troops. The Germans, however, began regular day bombing of cities in 1915, and the allies bombarded Karlsruhe in reprisal in October of the same year. From that date on the evolution in organized bombing developed rapidly. Some time later the French began night bombing, but this was not undertaken by the Germans until August, 1916.

To-day large groups, including several squadrons of bombing machines, go over the lines from time to time and completely destroy their objective, be it a city or a camp, a column of troops or a trench system. Unfortunately the allies' air forces have to travel for many miles over hostile territory defended by antiaircraft guns to attack German cities, while the enemy can attack French cities by flying only a short distance beyond our lines.

The allies are developing large bombing planes, however, which carry sufficient fuel for long excursions and armament to protect them when they are attacked by airplanes. Bombing squadrons are usually escorted over the lines by fast fighting squadrons of 18 planes per squadron, and then left to their own devices, for the fighters seldom carry sufficient fuel to permit them to accompany the bombers on the round trip.

Formation of Flying Columns.

After an excursion of this sort, the returning bombers receive a warm reception from the antiaircraft guns when they again pass over the enemy lines en route to their aerdromes. Like fighting squadrons, the bombing planes fly in a formation so designed as to permit the planes to protect their mates from aerial attack. The usual formation is the "V" with the leading plane lowest and the following planes arranged in pairs, one on each side of the "V," and each pair a certain number of feet higher in the air. This formation is something like a pointed flight of steps, thus permitting the higher planes to pounce upon enemy planes which essay an attack on any of their fellows below.

The training of bombing crews, which comprise a pilot and a bomber, is as important and exacting as is the teaching of any of our other highly specialized branches of the air service. It may sound easy to the layman to fly over a certain spot and drop a concentrated form of high explosive upon it. But the most comprehensive training is necessary in flying, aiming, firing, navigating, and fighting.

The dropping of the bomb itself is similar to shooting a rifle: First, you set your sights and wind gauge, then you hold the rifle properly, and finally you pull the trigger at the proper moment. Then, if your ammunition is standard, you hit the target. It is the same with bombing. If you set your sights correctly, fly your plane correctly over the objective, and drop the bomb at the proper time, you will hit the target. Then, if the ammunition manufacturers gave you good bombs, the objective will be destroyed.

The elemental training is given the bomber and the bombing pilot alike at the preliminary or ground school. It includes theory and practice in everything except work in the air. This instruction is intended to make the future officers intelligent and efficient in military duties and flying practice. It consists of a hard grind for about three months, but the men learn discipline and drill, and become familiar with the customs of the service by the time they graduate. Their special technical training includes the theory of flight, aeronautic engines and instruments and airplanes. Some of them could build workable machines by the time they are through.

It is after this preliminary work that the men are selected for the special branches of the air service. A certain number who stand well in their class is permitted to volunteer as bombers.

Pairing Pilots and Bombers.

The bombers first receive a week of concentrated theory on bomb explosives, exploding and sighting devices, and all the theory pertaining to "laying an egg on the Hun," as this new form of fighting is termed. It is at this stage of the game that the bombers and bombing pilots meet, but it is an earlier class of pilots with whom the bombers are paired. The pilots are reserve military aviators and can do all the "stunts," fly cross country or by compass and maps. They are also trained in formation or squadron flying.

In this period, known as the preparatory bombing stage, the bombing crews learn to fly a proper course over camera obscuras and Batchelor mirrors. These instruments, located in houses on the ground, are open to the sky, so that the course of the planes flying over them can be traced on charts. The charts show up even the smallest errors in the movements of the crew.

When the embryo bombers come down expert instructors correct their errors, showing them how to improve their work.

When all their faults have been corrected and the crews have been shifted around until the most efficient combinations have been secured, the men pass on to the bomb-dropping stage. They are started flying at low altitudes, with conditions made as easy as possible, then they are sent up to between 3,000 and 4,000 feet, where they continue to practice until they can hit the target. The target is a circle 25 feet in radius, painted on the ground, and would not be very hard to hit with a rifle from that distance, provided a steady platform was available, but these men, nearly a mile in the air, are under way all the time and the plane is far from steady. They pass over their target at a speed of more than a mile a minute while they "shoot."

Foreigners claim that Americans are prone to exaggerate, but in this case the proof is available at the fields. Nine out of ten bombing crews can score seven hits out of ten shots at this stage.

The next period of training takes the men higher in the air. They ascend to between 6,000 and 12,000 feet. Here, while in training, they do not have to worry at all. They worry but little more in action; for in the higher levels of these ranges, say 10,000 to 12,000 feet, the Boche doesn't average better than one hit to every 50,000 anticraft shots. So our bombers will be comparatively safe enough at these heights.

How Target Looks at 10,000 Feet.

At the 10,000-foot level the same sized target is used—differing from small-arms practice here. It looks like a diminutive flyspeck on the ground, nearly 2 miles below. The pilot is navigating the ship on an even keel at a certain speed, and so that it will pass directly over the target.

The bomber, having taken into account the speed of the ship, the elevation and the wind, has set his sights and looked to his releases and bombs. Now he peers intently through the sight, his finger on the release trigger. As the target below passes the cross wires in the sight, he squeezes the trigger. "Tick" goes the release. For 25 seconds he watches the bomb travel on its course until the white ball of smoke shows where it has landed in relation to the target. These are plaster of Paris bombs, balanced and weighted the same as real bombs, but not "loaded."

Hit Moving Targets.

Our bombing crews have to be able to hit moving targets as well as still ones, even moving trains and surprise targets. Incidentally, they must hit the dummy train and not the neighboring fields. Practice is also given them in diving upon a moving target, say the Kaiser's auto, and putting a bomb in it. This is considered great sport.

Having passed these stages, the fine points of bombing are now given to the crews. They are taught how to get pictorial information of enemy country. In this and subsequent stages perfectly peaceful and innocent towns adjacent to the bombing fields are subjected to bombardments.

Finally the most advanced work is taken up, night bomb raiding. That will be left to your imagination.

Besides their training in bombing, these aviators and observers have a thorough training in aerial gunnery with fixed and flexible machine guns, which shoot accurately at 100 yards and at 600 shots per minute.

General Plan for Wage Standardization Outlined by Policies Board Chairman

PRECEDENT FOLLOWED OF UNIONIZED LABOR

The Same Kind of Standard Already Existing with Railroad Men's and Other Organizations Being Negotiated for Entire Country, Says Mr. Frankfurter. Labor Leaders and Employers Consulted.

Chairman Felix Frankfurter, of the War Labor Policies Board, issues the following:

For several days the War Labor Policies Board has been conferring with representatives of union labor and with representatives of industrial management concerning the national standardization of wages.

In seeking standardization the precedents of unionized industry are being followed. Wages have, of course, long been standardized by the agreements of employers and employees in many industries.

Standards Already Established.

The same kind of standards which the railroad brotherhoods and the railroad managers established in the transportation systems, the same kind of standards which the organized coal miners and the coal operators set up in the well-developed coal fields, the same kind of standards which the carpenters, the blacksmiths, the plumbers, the organized tailors created by agreement with their employers the War Labor Policies Board is, also by mutual consent, negotiating for the entire country.

Wage standardization merely extends the familiar method of wage fixing to cover the entire Nation. What has been done in many industries the War Labor Policies Board is planning for the whole people. But, although wage standardization admittedly follows familiar precedent, it is solely a war measure.

The President has said that industry plays as essential and as honorable a role in this great struggle as do our military armaments. With that fact in mind, employees and employers have discussed wage standardization with the War Labor Policies Board. Except as a war measure, it frankly would not have been considered.

Stabilizing Industrial Effort.

But the need to stabilize industrial conditions so that no productive power be wasted is so obvious that the representatives of the War and Navy Departments and of the Emergency Fleet Corporation, together with the other governmental branches charged with the duty of supplying the primary materials of war have, with labor leaders and business executives, become convinced that wage standardization is essential to national success over Germany.

The need for increased production of war stuffs through stabilized industrial conditions has, furthermore, long been so apparent that Congress, on its own initiative, without the advice and even without the knowledge of the War Labor Policies Board, instructed the Policies Board to standardize wages.

But, although the showing made by Army, Navy, and Fleet Corporation was overwhelmingly convincing, the Policies Board would have hesitated to ask labor to make whatever sacrifice wage standardization involves if the proper safeguards had not been erected. If profiteering had been allowed to go on unchecked and the cost of living had not been controlled, standardization would not have been right.

Preparing the Way.

Congress, through the taxes on excess profits, the War Industries Board, through its price-fixing, the President, through the veto of $2.40 wheat, have prepared the way for standardization of wages. Additional methods of keeping down the cost of living are being investigated at this time.

All these measures, past and pending, have revealed the determination of the American people to let no one make money out of the war. What price-fixing means for the manufacturer, wage standardization is to the workers of the country.

That means plainly that just as the price-fixing committee takes into account the cost of production and proper profits, so wage standardization must be built upon an accurate knowledge of the cost of living and a just estimate of what makes up the right American standard.

Organized Labor Consulted.

Upon these general grounds the War Labor Policies Board is advancing, as rapidly as the gravity of the problem permits, to the establishment of standard wages. Everyone who has a real interest at stake will be consulted. So far, preliminary conferences have been held with the following groups:

Representing the metal-trade unions:

- George Leary, vice president, Metal Polishers.
- Louis Weyand, president, Boiler Makers.
- Bert Hewell, organizer, Boiler Makers.
- John Alpine, vice president, A. F. of L.
- W. J. Gallagher, organizer, Painters.
- J. G. Higgins, organizer, Plumbers.
- Joe McGlory, president, Iron Workers.
- James Noonan.
- J. J. Purcell, organizer, Electricians.
- William Lynn, president, Foundry Laborers.
- John J. Hines, president, Sheet Metal Workers.
- James Moriarity, Sheet Metal Workers.
- John Anderson, vice president, Machinists.
- Fred Bolam, vice president, Blacksmiths.
- James A. O'Connell, president, Metal Trades Department.
- A. J. Berres, secretary-treasurer, Metal Trades.
- John I. Nolan, ex-board member, Molders.
- James V. Ryan, organizer, Sheet Metal Workers.
- John Morgan, Carpenters.
- James Wilson, president, Pattern Makers' League.
- T. B. Behney, vice president, Pattern Makers' League.

Metal Trades Associations.

Representing the Metal Trades Associations:

- John W. O'Leary, president National Metal Trades Association, Chicago.
- F. C. Caldwell, H. W. Caldwell Sons Co., Chicago.
- J. H. Schwacke, William Sellers & Co., Philadelphia.
- W. C. Heeks, Curtis & Co., St. Louis.
- A. E. Newton, Reed Prentiss Co., Worcester.
- W. A. Layman, Wagner Electric Co., St. Louis.
- H. S. Sharpe, Brown-Sharpe Co., Providence.
- R. O. Wells, attorney Manufacturers Association of Connecticut, Hartford.
- H. D. Sayre, secretary, National Metal Trades Association, Chicago.
- J. D. Hibbard, commander National Metal Trades Association, Chicago.
- Wm. Asbury, Enterprise Manufacturing Co.
- Mr. Davis, president St. Louis Employers' Association, St. Louis.
- H. Brewer, Winchester Repeating Arms Co., New Haven.
- H. H. Rice, General Motors Co., Detroit.
- W. H. Barr, National Founders Association, Buffalo.
- Miner Chipman, California Metal Trades Association, San Francisco.
- F. C. Drew, California Metal Trades Association, San Francisco.

Representing the Building Trades Employers' Associations:

- Ronald Taylor, president Building Trades Employers Association of New York.
- Oscar A. Reum, chairman legislative committee, Building Construction Employers Association of Chicago.
- E. J. Thomas, president Builders Exchange, Memphis, Tenn.; secretary General Contractors Association of Tennessee.
- D. M. Crawford, vice president Tennessee State Association, Builders Exchange, president General Contractors Association of Tennessee.
- F. A. Wilson, vice president, Master Builders Association of Boston.
- H. B. Gombers, secretary National Steam and Hot Water Fitters' Association, New York City.
- J. E. Rutzler, treasurer National Steam and Hot Water Fitters Association, New York.
- W. F. Chew, first vice president Builders Exchange of Baltimore.
- G. W. Stanton, Almirall Co., engineers and contractors, New York.
- C. M. Culver, Employers Association of Detroit.
- F. E. Berry, jr., Domestic Metal Equipment Association, Boston.

(Continued on page 15.)

ORDER TO PREVENT PICTURES AND DRAWINGS OF SHIPS AND YARDS FROM LEAVING THE U. S.

Fleet Corporation Ruling Designed to Keep Information from Reaching the Enemy.

The Shipping Board authorizes the following:

A general order of the Emergency Fleet Corporation designed to prevent information of military value from reaching the German Government through neutral countries has been put into effect at all United States ports by the issuance of positive instructions to collectors of customs to refuse permits for taking photographs and specifications of American vessels and shipbuilding plants out of the United States.

Howard Coonley, vice president of the Emergency Fleet Corporation, has requested the Secretary of the Treasury to broaden the scope of his instructions to collectors to include an embargo against the exportation of any "reproductions of plans or specifications of shipyards, ways, dry docks, or ships, or of their parts or equipment," unless they are lawfully in the custody of officials of the United States Government.

Many Documents Seized.

Even before the general order of the Emergency Fleet Corporation was put into effect by official promulgation of regulations issued by the Treasury Department, large quantities of marine documents considered as jeopardizing the military interests of this Government were seized at the port of New York by agents of the Department of Investigation of the Emergency Fleet Corporation.

Among the papers and documents seized from passengers and members of the crews of steamships bound for Scandinavian ports were detailed drawings of American shipyards, photographs of ways, plants, and ships, blue prints of American steamships, sailing vessels, and mine sweepers, and detailed specifications of merchant vessels and ships being built in this country for the French navy.

Some of these documents and papers were the property of American shipbuilding companies, which sought to send them to neutral countries for the purpose of obtaining post-war contracts for the construction of vessels in this country. The United States Shipping Board has recently adopted a policy in opposition to the solicitation of such post-war contracts from neutral countries at this time.

Marine and technical magazines and periodicals which publish unauthorized drawings and photographs of American shipyards and ships or drawings and photographs of new inventions related to the shipbuilding industry in the United States will be affected by this new order to the extent of having withheld from shipment to foreign countries all issues containing such prohibited matter.

Text of General Order.

The general order issued by Vice President Coonley of the Emergency Fleet Corporation reads as follows:

"Hereafter permits to carry out of the United States photographs, prints, or other reproductions of plans or specifications of shipyards, ways, dry docks, or ships, or of their parts or equipment, will not be granted or authorized by or in the name of the United States Shipping Board Emergency Fleet Corporation except to officials of or representatives of the United States.

"The Secretary of the Treasury has been requested to issue orders to the collectors of the various ports to confiscate any such plans or specifications found in the possession of persons leaving this country."

Lieut. Col. James A. Blair, jr., director of the plant protection section of the Emergency Fleet Corporation, has taken steps to insure the enforcement of this order at all ports in the United States.

Fuel Administration Bureau Organized for Adjustment of Labor in Coal Mines

The Fuel Administration issues the following:

At a recent conference held in the city of Washington, D. C., between the United States Fuel Administrator, Harry A. Garfield, and the international officials of the United Mine Workers of America a complete understanding was reached wherein all questions pertaining to labor in the coal-mining industry will remain under the jurisdiction of the United States Fuel Administrator. This is in accordance with an understanding previously reached between the Secretary of Labor and the United States Fuel Administrator.

Bureau of Labor Created.

In order that this arrangement may be made effective the United States Fuel Administrator has created a bureau of labor, to which all matters relating to labor controversies will be referred for settlement. The United States Fuel Administrator has appointed Mr. John P. White, formerly president of the United Mine Workers of America, and Mr. Rembrandt Peale, coal operator for central Pennsylvania, joint heads of this bureau, with power as his deputies to consider and dispose of all matters concerning labor in the coal-mining industry properly coming before the Fuel Administration and subject to the procedure prescribed in existing joint agreements.

Statement of Principles.

The following statement of principles was made by Mr. H. A. Garfield, United States Fuel Administrator, at conferences at which were present Mr. Frank J. Hayes, president; Mr. John L. Lewis, vice president; Mr. William Green, secretary and treasurer of the United Mine Workers of America; and Mr. John P. White and Mr. Rembrandt Peale, representing the Fuel Administration, all of whom acquiesced in the statement as expressing their understanding of the principles followed by the United States Fuel Administration and by the International Union of Mine Workers in settling questions relating to labor in the coal-mining industry, it being understood that wherever the Federal Government is called upon to intervene, or of its own motion intervenes in the settlement of such questions, whether in organized or unorganized fields, jurisdiction shall remain for the present and until otherwise arranged in the hands of the United States Fuel Administrator:

Set Forth in Detail.

"The United States Fuel Administrator understands—

"(a) That no strike shall take place pending the settlement of any controversy until the dispute has been reviewed and decided by him.

"(b) That recognition of the unions shall not be exacted during the continuance of the war except where now recognized by collective bargaining.

"(c) That where, by joint contract between employer and employed, machinery is provided for the settlement of controversies, United States Fuel Administrator shall not be required to intervene or to mediate until such means have been invoked and the remedy exhausted without reaching adjustment.

"(d) That where the United States Fuel Administrator intervenes, substantially, the principles, provisions, and practices laid down in the Maryland and Upper Potomac settlement of May 6, 1918, shall be accepted by the workers and employers and their chosen representatives as sufficient.

"On the basis of the foregoing understanding, which he regards as just and imperative in the present crisis, the United States Fuel Administrator has insisted and will continue to insist that any adjustment of labor questions in the coal-mining industry, whether by joint agreement between operators and mine workers or by agreements severally made with the United States Fuel Administrator, shall embody wherever applicable and substantially the principles, provisions, and practices laid down in the Maryland and Upper Potomac settlement of May 6, 1918, and recognizes the authority of the International Union of Mine Workers in the organized fields and their jurisdiction over controversies arising in said fields. More specifically, the United States Fuel Administrator has insisted and will continue to insist in all such settlements—

"(a) That employers will be required to relinquish the right to discharge employees because of affiliation with labor unions.

"(b) That employers will be required to recognize the right of their employees to organize by peaceful methods that do not interrupt production.

"(c) That the so-called automatic penalty clause now in force, being regarded by mine workers as a cardinal principle of collective bargaining during the continuance of the war, will be included in all agreements as a condition precedent to the allowance of increased price permitted to operators.

"(d) That where the union shop now exists the same shall continue, and where union and nonunion men work together the continuance of such condition shall not be deemed a grievance."

Better than money because they earn money; buy a WAR-SAVINGS STAMP TO-DAY.

PURCHASES AND CONTRACTS TO BE MADE BY HARDWARE AND METALS DIVISION

Following is a list of purchases and contracts to be made during the coming week by the Hardware and Metals Division of the Quartermaster General's office, War Department, 1800 Virginia Avenue NW. The following are the executive officers of the division:

Mr. William A. Graham, chief.

Maj. H. L. Arnold, assistant to chief on Outside Relations.

Maj. H. P. Hill, assistant to chief on Inside Relations.

Mr. George W. Welles, chief of Procurement Branch No. 1 (metals and heavy hardware).

Mr. William F. Fusting, chief of Procurement Branch No. 2 (tools and hardware sundries).

Mr. W. J. Peck, chief of Procurement Branch No. 3 (kitchen and camp equipment).

Mr. Thomas M. Lynch, chief of Administrative Branch.

Unless otherwise stipulated, formal contract will be made.

PROCUREMENT BRANCH NO. 1, SECTION 1-A.

Bids to Be Submitted Within One Week. A. S. Rogers, Buyer.

Rope:		
Ratline, No. 9 thread	coils	10
Seizing wire, 7 strand	feet	10,000
Manila, ⅜-inch	feet	50,000
Caterpillar tractor, about 80 horsepower, with 14 plows		1
Machines, mowing		5
Rakes, hay		2
Cultivators, corn		2
Bull rakes		2
Scoops, coal, S-4121		300
Trucks:		
Standard warehouse, 2 wheel, No. 4232		36
Standard warehouse, 4 wheel, No. 4233		12
Rope, manila:		
½-inch	pounds	170,143
⅝-inch	do	170,143
¾-inch	do	2,194,130
⅞-inch	do	340,757
1-inch	do	1,769,950
1¼-inch	do	394,080
1⅜-inch	do	681,003

PROCUREMENT BRANCH NO. 2, SECTION 2-A.

Bids to Be Submitted on or Before August 1, 1918. J. D. Rennick, Buyer, Room 106.

Bits, auger, ship with screw	dozen	7,076
Blades:		
Buck-saw, 32-inch	each	22,570
Hack-saw, 10-inch and 12-inch		22,570
Keyhole, saw		22,570
Drills, ratchet, boilermaker No. 1 and No. 2	each	1,060
Blades:		
Compass, saw, large		7,524
Compass, saw, medium		9,405
Compass, small		9,405
Chisels:		
B. S. cape, ⅝-inch, 1-inch	each	1,890
B. S. cape, ⅛-inch, ¼-inch, and ½-inch	each size	3,761
Hand, cold, ⅝-inch, ½-inch, ⅝-inch, ¾-inch, 1-inch	each	1,890
Rasps, plumber's, half-round, 10-inch and 14-inch	each size	1,440
Screw drivers:		
4-inch		10,136
6-inch		12,650
8-inch		14,725
10-inch		14,725
12-inch		12,925
18-inch		7,975
24-inch		2,600
30-inch		1,045

PROCUREMENT BRANCH NO. 2, SECTION 2-A.

Bids to Be Submitted on or Before August 1, 1918. C. L. Butts, Buyer, Room 110.

Steels, butchers'		10,256
Sets, carving	sets	3,806
Knives:		
Bread		5,139
Butcher		20,551
Cleavers		3,940
Forks, carving, meat		5,139
Shears:		
Saddlers', pairs, 9-inch and 12-inch	pairs, each size	3,806
Tinners' hand, straight 3-inch and 4½-inch	each size	3,806
Double cut, tinners'	pairs	5,712
Knives, drawing:		
6-inch		253
8-inch		6,341
Screws:		
Cap, fillister head, assorted	gross	760
Cap, square head, assorted	do	760
Cap, round head, assorted	do	760
Cap, hexagon head, assorted	do	760
Cap, flat head, assorted	do	760

PROCUREMENT BRANCH NO. 2, SECTION ——.

Bids to Be Submitted on or Before August 1, 1918. W. F. Fusting, Buyer, Room 108.

Punches, tinners', hollow, ⅛-inch, ⅜-inch, ¼-inch, ⅝-inch, ½-inch, ¾-inch, 1-inch, 1¼-inch, 1½-inch, each size		1,050
Shears, bench:		
8-inch	pairs	1,060
9-inch	do	1,390
12-inch	do	1,890
Machines:		
Seaming		530
Crimping		1,050
Burring		1,050
Riveting		2,110
Forming		82
Grooving		530
Edging		1,050
Beading, tinners'		1,050
Folding		497
Groovers, tinners', hand		4,478
Punches, round	sets	945
Drive	do	1,890
Rivet	do	63,500
Tinners', solid	do	1,050
Screws:		
Wood, F. & R. head, brass, gross		18,226
Wood, flat head, iron	do	177,304
Gouges:		
Firmer socket, inside bevel sets of 12	sets	1,060
Firmer socket, outside bevel, sets of 12	sets	1,060
Chisels:		
Wood handles, slicks, 2½-inch to 4-inch	sets	1,890
Framing socket, ⅛-inch to 2-inch, sets		3,761
Firmer socket, ⅛-inch to 2-inch, sets		3,761
Turning, W. C. handled, ⅛-inch to 1-inch	sets	945
Corner socket, ⅛-inch to 1¼-inch, sets		3,761

PROCUREMENT BRANCH NO. 3, SECTION 3-A.

Bids to Be Submitted on or Before July 29, 1918. J. E. Diemer, Buyer, Room 118.

Hot blast heaters:		
12-inch		3,000
16-inch		6,000
18-inch		1,000

Sealed proposals will be received up to July 29 at 11 a. m., Room 113, 1800 Virginia Avenue, Quartermaster General's Office, care of W. A. Graham, chief of Hardware and Metals Division, for the above.

Specifications may be received, on inquiry, from J. E. Diemer, Room 118, Quartermaster General's Office.

Right is reserved to reject any or all bids.

PROCUREMENT BRANCH NO. 1, SECTION 1-B.

Bids to Be Submitted by August 14, 1918. S. St. J. Eshleman, Buyer.

Handles:		
Hoe	pieces	4,352
Hammer, claw	do	288
Shovel	do	600
Axes, single bit	do	11,000
Ax, 34-inch	do	45,000
Hammer, 12-inch, 13-inch, 14-inch	pieces	5,000
Adz eye, farriers	do	320
Knives, saddlers, head No. 71	do	2,344
Irons, branding, 10-inch, 2-inch	do	100
Compasses, saddlers	do	2,114
Hasps:		
Hinge, iron, plain	do	25,800
Hinged, galvanized	do	25,800
Hasps and staples, iron	do	34,400
Hinges:		
Steel butt	do	11,820
"T," plain	do	104,850
Heavy strap	do	104,850

PROCUREMENT BRANCH NO. 2, SECTION 2-B.

Bids to Be Submitted on or Before August 1, 1918. Capt. Price, Buyer, Room 432.

Stocks and dies:		
Blacksmith's, ½-inch–2-inch	sets	2,090
Blacksmith's, ⅛-inch to ⅝-inch	sets	1,890
Bolts, treading, ¼-inch–1-inch, ⅝-inch to ½-inch	sets	1,890
Blacksmith's, 2½-inch–4-inch, sets		380
Taps:		
Machine, plug		1,491
Machine, thread		3,479
Machine, hand bottoming		4,473
Tapered		3,479
Pipe		2,485
Dies, pipe threading, right hand, Armstrong:		
No. 2½ or equal	sets	248
No. 3 or equal	sets	248
No. 1 or equal	sets	248
No. 2 or equal	sets	248
Cutters, pipe, Barnes, 3 wheel:		
Nos. 1 and 2	each size	4,760
No. 4		527
No. 2½ or 3		1,060
No. 6		527
No. 5		527
Stocks and dies, pipe, threading, 2-inch–4-inch	sets	1,060
Reamers, pipe, ¼-inch to 2½-inch, each size		1,060

PROCUREMENT BRANCH NO. 3, SECTION 3-B.

Bids to Be Submitted by August 6, 1918. J. G. Williams, Buyer.

Pins, picket line		1,050
Scales, platform, 5 tons		20
Table, electric saw		1
Sterilizers		50
Oilers:		
½-pint		5,000
½-pint		5,000
1-pint		5,000
Plugs and cocks		1,500
Creosote	gallons	1,000
Hydrometers		200
Fillers	barrel	100

PROCUREMENT BRANCH NO. 1, SECTION 1-C.

Bids to Be Submitted Within One Week. John Bertram, Buyer.

Waste, cotton:		
White	pounds	15,750
White and colored mixed	do	4,000
Nuts, bolts, iron	pieces	116,645
Blocks, swage		325

PROCUREMENT BRANCH NO. 2, SECTION 2-C.

Bids to Be Submitted on or Before August 1, 1918. Capt. Oliver, Buyer, Room 112.

Punches:		
Trace, ⅝-inch–1½-inch	sets	1,890
Leather, 1-inch–12-inch	do	1,890

COMMITTEES APPOINTED TO ADJUST FREIGHT TARIFFS AMONG CARRIERS

(Continued from page 10.)

Philadelphia district freight traffic committee, Philadelphia, Pa.: H. L. Eysmans, chairman; D. G. Gray, George P. Wilson, members.

Buffalo district freight traffic committee, Buffalo, N. Y.: E. H. Croly, chairman; I. W. Gantt, J. E. Wilson, members.

Pittsburgh district freight traffic committee, Pittsburgh, Pa.: M. S. Connelly, chairman; J. B. Nessle, D. O. Moore, members.

Detroit district freight traffic committee, Detroit, Mich.; H. R. Griswold, chairman; P. G. Findlay, H. G. Wilson, members.

Cincinnati district freight traffic committee, Cincinnati, Ohio: C. L. Thomas, chairman; W. T. Stevenson, W. S. Groom, members.

Chicago eastern district freight traffic committee, Chicago, Ill.: C. J. Brister, chairman; O. A. Constans, C. S. Bather, members.

East St. Louis district freight traffic committee, East St. Louis, Ill.; C. H. Stinson, chairman; C. B. Sudborough, P. M. Hanson, members.

Richmond district freight traffic committee, Richmond, Va. (appointed jointly for eastern and southern territories): G. S. Rains, chairman; E. D. Hotchkiss, E. S. Goodman, members.

Southern Freight Traffic Committee, southern classification territory:

- Randall Clifton, chairman; N. B. Wright, Joseph Hattendorf, H. T. Moore, J. S. Davant, members; L. E. Chalenor, secretary, Walton Building, Atlanta, Ga
- Richmond District Freight Traffic Committee, Richmond, Va. (appointed jointly for eastern and southern territories): G. S. Rains, chairman; E. D. Hotchkiss, E. S. Goodman, members.
- Louisville District Freight Traffic Committee, Louisville, Ky.: J. M. Dewberry, chairman; J. M. Denyven, C. B. Stafford, members.
- Atlanta District Freight Traffic Committee, Atlanta, Ga.: E. R. Oliver, chairman; C. B. Kealhofer, S. E. Spivey, members.
- Birmingham District Freight Traffic Committee, Birmingham, Ala.: E. A. De Funiak, chairman; T. D. Geoghegan, O. L. Bunn, members.
- Jacksonville District Freight Traffic Committee, Jacksonville, Fla.: J. F. Mead, chairman; F. D. McConnell, W. D. Nelson, members.
- New Orleans Southern District Freight Traffic Committee, New Orleans, La.: R. C. Perkins, chairman; J. B. Bannon, B. F. Martin, members.

Western Freight Traffic Committee, western classification territory:

- A. C. Johnson, chairman; F. B. Houghton, S. H. Johnson, H. C. Barlow, Seth Mann, members; E. B. Boyd, secretary, Transportation Building, Chicago, Ill.
- Chicago Western District Freight Traffic Committee, Chicago, Ill.: F. P. Eyman, chairman; H. E. Pierpont, S. G. Lutz, J. S. Brown, H. E. Sundberg, members.
- St. Louis District Freight Traffic Committee, St. Louis, Mo.: J. L. West, chairman; J. E. Johanson, P. W. Coyle, members.
- New Orleans Western District Freight Traffic Committee, New Orleans, La.: J. B. Payne, chairman; C. S. Fay, Carl Giessow, members.
- St. Paul District Freight Traffic Committee, St. Paul, Minn.: H. M. Pierce, chairman; Henry Blakeley, W. P. Trickett, members.
- Kansas City District Freight Traffic Committee, Kansas City, Mo.: D. R. Lincoln, chairman; J. R. Koontz, R. D. Sangster, members.
- Dallas District Freight Traffic Committee, Dallas, Tex.: Gentry Waldo, chairman; F. Koch, G. S. Maxwell, members.
- Denver District Freight Traffic Committee, Denver, Colo.: Fred Wild, jr., chairman; H. A. Johnson, F. W. Maxwell, members.
- Portland District Freight Traffic Committee, Portland, Oreg.: F. W. Robinson, chairman; W. D. Skinner, F. D. Burroughs, J. H. Lothrop, C. O. Bergen, members.
- San Francisco District Freight Traffic Committee, San Francisco, Cal.: W. G. Barnwell, chairman; G. W. Luce, H. K. Faye, H. E. Stocker, S. H. Love, members.

These instructions are only temporary and for the purpose of putting the work of these committees into operation. A little later their appointment and a more definite outline of their duties and method of operation will be covered by an order or circulars, and this letter is sent to each of you in order that you may proceed at once to organize yourselves into committees, as outlined herein, and continue without delay the work which has been done by the several freight traffic committees, which are now [illegible]

EDWARD [illegible],
Director, Division of Traffic.
CHARLES A. PROUTY,
Director, Division of Public Service and [illegible].

WANTS ARMY OF SAVERS

THE PURPOSE of the War Savings Committee is to create an army of savers who will, by saving, release labor and materials for the use of the Government in the war, and who will lend their savings to the Government to prosecute the war.

PLAN FOR WAGE STANDARDIZATION

(Continued from page 12.)

John J. Grace, National Association Fireproof Hollow Metal Window Manufacturers Association, New York.

Harry Alexander, National Electrical Contractors and Dealers Association, New York [illegible] ing, Washington, D. C.

W. F. Hennessy, secretary Building Trades Employers' Association, Cleveland, Ohio.

Charles G. Ramsey, president Building Construction Employers' Association, Chicago.

Building Trades Representatives.

Representing [illegible]:

John J. Hynes, Sheet Metal Workers.

James T. [illegible], International Association of Bridge and Structural Iron Workers.

J. E. McGlory, Structural Iron Workers.

Frank J. Sch[illegible], Wood Constructors.

Frank [illegible], Operative Plasterers.

John [illegible], president Building Trades.

William J. Bowen, Bricklayers, Masons, and Plasterers.

George F. Hulrich, Hoisting Engineers.

Ben Osborne, Structural Iron Workers.

James P. Noonan, International Brotherhood of Electrical Workers.

John P. Frey, International Molders' and Foundry Workers' Union.

[illegible], Plasterers' and Cement Finishers.

J. M. Gavlak, International Slate and Tile Roofers of America.

Joseph A. Mullaney, Asbestos Workers.

James G. Higgins, United Steam Fitters and Steam [illegible].

William J. Gallagher, general organizer Brotherhood of Painters.

T. M. Govern, general executive member, United Brotherhood Carpenters and Joiners of America.

John Morgan.

William J. McSorley, general president Wood, Wire, and Metal Lathers' International Union.

I. D'Alessandro, president Wood, Wire, and Metal Lathers' International Union.

The War Labor Policies Board is accordingly, with the aid of John R. Alpine, vice president of the American Federation of Labor, and Hugh Frayne, labor representative on the War Industries Board on the union side, and with the advice of Herbert F. Perkins, vice president of the International Harvester Co., proceeding as rapidly as the importance of the matter makes possible toward the determination of standards.

Plan for a Great 1919 Wheat Harvest Outlined by Department of Agriculture

MORE ACREAGE URGED

Suggestions Given to Farmers and a Table of Approximate Areas by States Submitted—An Increase of More Than Twelve Per Cent over Last Year Indicated—Needs of This Country and Allies.

The United States Department of Agriculture authorizes the following: A national plan for a great Liberty wheat harvest in 1919 is announced by the United States Department of Agriculture. American farmers are asked to sow to winter wheat this fall not less than 45,000,000 acres—an increase of 7 per cent over last year's sowing—and the department suggests that an even greater area, approximately 47,500,000 acres—an increase of more than 12 per cent over last year—could be sown if conditions are especially favorable in all the States and would better meet the needs of the allied nations at war.

Will Add 30,000,000 Bushels.

From the smaller acreage a harvest of 636,000,000 bushels might be expected, it is estimated, and from the larger acreage, 667,000,000, based upon an average yield of 15.7 bushels an acre and an abandonment of 10 per cent of the area sown on account of winter kill. The plan fixes definite acreages by States, and in a campaign to be launched immediately by the department and the State agricultural colleges and leading farmers throughout the country growers will be asked to make good their State quotas. The recommendations regarding the planting of spring wheat and other spring crops and regarding live stock will follow later.

The total acreages assigned to the several States, both minimum and maximum, are shown in the accompanying table, with the percentage of increase over the acreage sown last year indicated for each State. In some States where a large increase of winter-wheat acreage is suggested it is planned correspondingly to reduce the spring-wheat acreage. Winter wheat is a safer crop and produces a larger yield per acre, so the exchange is desirable in sections where this is practicable. The unusual weather conditions of the last two years are responsible for the increased acreage of spring wheat this year in some sections where winter wheat usually is more extensively grown.

Growing Needs Considered.

In announcing its wheat-production program the department considers the growing needs of this country and its allies for this essential food. The last crop report forecast a 1918 harvest of 890,930,000 bushels of winter and spring wheat. Although this forecast is gratifying, it is pointed out that the reserve supply or carry over of wheat this year is practically exhausted and is the smallest on record. The need of building up reserves of wheat is evident. It is pointed out that although this country produced a small wheat crop in 1917, the total exports of wheat in excess of imports, including flour in terms of wheat, amounted to approximately 100,000,000 bushels for the year ending June 30, 1918. This is in comparison with 178,000,000 bushels exported in 1917, 236,000,000 bushels in 1916, and 331,000,000 bushels in 1915. It was only possible for the United States to export wheat in large quantities in 1915 and 1916 because of the large wheat crops of 1912–1915, which gave this country an accumulation of stocks of this grain. The 1916 and 1917 crops both were smaller than any crops since 1911, and, besides this, there was a greater demand for seed wheat and an increasing population.

The "Carry-Over" Exhausted.

Moreover, it must be borne in mind, says the department, that the carry over in all the 10 importing countries of Europe was practically exhausted this year before the new harvest; that the normal consumption requirements of the exporting countries are increasing with the growth of population instead of diminishing; that some losses in storage and transit may be expected to continue; and that it is highly desirable that a surplus should be accumulated as insurance against partial crop failure next year. To provide for these additional requirements it is therefore extremely desirable that the maximum acreage of winter wheat recommended be planted by the farmers in the United States this fall.

Table of Acreage Suggested.

Acreage of winter wheat suggested for sowing in the fall of 1918 with data showing basis for the recommendations:

[In thousands; that is, 000 omitted.]

State.	Acreage suggested, 1918.				Acreage sown, 1917.	Maximum acreage sown, 1913–1917.	
	Minimum.	Per cent 1917. acreage.	Maximum	Per cent, 1917 acreage.		Acreage.	Year.

Idaho	377	125	405	134	302	405	1914
Washington	754	180	850	200	422	1,155	1914
Oregon	590	105	692	123	562	692	1914
California	513	105	538	110	489	489	1917
United States	45,000	107	47,206	112	42,170	41,610	

NOTE.—States that have suffered from drouth conditions are not asked to increase wheat acreage, but if generally favorable conditions obtain it is expected that increases will be shown in these States. Michigan, Wisconsin, Minnesota, and South Dakota larger increase of winter wheat acreage is not suggested because of heavy increases suggested for rye.

Additions to Fair Price List for Flour and Feeds

The following fair-price flour and feed prices are announced by the Food Administration in addition to those given out July 22.

These prices are for carload lots, bulk, at the mill. The cost of freight and packages and cost of handling less than carload quantities are to be added to these prices to find delivered cost to the purchaser from mill.

Milling point.	Flour.	Bran.	Mixed feed.	Middlings, shorts, and Red Dog.
Chicago	$10.14	$25.26	$26.51	$27.26
St. Louis	10.09	24.46	25.71	26.46

VOL. 2 WASHINGTON, FRIDAY, JULY 26, 1918. No. 370

President Denounces Mob Violence in Appeal to His Fellow Countrymen to Keep Nation's Fame Untarnished

ARMIES OF ALLIES CONTINUE TO ADVANCE IN AISNE-MARNE AREA, SAYS SECRETARY BAKER

Actual Number of Officers and Men in a Division is 27,864—States That Germans Are Supplying Most of "Cannon Fodder."

Daily press interview by Secretary Baker, July 25, 1918:

"The latest dispatches show continued advances in several places by French, British, and American troops. They are not extensive in area but are important, and show that the battle is continuing with great vigor."

Answering a question: "The actual number of officers and men in a division is 27,864. In order to maintain the necessary service of supply for such a division additional men are required, bringing the number up to 42,000, but these additional men are no part of that division. A corps is made up of divisions with some additional troops called corps troops; but the difference between, roughly, 28,000 and 42,000, or 14,000, represents the people who are employed on the railroads, at the warehouses, on the docks unloading the ships and distributing supplies, doing salvage work, and all that sort of thing. Two thousand of these may be considered as the division's proportion of Army and corps troops, and 12,000 as noncombatant, or service or supply men."

"Cannon Fodder."

Answering a question with reference to a statement by the Wolff Agency referring to American troops as "cannon fodder," the Secretary of War said:

"The best information we have seems to indicate that they are themselves supplying most of that material at the present time.

"We have no reports on our own casualties as yet, but our own people have a much better opportunity to know our losses than the Germans have, because we are taking ground, and they have been giving ground, and in that situation we have a superior opportunity for observation.

"There is one New York regiment in the 42d Division—the 69th New York."

LYNCHERS EMULATING GERMANY

Declares That Every American Who Takes Part in Action Of Mob Is a Betrayer of Democracy—"Are at This Very Moment Fighting Lawless Passion" Across the Sea—Can Never Accept Any Man as Champion of Liberty Who Does Not Reverence Our Own Laws.

The President to-day issued the following statement:

MOB ACTION.

MY FELLOW COUNTRYMEN:

I take the liberty of addressing you upon a subject which so vitally affects the honor of the Nation and the very character and integrity of our institutions that I trust you will think me justified in speaking very plainly about it.

I allude to the mob spirit which has recently here and there very frequently shown its head amongst us, not in any single region, but in many and widely-separated parts of the country. There have been many lynchings, and every one of them has been a blow at the heart of ordered law and humane justice. No man who loves America, no man who really cares for her fame and honor and character, or who is truly loyal to her institutions, can justify mob action while the courts of justice are open and the governments of the States and the Nation are ready and able to do their duty. We are at this very moment fighting lawless passion. Germany has outlawed herself among the nations because she has disregarded the sacred obligations of law and has made lynchers of her armies. Lynchers emulate her disgraceful example. I, for my part, am anxious to see every community in America rise above that level with pride and a fixed resolution which no man or set of men can afford to despise.

CLAIM TO BE CHAMPIONS OF DEMOCRACY.

We proudly claim to be the champions of democracy. If we really are, in deed and in truth, let us see to it that we do not discredit our own. I say plainly that every American who takes part in the action of a mob or gives it any sort of countenance is no true son of this great Democracy, but its betrayer, and does more to discredit her by that single disloyalty to her standards of law and of right than the words of her statesmen or the sacrifices of her heroic boys in the trenches can do to make suffering peoples believe her to be their savior. How shall we commend democracy to the acceptance of other peoples, if we disgrace our own by proving that it is, after all, no protection to the weak? Every mob contributes to German lies about

(Continued on page 2.)

TABLE PREPARED SHOWING LIFE OF SOLDIERS' WEARING APPAREL

The War Department authorizes the following:

In order to obtain an idea of the life of the various clothing and equipage articles used by the Army, the opinion of camp quartermasters and organization supply officers was asked for by the Acting Quartermaster General. The opinions are based on the experience of these officers in issuing the various articles to the men in the camps and cantonments in all sections of the country.

On the basis of replies from about 550 officers, a table was prepared which is composite and indicates the minimum life as shown by the average of the opinions received. The table shows the life of cotton breeches to be 4.89 months, wool breeches 6.85 months, cotton coats 10.78 months, wool coats 13.66 months, overcoats 33.66 months, blankets 41.77 months, slickers 16.23 months, service hats 7.63 months, flannel shirts 3.10 per year, summer undershirts 3.68 per year, winter undershirts 2.80 per year, summer drawers 4.36 pairs per year, winter drawers 3.68 pairs per year, light wool stockings 8.48 pairs per year, heavy wool stockings 6.35 pairs per year, field shoes 2.42 pairs per year, and canvas leggings 3.56 pairs per year.

Luxuries as usual means a victorious Germany. Save and buy war-savings stamps.

$500,000 Saved In Fuel at 31 Army Cantonments By the Use of Soft Coal

The War Department authorizes the following:

At 31 posts, camps, cantonments, and stations in the territory south of Washington and west of Pittsburgh approximately 200,000 tons of anthracite coal was called for to cover requirements for the fiscal year 1919. As a result of investigations made by the fuel and forage division of the Quartermaster Corps bituminous coal and coke have been substituted for anthracite and a saving has been effected of approximately $300,000 in cost of coal and approximately $200,000 in cost of transportation, or a total saving of approximately $500,000.

In addition to the saving in cost as indicated, there will be a saving in transportation amounting to approximately 33,000,000 ton-miles, which will make available for other purposes this amount of railroad transportation.

A country worth fighting for is a country worth saving for. Buy THRIFT STAMPS.

CAMPAIGN FOR ECONOMY IN USE OF ALL KINDS OF PAPER PLANNED

War Industries Board Pulp and Paper Section to Appeal to Public to Stop Waste.

The War Industries Board authorizes the following:

T. E. Donnelley, chief of the pulp and paper section, War Industries Board, yesterday announced that his section would shortly undertake a general publicity campaign for economy in the use of all kinds of paper, the purpose being to educate the consuming public to the importance of conservation as a war measure. This new work of the pulp and paper section has been placed in charge of Dr. E. O. Merchant, a member of the section, who is also in charge of the paper investigations of the Federal Trade Commission.

Paper has been so cheap and so plentiful in the past that people little realized its value. But war conditions demand a prompt and radical change in the habits of consumers, and the members of the pulp and paper section feel confident that when the consuming public is shown the reasons and the necessity for such change they will promptly and patriotically respond to the appeal for conservation, as they have done to the various other appeals that have been made by the Government.

Will Appeal to Public.

It is the intention of the pulp and paper section, with the cooperation of the public press, to show the consuming public how the demands of the Government for various kinds of paper and for various chemicals and other materials used in paper making are increasing rapidly and how every pound of paper wasted represents not only the waste of valuable materials, such as coal, pulp, chemicals, etc., but also the waste of productive labor, working capital, and transportation space, in all of which there is an increasing scarcity. Printers and publishers, stores, business offices, hotels, clubs, and private homes will be asked to cooperate with the Government to the end that all wasteful and uneconomical uses of paper may be eliminated and that all waste papers, rags, etc., may be saved, collected, and returned to the mills for use again in paper making.

Age Limit for Civilians Is Raised to 45 Years

The War Department authorizes the publication of the following:

The age limit for civilian applicants to the Central Officers' Training Schools has been raised from 40 to 45 years upon date of entrance.

Special Orders, No. 163:

184. Maj. Stuart McLeod, National Guard in the service of the United States, will proceed with the least practicable delay to Fort Sill, Okla., and report to the commandant, School of Fire, for Field Artillery duty.

PRESIDENT DENOUNCES MOBS

(Continued from page 1.)

the United States what her most gifted liars can not improve upon by the way of calumny. They can at least say that such things can not happen in Germany except in times of revolution, when law is swept away!

I therefore very earnestly and solemnly beg that the governors of all the States, the law officers of every community, and, above all, the men and women of every community in the United States, all who revere America and wish to keep her name without stain or reproach, will cooperate—not passively merely, but actively and watchfully—to make an end of this disgraceful evil. It can not live where the community does not countenance it.

CALLS UPON NATION TO KEEP LAWS INVIOLATE.

I have called upon the Nation to put its great energy into this war, and it has responded—responded with a spirit and a genius for action that has thrilled the world. I now call upon it, upon its men and women everywhere, to see to it that its laws are kept inviolate, its fame untarnished. Let us show our utter contempt for the things that have made this war hideous among the wars of history by showing how those who love liberty and right and justice and are willing to lay down their lives for them upon foreign fields stand ready also to illustrate to all mankind their loyalty to the things at home which they wish to see established everywhere as a blessing and protection to the peoples who have never known the privileges of liberty and self-government. I can never accept any man as a champion of liberty either for ourselves or for the world who does not reverence and obey the laws of our own beloved land, whose laws we ourselves have made. He has adopted the standards of the enemies of his country, whom he affects to despise.

WOODROW WILSON.

FIFTEEN BIG NEW GUN PLANTS COMPLETED AND PRODUCING CANNON FOR AMERICANS

ORDNANCE DEPARTMENT REPORT

Table Showing Government Expenditures for Buildings and Equipment—Sixteenth Forging Plant Is Now 85 Per Cent Completed.

The War Department authorizes the following statement from the Ordnance Department:

The Army Ordnance Department announces the completion of 15 of the 16 gun plants for the forging and machining of cannon. The sixteenth plant is 85 per cent complete.

In the erection of these plants the Government has expended $34,768,297.

All Now Producing.

It was necessary to provide these plants as a preliminary to the production of but one part of a complete gun which includes, besides the body or barrel, a carriage and a complicated recuperator and recoil system.

All 16 plants now are producing cannon or cannon forgings for mobile artillery from 1½ inches (the 37 m. m. "anti-tank gun") to 10 inches.

No percentages of completion and installation of machinery on the Neville Island plant of the United States Steel Corporation, the $30,000,000 project for the manufacture of siege guns, funds for which became available last month, are given in the Ordnance announcement.

Processes in the forging and machining of cannon so differ from the ordinary commercial practices of peace times in this country that the Government was obliged to build the 16 plants from the ground up and to equip them with machinery, much of which had to be designed especially for this work.

Creation of a New Industry.

The production of cannon involved the creation of a new industry. The Midvale and Bethlehem companies were the only plants of any size outside of Government arsenals available for the manufacture of Army guns in quantities, and Midvale was largely utilized for Navy work.

The requirements for ordnance were so great that Midvale and Bethlehem could not take care of the production needed. It was necessary for the Army Ordnance Department immediately to erect and equip a large number of new plants for cannon. The organization and facilities for these were taken from factories that had been successfully engaged in the production of various types of equipment ranging from railway appliances to high-grade machine tools.

New Requirements Met.

While none of these companies had ever been engaged in ordnance manufacture, all have successfully met the rigid requirements and are to-day producing material which is the equivalent of the best products of the ordnance companies of Great Britain and France.

The building of the 16 plants started as soon as funds became available—in July, 1917—and progressed so rapidly that machinery was in operation and actual operations on cannon in progress in January, 1918. One plant, the site of which was a ravine in August, 1917, had completed its first 6-inch howitzer in February, 1918—seven months later.

Construction of almost all of the plants was delayed by weather conditions, traffic delays, and the pressure on the machine tool industry, upon which heavy demands were being made by many departments of the Government, including the Navy and the Emergency Fleet Corporation. The Ordnance Department was forced to wait its turn.

Some of Difficulties Met.

Typical of the weather conditions that delayed construction was the forming of two feet of ice in the wooden forms into which cement was being poured for the foundation of a large press at one of the plants. A circus tent was pitched over the operation and stoves were installed to permit the work to proceed. A storm at night lifted the tent into the Delaware River.

Typical of traffic delay was the holding of five carloads of steel for three weeks within 15 miles of the site of the plant building.

The Ordnance Department announcement shows that 5 of the 16 plants have their machinery 100 per cent installed and 100 per cent in operation. Five others are 90 per cent or more complete as to installation of machinery. Only two are as low as 65 per cent, and one of these is the $9,180,207 project at the Watervliet Government Arsenal.

A table showing the Government expenditures for the building and equipment of the cannon plants, together with the percentage of complete construction, installation of machinery, and machinery in operation, follows:

Gun plants.	Government expenditures for plant facilities.	Per cent complete construction.	Per cent complete machinery installation.	Per cent machinery in operation.
American Bridge Co. (U. S. Steel), Gary, Ind.	$2,000,000	85	65	31
American Brake Shoe Foundry Co., Erie, Pa.	3,150,000	100	95	95

DAVID J. LEWIS IS DETAILED FOR U. S. WIRE CONTROL WORK

EXECUTIVE ORDER.

Under and by virtue of the powers vested in me by the act authorizing the President to coordinate or consolidate executive bureaus, agencies, and offices, and for other purposes, in the interest of economy and the more efficient concentration of the Government, approved May 20, 1918, and by virtue of all other powers thereto me enabling, David J. Lewis, Commissioner, United States Tariff Commission, is hereby detailed to the Post Office Department until further ordered, for such duties in connection with the control and operation of the telegraph and telephone services by that department as may be assigned to him by the Postmaster General.

WOODROW WILSON.

THE WHITE HOUSE,
July 23, 1918.

PRIORITY FOR MINE SUPPLIES.

The United States Fuel Administration announces the appointment of Roy A. Rainey, of New York, and David D. Bush, of Chicago, to the Production Bureau to take charge of priorities in mine supplies. They will work in conjunction with the War Industries Board to see that the production of coal is not hampered or lessened by reason of needed material or equipment.

317 SCHOOLS SEND TEACHERS OR STUDENTS TO TRAINING CAMPS

The public relations committee of the War Department Committee on Education and Special Training authorizes the following:

Three hundred and seventeen schools and universities have responded to the offer of the War Department to give special military training in the officers' training camps at Plattsburg, Fort Sheridan, and the Presidio at San Francisco to a picked group of instructors and students. No commission will be given. Members of this group will assist officers assigned by the War Department to the colleges in the training of Students' Army Corps. This unit of the National Army will be recruited from among registered college students between the ages of 18 and 21 years.

Camps Now in Session.

The camps are now in session. The camps for the teachers are being conducted on the same basis as the officers' training camps. Officers are appointed from the ranks to serve during the session. This training will be followed by an intensive recruiting campaign on the part of the universities cooperating with the War Department to prevent premature enlistment and also to keep the boys in college until they are fitted by special training for special Government service.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor*.

RATES BY MAIL.

Daily	One year	$5.00
	Six months	3.00
	One year, postage prepaid to foreign countries	8.00
	Six months, postage prepaid to foreign countries	4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

[illegible] 1917.

NEW REGULATION PLACES RICE ON RESTRICTED IMPORT LIST

The War Trade Board issues the following:

The War Trade Board by a new ruling, W. T. B. R. No. 177, has placed rice upon the list of commodities the importation of which for domestic consumption is prohibited. Accordingly, no further licenses for the importation of rice to be consumed in the United States will be issued and all such licenses which are now outstanding shall expire and become void unless shipment from abroad is made thereunder on or before July 31, 1918.

Notwithstanding the foregoing ruling, the importation of rice into the United States in bond for transshipment to the West Indies or Central America will be permitted if the details of ultimate destination are clearly set forth on the application for import license.

Maximum Price is Fixed For Mixed Domestic Coke

The Fuel Administration issues the following:

By an order of the United States Fuel Administration, effective 7 a. m. July 25, the maximum price per ton of 2,000 pounds, f. o. b. cars at the point where produced, for mixed sizes of properly screened and cleaned beehive or by-product coke suitable for domestic purposes shall be $1 less than the maximum Government price for selected foundry coke f. o. b. cars at the same point.

The production of domestic fuel by screening and cleaning the accumulated breeze piles at Beehive and By-Product coking plants has recently grown to such an extent that the United States Fuel Administration found it necessary to establish a maximum price for the product.

American Official Communique on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique No. 72.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
July 25, 1918.

Section A.—Between the Ourcq and the Marne our troops continue to press the enemy. In their advance eastward they have taken the southern half of Foret de Fere.

Section B.—There is nothing to report in this section.

The following cablegram was yesterday received by The Adjutant General from Gen. Pershing:

Through an error in cabling communique No. 49 the following paragraph was omitted: "The Commander in Chief has awarded distinguished service crosses to the following officers and men for the acts of gallantry set forth after their names." This should have preceded the names of Capt. Keller E. Rockey, Marines; Capt. John H. Fay, Marines; Surg. Paul T. Dessez, Marines; Passed Asst. Surg. Richard O'B. Shea, Marines; First Lieut. Edward B. Hope, Marines; Gunner Henry L. Hulbert, Marines; Sergt. Maj. Carl J. Norstrand, Marines; Gunnery Sergt. Charles F. Hoffman, Marines; Sergt. John Casey, Marines; Corpls. Arnold B. Godbey, and Prentice S. Geer, Marines; Pvt. John Kukoski, Marines; Sergt. John H. Culnan, Marines. The omission of the paragraph quoted above placed these names with the list in the cable under the paragraph which stated that the Commander in Chief had awarded distinguished service crosses posthumously.

ORDER ON THE USE OF RIFLES BY HOME GUARDS MODIFIED

The War Department authorizes the following:

Upon recommendation of the Ordnance Department the order of The Adjutant General, "that the quota of arms for each State would be first issued to National Guard units, and any remaining surplus to Home Guard organizations," has been modified.

In its changed form the order will permit the issue of rifles for use of Home Guard organization when such rifles are not required for National Guard units already organized. This would be done pending the organization of such National Guard units, and upon agreement of the governor of the State, in each case, to transfer the rifles to the National Guard units when needed for that purpose. Under the old order Home Guard units already organized could not have the use of any rifles issued by the Government until all needs of the National Guard of the State had first been met, even though the National Guard units were not organized.

It must be understood, however, that it is impossible at this time to say when any rifles will be available for the use of Home Guards under this change. This is due to the fact that the department must first determine how much of the available rifles will be needed for future draft quotas, and how much can be spared from the supply held in reserve to allow for any fluctuations in the production of new rifles. Steps to determine these questions will be taken.

RATTANS AND REEDS PLACED ON RESTRICTED IMPORT LIST

The War Trade Board issues the following:

The War Trade Board by a new ruling (W. T. B. R. 176) has placed rattans and reeds on the list of restricted imports. All outstanding licenses have been revoked as to ocean shipments made after August 5, 1918. Hereafter no licenses for the importation of rattans and reeds will be issued, except for shipments from Canada or Mexico by other than ocean transportation, and except further for shipments coming as return cargo from convenient European ports or from convenient Mediterranean North African ports and then only when coming from a convenient port where loading can be done without delay.

TREASURY STATEMENT.

TREASURY DEPARTMENT,
Washington, July 24, 1918.

Total	1,628,682,638.52

PROCEEDINGS OF THE CONGRESS BRIEFLY TOLD

Peace offers from Germany were predicted and the people warned against them as only another form of German propaganda by various Senators during the brief session of the Senate yesterday afternoon. Senator Lewis, of Illinois, declared that these offers would come so couched as to attempt to persuade the American people that all that this country was fighting for had been accomplished. He predicted that Germany would offer favorable concessions in the west in return for granting to Germany the right to exploit Russia and the east. This, the Illinois Senator said, would only be in furtherance of her desire and purpose to dominate the world. It would give Germany the power to build up a gigantic military machine in Russia for future use and the first nation to feel its force, he predicted, would be the United States. He warned the country against the insidiousness of these coming German peace proposals.

Senator Sherman, Republican, of Illinois, said he did not care to hear any peace talk while the German flag floats over 1 inch of the soil of Belgium, France, or Serbia. Peace, he said, could not be considered so long as Germany has failed to disavow the reasons that impelled us to declare war. "There will never be peace," he declared, "without victory. Until we have the victory in our hands, it is our duty to talk war force without stint, war to the limit against the common enemy of the world."

Discusses Labor Question.

The discussion was concluded with some observations by Senator Thomas, Democrat, of Colorado, on the labor question. He contended that the greatest danger confronting the allies to-day is the present slowing down of production. Victory, he said, might through this situation, be snatched away at the very moment when it is most needed.

Senator King, Democrat, of Utah, introduced a resolution calling upon the War Department to inform the Senate of the names of all Army officers who, since the United States has been at war, have received or are receiving salaries, gifts, or emoluments from any corporation or person having to do with Government contracts. In submitting the resolution Senator King said it was prompted by recent disclosures and arrests in New York in connection with Army raincoats and other Army supplies. The resolution was referred to the Military Committee and can not be acted upon by the Senate until the three-day recess agreement is concluded.

Mail Service in France.

Secretary Baker transmitted to the Senate, in response to a resolution, a cable from Gen. Pershing announcing that the mail service for the Expeditionary Forces in France has been taken over entirely by the military authorities and that delays previously complained of are fast being eliminated.

Members of the Ways and Means committee of the House, after an all day session on the war revenue bill, disclosed the fact that the rates of taxation thus far tentatively agreed upon will yield approximately $4,500,000,000, which would be $1,500,000,000 less than the $6,000,000,000 the Treasury Department believes should be raised from excess profits and individual and corporate income taxes. The majority of the committee yesterday, it was stated, seemed to favor a 30 per cent tax on all excess profits between 10 per cent and 20 per cent; a 50 per cent tax on all excess profits beween 20 per cent and 25 per cent, and an 80 per cent tax on all excess profits above 25 per cent. According to figures submitted to the committee this was expected to yield about $1,690,000,000. Under the schedule as tentatively agreed upon a flat exemption would be granted to every business concern of $2,000 and 10 per cent on the capital invested.

Chairman Kitchin of the Ways and Means committee following yesterday's session issued the following statement concerning the committee's deliberations on the subject of excess profits:

Statement by Mr. Kitchin.

"A specific exemption of $2,000 plus 10 per cent on invested capital was tentatively agreed upon.

"These rates were discussed:

"1. Eighty per cent on all net income in excess of exemption of 10 per cent. (Would yield $2,400,000,000.)

"2. Forty per cent on all net income in excess of exemption of 10 per cent and not in excess of 20 per cent. Eighty per cent on all net income in excess of 20 per cent. (Would yield $1,750,000,000.)

"3. Thirty per cent on all net income in excess of exemption of 10 per cent and not in excess of 20 per cent; 50 per cent on net income in excess of 20 per cent and not in excess of 25 per cent; 80 per cent on net income in excess of 25 per cent. (Would yield $1,690,000,000.)

"4. Sixty to eighty per cent on the difference between the average per centum of profits for the best four of the six years (to be selected by the corporation)—1911, 1912, 1913, 1914, 1915, and 1916—and the profits for the taxable year with 10 per cent deduction on the capital put in since 1916.

"The committee seemed to lean toward the third proposition."

Additional Draft Calls By the Provost Marshal

Gen. Crowder, Provost Marshal, has designated 24 white limited-service men to go to the Bureau of Aircraft Production, Washington, D. C.

White men qualified for general military service, numbering 1,753, are to be sent to the Engineer Corps at Camp Forrest, Lytle, Ga., July 29. This call has been completely filled by volunteers.

August 1, 600 white limited-service men are to go to the Bureau of Aircraft Production, Kelly Field, San Antonio, Tex.

Pennsylvania, July 31, is to send 1,528 white men to Camp Forrest, Lytle, Ga.

Virginia, August 1–5, will send 1,500 colored men to Camp Humphreys, Accotink, Va.

SUGAR ALLOWANCE IN HOMES 2 POUNDS MONTHLY, PER PERSON, FOOD ADMINISTRATION ORDERS

RATION IN EFFECT AUGUST FIRST

Cut From Three Pounds Necessary In Order to Supply Our Soldiers And Allies—Same Ratio Applies To All Public Eating Places.

The Food Administration issues the following:

Basing its action on a careful survey of the world sugar situation and a compilation of the immediate demands, the United States Food Administration calls on the American public to restrict the consumption of sugar in the home to 2 pounds per person per month from August 1 to January 1. This replaces the present regulation of 3 pounds per person per month, and includes all sugar used on the table and in cooking.

A similar order is being issued to govern public eating places, limiting their use of sugar to 2 pounds for every 90 meals served.

Now an Essential Element.

The Food Administration [illegible] that the American public will heartily agree to reduce the household use of sugar here to a level more nearly equal to the present restrictions among the peoples of the allies, provided our people clearly comprehend that sugar, which with us is often used in great measure as a luxury, has become an essential element for the success of the war among the nations of Europe. Upon our action here depends the possibility of maintaining the ration to our own fighting men and those of the allies as well as of avoiding a still further reduction of the allotments to the civil populations of the nations fighting Germany, which are already down to a point far under their normal needs. England, which before the war used more sugar than the United States, has already reduced its household consumption to 2 pounds. France allows its people a maximum of a pound and a half, and the Italian ration has been reduced to barely a pound. Recently even those amounts have not been possible.

Strict Economy Necessary.

Furthermore, unless there is strict and consistent economy in the United States the supplies for Belgium and those required by the Red Cross, the Y. M. C. A., Knights of Columbus, Salvation Army, and similar organizations working for the welfare and comfort of our soldiers in Europe can not be maintained.

The situation which the United States faces in its efforts to maintain a fair distribution of sugar to the allied world is as follows: The sugar supplies throughout the country, in homes, stores, factories, and bakeries are at low ebb; the production from the American beet and Louisiana cane crops have been disappointing; the yield in Porto Rico has likewise been smaller than anticipated; and the inability of the United States and the allies to secure sugar from Java and

(Continued on page 7.)

ASKS BUILDING AND LOAN MEN TO HELP DETECT ENEMY PROPERTY

The Alien Property Custodian sent the following telegram to the National Convention of the United States League of Building and Loan Associations at Newark, N. J.:

NATIONAL CONVENTION UNITED STATES LEAGUE OF BUILDING AND LOAN ASSOCIATIONS.

GENTLEMEN: The patriotism and loyalty of the members of your associations are so well known that it is a pleasure for me to ask your cooperation in the task of detecting money and property of enemy character. America is going to win this war, but to be successful the President must have the cooperation and assistance of you and the great body of men and women whom you represent.

Represent Highest Form of Thrift.

The members of the building and loan associations of this country represent the highest form of American thrift. They are home builders, and as such touch the very heart of our country.

The home is the foundation of all things in life, and when you find a people interested and devoted to the building of homes you find a people who are loyal and patriotic, and ready at all times to give the best that is in them to preserve the great ideals they cherish.

When you go back home it will help exceedingly if you will have the officers of your organizations go over their books for the purpose of finding out whether or not they have enemy money and property thereon which they may have overlooked. I want you to tell your friends and acquaintances about the work of the Alien Property Custodian's office, because I want to make sure that a report is made to this office of every dollar of enemy-owned money and property in America.

Proceeds Invested in Liberty Bonds.

Enemy-owned money taken over by me is invested in Liberty bonds, and it is thus made to fight for our country instead of against it. All information regarding enemy money and property, even if its enemy character is only suspected, should be sent to Alien Property Custodian's office, Washington, D. C.

If in doubt as to the enemy character of any money or property you know of, write to me at once, giving all of the essential facts, and you will be quickly advised.

I congratulate you on the great work you are engaged in.

I know that I can count upon your cooperation and assistance. I am going to thank you in advance for it.

A. MITCHELL PALMER,
Alien Property Custodian.

NITRATE PLANT LOCATION.

Broadwell Site Chosen for Half Unit to be Built at Cincinnati.

The following statement is authorized by the War Department:

The so-called Broadwell site has been finally selected for the half unit of the Air Nitrates Corporation plant to be located at Cincinnati, Ohio.

POINTS CONCERNING THE LICENSING OF THE FARM EQUIPMENT INDUSTRY

The Department of Agriculture authorizes the following:

In answer to inquiries received by the United States Department of Agriculture from farm implement dealers regarding various provisions of the President's recent proclamation for the licensing of the farm-equipment industry, officials of the Department of Agriculture who are charged with the carrying out of this proclamation have prepared the following statement:

A jobber or wholesaler is an individual, partnership, association, or corporation who purchases any farm equipment covered by the proclamation, and in turn sells it to a retail dealer; they are required to secure licenses for the conduct of such business regardless of its extent.

All manufacturers, wholesalers, jobbers, and warehousemen of farm equipment must secure Federal licenses regardless of the extent of their business.

Retailers.

Retailers not engaging in the wholesale business, whose gross sales do not exceed $100,000 per annum, are not required to secure a license for the conduct of their retail business in "farm equipment" as that term is defined in said proclamation and regulations. In determining whether the gross sales of a retail business do or do not exceed $100,000 per annum, the gross sales of the entire business, including all lines of merchandise, as well as farm equipment, should be embraced in the calculation.

All other retailers of any such farm equipment must secure a license in accordance with the proclamation.

Binder twine is not covered in any of the classes of farm equipment covered by the President's proclamation and regulations.

Fencing is specifically mentioned in the President's proclamation, and includes all types of fencing required for farm use in the actual production of foods and feeds.

Subsidiary Selling Companies.

Subsidiary selling companies: Where a manufacturer organizes a separate corporation as a subsidiary selling company and the subsidiary buys farm equipment from the manufacturer and sells it either to retail dealers, jobbers, or wholesalers the manufacturer and the selling company should both secure licenses.

Regulation prohibiting resales within the same trade without reasonable justification: The purpose of this regulation is to prevent an increase in the price of the product which might result from any unnecessary sale thereof in the course of its distribution from manufacturer to consumer. Whether there is reasonable justification for any resale within the same trade depends upon the facts in the particular case; no general exception will be made. However, if a real economic service in the marketing of farm equipment is performed by any such resale and it does not tend unduly to increase the price of the product, no objection would be made by this department to the resale.

Branch Houses.

Branch houses: If a concern which is subject to license under the proclamation has a branch house which is a distinct legal entity, as, for instance, where the two are different corporations, a separate license should be secured for each such branch as well as for the main concern. If the main concern and the branch or branches are merely parts of the same legal entity, one license will suffice for all; but in any event the facts concerning the existence of the branch houses and their relationship to the main concern should be disclosed in the application for license.

Manufacturers of accessories and attachments: If the manufacturer of accessories and attachments sells direct to dealers or users he is required to take out a license. However, if he only sells to the manufacturer of the complete machine, he will not be required to obtain a license at this time.

Silo Manufacturers.

Silo manufacturers: An individual, partnership, association, or corporation maintaining an establishment in which silos or silo parts are manufactured or stored, will be required to obtain a license, no matter how the product is distributed. Those who merely construct silos on farms, but maintain no manufacturing or storage establishments, will not be required to obtain a license.

Exporters: The proclamation does not require that the business of exportation as such of farm equipment be brought under license, although if exporters are also engaged in the business of importing, manufacturing, storing, or distributing (exclusive of exporting) farm equipment covered by the proclamation, and are not specifically exempted by the food control act, they would have to secure licenses pursuant to the proclamation. Exports are controlled by the War Trade Board under other authority.

ISSUANCE OF SHIPYARD PASSES THOROUGHLY SYSTEMATIZED

The United States Shipping Board authorizes the following:

The growing importance to Germany in a military way of all information connected with the progress of our shipbuilding program has led officials of the United States Shipping Board Emergency Fleet Corporation to thoroughly systematize the issuance of passes permitting access to the various shipyards.

This matter of shipyard passes has now been placed in the hands of the Plant Protection Section headed by Lieut. Col. Jas. A. Blair, jr., who is located in the Bulletin Building, Philadelphia.

Col. Blair is also in charge of the enforcement of the recent order which permits only officials or representatives of the United States to carry out of this country photographs, prints, or other reproductions of plans or specifications of shipyards' ways, dry docks, or ships, or their parts or equipment.

Special Orders, No. 163:

197. Maj. Alfred H. Hobley, Aviation Section, Signal Corps, will proceed on or about July 25, 1918, to Washington, D. C., and report in person to the director of military aeronautics, that place, for duty.

LIST OF CASUALTIES AS REPORTED AMONG THE U. S. FORCES OVERSEAS

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	21
Died from wounds	4
Died of disease	6
Wounded severely	60
Missing in action	6
Prisoner	1

2 POUNDS OF SUGAR PER MONTH FOR EACH PERSON IN THE HOME

(Continued from page 5.)

other distant sources on account of the imperative call for ships for the movement of troops and their supplies has materially reduced the supply from such quarters.

Exceeds Early Estimates.

Added to this already difficult situation, the quantity needed by the Army and Navy greatly exceeds earlier estimates; we must send a large amount to France and Italy to take the place of the great volume lost through the German and Austrian invasions, during which much beet land was overrun and many factories destroyed; we have to supply certain quantities to neutral nations under agreements; and finally over 50,000,000 pounds were lost recently through submarine sinkings off our Atlantic coast.

The industries using sugar have been reduced in their consumption of sugar, most of them having their supplies cut in half and some receiving none at all. The situation is so serious that every possible means of conservation should be observed.

Use in Household Canning.

Household canning without sugar should be done wherever possible, and where sugar is used it should be only to the extent necessary to secure the maximum of preserving with the minimum use of sugar at this time. With prospects of increased supplies after November 1, and still more after January 1, sugar may be then added with more freedom.

In order to make sure that the distribution of sugar in the United States shall be equitable the Food Administration has worked out a scheme of allocation to the States, based on population, and taking into account the needs of sugar-using industries in the States. Within each State the details of distribution will be left to the Federal food administrators.

RESTRICTIONS ON MANUFACTURE OF FARM WAGONS AND TRUCKS

War Industries Board Issues Schedule Intended to Conserve Use of Steel.

The War Industries Board authorizes the following:

Manufacturers of farm wagons and trucks have been called on by the Conservation Division of the War Industries Board to reduce greatly the varieties of their product for the purpose of conserving material, especially through the elimination of the avoidable use of steel and iron and for the purpose of reducing the amount of capital tied up in manufacturers' and dealers' stocks.

Schedule Sent Manufacturers.

A schedule of such reductions and new standardizations, to become effective at once unless other economies can be effected by additional changes, has been sent to manufacturers. Five classes are established—farm wagons and gears, valley wagons and gears, mountain wagons and gears, one-horse wagons and gears, and farm trucks and gears; all these vehicles to have a standard track of 56 inches measured from center to center of tire on ground and a standard width of 38 inches between stakes. All tires are to be oval edge, eliminating both round and square-edge types. Wagon boxes are to be of the uniform width of 38 inches without foot-boards.

Restricted as to Capacity.

Farm wagons are to be restricted to four capacities—light, 1,500 pounds; medium, 3,000 pounds; standard, 4,500; and heavy, 6,000. Only one gear, with but one height of bolster, is to be made for each capacity. Valley wagons and gears are to be in three capacities—medium, 3,000; standard, 4,500; and heavy, 6,000. Mountain wagons and gears will be of four capacities—light, 2,500; medium, 4,000; standard, 5,500; heavy, 7,000. The old style hound top of reach construction for this wagon is eliminated. One-horse wagons and gears are to be of three capacities—light, 1,000; medium, 1,250; heavy, 1,500.

Farm-truck gears are to be manufactured in but one size of cast skein, viz, 3¼ inch.

Use of Steel Axles.

Steel axles may be substituted for wood axles in comparative capacity only. Wood wheels for two-horse wagons are to be furnished in three diameters—40, 44, and 48 inches. One-horse wagons are to have two diameters of wheels—40 and 44 inches. From 12 to 14 spokes per wheel, according to diameter, are allowed. Truck gears are allowed two diameters of wheels—36 and 40 inches—and made with 12 spokes only. Two-horse farm, valley, and mountain wagons may be equipped with steel wheels of diameters specified for wooden wheels.

Portions of the new schedule governing tire assortments, bois d'arc felloes, and wheel diameters, except for wheel diameters for one-horse wagons, are to become effective not later than January 1, 1920; and no equipment that differs therefrom is to be manufactured after that date, except for repair purposes. All other portions of the schedule, including that referring to wheel diameters for one-horse wagons, are to become effective not later than January 1, 1919, and no equipment that differs therefrom is to be manufactured after that date, except for repair purposes.

WAR LABOR HOUSING PROJECT AT BETHLEHEM, PENNSYLVANIA

The Department of Labor authorizes the following:

The Bureau of Industrial Housing and Transportation is proposing to build from 1,200 to 1,500 houses at Bethlehem, Pa. A tract of land about 300 acres in extent has been acquired on the outskirts of the city just across the river from the plant of the Bethlehem Steel Corporation.

Because of the large size of this development it is impossible to locate it nearer the city. It was therefore necessary to provide, in addition to the houses, certain community facilities, such as stores, a moving-picture theater, and a recreation building. It was also necessary to supplement the existing school facilities. This will probably be done by an arrangement with the city authorities.

The contract was awarded about 10 days ago for the construction of sewers, water supply, electric light, sidewalks, streets, etc. The contractor now has a large force at work.

Lots 40 by 100 Feet.

The houses are generally grouped in rows of from four to six. The lots on which they are to be built average about 40 by 100 feet. The construction will be of brick because that is the most available building material in the region. The United States Housing Corporation has been advised by the War Industries Board on this account to use brick, which can be brought on trucks to the building site, thereby avoiding any further burden on railroad facilities.

The houses will contain five and six rooms and in some cases will have large attics in which one or two other rooms might be added. Enough variation in type to avoid monotony has been planned.

To Build Men's Club.

In addition to these houses the corporation proposes to build a men's club in South Bethlehem immediately adjacent to the Bethlehem Steel Corporation plant. This club will be provided with billiard rooms, bowling alleys, assembly hall, and other recreational facilities. The need for this arises from the fact that that section of the city is entirely without recreational opportunities, other than those furnished by the corner saloon. The Government club is designed to compete with these and was especially asked for by Army representatives.

The Ordnance Department is building a temporary dormitory to house 1,000 men in another section of Bethlehem.

The need of the Government houses in Bethlehem is very acute. There are in storage now 7,000 sets of household furniture. This furniture is not being used because no houses are available. In many cases the men and their families have left the city because they found no place in which to live.

STUDENTS' ARMY TRAINING CORPS MAY NUMBER 100,000

The Public Relations Committee of the War Department, Committee on Education and Special Training, authorizes the following:

A trained reserve Army of 100,000 young men volunteers between the ages of 18 and 21 years, to be held in readiness by the universities of the country, is expected as the result of the present "Keep-the-boy-in-college" campaign. This campaign is now being conducted by the schools in cooperation with the War Department.

Is Unit of National Army.

This national organization is known as the Students' Army Training Corps. It is a recognized unit of the National Army. The college student of the proper age and physically fit is eligible for voluntary enlistment. The student soldier will have the status during the school year of a private in the National Army on furlough without pay. The Government provides uniforms and equipment. During the six weeks of intensive military instruction during the summer a student soldier will receive the pay of a private.

The members of this student army will hold themselves in readiness to respond at once to a call for service from the President. The policy of the Government in urging the "Keep-the-boy-in-college" campaign is to prepare the Students' Army Training Corps to meet future demands for highly trained specialists and to furnish material for officers' training camps.

SMOKELESS COAL OPERATORS HOLD CONFERENCE ON PRICES

The Fuel Administration issues the following:

A conference has just been concluded between representatives of the United States Fuel Administration and the smokeless coal operators of West Virginia. It was held for the purpose of adjusting the standard of prices of the product in these fields, for coal consigned to Hampton Roads, and for the consideration of other matters relative to brokers' commissions, production, etc.

Matter Still Pending.

No definite conclusion was reached at the present conference as to price adjustments, the operators from the Pocahontas field proposing to submit to the Administration at an early date a complete new set of cost sheets, which they say will more nearly represent the mining costs in their field.

Under the present regulations of the Fuel Administration, nine different basic prices are fixed for coal originating in the Pocahontas, New River, and Tug River fields.

Covering different grades and different allowances, commissions, etc., there are forty-eight different prices applying to these fields. The Administration has proposed a schedule of average prices for the purpose of simplifying the accounting to the different fields and different operators. The Pocahontas operators object to the enforcement of any new plan until new cost sheets for their field shall have been prepared and submitted.

ADDITIONS TO AND REMOVALS FROM THE ENEMY TRADING LIST ANNOUNCED BY AUTHORITY OF WAR TRADE BOARD

The War Trade Board announces the following additions to and removals from the Enemy Trading List:

Additions.

Argentina:
Aspiri, Stein & Co., Buenos Aires.
Friz, Theodoro, Buenos Aires.
Gonzalos, Tomas, Buenos Aires.
Pison y Pablo, Juan, Calle Paraguay 2547, Buenos Aires.
Willers, F., & Co., Buenos Aires.

Brazil:
Salinger, Gustavo, & Co., Blumenau.
Wiedman, Alfredo, Porto Alegro.

Chile:
Frank, Dr. Miguel, Santiago.
Horny, A. C., Iquique.
Hubenbecker, Teodoro, Santiago.
Sylvester, Rudolph, Santiago.
Wolrath, A., Santiago.

Colombia:
Pinckert, W., Tumaco.

Costa Rica:
Guido, Estela de, Puntarenas.

Cuba:
Bernal, Federico, Habana.
Cia Cubana de Comisciones y Representaciones, Sol 74, Habana.
Oswald, Carl, Habana.
Upmann, Herman, Habana.
Wagner, Frederick, Habana.

Ecuador:
Kaiser, Guillermo, Quito.
Pinckert, W.
Vacacola, Juan, Riobamba.

Guatemala:
Alvarado & Co., Quezaltenango.
Candelaria Plantations, Xolhuitz, Quezaltenango.

Railroad Reports on Standardized Forms to Show Averages of Cost and Efficiency

The United States Railroad Administration, Division of Operation, authorizes publication of the following:

WASHINGTON, *July 15, 1918.*

CIRCULAR NO. 15.

1. Effective with transactions which accrue on and after August 1, 1918, all Class I roads under Federal control (railroads having annual operating revenues in excess of $1,000,000) will make monthly reports to the Operating Statistics Section, Division of Operation, 603 Southern Railway Building, Washington, D. C., on the forms and in the manner hereinafter prescribed.

2. The objects of the standardized forms of reports are:

(a) To furnish the Director General, the Director Division of Operation, and the regional directors with the basic data and the significant averages, ratios or unit costs, which relate to or furnish indices of operating efficiency. In so far as it is practicable, the information on these forms will be utilized in supplying, through the Operating Statistics Section of the Division of Operation, the statistical requirements of the several sections of the Division of Operation or of other divisions.

(b) To provide uniform bases, methods and forms which will insure uniformity in practice, and avoid any question as to comparability in so far as bases and methods are concerned.

3. The reports on the standardized forms should be made (in duplicate) for each road (operating unit) as a whole, and for systems when such consolidation of statistics is now being made. The present practice of keeping the physical operating statistics (required by Forms O. S. 1 to O. S. 5, inclusive) by divisions and districts should be continued, and such divisional or district statistics should be kept in conformity with the standardized forms herein prescribed. The details by divisions and districts need not be reported to the Operating Statistics Section unless special request is made therefor, but in the case of a railroad which is under the jurisdiction of more than one regional director, it is desirable to make separate reports for each region, if such a course is practicable.

4. The desirability of separation in the physical operating statistics (required by Forms O. S. 1 to O. S. 5, inclusive) between the main lines and the branches is recognized, but such separation is not required at this time. Where the separation is now made by individual carriers, the practice should continue, so that the detailed information may be available if called for.

5. The forms standardized by this order are:

Form O. S. 1, Freight-train performance.

Form O. S. 2, Passenger-train performance.

Form O. S. 3, Locomotive performance.

Form O. S. 4, Distribution of locomotive hours.

Form O. S. 5, Freight-car performance.

Form O. S. 6, Locomotive and train costs.

Form O. S. 7, Condensed income account and operating expenses by primary accounts.

6. With the exceptions hereinafter noted, the basic information and most of the percentages, ratios, and averages, are now compiled and computed in meeting the accounting requirements of the Interstate Commerce Commission. The exceptions are:

(a) Gross ton miles—the product of the tons of train behind the tender (cars, contents, and caboose) and the miles moved.

(b) Rating gross ton miles—the potential gross ton miles which would have been produced had the train been loaded to 100 per cent of the slow freight rating for normal weather conditions, taking account of changes in rating over sections of the run.

(c) Net ton miles—the product of the tons of revenue and nonrevenue freight in the train and the miles moved. This is to be computed from the conductors' train reports.

(d) Train-hours—the aggregate elapsed time of trains between the time of leaving initial terminals and arriving at final terminals, including delays en route.

(e) Distribution of locomotive-hours—the number of hours employed by locomotives in freight, passenger, yard, and other services, divided to show the percentages of time in useful service, held at terminals, held in engine houses, and held in reserve.

7. Each form contains instructions, by footnotes or by reference to Interstate Commerce Commission account numbers, which should insure uniformity in the compilation of the figures.

8. The conductors' train reports should be the source of the basic information for train-miles, locomotive-miles, car-miles, gross ton-miles, rating ton-miles, net ton-miles, and train-hours. As the conductor's train report now in use does not in all cases show the complete data (as, for example, the weight of the car divided between net and gross), it will be necessary in such cases to revise the form of the report so that it will include all of the basic information. If, under the present organization of the work, it is more convenient to use other sources of information (such as the train sheet for train-hours, or the engineers' time slips for locomotive-miles), the present practice may continue, provided that the data from such sources correspond to that which would be taken from the conductors' train reports, if the latter were used.

9. In reporting the weight of cars containing less than carload freight, conductors may be instructed to use an arbitrary weight for net tons, such arbitrary to be specified by proper authority and to be based on the experience of the carrier. When carload freight is billed at estimated weights, conductors will report such estimated weights as the net tonnage.

10. All percentages and averages should be worked out to one decimal place. If the final remainder is equal to or exceeds one-half of the divisor, the decimal in the quotient should be increased by one. The same principle should be applied to ton-miles and car-miles when expressed in thousands. If the omitted figures are 500 or more, they should be regarded as 1,000. Expenses should be stated in even dollars, 50 cents or more to be counted as $1.

11. Where data called for by the forms are not now compiled, it will not be necessary to work up last year's figures for comparative purposes, but the comparison with last year by individual items should be made as complete as the existing reports and accounts will reasonably permit.

12. Forms O. S. 1 to O. S. 5, inclusive, are based entirely upon the conductors' train reports or other operating department data. It is recommended that the work of compiling the figures and making out these reports should be concentrated either in the office of the car accountant or in a similar office of the operating department, and that copies of these reports should be sent to the proper officer in the accounting department for use in compiling costs on Form O. S. 6.

13. Forms O. S. 6 and O. S. 7 call for operating expenses and unit costs. They should be compiled in the statistics section of the accounting department.

14. Forms O. S. 1 to O. S. 5, inclusive, are to be mailed to the operating statistics section not later than the 15th day of the month following that to which the statistics apply. Forms O. S. 6 and O. S. 7 are to be mailed, as above, not later than the 30th day of the month following that to which the statistics apply.

15. It is the intention that the standardized forms, when completely in effect, shall take the place of many other statistical reports which are now being made. To that end, a careful survey should be made of all operating reports and statistics to ascertain how many of them are made unnecessary by the adoption of the standardized forms, and may, therefore, be discontinued.

16. A supply of the new forms will be distributed through the regional directors to all class 1 railroads under Federal control, and requisitions for additional copies should be made on the regional directors. In advance of the distribution of the working supply, three complete sets will be sent direct from this office, during the week ending July 27th, to the Federal manager or the general manager of each class 1 road under Federal control.

C. R. GRAY,
Director Division of Operation.

AMENDS ENEMY-TRADE RULE.

Treasury Department Decision Relating to Giving of Bonds.

TREASURY DEPARTMENT, *June 5, 1918.*

To collectors of customs:

The department's regulations of April 30, 1918 (T. D. 37612), requiring the production of certificates of interest, or origin and interest, in the case of all merchandise imported from neutral countries are hereby amended to provide that in the absence of certificates of interest, or origin and interest, the merchandise may be admitted to entry upon the filing of a bond on customs Catalogue No. 7551 (7553) in an amount equal to double the value of the goods, conditioned upon the production of such certificates within 30 days from the date of importation.

(106824)

L. S. ROWE, *Assistant Secretary.*

PROCLAMATION BY PRESIDENT WILSON TAKING OVER THE CAPE COD CANAL THROUGH SECRETARY OF WAR BAKER

Possession and Control of the Transportation System of the Boston, Cape Cod & New York Canal Co. by the President of the United States of America.

A PROCLAMATION.

Whereas the Congress of the United States, in the exercise of the constitutional authority vested in them, by joint resolution of the Senate and House of Representatives bearing date of April 6, 1917, resolved:

"That the state of war between the United States and the Imperial German Government which has been thrust upon the United States is hereby formally declared; and that the President be, and he is hereby, authorized and directed to employ the entire naval and military forces of the United States and the resources of the Government to carry on war against the Imperial German Government; and to bring the conflict to a successful termination all of the resources of the country are hereby pledged by the Congress of the United States";

And by joint resolution bearing date of December 7, 1917, resolved:

"That a state of war is hereby declared to exist between the United States of America and the Imperial and Royal Austro-Hungarian Government; and that the President be, and he is hereby, authorized and directed to employ the entire naval and military forces of the United States and the resources of the Government to carry on a war against the Imperial and Royal Austro-Hungarian Government; and to bring the conflict to a successful termination all the resources of the country are hereby pledged by the Congress of the United States";

And whereas it is provided by section 1 of the act approved August 29, 1916, entitled "An act making appropriations for the support of the Army for the fiscal year ending June 30, 1917, and for other purposes," as follows:

"The President in time of war is empowered, through the Secretary of War, to take possession and assume control of any system or systems of transportation, or any part thereof, and to utilize the same, to the exclusion, as far as may be necessary, of all other traffic thereon, for the transfer or transportation of troops, war material, and equipment, or for such other purposes connected with the emergency as may be needful or desirable";

And whereas it has now become necessary in the national defense to take possession and assume control of certain systems of transportation and to utilize the same to the exclusion, as far as may be necessary, of other than war traffic thereon, for the transportation of troops, war material, and equipment therefor, and for other needful and desirable purposes connected with the prosecution of the war:

Now, therefore, I, Woodrow Wilson, President of the United States, under and by virtue of the powers vested in me by the foregoing resolutions and statute, and by virtue of all other powers thereto me enabling, do hereby, through Newton D. Baker, Secretary of War, take possession and assume control at 12.01 a. m. on the 25th day of July, 1918, of the following system of transportation and the appurtenances thereof, to wit, the canal and other property of the Boston, Cape Cod & New York Canal Co., a corporation organized under the laws of the Commonwealth of Massachusetts, consisting of a ship canal extending from Cape Cod Bay to Buzzards Bay in Massachusetts, with all the appurtenances and equipment of said canal, including all the lands, easements, wharves, docks, buildings, tugs, barges, ships, boats, tackle, appliances, and all other property of whatsoever kind owned, leased, chartered, controlled, or used by the said corporation in the maintenance and operation of said canal or in connection with the towage, pilotage, or anchorage of vessels passing through the same.

To the end that said system of transportation be utilized for the transfer and transportation of troops, war material, and equipment, to the exclusion so far as may be necessary of all other traffic thereon; and that so far as such exclusive use be not necessary or desirable such system of transportation be operated and utilized in the performance of such other services as the national interest may require and of the usual and ordinary operation of the said transportation system.

It is hereby directed that the possession, control, operation, and utilization of such transportation system, hereby by me undertaken, shall be exercised by and through William G. McAdoo, who has been duly appointed and designated Director General of Railroads. Said Director General may perform the duties imposed upon him, so long and to such extent as he shall determine, through the board of directors, officers, and employees of said corporation; or through such other agents or agencies as he may from time to time appoint. Until and except so far as said Director General shall from time to time by general or special orders otherwise provide, the board of directors, officers, and employees of said corporation shall continue the usual and ordinary operation of said transportation system in the name of said corporation.

Until and except so far as said Director General shall, from time to time otherwise, by general or special orders determine, such system of transportation shall remain subject to all existing statutes of the United States and to all statutes and orders of regulating commissions of the Commonwealth of Massachusetts; but any orders, general or special, hereafter made by said Director General shall have paramount authority and be obeyed as such.

The Director General shall, as soon as may be after having assumed such possession and control, enter upon negotiations with the said corporation looking to an agreement for just and reasonable compensation for the possession, use, and control of its property.

Except with the prior written assent of said Director General, no attachment by mesne process or on execution shall, during Federal control, be levied on or against any of the property of said corporation or used by said transportation system in the maintenance and operation of said canal while under Federal control, but suits may be brought by and against the said corporation and judgments rendered as hitherto until and except so far as said Director General may, by general or special orders, otherwise determine.

From and after 12.01 a. m. on said 25th day of July, 1918, the transportation system included in this order and proclamation shall conclusively be deemed within the possession and control of said Director General without further act or notice.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done by the President, through Newton D. Baker, Secretary of War, in the District of Columbia this 22d day of July, in the year of our Lord one thousand nine hundred and eighteen, and of the independence of the United States the one hundred and forty-second.

[SEAL.] WOODROW WILSON.

By the President:

FRANK L. POLK,
Acting Secretary of State.

NEWTON D. BAKER,
Secretary of War.

SHIPPING BOARD MAINTAINING U. S. INSPECTION REGULATIONS

The United States Shipping Board authorizes the following:

Chairman Hurley, of the United States Shipping Board, has addressed to Senator Fletcher, chairman of the Senate Commerce Committee, a letter assuring him of the intention of the Shipping Board to observe the provisions of the steamboat inspection laws on vessels that are owned and operated by the Government. The letter was sent in reply to statements in the Senate and elsewhere that the Shipping Board had made a ruling that its ships were "public vessels," and therefore immune to the navigation laws.

Chairman Hurley's Letter.

Chairman Hurley wrote as follows:

"I have not been able to find that such a ruling was ever issued; on the contrary, our practice has been to treat our vessels as in every respect subject to the inspection laws. Indeed, we have gone to considerable expense, in many cases, in bringing them up to this standard. Now that the Shipping Board is becoming the owner and operator of one of the largest merchant fleets in the world, it is especially important that the wise and salutary provisions of the inspection laws be complied with on its vessels."

FUEL ADMINISTRATION ORDER MODIFYING "ZONE C" RULING

The United States Fuel Administration issues the following order:

WASHINGTON, D. C., *June 28, 1918.*

MODIFICATION NUMBER FIVE OF ORDER OF MARCH 27, 1918, RELATIVE TO BITUMINOUS COAL "ZONE C," MODIFYING THE PROVISIONS OF SAID COAL "ZONE C" WITH RESPECT TO THE SALE, SHIPMENT, DISTRIBUTION, AND APPORTIONMENT BY ALL PRODUCERS OF BITUMINOUS COAL OPERATING IN THE COAL-PRODUCING DISTRICTS OF THE STATE OF ILLINOIS OF BITUMINOUS COAL SLACK OR SCREENINGS TO POINTS IN THE LOWER PENINSULA OF MICHIGAN AND TO POINTS IN THE NORTHERN PORTION OF WISCONSIN FOR A PERIOD OF 60 DAYS FROM THE EFFECTIVE DATE OF THIS ORDER.

It appearing to the United States Fuel Administrator that it is essential that the producers of bituminous coal located in the producing districts of Illinois be permitted to make shipments of bituminous coal slack or screenings for a period of 60 days to points outside of "Zone C" as described in the order of March 27, 1918, and that further apportionment of bituminous coal in that portion of the so-called "Zoning System" covered by his "order relative to bituminous coal, Zone C," of March 27, 1918, will facilitate the movement of bituminous coal, tend to prevent scarcity thereof, and is necessary for the production of a sufficient quantity of bituminous coal to aid in the successful prosecution of the war.

The United States Fuel Administrator, acting under authority of an Executive Order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917.

Hereby orders and directs that, until further or other order of the United States Fuel Administrator, and subject to revocation or modification by him from time to time and at any time hereafter, every producer (which term shall include every person, firm, corporation, or association operating as owner, lessee, or purchaser of the entire output of a mine) of bituminous coal in the State of Illinois may, in addition to the territory to which they are permitted to ship under "Zone C," sell, ship, and distribute for a period of 60 days from the effective date of this order bituminous coal slack or screenings to dealers and consumers and for use within the following described section of the United States, viz:

(1) All of the Lower Peninsula of the State of Michigan, and

(2) That portion of the State of Wisconsin on and north of a line coincident with the Green Bay & Western Railroad from Kewaunee, Wis., to Amherst Junction; thence coincident with the Minneapolis, St. Paul & Sault Ste. Marie Railway through Abbottsford and Chippewa Falls, Wis., to Minneapolis, Minn.

This order shall be effective on and after July 1, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

Appropriation Bill Provision Regarding Post Office Employees

OFFICE OF FIRST ASST. P. M. GEN.,
Washington, July 6, 1918.

Postmasters:

The appropriation bill for the fiscal year ending June 30, 1919, contains the following provision:

That hereafter when any employee in the Postal Service under the law is entitled to compensatory time for Sunday or holiday service, if he so elects, he may be paid for overtime in lieu thereof.

Postmasters are requested to bring this provision to the attention of their employees.

No change has been made in the law governing the classes of employees who are entitled to compensatory time for service on Sundays and holidays. Regular clerks, special clerks, foremen, watchmen, laborers, and city carriers are entitled to compensatory time for service on Sundays and the holidays enumerated in section 311 of the P. L. and R. However, in addition to regular clerks, special clerks, and city carriers, laborers are entitled to extra pay for service in excess of eight hours a day under the provisions of the new bill.

Annual leave with pay must be granted as heretofore. The law does not permit granting clerks extra pay in lieu of vacation.

J. C. KOONS,
First Asst. P. M. Gen.

INFORMATION CONCERNING ARMY SCHOOL OF NURSING

The Surgeon General's Office, War Department, authorizes the following concerning the Army School of Nursing:

Requirements for Admission.

Age.—Applicants must be women from 21 to 35 years of age (unmarried).

Education.—Applicants must have had high-school education or its equivalent.

Length of course.—Three years. Credit up to nine months will be allowed college women having had prescribed sciences.

Curriculum.—Training in medical and surgical nursing, including the nursing of patients with mental and communicable diseases, will be given in the military hospitals. Training in gynecology, obstetrics, pediatrics, and public-health nursing will be given in affiliated civil hospitals.

Vacations.—One month out of each year in the school.

Result.—The best nursing care for our soldiers. The best training for our patriotic young women. Eligibility for membership in the Army Nurse Corps as vacancies arise. For membership in the American Nurses' Association, National Organization for Public Health Nursing, and Red Cross Nursing Service. Eligibility for registration in any State, except that those students to whom credit for collegiate work shall have been given will not be eligible for registration in those States requiring the full three years' course in a hospital.

Apply to the Army School of Nursing, Surgeon General's Office, Washington, D. C.

R. R. ADMINISTRATION CREATES INSURANCE AND FIRE SECTION

The United States Railroad Administration has announced the organization of a new section, under the supervision of the director of finance and purchases, which shall be known as the section of "insurance and fire protection."

As heretofore announced, it will be the general policy of the Railroad Administration to do away with the fire-insurance policies heretofore carried and to have the Government itself stand directly responsible to the railroads for fire losses of property in Government possession.

Prevention of Fires.

This section will therefore deal primarily with the prevention of fires through rigid and intelligent inspection and by insisting upon the observance of rules and regulations intended to prevent the unnecessary destruction of property by fire.

The insurance section will have the benefit of the assistance of an advisory committee of men experienced and skilled in the business of fire insurance, whose names will hereafter be announced. Mr. Charles N. Rambo, of Philadelphia, superintendent and secretary of the Mutual Fire, Marine & Inland Insurance Co., has been selected as manager of the section, and will resign from his present position.

Inspectors for Each Region.

Mr. Rambo brings to his work 20 years of experience in the insurance business, and for the past 15 years has devoted his energies to the Mutual Fire, Marine & Inland Insurance Co., which was organized by and in the interest of the railroad companies for the purpose of mutual insurance and of reducing fire-insurance costs and premiums.

The insurance section will provide a force of skilled inspectors in each region, whose duty it will be to see that the rules and regulations intended to reduce fire losses are rigidly observed. The insurance inspectors now employed by the various railroads will be utilized as far as desirable.

This section will also have general charge of the adjustment of fire losses.

Urges Prompt Delivery of All Perishable Mail

OFFICE OF FIRST ASSISTANT
POSTMASTER GENERAL,
Washington, July 15, 1918.

The Department is in receipt of information to the effect that many parcels of fresh meat and other perishable matter are not promptly delivered from post offices, particularly when addressed to box-holders, which delays result in losses to the addressees or, in case of insured matter, in claims for indemnity.

Postmasters are requested to use every practicable means for effecting prompt delivery of perishable matter, and when carrier delivery is not practicable, they should, if possible, notify the addressees by telephone or otherwise to call at the post office for the parcels.

J. C. KOONS,
First Asst. Postmaster General.

FOOD ADMINISTRATION PLANS FOR HANDLING 1918 RICE CROP

The Food Administration issues the following:

Agreements are being completed between the rice millers of the country and the Food Administration with regard to the handling of the rice crop of 1918.

The main provisions of these agreements are that the miller shall pay definite prices to the grower for rough rice and shall not sell the clean rice at more than prices named in the contract, ranging from 7⅞ cents per pound for Choice Japan to 9½ cents for Fancy Honduras. Establishment of these contracts has been requested by growers in all parts of the rice-growing section of the country, and is believed to be very beneficial to both producer and consumer.

To Stabilize Trade and Prices.

It is hoped that the result will be a complete stabilization of the rice industry and the distribution of rice to the consumer without speculation or manipulation at a reasonable margin of profit. Consumers will, in the opinion of the Food Administration, be able to purchase rice at a price of approximately 10 to 12 cents per pound, depending on remoteness from the milling centers.

Committee on Valuations.

In order to accomplish a fair valuation of the grower's products a general committee will be appointed by the Food Administration, whose duty it will be to generally supervise the carrying out of the contract by grading and valuing samples of rice submitted by the growers. Valuation committees, operating under the general control of the central committee, will be appointed in each State where rice is grown to handle the details of the matter.

INCREASED RATES MODIFIED.

Director of Traffic Authorizes Changes Effecting Carload Oils.

The United States Railroad Administration issues the following:

The director of traffic has authorized the modification of the increase in rates on petroleum oils, carloads, as required under General Order No. 28, and tariffs will be filed at earliest possible date, effective on one day's notice, making the increased rates uniformly 4½ cents higher than the rates in effect on May 25, 1918, except that the increased class rates for the ratings provided in the official, western and southern classificati ns will not be exceeded.

EIGHT PROMOTED TO CAPTAINS.

Special Orders, No. 163:

209. The appointments of the following-named officers in the Infantry, National Army, with rank from July 3, 1918, are announced:

To be captains.—First Lieuts. Roy E. De Diemar, Infantry, National Army; Edward J. McKinley, Infantry, Reserve Corps; Ray J. Haggerty, Infantry, National Army; Walter A. Biss, jr., Infantry, Reserve Corps; Joseph C. Sutton, Infantry, National Army; Alvin J. Moore, Infantry, National Army; Lee V. Bush, Infantry, National Army; and John H. Bonbright, Infantry, Reserve Corps.

HERRING CATCH INCREASING FISHERIES COMMISSIONER SAYS

The Commissioner of Fisheries authorizes the following:

A recent report from the American consul at Stavanger, Norway, on the spring herring fishery of Norway shows that in the past four seasons, including 1918, the catch had an average annual value of about $6,700,000. About 80 per cent of the yield was salted and most of the remainder was sold locally or exported as fresh fish, a very small quantity being canned or kippered.

The importance and value of this fishery is an indication of what may be done by adequate Government encouragement and assistance and by private enterprise and address in the United States, particularly in Alaska. The herring resources of Alaska are probably not inferior to those of Norway and, considering the greater extent of the coast line, are possibly much larger, yet the average annual value of the catch in that territory for the four years ending December 31, 1917, was but $252,000.

Owing to the action of the Bureau of Fisheries in placing experts in Alaska to give assistance to fishermen in improving their methods of curing herring, and in calling the attention of distributors to the availability of the supply, the value of the output in 1917 rose to $587,777, nearly double that of the preceding year and about eight times that of 1914.

The promising feature of this comparison is not the value of the pack of 1917, which was but 8 per cent of that of Norway in the same year, but the rapid increase in the past four years.

Imports Into United States.

The imports of cured herring into the United States in normal times are heavy. By reason of war conditions these imports are now greatly curtailed and from some sources are entirely cut off, and there is presented an opportunity for Alaska to permanently acquire a large part of this trade. Each careless or dishonest packer will be a menace to the industrial progress of the Territory. The herring packed under the bureau's instruction and supervision last year was the best received in New York, and the standard so established should be scrupulously maintained.

BRITISH FARM IMPLEMENTS.

Trading Restrictions Imposed by the Minister of Munitions.

Consul General Robert P. Skinner, at London, reports:

Minister of munitions prohibits, from July 1, sale or delivery without permit of any agricultural or dairy implement not purchased directly from manufacturer. From July 1 no persons shall offer to sell any agricultural or dairy implement at price exceeding net cost by more than 17½ per cent where such net cost amounts to £40 ($195) or upwards, or more than 25 per cent where such net cost amounts to less than £40, provided that these limitations shall not apply to agricultural implements at price not exceeding £21 and dairy implements not exceeding £1.—Commerce Reports.

OREGON LANDS OPEN TO ENTRY UNDER THE HOMESTEAD LAWS

The Department of the Interior authorizes the following:

Acting Secretary of the Interior Vogelsang has approved regulations opening to entry under the homestead laws, as modified by the act of June 9, 1916, about 150,000 acres of land classified as agricultural, situated in the Portland land district, Oregon. These lands are a portion of what are commonly known as the Oregon & California Railroad grant lands, title to which was resumed by the Government under the act of June 9, 1916.

The classification as agricultural does not necessarily imply that the lands are suitable for the plow. Large areas are covered with brush or varying quantities of timber less than 300,000 feet, board measure, to the 40-acre subdivision, and some are valuable only for grazing.

Form of Application.

Applications to enter any of the lands thus restored may be filed by any duly qualified person for a unit of 160 acres or less in the United States land office at Portland, Oreg., at any time during the period beginning June 22 and ending July 17, 1918. All applications filed during this period will be considered as filed simultaneously. Persons filing at or near the end of the period will have the same opportunity as those who file at the beginning. In case of conflicting applications for the same land a drawing will be held on July 22 to determine the successful applicants.

Each application must be accompanied by the required land office fees, together with an amount equal to 50 cents per acre to apply on the total purchase price of $2.50 per acre, the balance of $2 to be paid at time of final proof. Applicants must personally examine the land.

Applications by Veteran Soldiers.

Any person who served for more than 90 days in the United States Army or Navy during the Civil War, Spanish-American War, or Philippine insurrection and was honorably discharged may file a soldier's or sailor's declaratory statement through an attorney in fact on the ground and make his application to enter within six months thereafter, but such declaratory statement must be accompanied by the fee of $3 and the installment of purchase price required of other applicants.

A pamphlet containing the regulations and a list of the lands will be mailed after June 1 to those requesting same from the register and receiver of the United States land office at Portland, Oreg.

TWO APPOINTED MAJORS.

Special orders No. 166:

231. The appointments of the following-named officers to the grade of major, Field Artillery, National Army, with rank from July 3, 1918, are announced:

To be majors: Capts. William C. Crane, jr., Field Artillery; John E. McMahon, jr., Field Artillery.

Majs. Crane and McMahon are assigned to the officers' training camp, Camp Taylor, Ky., and will join with the least practicable delay.

LIST OF PURCHASE ORDERS AND CONTRACTS PLACED BY THE GENERAL ENGINEER DEPOT OF THE ARMY

Contracts have been awarded by the General Engineer Depot, War Department, as follows:

July 18, 1918.

American Brake Shoe & Foundry Co., New York City, driver brake shoes.
E. C. Atkins & Co., Indianapolis, Ind., one-man and two-man saw handles.
Hibbard, Spencer, Bartlett & Co., Chicago, Ill., steel stamps and stencils.
C. Drew & Co., Kingston, Mass., marline spikes.
Morse Twist Drill & Machine Co., New Bedford, Mass., bit stock drills.
The Foos Gas Engine Co., Springfield, Ohio, clutch pulleys.
Smith & Hemenway Co. (Inc.), Irvington, N. J., cap crimpers.
Goodell-Pratt Co., Greenfield, Mass., spring dividers.
Burke & James (Inc.), Chicago, Ill., photo supplies.
The Buda Co., Chicago, Ill., railway tools and appliances.
Henry Disston & Sons, Philadelphia, Pa., nibs and auger bits.
Tower Mfg. & Novelty Co., New York City, tape, office, pink.
Adams Westlake Co., Chicago, Ill., switch lamps.
Etna Co., Taunton, Mass., twist drill.
S. S. Stafford & Co., New York City, ink.
Keuffel & Esser Co., Hoboken, N. J., surveying equipment.
Irving-Pitt Mfg. Co., Washington, D. C., book covers and indexes.
Bethlehem Steel Corporation, Washington, D. C., foot latches and guard rail braces.
New York Engravers' Supply, New York City, map production equipment.
Flash Chemical Co., Cambridge, Mass., flash, antiseptic.
Ramapo Iron Works, Hillburn, N. Y., turnouts.
Dayton Rubber Mfg. Co., Dayton, Ohio, Dayton airless tires, and mounting tires.
Akeley Camera Co. (Inc.), New York City, searchlight supplies.
The Browning Co., Cleveland, Ohio, locomotive cranes.
American Lead Pencil Co., Washington, D. C., pencils.
National Carbon Co., Cleveland, Ohio, dry cells.
Sperry Gyroscope Co., Brooklyn, N. Y., bushings, quartz; sets, fingers.
Strahl & Pitsch, New York City, beeswax.
Bethlehem Steel Corporation, Washington, D. C., turnouts.
Eastman Kodak Co., Rochester, N. Y., kodak supplies.
E. Faber, Washington, D. C., penholders.
Verona Tool Works, Pittsburgh, Pa., pick mattocks.
Benton Mfg. Co., New York City, hand tally registers.
Globe Ear-Phone Co., Reading, Pa., geophones with listening antennæ.
Angier Mills, Ashland, Mass., waterproof box lining.
Pemberthy Injector Mfg. Co., Detroit, Mich., injectors.
C. W. Hunt Co., New York City, spares for searchlights.
Kelly Axe Mfg. Co., Charleston, W. Va., hammers.
A. B. Dick Co., Chicago, Ill., mimeograph supplies.
Red Jacket Mfg. Co., Davenport, Iowa, piston force pumps.
W. H. Compton Shear Co., Newark, N. J., tinner snips.
Ball Engine Co., Erie, Pa., steam shovels.
Hubbard & Co., Pittsburgh, Pa., pick mattocks.
F. Weber & Co., Philadelphia, Pa., drawing paper.
Empire Rubber & Tool Co., Trenton, N. J., powder bags.
Brown Co., Portland, Me., paper, wrapping.

July 19, 1918.

Vaughn & Bushnell Mfg. Co., Chicago, Ill., hammers.
The Adams Westlake Co., Chicago, Ill., switch lamps.
National Electrical Supply Co., Washington, D. C., exhaust fans.
Hamilton Watch Co., Lancaster, Pa., watch movements.
Rudolph & West Co., Washington, D. C., hardware.
Thermoid Rubber Co., Trenton, N. J., rubber tubing.
U. S. Rubber Co., New York City, rubber gauntlets.
A. F. Corcoran, Jersey City, N. J., tanks.
Chicago Steel Post Co., Chicago Heights, Ill., angle posts.
Irving-Pitt Mfg. Co., Washington, D. C., book covers, indexes.
Republic Rubber Co., Youngstown, Ohio, hose.
Strahl & Pitsch, New York City, beeswax.
Flash Chemical Co., Cambridge, Mass., flash, antiseptic.
Gresham Blank Book Co., New York City, books, duplicating.
Watson Wagon Co., Canastota, N. Y., poles, tool wagon.
Wolf Brush Co., North Side, Pittsburgh, Pa., dust brushes.
F. A. Hardy Co., Chicago, Ill., goggles.
Brown Co., Portland, Me., paper, wrapping.
C. Hammond & Son (Inc.), Ogontz, Pa., hammers.
Sargent & Co., New Haven, Conn., plumb bobs.
George C. Keene & Co., Cincinnati, Ohio, curving and forming machine.
Oliver Iron & Steel Co., Pittsburgh, Pa., spanner wrenches.
H. Channon Co., Chicago, Ill., chisels.
Evansville Tool Works, Evansville, Ind., tongs.
William Powell Co., Cincinnati, Ohio, blow-off valves.
General Electric Co., Schenectady, N. Y., terminal blocks.
Peck, Stow & Wilcox Co., Southington, Conn., chisels.
S. & Y. Co., Springfield, Mass., punches.
The James Swan Co., Seymour, Conn., chisels.
Bethlehem Steel Co., Washington, D. C., switch stands.
Lorian Steel Co., Washington, D. C., turnouts.
Mark Mfg. Co., Evanston, Ill., steel pipe.
Le Belle Iron Works, Steubenville, Ohio, black steel pipe.
Crane Co., Chicago, Ill., gaskets.
Curtis & Curtis Co., Bridgeport, Conn., pipe-cutting and threading machines.
Youngstown Sheet & Tube Co., Washington, D. C., black steel pipe.
Republic Iron & Steel Co., Washington, D. C., black steel pipe.

July 20, 1918.

W. & L. E. Gurley, Troy, N. Y., Cox stadia computors.
Verona Tool Works, Pittsburgh, Pa., pick mattocks.
Oliver Iron & Steel Co., Pittsburgh, Pa., machine bolts.
The Deming Co., Salem, Ohio, suction pumps.
Fulton Specialty Co., Elizabeth, N. J., pads, ink.

A. W. Faber, Newark, N. J., pencil erasers.
Cordley & Hayes, New York City, water coolers.
Robert Mayer & Co., New York City, India paper and inks.
Erie Foundry Co., Erie, Pa., steam forging hammer.
Golden-Anderson Valve Specialty Co., Pittsburgh, Pa., float valves.

Sealed Bids Wanted

General Engineer Depot, United States Army, 1438 U Street, Washington, D. C.—Sealed bids are wanted until dates indicated under circular proposals as follows for furnishing miscellaneous supplies for the General Engineer Depot. Additional information may be had upon application to the purchasing officer as above:

Proposal No. 1045, opening of July 30, 1918.—Brass, copper, annealed and galvanized wire as per specifications.

Proposal No. 1046, opening of August 2, 1918.—6,000 heavy drop forged "C" clamps, 6-inch opening; 6,000 spring-tempered steel rules, 12 inches long; 3,000 machinist's vises, 3½-inch jaws.

Proposal No. 1048, opening of August 6, 1918.—3,000 chain drilling attachment for twist drills; 3,000 7½-inch iron plane blocks; 260 dozen 3-inch blade screw drivers; 250 dozen screw drivers with 5-inch blade; 250 dozen screw drivers with 8-inch blade; 250 dozen steel squares.

Proposal No. 1049, opening of August 2, 1918.—2,000 pressed steel compression grease cups as per specifications.

Proposal No. 1050, opening of August 2, 1918.—50 sets 15 single head engineers angle wrenches; 100 offset structural wrenches for ⅝-inch bolts; 100 offset structural wrenches for ⅞-inch bolts; 100 offset structural wrenches for 1-inch bolts.

Proposal No. 1051, opening of August 2, 1918.—Lead covered cable as per specifications.

Proposal No. 1052, opening of August 6, 1918.—Blacksmith's equipment and supplies as per specifications.

Proposal No. 1053, opening of July 26, 1918.—Electrical supplies as per specifications.

Proposal No. 1054, opening of July 30, 1918.—200 kegs square boat spikes ½" x 6"; 200 kegs square boat spikes ½" x 8"; 296 kegs square boat spikes ½" x 10"; 96 kegs square boat spikes ½" x 12".

When you buy war-savings stamps you do not give—you receive.

NAVY DEPARTMENT CONTRACTS PLACED BY BUREAU OF SUPPLIES AND ACCOUNTS

The Bureau of Supplies and Accounts of the Navy Department has placed contracts as follows:

July 17, 1918.

No. 39902. Republic Motor Truck Co., Alma, Mich., motor trucks.
No. 39903. Kewanee Boiler Co., Kewanee, Ill., boilers, smokestacks.
No. 39911. E. B Jones Lumber Co., Boston, Mass., spruce.
No. 39912. New River Lumber Co., Cincinnati, Ohio, poplar.
No. 39913. Frank Lawrence Co., Boston, Mass., ash.
No. 39914. The Austin Co., Philadelphia, Pa., shops, repair.
No. 39917. D. Nast Machinery Co., Philadelphia, Pa., breeding machines.
No. 39918. Goodyear Tire & Rubber Co., Akron, Ohio, airship.
No. 39920. American Sheet & Tin Plate Co., Washington, D. C., steel boiler plates, etc.
No. 39921. H. W. Johns-Manville Co., New York, N. Y., tachometers.
No. 39922. R. C. Wells Mfg. Co., Fond du Lac, Wis., tachometer shafts.
No. 39924. [illegible] Chemical Works, Philadelphia, Pa., concentrated lye.
No. 39925. McKinney Steel Co, Cleveland, Ohio, solvent naphtha.
No. 39926. Perry & Whitney Lumber Co., Boston, Mass., spruce.
No. 39927. Woodstock Lumber Co., Boston, Mass., spruce.
No. 39928. Carnegie Steel Co., Washington, D. C., bar steel.
No. 39929. Westinghouse Electric & Mfg. Co., Washington, D. C., motors.
No. 39930. C. G. Hussey & Co., Pittsburgh, Pa., copper sheets.
No. 39931. Farr Barnes Lumber Co., Columbia, S. C., North Carolina pine.
No. 39932. Trexler Lumber Co., Newark, N. J., North Carolina pine.
No. 39933. Ellington & Guy (Inc.), Richmond, Va., North Carolina pine.
No. 39934. Walterboro Lumber Co., Walterboro, S. C., North Carolina pine.
No. 39935. Penn Virgin Lumber Co., Richmond, Va., North Carolina pine.
No. 39936. E. E. Jackson Lumber Co., Richmond, Ala., southern pine.

July 18, 1918.

No. 39937. Lubmers & J. L. Motors Co. (Ltd.), Middlesex, England, pumps.
No. 39938. Miller Waste Mfg. Co. (Inc.), Philadelphia, Pa., cotton waste.
No. 39939. Stanley G. Flagg & Co., Philadelphia, Pa., gas cylinder caps.
No. 39940. Landis Machine Co., Waynesboro, Pa., grinders.
No. 39941. Aluminum Co. of America, Washington, D. C., aluminum.
No. 39942. A. S. Bacon & Sons, Savannah, Ga., yellow pine.
No. 39943. E. Sondheimer Co., Memphis, Tenn., ash.
No. 39945. Shaw-Walker Co., Washington, D. C., furniture.
No. 39947. Security Cement & Lime Co., Hagerstown, Md., cement.
No. 39949. Art Work Shop, Buffalo, N. Y., carrying cases.

CONTRACTS PLACED BY QUARTERMASTER OF THE UNITED STATES MARINE CORPS

The following contracts have been placed by the Quartermaster of the United States Marine Corps:

July 16, 1918.

The Safety Insulated Wire & Cable Co., New York, N. Y., submarine cable.
Fleck Bros. Co., Philadelphia, Pa., brass screws.
Lipscomb Lumber Co., Richmond, Va., lumber.
Valley Tie & Lumber Co., Lexington, N. C., lumber.
Mecklenburg Lumber Co., Charlotte, N. C., lumber.
Peerless Lumber Co., Lynchburg, Va., lumber.
Piedmont Lumber Co., Lynchburg, Va., lumber.
Enterprise Lumber Co., Goldsboro, N. C., lumber.
Standard Oil Co. (N. J.), Baltimore, Md., fuel oil.
Alexander Selmer, New York, N. Y., musical instruments.
Foran & Sons Co., New London, Conn., furniture, etc.
The Fairbanks Co., New York, N. Y., box trucks.
Samson Cordage Works, Boston, Mass., lacing cord.

July 17, 1918.

G. R. Schmidt Woolen Co., St. Louis, Mo., tailor's supplies.
Pennsylvania Alcohol & Chemical Co., Philadelphia, Pa., oil.
Frank Libbey & Co., Washington, D. C., lumber.
Haines Jones & Cadbury Co., Savannah, Ga., plumbing supplies.
Savannah Supply Co., Savannah, Ga., plumbing supplies.
Crane Co., Baltimore, Md., plumbing supplies.
Thos. Somerville Co., Washington, D. C., plumbing supplies.
Georgia Supply Co., Savannah, Ga., plumbing supplies.
Central Metal & Supply Co., Baltimore, Md., plumbing supplies.
Ludwig & Ludwig, Chicago, Ill., musical instruments.
The H. N. White Co., Cleveland, Ohio, musical instruments.
C. G. Conn (Ltd.), Elkhart, Ind., musical instruments.

July 18, 1918.

No. 381-19. The Seymour Co., New York, N. Y., paper.
No. 377-19. Carl Fischer, New York, N. Y., band instruments.
No. 383-19. Morris & Co., Chicago, Ill., subsistence.
No. 385-19. Frank T. Dunlap, Philadelphia, Pa., canvas.

July 19, 1918.

No. 267-19. William Thomson, Philadelphia, Pa., field range linings.
No. 267-19. Roberts & Mander Stove Co., Philadelphia, Pa., grates for field range.
No. 388-19. The Baldwin Refrigerator Works, Burlington, Vt., refrigerators.
No. 387-19. Howard A. French & Co., Washington, D. C., motorcycles, etc.
No. 341-19. American Steel & Wire Co., Washington, D. C., nails.
No. 384-19. Ludwig & Ludwig, Chicago, Ill., band instruments.
No. 384-19. H. N. White Co., Cleveland, Ohio, band instruments.
No. 384-19. New York Musical Instrument Co., New York, N. Y., band instruments.
No. 384-19. Carl Fischer, New York, N. Y., band instruments.
No. 379-19. The Nash Motors Co., Kenosha, Wis., spare parts.

July 20, 1918.

No. 174-19. Patent Cereal Co., Geneva, N. Y., corn meal.
No. 174-19. Baltimore Pearl Hominy Co., Baltimore, Md., corn meal.
No. 174-19. Jones Bros., Peoria, Ill., tomatoes.
No. 389-19. B. Tenneson Co., Philadelphia, Pa., tent flies.
No. 391-19. G. Hervey Young, Devault, Pa., cord wood.
No. 390-19. Safepack Paper Mills, Boston, Mass., paper.

NEW ENGLAND COAL SUPPLY IS MOVING FORWARD STEADILY

The United States Fuel Administration issues the following:

The aim of the United States Fuel Administration to accomplish the movement of two-thirds of the annual anthracite allotment to New England before the winter season begins is being steadily realized.

For the months of April, May, and June shipments into New England amounted to approximately three and a quarter million gross tons. The total allotment for the New England States for the year amounts to 10,331,000 gross tons.

3 Months Shipping [illegible]

If the present rate of movement continues until November 1, eight months' shipping will have been accomplished within seven months, leaving but four months' allotment to be performed in the remaining five months of the coal year.

The first of the calendar year will, perhaps, see the schedule much further advanced, because there should be no material let up in shipping during November and December.

Object of Fuel Administration.

The object of the Fuel Administration is to effect the transportation of the bulk of the New England tonnage moving moving through the narrow railroad gateways during the open season without strict attention to the exact apportionment between communities. Equalization as between communities and dealers will not be difficult once the coal moves through the New York "bottle necks."

New York City received during April, May, and June slightly more than its allotment for the three months.

ENEMY TRADING LIST REMOVALS

(Continued from page 9.)

Removals.

NEW RULES GOVERNING SALE AND EXPORT OF CAUSTIC SODA

The War Trade Board issues the following:

The United States War Industries Board and the United States War Trade Board jointly announce the following rules and regulations with respect to the sale for export and the exportation of caustic soda:

On and after August 1, 1918, manufacturers of caustic soda in the United States will not enter into any contract for the sale of caustic soda with any person in the United States for the purpose of exporting the same, unless and until advised by the prospective purchaser that a United States export license covering such caustic soda has been duly obtained and the number thereof is furnished.

Conditions of Sales.

Manufacturers will not sell on and after the above-named date caustic soda for domestic consumption unless the purchaser agrees not to export same nor to sell same for export, and if it is resold in the domestic market, to exact or cause to be exacted a similar agreement from each and every subsequent purchaser.

On and after August 1, 1918, the United States War Trade Board will not license for exportation caustic soda to any destination until the applicant has filed a statement showing either:

(a) That on August 1, 1918, the applicant did not own or have any interest in any contracts for the sale of caustic soda to be exported from the United States; or

(b) A list of all contracts with purchasers abroad existing on August 1, 1918, for the exportation of caustic soda which had not been exported on that date, showing, (a) the names of the purchasers abroad or consignees; (b) the dates of the contracts; (c) the quantities; (d) the price paid or contracted to be paid therefor; and, (e) if the applicant on August 1, 1918, owned or had any interest in the title to the caustic soda to be exported, the place or places of storage on or about that date, or if in transit on August 1, 1918, from an inland point within the United States, the date of shipment from such point and port of exit in the United States to which such shipment was destined.

Applications for Licenses.

On and after August 1, 1918, applicants for licenses to export caustic soda will also be required to state on their applications whether or not they have acquired any title or interest in the caustic soda which it is proposed to be exported, and if the caustic soda is in existence, the place of storage in the United States, and to agree that in the event an export license is granted not to ship or permit to be shipped under such license any other caustic soda than that specified in the application.

The foregoing requirements are supplemental to the regulations contained in circular letters issued by the United States War Trade Board under date of March 30 and May 21, 1918. For the convenience of exporters the regulations with respect to caustic soda have been consolidated and revised into one ruling (W. T. B. R. 175, issued July 26, 1918). Copies thereof may be obtained upon application to any branch office of the War Trade Board on and after July 27, 1918.

TRANSFER OF REGISTERED FOR COUPON LIBERTY BONDS

The Treasury Department authorizes the following:

Secretary McAdoo on July 24 announced that the issue of registered bonds of the third Liberty loan has so far progressed that the department will be prepared to make transfers thereof and exchanges of registered for coupon bonds on and after August 1 and until August 15, inclusive. As the first interest payment arises on September 15, it will be necessary to close the registry books of the third Liberty loan at the close of business August 15 in order to prepare checks for such interest payment.

Limited to September 16.

During the period from the close of business August 15 until the opening of business September 16 no transfers of registered bonds of the third Liberty loan will be made, nor will exchanges of registered bonds for coupon bonds be made. Registered bonds, however, may be presented during such period for transfer or exchange, such transactions to be effected after September 15, and in such cases the interest due on September 15 will be paid to the holder of record at the close of business August 15.

Through Federal Reserve Banks.

As previously announced, the department is now prepared to issue registered bonds in exchange for coupon bonds of the third Liberty loan, such transactions being effected most conveniently through the medium of Federal reserve banks. If coupon bonds are presented for exchange for registered bonds after August 15 the interest coupon due September 15 should be detached therefrom, as the registered bonds issued upon such exchange will bear interest from September 15.

MAIL FOR CAMP SHERMAN.

OFFICE OF FIRST ASSISTANT
POSTMASTER GENERAL,
Washington, July 20, 1918.

Postmasters are requested to inform patrons that mail for soldiers at Camp Sherman, Ohio, should be addressed as follows

Private_____
Company_____,
_____Regiment,
Camp Sherman, Ohio.

Such mail is not delivered through the Chillicothe, Ohio, post office and the name of that office should not be included in the address.

Postal employees are requested further to dispatch mail for Camp Sherman directly to the camp and not to the Chillicothe post office, except in instances where the address includes a box number, street and number, or hotel address in Chillicothe.

J. C. KOONS,
First Assistant Postmaster General.

PROGRESS OF THE CAMPAIGN FOR STUDENT NURSE RESERVE

The Committee on Public Information issues the following:

The Council of National Defense authorizes the following statement from the Woman's Committee:

The announcement of the campaign to enroll 25,000 young women in the United States Student Nurse Reserve, made by the office of the Surgeon General, the United States Public Health Service, the American Red Cross, and the Council of National Defense, has met with enthusiasm throughout the country.

Although this drive, under the direction of the Woman's Committee, Council of National Defense, will not begin until July 29, the State chairmen of the Women's Committee have made thorough plans for securing their full State quotas.

Letters from State Chairmen.

A letter received at the headquarters of the Woman's Committee in Washington from the Massachusetts chairman says: "I feel that we have the matter already in hand, a reserve list of several hundred pupils to start with." Indiana reports: "We have worked out a very thorough campaign and are prepared to start the enrollment promptly." The Georgia chairman writes: "The interest in this State is apparent from letters already received," and from Maine comes the following: "There is much interest in the matter. It shows that it is one of the things needed at this time." The chairman of the Connecticut division expresses the enthusiasm of the women of her State: "We will need large supplies of cards and registration blanks." The Mississippi chairman states: "I will take charge of the recruiting personally, and have made plans for the campaign."

The Missouri chairman urges her local units to secure not less than 25 per cent of the enrollment in excess of the Missouri quota, and in Nebraska the State chairman says she has already personally seen scores of candidates and is sure of the success of the drive in her State.

Parade to Start Campaign.

The elaborate preparation made by Wisconsin includes a parade to be held on Saturday of the first week of the campaign. In this parade graduate and pupil nurses will appear dressed in uniform. The home guard and all men newly recruited in the United States Army will swell the ranks and give publicity to the campaign. It is proposed that the pupil nurses of this State will appear either in uniform or with some distinguishing mark of apparel throughout the campaign, and that they will act as recruiting officers to secure other candidates.

The Tennessee chairman ends the report of her plans with this statement: "There has never been so much interest and such work done in the State since the war began as is now being done in this connection by the units of the Woman's Committee throughout the State." She adds, "I feel sure that Tennessee will supply its quota of 500 nurses."

Give our boys in the Army and Navy every fighting chance. Pledge yourself to save to the utmost of your ability and to buy war-savings stamps.

HELP FOR AMERICAN SEAMEN HELD PRISONERS IN GERMANY PLANNED BY SHIPPING BOARD

NOW PAYING THEIR OWN BOARD

Personal Funds of Many Among 100 Officers and Men Are Exhausted—Germany Threatening to Move These to the Poorer Camps.

The Shipping Board issues the following:

The Shipping Board is planning to move immediately to the relief of the hundred odd American seamen who are now prisoners in Germany. .Authenticated reports bring word that our merchantmen officers are required to pay their board and lodging out of their personal funds, which in a number of cases have been exhausted, and now Germany is threatening to remove these men to the seamen's camp where the conditions are very bad and where the men are compelled to perform labor.

This situation was brought to the attention of the Shipping Board last Thursday and immediate steps will be taken to get relief to the officers and men.

Officers Among Prisoners.

Among the prisoners are about 25 certified officers, many of them men over 35 years old. All of them have been in Germany since before Christmas, 1917, and a good many were captured in 1916 while in the employ of British or French shipowners.

The relief which these men have been receiving up to the present time has been as follows: The State Department has been paying them sums out of its general fund for the relief of Americans in Germany. The fund now shows a large deficit, and the State Department is considerably embarrassed in continuing this service. The Red Cross is providing these men with food, clothing, and tobacco through its package service in Switzerland.

British Method Quoted.

British and Canadian certificated officers are receiving from their Governments either 100 marks or 60 marks per month according to rank in order that they may pay the board and lodging and remain in the officers' camps.

The Shipping Board will take steps to see that our men are as well supplied and, as the State Department is embarrassed in rendering such service, it is probable that the aid of the Red Cross will be invoked.

Better than money because they earn money; buy a WAR-SAVINGS STAMP TO-DAY.

CONGRESS NAVAL COMMITTEE MEMBERS LAND IN ENGLAND

Secretary Daniels announced yesterday (July 26) that the members of the House Committee on Naval Affairs who left some days ago for a tour of inspection of naval activities abroad have landed at a British port.

Statement by Secretary.

"The members of the House committee will visit our naval and aviation bases abroad, make a general inspection of our naval activities, and inquire into the needs of the service," said the Secretary. "We are necessarily spending large sums in developing our European stations, which are operated in conjunction with the British, French, and Italian Navies, and the Congressmen, who are charged with the duty of providing the necessary appropriations, wish to see for themselves what is being done and what future provisions should be made. Assistant Secretary Roosevelt is already in England and will cooperate with the Naval Committee, as will also Admiral Sims and the other American naval authorities in Europe."

Members of Party.

The following members of the House committee are in the party: L. P. Padgett, of Tennessee, chairman of House Naval Affairs Committee; D. J. Riordan, of New York; W. L. Hensley, of Missouri; J. R. Connelly, of Kansas; W. B. Oliver, of Alabama; W. W. Venable, of Mississippi; J. C. Wilson, of Texas; T. S. Butler, of Pennsylvania; W. J. Browning, of New Jersey; J. R. Farr, of Pennsylvania; S. E. Mudd, of Maryland; J. A. Peters, of Maine; F. C. Hicks, of New York.

Ordnance Department Orders for Forgings

The Secretary of War authorizes the following:

Orders have been placed by the Ordnance Department with the Imperial Drop Forge Co., of Indianapolis, Ind., for 155-millimeter shrapnel forgings and with the Standard Forgings Co., of Chicago, for 155-millimeter shell forgings.

The Ordnance Department has placed a contract for pistols with the National Cash Register Co.

GERMANS FORCED BACK 11 MILES FROM PARIS; NOW 49 MILES DISTANT, GEN. MARCH ANNOUNCES

U. S. TROOPS IN ITALY

Combat Units Arrive in Addition to Hospital and Supply Corps—Organization of Two More Army Corps and of Certain Divisions Given Out — Answers to Questions.

Press interview by Gen. March:

The detailed map which you had before you at the last meeting shows the present position of the two fighting lines as revealed by our last official dispatches.

The lines around the south of Soissons are still in the same position that they were last Wednesday when I talked to you. The distance across from the lines at Soissons to those near Rheims is exactly as it was when our counter offensive began.

The general driving back of the German forces has been toward the center of the salient. The falling back has been on a line which remains approximately perpendicular to the railroad line through Fere-en-Tardenois. There have been local attacks by the Germans, particularly at Grisolles against the French, and at Epieds against the United States forces. Epieds was taken and retaken by our forces and the Germans four times, by successive counterattacks, but it finally remained in American hands, and while it delayed their advance there, it only delayed it; we are going forward steadily.

Progress on the Marne.

On the Marne, east of Dormans, the progress of the allied forces has been difficult, because the terrain there is very difficult. The hills are precipitous, and the country is very heavily wooded. The enemy's left flank southwest of Rheims has been the scene of a very dashing little advance by British reinforcements who went forward one and one-half miles on a four-mile front. This advance is a marked source of danger for the enemy, as, of course, there is a chance of his getting his troops farther south in a pocket, and we already find that the French at that point are beginning to advance.

The original line held by the allies before this big movement began was 74 miles long. The present line, on which the Ger-

GERMANS NOW 11 MILES FURTHER FROM PARIS

mans are falling back, is 64 miles long. The front has been reduced 10 miles.

The area won by the allies in this counter-offensive more than equals that won by the enemy in Flanders to which I referred last Saturday.

Our lines have now reached within 3½ miles of Fere-en-Tardenois, which is a big German supply depot right near the railroad, which afforded, of course, a means of getting supplies in and out. That point has been continuously and heavily shelled.

Germans Driven Back 11 Miles.

The nearest point of the German line from Paris is now 49 miles. The former distance was 38 miles; they have been driven back 11 miles.

During the last few days American combatant troops have begun to arrive in Italy. The numbers and the place where they are to be used have not yet been communicated to us. This is in addition to the force I announced before of hospital and supply troops sent from the United States.

The number of troops in France has now reached the point where I will announce the organization of two more corps. I have already given out the first three. Divisions are assigned to corps by the War Department before they go over. When the divisions arrive, after they have been put into training areas and reach a point where a corps' organization can be something more than an administrative unit they are formed into the corps and used in any way the commanding general sees fit. In the assignment of temporary commanding generals for these corps the following have been named: 1st Corps, Maj. Gen. Hunter Liggett; 2d Corps, Maj. Gen. Robert L. Bullard; 3d Corps, Maj. Gen. William M. Wright; 4th Corps, Maj. Gen. George W. Read; 5th Corps, Maj. Gen. Omar Bundy.

Fourth and Fifth Corps Units.

The 4th Corps consists of the following units: 83d Division, National Army, commanded by Maj. Gen. E. F. Glenn; 89th Division, National Army, commanded by Brig. Gen. Winn; 37th Division, National Guard, commanded by Maj. Gen. Farnsworth; 29th Division, National Guard, commanded by Maj. Gen. Morton; 90th Division, National Army, commanded by Maj. Gen. Henry P. Allen; 92d Division, National Army, which is a colored division, commanded by Maj. Gen. Ballou.

The 5th Corps consists of the 6th Regular Division, commanded by Maj. Gen. Erwin; 36th Division, National Guard, commanded by Maj. Gen. W. R. Smith; 76th Division, National Army, commanded by Maj. Gen. H. B. Hodges; 79th Division, National Army, commanded by Maj. Gen. Joseph E. Kuhn; 85th Division, National Army, commanded by Maj. Gen. C. W. Kennedy; 91st Division, National Army, commanded by Brig. Gen. Fred Foltz, temporarily.

Location of Thirty-Second Division.

There have been a number of questions sent in by correspondents. One asked where the 32d Division, which was trained at Waco, is, which division includes Michigan troops. The division is commanded by Maj. Gen. Hahn, and is in the Vosges, in a quiet sector.

One asks about the 34th Division. We have no report.

During the time I was in France the organization of the divisions of the National Army, I understand, was given out; that is, the scheme of numbering the divisions and the regiments in the divisions was announced, but it appears that the regular divisions were not given out, and I am asked to give the regiments in the Regular Army divisions.

Organization of Divisions.

The 1st Division consists of the 16th, 18th, 26th, and 28th Infantry; 5th, 6th, and 7th Field Artillery.

The 2d Division consists of the 5th and 6th Marines; 9th and 23d Infantry; 12th, 15th, and 17th Field Artillery.

The 3d Division consists of the 4th, 7th, 30th, and 38th Infantry; 10th, 18th, and 76th Field Artillery.

The 4th Division consists of the 39th, 47th, 58th, and 59th Infantry, and 13th, 16th, 77th Field Artillery.

Those are the four Regular Divisions now engaged in the fighting.

I am asked to what division Gen. Ruckman has been assigned. Gen. Ruckman has been assigned to the North Atlantic Coast Artillery District.

Answers to Questions.

Two questions have come in, asking a number of detailed questions about the number of enlisted men, minor details about men available for the draft and that sort of thing. It will be impossible for me to go into such details except as an announcement of policy. If any unit as small as a regiment distinguishes itself abroad I will be very glad to mention that regiment. Unless such things are received in the cables and call for special mention I am going to confine my remarks to larger lines, I don't want to hinder you in any way; if you have any question, put it in, and if I can answer it I'll do it.

Question. Has the number of troops in battle increased?

Answer. The number of divisions engaged is still as announced before.

Formation of Divisions.

I may say something about the formation of divisions which may throw some light on more minute questions. The policy of the War Department is to continue month by month the organization of divisions along the lines I have indicated for the six divisions in July. As we ship divisions abroad, thus diminishing the number of divisions at home, we will organize new divisions here, which will in their turn go abroad.

Question. Will the placing of any division in one of these new Army corps mean that the division will not be brigaded with the British or French?

Answer. No. It means that when it comes back from its training it will go into the Army corps I have mentioned.

Question. Could you say whether the new combatant troops in Italy have come from America?

Answer. They are trained troops from France.

MARINE AND SEAMEN DIVISION OF WAR RISK BUREAU EXTENDED

Broader Scope to Cover Insurance of Vessels of Foreign Friendly Flags.

The Treasury Department issues the following:

Secretary McAdoo announces a broadening of the scope of the operations of the marine and seamen's division of the Bureau of War-Risk Insurance, which has been authorized by the recent amendment to the war-risk insurance laws. By this amendment power is given the Bureau of War-Risk Insurance to insure vessels of foreign friendly flags, their freights (moneys), effects of the masters, officers, and crews, the crews themselves, and cargoes against war risks under certain conditions.

In cases where vessels of foreign friendly flags or their masters, officers, and crews, or shippers and importers in such vessels, or their owners, operators, or charterers are unable in any trade to secure adequate war-risk insurance on reasonable terms, the bureau will in future be prepared to accept applications for and issue policies on the following interests:

1. Cargoes.—(a) By neutral vessels on voyages to or from ports in the United States or its possessions.

(b) By vessels of any foreign friendly flag when chartered or operated by the United States Shipping Board or its agent.

2. Freights (moneys), crews, effects of crews.—(a) By neutral vessels on voyages to or from ports in the United States or its possessions.

(b) By vessels of any foreign friendly flag when chartered or operated by the United States Shipping Board or its agents.

(c) By a vessel when chartered by a citizen of the United States and the voyage is to or from a port in the United States or its possessions.

3. Vessels.—(a) Of any foreign friendly flag when chartered or operated by the United States Shipping Board or its agent.

(b) When charterers (citizens of the United States) are required by the charter or contract to assume war risk or provide insurance against war risk on a vessel engaged on a voyage to or from a port in the United States or its possessions.

Two Removals Announced From Enemy Trading List

The War Trade Board issues the following:

Removals from enemy trading list:

Venezuela:

Baasch & Romer, Puerto Cabello (July 26, 1918).

Baasch, Adolfo, Puerto Cabello (July 26, 1918).

INTERIOR DEPARTMENT BIDS.

Proposals will be received by the Department of the Interior, to be opened at 2 p. m., August 5, 1918, for one steam jet ash conveyor to be installed, complete ready for use, in the boiler room of the General Land Office Building, Seventh and E Streets NW.

PAPER CONSUMERS ARE WARNED AGAINST UNDUE STOCKING UP

Likely to Create a "Runaway Market," War Industries Board Chief Says.

The War Industries Board authorizes the following:

Warning of the danger of creating a runaway market and doing injury to the paper trade as a whole, T. E. Donnelley, chief of the pulp and paper section of the War Industries Board, has notified printers, lithographers, carton manufacturers, and others to discontinue efforts to accumulate unusually large stocks against a threatened shortage.

Warned in Letter.

His letter to these manufacturers and users states:

"Information has come to this office that many manufacturers are stocking up on paper, chip board, and other materials against an expected shortage during the coming winter.

"Such practice will create a runaway market is against the interests of the trade as a whole and should be discontinued.

"No firm should carry a stock at the present time larger than it carried at this time a year ago. The mills have no way of gauging the market except by the number of orders they have on hand, and if they have orders for large quantities of materials which are not needed at present, it will crowd out orders required for immediate delivery and will have a disastrous effect upon the market.

Should Explain Orders.

"Firms may place stocking-up orders with the mills, but they should explain to the mills that they are such orders and that the mills may run on them when they have vacant time."

Along the line of print-paper conservation Mr. Donnelley has issued recommendations to book-paper manufacturers, effective August 1, that: All laid book papers shall be eliminated; colors shall be limited to white, natural or India tint. Orders for special size, or that not carried regularly in stock for the commercial trade, shall be confined to a substance weight basis and be for 10,000 pounds or more; orders for other than substance weight shall be for 25 tons or more in one delivery, and the special weight shall not exceed the maximum weight in the grade specified.

JOIN MILITARY RELIEF STAFF.

The Red Cross authorizes the following:

The following other appointments to the Department of Military Relief are announced:

R. H. B. Thompson, of St. Louis, assistant director of the Bureau of Camp Service, in charge, for the summer months, of the furnishings of the Red Cross houses.

Kent O. Mitchell, assistant manager of the farm mortgage department of the New York Life Insurance Co., in Chicago, assistant director of the Bureau of Organization.

Baseball Players Allowed Until Sept. 1 to Report Under "Work or Fight" Order; Extension Until October 15th Denied

Memorandum for the Provost Marshal General:

In the matter of the baseball leagues' petition for an extension of time:

A petition has been filed for an extension of time within which professional baseball players shall seek essential or productive employment, and the order asked is one which will extend until October 15, 1918. As grounds for this request, it is alleged that there are but 237 persons affected by the so-called work or fight order; but that, in spite of this small number, their taking would lead to the immediate breaking up of the entire game.

It is further said that the notice is too short to allow the leagues to adapt themselves to the ruling, and that the failure of the clubs to adapt themselves to the ruling is due to the fact that the Secretary of War caused it to be known through the newspapers that the question of the application of the order to baseball players would not be decided until an actual case arose.

A hearing has been had on this subject by the Provost Marshal General, who reports to me that it is not clear to him that the game will have to be discontinued even if the order is made immediately applicable.

The purpose of the work or fight order, so far as the War Department is concerned, is to strengthen the military forces of the country, and not to control the labor situation. Incidentally, it will undoubtedly have the effect of adding to the number of persons usefully employed, and decreasing the number of persons uselessly employed. In this way the order will strengthen the military forces by making it less necessary to exempt for industrial reasons men who would otherwise be taken into the military service. This is an indirect result, but one of very great importance, and if exceptions are made, or postponements are to be made in the enforcement of this order, it will require a very careful study to determine whether those exceptions ought to be the persons in whose behalf this petition is filed or some other group out of the large number affected by the order, many of whom have already complied with it, and brought about a readjustment of the trades and occupations which they had previously followed.

I think it would be an unfortunate thing to have so wholesome a recreation as baseball destroyed if it can be continued by the use of persons not available for essential war service. But it would be a much more unfortunate thing to preserve even so wholesome an amusement by making an exception in favor of baseball players which is denied to great classes of persons in the United States whose occupations have been held similarly non-essential, although they are immediately associated with the distribution of food and other processes of our daily life more fundamental than any mere amusement.

It does happen that baseball is more integrated than any other occupation in our country, at least in the sense that its successful conduct depends upon the preservation of all the major league teams scattered throughout the country while in most occupations the work or fight order has merely a series of local and more or less personal effects.

I am impressed, too, by the representation made that the baseball players may have been put in a less favorable attitude by reason of their reliance on my statement that the question of their inclusion in the terms of the order would not be decided until a case had arisen.

For these reasons it seems to me entirely proper and fair to extend the time during which the readjustment can take place, merely in order that justice may be done to the persons involved, and I do, therefore, direct that the application of the order be made to date from September 1. The order for the extension to the 15th of October is denied.

NEWTON D. BAKER,
Secretary of War.

Need 25,000 Young Women

The country needs 25,000 young women between the ages of 19 and 35 to enroll in the United States Student Nurse Reserve. Apply at the nearest recruiting station established by the Woman's Committee of the Council of National Defense.

SHOE UPPER LEATHER COLORS AS STANDARD FOR TANNERS

The War Industries Board authorizes the following:

Tanners of upper leather have been notified by C. F. C. Stout, chief of the hide, leather, and tanning materials section of the War Industries Board, that dark and medium brown or tan are to be the standard colors for upper leathers which shoe manufacturers are to cut after October 1, 1918.

Selected by Experts.

Shades of these two colors have been selected by the Government experts, and samples have been sent the tanners with instructions to confine colors of tans as closely as possible to the shades selected. The various skins and leathers used in the shoe industry are grouped into three classes—side leathers, calf and kip skins; goat and kid; and ooze leathers.

Decided After Conferences.

In arriving at this conclusion this section has conferred with representatives of the allied shoe and leather industry, and this decision is based upon the information which has been furnished by these representatives. Assurances from the tanners of their hearty cooperation is asked.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor*.

RATES BY MAIL.

Daily—
- One year $5.00
- Six months 3.00
- One year, postage prepaid to foreign countries 8.00
- Six months, postage prepaid to foreign countries 4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

RED CROSS NOT TO DELIVER U. S. CASUALTY MESSAGES

The acting general manager of the Red Cross has issued the following statement:

The Red Cross Bulletin of July 8 and some division bulletins of later date have carried the announcement that messages containing news of death or injury to soldiers and sailors would be carried to their families by members of the uniformed Red Cross Motor Service. This is inaccurate, and the announcement should be withdrawn.

The War Department requires that all casualty information be forwarded by them, either by wire or letter, direct to some relative of the soldier or sailor. These messages are not to be forwarded by the chapters.

If the chapters request any information regarding a soldier or sailor, the Bureau of Communication will obtain from the chapter the name of the nearest relative of the soldier or sailor, and advise the chapter that the relative will be notified direct, as soon as information is obtained regarding the wounded or missing man.

Calls upon sorrowing families, when made in the name of the Red Cross, should be made by members of the Home Service Section in the manner and in the spirit of the letter of instruction from the Director General of Civilian Relief, dated April 1.

No trouble to buy, cheap, convenient, a real investment—WAR-SAVINGS STAMPS.

American Official Communique on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique No. 73.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
July 26, 1918.

Section A.—Yesterday between Oureq and the Marne our troops captured le Charmel. In the region of Verdilly one of our aviators shot down a hostile machine.

Section B.—Further reports have been received of the fighting which took place from July 21 to 23 in the region northeast of Chateau Thierry. American troops played an important part in the struggle, which ended in our line being advanced to a point about 5 miles from the town. The enemy fought rear guard actions with great stubbornness, defending the ground foot by foot, and using large numbers of machine guns. His resistance retarded, but could not stop, our advance, and on the 22d we captured Epieds and Trugny. The next day the struggle became more bitter. The Germans counterattacked with violence. Epieds changed hands four times, and remained German; Trugny changed hands three times, and remained ours. One of our divisions, up to the evening of July 23, had captured three cannon, one trench mortar, 15 machine guns, and large quantities of ammunition and other material. On the 24th our troops returned to the attack with vigor and drove the enemy out of Epieds and back into the Forest De Fere, 4 miles beyond.

Cross Mark to Expedite Delivery of Letters Telling of U. S. Soldiers Dying in France

The War Department authorizes publication of the following order from General Headquarters, American Expeditionary Forces, published in France June 7, 1918:

In order that the families of deceased officers and soldiers of the American Expeditionary Forces may receive promptly all information possible concerning those who are killed in action or die of wounds, injury, or disease, chaplains and Red Cross searchers and others of the A. E. F. will, when writing letters of sympathy in case of the death of a member of the A. E. F., conform to the following rule:

Such letters, unsealed and marked in the upper right-hand corner with a small cross, will be forwarded under other cover, addressed Central Records Office, Adjutant General's Department, A. E. F. The letters will there be examined by a representative of the base censor, and forwarded to destination after verification of the death by the Casualty Section, Central Records Office.

Hereafter reports of all burials will be made in duplicate by the chaplains and officers in charge and immediately forwarded.

GENERAL STOCKYARD RULES ARE SIGNED BY THE PRESIDENT

The Department of Agriculture authorizes the following:

General regulations under which stockyards will operate were signed by the President yesterday. They provide against extortionate or excessive charges for yardage and commission; require stockyards to maintain adequate facilities for handling live stock offered by stockmen, including labor, feed, and water; and prohibit unfair dealing, combination, or deceptive practices in buying and selling live stock. The circulating of misleading market information tending to affect prices is also covered by the regulations.

Stockyards, commission men, traders, order buyers, and others handling stock in or in connection with stockyards are required to secure licenses, in accordance with the President's proclamation of June 18, and to operate under the rules and regulations issued to-day, which will be administered by the Secretary of Agriculture through the Bureau of Markets. Country stock buyers and shippers who are not engaged in the business of buying and selling at licensed stockyards are not subject to license.

The general regulations have been made after consultation with the Agricultural Advisory Committee, stockmen, and trade interests. The Department of Agriculture sent out 3,000 copies of the preliminary draft of the regulations to interested persons and received suggestions from many sources before issuing the final regulations, which are now being published by the department.

Stock yards must keep records, as required by the Secretary of Agriculture, of daily receipts, shipments, and local disposition of live stock, make reports when required, and furnish true copies of all existing and proposed contracts with other establishments and changes therein relating to the handling of live stock in connection with such stockyards. The Chief of the Bureau of Markets has been designated by the Secretary of Agriculture to enforce the provisions of the regulations. It is contemplated that market supervisors will be stationed at the principal markets and in regional offices.

WORK OF CONGRESS BRIEFLY TOLD

The tentative conclusions reached by the Ways and Means Committe on excess-profits taxes in the new war-revenue bill practically were adopted yesterday. The committee also decided upon the specific exemption of $2,000 plus 10 per cent on the amount of invested capital as tentatively agreed upon. Chairman Kitchin, of the committee, after its session announced that it had tentatively decided upon the following rates, in line with their consideration on Thursday; 30 per cent upon net income in excess of exemptions and not in excess of 20 per cent of the net income; 50 per cent in excess of 20 per cent of the net income and not in excess of 25 per cent; 80 per cent on the net income in excess of 25 per cent. Mr. Kitchin said that while the matter was not definitely decided, a majority of the committee favored a provision to the effect that in no case should the excess profits exceed 60 per cent of the net income, nor be less than 10 per cent of the net income in the case of corporations with a capital exceeding $200,000. Common carriers and public-utility corporations whose rates are subject to regulation by Federal, State, or municipal governments, he said, would be excepted from the 10 per cent minimum.

Treasury estimates are that the increased rates will produce about $500,000,000 more from excess profits than under existing law. This would indicate a revenue from this source of about $1,700,000,000 as compared with $1,200,000,000 under the present law. The committee has practically reached the conclusion to apply these excess-profits rates to corporations only and not to private concerns and unincorporated firms and partnerships, this action being for the purpose of correcting an injustice which, it is asserted, is worked against such concerns in the present law. The taxes to be paid by partnerships and unincorporated concerns will be provided for under the provisions of the income-tax sections of the bill.

NAVY FACTORY'S YEAR RECORD IN BUILDING FLYING BOATS

The Committee on Public Information issues the following:

To-day being the anniversary of the date on which the building of the naval aircraft factory at Philadelphia was authorized, Rear Admiral Taylor, Chief of the Bureau of Construction and Repair, which built and operates the plant, has reported to Secretary Daniels the satisfactory record made in the erection and operation.

Secretary Daniels's Letter.

In recognition of this the Secretary has addressed the following letter to Naval Constructor F. G. Coburn, United States Navy, manager of the naval aircraft factory:

"The department desires to express its appreciation of your ability shown in organizing the naval aircraft factory and in bringing it, as its manager, to its present state of efficiency. One year ago the construction of the naval aircraft factory was authorized by the department, and you were detailed as its manager. This factory has been built in accordance with plans prepared by you, and the records show that forms for the first flying boat were laid October 12, while the building was not completed until November 28. The first flying boat was given its successful trial flights on March 27, 1918, and since that date a steadily increasing rate of production has been observed. It is noted that the first order for 50 large flying boats has been completed and the greater part are now flying over British waters.

Conspicuously Successful Example.

"It is believed that the creation in the space of one year of one of the largest aircraft factories in the country stands as a conspicuously successful example of the Navy's preparation for war."

The contract for the aircraft factory was awarded August 6, 1917, and work was begun on the same day. The original factory had a floor space of 160,000 square feet. An extension, which will give an added space of 55,400 square feet, was begun on February 26, 1918, and is now practically completed.

MORE UNOCCUPIED BUILDINGS HERE TO HOUSE WAR WORKERS

The Department of Labor authorizes the following:

The Bureau of Industrial Housing and Transportation announces the creation of a Washington committee to develop the greater use of the existing housing facilities.

The committee consists of Dr. James Ford, representing the Bureau of Industrial Housing; Edwin S. Hege, representing the District council of defense; and Capt. Julius I. Peyser, of the Housing and Health Division of the War Department. The committee will have offices at 719 Fifteenth Street NW.

Will Aid Boarding-House Keepers.

Its task will be to assist women to establish boarding and rooming houses and coöperative housekeeping apartments. A revolving fund of $25,000 has been allotted by the United States Housing Corporation for this purpose. Loans will be made to women of approved qualifications. The committee will approve the rent paid and control the prices charged occupants of houses it equips. It will pass on the suitability of the houses proposed, and also sanction the business arrangements entered into by the applicant boarding-house keepers.

Open Letters of Credit.

After houses and rents are approved, open letters of credit will, in selected cases, be extended. On these letters the boarding-house keepers will be enabled to purchase furniture and household equipment at prices to be approved by the committee.

The underlying purpose of this arrangement is to make available for use buildings which, for one reason and another, are now unoccupied. A similar fund has previously been allotted by the War Department to its Housing and Health Division.

MAXIMUM PRICE FOR HEMP FIXED BY INDUSTRIES BOARD

The War Industries Board announces the following:

The price-fixing committee of the War Industries Board, appointed by the President, has this day, July 25, 1918, established a maximum price of 14 cents f. o. b. Manila for 1 current hemp. Prices of other grades will follow immediately.

Based on Hemp Price.

As the Government consumes nearly all manila rope manufactured in this country, the Government will pay a price for rope based on the maximum price fixed for hemp, and the War Trade Board will restrict export licenses to foreign countries to hemp purchased at maximum fixed prices. This practically insures the hemp grower 14 cents basis for his hemp, although the price as stated is only the maximum price.

The section of the price-fixing committee expires August 31, before which time the whole matter will be thoroughly considered, in consultation with Gov. Gen. Harrison and the importers and manufacturers, with a view to stabilizing and protecting the future interests of the Filipinos.

If any sales are made below said maximum price, such sales will largely determine future action of the price-fixing committee.

EXCEPTION MADE TO RULES FOR GRADED POTATO SALES

The Food Administration issues the following:

The Food Administration has found it necessary to make an exception to the rule requiring licensed dealers to purchase or ship potatoes as "United States Grade No. 1" or "United States Grade No. 2." The variety of potato known as The American Giant, grown mostly in New Jersey, is of a peculiar shape, which would make it difficult to grade, in a practical manner, in respect to size. For this reason it has been decided that dealers may buy or ship potatoes of this variety as "United States Grades No. 1 and No. 2 Mixed."

General Rules Applied.

The rule provides that the mixture must contain potatoes of the No. 1 grade; that none of this grade may be sorted out; and that no potatoes smaller than the No. 2 size may be included.

Naturally, no definite proportion of No. 1 and No. 2 potatoes can be fixed, but they must be sold in the proportion in which they occur in the field run. The gist of the rule is that these potatoes must be up to the standards of the two grades in all respects, but they can be handled and bought as a mixture.

CAPT. LA GARDE ASSIGNED.

Special Orders, No. 164:

111. Capt. Richard D. La Garde, United States Army, retired, in addition to his other duties, is appointed director of civilian marksmanship under a provision in an act of Congress approved August 29, 1916. Capt. La Garde will report to the Chief of the Militia Bureau.

Health Conditions at the National Guard, National Army, and Regular Army Camps as Reported for the Week Ending July 19

Herewith is a detailed report on the health conditions of troops in the United States (including Porto Rico) for the week ending July 19. The report of the Division of Sanitation to the Surgeon General of the Army for that week is as follows:

1. General.—The health of troops continues satisfactory. Admission and noneffective rates remain comparatively high due chiefly to the large number of newly inducted men having venereal disease contracted before entering the service. Pneumonia shows an increase and other of the more serious diseases a decrease in the number of new cases reported as compared with last week. The death rate for disease (2.9) is lower than last week, and approaches the record low rate of the week ending June 28 (2.1).

2. Divisional camps.—Camp Cody holds the best health record of all of the larger camps (admission 333, noneffective 14.8, 1 death). Camps Sevier and Beauregard have sick rates well above the average of other camps, and also lead in the number of new cases of measles and pneumonia. Twelve new cases of dysentery were reported from Camp Beauregard out of the total of 14 new cases for all camps of this group.

3. Cantonments.—Camp Grant continues with the lowest sick rates of all camps of this group (admission 505, noneffective 16.9). Measles is prevailing in all cantonments, a total of 400 new cases being reported against 456 last week. Of this number, Camp Pike reports 127, Camp Lee 74, Camp Dodge 49, and Camp Taylor 48. One hundred and sixty-nine new cases of pneumonia are reported from camps of this group against 91 last week; of this number, Camp Funston reports 33, Camp Las Casas 26, Camp Gordon 23. The increased prevalence of this disease is among colored troops and Porto Ricans. Camp Pike reports 28 new cases of malaria out of the total of 74 for all camps of this group.

4. Departmental and other troops.—The Eastern and Northeastern Departments have the lowest and the Southeastern Department the highest sick rates of all commands in this group. In this group, as a whole, a decrease is shown in the number of new cases of all of the more serous diseases.

Summary.

Troops.	Noneffective rate.		Admission rate for disease.		Death rate.			
					All causes.		Disease only.	
	This week.	Last week.	This week.	Last week.	This week.	Last week.	This week.	Last week.

[1] 1 new case of typhoid fever also reported from Western Department, 1 at Camp Cody, 1 at Hancock, 1 at Logan, 1 at Shelby, 1 at Gordon, 1 at Lee, 1 at Pike, and 1 at Sherman.

[2] First figure in this column for each camp gives the total number of new cases during the week; the figure in parenthesis is the number of those cases which were contracted during the week by men in that camp's command at the time of contracting the disease—the difference, therefore, is the number of cases first reported during the week which were either (a) cases brought from civilian life by recruits, or (b) cases brought by men transferred from other camps to the camp under which the case is reported, or (c) old cases which have previously evaded detection. An interrogation point signifies that the report from that camp did not segregate cases contracted at the camp from other cases.

[3] Per 1,000.

Causes of deaths by camps.

Camp or department.	No. of deaths.	Causes.
Merritt	1	Pneumonia, 1.
Stuart	5	Pneumonia, 2; abscess, 1; tuberculosis, 1; meningitis, 1.

Soldiers Who Died Last Week.

List of names of soldiers reported to The Adjutant General's Office as having died in the United States and its possessions during the week ending July 19, 1918. (Included in this list are the names of soldiers, not previously published, who died in the United States and its possessions prior to the week mentioned and

(Continued on page 7.)

INSTRUCTIONS ON NEW RULES GOVERNING CONTRACT BROKERS

The Department of Commerce authorizes the following:

Department Circular No. 279.

WASHINGTON, *June 21, 1918.*

To chiefs of bureaus and offices in the Department of Commerce, and others concerned:

Your attention is directed to the following from a letter of the Attorney General to the Secretary of Commerce, dated June 18, 1918:

A situation which has arisen in the matter of Government contracts seems to me to require summary action. Owing to the tremendous increase in Government business and the speed with which it must be executed, some manufacturers because of ignorance or misinformation have thought it necessary to negotiate with the Government through contract brokers or contingent-fee operators. It follows that the system requires a contractor in making his estimate to load his bid with the contingent-fee item. The courts have universally condemned the contingent-fee contract. The methods employed by the contingent-fee operator are often insidious and reprehensible, and in view of the fact that the average fee is 5 per cent, the resulting cost to the Government is very great.

Form of Covenant.

As a means of breaking up this practice I have prepared the following form of covenant, which the President requests shall be inserted in all Government contracts:

"The contractor expressly warrants that he has employed no third person to solicit or obtain this contract in his behalf, or to cause or procure the same to be obtained upon compensation in any way contingent, in whole or in part, upon such procurement; and that he has not paid, or promised or agreed to pay, to any third person, in consideration of such procurement, or in compensation for services in connection therewith, any brokerage, commission, or percentage upon the amount receivable by him hereunder; and that he has not, in estimating the contract price demanded by him, included any sum by reason of any such brokerage, commission, or percentage; and that all moneys payable to him hereunder are free from obligation to any other person for services rendered, or supposed to have been rendered, in the procurement of this contract. He further agrees that any breach of this warranty shall constitute adequate cause for the annulment of this contract by the United States, and that the United States may retain to its own use from any sums due or to become due thereunder an amount equal to any brokerage, commission, or percentage so paid, or agreed to be paid."

Language Quoted as Rule.

As an additional protection it is requested that your department adopt as a regulation the following language taken from section 3722, page 735, Revised Statutes, as applied to the Navy Department: "And no person shall be received as a contractor who is not a manufacturer of or regular dealer in the articles which he offers to supply." This will synchronize the action of officials of your department with that of the contractor who is prohibited by section 3737, Revised Statutes, from transferring his contract or order, or any interest therein, to any other party.

It is accordingly directed that all contracts, whether formal or informal—the latter including those consisting of an offer and acceptance—hereafter entered into by officers or agents of the department shall contain the above form of covenant regarding the employment of contract brokers and contingent-fee operators, etc. Notice of this should be given to all prospective bidders.

Qualification of Contractor.

Furthermore, the following regulation is hereby promulgated:

No person shall be received as a contractor who is not a manufacturer of or regular dealer in the articles which he offers to supply.

In calling for bids for the furnishing of articles, supplies, materials, and equipment the foregoing regulation should be incorporated in the notice or instructions to bidders at the time bids are solicited; and this regulation shall also govern in cases where an award is to be made for the furnishing of such articles, supplies, materials, and equipment, without soliciting bids therefor under the exceptions to the law requiring competition.

WILLIAM C. REDFIELD,
Secretary.

HEALTH CONDITIONS AT THE ARMY CAMPS AND LIST OF SOLDIERS WHO DIED DURING THE WEEK

(Continued from page 6.)

subsequently to March 8, 1918. These names are indicated by an asterisk.)

Camp Beauregard, La.—Pvt. White O. Harris, R. F. D. No. 1, Box 65, Monroe, La.; First Class Pvt. Albert H. McConnell, Protorville, Miss.;* Pvt. Carl Ossenschmidt, Norwood, Ohio; Pvt. Robert E. Rethwisch, 1518 Christie Avenue, Louisville, Ky.

Camp Bowie, Tex.—Pvt. Frank W. McRoberson, R. F. D. No. 3, Mart, Tex.

Camp Custer, Mich.—Pvt. Archie Daniels, R. F. D. 37, New Blacton, Ala.; Pvt. Sam Garavagli, 93 Hale Street, Detroit, Mich.

Camp Devens, Mass.—Pvt. Joseph H. Eaton, Princeton, Me.

Camp Dix, N. J.—Pvt. William Beal, 47 Sixth Avenue, Newark, N. J.; Pvt. Herbert Williams, Ormond, Fla.

Camp Dodge, Iowa.—Pvt. Walter Charles, Belfast, Tenn.

Camp Gaillard, Canal Zone.—Lt. Col. Edwin J. Bracken, Milwaukee, Wis.*

Camp Gordon, Ga.—Pvt. John O. Hay, Hudson, Fla.;* Pvt. George Jones, Folkson, Ga.

Camp Jackson, S. C.—Pvt. Melvin O. Dills, 49 Depot Street, Dalton, Ga.; Pvt. Clyde Fletcher, R. F. D. No. 3, Yadkinville, N. C.; Pvt. Reese Owens, 24 Irving Place, Youngstown, Ohio.

Milton E. Matten. Thomas Matten, 1154 Robeson Street, Reading, Pa.

Waclaw Matyzasik. Frank Matyzasik, Port Kennedy, Pa.

(Continued on page 13.)

DIFFERENTIALS ON BASIC HIDE PRICES EFFECTIVE AUGUST 1, ANNOUNCED BY WAR INDUSTRIES BOARD PRICE COMMITTEE

The War Industries Board authorizes the following:

Differentials on the basic hide prices announced by the price-fixing committee of the War Industries Board effective for three months beginning August 1 are as follows:

PACKER HIDES.

1. Maximum prices for special reselections of packer steers and cows for belting, carriage, furniture, or harness leather purposes are 1 cent over the maximums for regular selections and grades.

Rules for Small Packers.

2. All small packers, abattoirs, and wholesale butchers are governed by standard packer selections, and shall make the same grades, selections, and tare as standard packers make. Their maximum prices shall be relative to best standard packer maximum prices and shall be based on Chicago freight. Chicago freight basis in States of California, Washington, Oregon, Nevada, Idaho, and Utah means that the seller shall deduct three-fourth cent per pound (being three-fourths of present freight East, which is 1 cent from the invoice) or take this amount into consideration when naming his selling price. In all other States "Chicago freight basis" means that the seller allows the buyer any excess freight on shipment over the amount which could be charged on such shipment were it shipped from Chicago, and if freight charged from point of shipment does not exceed that from Chicago no allowance is made, neither is any allowance made if the freight is less than from Chicago.

Country Coast Hides.

3. Packer, abattoir, and country coast (California, Oregon, Washington, Idaho, Utah, and Nevada) hides shall first be offered to coast tanners having Government contracts, and those tanners, if they wish to buy the hides, must give decision within 48 hours after receipt of the offering.

4. Small packer, abattoir, and wholesale butcher hides, which have been resalted, shall be so described when offered for sale.

5. The maximum prices on Canadian packer hides are to correspond with domestics of similar merit and description. ("Canadian hides" embrace those from other North American British possessions.)

6. Any resalted packer, abattoir, or wholesale butcher calkskins shall sell at relatively less than the price of 44 cents, which is for first salt standard packer stock, on Chicago basis.

Charges for Brokerage.

7. A go-between can not charge a brokerage to both buyer and seller. No one owning a lot of hides or skins can charge his customer a brokerage when selling same. Any tanner may pay an agent a brokerage for buying hides or skins (except on hides or skins which the agent owns himself), but such agent may not buy less than carload lots of butchers' at a higher price than 10 per cent under applicable maximum prices. No brokerage shall exceed 2 per cent.

8. The prices on packer bulls are now on a selected basis, whereas formerly they were on a flat basis.

DATA REGARDING GRADING AND SELECTING PACKER HIDES.

Spready native steers, free of brands, 60 pounds and up, measuring 6 feet 6 inches and over just behind the brisket, from June to December, inclusive, sold as No. 1s only. During January to May, inclusive, they are sold on a grub selection. Under normal conditions each hide is grubbed, those with 5 or more grubs as No. 2s, with less than 5 grubs as No. 1s, or by agreement between buyer and seller they may be taken on sample grub selection, same as other grades of hides. The Koshers of this selection may be sold on the same measurements, or 6 feet 8 inches and over, according to custom.

Native steers, free of brands, three weights, 60 pounds and up, 50 to 60 pounds and 25 to 50 pounds, called heavy, light, and extreme light.

Texas steers, selected for weight, 60 pounds and up, 50 to 60 pounds, and 25 to 50 pounds, known as heavy, light, and extreme light. These are side branded steers, and a special selection for small close-pattern, plump hides. At Fort Worth all branded hides are classed as Texas, irrespective of spread.

Butt branded steers, selected for weights, 60 pounds and up, 50 to 60 pounds, and 25 to 50 pounds. These are hides which carry one or more brands in the butt of the hide.

Colorado steers, selected for weights, 60 pounds and up and 50 to 60 pounds, known as heavy and light; the extreme lights selling with branded cows. These are Western side branded hides from the ranges and usually run spreadier and less plump than the Texas steers.

Native cows, selected 55 pounds and over for heavy, and 25 to 55 pounds for light; being free of brands.

Branded cows, these are not graded as to weights but sold on what is termed "all weight basis 25 pounds and up," being both butt and side branded, no selection for brands.

Native bulls, free of brands, all weights, 25 pounds and up.

Branded bulls, all weights, 25 pounds and up.

Grubs: Grub selection is allowed on all hides as follows: On Texas steers and branded cows from November 1 to June 1, on Colorados from December 1 to June 1, on native steers (including spreadies), buttbrands, and native cows from January 1 to June 1. The grubbing is arrived at by figuring the basis for the whole car on what is found in the sample grub selection.

Take-off: Packer hides are classed as No. 1s except where there is a cut in the body of the hide which can not be trimmed out without spoiling the pattern, or in case of any hair slips, which should be rejected or classed as No. 2s if not bad enough to put them into glues.

Tare allowance: The tare allowance is made to cover shrinkage in transit and moisture in the hides. This is an arbitrary figure arrived at on a theoretical sweeping of 10 hides selected at random from the car, but in practice now is arrived at by settlement, except in case of dispute where the interested parties will not agree.

Manure allowance: The allowance for manure is an estimate of what weight of such foreign matter is found on each individual hide.

Shipping: The hides are all to be put up in bundle and then weighed and put into cars.

The scales should be set to take care of tare allowance when testing for heavies, light, and extreme lights.

MAXIMUM PRICES.

1. The maximum prices named below apply to the best standard of packer hides; all other packer hides shall sell at relatively lower values:

August, September, October, 1918, Take-off.

	Cents.
Heavy native steers, No. 1	30
Heavy native spready, No. 1	31
Light native steers, No. 1	29
Extreme light native steers	24
Heavy butt branded steers, No. 1	28
Light butt branded steers, No. 1	27
Heavy Colorado steers, No. 1	27
Light Colorado steers, No. 1	26
Heavy Texas steers, No. 1	28
Light Texas steers, No. 1	27
Extreme light Texas steers, No. 1	24
Branded cows, No. 1	23
Heavy native cows, No. 1	28
Light native cows, No. 1	24
Native bulls	21½
Branded bulls	19½
All Koshers at ½ cent discount.	
Kip	27
Overweight kip	25½
Branded kip	22½
Calfskins	44

CALFSKINS (NOT OTHERWISE PROVIDED FOR).

1. Maximum prices for take-off August, September, October.	
2. The maximum prices set on large city first-salt skins, outside city skins, and country skins do not apply to the Pacific Coast.	
3. Chicago city first-salt calfskins, and other large city first-salt calfskins	$0.44
4. Light calf, 7–8 pounds	3.30
Deacons	3.10
5. New York City trimmed calfskins and other eastern city trimmed calfskins equal in all respects to New York City:	
4–5 pounds	3.10
5–7 pounds	4.00
7–9 pounds	5.00
9–12 pounds	6.00
12–17 pounds	7.00
17–25 pounds	7.50
Buttermilk calf at 25 cents discount.	
6. Other eastern trimmed calfskins, not equal in all respects to New York City skins, shall sell at relatively less, according to their value. Nobody shall be allowed to give the butcher a bonus because this practice is construed to mean paying more than the maximum.	

COUNTRY HIDES.

1. Dealers who accumulate hides, kips, and skins from various sections shall, when offering such merchandise, state where same originated and sell such merchandise of each section in accordance with the schedule of maximum prices applicable thereto. When various sections are sold all together as one lot, the price shall be the price of the district and kind, according to the schedule, which commands the least.

2. The maximum prices, in the schedule, for country domestic green salted and dry hides are based on carload lots at point of shipment.

3. The maximum price on black hides, special selection suitable for robes, is 23 cents flat.

Differentials on Basic Hide Prices in Effect August 1

4. Weights 25 to 50 pounds (not over 41 pounds average) are ½ cent less than weights 25 to 45 pounds of the same kind, excepting where the price for 45 to 60 is the same price as that for 25 to 45.

5. Maximum prices on Canadian country hides are to correspond with domestics of similar merit and description. ("Canadian hides" embrace those from other North American British possessions.)

6. When hides are sold to be free of ticks, and not over 50 per cent ticky hides are found on a beam-house selection, the buyer will accept the ticky hides at not over the applicable maximum price of ticky hides, but if more than 50 per cent ticky hides are found on the beam-house selection the entire lot must be billed at not over the applicable maximum price for ticky hides.

7. A go-between can not charge a brokerage to both buyer and seller. No one owning a lot of hides or skins can charge his customer a brokerage when selling same. Any tanner may pay an agent a brokerage for buying hides or skins (except on hides or skins which the agent owns himself), but such agent may not buy less than carload lots of butchers at a higher price than 10 per cent under applicable maximum prices. No brokerage shall exceed 2 per cent.

8. Tanners are not permitted to buy green or slack-cured stock of butchers (excepting packers, abattoirs, and wholesale butchers), unless at 20 per cent less on hides and kips, and 12½ per cent less on skins than the maximum green salted prices.

9. Tanners are not permitted to buy green salted hides, kips, or skins of a butcher in less than carload lots at a higher price than 10 per cent less than the maximum green salted prices.

10. All hides and skins must be bought and sold on a selected basis.

WET SALTS.

RULES REGARDING SELECTION, PREPARATION, TARING, SHRINKAGE, ETC.

Selection.—The following applies to the selection of all hides which are sold on the basis that they are free of ticks and brands (ticks and brands are not classed as No. 2s in sections where the maximum prices already allow for same).

The price of a No. 2 hide is 1 cent per pound under the No. 1 price.

No. 2 hide description:

Any cut over 6 inches in from the edge.
Over 5 bad scores.
Butt brand.
2 grubs.
1 grain slip.
1 rubbed where the grain is gone.
1 dragged where the grain is gone.
1 sore where the grain is gone.

Side branded and ticky hides shall be at 2 cents reduction for each; for example, if the price of No. 1 native hide is 21 cents, then the price of the ticky or side branded hide is 19 cents. If the hide is both side branded and ticky, then the price is 17 cents.

Cutthroats shall sell at ½ cent per pound reduction in all cases. (No hide shall be deemed a cutthroat if 4 inches remain between the edge of the cut and the center of the butt of the ear on each side.)

Heads hanging by string necks shall be cut off. If left on, they should be billed back at the price of glue stock.

Ticky hides, when sold by dealer to a tanner, shall be ascertained on beam-house selection.

Preparation.—All hides shall be as follows:

Free of meat, tail bones, switches, sinews, horns, bags, split shanks, and mud and manure. (If mud and manure can not be removed, it must be allowed for.)

Curing hides in vats, barrels, or other water-tight containers must be stopped.

Preparations for false weighting hides prohibited.

Tare.—Tare for salt shall be arrived at in all cases by tanneries by shaking the hides five times on each side.

Shrinkage.—There should be a shrinkage guaranty on hides sold to tanners as follows:

3 per cent if the hides are weighed at tannery within 14 days from date of shipment.
4 per cent if the hides are weighed at tannery within 15 to 21 days from date of shipment.
5 per cent if the hides are weighed at tannery within 22 to 28 days from date of shipment.
6 per cent if the hides are weighed at tannery within 29 to 35 days from date of shipment.

And 1 per cent additional for each additional 7 days.

Information regarding maximum prices and regulations may be had from the following regional men:

N. Bissenger, San Francisco, Cal.
R. E. Paine, Houston, Tex.
D. Bergman, St. Paul, Minn.
H. Lehman, Dayton, Ohio.
William P. Lange, Pittsburgh, Pa.
D. Kirkland, Savannah, Ga.
Sampson Rogers, Chicago, Ill.
E. J. McLean, Denver, Colo.

China buffalos, 13 cents; cost and freight New York. Ten per cent shrinkage guaranteed.

FOREIGN DRY HIDES—MAXIMUM PRICES.

1. The following prices and terms shall be in force from August 1 to October 31, 1918.

2. When prices are on basis of New York weights, original selection, the certified arrival weights shall govern.

3. When prices are on the basis of c. i. f., or cost and freight, original shipping weights, with customary shrinkage guaranties, shall govern unless otherwise specified.

4. Cordova (Argentina) dry hides shall include Santiago del Estero, San Luis, Salta, and Metan.

5. Maximum price on all dry-salted hides is 6 cents less than dry flint in all cases where it has been customary to sell lots running all or practically all dry salted, and in such cases the hides with pickle on them are 3 cents under dry flints. In other cases the customary conditions prevail.

6. The percentages of desechos mentioned in Argentina, Uruguay, and Paraguay dry hides do not apply to kip and calf. Kip and calf are free of mal-desechos and/or inservibles.

7. Maximum price of inservible hides shall not be over two-thirds of the maximum price of the basis selection of the same kind.

8. Venezuela, Colombia, Ecuador, Central America, West Indies, San Domingo, Haiti, and Porto Rico kip, maximum price 1 cent per pound over maximum price for hides of the respective countries; calf, maximum price 6 cents over the maximum price for hides of the respective countries.

Shipments from origin during August, September, October, 1918.

"LIBERTY CHORUSES" PLANNED TO MAINTAIN CIVILIAN MORALE

The Council of National Defense authorizes the following:

The organization of "Liberty choruses" all over the country for the purpose of building up and maintaining civilian morale through community singing is forecasted by a bulletin which has just been sent to every State council of defense by the State councils section of the Council of National Defense.

The program calls for the appointment of a State musical director in every State, to be chosen by the State council of defense and State division of the Woman's Committee. Through the county and community councils of defense the State musical director will bring about the creation of local Liberty choruses throughout the State. Existing choirs, choruses, glee clubs, and musical associations will be utilized wherever possible.

The Liberty choruses will sing at all patriotic mass meetings and public gatherings of every sort, and no effort will be spared to use them as a means of making the people of every community learn the songs of our Nation and its allies, and learn to get together and sing them.

A singing army can not be defeated. A singing nation can not be defeated. The object of the Council of National Defense is to make the United States, throughout this war and afterwards, what it has never been before—a singing nation. The feeling of the council is that the widest extension of organized singing will not only be of great service in assisting the organized speaking campaigns of the State councils of defense—a result which it has already had in States which have experimented with it—but will unite the people of every community for the expression of their will to win, and for a more complete unity in the prosecution of war work.

THE WEEKLY WEATHER FORECAST

The Weather Bureau has issued the following forecast for the period July 29 to August 3, inclusive:

North and Middle Atlantic States.—Showers Tuesday or Wednesday and again toward the end of the week, otherwise fair. Temperatures will average above normal.

South Atlantic and East Gulf States.—Occasional local thundershowers during week, rather less frequent in the East Gulf States. Nearly normal temperatures.

West Gulf States.—Continued warm and generally fair weather indicated during the week.

Ohio Valley and Tennessee.—Occasional thundershowers in higher districts; generally fair weather elsewhere, with temperatures averaging above normal.

Region of Great Lakes.—Showers by Monday in upper lakes and by Tuesday in lower lakes, then fair until near the end of the week, when more showers are probable. Temperatures will average above normal after Monday.

Upper Mississippi and lower Missouri Valleys.—Showers Sunday night or Monday and again about Thursday. Nearly normal temperatures over northern and somewhat above normal over southern portion.

Northern Rocky Mountain and plateau regions.—Local thundershowers and somewhat warmer first half of week, generally fair second half, with nearly normal temperatures.

Southern Rocky Mountain and plateau regions.—Fair weather and nearly normal temperatures indicated during the week, except occasional local thundershowers in mountain districts.

Pacific States.—Fair weather indicated, except showers early in week over northern districts. No decided temperature changes.

COMMITTEE ON RICE APPOINTED BY THE FOOD ADMINISTRATION

Appointment of a committee to assist in carrying out the recent agreements between the Food Administration and rice millers is announced by the Food Administration. Its members are: E. A. Eignus, Beaumont, Tex.; J. E. Broussard, Beaumont; and J. H. Roman, New Orleans.

This committee will supervise the grading and classification of rough rice, as set forth in the recent agreements, and will have general control of valuation committees which will carry out the details in the various districts.

The main provisions of the agreement are that the miller shall pay definite prices to the grower for rough rice and shall not sell the clean rice at more than prices named in the contract, ranging from 7⅞ cents a pound for Choice Japan to 9½ cents for Fancy Honduras.

LIST OF PURCHASE ORDERS AND CONTRACTS PLACED BY THE ORDNANCE DEPARTMENT OF THE U. S. ARMY

The Army Ordnance Department authorizes publication of the following list of contracts and purchase orders:

M. & C. Skirt Co., Boston, Mass., canteen covers.

Plant Bros. & Co., Manchester, N. H., magazine pockets.

Eagle-Ottawa Leather Co., Grand Haven, Mich., russet strap leather.

Everlastik (Inc.), New York, N. Y., O. D. webbing.

Traut & Hine Manufacturing Co., New Britain, Conn., "D" ring and roller.

Minnesota By-Products Coke Co., St. Paul, Minn., crude solvent naptha.

H. Koppers Co., Pittsburgh, Pa., construction of toluol recovery plants.

Westchester Lighting Co., Pelham, N. Y., increase in boiler capacity of toluol plants.

Central Union Gas Co., New York, N. Y., boilers.

Consolidated Gas Co. and New Amsterdam Gas Co., New York, N. Y., increase in boiler capacity of toluol plants.

T. A. Gillespie Loading Co., South Amboy, N. J., loading shells.

Frankford Arsenal, Philadelphia, Pa., crimping machine for cartridge cases.

Pittsburgh Steel Co., Pittsburgh, Pa., open hearth round-cornered square bars.

McKaig-Hatch (Inc.), Buffalo, N. Y., adapter heads.

International Nickel Co., New York, N. Y., slotted nickel.

The Texas Co., New York City, oil.

Signode System (Inc.), Chicago, Ill., strapping for bombs.

Roach & Musser Co., Muscatine, Iowa, detonating fuzes.

The Lamson Co., Washington, D. C., conveyors.

Marlin Rockwell Corp., Washington, D. C., tools and dies.

Watervliet Arsenal, Watervliet, N. Y., rifling bar.

The Zahner Metal Sash & Door Co., Canton, Ohio, adapted for anti-aircraft machine guns.

Chatham Machine & Tool Works, New York, N. Y., guages for ball cartridge clip.

Hermann Sanford Saddlery Co., Springfield, Mo., artillery bridles.

Scheffer & Rossum Co., St. Paul, Minn., pistol holsters.

American Chain Co. (Inc.), New York City, chains.

Kemper Thomas Co., Cincinnati, Ohio, covers for Vickers & Browning heavy machine guns, also carrying case for Colt-Browning machine rifle.

Sefton Manufacturing Corp., Brooklyn, N. Y., corrugated pads for boxes.

Pennsylvania Trojan Powder Co., Allentown, Pa., grenades, shells, and bombs.

Michigan Tent & Awning Co., Detroit, Mich., paulins for truck chassis.

Benicia Arsenal, Benicia, Cal., pint cups, tin plates.

A. J. Bates Co., Webster, Mass., helmet linings.

Frank Farnum, Brockton, Mass., magazine pockets.

L. C. Chase & Co., Boston, Mass., pistol belts.

L. C. Chase & Co., Watertown, Mass., canteen covers.

G. E. Prentice Manufacturing Co., New Britain, Conn., pistol lanyards.

Everlastik (Inc.), New York, N. Y., olive-drab webbing.

Frankford Arsenal, Philadelphia, Pa., extractor hooks.

Rudolph & West, Washington, D. C., dry cells, ignition type.

Chalkis Manufacturing Co., Detroit, Mich., artillery.

American Car & Foundry Co., New York, N. Y., machining gun shell.

Chase Rolling Mill Co., Waterbury, Conn., brass forgings.

Chatham Machine & Tool Works, New York, N. Y., and Bicknell, Thomas Co., Greenfield, Mass., master inspection gauges.

T. A. Gillespie Co., Runyon, N. J., loading howitzer shells.

Winchester Repeating Arms Co., New Haven, Conn., Lyman gun sights.

Midvale Steel & Ordnance Co., Eddystone, Pa., rifle barrels.

Adams & Westlake Co., Chicago, Ill., Adlake tail lamps.

Hale & Kilburn (Corp.), Philadelphia, Pa., trays for supporting sewing machines, pedestal stands, vise plates.

Hermann-Sanford Saddlery Co., Springfield, Mo., back straps for harness.

Groton & Knight Manufacturing Co., Worcester, Mass., coupling straps.

Kemper, Thomas Co., Cincinnati, Ohio, covers for Vickers & Browning heavy machine guns, and canteen covers and pouches.

Wallace & Smith Co., Milwaukee, Wis., feed bags.

Landers, Frary & Clark, New Britain, Conn., meat cans.

F. M. Hoyt Shoe Co., Manchester, N. H., pistol holsters.

Graton & Knight Manufacturing Co., Worcester, Mass., gun slings.

Plant Bros. & Co., Manchester, N. H., magazine pockets.

Simmons Hardware Co., St. Louis, Mo., haversacks.

James Phelan & Sons, Lynn, Mass., shovel carriers.

Rock Island Arsenal, Rock Island, Ill., bacon cans.

Miller-Hexter Co., Cleveland, Ohio, pouches.

R. H. Long, Framingham, Mass., canteen covers.

Kemper Thomas Co., Cincinnati, Ohio, canteen covers.

Plant Bros. & Co., Manchester, N. H., pistol belts.

Perkins-Campbell Co., Cincinnati, Ohio, haversacks.

Plant Bros. & Co., Manchester, N. H., pistol belts.

Clarence Whitman & Co. (Inc.), New York, N. Y., Tampa flannel (unbleached).

Hydraulic Pressed Steel, Cleveland, Ohio, steel billets.

Greenfield Tap & Die Corporation, Greenfield, Mass., adjustable tap wrenches.

Four Wheel Drive Auto Co., Clintonville, Wis., tubular radiator.

Salisbury Wheel & Axle Co., Jamestown, N. Y., Nash quad axles.

Skinner Chuck Co., New Britain, Conn., geared pattern drill chucks and drill press vises.

Baker & Co. (Inc.), Newark, N. J., platinum wire.

Lehigh Machine Co., Lehighton, Pa., and Kismont Machine & Tool Corporation, New York, N. Y., and Willard E. Meyers Machine Co. (Inc.), Long Island City, N. Y., inspection gauges.

Symington Machine Corporation, Rochester, N. Y., diaphragm forgings.

Winchester Repeating Arms Co., New Haven, Conn., Colt automatic pistols.

The Colson Co., Elyria, Ohio, sighting staffs.

The Whitman & Barnes Mfg. Co., Chicago, Ill., spanners.

General Fire Extinguisher Co., Providence, R. I., grease guns.

Bullard Engine Works, Bridgeport, Conn., split rings.

Brauer Bros. Mfg. Co., St. Louis, Mo., carrying cases for machine rifle.

Duff Mfg. Co., Pittsburgh, Pa., spare parts for hydraulic jacks.

Watervliet Arsenal, Watervliet, N. Y., rifling guns.

Dunlap & Co., Edinburgh, Ind., carpenters' chests.

Loew Mfg. Co., Cleveland, Ohio, sighting platforms.

Frankford Arsenal, Frankford, Pa., collimating telescope.

Watertown Arsenal, Watertown, Mass., electrical equipment.

Sparks-Withington Co., Jackson, Mich., dies for making shin guards.

Hans Rees' Sons, New York, N. Y., russet harness leather sides and backs.

Moline Forging & Mfg. Co., East Moline, Ill., forgings.

National Spun Silk Co. (Inc.), New York, N. Y., spun silk.

Slocum, Avram & Slocum, New York, N. Y., replacement parts for quadrant sight.

Springfield Armory, Springfield, Mass., rifles, Springfield.

Davis Bournonville Co., Washington, D. C., Oxy-acetylene welding sets, supply material and spare parts for same.

Jones & Laughlin Steel Co., Pittsburgh, Pa., Bessemer screw stock.

Black & Decker Manufacturing Co., Baltimore, Md., booster cups and adapters.

Newport Mining Co., Milwaukee, Wis., phenol.

Ordnance Engineering Corporation, New York, N. Y., winder tube sights.

Black & Decker Manufacturing Co., Baltimore, Md., control mechanism for release traps.

Edward C. Budd Manufacturing Co., Philadelphia, Pa., firing thimbles.

Austin Powder Co., Cleveland, Ohio, blasting caps.

Dayton Adding Machine & Time Lock Co., Dayton, Ohio, control handles.

Ford Motor Co., Philadelphia, Pa., overhauling trucks.

Lang & Hoffman, New York, N. Y., cartridge igniter cloth.

Colt's Patent Fire Arms Manufacturing Co., Hartford, Conn., Browning machine gun.

United States Cartridge Co., Lowell, Mass., changes in building.

Bethlehem Steel Co., Bethlehem, Pa., bracket for adapting quadrant sight to howitzer carriage.

Straus Saddlery Co., St. Louis, Mo., breeching with side straps and hooks.

Duncan & Sons, Seattle, Wash., martingales.

Hermann-Sanford Saddlery Co., Springfield, Mo., and L. Frank Saddlery Co., San Antonio, Tex., breeching with side straps and hooks.

J. C. Nichols Co., Sheboygan, Wis., and Marshall-Wells Hardware Co., Duluth, Minn., breast collars.

George C. Moon Co., Garwood, N. J., copperclad wire traces.

Walter Boyt Co. (Inc.), Des Moines, Iowa, pistol holsters.

R. H. Long, Framingham, Mass., breast collars.

Beattie Manufacturing Co., Little Falls, N. J., gray duck.

McIntyre Burrall Co., Greenbay, Wis., Duncan & Sons (Inc.), Seattle, Wash., and L. Frank Saddlery Co., San Antonio, Tex., breast collars.

Duncan & Sons (Inc.), Seattle, Wash., breeching with side straps and hooks.

Perkins-Campbell Co., Cincinnati, Ohio, rawhide covered McClellan saddle trees.

Dodson-Fisher-Brock-Mann Co., Minneapolis, Minn., mule riding saddles.

Clinton Saddlery Co., Clinton, Iowa, pistol holsters.

Westinghouse Electric & Manufacturing Co., East Pittsburgh, Pa., dischargers for rifle grenades.

West Steel Castings Co., Cleveland, Ohio, steel motor truck wheels.

The American Mills Co., Waterbury, Conn., olive-drab webbing.

Strause Saddlery Co., St. Louis, Mo., breast collars.

Westboro Trunk & Bag Co., Westboro, Mass., carrying cases for range finder.

Sears Saddlery Co., Davenport, Iowa, pistol holsters, breast collars.

The Powers Manufacturing Co., Waterloo, Iowa, flap webbing.

Wellington Sears & Co., Boston, Mass., gray duck.

Sargent & Co., New Haven, Conn., traps for release mechanism.

B. F. Goodrich Rubber Co., Akron, Ohio, rubber packing for howitzers.

National Tube Co., Pittsburgh, Pa., and Summerill Tubing Co., Bridgeport, Pa., seamless steel tubing.

Hart & Cooley Co., New Britain, Conn., side-feed transfer presses.

Remington Arms Union Metallic Cartridge Co., Bridgeport, Conn., spare sparts for Browning machine gun.

The American Mills Co., Waterbury, Conn., olive-drab webbing.

A. C. Lawrence Leather Co., Boston, Mass., wool sheepskins.

Smith & Dove Manufacturing Co., Andover, Mass., shoe thread.

Imperial Drop Forge Co., Indianapolis, Ind., base-plug forgings.

Toronto Plate Glass Importing Co. (Ltd.), Toronto, Canada, adapter and booster casings.

Keeler Brass Co., Grand Rapids, Mich., field cleaning rods.

The Nash Motors Co., Kenosha, Wis., repair parts for Nash Quad ammunition trucks.

United States Steel Corporation, New York, N. Y., construction and operation of plant for manufacture of heavy cannon and projectiles, Neville Island, Pittsburgh, Pa.

Russel Motor Car Co., Toronto, Canada, machining shells.

Salyer Tool Works, Newark, N. J., inspection gauges.

LIST OF PURCHASE ORDERS AND CONTRACTS PLACED BY THE ORDNANCE DEPARTMENT OF THE U. S. ARMY

Chatham Machine & Tool Works, New York, N. Y., gauges for scroll gear.
St. Lawrence Bridge Co., Montreal, Canada, and Canadian Cement Co., Montreal, Canada, machining shells.
New Britain Machine Co., New Britain Co., adapters for antiaircraft shell.
Western Drop Forge Co., Marion, Ind., base-plug forgings.
Collier Cartridge Co., Lynn, Mass., chrome steel cores.
The Stanley Works, New York, N. Y., chest handles.
Economy Engineering Co., Baltimore, Md., tiering machines.
Blair Tool & Machine Works (Inc.), New York, N. Y., test tools.
Fred Carl, Washington, D. C., gauges.
Turner & Seymour Manufacturing Co., Torrington, Conn., center bar buckles.
Eberhard Manufacturing Co., Cleveland, Ohio, covert snap hooks.
Frazer & Jones Co., Syracuse, N. Y., barrel roller buckles.
Ford Motor Co., Detroit, Mich., set dies and tools.
Traut & Hine Manufacturing Co., New Britain, Conn., brass wire.
Clinton Saddlery Co., Clinton, Iowa, breast collars.
G. W. J. Murphy Co., Amesbury, Mass., gun sling loops.
American Cutlery Co., Chicago, Ill., and Landers, Frary & Clark, New Britain, Conn., knives.
Smith & Dore Manufacturing Co., Andover, Mass., shoe thread.
Blake & Johnson Co., Waterbury, Conn., brass buttons and washers.
Carr Fastener Co., Cambridge, Mass., buttons, sockets, eyelets, studs, washers.
Corbin Screw Corporation, New Britain, Conn., and National Screw & Tack Co., Cleveland, Ohio, brass wood screws.
O. B. North & Co., New Haven, Conn., center bar buckles.
North & Judd Manufacturing Co., New Britain, Conn., special tools for producing "D" rings.
The Phillip Carey Co., Lockland, Ohio, deadening felt for packing box for ammunition.
Detroit Copper & Brass Rolling Mills, Detroit, Mich., cartridge case disks.
Modern Explosives & Chemical Co., Emporium, Pa., ammonium nitrate.
Western Cartridge Co., East Alton, Ill., shotgun shells.
Blake & Johnson Co., Waterbury, Conn., brass buttons.
Plant Bros. & Co., Manchester, N. H., shoulder harness.
John W. Brown Manufacturing Co., Detroit, Mich., rifle periscopes.
Leatherwear Co. of America, New York, N. Y., leather reinforces for bolo scabbard.
Plant Bros. & Co., Manchester, N. H., magazine pockets.
Traut & Hine Manufacturing Co., New Britain, Conn., brown band ornaments.
Universal Rolling Co., Bridgeville, Pa., nickel manganese steel.
Braner Bros. Manufacturing Co., St. Louis, Braner Bros. Manufacturing Co., St. Louis, Mo., leather reinforces for bayonet scabbard.
Plant Bros. Manufacturing Co., Manchester, N. H., magazine belts for Chauchat rifle.
Tubular Rivet & Stud Co., Boston, Mass., tubular rivet machine.
Singer Sewing Machine Co., New York, N. Y., textile sewing machine with flat table, needles, and spare parts.
J. D. Randall Co., Cincinnati, Ohio, power creasing and splitting machines.
C. R. Wilson Body Co., Detroit, Mich., bombs.
Eiseman Magneto Co., Brooklyn, N. Y., magneto.

Nash Motors Co., Kenosha, Wis., steering knuckle arms.
Stearns & Foster Co., Cincinnati, Ohio, cotton pads for detonators.
E. I. du Pont de Nemours & Co., Wilmington, Del., grenade powder.
The Celluliod Co., Newark, N. J., celluloid chips.
Barrett Co., New York, N. Y., ammonia in the form of powder liquor.
Boston Blacking Co., Cambridge, Mass., black wax and brown stitching wax.
U. S. Machine Gun Co., Boston, Mass., shell extractors for machine guns.
Briggs Manufacturing Co., Detroit, Mich., truck tops for driver's seat.

L. S. Starrett Co., Athol, Mass., tools for 4-ton trailer.
International Agricultural Corporation, New York, N. Y., sulphuric acid.
H. Channon Co., Chicago, Ill., tools for artillery repair truck.
Insley Manufacturing Co., Indianapolis, Ind., light repair truck bodies.
McMyler Interstate Co., Bedford, Ohio, shell body forgings.
Fred Medart Manufacturing Co., St. Louis, Mo., breech sticks.
The White Co., Cleveland, Ohio, standard 1-ton truck chassis.
Yale & Towne Co., New York, N. Y., standard ordnance locks and chains.
T. A. Gillespie Co., Lowell, Mass., point detonating fuzes, including booster.
The Visigraph Manufacturing Co., New York, N. Y., inspection gauges.
National Tool & Manufacturing Co., St. Louis, Mo., gas check seat gauges.
War & Co., Washington, D. C., grease box for howitzer carriage.
Savage Arms Corporation, Utica, N. Y., spade grips for Lewis machine gun.
Ed. G. Budd Manufacturing Co., Philadelphia, Pa., ammunition chests.
J. H. Lane & Co., New York, N. Y., gray duck.

The Standard Tent & Awning Co., Toledo, Ohio, paulins for truck chassis.
Frankford Arsenal, Philadelphia, Pa., loading, assembling, and packing shrapnel.
Preston Machine Works, Brooklyn, N. Y., inspection gauges.
Wagner Electric Mfg. Co., St. Louis, Mo., motors and transformers.
Nicholson File Co., Providence, R. I., files.
General Electric Co., St. Louis, Mo., operating cams for airplane release mechanism.
Mauch Chunk Iron Works, Mauch Chunk, Pa., cleaning brushes.
Dayton Adding Machine Co., Dayton, Ohio, nose and tail clips.
The Richardson Paper Co., Lockland, Ohio, deadening felt and lining for cartridge boxes.
The Nash Motors Co., Kenosha, Wis., repair parts for Nash trucks.
St. Louis Wood Products Co., St. Louis, Mo., boxes for breech sticks and wire gauze patches.
New York Arsenal, Governors Island, N. Y., copper vise clamps.
General Electric Co., Dayton, Ohio, alternating cams and operating tubes for release mechanism.
Everly M. Davis, Chemical Corporation, New York, N. Y., picric acid.
F. P. May Hardware Co., Washington, D. C., rosin sheating paper.
The Linen Thread Co., New York, N. Y., gray lockstitch linen thread.
Yale & Towne Mfg. Co., Stamford, Conn., tongueless roller buckles.
The Linen Thread Co., New York, N. Y., standard linen shoe thread.
Wiley, Bickford & Sweet, Hartford, Conn.; Plant Bros. & Co., Manchester, N. H.; and Simmons Hardware Co., St. Louis, Mo., pack carriers.
Mount Vernon-Woodberry Mills (Inc.), New York, N. Y., grey duck.
American Chain Co., New York, N. Y., steel chains.

E. I. Du Pont de Nemours & Co., Wilmington, Del., detonators.
Scovill Manufacturing Co., Waterbury, Conn., field cleaning rods.
Stewart Manufacturing Co., Chicago, Ill., die cast knobs for cleaning rods.
Winchester Repeating Arms Co., New Haven, Conn., guns.
Allegheny Steel Co., Pittsburgh, Pa., and Federal Pressed Steel Co., Milwaukee, Wis., cartridge cases.
International Fabricating Co., New York, N. Y., gun cartridge cases.
Ansonia Manufacturing Co., Ansonia, Conn., trench mortar fuze.
Davis-Bournonville Co., Washington, D. C., cylinders, acetylene charged.
Potter Coal & Coke Co., Greensburg, Pa., foundry coke.
Hydraulic Pressed Steel Co., Cleveland, Ohio, shrapnel body forgings.
International Silver Co., Meriden, Conn., lead discs for shells.
Turner & Seymour Manufacturing Co., Torrington, Conn., gun-sling loops.
Amory, Brown & Co., Boston, Mass., canton flannel (unbleached).
Turner & Seymour Manufacturing Co., Torrington, Conn., bronze for rifle scabbard.

Traut & Hine Manufacturing Co., New Britain, Conn., guides for cartridge-belt suspenders.
Plant Bros. & Co., Newburyport, Mass., feed bags.
John Clark Saddlery Co., Portland, Oreg., artillery saddles.
P. J. Cronin Co., Portland, Oreg., artillery saddles.
J. M. & V. Weil, Chicago, Ill., sheepskins.
R. H. Long, Framingham, Mass., magazine belts for Chauchat rifle.
Du Pont Engineering Co., Wilmington, Del., diphenylamine.
John W. Brown Manufacturing Co., Columbus, Ohio, welded canteens.
Wellington, Sears & Co., Boston, Mass., olive-drab webbing.
Canvas Products Co., St. Louis, Mo., repair pockets for cartridge belt.
Turner & Seymour Manufacturing Co., Torrington, Conn., Conway loops.
Frazer & Jones Co., Syracuse, N. Y., roller buckles.
G. W. J. Murphy Co., Amesbury, Mass., bronze rings.
Kemper-Thomas Co., Cincinnati, Ohio, canvas watering buckets.
Cleveland Tanning Co., Cleveland, Ohio, russet strap and harness leather backs.
E. W. Mudge & Co., Pittsburgh, Pa., pig iron.
Riegel Sack Co., New York, N. Y., reinforcing rejected bandoleers.
Hale & Kilburn, Philadelphia, Pa., searchlight covers.
Stanley Works, New Britain, Conn. fuse sockets and holders.
F. S. Johnson Co., San Francisco, Cal., artillery saddles.
Semet-Solvay Co., Syracuse, N. Y., and Butterworth Judson Corporation, New York, N. Y., picric acid.

Grafton & Knight Manufacturing Co., Worcester, Mass., pistol holsters.
F. P. Catlin & Co., New York, N. Y., Tampa flannel, unbleached.
W. H. McMonies, Portland, Oreg., pistol holsters.
Westboro Trunk & Bag Co., Westboro, Mass., carrying cases for telescope and tripod.
Gutmann & Co., Chicago, Ill., russet bag leather.

Marshall Wells Co., Portland, Oreg., John Clark Saddlery Co., Portland, Oreg., and W. H. McMonies & Co., Portland, Oreg., gunslings.
The Art Work Shop, Buffalo, N. Y., canvas watering buckets.
Warren Leather Goods Co., Worcester, Mass., pistol holsters.
A. N. Edwards, Chicago, Ill., artillery saddles.

Follansbee Bros., Pittsburgh, Pa., black sheet steel for bacon cans.
Wellington, Sears & Co., Boston, Mass., gray duck.
Jewell Belting Co., Hartford, Conn., trench knife scabbards.
Citizens Gas Co., Indianapolis, Ind., toluol and ammonia.
General Petroleum Co., Los Angeles, Cal., erection of toluol plant.
Louis Bossert & Sons (Inc.), Brooklyn, N. Y., packing boxes.
Huttig Sash & Door Co., St. Louis, Mo., boxes.

National Vacuum & Machine Co., Dayton, Ohio, safety levers for release mechanism.
Champion Shoe Machinery Co., St. Louis, Mo., combination harness stitcher, with work table, spare parts and supplies.
Scoville Manufacturing Co., Waterbury, Conn., brass primer cups.
Jones & Laughlin Steel Co., Pittsburgh, Pa., cold drawn bessemer screw stock.
Dunlap & Co., Columbus, Ind., arm-repair chests.
National Vacuum & Machine Co., Dayton, Ohio, safety levers for release mechanism.

RED CROSS HOME SERVICE

Information for Soldiers' and Sailors' Families, Issued by Department of Civilian Relief.

Home Service Sections to Explain Changes in August Checks To Families.

It is highly essential that every soldier's and sailor's family should clearly understand the changes in the law and in the Government procedure which will affect the amount of the checks which they will receive from the Government after August 1.

Misunderstanding as to these changes and as to the reasons which impelled them would result in worry and dissatisfaction on the part of relatives of enlisted men which would react unfavorably upon the spirit of these men, here and abroad.

Home service sections of the Red Cross, because of their intimate contact with soldiers' and sailors' families in every quarter of this country, can render valuable service by explaining that there should be no cause for alarm if in August the Government check is temporarily delayed or is for a reduced amount, and by counseling these relatives to be patient while these changes, instituted for their ultimate benefit, are being effected. If the family of every man in the service whose case is affected by these changes should write to Washington for an explanation the flood of correspondence would cripple the governmental machinery, thereby unnecessarily delaying the issuance of the checks.

No Change to Class A Dependents of Men Getting $30 and Alloting $15.

If an enlisted man whose pay is $30 a month was allotting to his wife and children only the amount required by law there will be no change whatever in the checks which they have been receiving from the Government. The man must continue to allot $15 from his pay, and the Government will continue to allow $15 additional to the wife and the same amount as previously for each child.

Reduction in Compulsory Allotment For Men Getting Over $30.

The amount which every enlisted man is now required to allot to his wife and children, irrespective of the amount of pay which he is receiving, is $15. For each man getting over $30 this will be a reduction. If he wishes to continue to contribute to his wife and children the same amount as before, he may make a new allotment for the difference through the War Department or Navy Department. Thus, for example, if he had formerly allotted $18 to his wife and children, and wishes to continue to do so, he must make a new allotment of $3 through the War or Navy Departments, as the Bureau of War-Risk Insurance will in the future handle only the $15 compulsory allotment. Prompt notice of these facts has been sent to men in all branches of the military and naval service, but it will, of course, require some time for the new forms to be executed and returned to Washington.

Many men may decide that they do not wish to continue to allot as much as before. In such cases the Government can not compel them to keep up the former allotments, and the family may receive only the minimum compulsory allotment of $15 and the same Government allowance as before.

Reduction in Allotment Necessary to Secure Allowances to Class B.

Hereafter a man who has no wife or children need make an allotment of only $15 to obtain the Government allowance for his dependent parents, brothers, or sisters. If he has either a wife or child or children, or both, to whom, as the law requires, he is allotting $15, then he need allot only $5 additional in order to obtain the full allowance for his dependent parents, brothers, or sisters. Formerly in many cases he had to allot more. In each of these cases his parents, brothers, or sisters will now receive a smaller check from the Bureau of War-Risk Insurance because of the reduction in the allotment required. The amount of the Government allowance will be the same, but the allotment required from his pay will be less. If he desires to have the total continue as before, he must make an additional allotment through the War or Navy Departments. Thus, if a soldier was allotting $18 to his mother, after August 1 she will get $3 less through the Bureau of War-Risk Insurance, and if he wishes her to continue to get the same amount as before he must make a separate allotment of $3 through the office of the Quartermaster General. If he changes his mind and decides that $15 is enough, the Government can not compel him to allot more.

War Risk Bureau to Discontinue Allotments Which Do Not Carry Allowances.

In many cases men have made allotments to parents, brothers, or sisters through the War-Risk Insurance Bureau, but have not requested the Government allowance, either because these relatives were not dependent upon them and, therefore, not legally entitled to the allowance, or because although dependent the man did not understand that he could obtain the allowance for them by requesting it. In either case, the relatives will no longer receive the allotment through the Bureau of War-Risk Insurance. If the man wishes them to continue to get the allotment he must make a new application through the officer having his accounts, which will then be paid by the War or Navy Departments. If he decides that he does not care to do this, these relatives will cease to receive any payments whatever.

If such a relative should deem himself entitled to the Government allowance by reason of dependency, he can only secure it in the future by asking the man to discontinue his allotment through the Quartermaster General's office, for instance, and to make application to the Bureau of War-Risk Insurance stating that he wishes to make an allotment which will carry an allowance with it.

No Change in Allotments to Persons Not in Classes A and B.

Relatives or friends of enlisted men not included in Class A (wife, child, or former wife divorced who has not remarried and to whom alimony has been decreed), or in Class B (parent, brother, sister, or grandchild) to whom allotments have been made, will continue to receive them through the War Department or Navy Department as previously. Allotments to such persons were never handled by the Bureau of War-Risk Insurance and no change is contemplated in this regard.

War and Navy Department Offices Which Handle Allotments.

If a man desires to continue allotments which under the new plan can no longer be made through the Bureau of War Risk Insurance, he must make the allotment through the appropriate officer who has charge of his accounts and it will be paid through the following offices:

In the Army, through the "Office of the Quartermaster General of the United States Army, Washington, D. C."

In the Navy, through the "Navy allotment officer, Navy Department, Washington, D. C."

In the Marine Corps, through the "Paymaster, United States Marine Corps Headquarters, Washington, D. C."

In the Coast Guard, through the "Captain Commandant, United States Coast Guard, Washington, D. C."

Reasons for These Changes.

It is important that soldiers' and sailors' families understand that the changes outlined above were determined upon after careful study and with the approval of the War Department and Navy Department for the purpose of speeding up delivery of Government checks to the relatives of enlisted men.

Under the new plan the payment of allotment and allowances is simplified. The Bureau of War Risk Insurance will now handle allotments of only two amounts—$15 and $20. Formerly the allotment was on a sliding scale and had to be changed every time a man's pay was increased by promotion or otherwise. This required from 150,000 to 200,000 changes per month.

By transferring to the War and Navy Departments all allotments not carrying allowances the Bureau of War Risk Insurance can concentrate all its attention upon payments to persons entitled to the Government allowance, and it is believed that this simplification of the work will tend to speed up the delivery of checks to these persons.

Although the institution of these changes may cause temporary delay and concern to soldiers' families unless the

INQUIRIES ABOUT SOLDIERS THROUGH RED CROSS BUREAU

The American Red Cross authorizes the following:

Harvey D. Gibson, Red Cross commissioner to France, in a cable urges relatives of men with the Expeditionary Forces to make their inquiries through the Red Cross bureau of communication, Washington, D. C., instead of cabling or writing direct to agencies or individuals in Europe. As many as four separate requests about the same man have been received by as many institutions. This involves needless congestion of cables and wasteful duplication of effort. In most cases, moreover, such inquiries are turned over by others to the American Red Cross, which is charged with such communication with soldiers' relatives, and has developed special facilities for obtaining information about those reported killed, wounded, or missing, and those from whom letters have not been received.

Special Mail Facilities.

Commenting on this cablegram, Edward M. Day, acting director of the bureau of communication, said:

"As the American Red Cross has special mail and other means of handling such inquiries, relatives should get quicker replies through Washington than through agencies or individuals in Europe. When an inquiry reaches our Washington office our special searchers at once get from the Government here the latest official information. This frequently answers the question satisfactorily. Inquiries as to casualties are speeded abroad, where similar Red Cross agents gather data from headquarters and then visit the man in the hospital. In the case of those reported killed or missing, the Red Cross communication representative gathers every crumb of reliable information from the soldier's associates. All prisoner lists reach Washington by cable, and information is promptly transmitted to the family.

Function of the Bureau.

"The function of this bureau is to give relatives all possible information which will lessen anxiety. Every inquiry is handled with full realization that a prompt and full reply is of serious moment to the happiness, peace of mind, and not infrequently to the health of the relative. By writing to the bureau relatives frequently will get immediately information at hand and may be sure that search is started abroad as quickly as the case warrants."

ORDERED BEFORE BOARD.

Special Orders, No. 164:

180. By direction of the President, Brig. Gen. E. Eveleth Winslow, Engineer Corps, National Army (colonel, Corps of Engineers, Regular Army), will report in person to Brig. Gen. William H. Arthur, National Army, president of an Army retiring board at Washington, D. C., at such time as he may designate, for examination by the board.

Give up your luxuries that the Kaiser may be made to give up his ambitions.

EXECUTIVE ORDER.

In order to effect the more expeditious erection and completion of a new building for the Coast and Geodetic Survey, Department of Commerce, in which are to be located certain activities engaged on work in connection with war measures, making the completion of the building a national emergency, and by virtue of the provisions of the act of Congress approved March 4, 1917, entitled "An act making appropriations for the naval service for the fiscal year ending June 30, 1918, and for other purposes" (39 Stat., 1192), whereby, among other things, it is provided "That in case of national emergency the President is authorized to suspend provisions of law prohibiting more than eight hours' labor in any one day of persons engaged upon work covered by contracts with the United States: Provided further, That the wages of persons employed upon such contracts shall be computed on a basic day rate of eight hours' work, with overtime rates to be paid for at not less than time and one-half for all hours' work in excess of eight hours," I do hereby suspend the provisions of law prohibiting more than eight hours of labor in any one day by persons, firms, or corporations engaged in the erection and completion of the above-mentioned building. This order will take effect from and after this date.

WOODROW WILSON.

THE WHITE HOUSE,
July 3, 1918.

JAPANESE SPINNING COMPANIES AGREE TO RESTRICT PRODUCTS

Consul General George H. Scidmore, Yokohama, reports as follows:

The Japanese spinning companies are bound by an agreement to restrict operations at the mills by 10 per cent from the beginning of the year to June, and, according to the Japan Chronicle, a proposal has recently been made to continue the agreement to the end of the year, the avowed reason being the necessity of conserving the stocks of raw cotton in view of the difficulty of getting imports.

Spinning companies turning out yarn of under 21 counts, or those which are chiefly consuming Indian cotton, have agreed to the proposal, but those which are the consumers of American cotton have objected on the ground that there is no need to restrict the consumption of cotton.

To reach a final decision on the matter the Japan Spinning Association held a meeting at the Osaka Hotel on May 27, when it was decided to carry out the proposal, excluding those companies that are producing yarn of over 21 counts. At present the total number of spindles in this country is about 3,000,000, of which 1,200,000 belong to the companies to be excluded from the agreement for the restriction of operations. — Commerce Reports.

DIFFERENTIALS ON BASIC HIDE PRICES IN EFFECT AUG. 1

(Continued from page 12.)

25. China:
    - Winter season, trimmed and shaved firsts, 35 cents, per pound, cost and freight, New York.
    - Winter season, trimmed and shaved seconds, 32 cents per pound, cost and freight, New York.
    - Winter season, arsenicated, firsts, 22½ cents per pound, cost and freight, New York.
    - Winter season, arsenicated, seconds, 18½ cents per pound, cost and freight, New York.
    - Dry salted, firsts, 17 cents per pound, cost and freight, New York.
    - Dry salted, seconds, 13 cents per pound, cost and freight, New York.
    - Hongkong, trimmed and shaved, firsts, 31 cents per pound, cost and freight, New York.
    - Hongkong, trimmed and shaved, seconds, 29 cents per pound, cost and freight, New York.
    - Hongkong, dry arsenicated, firsts, 17 cents per pound, cost and freight, New York.
    - Hongkong, dry arsenicated, seconds, 13 cents per pound, cost and freight, New York.
    - Hongkong, dry salted, firsts, 14 cents per pound, cost and freight, New York.
    - Hongkong, dry salted, seconds, 10 cents per pound, cost and freight, New York.
26. Sumatra:
    - Shaved and trimmed, first, 33 cents per pound, cost and freight, New York.
    - Shaved and trimmed, seconds, 30 cents per pound, cost and freight, New York.
    - Shaved and untrimmed, firsts, 31 cents per pound, cost and freight, New York.
    - Shaved and untrimmed, seconds, 28 cents per pound, cost and freight, New York.
27. Macassar:
    - Shaved and trimmed, firsts, 31 cents per pound, cost and freight, New York.
    - Shaved and trimmed, seconds, 28 cents per pound, cost and freight, New York.
    - Unshaved, dry, 20 cents per pound, cost and freight, New York.
28. Egypt, dry, 16 cents per pound, cost and freight, New York.

DOMESTIC PICKLED SHEEP AND LAMB SKINS.

All pickled skins to be graded according to the following specification:

Grades will be identified by numbers.

The schedule below is for all green-salted packer and city butcher skins of strictly good take-off. All green-salted country butcher and city butcher skins showing poor take-off shall be selected on the same basis, but the price shall be 3 cents per square foot less than price paid for the various grades of strictly good packer and city butcher take-off.

Grade.	Description.	Price.
		Cents.
No. 1	Bull sheep: Super heavy, measuring over 120 square feet and weighing 45 pounds and over, per dozen	1[illegible]
No. 2	Heavy sheep: Heavy clear sheep, measuring over 110 square feet, per dozen	[illegible]
No. 3	Clear sheep: Sheep with clear, smooth and sound grain, measuring over 100 square feet, containing no blind ribs, no ribby skins, and free from cockle	[illegible]
No. 4	Blind rib sheep: All sheepskins measuring over 100 square feet having a blind rib. No ribby skins or defective grain	[illegible]
No. 5	Ribby sheep: All other ribby sheep measuring over 75 square feet; no defective grain	[illegible]
No. 6	No. 2 sheep: All sheep measuring over 100 feet rejected from 1, 2, 3, 4, and 5 grades, with poor and defective grain, value but not to exceed	[illegible]
No. 7	Prime lambs: All smooth, clear, lambs, 65 to 100 square feet, inclusive, strictly good pattern; no blind rib or ribby skins; no open grain skins; no torn skins; absolutely free from cockle and pinny skins	[illegible]
No. 8	Blind rib lambs: All lambs containing a blind rib, strictly good pattern; no ribby skins and no damaged grain; no torn skins and no cockle; 75 to 100 square feet	[illegible]
No. 9	Ribby lambs: Lambskins showing ribby or open grain, cockle skins and pin holes up to 75 square feet	[illegible]
No. 10	Small lambs: All lambskins 50 to 64 square feet, rejected from Nos. 7, 8, and 9 on account of size	Value.
No. 11	Torn skins: All torn skins or badly cut skins over 50 feet; all heated skins	Value.
No. 12	Pieces and culls: All pieces and culls, and torn skins under 50 feet; all heated skins	Value.

AMERICAN RED CROSS GIVES SWISS RED CROSS $125,000

The Red Cross issues the following:

The war council of the American Red Cross has appropriated the sum of $125,000 as a contribution to the Swiss Red Cross for activities incident to the war. This gift was prompted by the humane and effective work which the Swiss Red Cross has been doing since the outbreak of the European war, and the services it has been performing in behalf of allied troops, both interned and prisoners.

Approved by Mr. Taylor.

A recent cablegram from Carl Taylor, temporary representative of the American Red Cross in Switzerland, stated that no more effective and acceptable way to give aid to the Swiss people could be found than through a substantial gift to the Swiss Red Cross. Relief funds raised to date in Switzerland amounts to less than 2,000,000 francs, and collection has been difficult owing to the tremendous burdens entailed by the war upon the people. One of the principal desires of the Swiss Red Cross is to establish a Red Cross hospital for its own [illegible] soldiers.

The money donated by the American Red Cross, it is understood, will be used for relief work among the people and soldiers of Switzerland, and for the relief of allied troops and civilians in transit from Germany and Austria.

The Red Cross idea had its birthplace in Switzerland, but there are substantial reasons, in addition to the sentimental ones, for extending aid to the Swiss society as above indicated.

Sacrifices by Swiss Doctors.

In rendering service during the present war, Swiss doctors have made heavy personal sacrifices in going to Germany and Austria to pass upon allied prisoners for repatriation, and may be called upon to render similar service for American prisoners. The continued mobilization of the Swiss Army for the purpose of preserving neutrality has placed exceedingly heavy burdens upon the population. Thousands of allied nationals are being cared for by the Swiss people.

APPOINTMENTS OF ARCHITECTS.

Department of Labor Names Additional Firms for Housing Projects.

The Department of Labor announces additional appointments of architects in connection with its housing projects, as follows:

Murphy and Dana, 331 Madison Avenue, New York City, architects for project at Waterbury, Conn.

Trowbridge and Livingston, 527 Fifth Avenue, New York City, architects for project at New Brunswick, N. J.

Clarke & Howe, Turks Head Building, Providence, R. I., as architects for the [illegible] project [illegible]; and

[illegible] Washington, 1211 Connecticut Avenue, Washington, D. C., as architects for [illegible] at Washington Navy Yard.

[illegible] at the United States [illegible] groups.

Noteworthy Activities by State Defense Councils

The Council of National Defense, State councils section, issues the following concerning noteworthy activities undertaken by State councils:

Illinois.—The State council's publicity campaign is reaching an immense number of citizens with valuable instruction in food production and conservation. Its garden primers have been distributed to the extent of 100,000 copies. It has sold 150,000 recipe books, held 200 food shows in various parts of the State, and printed a report describing its food show plan. It has also held 85 meetings in the interest of gardening.

Tennessee.—Now that the Red Cross director for Tennessee has accepted an office in the State council headquarters at the capitol, all the war administrators are gathered together under one roof. The staff comprises 40 people.

Wisconsin.—The county councils are well provided with funds. They have received total appropriations amounting to well over $200,000, most of which has been granted by county governments. In many cases they have received funds from cities or town boards and in one or two instances from private subscription.

Colorado.—The State council has appropriated $250 a month for a campaign of education to be carried on by the committee on Americanization, matching a like sum contributed by the University of Colorado.

West Virginia.—Ninety-nine per cent of the retail merchants in West Virginia are giving their willing assistance to the one-delivery-a-day plan. The few slackers who do not comply will be dealt with by the State council.

Georgia.—The Crisp county council, through the medium of the public schools, has organized an active patriotic club. The council has interested the teachers and is assisting them to arrange evening debates among the school children.

Oklahoma.—As a step toward preventing the killing of live stock on railway tracks, the State council has appointed 200 special agents to oversee grade crossings.

Maine.—The war conference will bring together the committee on public safety, the Red Cross, the food production organization, the food administration, the woman's division, and the four-minute men. The fuel administration, the Liberty loan and thrift stamp organizations, and the various chambers of commerce are also expected to participate, and clergymen and the State committees of the leading political parties have been invited.

Tennessee.—A series of war conferences is being held at central points. The programs, which follow the plan of the State war conferences, are being carried out with enthusiasm. One of these meetings brought together 3,000 people. All the able speakers of the State of whatever profession are being enlisted in the service of the councils of defense.

Maryland.—The community representatives have been enlisted by the State council to assist in the enforcement of the compulsory labor law. Over 100 cases have been reported for investigation since the 1st of April. Of the idlers previously reported, the great majority found employment. Less than 10 per cent were finally convicted of vagrancy.

West Virginia.—The compulsory labor law, compelling every able-bodied male citizen between the ages of 16 and 60 to engage regularly at least 36 hours per week in some lawful occupation, has been sustained by the West Virginia Supreme Court of Appeals. As interpreted by the attorney general, it applies to the idle rich as well as the idle poor.

PORTION OF DIXIE NATIONAL FOREST RESTORED TO ENTRY

The Interior Department authorizes the following:

Upon the recommendation of Secretary of the Interior Lane, and Secretary of Agriculture Houston, the President has signed a proclamation excluding from the Dixie National Forest in southeastern Nevada and southwestern Utah, approximately 228,017 acres, and restoring the public lands within such area subject to disposition to homestead entry in advance of settlement, and adding a small area thereto. The lands restored thereunder will become subject to entry only under the homestead laws requiring residence at and after 9 o'clock a. m. August 21, 1918, and to settlement and other forms of disposition on and after August 28, 1918.

There will be restored under this proclamation about 226,379 acres in Nevada, and 713 acres in Utah, chiefly surveyed, arid and generally grazing lands, with sagebrush, juniper, and pinon cover.

For detailed information concerning these lands communications should be addressed to the United States land offices at Carson City for the Nevada lands, and at Salt Lake City for the Utah lands.

PRICES OF ANTHRACITE COAL MINED IN STATE OF VIRGINIA

The United States Fuel Administration issues the following:

The United States Fuel Administrator acting under the authority of an Executive Order of the President of the United States dated August 23, 1917, appointing said fuel administrator, and of subsequent Executive Orders and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that anthracite coal mined in the State of Virginia may be sold at prices f. o. b. cars at the mine not to exceed $5.40 per net ton for egg, $5.75 per net ton for stove, $5.75 per net ton for nut, $4.60 per net ton for pea, $1.55 per net ton for buckwheat, 90 cents per net ton for culm, $5.30 per net ton for briquettes.

And hereby further orders and directs that the above prices shall be subject to a summer reduction of 30 cents per net ton from April 1 to August 31, inclusive.

This order to become effective at 7 a. m., July 22, 1918.

H. A. Garfield,
United States Fuel Administrator.

THE SERIOUS AND DIVERSIFIED DUTIES DEVOLVING UPON THE U. S. NAVY NURSE

The Committee on Public Information issues the following:

The romantic young girl, untrained but thrilled with the desire for Government hospital service, has learned that smiles and a sweet disposition alone are not so necessary to the conservation of the lives of "our boys" as a sound knowledge of asepsis, the ability to recognize symptoms, and an understanding of dietetics, according to Mrs. L. S. Higbee, chief of the Navy Nurse Corps at Washington. A sick man must be kept happy, she says, but there is no happiness greater in illness than the security of expert care.

Must be Practical Nurse.

"A girl may have flickering dimples in her cheeks and the features of a movie queen; she may be able to fluff up a pillow or write home to a man's family, but she must also know how to dress his wounds, causing the minimum of pain, and must know how to move a fractured limb without wrenching the newly set bones apart," is the statement of the Navy nurse.

"It is common knowledge to-day that the regulations for the appointment or enrollment of reserve nurses in the Navy have been considerably relaxed to meet the emergency demand for thousands of nurses. Only graduates of high schools and training schools attached to hospitals numbering more than 100 beds are eligible for the Regular Navy Nurse Corps. The bars have been let down enough to admit graduates of smaller institutions and the educational restriction has been removed for the reserves, but registration is retained in the requirments.

"One might consider that the sick sailor is the sole responsibility of the member of the Navy Nurse Corps. No indeed; her work is limitless. She must be prepared to 'mother' the sick little native urchins on the tropical islands of the Pacific Ocean and also to 'mother' the parents, who are nothing more than children of larger stature. She must be a trained executive, able to instruct the sailors assigned to the Navy Hospital Corps. Inexhaustible patience and tact are the priceless possessions of a teacher. The Navy nurse cooperates with the doctors in transforming the sailor boy into a hospital attendant. Though her capable fingers may itch to finish the task which the new student bungles with his amateurish inexpertness, she must stand by with only kindly suggestion.

"Wherever the United States, through the medium of the Navy, is managing the affairs of a people the Navy nurse must establish herself. Her relation to the community is that of a social service worker."

The nurse must be a baby welfare expert. She usually plays a very important part in the native fair by setting up miniature hospital exhibits in a tent, competing with the interest of the fakirs and ballyhoos. Native nurses alternate in explaining to the public modern methods of fighting germs.

Because of this high standard required of the Navy nurse one member of the staff of the United States Naval Hospital in Guam is assigned to the faculty of the local normal school. There she teaches teachers the principles of public health.

Instructions to Postmasters Regarding Savings Certificates Interest Payments

The postoffice department authorizes the following:

OFFICE OF THIRD ASS'T P. M. GEN.,
WASHINGTON, *July 20, 1918.*

To Postmasters at Postal-Savings Depository Offices:

In connection with the new regulations for vouchering interest payments on postal-savings certificates appearing in the Postal Bulletin of July 3, you are advised that a supply of the new form referred to therein (Abstract of Interest Payments—Form PS 709) and a supply of rubber stamps for use in taking interest receipts on the back of surrendered certificates, will be sent to first and second class offices for use beginning with August business. Offices of the third and fourth class should apply to the Fourth Assistant Postmaster General, Division of Equipment and Supplies, for such blank forms and stamps as may be required.

Indorsement by Depositor.

On and after August 1, when a certificate is surrendered for payment and no interest is due thereon, the depositor should simply indorse the certificate as at present.

When a certificate on which accrued interest is due is surrendered for payment an impression of the rubber stamp furnished by the department should be made on the back of the certificate so that the upper line of the stamp will be above the word "Indorsement" and the lower line below; the amount of interest due on the certificate should be inserted in plain figures in the receipt in the space provided therefor, and the depositor should then be requested to sign on the dotted line below the receipt form, after it is explained to him that the receipt which he is asked to sign covers both the principal of the certificate and the accrued interest due thereon. If at any time a rubber stamp is not available the form of receipt prescribed in the regulations should be written.

Claiming of Interest Alone.

When accrued interest alone is claimed by a depositor the present practice of vouchering interest payments should be followed; that is to say, the depositor should not be asked to either indorse or sign a receipt on the back of the certificate, but an interest receipt (Form PS 608) should be prepared and signed by him for the interest due.

The use of the new Abstract of Interest Paid (Form PS 709) should begin with the preparation of the August reports, in strict conformity with the instructions printed at the foot of the form. A separate abstract will be prepared for each branch and station of your office that is a postal-savings depository.

A. M. DOCKERY,
Third Assistant Postmaster General.

PRODUCTION OF BRISTOL TYPE OF AIRPLANES DISCONTINUED

The War Department authorizes the following statement from the Bureau of Aircraft Production:

Last year it was decided, when a demand for two-seated fighters was great, to put into production at the Curtiss Co. an adaptation of the Bristol fighter, an English battle plane, fitted to a 12-cylinder Liberty motor. Recent flying tests have demonstrated that this machine is overpowered and not of military value, lacking maneuverability and not having sufficient speed for war purposes. Inasmuch as the De Haviland 4 is in production and meets the requirements and can be produced as fast as engines can be supplied, so that there will be no decrease in the number of planes going overseas, the Bureau of Aircraft Production is compelled to take the position that the country will be best served by discontinuing Bristol production. Every effort is being made to quickly put into production at the Curtiss Co. the S E 5 and the Caproni. Both planes are well known and are not experimental in any way. The Bureau of Aircraft Production hopes to be able in the near future to reemploy the people who will of necessity have to be laid off under this order.

Of the outlay on Bristol fighters thus far produced or in process of production a considerable percentage can be salvaged. The exact expenditure on this experiment is now being calculated.

FUEL DISTRIBUTOR NAMED.

B. P. Phillippe With Central Advisory Purchasing Committee.

The United States Railroad Administration authorizes the following:

CIRCULAR No. 2.

Effective June 11, 1918, Mr. B. P. Phillippe is appointed fuel distributor of the Central Advisory Purchasing Committee, with headquarters at room 614, Interstate Commerce Building, Washington, D. C.

H. B. SPENCER,
Chairman Central Advisory Purchasing Committee.

Approved:

JOHN SKELTON WILLIAMS,
Director, Division of Finance and Purchases.

ORDERED TO CAMP DEVENS.

Special orders No. 166:

234. Capt. Robert G. Loring, Medical Reserve Corps, is assigned to active duty, to take effect at such time as will enable him to comply with this order, and will proceed to Ayer, Mass., and report in person to the commanding general, Camp Devens, that place, on or about July 25, 1918, for temporary duty in the base hospital.

CHANGE MADE IN BOUNDARIES OF BIG LAKE BIRD RESERVATION

SECOND EXECUTIVE ORDER.

It is hereby ordered that the boundaries of the Big Lake Reservation, in Arkansas, for the protection of native birds, created by Executive Order No. 2230, dated August 2, 1915, be, and the same are hereby, modified so as to include [illegible] the reservation lots numbered 4 and 5, in section 33, township 16 north, range 9, and lots 3 and 7, in section 17, township 15 north, range 9, all east of the fifth principal meridian. The reservation thus reduced in area will embrace the following lands, namely: Lots 3, 4, 9, and 10 of section 2; lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, and 11 of section 3; lots 1, 2, 3, and 8 of section 10, all in township 14 north, range 9 east; lot 4, section 3; lots 1, 2, 5, 6, 7, 8, 9, 10, 13, and 14, section 4; lots 1, 2, 3, 4, 5, 6, 7, and 8, section 9; lots 1, 2, and 3, section 10; lots 1, 2, 3, 4, 5, and 6, section 14; lots 1, 2, 3, 4, 5, 6, 7, 8, and 9, section 15; lots 1, 2, and 3, section 16; lots 1, 2, 3, and 4, section 21; lots 1, 2, 3, and 4, section 22; lots 1, 2, 3, 4, 5, and 6, section 23; lots 1, 2, 3, 4, and 5, section 26; lots 1, 2, 3, 4, and 5, section 27; lots 1, 2, 3, 4, and 5, section 28; lots 1, 2, 3, 4, and 5, section 33; lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, and 11, section 34; lots 1, 2, 3, 4, 5, 6, and 7, section 35, all in township 15 north, range 9 east; lot 2, section 21; lots 2, 3, 4, and 5, section 22; lots 1, 2, 3, 4, 5, and 6, section 27; lots 1, 2, 3, and 4, section 28; lots 1, 3, 6, and 7, section 33, and lots 1, 2, and 3, section 34, all in township 16 north, range 9 east, as the same appear upon the official plats of survey on file in the General Land Office, together with Little River and all of its enlargements, including Big Lake and all of the islands in these waters.

The Big Lake Reservation hereby reduced in area embraces the lands segregated by the broken line shown upon the diagram hereto attached and made a part of this order. The shaded portions show the lands eliminated.

It is unlawful for any person to hunt, trap, capture, willfully disturb, or kill any bird of any kind whatever, or take the eggs of such birds within the limits of this reservation, except under such rules and regulations as may be prescribed by the Secretary of Agriculture. Warning is expressly given to all persons not to commit any of the acts herein enumerated under the penalties of section 84, United States Criminal Code, approved March 4, 1909 (35 Stat., 1088).

WOODROW WILSON.

THE WHITE HOUSE,
May 31, 1918.

MAXIMUM SHELLED CORN LOADS.

Freight Cars May Be Filled to Within 18 Inches of Eaves.

The Department of Agriculture issues the following:

Shelled corn subject to inspection under the United States grain standards act may have a maximum loading in freight cars which leaves only 18 inches between the top of the grain and the eaves of the car.

This ruling, arrived at by agreement between the Railroad Administration and the Bureau of Markets of the United States Department of Agriculture, supersedes the prewar instructions of the department that in loading shelled corn there should be 30 inches between the top of the corn and the top of the car.

The new ruling will make it possible for the shipper to comply with the rule in respect to leaving space for inspection samples and at the same time to meet the desires of the Railroad Administration as to the maximum use of cars.

EXECUTIVE ORDER.

(Order of Withdrawal.)

With the consent of the government of the Territory of Hawaii, it is hereby ordered that the following-described tract of land situated in Kaakaukukui, Kakaako District, Honolulu, Island of Oahu, Territory of Hawaii, be, and the same is hereby, withdrawn and set aside for military purposes:

Beginning at the east corner of the said tract, the said point of beginning being by true azimuth and distance 52° 23′ 318.9 feet from a copper pin set in concrete monument, on the southwest side of Ala Moana, and on the north line of the Kawaia-hao Ditch, the coordinates of said monument referred to Government Survey Trig. Station "Battery" being 753.0 feet south and 384.7 feet east, as shown on Government Survey Registered Map No. 1587, and running by true azimuths:

52° 23′ 377.5 feet along land owned by B. P. Bishop estate to a concrete monument; thence

120° 00′ 205.4 feet along Fort Armstrong Military Reservation to a concrete monument; thence

232° 23′ 425.0 feet along said military reservation to a point; thence

322° 23′ 199.8 feet along lands of the Territory of Hawaii to the point of beginning.

Containing an area of 80,170 square feet.

WOODROW WILSON.

THE WHITE HOUSE,
July 2, 1918.

EXECUTIVE ORDER.

In order to effect the more expeditious completion of the repairs for the quarantine station, Reedy Island, Del., the early completion of which, in connection with war activities, constitutes a national emergency, and by virtue of the provisions of the act of Congress approved March 4, 1917 (39 Stat., 1192), entitled "An act making provisions for the naval service for the fiscal year ending June 30, 1918, and for other purposes," whereby it is provided "that in cases of national emergency the President is authorized to suspend provisions of law prohibiting more than eight hours labor in any one day of persons engaged upon work covered by contracts with the United States; provided further, that the wages of persons employed upon such contracts shall be computed on a basic day rate of eight hours' work, with overtime rates to be paid for at not less than time and one-half for all hours' work in excess of eight hours," I do hereby suspend the provisions of law prohibiting more than eight hours of labor in any one day by persons engaged in the repairs at said station. This order will take effect from and after this date.

WOODROW WILSON.

THE WHITE HOUSE,
June 12, 1918.

CULTIVATION OF PUBLIC LAND IN THE TERRITORY OF HAWAII

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA—A PROCLAMATION.

"Whereas, by reason of the existence of a state of war it is essential to the national security and defense, for the successful prosecution of the war, and for the support and maintenance of the Army and Navy, to secure an adequate supply of sugar and other food products in the United States, including the Territory of Hawaii;

"Now therefore, I, Woodrow Wilson, President of the United States, by virtue of the powers conferred upon me by law, do hereby find and determine, and by this proclamation do announce that it is essential in order to secure such adequate food supply to continue to the fullest extent possible the cultivation of all public lands in the Territory of Hawaii now under cultivation in sugar or other food products; and for the purpose of continuing such cultivation and of maintaining the production of all such food products the Commissioner of Public Lands of the Territory of Hawaii, with the approval of the governor, is hereby authorized and empowered to enter into all necessary contracts with the lessees of any of said Government lands, the leases of which have expired or which, while this proclamation is in force, will expire, or with any other person, firm, or corporation for the continued cultivation of said lands, until such time as the same shall be occupied and cultivated by homesteaders.

"And to further effectuate the purpose of this proclamation, the said commissioner, with the approval of the governor, may require of all such homesteaders at the time of entering into their special homestead agreements a contract which may be incorporated into such special homestead agreement to continue the cultivation of their homesteads and to reimburse any person or corporation who or which shall have done any cultivation or other work on said land, with the approval of the commissioner and governor, for the conservation of the crop thereon, to the amount of the actual cost of such work."

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

Done in the District of Columbia this 24th day of June, in the year of our Lord one thousand nine hundred and eighteen, and of the independence of the United States the one hundred and forty-second.

[SEAL.] WOODROW WILSON.

By the President:
ROBERT LANSING,
Secretary of State.

ASSIGNED TO ACTIVE DUTY.

Special orders No. 166:

233. Maj. Simon P. Kramer, Medical Reserve Corps, is assigned to active duty, to take effect at such time as will enable him to comply with this order, and will proceed to Fort Oglethorpe, Ga., and report in person to the commandant, medical officers' training camp, Camp Greenleaf, [illegible] on or about July 29, 1918, for duty.

Business as usual now may mean no business later.

ACT TO PREVENT IN THE TIME OF WAR ENTRY IN OR DEPARTURE FROM U. S.

PUBLIC—No. 154—65TH CONGRESS.

H. R. 10264.

An act to prevent in time of war departure from or entry into the United States contrary to the public safety.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That when the United States is at war, if the President shall find that the public safety requires that restrictions and prohibitions in addition to those provided otherwise than by this act be imposed upon the departure of persons from and their entry into the United States, and shall make public proclamation thereof, it shall, until otherwise ordered by the President or Congress, be unlawful—

(*a*) For any alien to depart from or enter or attempt to depart from or enter the United States except under such reasonable rules, regulations, and orders, and subject to such limitations and exceptions as the President shall prescribe;

(*b*) For any person to transport or attempt to transport from or into the United States another person with knowledge or reasonable cause to believe that the departure or entry of such other person is forbidden by this act;

(*c*) For any person knowingly to make any false statement in an application for permission to depart from or enter the United States with intent to induce or secure the granting of such permission either for himself or for another;

(*d*) For any person knowingly to furnish or attempt to furnish or assist in furnishing to another a permit or evidence of permission to depart or enter not issued and designed for such other person's use;

(*e*) For any person knowingly to use or attempt to use any permit or evidence of permission to depart or enter not issued and designed for his use;

(*f*) For any person to forge, counterfeit, mutilate, or alter, or cause or procure to be forged, counterfeited, mutilated, or altered, any permit or evidence of permission to depart from or enter the United States;

(*g*) For any person knowingly to use or attempt to use or furnish to another for use any false, forged, counterfeited, mutilated, or altered permit, or evidence of permission, or any permit or evidence of permission which, though originally valid, has become or been made void or invalid.

SEC. 2. That after such proclamation as is provided for by the preceding section has been made and published and while said proclamation is in force, it shall, except as otherwise provided by the President, and subject to such limitations and exceptions as the President may authorize and prescribe, be unlawful for any citizen of the United States to depart from or enter or attempt to depart from or enter the United States unless he bears a valid passport.

SEC. 3. That any person who shall willfully violate any of the provisions of this act, or of any order or proclamation of the President promulgated, or of any permit, rule, or regulation issued thereunder, shall, upon conviction, be fined not more than $10,000, or, if a natural person, imprisoned for not more than twenty years, or both; and the officer, director, or agent of any corporation who knowingly participates in such violation shall be punished by like fine or imprisonment, or both; and any vehicle or any vessel, together with its or her appurtenances, equipment, tackle, apparel, and furniture, concerned in any such violation, shall be forfeited to the United States.

SEC. 4. That the term "United States" as used in this act includes the Canal Zone and all territory and waters, continental or insular, subject to the jurisdiction of the United States.

The word "person" as used herein shall be deemed to mean any individual, partnership, association, company, or other unincorporated body of individuals, or corporation, or body politic.

Approved, May 22, 1918.

MAJ. MILLER ASSIGNED.

Special Orders, No. 164:

118. Maj. Lorimer D. Miller, Engineers, National Army, now on duty at the general Engineer depot, Washington, D. C., will report to the Chief of Staff for assignment to duty in the purchase and supply branch, purchase, storage, and traffic division, General Staff.

Text of the Act Authorizing President to Coordinate or Consolidate Bureaus

[PUBLIC—No. 152—65TH CONGRESS.]

[S. 3771.]

An Act Authorizing the President to coordinate or consolidate executive bureaus, agencies, and offices, and for other purposes, in the interest of economy and the more efficient concentration of the Government.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That for the national security and defense, for the successful prosecution of the war, for the support and maintenance of the Army and Navy, for the better utilization of resources and industries, and for the more effective exercise and more efficient administration by the President of his powers as Commander in Chief of the land and naval forces the President is hereby authorized to make such redistribution of functons among executive agencies as he may deem necessary, including any functions, duties, and powers hitherto by law conferred upon any executive department, commission, bureau, agency, office, or officer, in such manner as in his judgment shall seem best fitted to carry out the purposes of this Act, and to this end is authorized to make such regulations and to issue such orders as he may deem necessary, which regulations and orders shall be in writing and shall be filed with the head of the department affected and constitute a public record: *Provided,* That this Act shall remain in force during the continuance of the present war and for six months after the termination of the war by the proclamation of the treaty of peace, or at such earlier time as the President may designate: *Provided further,* That the termination of this Act shall not affect any act done or any right or obligation accruing or accrued pursuant to this Act and during the time that this Act is in force: *Provided further,* That the authority by this Act granted shall be exercised only in matters relating to the conduct of the present war.

Establishment of Executive Agency.

SEC. 2. That in carrying out the purposes of this Act the President is authorized to utilize, coordinate, or consolidate any executive or administrative commissions, bureaus, agencies, offices, or officers now existing by law, to transfer any duties or powers from one existing department, commission, bureau, agency, office, or officer to another, to transfer the personnel thereof or any part of it either by detail or assignment, together with the whole or any part of the records and public property belonging thereto.

SEC. 3. That the President is further authorized to establish an executive agency which may exercise such jurisdiction and control over the production of aeroplanes, aeroplane engines, and aircraft equipment as in his judgment may be advantageous; and, further, to transfer to such agency, for its use, all or any moneys heretofore appropriated for the production of aeroplanes, aeroplane engines, and aircraft equipment.

SEC. 4. That for the purpose of carrying out the provisions of this Act, any moneys heretofore and hereafter appropriated for the use of any executive department, commission, bureau, agency, office, or officer shall be expended only for the purposes for which it was appropriated under the direction of such other agency as may be directed by the President hereunder to perform and execute said function.

Reports to Congress.

SEC. 5. That should the President, in redistributing the functions among the executive agencies as provided in this Act, conclude that any bureau should be abolished and it or their duties and functions conferred upon some other department or bureau or eliminated entirely, he shall report his conclusions to Congress with such recommendations as he may deem proper.

SEC. 6. That all laws or parts of laws conflicting with the provisions of this Act are to the extent of such conflict suspended while this Act is in force.

Upon the termination of this Act all executive or administrative agencies, departments, commissions, bureaus, offices, or officers shall exercise the same functions, duties, and powers as heretofore or as hereafter by law may be provided, any authorization of the President under this Act to the contrary notwithstanding.

Approved, May 20, 1918.

Medals and Badges of American Red Cross

The Committee on Public Information, issues the following:

The American Red Cross has issued from headquarters instructions concerning Red Cross medals and badges. The official medal in silver, bronze, or gold, has been formally adopted by the Red Cross and may be awarded to such persons as give important volunteer service. The president of the corporation will bestow this in the name of the Red Cross.

Three Standard Badges.

There are three standard badges—the enrolled Red Cross nurse badge, the enrolled Red Cross dietitian badge, and the membership badge. Bars denoting the class of service may be placed above any of these three standard badges. For instance, the insignia for home defense nurses shall be a white enamel bar bearing the words "home defense nurse," and shall be used in connection with a standard membership badge. The life-saving corps has a similar bar with the words "life-saving corps." Red Cross physicians, surgeons, and other Red Cross medical practitioners may wear a white enamel bar above the standard membership badge, with the words "medical service."

Field Service Badge.

Field service in the war zone or in the military camps in the United States or specially meritorious service in the civil areas in times of disaster will be recognized by a bronze bar bearing appropriate words and placed below the standard badge. First-aid contest awards will have a similar bar below the membership badge. The life-saving corps has a silver alloy bar.

General Service Insignia.

General service with the Red Cross will be recognized by a service bar which will be worn independently or below a standard membership badge. It is authorized for award to all classes of Red Cross workers at national headquarters, at division headquarters, or at chapters, branches, or auxiliaries, both volunteer and paid, and including officers, clerks, and those engaged in chapter or division workrooms. This bar is of white enamel, bears a red Greek cross in the center, and is given after four months of service comprising not less than 200 hours. On completion of the next period of service this bar may be exchanged for similar bar with a tiny star at each end. Bars may be exchanged as the period of service grows, so that each star awarded indicates not less than 800 hours' work and a five-star bar indicates not less than 4,000 hours' work. Service periods will be counted from January 1, 1918.

PROMOTED TO BE CAPTAINS.

Special Orders, No. 146:

120. The appointment of the following-named officers in the Dental Reserve Corps, with rank from June 7, 1918, is announced:

To be captains: First Lieuts. Robert Alfred Adkins, James Harvey Johnson, Matthew Andrew Boykin, Frampton Wyman Farmer, John Harrison Davis, Edward Marvin Atkinson, Harry Brumfield Laird, Neal D. Williams, William Dean Rush, Elliott Husted Rowland, Walter Edward Lowrie, George G. Starke, Homer Thomas Kemper, John Leon Remsen, Harvey Barden Haselton, Max Frederick Gruber, Fred Allison Beaty, James Clyde Campbell, and Clarence Aloysius Flanagan.

Alterations in Home Economics Courses in State Normal Schools Due to War

The Bureau of Education, Department of the Interior, issues the following:

May 6 of this year a letter was sent to the teachers of home economics in State normal schools asking them to report any special work undertaken because of war conditions and to discuss the effect that such work promises to have on the school curriculum. The letters received in reply contain reports of activities that have proved their worth to the school and to the individual.

Effect of War on Home Economics Course.

Teachers variously report that they "have found it necessary to revise the whole course in home economics," that their "entire course has been centered about the war situation," that "conservation has become the keynote," that "all the work has been on a war basis," and that "economy has been our slogan." Reports indicate that every possible saving has been made in the preparation of foods in the classroom, and that the use of substitutes and the principles involved have been demonstrated and practiced. The work of food preservation has been specially stressed, school garden products have been utilized, and the instructions of the Food Administration have been followed as closely as possible. Especially gratifying is the statement that "more attention has been given to the study of body requirements than formerly."

Economies Practiced.

Individual schools report that wheat products are no longer used in the classes, that fancy cooking has departed and experimental cookery has taken its place, that waste has been eliminated through "the acceptance of the clean plate motto," and that cost of materials has been reduced by careful buying and by having group work carried on in the classes.

Promise of the possible reduction of the cost of materials without sacrificing any of the educational value of the project is contained in this report.

Training for Demonstration Work.

That an effort has been made to prepare students to become leaders in conservation in their own communities is apparent from many of the reports. Demonstration courses have been added to the curriculum; demonstrations in the canning and drying of fruits and vegetables, and of cooking with meat, wheat, fat, and sugar substitutes have been given to other classes of the schools and to other women of the immediate community and of adjoining counties. Exhibits have been developed to further the teaching of food conservation.

Reports of the adaptation of the work in sewing classes to emergency conditions is equally gratifying. Courses have been given in renovation and remodeling of garments.

In discussing the war emergency work teachers say that their main question is "To what extent is it expedient to interrupt or entirely put aside regular work?" They are unanimous in their statement that now if ever is the time to make school work alive to everyday conditions, for they feel that the changes that have already come in the established order have helped to bring new life into the courses that have been carried on too formally.

PAPER TRADE OF ARGENTINA NOW COMING TO UNITED STATES

The Department of Commerce issues the following:

The United States has supplanted Germany in the Argentine market for paper and paper products, and according to a report just issued by the Bureau of Foreign and Domestic Commerce, Department of Commerce, there is a possibility of retaining the advantage when normal conditions are restored. Much will depend upon conditions in Europe after the war and upon the efforts made by the American manufacturer and exporter.

Germany did not manufacture all of the paper she formerly sold to Argentina and other countries. Much of it was brought to Hamburg from the manufacturing Scandinavian countries and from there distributed all over the world. Hamburg is a natural distributing center for paper, and its exporters thoroughly understand the business of selling paper in foreign markets. The success of American wholesale paper houses in Argentina during the difficult war years, however, indicates that there will be first-class facilities for placing American paper when the war is over and competition is again keen.

In normal times Argentina purchases about $500,000 worth of printing machinery annually and an equal amount of type, printing ink, and other supplies. More than 90 per cent of the machinery in use is of European origin, Germany being the principal source of supply. This fact, according to the Government's report, may be attributed almost entirely to the facilities furnished by European supply houses located in Buenos Aires. Since the war started American houses have developed similar facilities, and the future prospects are much brighter for the American manufacturer.

The report covers markets in Uruguay and Paraguay as well as in Argentina, being the result of a personal investigation recently completed by Special Agent Robert S. Barrett. Under the title "Paper, Paper Products, and Printing Machinery in Argentina, Uruguay, and Paraguay," special agents' series No. 163, it may be purchased at the nominal price of 20 cents, from the Superintendent of Documents, Government Printing Office, Washington, D. C., or from any of the district or cooperative offices of the Bureau of Foreign and Domestic Commerce.

WOMEN FOR "HOSPITAL HUT" SERVICE OF THE RED CROSS

The American Red Cross authorizes the following:

The French commission of the Red Cross has cabled for a number of women to fill positions in the hospital hut service, which has been taken over by the Red Cross. Fifty are needed this month. The work will consist of recreational care of convalescent soldiers in the Red Cross huts, corresponding to the rest houses in this country. Four women will be assigned to each hut. It is desirable but not necessary that they speak French as their work will be with American soldiers. They should be women of tact, of pleasing personality, and with ability to entertain. They must be strong, cheerful, and not nervous or sensitive.

Must be Over 25.

For this, as for all other foreign service with the Red Cross, women must be over 25. No passports are issued by the State Department for those under 25, and none can be obtained by women who have fathers, brothers, husbands, or sons in the service. Volunteers who can meet their own expenses are preferred, but exceptions are made in cases of specially qualified workers, to the extent of providing their living expenses. Full volunteers must sign contracts for six months' service. Those whose expenses are paid partly or entirely by the Red Cross must sign contracts for a year. No applications should be made to national headquarters of the Red Cross. All applications should be sent to the division bureaus of personnel, a list of which follows:

List of Personnel Bureaus.

1. New England division, bureau of personnel (Maine, New Hampshire, Vermont, Massachusetts, and Rhode Island): The American Red Cross, 755 Boylston Street, Back Bay Station, Boston, Mass.

2. Atlantic division, bureau of personnel (New York, Connecticut, and New Jersey): The American Red Cross, 44 East Twenty-third Street, New York, N. Y.

3. Pennsylvania division, bureau of personnel (Delaware, Pennsylvania): The American Red Cross, 1601 Walnut Street, Philadelphia, Pa.

4. Potomac division, bureau of personnel (Maryland, Virginia, West Virginia, and District of Columbia): The American Red Cross, 932 Fourteenth Street, Washington, D. C.

5. Southern division, bureau of personnel (Georgia, South Carolina, North Carolina, Florida, and Tennessee): The American Red Cross, 424 Healy Building, Atlanta, Ga.

6. Lake division, bureau of personnel (Indiana, Ohio, and Kentucky): The American Red Cross, 929 Garfield Building, Cleveland, Ohio.

7. Central division, bureau of personnel (Illinois, Michigan, Wisconsin, Iowa, and Nebraska): The American Red Cross, 180 North Wabash Avenue, Chicago, Ill.

8. Gulf division, bureau of personnel (Mississippi, Alabama, and Louisiana): The American Red Cross, Post Office Building, New Orleans, La.

9. Northern division, bureau of personnel (Minnesota, North Dakota, South Dakota, and Montana): The American Red Cross, 205 Essex Building, Tenth and Nicollet Avenue, Minneapolis, Minn.

10. Southwestern division, bureau of personnel (Missouri, Arkansas, Oklahoma, Texas, Kansas): The American Red Cross, 1617 Railway Exchange Building, St. Louis, Mo.

11. Mountain division, bureau of personnel (Wyoming, New Mexico, Colorado, and Utah): The American Red Cross, Fourteenth and Welton Streets, Denver, Colo.

12. Northwestern division, bureau of personnel (Washington, Oregon, and Idaho): The American Red Cross, White Building, Seattle, Wash.

13. Pacific division, bureau of personnel (California, Nevada, and Arizona): The American Red Cross, 942 Market Street, San Francisco, Cal.

14. Territorial, insular, and foreign division, bureau of personnel: The American Red Cross, Seventeenth and E Streets NW., Washington, D. C.

MILITARY TRAINING AT COLLEGE FOR HIGH SCHOOL GRADUATES

The Interior Department authorizes the following:

Boys graduating from high school this year are urged by Dr. P. P. Claxton, United States Commissioner of Education, to go to college and avail themselves of the special college military training plan just adopted by the War Department.

"Beginning with September, 1918,'" says Dr. Claxton, "military instruction, under officers and noncommissioned officers of the Army, will be provided in every institution of college grade enrolling for the instruction 100 or more able-bodied students over the age of 18, according to the War Department's announcement. The necessary military equipment will, so far as possible, be provided by the Government.

Enlistment Is Voluntary.

"There will be created a military training unit in each institution. Enlistment will be purely voluntary, but all students over the age of 18 will be encouraged to enlist. The enlistment will constitute the student a member of the Army of the United States liable to active duty at the call of the President. It will, however, be the policy of the Government not to call the members of the training units to active duty until they have reached the age of 21, unless urgent military necessity compels an earlier call. Students under 18, and therefore not legally eligible for enlistment, will be encouraged to enroll in the training units. Provision will be made for coordinating the Reserve Officers' Training Corps system, which exists in about one-third of the collegiate institutions, with this broader plan.

Leads World in Generosity.

"No nation has made such generous provision for combined military and college education as has the United States in this new plan. The youths who avail themselves of the privilege will be serving their country's immediate as well as future needs. They will be answering the Nation's imperative demand for trained men in the war and they will be building up a competent leadership for the work that is to come after the war."

HOW WOMEN MAY EVIDENCE THEIR RESPECT FOR THE FLAG

The Council of National Defense authorizes the following:

Women all over the country have been asking the administration of late for information in regard to the correct way of showing their respect for the flag and for the national anthem when it is rendered in public.

Women's Committee Resolution.

On July 8, the woman's committee adopted the following resolution:

"Whereas it is fitting that civilians as well as soldiers and sailors should adopt some uniform and appropriate manner of expressing their allegiance to their flag when it is displayed and their respect for the national anthem when it is played in their presence: Therefore be it

"Resolved, That the woman's committee of the Council of National Defense recommend that as an expression of loyalty and respect to the colors and the national anthem the women of the United States shall stand at attention when the flag is passing or the national anthem rendered."

Urged to Adopt Custom.

The woman's committee earnestly urges that each and every woman in the United States take special note of this resolution and carry it out implicitly on every possible occasion, with the idea of publicly manifesting her loyalty and devotion to the country.

RED CROSS HOME SERVICE.

(Continued from page 16.)

reasons for the changes are carefully explained, it is expected that the ultimate result will greatly redound to their benefit, and the Quartermaster General's Office state that no delay is anticipated.

In some instances, however, relatives of a soldier or sailor may find that their man in the service has not taken the necessary steps outlined above to see that his people at home continue to receive the same payments as formerly through the War or Navy Departments instead of through the Bureau of War-Risk Insurance. In such cases the relatives should write him urging upon him the necessity of taking the necessary action. It is a matter which lies purely in his discretion. He is under no compulsion from the Government.

To Relieve Any Resulting Hardship.

It is also of the greatest importance that soldiers and sailors and their families should be inspired with confidence that if distress results in any case by reason of these changes in Governmental procedure the Red Cross home service stands ready to relieve it. Where necessary to prevent hardship the Red Cross will make interim payments from its own funds until the Government checks arrive. Relatives of enlisted men should not regard this as charity, but as part of the responsibility which the Red Cross has assumed for maintaining the morale of American soldiers and sailors by instilling them with confidence that their families will not suffer for the necessities of life during their absence.

FORTY-BED HOSPITAL ERECTED IN TEN HOURS AND 38 MINUTES

The following statement is authorized by the War Department:

[illegible] section of the Construction Division of the Army a 40-bed hospital was recently erected and completed in 10 hours and 38 minutes. The building is an addition to the hospital establishment of General Hospital No. 10, known as the Fox Hills Convalescing Hospital, at Staten Island, N. Y.

One-Story Frame Structure.

The building is a one-story frame structure, with a convalescing porch, and has in addition to the ward a diet kitchen, surgical dressing room, linen room, bath, and ward officers' toilets. It is 156 feet long by 24 feet wide. The porch is 10½ feet wide and runs the length of one side of the building.

When work was begun at 7 o'clock in the morning not a posthole had been dug and no other preparations were made beyond that which is always done before work begins on a building. The four corner posts only had been set to indicate the extreme dimensions of the building. Considerable of the lumber for use on the building was on the spot, but none was cut to size, and all trimming and cutting was done while the work was in progress. Even the foundation posts had to be lined up by instruments and sawed to the proper length.

Postholes Dug in Eight Minutes.

Promptly at 7 o'clock 130 laborers under two foremen began to dig the postholes. This work was finished in eight minutes. During the next hour 434 men, carpenters, plumbers, and electricians, were occupied on the building. As fast as the carpenters set their boards the plumbers began to set their pipes and the electricians to run their wires. During the next hour the number of workmen was increased to 450 men. Between 11 and 12 o'clock 566 men were employed. At noon the roof had been finished and all windows had been fitted. At this time the following men were working: One carpenter superintendent, 2 general carpenter foremen, 15 carpenter foremen, 307 carpenters, 6 carpenters' labor foremen, 61 laborers, 1 plumbers' superintendent, 4 plumbers' foremen, 16 plumbers, 29 plumbers' laborers, 1 electrical superintendent, 2 electrical foremen, 22 electricians, 1 steam-fitters' superintendent, 4 steam-fitters' foremen, 30 steam fitters, 30 steam-fitters' helpers, 1 concrete foreman, 12 concrete workers, 1 cement-finishers' foreman, 4 cement finishers, 1 metal-lathers' foreman, 2 metal lathers, 1 pipe coverers' foreman, 4 pipe coverers, 4 pipe-coverers' helpers, 1 sheet-metal workers' foreman, and 3 sheet-metal workers. From noon to 3 o'clock more than 500 men worked on the building. At 3.30 the electricians, plumbers, sheet-metal workers, and pipe coverers had finished. At 4.30 only 88 carpenters remained at work, and at 5.38 the last nail was driven.

Lights Ready, Water Running.

The finished building was fully wired, the lights ready to be switched on; water was running in the pipes. All the radiators had been set and hand extinguishers were hanging on the wall when the building was reported finished.

The Construction Division is prepared for similar work in all cantonments and camps should the necessity for increased hospital facilities arise.

FRENCH SOCIETIES ELECTED TO RED CROSS HONORARY ROLL

The Red Cross makes public the following:

Two additional French societies have been elected to honorary collective membership in the American National Red Cross—L'Union des Femmes de France and L'Association des Dames Francaises. These organizations, together with the Societe Francaise de Secours aux Blesses Militaires, which was elected to honorary membership in the same class a few months ago, constitute the French Red Cross. All three are controlled by a central committee.

The class of collective membership known as honorary collective membership was created by the executive committee of the American Red Cross in March last. It is designed to embrace such foreign Red Cross societies as may be approved by the central committee and may desire to be enrolled as members of the American Red Cross. The action with respect to the Societe Francaise de Secours aux Blesses Militaires was taken at the same meeting at which the additional membership class was created at the urgent request of the American Red Cross commission to France.

In a cablegram requesting that the two other societies composing the French Red Cross be elected to honorary collective membership, Maj. Perkins, American Red Cross commissioner to Europe, stated that the former action of the executive committee had met with an enthusiastic reception in French Red Cross circles.

Copies of Publications Mailed to Advertisers

OFFICE OF THIRD ASSISTANT
POSTMASTER GENERAL,
Washington, July 18, 1918.

Attention is called to the provisions of paragraph 1 (*f*), Section 419, Postal Laws and Regulations, from which it will be seen that only one copy of each issue of a publication containing the advertisement of a person or concern, and of such issues only, may be mailed at the publishers' second-class pound rates of postage to such advertiser on account of and in proof of the insertion of his advertisement. Postmasters should inform publishers accordingly.

A. M. DOCKERY,
Third Asst. Postmaster General.

ORDERED TO PITTSBURGH.

Special Orders, No. 163:

159. Maj. William C. Brewer, Ordnance Reserve Corps, is relieved from duty in the office of the Chief of Ordnance, Washington, D. C., and will take station at Pittsburgh, Pa., and report to the inspection manager, district ordnance office, for duty.

PORTO RICAN TROOPS TO HAVE TRAINING IN ATHLETIC SPORTS

The following statement is authorized by the War Department:

The first step in a comprehensive educational and recreational program for the native soldiers of the National Army stationed at Camp Las Casas, on the outskirts of San Juan, Porto Rico, was taken Friday, when Joseph H. Mccabe, former president of the Amateur Athletic Union, was appointed to the post of athletic director at the camp. Mr. Mccabe will leave immediately for Porto Rico.

Survey of Surroundings.

The appointment of Mr. Mccabe is the result of a survey of conditions surrounding the Porto Rican training camp made at the instance of the Secretary of War by W. Prentice Sanger, executive secretary of the War Department's Commission on Training Camp Activities. A supervisor or director of mass singing will next be appointed by the commission. Mr. Mccabe will instruct the men in athletics from the simplest games of childhood to the more strenuous football, baseball, and boxing.

The camp is now in the course of construction. It will be permanent and will contain every convenience for soldiers. The Y. M. C. A. and the Knights of Columbus are establishing welfare huts in the camp, and there is a movement under way to establish a hostess house under the direction of the Young Women's Christian Association.

Vice Conditions Remedied.

Through the efforts of Mr. Sanger, in which he received the support of the officials of the island, vice conditions in San Juan have been remedied to a marked degree.

In discussing the situation in Porto Rico, Mr. Sanger said that upward of 13,000 Porto Ricans are fitting themselves for active service in France. He spoke highly of the patriotism of the people of the island. They have oversubscribed their quota in the Liberty loan, and according to cable dispatches received here, the entire population is working with animation to assist the great drive for Red Cross funds.

LEAVES TRADE COMMISSION.

Chief Examiner Chantland Accepts Major's Commission in Army.

The Federal Trade Commission authorizes the following:

William T. Chantland, chief examiner of the Federal Trade Commission, will leave the commission at once on indefinite leave of absence to become a major of Infantry in the Army.

Maj. Chantland, both with the commission and previously with the Department of Justice, has been conspicuously connected with a number of nation-wide trust cases and investigations.

He served as captain during the Spanish-American War, and later rose to be senior colonel in the Iowa National Guard.

He plans to return to the work of the commission at the close of the war.

The commission's service flag has now more than 100 stars.

NEW RULES FOR EXPORTATION OF MANUFACTURES OF GOLD

War Trade Board Licenses to be Hereafter Subject to Certain Limitations.

The War Trade Board authorizes the following:

The War Trade Board announces (in a new ruling, W. T. B. R. 178), the adoption of the following regulations with respect to the exportation of gold jewelry, gold watches, gold plate, and all other manufactures of gold:

1. On and after July 29, 1918, no license will be issued authorizing the exportation of gold jewelry, gold watches, gold plate, or other manufactures of gold unless evidence satisfactory to the War Trade Board is submitted showing that the f. o. b. selling price of the articles to be exported is not less than three times the value of the fine gold contained in such articles.

Exceptions to Ruling.

2. However, exceptions may be made to the above regulation, if evidence satisfactory to the War Trade Board is submitted showing that the gold jewelry, gold watches, gold plate, or other manufactures of gold to be exported were actually manufactured for the sole purpose of export, prior to July 29, 1918. Licenses may be issued for the exportation of such articles provided the f. o. b. selling price of such articles is not less than twice the value of the fine gold contained therein and the exportation of same is made on or before September 1, 1918.

3. Notwithstanding the date of manufacture for export there may be exported after September 1, 1918, only such manufactures of gold, the f. o. b. selling price of which is not less than three times the value of the fine gold contained therein.

4. Applications for license to export dental gold and all manufactures of gold when the same contain platinum, iridium, rhodium, or palladium may be considered only when the regulations governing the exportation of the latter-named metals are complied with.

Probing Production Cost of Woolen Piece Goods

The Federal Trade Commission authorizes the following:

At the request of the War Industries Board, the Federal Trade Commission has undertaken an inquiry to determine the cost of production of woolen piece goods.

Complete data on costs, embracing overhead costs, will be turned over to the War Industries Board.

French Mother's Letter To the American Women "With Sublime Hearts"

The Committee on Public Information issues the following:

Mrs. Wilson permits publication of the following letter as illustrative of the view point of the mothers of France:

Madame WOODROW WILSON,
Washington, D. C.

Madame: It is from the mothers and women of France that I send you these words to prove our gratitude for the comforting and brotherly support that these young Americans bring us with such noble enthusiasm, who are not afraid of leaving their families, their country, and their hopes to come to our rescue. Alas! I myself have given my beloved son to my unhappy and cruelly tried country, and I can understand the pain of those who see their sons go so far, so very far away. Tell them, those mothers, those women with the sublime hearts, how near we are to them in thought, and how moved we are at their sacrifice. They are our sisters through suffering and agonizing worries and we are brought together through the same sorrow. That we will never forget. It would make me happy, Madame, to correspond with some of these mothers, if they will send me a few lines.

Very respectfully, Madame, I salute you.

Madame M. BARBON,
No. 1, Rue du 14th Juillet, Pan-Basses, Pyrenees, France.

Age Limit for Civilians at Training Schools

The War Department authorizes the following statement:

The maximum age limit for admission of civilians to Central Officers' Training Schools remains at 40 years, on date of entrance.

LOAN TO CHINA BY U. S. BANKERS IS PROPOSED; BRITISH, JAPANESE, AND FRENCH MAY COOPERATE

AGREEMENT OUTLINED

Plan of Formation of American Group Discussed by State Department With Bankers—Negotiations in Progress With Three Other Countries to Participate—Would Aid China to Take More Active Part in War.

The Acting Secretary of State issues the following:

China declared war against Germany largely because of the action of the United States. Therefore this Government has felt a special interest in the desire of China so to equip herself as to be of more specific assistance in the war against the Central Powers. Until the present time engagements of the United States in preparing to exert effectively its strength in the European theater of war has operated to prevent specific constructive steps to help China realize her desires. Recently, however, this Government felt that, because of the approach to Chinese territory of the scenes of disorder, a special effort should be made to place proper means at the disposal of China. Consequently, a number of American bankers, who had been interested in the past in making loans to China and who had had experience in the Orient, were called to Washington and asked to become interested in the matter. The bankers responded very promptly and an agreement has been reached between them and the Depart-

(Continued on page 3.)

Import Restrictions on Bananas and Plantains

The War Trade Board issues the following:

The War Trade Board have, by a new ruling (W. T. B.R. 179), decided that no license will hereafter be issued for the importation of bananas or plantains except upon condition that they be brought forward on a vessel approved for that purpose by the Caribbean committee of the shipping control committee of the United States Shipping Board.

PLAN TO SAFEGUARD HEALTH OF WAR CONTRACT WORKERS

Chairman Felix Frankfurter, of the War Labor Policies Board, authorizes the following:

In order to secure the enforcement of the provisions of war contracts intended to safeguard the health of those employed the War Labor Policies Board, acting for all the production and distribution departments of the administration has authorized the head of each contracting department to designate representatives to enforce such provisions.

In behalf of the departments the War Labor Policies Board has already prepared contracting provisions ordering all war contractors to observe existing State legislation affecting industrial conditions. The subsequent action makes possible a uniform method of inspection. In appropriate cases State factory inspectors and State industrial commissions will be the agencies designated by the Federal administration.

POST-OFFICE EMPLOYEES PLACED IN THE DRAFT DEFERRED CLASS

OFFICE OF FIRST ASSISTANT,
POSTMASTER GENERAL,
Washington, July 23, 1918.

As requested by this department, the War Department has amended Part XIV of the Selective Service Regulations so as to extend the list of postal employees engaged in the transmission of the mails to include all post-office clerks whose services can not be dispensed with without materially lowering the efficiency of the service.

Paragraph as Amended.

The first subparagraph of paragraph 2 of [illegible] of the regulations referred to will, as amended, read:

"Postmasters at first and second class post offices are hereby authorized to file affidavits with Local Exemption Boards [illegible] deferred classification (Class III) for the following [illegible] only: Supervisory officials in post offices; post-office clerks whose services can not be dispensed with without materially lowering the efficiency of the service; drivers of Government-owned automobiles; mechanics and [illegible] absolutely necessary, clerks and substitute clerks employed at military branches."

Instructions to Postmasters.

[illegible] should be governed by the above in filing affidavits for the employees named whose services can not be dispensed with without materially lowering the efficiency of the service.

J. C. KOONS,
First Asst. Postmaster General.

Post Office Fraud Order.

OFFICE OF POSTMASTER GENERAL,
Washington, July 22, 1918.

Order No. 1737 has this day been issued against the Fit-Good Manufacturing Co., F. G. M. Co., and M. A. Miller, secretary, at 682 Broadway and 508 West One hundred and forty-ninth Street, New York, N. Y.

A. S. BURLESON,
Postmaster General.

Japan's Chief of Staff Cables Congratulations To Gen. Peyton C. March on American Successes

The War Department authorizes publication of the following cabled correspondence:

From: Gen. Baron Y. Uyehara, Chief of Staff, Imperial Japanese Army.

To: Gen. Peyton C. March, Chief of Staff, United States Army.

"Please accept my sincerest congratulations on the recent brilliant success won by your gallant Army on the French battle field. I am looking forward with absolute confidence to the continued favorable development of the situation, and I feel fortified in my conviction for the final triumph of our common cause.

"GEN. BARON Y. UYEHARA."

From: Gen. Peyton C. March, Chief of Staff, United States Army.

To: Gen. Baron Y. Uyehara, Chief of Staff, Imperial Japanese Army, Tokio, Japan:

"Your message of congratulations on the recent successes of the American Army on the battle fields of France has been personally conveyed to me by the Military Attache, Imperial Japanese Embassy, Washington, Col. Tanikawa.

"Your message is deeply appreciated by the United States Army, and I am repeating it to Gen. Pershing for publication to the American Expeditionary Forces, in order that they may be made aware of your interest in their fight for our common cause, toward the final triumph of which our two countries are jointly contributing. On behalf of the American Army, I sincerely thank you for your message which is prized very highly.

"MARCH.

"*General, Chief of Staff, United States Army.*"

Italy Sends Message Congratulating America On Successes in Battle

The Acting Secretary of State has received the following from the Italian ambassador:

REGIA AMBASCIATA D'ITALIA,
July 27, 1918.

MR. SECRETARY OF STATE:

The important and glorious successes that the American forces have won in the recent battle fought on the French front have produced in Italy, together with a keen feeling of admiration, a joy which can only be measured by him who knows, as Your Excellency knows, the deep friendship that the Italian nation unreservedly entertains for this great Republic.

For these successes that the valor and the faith of the American soldier will renew on the common fields of battle, the Government of the King has intrusted to me the very gratifying task of expressing to the Government of the United States their warmest congratulations.

While fulfilling this duty, through Your Excellency's courtesy, and while asking Your Excellency to accept at the same time in this happy circumstance the confirmation of my personal sentiments, I have the honor to offer to Your Excellency the expressions of my highest consideration.

[illegible]

The Hon. FRANK L. POLK,
Acting Secretary of State,
Washington, D. C.

PAYMENT OF EXPENSES FOR VIRGIN ISLANDS OCCUPATION

EXECUTIVE ORDER.

In view of the following provision in the naval act (Public—No. 182, 65th Cong.):

"For expenses incident to the occupation of the Virgin Islands and to the execution of the provisions of the act providing a temporary government for the West Indian Islands acquired by the United States from Denmark, and for other purposes, approved March third, nineteen hundred and seventeen, to be applied under the direction of the President, $200,000."

It is directed that payments from this appropriation be made on the order of Rear Admiral James H. Oliver, United States Navy, governor of the Virgin Islands of the United States, to be expended in his discretion for all necessary expenses incident to the occupation of the Virgin Islands and to the execution of the provisions of the "act providing a temporary government for the West Indian Islands acquired by the United States from Denmark, and for other purposes" approved March 3, 1917; provided that such payments may be made to, and for the account of, the colonial treasury of St. Croix, the colonial treasury of St. Thomas and St. John, and the treasury of St. Thomas Harbor as, in the discretion of the governor, may be necessary to provide for the running expenses of the respective treasuries and for the retirement of bonds of the St. Thomas Harbor loan of 1910 and accrued interest thereon.

WOODROW WILSON.

THE WHITE HOUSE,
July 25, 1918.

Japan's Congratulations On Victories in France Sent to United States

The Acting Secretary of State has received the following from the Japanese ambassador:

IMPERIAL JAPANESE EMBASSY.
WASHINGTON, *July 27, 1918.*

MY DEAR MR. SECRETARY:

I have just got telegraphic instructions from Baron Soto to convey to you his most sincere congratulations for the splendid feat of the American Army on the western front. In hastening to bring the above to your knowledge, I beg to add my personal congratulations.

Yours sincerely,

K. ISHII.

The Honorable FRANK L. POLK,
Acting Secretary of State.

ARMY MOTOR TRUCK AND CAR STANDARDIZATION COMPLETED, WAR DEPARTMENT ANNOUNCES

FOUR PRINCIPAL DESIGNS CHOSEN

Orders Issued for More Than 75,000 Cargo and Passenger Vehicles After Tests of Various Makes—Ordnance Model Selected.

The War Department authorizes the following:

The standardization of cargo trucks and passenger cars for the use of the Army has been completed. More than 75,000 standardized trucks and passenger cars have been ordered. Four trucks and three passenger cars have been selected as suitable for the various requirements of all branches of the service that have need for motor transportation.

Two of Special Design.

Of the four trucks selected, two are after designs worked out by special boards of automotive engineers. The other two are commercial trucks which have been changed to meet the special requirements of military work.

The three-quarter to 1-ton truck selected after exhaustive tests of a number of cars, including a model devised under the supervision of a special board of engineers, is the "G. M. C." truck, which is now known as Army Type AA. Changes have been made in the model used by the Government, the principal change being superior spring development. About 7,500 of these trucks have been ordered.

Choice Narrowed to Three.

The 1½ to 2 ton trucks selected, which after certain modifications is now known as Army Type A, is the White. The tests of cars in this class were by far the most severe, and by a process of elimination the Engineering Advisory Board was left with three trucks.

While the board reported that these three trucks were equally serviceable from a strictly technical point, the board of officers which received the findings recommended the adoption of the White for the following reasons: Lower gasoline and oil consumption, more satisfactory performance both in Mexico and France, and best adapted for high-speed work, with pneumatic tires for use as a staff observation and reconnaissance car and high-speed truck.

After competing with a number of well-known makes in the 3 to 5 ton class, the specially constructed Army truck of this class, known as Type B, was selected as the standard truck of this class with the recommendation that certain minor changes be adopted by the engineering department of the Motor Transportation Service.

For about a year the Engineering Ordnance Department has been working on an improved four-wheel drive type of truck. Several models were completed and two of these were tested in arriving at the recommendation that the Ordnance model be adopted as the standard for the Army.

This truck is known as Army Type TT, as it is really a tractor truck. It is especially suitable for the hauling of great guns over rough stretches of road or over open country. In many ways it has the ability of a tank to go over places generally considered impassable to vehicles. It is one of the distinct contributions of automotive engineers to the war.

In rejecting many trucks, the examiners stated that in no way was their act a reflection on the commercial value of these vehicles. The majority of trucks are made for city work, and as Army trucks are called upon to do exceptionally heavy, rough work, commercial trucks could not stand up under the strain.

On account of the request from the American Expeditionary forces for additional Ford machines, the Ford chassis (passenger) was adopted as a standard chassis for use of the Army to be used as a passenger car, light truck, light ambulance, and for whatever else desired.

Two Other Types Selected.

Two other types of passenger cars have been selected for the use of the Army. In connection with the adoption of the passenger cars, it was found after exhaustive tests that the chassis as now being manufactured for the Army by the Dodge and Cadillac companies were best adaptable to Army needs. These are not the models now being marketed by those concerns, but a type with certain additions and deductions. These are to be produced in other factories if the needs of the Government require.

King of the Belgians Replies to President's Fete Day Felicitations

In response to the telegram which President Wilson sent to the King of the Belgians on Belgium's fete day, King Albert has sent the following:

"I read with emotion your cordial telegram. In the name of all the Belgians, I heartily thank for it the eminent Chief Magistrate of the great American nation. The great weight carried by his every word imparts especial value to the sympathy which he kindly expresses to me in his own name and in that of his compatriots. I have it at heart to pay homage to the heroism displayed by the American troops on the battle fields of France, which heroism has just been crowned by so splendid victories."

ORDERED TO CAMP MacARTHUR.

Special orders, No. 168:

167. Maj. Graph J. Hubbard, Infantry Reserve Corps, will proceed to Camp MacArthur, Tex., and report to the commanding officer, Infantry replacement camp, for assignment to duty.

LOAN TO CHINA BY AMERICAN BANKERS IS BEING NEGOTIATED

(Continued from page 1.)

ment of State which has the following salient features:

First. The formation of a group of American bankers to make a loan or loans and to consist of representatives from different parts of the country;

Second. An assurance on the part of the bankers that they will cooperate with the Government and follow the policies outlined by the Department of State;

Third. Submission of the names of the banks who will compose the group for the approval of the Department of State;

Fourth. Submission of the terms and conditions of any loan or loans for approval by the Department of State;

Fifth. Assurances that if the terms and conditions of the loan are accepted by this Government and by the Government to which the loan is made, in order to encourage and facilitate the free intercourse between American citizens and foreign States which is mutually advantageous the Government will be willing to aid in every way possible and to make prompt and vigorous representations, and to take every possible step to insure the execution of equitable contracts made in good faith by its citizens in foreign lands.

It is hoped that the American group will be associated with bankers of Great Britain, Japan; and France. Negotiations are now in progress between the Government of the United States and those Governments which it is hoped will result in their cooperation and in the participation by the bankers of those countries in equal parts in any loan which may be made.

Former Barriers Broken Down.

Beside the warlike conditions which confront China on her northern and western borders, there is a further incentive to cooperate with all these Governments, because the war has created a community of interest between them and their citizens and those of other Governments and has broken down barriers which once have existed and has made easier the intercourse between them. It is hoped that if the project succeeds it will serve as an agency through which this community of interest and the consequent expansion of our mutual interests abroad may be adequately and properly expressed.

TWO U. S. PRISONERS LOCATED.

Capt. Sewing at Camp Rastatt, Lieut. Tenney at Villingen, Germany.

The Committee on Public Information issues the following:

It has been ascertained by the War Department that Second Lieut. Walter M. Tenney is a prisoner of war at Camp Villingen, Germany. His emergency address was given as Arthur Tenney, brother, St. Albans, Vt.

Capt. A. H. Sewing is a prisoner of war at Camp Rastatt, Germany. His emergency address was given as Mrs. A. H. Sewing, wife, 2349 St. Louis Avenue, St. Louis, Mo.

Make every day a thrift day and help your Government end the war days.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor*.

RATES BY MAIL.

Daily—	One year	$5.00
	Six months	3.00
	One year, postage prepaid to foreign countries	8.00
	Six months, postage prepaid to foreign countries	4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

American Communiques

The following is authorized by the Secretary of War:

American Official Communique No. 74.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
July 28, 1918.

Section A.—Between the Ourcq and the Marne the enemy's resistance has broken down. Our troops, with those of the allies, are in pursuit.

Section B.—There is nothing to report in this section.

American Official Communique No. 75.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
July 28, 1918.

SECTION A. North of the Marne our troops continue the pursuit of the enemy. In spite of his determined efforts to delay their progress by rear guard actions, they have crossed the Ourcq and have taken the towns of Seringes-et-Nesles, Sergy, and Roncheres.

SECTION B. There is nothing to report in this section.

DEATH OF LIEUT. LEARY.

The Navy Department has been advised of the death of Lieut. Clarence Frederick Leary, U. S. N. R. F., which occurred as the result of burns received on board the U. S. S. *Charlton Hall* on July 20. His mother, Mrs. Mary Annie Leary, resides at 437 Forty-fifth Street, Brooklyn, N. Y.

Fatal Aviation Accidents In Week Ending July 20

The War Department authorizes the following:

Herewith is a summary of deaths in aviation accidents at flying fields in this country for the week ending July 20, 1918.

Brooks Field, San Antonio, Tex.	1
Kelly Field, San Antonio, Tex.	2
Total	3

The three deaths during the week ending July 20 represent one fatality for every 7,026 hours flown, or 634,080 miles air travel.

FRENCH-ENGLISH STENOGRAPHERS NEEDED FOR THE AIR SERVICE

So rapidly has the Department of Military Aeronautics grown, since the reorganization of this branch of service by the Secretary of War, that it already has over 1,000 civilian employees, in addition to its officers and enlisted men.

A call has been issued to the public for thirty (30) additional stenographers and fifty (50) additional typists. A particular need of the Department is for stenographers who are qualified to take dictation in both French and English and make transcription accordingly. Applicants should call upon or address the Civilian Personnel Officer, Department of Military Aeronautics, Building D, Sixth and B Streets, NW., Washington, D. C.

Send Books to Prisoners Direct from Publishers

The following ruling is authorized by the Military Censorship:

"Books and periodicals can be sent to the American prisoners of war in Germany, only when they are ordered through the publishers, and are dispatched from the office of the same."

Old books form a convenient method of secret communication, and require extraordinary scrutiny on the part of the censorship forces. It is felt that the above will be understood and appreciated by the relatives and friends of the prisoners, and by the public at large, since it shows the watchfulness of the War Department in thus caring for the interests of the prisoners and of their friends at home.

Need 25,000 Young Women

The country needs 25,000 young women between the ages of 19 and 35 to enroll in the United States Student Nurse Reserve. Apply at the nearest recruiting station established by the Woman's Committee of the Council of National Defense.

MORE NUTRITION OFFICERS FOR AMERICAN CAMPS OVERSEAS

The War Department authorizes the following statement from the Office of the Surgeon General:

At the request of Gen. Pershing, 20 additional nutrition officers have gone to Europe to supervise rationing of the soldiers of the American Expeditionary Forces and to introduce methods that will further protect the food of the troops from waste, spoilage, and contamination. This brings the total of such officers now on duty in England and France to 29.

The first six of these specialists went abroad in March. Their work was so satisfactory that in a few weeks more were asked for. The investigations made by these men resulted in improved mess conditions, both in camp and in the trenches, and demonstrated the necessity for continuous supervision, hence the recent sailing of the 20.

One of the principal problems facing these men is the adjusting of the present garrison ration to current needs. This ration was fixed long before the present conditions of modern warfare, and experience has shown that adjustments must be made in order to feed the troops satisfactorily without waste or spoilage.

NEARLY HALF MILLION SAVED IN ARMY POTATOES AND ONIONS

The War Department authorizes the following:

The Subsistence Division of the Quartermaster Corps recently completed purchases of potatoes and onions for August requirements at the various camps and cantonments. The total amount of both commodities purchased equaled 27,527,500 pounds, which is, by far, the largest amount handled by the potato and onion section since the central purchasing system was inaugurated.

Due to very favorable bids, because of more spirited competition than in previous months, authority to purchase was granted at a saving of over 14 per cent in the total purchase value. The total saving of the potato and onion section since the inauguration of the central purchasing control through the Subsistence Division and covering a period of seven months, from February to August, inclusive, now approximates $400,000.

NAVY AND MARINE CORPS CLASS 1 ENLISTMENT CLOSED

The Secretary of War has communicated instructions to the Provost Marshal General to close class 1 to Navy and Marine Corps enlistments and to the Emergency Fleet classification. The regulations have heretofore permitted, under very liberal terms, the registrant to elect as to service in the Navy, Marine Corps, or with the Emergency Fleet.

All registrants have already had reasonable opportunity to make that election, and it was deemed advisable in view of the heavy demands of the Army corresponding to the months of July and August, and not detrimental to the ample recruitment of the Navy, Marine Corps, or Emergency Fleet, to take this action.

U. S. AND BRITISH WARSHIPS ESCORT TWO NAVY EXECUTIVES

The Navy Department authorizes the following:

Secretary Daniels has received a cablegram from Assistant Secretary Roosevelt stating that he had returned to London after a trip to Queenstown with Sir Eric Geddes, First Lord of the British Admiralty, and that he found conditions there excellent. The passage to Queenstown was made on the U. S. S. *Kimberly*, and the return passage in H. M. S. *Patrol*, with the *Kimberly* as escort.

Telegram to Commanders.

The following telegram was sent to the commanders of these vessels:

"The First Lord is proud that he should have had the privilege of taking passage in the U. S. Destroyer *Kimberly* with the Assistant Secretary of the United States Navy on board, from Pembroke to Queenstown, and also that whilst on passage in H. M. S. *Patrol*, the *Kimberly* should have been the escort. Mr. Roosevelt joins with Sir Eric Geddes in appreciating this unique instance of two warships of kindred navies being so intimately associated. Knowing that both of them will render the best services during this war, the First Lord and Mr. Roosevelt tender to the captains, officers and ships' companies their thanks for personal services during the last two days and also wish them all good luck and every success."

Reply of Ship's Men.

The following reply was sent by the *Kimberly:*

"The captain, officers, and men of the *Kimberly* are glad to have had the opportunity to serve the First Lord and the Assistant Secretary of the two English-speaking navies, and thank them for their message."

SCRAP STEEL RUMORS DENIED BY PRICE-FIXING COMMITTEE

The Price-Fixing Committee of the War Industries Board authorizes the following:

"Rumors having been circulated by certain publishing companies to the effect that the Government would discontinue fixing prices on scrap steel, we wish to say that such rumors are utterly without foundation. To the contrary, the control of scrap-steel prices and the stimulation of the scrap-steel industry are matters of first importance in supplying our war needs."

RECLAMATION PROJECT PROPOSAL.

DEPARTMENT OF THE INTERIOR,
UNITED STATES RECLAMATION SERVICE,
Denver, Colo., July 22, 1918.

Sealed proposals will be received at the office of the United States Reclamation Service, Denver, Colo., until 2 o'clock p. m., August 12, 1918, and will at that hour be opened, for furnishing 5,400 linear feet of machine-banded wood-stave pipe for the Yakima-Tieton project, Washington.

For particulars address the United States Reclamation Service, Denver, Colo.

R. F. WALTER,
Acting Chief of Construction.

Boys Under 21 in U. S. Marine Corps Make up Nearly One-Third of Force

Secretary Daniels authorizes the following:

Figures just made public by the Marine Corps show that since our entrance into the war the corps has enlisted 13,826 recruits under 21 year of age, representing 30 per cent of the enlistments during the period.

The policy of the Marine Corps in admitting boys of 18 years and over into the ranks is more than justified, officers claim, by the heroic fighting by the marines at Chateau Thierry and Belleau Wood, the showing they have made in their sector of the Marne line since that time, and the youthfulness of many of the marines who have been decorated and cited in France.

While it was known that many boys under 21 were serving with the sea-soldiers, the statement that they aggregated nearly one-third of the enlistments was a surprise even to Marine officers themselves.

COAST GUARD CREWS SALVAGE SUGAR FROM WRECKED STEAMER

Secretary Daniels authorizes the following:

Crews from coast-guard stations recently succeeded in saving from a vessel which went aground 80,000 pounds of sugar which otherwise would have been dumped overboard and lost.

A merchant steamer loaded with a cargo of sugar went aground on the coast of North Carolina. In order to float the ship the wreckers began dumping bags of sugar overboard, as they had no means of landing them through the surf. Deputy Collector of Customs Baum and Food Administrator Ehringhaus, of Elizabeth City, N. C., protested against this waste of food, but no means of saving it was found until the crews from stations Nos. 168, 169, 170, and 171 arrived.

Though the sugar was in bags weighing 320 pounds and had to be hauled for miles along a sandy beach, the coast-guard crews managed to accomplish the task, and 2,500 bags of sugar (80,000 pounds) were saved and stored away.

Excellent Rapid-Fire Scores With 1917 Model Rifles at Camp Shelby

The War Department authorizes the following from the Ordnance Department:

Excellent results are being obtained in the use of the 1917 model rifles at the various target ranges.

The following scores, made by four members of the 149th Infantry at the 100-yard rapid-fire range at Camp Shelby, Hattiesburg, Miss., have been reported to the department:

Name.	Total shots.	Hits.	Misses.
Corpl. Burnett Brown	185	184	1
Pvt. Leon Childress	170	169	1
Corpl. Carl M. Forman	192	190	2
Pvt. Robert J. Rork	224	219	5
Summary	771	762	9

Under the latest regulations rapid-fire shooting is at a silhouette target at the rate of 10 shots a minute.

A war saver is a life-saver.

CONTRACT WITH CHINA TO BUILD 4 MERCHANT SHIPS COMPLETED

Chairman Hurley Sends Message to Peking Government Making Announcement.

The State Department transmitted on Friday to the Chinese Government the following message from Edward N. Hurley, chairman of the United States Shipping Board:

"The United States Shipping Board to-day completed negotiations for the construction of a number of merchant vessels at the Chinese Government's shipyard at Shanghai. This happy arrangement enables Chinese industry to become still more effective in support of our splendid armies who are now advancing toward their assured victory. By making ships, China will be directly making war upon the common enemy. The occasion is one of good augury of future industrial and commercial cooperation between your great country and the United States, and I confidently believe will more firmly cement the traditional friendship between the two peoples."

It was a few days ago that the Shipping Board announced negotiations by which the Government yard at Shanghai, known as the Kiangnan Dock & Engine Co., were to receive contracts for four steel cargo vessels of 10,000 tons each and options for the building of 80,000 additional tons of steel freighters.

This program will involve an expenditure of $30,000,000. About 35,000 tons of steel will be shipped from this country to China. It is expected that the deliveries will begin about six months after the steel has been received. All iron castings will be obtained in China, leaving only steel plates and shapes to be supplied from here, 1 ton of steel making about 3 tons of shipping. In his effort to rapidly rebuild American merchant marine and in his search for places where ships could be constructed Chairman Hurley found that China was well equipped for a substantial contribution for this work.

The Kiangnan yard has 12 ways with all necessary shops and a dry dock capable of admitting vessels up to 544 feet. In this yard were repaired all the damaged German and Austrian vessels which had been interned by China when that nation entered the war.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

ARMY

July 28, 1918.

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	38
Died from wounds	11
Died of disease	13
Died of accident and other causes	8
Wounded severely	119
Wounded (degree undetermined)	1
Missing in action	35
Total	225

Killed in Action.

CAPTAINS.

Newell R. Fiske. H. N. Fiske, Cranford, N. J.

William T. Shaw. Mrs. Blanche Stanton Shaw, Tatum, S. C.

LIEUTENANTS.

Robert O. Crandall. Mrs. Robert F. Crandall, care of Mrs. Charles Nortrup, R. F. D. 30, Stamford, Conn.

Raymond E. Jauss. Mrs. Lillian M. Jauss, 151 West Eightieth Street, New York, N. Y.

SERGEANTS.

John W. Carrick. George Carrick, Sixth and Chess Streets, Monongahela, Pa.

John F. Donovan. John H. Donovan, 869 Beacon Street, Boston, Mass.

Frank Downer. Mrs. Emma J. Downer, 1433 Rockland Avenue, Pittsburgh, Pa.

George Christian Kattenhorn. George Henson, 101 South Main Street, Wallingford, Conn.

Clyde Mummey. Mrs. Mary E. Mummey, R. F. D. 8, Kenton, Ohio.

CORPORALS.

John W. Boyd. Robert M. Boyd, Hazzard, Pa.

Edward Martin Carlson. John Carl Carlson, 15 North Pleasant Street, Princeton, Ill.

Hyman Feldman. Jacob Feldman, 334 Broom Street, New York, N. Y.

Raymond J. Maloy. Patrick J. Maloy, Kromer House, Scottdale, Pa.

Charles Mentzer Nitterhouse. Mrs. Ida Nitterhouse, 67 North Federal Street, Chambersburg, Pa.

PRIVATES.

Joe M. Aloise. Mrs. Mary Gallchio, corner Wayne and Waldo Streets, White Plains, N. Y.

Ross D. Anderson. Mrs. Hazel Anderson, 303 Third Avenue, New Brighton, Pa.

Clarence David Armstrong. Samuel Cell Armstrong, 15 McMurray Street, Frederick, Md.

Lewis Cerullo. Louis Sinisi, 812 Seventh Avenue, Altoona, Pa.

Nicolai Chriczanevicz. Joseph Nonartewicz, 231 Eighth Street, Steubenville, Ohio.

Fred Clifton. James Clifton, Surgoinsville, Tenn.

Earl Coe. William S. Coe, Alma, Tyler County, W. Va.

Donald Ross Conrad. Mrs. Ida Conrad, R. F. D. 5, Towanda, Pa.

Kerr Andrew Cunningham. John J. Rodec, Canonsburg, Pa.

Walter Davis. Webster Davis, 3 Front Street, Portsmouth, Ohio.

George Ferguson. Mrs. Annie Wilson, 743 Mannor Street, Lancaster, Pa.

Gonzale Forero. Gabriel Sarmiento, 234 West Thirty-seventh Street, New York, N. Y.

Vivian Grady. James Grady, 52 Remsen Avenue, New Brunswick, N. J.

Arnold D. Hall. Mrs. Clara Mullinox, Dalton, Pa.

Malvin Nathan Jamison. Nathan Jamison, Spring Grove, Pa.

Total Army and Marine Corps Casualties.

The following weekly statement is authorized by the War Department:

The total number of casualties of the American Expeditionary Forces to and including July 28 is as follows:

Killed in action (including 291 at sea)	2,009
Died of wounds	749
Died of disease	1,455
Died of accident and other causes	570
Wounded in action	6,340
Missing in action (including prisoners)	657
Total to date	11,780

Following is a summary of Marine Corps casualties to date:

Officers:		
Deaths	26	
Severely wounded	31	
Missing	1	
		58
Enlisted men:		
Deaths	684	
Wounded	1,161	
In hands of enemy	5	
Missing	78	
		1,928
Total		1,986

Ira Cranmer Keller. Mrs. Charlotte C. Keller, Manatawny, Pa.

Robert Kennedy. James Kennedy, Walnut Street, Monongahela, Pa.

Chris Kowalski. K. Kowalski, Peoria, Ill.

Robert P. Lyle. Peter S. Lyle, Sutton, N. Dak.

Bart M. McKune. Mrs. Clara McKune, R. F. D. 2, Bradford, Pa.

Apcar S. Mamoul. Mesrob Mamoul, 68 Lexington Avenue, New York, N. Y.

Walter Pickford. Thomas J. Cocharan, Sunnyside, Pa.

Elza Rife. Martha Cooper, Middleport, Ohio.

Levy N. Wasser. Francis H. Wasser, Greenville, Pa.

Died of Wounds.

Corpl. Charles Caleb Crews. Mrs. Julia Crews, Gilroy, Cal.

Bugler Leon F. Burgess. W. J. Burgess, 11 Hampshire Street, Holyoke, Mass.

PRIVATES.

Frank Blocklinger. Mrs. Adam Gardner, 1570 Audubon Avenue, Dubuque, Iowa.

Pvt. Christian Boehm. Fred Boehm, father, 87 Washington Avenue, Irvington, N. J.
Previously reported missing in action, now reported severely wounded in action:
Trumpeter Leslie J. Harris. Margaret Dunning, aunt, 623 Hillgar Avenue, Detroit, Mich.
Pvt. Bernard J. Kearney. Nora A. Kearney, mother, East 502 Sharp Avenue, Spokane, Wash.
Pvt. David J. Milligan. David Milligan, father, 639 Palisade Avenue, Jersey City, N. J.
Previously reported missing in action, now reported returned to duty:
Pvt. Robert Law. Agnes Law, mother, 314 East Eighth Avenue, Homestead, Pa.
Pvt. Garry Nagle. Garry J. Nagle, father, 44 Tappen Street, Newark, N. J.
Pvt. John E. Sawyer. Alice Sawyer, mother, Yakima, Wash.

315 BLIND FRENCH SOLDIERS SEND GREETINGS TO AMERICA

The French ambassador has delivered to the Secretary of State the following telegram sent to him by 315 blind officers and privates at Rochecorbon, near Tours:

The blind officers and privates of the New York Permanent Blind Relief War Fund, temporarily housed in the Chateau of Rochecorbon, near Tours, beg the ambassador of France at Washington on the occasion of the Fourth of July holiday kindly to transmit to the American Government and their comrades of the American Army their expression of their gratitude, enthusiasm, and confidence. They lost their eyesight on the battle fields of Flanders, the Somme, Champagne, or Verdun, and are consoled and unutterably happy in seeing the day come near when, thanks to the cooperation of the American Army and allied nations, the civilized world will reap the reward of the sacrifice they made in fighting for the liberty of their fatherland and the independence of all the peoples.

Capts. Izaac, Leloup, Versini, Andrieu, Bacquit, Bayu, Beguin, Charlet, Chelle; First Sergts. Dahout, Derunder, Dubreuil, Dufour; Sergts. Dupuns, Fouin; Cadet Giadolde; Corpls. Girard, Gladieux, First Sergts. Goubin, Heron; Sergts. Hourcade, Hugues, Parre, Sarre; Lieut. Jezequel; Corpl. Laute; First Sergt. Lecanut; Lieuts. Malavaut, Marignier, Munier, Nicolas, Noireaux; Corpls. of Cavalry Reyne, Ricci; Corpl. Riattaux; Lieuts. Roy, Somprou; Second Lieut. Thibault; Corpl. Thuliex; First Sergts. Veillet, Verdeau, Veron.

ORDERED TO WASHINGTON.

Special orders, No. 168.

134. Lieut. Col. Lawrence D. Cabell, Infantry, National Army, will proceed to Washington, D. C., for consultation in the Office of the Acting Quartermaster General, and upon completion of the duty enjoined will return to his proper station.

U. S. WHEAT HARVESTER ARMY GOING TO WORK IN CANADA

The Department of Labor authorizes the following:

Under the direction of the United States Employment Service, America's great army of wheat harvesters is preparing to cross the border into western Canada. If weather conditions continue favorable, the vanguard will probably be engaged on Canadian farms in two or three weeks' time, the cutting now having progressed as far north as the Dakotas and Minnesota.

Thousands of men and boys, who have been instrumental in saving the banner wheat crop of the Central West, are now preparing to carry through the same service for our northern ally. Their employment in Canada is the result of agreement between the two Governments.

To Harvest Record Crop.

W. W. Cory, Canadian deputy minister of the interior, who came to Washington early this week to make final arrangements with Director General John B. Densmore, of the United States Employment Service, about the transfer of the harvest army to the Canadian wheat fields, states that record crops have been planted by the farmers of western Canada this year and that all their grain is everywhere in excellent condition. The influx of trained American harvest hands, mobilized and recruited by the United States Employment Service, will meet, he expects, the severe shortage of native farm labor existing in the Dominion and duplicate for allied food consumption the remarkable harvest of the United States. Mr. Cory is now in Kansas City conferring with A. L. Barkman, who is in charge of the western harvest work of the Employment Service.

Benefit to United States Also.

Besides helping the Dominion to save its wheat crops, the transfer of the harvest army to Canada will be of direct material benefit to this country inasmuch as it will hold together a trained army of farm workers for work in the corn fields of the Central West this fall. The corn crop should be ready for husking by the latter part of October, at which time the Canadian wheat harvest will be completed. The work in Canadian wheat fields will complete the cycle whereby the emergency farm army will work steadily for increased food production from June to December.

Sealed Bids Wanted

General Engineer Depot, United States Army, 1438 U Street, Washington, D. C.—Sealed bids are wanted until dates indicated under circular proposals as follows for furnishing miscellaneous supplies for the General Engineer Depot. Additional information may be had upon application to the purchasing officer as above:

Proposal No. 1055, opening of August 6, 1918.—Miscellaneous boxes as per specifications.

Proposal No. 1056, opening of August 2, 1918.—Push and rail laying cars, track levels, tubes and gauges, and rail benders, as per specifications.

Proposal No. 1057, opening of August 6, 1918.—Wrenches, as per specifications.

Proposal No. 1058, opening of August 2, 1918.—Tool grinders and attachments, as per specifications.

RULES GOVERNING THE ISSUE OF RIFLES AND AMMUNITION TO THE HOME GUARDS

The War Department authorizes publication of the following:

SPECIAL REGULATIONS No. 37.

WAR DEPARTMENT,
Washington, May 13, 1918.

The following law, regulations, and instructions governing the issue to States and Territories and the District of Columbia of rifles and other property for the equipment of organizations of Home Guards are published for the information and guidance of all concerned, and supersede the edition of Special Regulations No. 37 of July 23, 1917.

[400.3503, A. G. O.]

By order of the Secretary of War:

PEYTON C. MARCH,
Major General, Acting Chief of Staff.

Official:

H. P. MCCAIN,
The Adjutant General.

REGULATIONS GOVERNING THE ISSUE OF RIFLES AND AMMUNITION TO HOME GUARDS.

	Paragraph.
Act of Congress	1
Definition	2
Qualification	3
Application for arms	4
Property: Description and proportion	5
Inspection	6
Accountability	7
Cost of transportation	8
Care and protection of property and spare parts	9
Damage to equipment	10
Replacement of unserviceable equipment	11
Property returns	12
Withdrawal of equipment	13

1. Act of Congress.—The act of Congress authorizing the issue to home guards is as follows:

"An act to authorize the issue to States and Territories and the District of Columbia of rifles and other property for the equipment of organizations of home guards.

"*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled*, That the Secretary of War during this existing emergency be, and he is hereby, authorized, in his discretion, to issue from time to time to the several States and Territories and the District of Columbia for the equipment of such home guards having the character of State police or constabulary as may be organized by the several States and Territories and District of Columbia, and such other home guards as may be organized under the direction of the governors of the several States and Territories and the Commissioners of the District of Columbia or other State troops or militia, such rifles and ammunition therefor, cartridge belts, haversacks, canteens, in limited amounts as available supplies will permit provided that the property so issued shall remain the property of the United States and shall be receipted for by the governors of the several States and Territories and Commissioners of the District of Columbia and accounted for by them under such regulations and upon furnishing such bonds or security as the Secretary of War may prescribe, and that any property so issued shall be returned to the United States on demand when no longer needed for the purposes for which issued, or if, in the judgment of the Secretary of War, an exigency requires the use of the property for Federal purposes: *Provided*, That all home guards, State troops, and militia receiving arms and equipments as herein provided shall have the use, in the discretion of the Secretary of War and under such regulations as he may prescribe, of rifle ranges owned or controlled by the United States of America.

"Approved, June 14, 1917."

2. Definition.—The term "home guards having the character of State police or constabulary * * * such other home guards * * * or other State troops or militia" as used in the above act is defined to mean such organizations as shall be recognized by the governors of the several States and Territories and the Commissioners of the District of Columbia, which have been made legally a part of the State forces, either by legislative enactment or by proclamation of the governor, and which units constitute a centralized force organized for the purpose of maintaining and carrying out a definite guard program for the purpose of protecting life and property throughout the State in which they are organized.

3. Qualification.—In order to receive or retain issues of rifles and equipment from the Ordnance Department each unit of the complete organization must meet the following conditions:

(*a*) Qualify within the terms of the act as defined in paragraph 2 hereof.

(*b*) The personnel of the officers and men must represent the intelligence, character, and courage of the communities in which they live and be loyal American citizens of known patriotism who have constantly supported the traditions and institutions upon which this country is founded.

(*c*) Each organization must have as a prime object for its existence the desire for service and defense of life and property and not merely the attainment of perfection in drill and maneuver.

(*d*) The governors of the States and Territories and the Commissioners of the District of Columbia to which stores have been issued shall each cause to be prepared a comprehensive program of organization, drill, instruction, and inspection, based upon the needs of the several States for guards.

These programs will be forwarded to the office of the Chief of Ordnance for his information.

Every unit of the guard should be drilled regularly under competent drillmasters in interior guard duty and riot drill, prompt mobilization, manual of arms, care of the rifle, and rifle practice.

4. Application for arms.—Every application for arms and equipment must be made by the governor of the State desiring the property and submitted to the Chief of Ordnance, Washington, D. C., on application blank furnished by the office of the Chief of Ordnance.

5. Property: Description and proportion.—The property to be issued will consist of suitable rifles and ammunition, and cartridge belts, haversacks, and canteens when a suitable supply becomes available. The amount of equipment to be issued in every case shall be determined by giving due consideration to the needs of the service and the availability of the supply.

For the present the maximum allowance of rifles per State shall not exceed 50 per cent of the average enlisted strength enrolled in the National Guard organizations of the several States as of April 1 and June 30, 1917. Based upon this apportionment, the maximum allowance to each State is as follows:

Alabama	2,417
Alaska. No National Guard.	
Arizona	334
Arkansas	1,803
California	2,861
Colorado	1,310
Connecticut	2,373
Delaware	392
District of Columbia	952
Florida	1,072
Georgia	2,440
Hawaii	1,822
Idaho	640
Illinois	5,612
Indiana	2,531
Iowa	2,517
Kansas	2,485
Kentucky	2,186
Louisiana	1,245
Maine	1,550
Maryland	2,267
Massachusetts	6,430
Michigan	2,655
Minnesota	2,160
Mississippi	1,431
Missouri	4,135
Montana	525
Nebraska	1,334
New Hampshire	980
Nevada. No National Guard.	
New Jersey	3,572
New Mexico	499
New York	15,031
North Carolina	2,307
North Dakota	664
Ohio	7,024
Oklahoma	707
Oregon	1,819
Pennsylvania	8,869
Rhode Island	1,388
South Carolina	1,521
South Dakota	1,098
Tennessee	2,108
Texas	4,028
Utah	493
Vermont	832
Virginia	2,227
Washington	1,526
West Virginia	1,566
Wisconsin	3,345
Wyoming	496
Total	118,007

6. Inspection.—The responsibility for carrying out the purposes of the law and these regulations shall rest with the governors of the several States. The Chief of Ordnance shall be permitted on his request to the governor of each State to examine into the condition of the property issued by the United States.

7. Accountability.—All material issued under the above-mentioned law shall remain the property of the United States. It shall be issued to and receipted for by the governors of the several States or Territories or the Commissioners of the District of Columbia. Before the issue of any property a bond may be required to be furnished by the governors or commissioners in favor of the United States in the penal sum of the value of the property. If a bond is required, it must be signed by the commanding officer of the Home Guard forces of the State, Territory, or District of Columbia for the use of which the property is issued, and will be conditioned on the performance of the following undertakings, namely, that said equipment will be safely kept and accounted for, and will be returned at the termination of the present existing emergency, or when no longer needed for the purposes for which issued, or returned at any time when an exigency requires the

(Continued on page 12.)

Duties of Railroad Local Treasurers Defined in Order by Director M'Adoo

The United States Railroad Administration authorizes publication of the following:

WASHINGTON, *July 19, 1918.*

GENERAL ORDER No. 37.

(1) The local treasurers appointed by Federal managers or by general managers appointed in lieu of Federal managers, shall hereafter be designated "Federal treasurers" and are expected to devote themselves exclusively to the work of the United States Railroad Administration. They ought not to handle any funds for a railroad corporation or perform any other services therefor except in special cases after obtaining express authority. The Federal treasurers should be nominated by the Federal manager (or general manager appointed in lieu of Federal manager), and the nomination, when it shall have been approved by the regional director, should be transmitted to the director of the Division of Finance for consideration and final action. In cases where Federal treasurers have already been appointed the appointments should be submitted promptly through the regional director with his recommendations for confirmation by the director of the Division of Finance.

(2) Immediately upon the appointment of Federal treasurers the designation of bank account subject to check of such Federal treasurers shall be "(name of railroad), Federal acount."

(3) (a) All cash representing receipts from the operations of its railroad since and including January 1, 1918, now in the hands of the railroad corporation for whose railroad a Federal treasurer has been appointed, or held for account of the corporation, and

(b) Any and all other cash now in the hands of such railroad corporation or held for its account for use in connection with the operation or improvement of its railroad, shall be at once transferred by the railroad corporation to accounts in the same banks in which it is now held, designated as prescribed in paragraph (2) hereof, which shall be subject to check by the Federal treasurer.

(4) Federal treasurers shall draw on the new accounts thus to be opened and subject to their check only for—

(a) The payment of materials and supplies purchased since December 31, 1917.

(b) The payment of operating expenses and taxes (other than the war-income tax and the excess profits tax) accrued since December 31, 1917; and

(c) The payment of such addition and betterment costs as may be approved by the Federal manager (or general manager appointed in lieu of the Federal manager).

Federal treasurers shall not draw on such accounts for any other purposes except when expressly authorized to do so by the director of the Division of Finance and Purchases.

(5) A specimen form of check which has been approved for use by all railroads under Government control is attached hereto. In ordering checks for the use of the railroad the Federal treasurer will follow as closely as practicable the general arrangement and language of the specimen form. The account with every bank must be stated in the name of the railroad with the name "Federal account" immediately following on the same line, as shown in the attached specimen.

(6) Until further ordered checks signed by the treasurer should be countersigned, according to the practice now in vogue on the different roads where regulations now call for such countersignatures.

W. G. MCADOO,
Director General of Railroads.

RAILROAD DIVISION OF LABOR APPOINTMENTS ARE ANNOUNCED

The United States Railroad Administration, Division of Labor, authorizes the following:

WASHINGTON, *July 26, 1918.*
CIRCULAR No. 1.

The following appointments as representatives of the division of labor are announced: William Blackman, effective July 5, 1918; John A. Moffitt, effective July 15, 1918; Anthony M. Banks, effective July 18, 1918.

These representatives of the division of labor will be assigned to conduct investigations and to represent the Division of Labor of the Railroad Administration in other specific matters to which they may be assigned affecting employees of the railroads under Federal control.

W. S. CARTER,
Director, Division of Labor.

Approved:
W. G. MCADOO,
Director General of Railroads.

RULES GOVERNING ISSUE OF RIFLES TO HOME GUARDS

(Continued from page 11.)

use of the property for other purposes, in good order and condition, reasonable wear excepted, to such officer or person as the Secretary of War may designate to receive them. The bond may be signed by two or more individuals who own property in excess of the penal sum named therein as sureties or by a surety company which has compiled with the law and the regulations of the Treasury Department and has been designated by that department as acceptable surety on Federal bonds. A certified copy of the commission of the commanding officer must be attached to the bond.

8. Cost of transportation.—The transportation of the material, authorized to be issued, from and to the Government arsenals will be without expense to the United States. Likewise, the cost of packing rifles not furnished in arm chests will be without expense to the United States, and will be paid to the arsenal or ordnance establishment making the issue before shipment is made.

9. Care and protection of property and spare parts.—Adequate provision must be made by the State to protect the stores from deterioration through the action of the elements and from loss or damage by theft or fire.

All Government property issued must be kept insured for its full value against loss by fire for the benefit of the United States by the central authorities of the several States and Territories and the District of Columbia, and the Chief of Ordnance shall be promptly informed as to when and where the insurance is placed and the date of expiration.

The State to which issues (upon request of the governor) of arms, etc., are made will be required to keep said property in like good and serviceable condition as when issued by the Government, and for this purpose the necessary spare parts will be sold at cost price. Such sales of spare parts for small arms will be made by the commanding officers of Rock Island Arsenal, Rock Island, Ill., Springfield Armory, Springfield, Mass., Benicia Arsenal, Benicia, Cal., and San Antonio Arsenal, San Antonio, Tex.

10. Damage to equipment.—When rifles and the equipment authorized to be issued are returned on behalf of the governor to the Ordnance Department by any State guard they will be examined when received at an arsenal or depot, and if they are found imperfect or unserviceable by reason of carelessness or causes other than legitimate use in service the damage, as well as the cost of all missing property, shall be made good to the United States.

11. Replacement of unserviceable equipment.—Rifles and such other equipment as have been issued under these regulations, and which have become unfit for use from any cause, will, upon the application of the governor of the State responsible for the property, with the approval and under the direction of the Chief or Ordnance, be sent to an arsenal, without expense to the United States, where they will be inspected. If their condition is found to be due to the ordinary incidents of service, they may be replaced with serviceable stores of like character; but if their condition is found to be due to carelessness or other than legitimate causes, the extent of damage or value of missing stores will be determined, and must be paid for by the responsible parties before any new issues are made.

12. Property returns.—Property returns will be made at any time upon demand or 30 days' notice by the Chief of Ordnance. Unless otherwise directed without demand, returns must be made to the Chief of Ordnance on December 31 and June 30 of each year.

13. Withdrawal of equipment.—Failure on the part of any State guard to comply with the spirit and intent of these regulations, or with any others that may lawfully be prescribed for the care, preservation, and accountability of any rifles or equipment issued on request of the governor of the State, and by virtue of the provisions of the act set out in paragraph 1 hereof, will be considered sufficient cause for the prompt withdrawal by the Secretary of War of the Government property in the custody of the governor of the State, Territory, or Commissioners of the District of Columbia.

In the case of failure to return the rifles or equipment that have been issued upon demand, or 30 days' request made by the Secretary of War, addressed to the governor accountable for same, the delinquency will be referred to the Attorney General of the United States for proper action by him.

SHIPPING BOARD ISSUES STATEMENT CONCERNING THE STRIKE RESOLUTION AGAINST LAKE CARRIERS' ASSOCIATION

SITUATION IS REVIEWED

Analysis Made of Certain Contentions Made by Seamen's Union—Issued Because the "Resolution is So Worded as to Make the Board Indirectly a Party to the Controversy."

The United States Shipping Board authorizes the following:

The attention of the Shipping Board has been called to a joint strike resolution which has been voted upon by members of the Sailors' Union of the Great Lakes and of the Marine Firemen, Oilers, and Watertenders' Union. The resolution calls for a strike effective July 29, 1918, against the Lake Carriers' Association, which transports the bulk of the iron ore, wheat, and coal on the Great Lakes. The Shipping Board issues this statement because the resolution is so worded as to make the board indirectly a party to the controversy.

Reasons Given for Strike.

The first reason given in the resolution for striking is to compel the Lake Carriers' Association to cooperate with the Government in the training and recruiting of seamen on the lakes. The board has not decided to use the Great Lakes for training and recruiting mariners, as it has used the coast, but has left that field largely to the United States Navy. It is the understanding of the board that the Lake Carriers' Association have fully cooperated in the training of men with the Naval Auxiliary Reserve. However patriotically conceived this part of the resolution may be, it can not constitute a ground for a strike.

Second Ground of Resolution.

The second ground in the resolution is that the Lake Carriers' Association refused to attend the National Marine Conference in May, 1918. This statement is true. Shipping interests and representatives of marine labor from all over the Nation attended the National Marine Conference in May, at the invitation of the board, to discuss ways and means of bettering water transportation through the cooperation of employer and employees. The Lake Carriers declined to attend on the ground that such attendance would be a recognition that organized labor represented their employees, which they denied, and accordingly met the Shipping Board in separate conference. For a number of years the Lake Carriers' Association has not dealt with representatives of organized labor on their vessels. The Shipping Board regrets the attitude of the Lake Carriers in this respect; but in view of the national labor policy promulgated by the President's proclamation of April 8, 1918, it did not feel that it would be justified in forcing the Lake Carriers to meet with representatives of the unions.

Welfare Plan Discharge Book.

The next point raised in the strike resolution refers to an award of the Shipping Board relative to the Welfare Plan Discharge Book. This issue was referred to the Shipping Board for decision by both parties on September 28, 1917. At that time the chief objections of the men were to the provision for recording in the book the continuous discharge of the seamen and to the provision permitting the master to enter a personal opinion of the seaman's service. The unions claimed that these features were used to "blacklist" union men. After a thorough investigation the Shipping Board in November, 1917, issued a decision abolishing the continuous discharge book. With the opening of navigation in the spring the Lake Carriers' Association issued new welfare books, omitting the discharge and opinion features. The unions made strenuous objections to the issuance of these books, stating that they were still used to discriminate against union men.

Ruling After Conferences.

After repeated conferences the Shipping Board, through two communications to the Lake Carriers' Association, dated June 14 and July 16, respectively, ruled that the welfare books should altogether be abolished. The last decision stated that if a simple certificate of membership were to be issued in place of the welfare book which had been abolished, such certificate "should not be in book form nor accompanied by a container, and should state on its face that it is the property of the man to whom it is issued. The holder of such certificate should not be required at any time to dispose of his certificate or to deposit it, nor should he be required to produce it at the time of hiring." The decision also stated that "It is the intent of this finding that seamen should be employed solely with reference to their fitness for the work, and not with reference to membership in the welfare plan, nor with reference to affiliation with, or activity in, any union. With the foregoing modification in force, the Shipping Board believes that the welfare plan will not be open to the charge of being an instrument for discrimination against union men."

The Lake Carriers' Association have taken steps to comply with the above award.

Considers Objections Met.

By these decisions the Shipping Board considers it has met the reasonable objections of the unions concerning the discharge-book feature of the welfare plan.

The strike resolution also contains certain demands for increases in wages and payment for overtime. As suggested in the resolutions, this question may be left to arbitration by any impartial tribunal agreeable to both sides. In September, 1917, when the question of wages was referred to the Shipping Board for decision, an order was issued within three days granting in full the scale requested by the unions.

On the question of overtime the board has recently issued a ruling to the effect that there shall be no overtime work on Lake carrier vessels. The Shipping Board will shortly appoint representatives on the principal Lake ports to investigate and adjust complaints arising with respect to the overtime ruling, alleged violations of the seamen's act, and generally such difficulties as may arise between seamen and the vessel operators.

Reports Concerning Strike.

The Shipping Board has heard that in the event of a strike against the Lake Carriers' Association it is the intention of the union to call out seamen on boats of other lines which afford the union fullest recognition and against whom no demands have been ulled. The Shipping Board does not believe that the leaders of the unions involved contemplate this step, which can have no bearing on their issues with the Lake Carriers' Association other than to harrass this Government [illegible] taking further action favorable to them.

In issuing this statement the Shipping Board has gone fully into the grievances mentioned in the joint strike resolution because of the grave menace to the national safety involved in a strike on the Great Lakes. A stoppage of the movement of the Lake Carrier vessels would cut off the supply of ore needed in the manufacture of plates for shipbuilding and many other essentials of war, and would jeopardize the movement of wheat to our army abroad and to our allies. No strike should be called which might be based upon a misunderstanding of what has happened or which is capable of a different solution. In view of the facts above outlined the Shipping Board does not feel that there are any grievances of such nature as to justify a strike at this time.

EDWARD N. HURLEY,
Chairman of the U. S. Shipping Board.

KEPT BUSY PRINTING STAMPS.

Engraving Bureau Taxed to Keep Up With War-Savings Demand.

The National War Savings Committee authorizes the following:

An index to the success of the June war savings campaign is found in the fact that, despite the heavy reserve supply of war savings stamps accumulated in banks and post offices throughout the country in preparation for the campaign, the further requisitions upon the Bureau of Engraving at Washington were so heavy as to exhaust the supply of war savings and thrift stamps there. At one time last week the Bureau of Engraving was forced temporarily to cease entirely the production of postage stamps and to concentrate exclusively on the production of war savings stamps.

Every hour brings to the Washington headquarters of the National War Savings Committee further encouraging reports as to the result of the June campaign. Among the States claiming success are Alabama, Arizona, California (North), California (South), Colorado, Connecticut, Iowa, Kansas, Louisiana, Mississippi, Montana, Nebraska, North Carolina, North Dakota, Oklahoma, Oregon, Pennsylvania (West), South Dakota, Tennessee, Utah, West Virginia, Wisconsin.

NATIONAL BANK CHARTERS APPLIED FOR AND GRANTED

Applications to the Comptroller of the Currency during the week ending Friday, July 26, 1918, for authority to organize national banks and to convert State banks into national banks; charters issued; charters extended and reextended; increases and reductions of capital approved; changes of title approved and national banks placed in voluntary liquidation.

APPLICATIONS FOR CHARTER.

For organization of national banks:

	Capital.
The People's National Bank of Wellston, Ohio	$100,000
The First National Bank of Musselshell, Mont	25,000
The First National Bank of Matoaka, W. Va	25,000
The First National Bank of Trenton (P. O. Barneveld), N. Y	25,000
Total	175,000

CHARTERS ISSUED.

Original organizations:

The First National Bank of Roxboro, N. C	$50,000
The First National Bank of Spring Mills, Pa	25,000

Conversion of State banks:

The Hastings National Bank, Hastings, Minn.; conversion of the German-American Bank of Hastings	50,000
The Army National Bank of Belmont (P. O. Camp Pike), Ark.; conversion of the Army Bank of Camp Pike, Belmont	25,000
Total	150,000

INCREASES OF CAPITAL APPROVED.

The People's National Bank of Bronson, Mich.; capital increased from $25,000 to $50,000	$25,000
The First National Bank of Brillion, Wis.: capital increased from $25,000 to $35,000	10,000
The First National Bank of Elizabeth City, N. C.; capital increased from $100,000 to $200,000	100,000
Total	135,000

CHARTERS EXTENDED.

The New England National Bank of Kansas City, Mo.; charter extended until close of business on July 24, 1938.

CHARTERS REEXTENDED.

The Jefferson County National Bank of Brookville, Pa.; charter reextended until close of business on July 26, 1938.

CHANGES OF TITLE APPROVED.

The First National Bank of Elizabeth City, N. C.: title changed to "The First & Citizens National Bank of Elizabeth City."

Cotton Fabrics Price Differentials Announced by War Industries Board

The War Industries Board authorizes the following:

In accordance with the agreement between the representatives of the cotton industry and the price-fixing committee of July 1, 1918, the following differentials, based on the prices then agreed to, have been fixed by the price-fixing committee, to remain in effect until October 1, 1918. In fixing these prices the committee wishes to lay stress upon the fact that the spirit of the agreement must govern all sales prices of cotton fabrics regardless of the fact that it is only possible from time to time to issue schedules of prices on particular specific lines.

ORDERED TO WASHINGTON.

Special orders No. 166:

236. Maj. John Howland, Medical Reserve Corps, is assigned to active duty, effective in time to comply with this order, and will proceed to Washington, D. C., and report in person to the Surgeon General of the Army on or about July 23, 1918, for duty in his office.

LIST OF PURCHASE ORDERS AND CONTRACTS PLACED BY THE ORDNANCE DEPARTMENT OF THE U. S. ARMY

The Army Ordnance Department authorizes publication of the following list of contracts and purchase orders:

The Remington Typewriter Co., New York, N. Y., models of bomb-release mechanism.

Edward G. Budd Manufacturing Co., Philadelphia, Pa., airplane flares.

Edward Hill's Sons Co., Inc., New York, N. Y., refined metal antimony.

American District Steam Co., North Tonawanda, N. Y., pumps and accessories on gun carriage.

Graton & Knight Manufacturing Co., Worcester, Mass., pistol holsters.

Wolf Manufacturing Co., Quincy, Ill.; Wallace & Smith Co., Milwaukee, Wis.; Rice, Sorin Co., Muskegon, Mich.; Keyston Bros., San Francisco, Cal.; George Lawrence Co., Portland, Oreg.; and Straus Saddlery Co., St. Louis, Mo., artillery saddles.

American Hardware Corporation, New Britain, Conn., belt fasteners.

G. E. Prentice Manufacturing Co., New Britain, Conn., double brass wire hooks.

L. Frank Saddlery Co., San Antonio, Tex., artillery saddles.

P. I. Cronin Co., Portland, Oreg.; George Lawrence Co., Portland, Oreg.; and Indianapolis Saddlery Co., Indianapolis, Ind., gunslings.

Winchester Repeating Arms Co., New Haven, Conn., leather caps for telescopic sights for rifles.

G. W. J. Murphy Co., Amesbury, Mass., brass staples.

Bradford Dyeing Association, New York, N. Y., gray duck.

Greenfield Tap & Die Corporation, Greenfield, Mass., reamers.

Westinghouse Electric & Manufacturing Co., East Pittsburgh, Pa., dummy shinkle hand grenades.

Salta Textile Manufacturing Co., Bridgeport, Conn., spun silk for powder bags.

Lansing Co., New York, N. Y., miscellaneous storehouse trucks.

The Howe Scale Co., New York, N. Y., dormant scales, portable platform scales, and box trucks.

E. F. Houghton & Co., Philadelphia, Pa., cosmic.

Poole Engineering & Machine Co., Baltimore, Md., ammunition for navy type semi-automatic gun.

Standard Sanitary Manufacturing Co., Pittsburgh, Pa., machining Howitzer shells.

Dunbar Manufacturing Co., Chicago, Ill., ax handles and pockets, bucket holders, lantern brackets, strap fasteners and tool fastenings.

Four Wheel Drive Auto Co., Clintonville, Wis., spare parts for 3-ton truck.

American Lawn Mower Co., Muncie, Ind., arm repair chests.

Dove-Smith & Son, Niagara Falls, N. Y., inspection checks for chamber gauge.

Hope Natural Gas Co., Pittsburgh, Pa., kerosene saturated with dutano gas.

Rockford Leather Washer Co., Rockford, Ill., and New York Leather Belting Co., Brooklyn, N. Y., washers for trench mortar.

Lorain Steel Co., Johnstown, Pa., cast steel ingots.

Carr Fastener Co., Cambridge, Mass., fasteners for carrier grenade mechanism.

Henry Troemmer, Philadelphia, Pa., extra large dispensing scales.

Midvale Steel & Ordnance Co., Eddystone, Pa., steam vat for increased facilities.

Edward Hill's Son & Co. (Inc.), New York, N. Y., refined metal antimony.

Rock Island Arsenal, Rock Island, Ill., changing spade straps into grip straps.

Wah Chang Trading Corporation, New York, N. Y., refined metal antimony.

Whiting-Patterson Co., Philadelphia, Pa., waxed manila wrapping paper.

B. F. Goodrich Rubber Co., Akron, Ohio, miscellaneous equipment for heavy artillery repair shop.

Hutchins Car Roofing Co., Detroit, Mich., various equipment for 5-ton tractor and tool fastenings.

Carr Fastener Co., Cambridge, Mass., fasteners for pistol belt.

Lehigh Machine Co., Lehighton, Pa., inspection gauges.

Chatham Machine & Tool Works, New York, N. Y.

T. R. Almond Manufacturing Co., Ashburnham, Mass., metric calipers.

Rochester Box & Lumber Co., Rochester, N. Y., packing boxes.

Standard Car Construction Co., Sharon, Pa., tank cars for acid.

J. G. Brill Co., Philadelphia, Pa., bed plates and girders with spare parts.

New York Revolving Portable Elevator, No. 1800 revelator.

Carbon Steel Co., Pittsburgh, Pa., steel armor plate.

Winchester Repeating Arms Co., New Haven, Conn., spare parts for gun.

Scovill Mfg. Co., Waterbury, Conn., point detonating fuses for drop bombs.

Carnegie Steel Co., Pittsburgh, Pa., shell steel billets.

Hewes & Potter, Boston, Mass., pick mattock carriers and hand axe carriers.

American Brass Co., Waterbury, Conn., grommets and washers for rifle scabbard.

Carr Fastener Co., Cambridge, Mass., pouch fasteners and fasteners for pistol belt with saber ring.

Wellington, Sears & Co., Boston, Mass., and Newburgh Carpet Co., Newburgh, N. Y., gray duck.

Union Petroleum Co., Philadelphia, Pa., petrolatum.

Minneapolis Steel & Machinery Co., Minneapolis, Minn., dummy gun for assembling gun carriage.

Cleveland Twist Drill Co., Cleveland, Ohio, small tools for mobile repair shops.

Beaker Mfg. Co., St. Louis, Mo., intrenching pick mattock carriers.

Turner & Seymour Mfg. Co., Torrigton, Conn., ring for pack saddletree and clips and rings for ration bag.

Warner Auto Top Co., Cincinnati, Ohio, pack carriers.

Twin City Tent & Awning Co., Benton Harbor, Mich., canvas covers for artillery repair bodies.

Mount Vernon Woodberry Mills (Inc.), New York, N. Y., gray duck.

L. C. Chase & Co., Boston, Mass., lined horse covers.

Curran & Barry, New York, N. Y., gray duck.

Koken Barber Supply Co., St. Louis, Mo., saber scabbard bodies.

John Gay's Sons (Inc.), Philadelphia, Pa., gray duck.

Sears Saddlery Co., Davenport, Iowa, pannier packs.

R. H. Long, Framingham, Mass., cartridge belts.

The Gould-Mersereau Co., New York, N. Y., strap loop for ration bag.

Marshall-Wells Co., Duluth, Minn., pannier packs.

G. E. Prentice Manufacturing Co., New Britain, Conn., labor and equipment for making tongueless bar buckles.

Traut & Hine Manufacturing Co., New Britain, Conn., hard brass wire for hand-ax carriers.

Progressive Knitting Works (Inc.), Brooklyn, N. Y., carrying cases for Browning Colt light rifle.

Yale & Towne Manufacturing Co., Stamford, Conn., gun-sling hooks.

Rock Island Arsenal, Rock Island, Ill., coronas.

Brighton Mills, Passaic, N. J., gray duck.

M. & C. Skirt Co., Boston, Mass., belt suspenders for haversack.

Nye & Wait Kilmarnock Corporation, Auburn, N. Y., gray duck.

G. W. J. Murphy Co., Amesbury, Mass., foot staples.

Winchester Repeating Arms Co., New Haven, Conn., tumbling barrel for bullets.

Atwater Kent Manufacturing Co., Philadelphia, Pa., angle of sight instruments.

Raymer Hardware Co., St. Paul, Minn., arm repair chests.

St. Joseph Lead Co., New York, N. Y., soft virgin pig lead.

General Chemical Co., New York, N. Y., sulphuric acid and oleum.

Grasselli Chemical Co., New York, N. Y., sulphuric acid.

Kohler Co., Kohler, Wis., proof projectiles.

H. W. Cotton (Inc.), New York, N. Y., inspector gauges for steel shell.

J. J. Mason, New Haven, Conn., electrotype plate for two-color printing machine.

The General Fireproofing Co., Youngstown, Ohio, prideaux links for cartridges.

Single Service Package Corp. of America, New York, N. Y., boxes for grenade bodies, silicate of soda.

Warner Auto Top Co., Cincinnati, Ohio; James Phelan & Sons, Lynn, Mass.; and R. H. Long, Framingham, Mass., breech lock mechanism covers.

F. M. Hoyt Shoe Co., Manchester, N. H., pannier packs.

Wm. L. Barrell & Co., New York, N. Y., olive-drab fiber duck.

R. H. Long, Framingham, Mass., pannier packs.

Kemper-Thomas Co., Cincinnati, Ohio, carrying case for Browning-Colt machine rifles.

Hewes & Potter, Boston, Mass., hand ax carriers.

R. H. Long, Framingham, Mass., covers for Vickers & Browning heavy machine guns.

Morton E. Converse & Sons, Winchendon, Mass., packing boxes for trench mortar shell.

Illinois Steel Co., Chicago, Ill., steel shell billets.

Grasselli Chemical Co., New York, N. Y., nitric acid.

National Vacuum Machinery Co., Dayton, Ohio, control handles for bomb release.

Nicholson File Co., Providence, R. I., files.

H. Channon Co., Chicago, Ill., retracting and drag rope.

North & Judd Manufacturing Co., New Britain, Conn., roller buckles, bronze and carbon steel rings for McClellan saddles, halters, center bar buckles and brow band ornaments for cavalry bridles.

Tuttle & Bailey Manufacturing Co., Brooklyn, N. Y., center bar buckle for cavalry bridle.

Van Nostrand Saddlery Co., Muscatine, Iowa, pannier packs.

Kemper-Thomas Co., Cincinnati, Ohio, breech mechanism covers.

McIntyre Burrall Co., Green Bay, Wis., and Wolf Manufacturing Co., Quincy, Ill., pannier packs.

Mount Vernon-Woodberry Mills (Inc.), New York, N. Y., gray duck.

North & Judd Manufacturing Co., New Britain, Conn., Saalback buckle for cavalry bridle.

Parker, Wilder & Co., New York, N. Y., gray duck.

Tuttle & Bailey Manufacturing Co., Brooklyn, N. Y., gun sling hooks and loops.

Newburgh Carpet Co., Newburgh, N. Y., gray duck.

Watertown Arsenal, Watertown, Mass., miscellaneous equipment for seacoast guns.

The Yale & Towne Manufacturing Co., Stamford, Conn., liquid and air pumps, filling pipe.

Sargent & Co., New Haven, Conn., Shaw loading machines.

Marlin Rockwell Corporation, New Haven, Conn., heavy [illegible] valves to air tank type.

Starr Piano Co., [illegible] blanks.

Smith Worthington Co., New York, [illegible] dust guards for wheels.

John Reilly Co., Newark, N. J., russet strap leather backs.

Newburgh Carpet Co., Newburgh, N. Y., gray duck.

Kemper-Thomas Co., East Norwood, Ohio, canvas watering buckets.

The Nash Motors Co., Kenosha, Wis., repair parts for Nash "Quad" trucks.

Four Wheel Drive Auto Co., Clintonville, Wis., [illegible] and main [illegible] tion trucks.

Plant Bros. & Co., Manchester, N. H., canvas covers for artillery repair bodies.

Waterbury Buckle Co., Waterbury, Conn., gun sling hooks.

Wellington Sears & Co., Boston, Mass., gray duck.

Plume & Atwood Mfg. Co., Waterbury, Conn., oval head brass rivets and furrs.

Tuttle & Bailey Mfg. Co., Brooklyn, N. Y., belt fastener.

Plant Bros. & Co., Manchester, N. H., canvas covers for artillery repair bodies.

Rock Island Arsenal, Rock Island, Ill., curry combs.

Tuttle & Bailey Mfg. Co., Brooklyn, N. Y., center bar buckle.

Turner & Seymour Mfg. Co., Torrington, Conn., center bar buckle for cavalry bridle.

Russell & Erwin Mfg. Co., The American Hardware Corporation, Successor, New Britain, Conn., center bar buckles.

Rock Island Arsenal, Rock Island, Ill., curb bit and chain for cavalry bridle.

Waterbury Buckle Co., Waterbury, Conn., and the Warner Bros. Co., Bridgeport, Conn., ovals for McClellan saddle.

Waterbury Buckle Co., Waterbury, Conn., brass shields for McClellan saddle.

North & Judd Mfg. Co., New Britain, Conn., brass ovals for McClellan saddle.

Tuttle & Bailey Mfg. Co., Brooklyn, N. Y., bronze rings for [illegible] saddle.

Turner & Seymour Manufacturing Co., Torrington, Conn., saddlebag studs.

New England Spruce Lumber Prices and the Procedure for Distribution Announced by War Industries Board

The War Industries Board authorizes the following maximum prices for and procedure for distribution of New England spruce lumber:

After considering the information submitted by the Federal Trade Commission as to the cost of manufacturing New England spruce lumber and the information submitted by the representatives of the manufacturers thereof at the hearings held on the 18th of July, 1918, at which their request for a readjustment of prices on their products was heard, the Price-Fixing Committee appointed by the President has determined, by agreement with the said representatives of the manufacturers of New England spruce lumber, upon the following maximum prices for such lumber. These maximum prices shall not be exceeded on any sales and contracts for sale (for mill shipment) made by manufacturer, dealer, or other person during a period beginning midnight July 19, 1918, and ending midnight November 1, 1918, to the Government, to the Governments of the nations associated with us in the present war, to the railroads, or to such others as customarily purchase lumber for mill shipment, whether by rail or by water.

MAXIMUM BASE PRICES.

The prices of all New England spruce lumber in the States of Maine, New Hampshire, Vermont, and Massachusetts shall not exceed the item prices named in attached list. These prices are for New England spruce lumber delivered (freight allowed) to Boston, Mass. They do not include war tax on freight bills. For shipments to other destination points freight adjustments will be governed by differentials shown in Bangor & Aroostook Railroad lumber tariff on basis of 3,000 pounds weight to 1,000 feet of lumber.

Prices on items not covered by the above list shall be priced on basis of nearest comparable item.

The usual trade practices shall continue, including cash discount of 1 per cent in 15 days or 30 days net.

Contracts for the sale of lumber entered into in good faith prior to midnight July 19, 1918, and enforcible at law, will be performed in accordance with their terms, subject, of course, to orders received from the Government which may require priority.

It is imperative that, with the least possible disruption of the industry, the vast war needs of the Government, both direct and indirect, for New England spruce lumber be supplied on a fair basis, that an adequate supply and equitable distribution thereof be assured for essential commercial needs, that the movement thereof be facilitated and that injurious speculation therein be prevented. Therefore the procedure outlined below, by agreement with the representatives of the manufacturers of New England spruce lumber, has been adopted for a period beginning midnight July 19, 1918, and ending midnight November 1, 1918.

The procedure is that each manufacturer of New England spruce lumber shall:

(1) Make contracts and accept orders for his product at prices not in excess of the applicable maximum prices, always subject to an option at the applicable maximum prices in favor of the United States or the nominee of the War Industries Board. Under this option, which will cover all New England spruce lumber down to time of actual delivery to the purchaser, the War Industries Board to any extent required will allocate either to the Government or to other essential users. Any balance not so allocated will be released for sale to commercial buyers, but at prices no greater than those determined upon as above set forth.

(2) Comply with the directions of the War Industries Board, as issued from time to time, with reference to filling commercial requirements in the order of their public importance and to furnishing such information and making such reports as may be required.

(3) Keep up to the best of his ability the production of spruce lumber so as to insure an adequate supply so long as the war lasts.

(4) Neither reduce the scale of wages now being paid nor change fundamental labor conditions now in force.

Government to Apportion Cars.

The Government will apportion the car supply available for lumber and arrange for its transportation, subject to allocation by the War Industries Board as aforesaid, to the end that injury to the industry due to abnormal war-time conditions be neutralized so far as may be.

Foreign trade, except to the Governments of nations associated with us in the present war, is not to be affected by this ruling.

Governmental maximum prices on New England merchantable spruce lumber, effective midnight July 19, 1918, to and including November 1, 1918, covering States of Maine, New Hampshire, Vermont, and Massachusetts.

DIMENSION.

SPECIFIED LENGTHS 20 FEET AND UNDER

1 x 2 d1S to 1⅞ inches	$48.00

2 x 8 inches	43.00
2 x 9 inches	45.00
2 x 10 inches	50.00
2 x 12 inches	55.00
3 x 4 D1E to 3⅞ inches	40.00
4 x 4 inches	40.00

All 8-inch and under sizes, random lengths, including timber, not specified above, $43.

All above prices are for rough lumber unless otherwise specified.

For planing 1 side add ____ per M	$0.50
For planing 2 sides add ____ do	1.00
For planing 1 or 2 sides and matching or grooving add ____ per M	1.50
Beading (extra) ____ do	.50
For planing 4 sides add ____ do	1.50
1 x 4 to 8 planed 1 side, random widths and lengths	41.00
1 x 5 and up planed and matched, random widths and lengths	43.50
1 x 5 and up planed and matched, random widths, all even lengths 10 x 18′	41.00
Ship lap, 5, 6, and 7″ random lengths	46.00
Ship lap, 8″, random lengths	48.00

Basis of Comparison.

Prices on items not covered by above list shall be priced on basis of nearest comparable item.

These prices allow the present rate of freight to Boston, Mass. They do not include war tax on freight bills. For shipment to other destination points freight adjustments will be governed by differential shown in Bangor & Aroostook Railway lumber tariff on basis of 3,000 pounds weight to 1,000 feet of lumber.

Terms of settlement: One per cent discount for cash within 15 days or 30 days net from date of shipment. Eastern merchantable inspection to govern.

All freight rates subject to change up or down according to any changes by railroads in present rates.

Official Bulletin

PUBLISHED DAILY under order of THE PRESIDENT of THE UNITED STATES by COMMITTEE on PUBLIC INFORMATION
GEORGE CREEL, Chairman ★ ★ ★ COMPLETE Record of U. S. GOVERNMENT Activities

VOL. 2 WASHINGTON, TUESDAY, JULY 30, 1918. No. 373

INDUSTRIAL SERVICE SECTION OF ORDNANCE IS REORGANIZED

Four Branches Constituted Under Separate Heads and Three Branches Transferred.

The War Department authorizes the following:

Maj. Gen. C. C. Williams, Chief of Ordnance, announces the reorganization of the industrial service section of the Ordnance Department, under Maj. B. H. Gitchell.

Includes Four Branches.

As reorganized, the industrial service section includes four branches—the administrative branch, under Maj. W. C. Rogers; the mediation branch, under Maj. James Tole; the women's branch, with Mrs. Clara M. Tead acting as head in place of Miss Mary Van Kleeck, recently appointed chief of the women industry service of the Department of Labor; and the community organization branch, under Mr. Fred C. Butler. What was formerly the employment branch, under Maj. F. W. Tully, now detailed as aid to Dr. E. M. Hopkins, of the office of the Secretary of War, is continued under the administrative branch. Capt. J. F. McTyer has been placed in charge of the industrial service section representatives stationed in each of the 10 production districts of the country.

Transferred to Staff Section.

Three branches of the industrial service section have been transferred to the staff section, under Maj. G. J. Siedler. These are: The safety and sanitation branch, under Capt. A. R. Reiley; the housing branch, under Maj. A. J. S. Holton; and the emergency labor production branch, under Capt. James L. Madden.

All Records Are Broken In Acceptance of Rifles

The War Department authorizes the following from the Ordnance Department:

All previous records for inspection and acceptance of rifles were broken last week, when at one plant in a single day 7,000 rifles were turned over to the Government.

MEXICAN IMPORT TAX ON BEER.

Consul General George A. Chamberlain, Mexico City, reports:

It is unofficially reported that the Mexican import duty on foreign manufactured beer has been lowered from 30 to 9½ centavos Mexican gold per kilo.—Commerce Reports.

Success Means Greater Efforts to Win War Says Secretary Baker

In his daily interview with the press on Monday Secretary Baker said:

The progress of the Allied Armies in the Soissons-Rheims salient is continuing. Substantial gains have been made on both Saturday and Sunday. It is fortunate that our people are accepting this success with a true measure of its significance. It is, of course, a cause for congratulation and rejoicing but would by no means justify any relaxation of our effort. It means that we must redouble our effort.

TEN SANTO DOMINGO BANDITS ARE KILLED BY U. S. MARINES

Secretary Daniels authorizes the following:

Dispatches received from Santo Domingo state that a detachment of United States Marines, Capt. Charles F. Merkel, commanding, encountered bandits led by Racomon Quiara, near Vicentillo Province. A corporal, one Dominican Guardia officer and one enlisted man were slightly wounded. Ten bandits were killed and several wounded. The bandits, who are Dominicans and Haitians, split up into small bands.

Bandits, led by Natara, attacked Colonia Digola Compania, near Sante Fe, Province of Macoria, and wrecked stores. Natara was wounded by a local police officer, who was wounded and died. The bandits left, but later were reinforced.

Encounter at Magarin.

On July 23 our troops encountered bandits at Magarin, Province of Seibo, killed and wounded several and captured 50 horses. There were no casualties in our forces.

A detachment of marines at Gato, Province of Seibo, were attacked by 30 bandits. A sentry was slightly wounded. The bandits lost four killed.

You may not be able to fight, but you can save and buy war-savings stamps.

PLAN OF GOVERNMENT LOANS TO RELIEVE WHEAT GROWERS IN WESTERN DROUGHT SECTION

TO ENABLE NEW FALL PLANTING

Basis and Purposes of Advances Through Land Banks From Fund Set Aside by President Wilson Explained in Joint Statement.

The following statement is given out by the Treasury Department and the Department of Agriculture:

Acting upon the urgent representations that many wheat growers in certain sections of the West who have lost two successive crops by winter-killing and drought have exhausted their resources and may be compelled to forego fall planting and, in some cases, to abandon their homes unless immediate assistance is extended, the President, on Saturday, July 27, placed at the disposal of the Treasury Department and the Department of Agriculture the sum of $5,000,000 to enable them to furnish aid to that extent. The two departments are already actively at work formulating plans for making loans under this authorization and complete details will be announced within the next few days and operations begun.

Loans Through Land Banks.

It may be stated generally that the Federal land banks in the districts affected will be designated by the Secretary of the Treasury as the financial agents of the Government to make the loans and to collect them. The Department of Agriculture, through its special officers, including the county agents, will ascertain the needs of the individual farmers and determine the feasibility of the planting.

The primary object of this fund is not to stimulate the planting of an increased fall acreage of wheat or rye in the severely affected drought areas, or even necessarily to secure the planting of a normal acreage, but rather to assist in tiding the farmers over the period of the stress, to enable them to remain on their farms to plant such an acreage as may be determined to be wise under all the conditions, with a view to increase the food supply of the Nation and to add to the national security and defense. It is distinctly not intended to be used to stimulate the planting of wheat or any other grain where such planting is not wise from any agricultural point of view and where other activities are safer.

Primary Use of the Fund.

It is not intended that this fund shall be used to make loans to farmers who have banking collateral and can otherwise secure loans. The recent action of the

(Continued on page 3.)

VAST HOUSING PLANS COMPLETE FOR HAMPTON ROADS DISTRICT

The Department of Labor authorizes the following:

The Bureau of Industrial Housing and Transportation announces the completion of plans for housing projects in the Hampton Roads district. This is probably the most congested district in the United States.

The navy yard at Portsmouth, the Newport News Shipbuilding & Dry Docks Co. at Newport News, and the Railroad, Food, and Fuel Administrations have depots there. The war population is estimated at from 50,000 to 70,000.

Four Developments Planned.

The housing corporation is planning four developments in the region. The first is designed for the Norfolk district, near the Army and Navy bases. About 500 houses of 5 and 6 rooms each will be built for white workers.

The contract for the construction of about 1,000 houses adjacent to the navy yard at Portsmouth, constituting the second development, has been awarded to the Hegaman-Harris Co., of New York City. This project also includes schools, shops, a fire station, and a motion-picture theater.

Houses for Colored Workers.

In Portsmouth about 300 houses will be built for the colored workers. These will be a story and a half in height and will consist of four and five rooms, and will be provided with all modern sanitary conveniences. The plans have been completed and will go out to contractors about the middle of the week.

In all of these developments the problem facing the housing corporation is larger than the mere building of houses, because of the overburdened condition of all public utilities.

Houses Nearing Completion.

In the Newport News section a large group of houses is nearing completion. These are being built under the direction of the Shipping Board. The homes thus provided will, however, fall short of the actual need, and accordingly the Bureau of Industrial Housing and Transportation is engaged on a survey to determine the extent of necessary additions. It is expected that housing will have to be provided for a large number of families of colored workers, as well as a considerable addition to the new community already in existence at Hilton.

BIDS FOR SEWER PIPING.

The Department of the Interior issues the following:

Sealed proposals in duplicate will be received at the department until 2 o'clock p. m. Wdenesday, August 14, 1918, and then opened, for furnishing and laying sewer pipe, including manholes, complete, at St. Elizabeths Hospital, Washington, D. C., in accordance with plans and specifications, copies of which may be obtained from the chief clerk of the department. Proposals must be marked "Proposals for furnishing and laying sewer pipe at St. Elizabeths Hospital," and be addressed to the Secretary of the Interior.

S. G. HOPKINS,
Assistant Secretary.

HOW CENSUS CLERKS ASSISTED IN PREPARING AN INDUSTRIAL INDEX OF DRAFT REGISTRANTS

The Department of Commerce authorizes the following:

Classification of occupations for the use of the Provost Marshal General.

This work was undertaken at the written request of the Provost Marshal General under date of December 21, 1917, to the effect that a detachment of skilled workers from the Bureau of the Census, Department of Commerce, be sent to the War Department to train the clerks of that department who were to be assigned to the preparation of an industrial index of registrants under the selective service act. Previous to this request, several conferences had been held at the Bureau of the Census by members of the staff of the Provost Marshal General, at which conferences it had been decided to use the census scheme of classification of occupations in the preparation of the industrial index. The preparation of this index consisted in classifying cards for registrants according to occupational skill or experience, these cards having been prepared at the local boards from questionnaires filled by the registrants themselves, and then transmitted to the War Department.

Thirty Census Clerks Assigned.

Some work was done during the latter part of December and in January in making estimates as a basis of the plan, in compiling and printing the lists to be used, and in general preparatory work. It was not until the middle of February, however, that a sufficient number of cards had been received at the War Department to begin the actual work of classification, and on the 14th of February seven census employees were detailed for this purpose, seven having been previously assigned at intervals from January 30 to February 12 to arrange for the preliminary steps of the work. About a week later the number of census employees was increased to 30, and the greater part of these experienced census employees, under the direction of Mr. William C. Hunt, chief statistician for population, was used until July 1, a period of 4½ months, in supervising and guiding the work of about 250 clerks employed by the War Department, the work being done in the old Land Office Building.

The cards were received by the War Department in packages from each State local board, and after examination for completeness of return, stamping of local board number, etc., were turned over to the representatives of the Bureau of the Census for classification according to occupations. The method adopted for this classification work was predicated upon the assumption that a very considerable proportion of the registrants would be found in the more common occupations and that the handling of between 8,000,000 and 9,000,000 hand-written cards could be largely reduced to a mechanical basis and their occupational classification thereby materially quickened.

The total number of cards received to the end of June, 1918, and classified under the direction of the expert census force, was 8,147,034. The number of cards handled and classified under the various steps of the work is shown by the following statement:

Process of work.	Cards handled.	Cards classified.	
		Number.	Per cent of total.
Sorting	8,147,034	3,421,754	42
Coding from lists	4,725,280	2,688,520	33
Coding from printed index	2,036,760	1,384,996	17
Coding from special sources	651,764	651,764	8
Total	15,560,838	8,147,034	100

As the classification of the 8,147,034 cards was also verified, the total number handled, for all purposes, was 23,707,872 cards, representing almost three handlings of the actual number of cards received. The time devoted by employees of the Bureau of the Census to this work was equivalent to 3,253 days of work for one clerk.

The energy and industry displayed by the experienced census employees engaged in this work calls for the highest commendation. The work in some respects was most perplexing and could not have been successfully handled by a less experienced force of census assistants. The high tribute paid by the Provost Marshal General to the value of the service rendered by them is sufficient evidence of their ability and successful endeavor in the prosecution of a most important piece of war work.

FUEL ADMINISTRATION ORDER FIXING SCREENED COKE PRICE

The United States Fuel Administration issues the following:

WASHINGTON, *July 24, 1918.*

ORDER OF THE UNITED STATES FUEL ADMINISTRATOR ESTABLISHING MAXIMUM PRICES ON MIXED SIZES OF SCREENED COKE SUITABLE FOR DOMESTIC PURPOSES.

It appearing to the United States Fuel Administrator that there is a growing industry in the production of domestic fuel by screening and cleaning the accumulated breeze piles at beehive and by-product coking plants, and that a maximum price should be fixed therefor,

The United States Fuel Administrator, acting under anthority of an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that until further or other order, and subject to modification hereafter from time to time and at any time, the following regulation, additional to those already set forth, shall be in effect beginning 7 a. m. July 25, 1918:

The maximum price per ton of 2,000 pounds, f. o. b. cars at the point where produced, for mixed sizes of properly screened and cleaned beehive or by-product coke suitable for domestic purposes shall be $1 less than the maximum Government price for selected foundry coke f. o. b. cars at the same point.

H. A. GARFIELD,
United States Fuel Administrator.

POSTMASTERS INSTRUCTED ON ALIEN FEMALE REGISTRATION

Attention of Assistant Registrars Called to Rules for Return of Affidavits.

The Post Office Department authorizes publication of the following:

POST OFFICE DEPARTMENT,
FIRST ASST. POSTMASTER GEN.,
Washington, July 30, 1918.

REGISTRATION OF ALIEN FEMALES.

POSTMASTERS:

It has been brought to the attention of the Post Office Department that assistant registrar postmasters in nonurban areas are not complying with the instructions under Article X, Section A, of the regulations governing the "Registration of German alien females." Assistant registrar postmasters should carefully read and comply with the following excerpts from the regulations:

THE RETURN OF REGISTRATION AFFIDAVITS AND REPORTS ON REGISTRATION.—DUTIES OF ASSISTANT REGISTRARS.

1. In each place of registration on the day immediately after the last day upon which registration cards are directed there to be issued (See Art. IX, par. 1) the registration officer shall place together in alphabetical order three distinct, complete sets of the signed and executed registration affidavits upon which registration cards have been issued, and shall note upon each of said registration affidavits, in the place provided for that purpose, the issuance of such registration card; and he shall put together in three distinct, complete sets the signed and executed registration affidavits upon which registration cards have not been issued and shall note upon each of such registration affidavits, in the place provided for that purpose, the fact that registration cards have not been issued on such affidavits.

2. No summary sheet need be made by assistant registrars in nonurban areas.

3. Each complete set of registration affidavits upon which registration cards have been issued shall be placed in a package, separately wrapped and sealed, and indorsed by the registration officer substantially as follows:

This package contains the executed registration affidavits of _____ alien
(Give number.)
females, required to register under the President's proclamation, dated April 19, 1918, to whom registration cards were issued at

_____
(Insert designation of registration place by name of State, county, city (or town), precinct.)

_____
(Assistant registrar.)

_____
(Official title, police or post office.)

and all three sets shall be delivered by the assistant registrar, by mail or otherwise, to his chief registrar.

4. Each complete set of registration affidavits upon which registration cards have NOT been issued shall be placed in a package, separately wrapped and sealed, and indorsed by the registration officer substantially as follows:

This package contains the executed registration affidavits of _____ alien
(Give number.)
females, required to register under the President's proclamation, dated April 19, 1918, to whom registration cards were NOT issued at

_____
(Insert designation of registration place by name of State, county, city (or town), precinct.)

_____
(Assistant registrar.)

_____
(Official title, police or post office.)

and all three sets shall be delivered by the assistant registrar, by mail or otherwise, to his chief registrar.

5. Each assistant registrar shall also send to his chief registrar all unused forms of registration affidavits, registration cards, and summary sheets. He shall completely destroy any of such forms which for any reason may have been erroneously marked, torn, mutilated, or otherwise disfigured.

6. If no alien females have registered in his district, the assistant registrar shall report that fact in writing to his chief registrar.

J. C. KOONS,
First Asst. Postmaster General.

Help your Government and yourself at the same time—buy war-savings stamps.

LOANS FOR WHEAT GROWERS

(Continued from page 1.)

War Finance Corporation, indicating its willingness to make advances to banks and trust companies which have made loans to farmers and cattlemen, should ease the general financial situation and in large measure enable bankers to extend accommodations to farmers having such collateral. Banks are urged to avail themselves of the offer of the War Finance Corporation.

This fund, because of its limited amount, will be used necessarily principally in connection with the fall planting of wheat or of preferred substitute grain in the areas involved. This will not include consideration of cases of individuals who do not intend to, or who can not engage in, fall seeding who might otherwise be compelled to abandon their homes and make great sacrifices; provided sufficient funds are left after considering the pressing fall planting needs.

Basis of the Loans.

The loans will probably not be made for more than $3 an acre, and it is likely that a maximum of 100 acres in some localities and of 150 in others will be established. In addition to paying a reasonable rate of interest, each farmer will be required to contribute to an insurance fund out of the proceeds from the sale of his crops if his operations are successful.

ILLINOIS FOOD APPOINTMENT.

Robt. Stevenson, Jr., Named Deputy to State Administrator.

The Food Administration issues the following:

Robert Stevenson, jr., executive secretary to Harry A. Wheeler, Federal food administrator for Illinois, has been appointed deputy food administrator and has entered upon his duties.

The magnitude of the work in Illinois made necessary the designation of an aide with powers to act for Mr. Wheeler at times, and Mr. Stevenson's experience qualifies him eminently for the place.

SOLDIERS' BALLOTS BY MAIL AND THE OKLAHOMA STATE LAW

The Post Office Department authorizes publication of the following order:

OFFICE OF FIRST ASSISTANT
POSTMASTER GENERAL,
Washington, July 23, 1918.

All Postmasters in Oklahoma:

The department's attention has been directed to the fact that an act recently passed by the legislature of the State of Oklahoma, for the purpose of enabling the State's absent soldiers, sailors, and marines to cast their votes by mail, contains a provision to the effect that—

"Any person who shall be entitled to receive any letter or envelope marked as herein provided, before he shall take away the same, shall sign and deliver to the postmaster or his deputy clerk, a receipt therefor, which receipt shall specify how many such letters or envelopes he has received, and otherwise, as far as may be, specify the particulars or the description thereof; and any willful omission to comply with the provisions of this section shall be adjudged a misdemeanor, and any person convicted thereof shall be punished accordingly."

Under the provisions of the Postal Laws and Regulations, postmasters can not obtain addressees' receipts for letters unless sent as registered or special-delivery mail.

Steps have been taken to advise the secretary of state of Oklahoma that the department is without authority to obtain these receipts.

J. C. KOONS,
First Asst. Postmaster General.

STREET AND ROAD CONSTRUCTION CHARGED AGAINST A RAILROAD

The United States Railroad Administration issues the following:

CIRCULAR No. 44.

First. Wherever street or road construction and other public improvements are contemplated by the authorities in any State, county, district, or municipality, for which a portion of the cost in an amount exceeding five hundred dollars ($500) is to be charged against any railroad under Federal control, the authorities are requested to take the matter up with the Federal management of the road directly interested and secure the concurrence of the Railroad Administration in advance.

Second. In the event this is not done the Director General will reserve the right to decide whether or not he will participate in the payment.

3. It is not the attitude of the Director General to oppose construction of this character which is meritorious and essential. The Director General feels, however, that in the present stress as to the essential labor and material supply all work of this kind which can be postponed without injury should not be undertaken, and the railroad should not be expected to participate in the payment unless the expenditure is indispensable.

W. G. MCADOO,
Director General of Railroads.

Pledge yourself to save to the utmost and to buy a definite amount of war-sav-

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news. EDWARD S. ROCHESTER, *Editor*.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

American Communique

The following is authorized by the Secretary of War:

American Official Communique No. 76.

HEADQUARTERS AMERICAN EXPEDITIONARY FORCES, *July 29, 1918.*

Section A.—Beyond the line of the Ourcq heavy counterattacks made by fresh troops of the enemy have resulted in severe fighting. Sergy, taken by our troops yesterday, after having changed hands four times, remains in our possession.

Section B.—There is nothing to report in this section.

UNDUE INFLUENCE AFFECTING WAR SAVING STAMP PAYMENT

The Post Office Department issues the following:

OFFICE OF THIRD ASSISTANT POSTMASTER GENERAL, *Washington, July 24.*

Reports have been received indicating that in some sections of the country there have been concerted movements of certain holders of war-savings certificates to have them redeemed through post offices. Postmasters obtaining evidence that any such movement is due to enemy or pro-enemy influence or propaganda should report all facts to the inspector in charge of the division in which their office is located.

A. M. DOCKERY,
Third Asst. P. M. Gen.

America's Resources and Expenditures as Compared with Those of Germany

The Treasury Department authorizes the following:

Pessimistic Americans who view with alarm our increasing national obligations may derive a great deal of comfort from n comparison of the financial condition of the United States contrasted with that of Germany.

The total resources of the United States are estimated at about $250,000,000,000; our annual earnings are estimated at about $50,000,000,000. Our national debt, including the third Liberty loan, may be put around $12,000,000,000.

United States Prewar Expenditures.

Before the war our Government was spending about $1,000,000,000 a year. When the war is ended, interest charges, less the interest collected from our loans to our allies, Government insurance expenses, and other necessary expenditures growing out of the war may conservatively be estimated at something like $1,000,000,000. We are confronted, therefore, when peace comes, with raising only a couple of billions a year revenue, a slight task for a Nation of such tremendous wealth, capacity, and resources.

Germany's Ante-war Resources.

The resources of Germany before the war were estimated to be $80,000,000,000. The annual expenditures then of the Imperial Government were about $800,000,000. Her debt now is $30,000,000,000 and her resources and man power have been severely impaired. After the war she is confronted with additional expenditures growing out of the war totaling some $4,000,000,000.

The interest of her war debt, even if the debt grows no larger, will be about $1,500,000,000. Although she is niggardly in her pensions to private soldiers and their families, $1,000,000,000 a year would hardly suffice to pay even small pensions to her injured and the families of her soldiers who have been killed. Her war debt must be paid some time and a sinking fund of 5 per cent would add $1,500,000,000 to her annual taxation. Here is a total increase of $4,000,000,000 all due to the war.

Increase of Debts.

Of course both the United States and Germany may greatly increase their debts, but the increases will not change the relative situations.

The German Government has drained the German people of their gold, even their jewels and heirlooms, and yet the Imperial Bank of Germany now has but little over $500,000,000 of gold in its vaults. The United States has made no special effort to obtain gold, has made no call upon the people for the precious metal, and yet to-day has in its Treasury vaults practically $2,500,000,000 of gold coin and bullion.

EXPORTS FROM LONDON TO UNITED STATES FOR SIX MONTHS PERIOD ENDING WITH JUNE

Consul General Robert P. Skinner, London, England, reports as follows:

The aggregate of declared exports from London to the United States for the six months ended June, 1918, totaled only $35,233,326, compared with $88,348,502 for the same period in 1917, a decrease of $53,115,176. The principal articles invoiced, with their value, during the first six months of 1917 and 1918 follow:

Articles.	January-June, 1917.	January-June, 1918.
Rubber	$34,611,850	$3,615,091
Precious stones	9,618,907	8,949,535
Tin	8,889,680	2,521,814
Furs	4,223,709	4,853,685
Art	3,666,873	1,333,156
Hides	2,190,826	158,249
Wool	1,214,005	7,783
Tea	723,944	.....

Declared exports in the month of June, 1918, fell to the low aggregate of $3,261,785, as against $9,588,591 in 1917, totals which were the lowest of any month in both years up to the end of the respective half years. The falling off for the month in this year is due, of course, to the regulations affecting imports into the United States. Of the aggregate, precious stones accounted for $893,712, compared with $2,051,917 in May; tin for $322,523, against $473,845; furs, $208,157, against $926,952; rubber, $154,751, against $971,099; and art, $23,811, against $113,858.

In respect to furs the month of June usually shows a decline, and the value this year compared not unfavorably with that of $210,633 in 1917.

For the three months April to June, 1917, the value reached $43,493,244 and declined to $18,494,862 this year, but was in excess of the aggregate for the first three months, which reached only $16,728,464.—Commerce Reports.

New Industrial Duties for Maj. B. H. Gitchell

The War Department authorizes the following:

Maj. Gen. C. C. Williams, Chief of Ordnance, announces the appointment of Maj. B. H. Gitchell, Ordnance, National Army, as Chief of the Industrial Service Section of the Ordnance Department.

Maj. Gitchell is in charge of similar work in the Bureau of Aircraft Production, and is attached to the office of the Secretary of War, reporting to E. M. Hopkins, assistant to the Secretary of War. As Chief of the Industrial service Section of the Ordnance Department he is to report to Col. G. E. Tripp, Chief of the Production Division of the Ordnance Department.

Before entering the service Maj. Gitchell was Secretary of the Chamber of Commerce of Detroit, Mich.

PROCEEDINGS OF THE CONGRESS BRIEFLY TOLD

Senator Sterling, of South Dakota, yesterday introduced in the Senate a resolution asking the Secretary of War whether men who tried to volunteer but were rejected for physical disability and have since been drafted may be transferred to volunteer organizations. It was referred to the Military Committee. The introduction of the resolution led to a short discussion of changes in the selective service act. Senator Sterling asserted that it was unjust to men who were refused the privilege of volunteering to be forced into draft organizations after a change in the physical standard. Senator Johnson, of California, said that in the new law to extend the draft ages the question of prohibiting all volunteers was being considered. Senator Nelson said that the action of local draft boards rather than the draft law had been responsible for discrimination and, sometimes, favoritism. Senator Kirby said he believed the draft age should and would be extended, not because the country's man power within the draft ages is insufficient, but because men above 31 without dependents should be made to serve.

Senator Sterling's resolution is as follows:

Resolved, That the Secretary of War be requested to inform the Senate whether, in his opinion, permission given to men subjected to draft under such or similar circumstances to now volunteer or permission to their assignment to volunteer regiments would materially impair the service, whether or not the Department of War contemplates any action looking to a transfer of such men to the volunteer service and whether in the opinion of the Secretary of War such transfer is permissible under existing law.

The Speaker of the House and the Presiding Officer of the Senate yesterday signed the resolution revoking the Federal charter of the National German-American Alliance and the resolution was sent to the President.

Aircraft Investigation.

The subcommittee of the Military Committee now investigating the subject of aircraft production will reopen the subject and look into reports concerning the alleged unsatisfactoriness of the de Haviland "fours" now being manufactured. Maj. H. C. A. Muhlenberg, Capt. R. W. Schroadar, and Lieut. John M. Foote, stationed at the airplane testing field at Dayton, Ohio, have been summoned to appear before the committee to supply information regarding the de Haviland "four" as designed and manufactured in the United States.

Secretary Houston, in response to a Senate resolution, yesterday reported that with the exception of a small amount used in the manufacture of phosphorus, practically all phosphate rock produced in the United States is being utilized for agricultural purposes. Production in 1917 was placed at 2,610,743 tons, of which only 34,000 tons were exported.

The Capital Issues Committee yesterday transmitted to the Senate papers relating to the application of the city of Seattle, Wash., for permission to issue $5,500,000 in bonds for the construction of a hydroelectric plant. The proposed bond issue was disapproved by the San Francisco Federal reserve bank, but the governing committee is to have hearings on the subject within a short time.

Senator Warren, of Wyoming, introduced a bill granting to all voters residing in the Territory of Hawaii the right of suffrage while they are engaged in the military or naval service. This privilege under existing law is extended only to members of the National Guard.

War Revenue Bill.

The Ways and Means Committee considering the war-revenue bill at its session yesterday decided not to make any increase in existing taxes on passenger and freight transportation charges. This conclusion was reached on the theory that the recent advances in these rates ordered by the Director of Railoads was equivalent to additional taxes which the general public must pay. It also is understood that a majority of the committee is favorable to a tax on both import and export trade if it is found to be constitutional. The question of increasing the taxes on liquors and other beverages was considered, but action on this matter will be postponed until other questions have been disposed of. Meanwhile, if nation-wide war-time prohibition prevails, the committee will be required to find taxes to meet the deficit caused by the absolute prohibition against liquors. The question of extending the pipe-line tax to include companies piping their own product was discussed, but action was deferred. Another subject discussed yesterday was suggested increases in the taxes on life, marine, and casualty insurance, but without definite action.

COUNTRY HOMES HAVING WOOD MAY BE DENIED COAL AS FUEL

The Fuel Administration issues the following:

The United States Fuel Administration has suggested to State fuel administrators that in those States where a plentiful supply of wood is available, the sale, shipment, and distribution of coal for domestic purposes to persons residing outside of cities or incorporated towns may be prohibited, except under special permit.

State fuel administrators are advised that if they find as a result of prohibiting the use of coal outside of cities, excessive prices are demanded by wood dealers, they should be dealt with under the authority conferred by the Lever Act.

The authority for prohibiting the sale, shipment, and distribution of coal to domestic consumers, it is pointed out, is contained in the order appointing State fuel administrators to office.

Need 25,000 Young Women

The country needs 25,000 young women between the ages of 19 and 35 to enroll in the United States Student Nurse Reserve. Apply at the nearest recruiting station established by the Woman's Committee of the Council of National Defense.

INDUSTRIAL FURNACE SECTION OF THE FUEL ADMINISTRATION

Organization Announced to Regulate Use of Fuel for Direct Heat.

The Fuel Administration issues the following:

The United States Fuel Administration announces the completion of the Industrial Furnace Section of Conservation, to handle fuel conservation in all furnaces with the exception of those operated for the production of power, heat, and light. This includes those plants using fuel for direct heat, such as the clay-products industries.

In Charge of Engineer.

This section is in charge of an experienced engineer who has under his immediate supervision 13 districts comprised of 31 States, covering the territory in which industrial furnaces are used. Each district has a local head who has in his organization an advisory board and a corps of inspecting engineers.

The newly appointed district chiefs met at the Fuel Administration Building today for a conference with A. F. Greaves-Walker, the chief of the section. The district chief made report based on a preliminary survey of each district. Their conservative estimates of probable annual savings was 3,000,000 tons of coal.

Questionnaire to Owners.

A standard questionnaire is being furnished each plant owner in advance of the inspection, which he will fill out and hold for the inspector. The rating of each plant will be based upon the efficiency with which fuel is used. All wasteful burning processes will be taken into account; but an opportunity for correcting wasteful conditions will be given before inspection. Recommendations will accompany each questionnaire, several items of which will apply to each and every plant, and if followed will improve conditions materially. The inspecting engineer will be in a position to make further recommendations to each owner after inspecting his plant.

The clay products, lime, cement, and glass industries will be inspected first.

Cooperation of Existing Committees.

It is considered important that all existing fuel conservation committees, committees of chambers of commerce and national defense, manufacturers' associations and other bodies engaged in conservation work within the territory of any district shall be continued in full force and that the cooperation of such organizations shall be obtained.

By appealing to the patriotism of the furnace owner, at the same time presenting tangible facts which show him a way of saving money for himself and fuel for the nation's use in the prosecution of the war, little trouble is expected in bringing about conservation of fuel through the proper regulation and operation of all industrial furnaces.

No trouble to buy, cheap, convenient, a real investment—W A R - S A V I N G S STAMPS.

CALL FOR MEN TO HELP COMPILE PICTORIAL HISTORY OF THE WAR

Signal Corps to Select About Sixty More Lieutenants and As Many Sergeants for Work.

The War Department authorizes the following statement from the Signal Corps:

The Signal Corps announces an urgent need for a large number of men to engage in the compilation of a pictorial history of the war. About 60 more lieutenants and as many sergeants, first class, are to be selected for this work, and for a short time, until the immediate needs are met, some commissions will be given to men direct from civil life whose experience is ample to justify this procedure. Other men will be sent temporarily to the Signal Corps School of Photography at Columbia University, New York City, where they will be taught not how to take pictures, but rather what kind of pictures to take. Many of the men commissioned will become staff officers of army divisions, and as such will be in charge of the work of making a pictorial history of the activities of that division from the time of organization through active participation in the conflict.

Must Have "Nose for News."

The successful newspaper photographer represents most nearly the type of man needed—that is to say, he must have a "nose for news" in addition to being able properly to set and expose his camera. A military photographer must possess a generous amount of initiative and originality, for he will have to act as his own boss, his own director, and dig up the type of picture that really tells the story.

The Signal Corps states that appointment will depend almost entirely on the man's previous experience. Application for service can be made and full particulars obtained by addressing the office of the Chief Signal Officer, Photographic Section, Arcade Building, Washington, D. C.

RAILROAD DIRECTOR CANCELS ALL EXPRESS COMPANY FRANKS

The United States Railroad Administration authorizes the following:

Under instructions from Director General McAdoo the American Railway Express Co. (the new company established under the contract between the Director General and the four principal express companies of the country) has canceled all express franks previously in use and adopted the policy of issuing no new franks.

In the past free service was given by the express companies to a large number of people, not only express officers and employees, but also the officers of railroad companies and others. As a result of this practice a great many express franks were in existence and a large quantity of goods was carried free of charge.

After careful consideration the Director General decided that it was proper and wise to eliminate this free service entirely, and as a result all matter now carried by express is paid for.

Men Needed for Red Cross Field Work In Military Camps in This Country

The American Red Cross issues the following:

Men are needed for active Red Cross field service in the military and naval camps in this country. This work includes:

1. Rendering emergency relief of every kind upon request and with the cooperation of the military authorities.

2. Helping soldiers who are worried about their families and affairs by communicating with their homes through local Red Cross organizations in every part of the United States.

3. Sympathetic touch with men in base hospitals, communication with families of patients if necessary, and the furnishing of emergency supplies when called upon.

4. Supervising distribution of all Red Cross supplies, such as sweaters, socks, comfort kits, etc.

Qualifications for Places.

The qualifications demand high-grade men beyond draft age, acquainted with business methods, and with ability to deal successfully in a personal manner with other responsible men; they should be possessed of tact, forbearance, discretion, energy, and good personal appearance. Red Cross representatives in the camps have the status of officers.

While volunteers are desired, all expenses incurred by reason of Red Cross service will be paid, and where necessary a small salary in addition may be allowed. Acceptance of these positions will involve a pecuniary sacrifice to any man who is qualified.

Field for Patriotic Service.

This call is urgent and offers a peculiarly desirable field for constructive patriotic service, as the volume of business transacted is very large, and is rapidly growing. If you are interested, write the Bureau of Camp Service, National Headquarters, American Red Cross, Washington, D. C.

Will you serve?

$25,000,000,000 IN WAR RISK INSURANCE APPLICATIONS

The Treasury Department authorizes the following:

Insurance application received from soldiers and sailors by the Bureau of War Risk Insurance now aggregate more than $25,000,000,000, Secretary McAdoo announced to-day.

More than 2,954,609 applications have been received to date for a grand total of $25,148,118,000.

In the last four days upward of one billion dollars of new insurance was written. The total for July will be close to four billion dollars.

Average is Increasing.

The average amount of insurance applied for per man has been steadily increasing for the last few months and is now about $8,500. The maximum permitted by law is $10,000.

The Bureau of War Risk Insurance now has more insurance in force by three billion dollars than the ordinary life insurance on the books of all the legal reserve insurance companies of the United States combined.

Persons who have been named as beneficiaries under the War Risk Insurance but have not yet received their insurance certificates are reminded that these certificates are not essential to make the insurance protection effective.

More Than 1,800,000 Certificates Mailed.

The certificate is merely evidence of the existence of the contract of insurance, and forms no part thereof. No apprehension should be felt by persons who have not yet received their certificates. They are being sent forward as rapidly as limited space and an unprecedented onrush of business will permit.

More than 1,800,000 insurance certificates have already been mailed.

The millions of insurance applications received by the bureau are all indexed, classified, and held under statistical control so that information on the insurance protection of any person in the Army or Navy can be obtained instantly.

FIFTEEN NEW SHIPS LAUNCHED DURING WEEK ENDING JULY 25

The Shipping Board issues the following:

American shipyards launched 15 vessels during the week ending July 25. The steel yards put into the water 10 vessels, totaling 53,250 dead-weight tons; the wood yards, 5 vessels, totaling 19,200 dead-weight tons. The Pacific coast yards led with 7 launchings. The Great Lakes yards were second, with 6. There was one each on the eastern and Gulf coasts.

One 4,700-Ton Wooden Ship.

The launchings for the week included another 4,700-ton wood ship from the ways of the National Shipbuilding Co. of Texas.

The weeks' output of completed ships was 8 of 35,890 dead-weight tons. Great Lakes shipyards led the deliveries, with 4 vessels. The Pacific coast was second, with 3. The single eastern delivery was of a 7,400-ton freighter from the Bethlehem Shipbuilding Corporation at Sparrows Point, Md. This was also the largest ship completed during the week.

Grand Total Nearly 250.

The deliveries for the week ending July 25 bring the number of vessels built for the Shipping Board up to nearly 250, totaling more than a million and a half dead-weight tons.

Are you "doing your bit" in saving food for our allies and our soldiers and sailors?

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

ARMY

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	17
Died from wounds	11
Died of disease	15
Died of accident and other causes	3
Wounded severely	95
Wounded slightly	1
Missing in action	3
Total	145

Killed in Action.

Maj. James M. McCloud. Mrs. Dolly McCloud, 21 Martindale Road, Balham, London SW., England.

LIEUTENANTS.

George W. Berriman. M. W. Berriman, Tampa, Fla.

Frank Booma. Mrs. F. E. Booma, R. F. D. 2, Portsmouth, N. H.

Norman D. DuBois. Mrs. C. D. DuBois, 14 Walden Place, Montclair, N. J.

SERGEANTS.

Grant Merritt Barber. Mrs. Carrie Barber, Greybull, Wyo.

George W. Ross. Mrs. Mary Ross, 1321 Adeline Street, Oakland, Cal.

Corpl. Clyde W. Needham. Mrs. M. F. Fuqua, 316 East Locus Street, Lodi, Cal.

PRIVATES.

Carl D. Johnson. Mrs. Mary Johnson, 433 West Thirty-sixth Street, Newton, Kans.

Elso S. Johnson. Mrs. Catherine Johnson, Freeport, Ill.

Richard P. Ludtke. Amel Ludtke, Chatham, Ill.

Clyde A. McKea. John McKea, Westwood, Cal.

Arthur Marquand. Mrs. Gertrude Marquand, 7 Keene Avenue, Hamilton, Md.

Jacob B. Miller. John P. Miller, Lacey, Wash.

Clement M. Summers. Clement M. Summers, sr., 129 Laurel Street, Ashland, Oreg.

Kenneth L. Sutherland. Charles E. Sutherland, 1411 Harrison Street, Topeka, Kans.

Charles Wilson. Clement Wilson, 1622 Euclid Avenue, Marion, Ind.

Stephen Wos. John Wos, 74 Reservation Street, Buffalo, N. Y.

Died from Wounds.

Sergt. Harry Clubb. Mrs. Beatrice Clubb, 314 Quitman Street, San Antonio, Tex.

Corpl. Bertram Aaron. Mrs. Bertram Turner, Paducah, Ky.

PRIVATES.

Wilfred Albert. Eugene Albert, 38 Water Street, Augusta, Me.

Clarence D. Crabtree. Lowell Crabtree, Box 245, Marengo, Ind.

Frank Deaton. D. A. Deaton, Clarendon, Ark.

Monte H. Fuller. Mrs. Mertie M. Fuller, Wheelock, Vt.

Wallace William Keller. Mrs. Lizzie Keller, 345 Elm Street, North Wales, Pa.

Edward W. Larkosh. Mrs. V. Larkosh, 22 Oak Street, Providence, R. I.

Donald C. MacKinnon. Mrs. John A. MacKinnon, 128 Maplewood Avenue, Gloucester, Mass.

John A. W. Marble. John Marble, Mosleys Junction, Va.

Fred Watson. Joseph Watson, 85 Eustis Street, Roxbury, Mass.

Died of Disease.

Sergt. Carl John Lautz. George Lautz, 507 North Oak Street, Buffalo, N. Y.

COOKS.

John H. Arnold. Pete J. Arnold, Doniphan, Mo.

Merritt Winsell. Dr. Frank S. Winsell, Dexter, Iowa.

PRIVATES.

Wilbur J. Blakemore. Mrs. Velma Blakemore, Barnesville, Ohio.

Clarence A. Clark. Sam F. Clark, Eufala, Okla.

Armstead L. Davis. Mrs. Alice Read, Bowling Green, Va.

James Epps. Mrs. Celda Epps, Eustis, Fla.

Rogers Franklin. Mrs. Ida Jake Johnson, Cameron, Tex.

Samuel Jaffy. Samuel Freiden, 24 North Franklin Street, Waynesboro, Pa.

Croston Pierson. Mrs. Lucy Pierson, R. F. D. No. 1, Millhaven, Ga.

Emmett L. Simmons. J. W. Simmons, 2802 Elmore Street, Tampa, Fla.

Joseph M. Sweetzer. Sarah Haynes, 30 Howard Street, Haverhill, Mass.

Theodore L. Trouth. Jacob Trouth, 116 Noble Avenue, Dixon, Ill.

Owen F. Tuohy. John Tuohy, 124 Tarrasonna Street, Pittsburgh, Pa.

John Wilson. George W. Wilson, Hannibal, Mo.

Died from Accident and Other Causes.

Cook Arthur B. Oldstrom. John S. Andrea, 5037 North Sawyer Avenue, Chicago, Ill.

PRIVATES.

Curney Page. William Page, Wilson, N. C.

Raymond A. Renkenberger. William F. Renkenberger, Berlin Center, Ohio.

Wounded Severely.

MAJORS.

Goodwin Compton. Mrs. Sallie Compton Goyer, 1755 Faxon Avenue, Memphis, Tenn., or Mrs Goodwin Compton, Fort Wayne, Detroit, Mich.

Theodore Roosevelt, jr. Mrs Theodore Roosevelt, 165 East Seventy-fourth Street, New York, N. Y.

CAPTAINS.

William J. Condon. Mrs. William J. Condon, 50 Livingston Avenue, New Brunswick, N. J.

Robert K. Whitson. Mrs. R. K. Whitson, Union City, Tenn.

LIEUTENANTS.

Francis Xavier Callahan. M. J. Callahan, 288 State Street, Portland, Me.

John S. Cromelin. Mrs. P. H. Cromelin, 400 River Street, Hackensack, N. J.

SERGEANTS.

Clayton A. Barrows. B. S. Barrows, 164 High Street, Hartford, Conn.

John T. Griffin. James Lee, 100 C Street, South Boston, Mass.

George J. McKenzie. Mrs. G. J. McKenzie, 30 Charter Street, Salem, Mass.

Howard Duryea Springsteen. Mrs. David Springsteen, Queen's Boulevard, Forest Hills, N. Y.

Walter B. Worlock. Mrs. Mary S. Worlock, 1009 West Street, Utica, N. Y.

CORPORALS.

Ellsworth A. Burnham. E. Warren Burnham, 13 Heard Street, Chelsea, Mass.

Ray Carroll. A. C. Carroll, South Pittsburg, Tenn.

Robert F. Costello. Mrs. A. Duffy, 1338 Broad Street, Hartford, Conn.

Raymond W. Cummins. William W. Cummins, Kearney, Mo.

John Deloche. Mrs. Marie A. Deloche, 230 East Lincoln Street, McDonald, Pa.

Harry M. Dexter. Mrs. W. C. Dexter, Box 34, Wolfeville, Kings County, Nova Scotia, Canada.

George V. Ford. Mrs. Kate Ford, Box 94, New Eagle, Pa.

Walter A. Guild. Thomas E. Guild, 1550 Blue Hill Avenue, Mattapan, Mass.

Clifford L. Herring. Mrs. Jennette Herring, 12 Prospect Street, Rockville, Conn.

Raymond B. Kincaid. George C. Kincaid, Fair Haven, Vt.

Harry McKenzie. Edward McKenzie, 1220 Main Street, Hartford, Conn.

Edwin Martin. Alfred W. Martin, 86 Franklin Avenue, Chelsea, Mass.

Bernard D. Murphy. Timothy L. Murphy, 268 Hamilton Street, Hartford, Conn.

Victor Rasmussen. Miss Mary Rasmussen, Haarslev, Denmark.

Harry L. Smith. Edward W. Simth, 15 James Street, Boston, Mass.

Winfred J. White. N. W. Lavery, 54 A Street, South Boston, Mass.

George F. Patee, machinist. W. S. Patee, 28 Riggs Place, South Orange, Conn.

PRIVATES.

Jack B. Albright. Mrs. Mollie Albright, 821 Howard Street, Monongahela, Pa.

Chester P. Ambler. Hubert C. Ambler, 1015 Wilmette Avenue, Wilmette, Ill.

Anthony Balkus. Miss C. Balkus, 866 Bank Street, Waterbury, Conn.

Robert J. Bangert. Mrs. Pauline Bangert, 3712 West Twelfth Street, Chicago, Ill.

William Bickerdyke. Mrs. Alice Bickerdyke, 1 off George Street, Hyde Cheshire, England.

Warren Black. Mrs. James Emmett Black, 1215 South Hickory Street, Ottawa, Kans.

Edward Martin Caimens. Morris Simpson, Point Marion, Pa.

Joseph W. Cames. John Cames, Newington, Conn.

Merley A. Cook. Mrs. Marie Cook, 606 West Tenth Street, Anderson, Ind.

John H. Cooper. Fred Cooper, Monongahela, Pa.

Howard C. Crosby. Mrs. M. E. Cronin, 177 Center Street, Roxbury, Mass.

John A. Cross. Mrs. Anna Cross, 2138 Congress Street, Chicago, Ill.

Robert O. Davis. Mrs. Jane Davis, 194 North Main Street, Fair Haven, Vt.

John E. Deso. Oliver Deso, Main Street, Champlain, N. Y.

Harry M. Duplantis. Evance Duplantis, Montegut, La.

Charles E. Evans. Mrs. Blanche P. Evans, 5719 Cedar Avenue, Philadelphia, Pa.

Archie Ewens. Miss Agnes Ewens, 296 Lombard Street, Pittsburgh, Pa.

George R. Feeley. Michael J. Feeley, 33 Pine Street, Natick, Mass.

Joseph M. Feeley. Michael J. Feeley, 33 Pine Street, Natick, Mass.

Santos Fernandez. Miss Paula Fernandez, 133 West Columbia Street, Brooklyn, N. Y.

Russell Ora Gilmore. Mrs. Pearl Gilmore, Brent, Ky.

George H. Gould. Mrs. Mary A. Gould, 124 Glenway Street, Dorchester, Mass.

Charles Gueterman. Mrs. Margaret Gueterman, 180 Jefferson Street, Brooklyn, N. Y.

Louis C. Gueriskie. Louis Gueriskie, 229 East Forty-fifth Street, New York, N. Y.

Joseph C. A. Guiliani. Mrs. Marie Guiliani, 761 South Warnock Street, Philadelphia, Pa.

Gray Hanrahan. Mrs. Mary E. Hanrahan, 218 Whitney Avenue, Bridgeport, Conn.

William Meyer Harvey. Mrs. Julia Decker, 4821 Haverford Avenue, Philadelphia, Pa.

Donald H. Haskell. Mrs. Maggie E. Haskell, 19 Main Street, Lincoln, Me.

Bror Olaf Hjelin. Frans Hjelin, Cambridge, Minn.

Leo J. Holland. Mrs. Mary Holland, 233 Burnside Street, Providence, R. I.

Robert M. Irwin. James C. Irwin, 43 Highland Avenue, Newtonville, Mass.

Harry M. Joyner. Mrs. Mary E. Joyner, 144 West Depot Street, Concord, N. C.

Albert C. Kantack. Harry Bunnelle, Bunker Avenue, Meriden, Conn.

William S. Kelley. Mrs. Annie L. Moynihan, 95 Eighth Avenue, Haverhill, Mass.

Thomas F. Kennedy. Mrs. Julia Flynn, 102 Church Street, Boston, Mass.

Beneditto Leali. Mrs. Santa Pessarossi Leali, Odola, Brescia, Italy.

Albert Lelli. August Marie, 218 West Second Street, St. Charles, Ill.

Arthur Lindsey. J. W. Lindsey, care of Oscar Hicks, R. F. D. No. 4, Sherman, Tex.

Chauncey E. Lopp. Chauncey B. Lopp, 224 Millbridge Street, Pittsburgh, Pa.

Orborn R. Lundgren. Mrs. Anna Lundgren, 30 Ivaleo Street, Somerville, Mass.

William V. McCaffrey. William V. McCaffrey, 149 Hallam Avenue, Washington, Pa.

William T. McGlory. Mr. McGlory, 207 North Avenue, Wakefield, Mass.

George E. Maher. Joseph Maher, 180 Highland Avenue, Malden, Mass.

Leonard J. Morrison. Mrs. Jennie Morrison, Versailles, Pa.

Augustine F. Mulqueeney. M. Mulqueeney, 5 Gifford Terrace, South Boston, Mass.

Shirley C. Nifong. Mrs. Addie Nifong, Fredericktown, Mo.

Marino Panza. Mrs. Mary Simonetti, 328 East Thirty-ninth Street, New York, N. Y.

Albert Pascello. Raffaelo Pascello, Quadri, Cheiti, Italy.

OVERSEAS CASUALTY LIST

Albert Gasper. John Gasper, father, 97 Weimer Street, Buffalo, N. Y.

FEDERAL RESERVE BOARD'S WEEKLY BANK STATEMENT

Substantial increases in discount activity, also considerable gains in Government deposits by the reserve banks outside of New York and Boston, are indicated in the Federal Reserve Board's weekly statement issued as at close of business on July 26, 1918.

Investments.—All the banks, except New York, report net additions to discounted bills on hand, Chicago, San Francisco, Philadelphia, and Kansas City showing the largest gains. Of the total discounts on hand, $675,665,000, as against $601,403,000 the week before, is represented by war paper, i. e., member banks' notes secured by Government war obligations and customers' paper similarly secured. No appreciable changes are shown in other earning assets, including acceptances and U. S. securities.

Deposits.—Government deposits at all banks, except Boston and New York, show considerable increases, the total gain for the week being 88.2 millions. Members' reserve deposits fell off 52.9 millions, all the banks except Kansas City reporting net reductions in reserve balances, apparently as the result of payment by member banks for Treasury certificates of the more recent issues. Net deposits show an increase for the week of 56.2 millions.

Reserves.—Gold reserves decreased by 1.2 millions and total cash reserves by 1.8 millions. The amount of gold held with foreign agencies shows a further reduction to 11.6 millions, as against 52.5 millions held during the first half of the year. The ratio of total reserves to aggregate deposit and Federal Reserve note liabilities declined from 59.8 to 58.1 per cent.

Note circulation.—During the week the agents issued 16.9 millions net of Federal reserve notes. The banks report an increase of 41.8 millions of Federal reserve notes in actual circulation, besides a small increase in their liability on Federal reserve bank notes in circulation.

Capital.—Payment by newly admitted members for Federal reserve bank stock accounts largely for an increase of $58,000 in paid-in capital, Richmond, Minneapolis, and Chicago reporting the largest increases for the week.

Condition of Member Banks, July 19.

Large reductions in the holdings of Treasury certificates following the redemption by the Government on July 18 of the balance of the April 22 certificate issue, accompanied by slightly larger withdrawals of Government deposits are indicated by the weekly statement of condition on July 19 of 717 member banks in leading cities. Figures for the Dallas district for the latter date were not available, and July 12 figures had therefore to be repeated in the consolidated statement.

United States bonds, other than circulation bonds, on hand increased 33.9 millions, apparently as the result of the 35 per cent installment payment due on July 18. Treasury certificates fell off 205.6 millions, over 150 millions representing the decrease for the central reserve city banks. Loans secured by United States war obligations show a decrease for the week of 11.2 millions, while other loans and investments increased by 21.8 millions. For all reporting banks the ratio of United States war obligations and loans secured by such obligations to total loans and investments works out at 12.9 per cent, as against 14.2 per cent the week before. For the central reserve city banks a decline of this ratio from 16.3 to 14 per cent is noted.

Government deposits decreased during the week about 212 millions, of which 159.3 millions represents net withdrawals of Government funds from central reserve city banks. Net demand deposits of all reporting banks fell off 109.7 millions, the decrease for the banks in the central reserve cities being 80.8 millions. But slight decreases are shown for time deposits. Total reserves increased 19.4 millions, gains being confined to banks outside Greater New York. Cash in vault shows a loss of 7.1 millions.

Owing to the relatively larger decline in deposits, the ratio of investments to deposits of all reporting banks shows a rise from 122.3 to 124.7 per cent. For the central reserve city banks a rise of this ratio from 113.3 to 114.8 per cent is noted. The ratio of combined reserve and cash to deposits shows a further increase from 14.7 to 15.3 per cent for all reporting banks and from 15.7 to 16.3 per cent for the central reserve city banks. Total excess reserves, in the calculation of which no account is taken of Government deposits, increased from 69.9 to 102.7 millions, the greater part of the gain falling to the share of the banks outside the central reserve cities.

FUEL ORDER AFFECTING TERM OF COAL-JOBBING CONTRACTS

The Fuel Administration issues the following:

An order of the United States Fuel Administration, effective 7 a. m., July 29, permits operators, producers, and jobbers of coal and coke under certain conditions to make contracts covering a longer period than one year.

The order amends the former order dated December 24, 1917, prohibiting the making of contracts for a longer period than a year by providing that the United States Fuel Administrator may, in his discretion, upon application and submission to him of satisfactory evidence, specially approve of the making of any particular contract covering a period longer than one year, or without limitation as to date of termination. Any such contract so specially approved shall, however, be subject to all orders, rules, and regulations of the United States Fuel Administrator then or thereafter at any time in force.

DETAILED TO SERVICE.

Special Orders, No. 168:

270. By direction of the President, Maj. John C. Ashburn, Infantry, is detailed for service and to fill a vacancy in The Adjutant General's Department.

VOL. 2 WASHINGTON, WEDNESDAY, JULY 31, 1918. No. 374

RATIFICATIONS EXCHANGED OF MILITARY SERVICE CONVENTIONS BETWEEN THE UNITED STATES, GREAT BRITAIN, AND CANADA

GERMANS HAVE LOST TEN MILES FROM THE SALIENT BETWEEN SOISSONS AND RHEIMS SINCE JULY 27

RETIREMENT NOW SLOW

Enemy's Resistance at Jaws of Salient Has Made a "Bag" Almost Impossible, Gen. March States.—Plan for Single Unified American Army Being Worked Out—Six New Divisions To Be Formed.

Press interview by Gen. March, July 31, 1918:

Since I spoke to you last Saturday, the general salient has flattened out considerably. On Saturday the enemy's line was being withdrawn from the Marne east of Vincelles on an 8 mile front, where the enemy had clung very firmly until his position was threatened by gains on the heights southwest of Rheims.

During the interval since I spoke to you he has fallen back rapidly to the line on the Rheims-Dormans road, and the Ourcq Valley, while his extreme west flank, on the plateau south of Soissons, is exactly where it was before. On his extreme east flank he has reduced the reentrent which the allies had driven in there.

Cavalry Patrols Used.

The retirement on Saturday was very rapid, reaching a distance of some 3 or 4 miles on a 20-mile front, and during that period the announcement in the papers that Cavalry patrols appeared was significant to military men, indicating that the retirement had been very rapid, and probably during the night, and we had gotten out of touch with the enemy's front line. This was reestablished; we found out where he was by using the Cavalry patrols.

Since Saturday, however, the enemy's retirement has been very slow, with strong counter attacks, in which the American force has been engaged.

The crescent-shaped area gained by the allies since July 18 is more than one-half

(Continued on page 5.)

GEN. PERSHING STILL CALLING FOR DE HAVILAND AIRPLANES

Daily press interview by Secretary Baker July 30, 1918:

I have decided to say this to you about the de Haviland airplane:

There are probably no perfect airplanes. Improvement in the best of them is constant and rapid, both as to types and succeeding numbers of the same type. This is true of the de Haviland as of all others. The latest machines made of that type are better than the earlier ones, and this improvement we hope will be constant. Gen. Pershing has requested a large shipment of de Haviland planes (de Haviland 4) of the present type on the priority schedule for August.

Asked for Very Large Shipment.

The purpose of this is to set at rest the statement which was made from some quarter that Gen. Pershing had directed that no more de Haviland planes be shipped because he has asked for a very large shipment of de Havilands of the present type.

As to Caproni's statement in morning papers with regard to superairplane:

"Nobody is safe in being incredulous about the possibilities for development in heavier-than-air machines."

Control of Engineering Division.

The operations division has an engineering division, and that is under the coordinated control of Gen. Kenly and Mr. Ryan. Mr. Ryan and Gen. Kenly have worked out the plan, and they are working together in the control of the engineering division which has to do with types.

Maj. Enright was in to see me about the effect of the draft on the membership of the New York police force and on metropolitan police forces in general. This matter has been receiving constant attention; but I could not make any promises about the question. Maj. Enright saw me about the exempting of men who are in the service.

Credits Granted France, Belgium, and Serbia by U.S.

The Treasury Department announces the extension of additional credits to cobelligerents of the United States, as follows: To France, $100,000,000; to Belgium, $9,000,000; to Serbia, $3,000,000. The total of credits to the allies is $6,492,040,000.

TO DATE FROM JULY 30

Full Text of the Treaty as Ratified, Together With Notes Passing Between Secretary Lansing and the British Ambassador Classes of Citizens and Subjects Affected.

The ratifications of the military service conventions between the United States and Great Britain and Canada were exchanged Tuesday, July 30, at London, thus making the two conventions which were signed on June 3 last effective as from July 30. The classes of British subjects to which the convention with Great Britain applies are stated in articles 1 and 4, which read as follows:

Classes of Citizens and Subjects.

"All male citizens of the United States in Great Britain and all male British subjects in the United States, shall, unless before the time limited by this convention they enlist or enroll in the forces of their own country or return to the United States or Great Britain, respectively, for the purpose of military service, be subject to military service and entitled to exemption or discharge therefrom under the laws and regulations from time to time in force of the country in which they are: Provided, That in respect to British subjects in the United States the ages for military service shall be for the time being 20 to 44 years, both inclusive: Provided, however, That no citizen of the United States in Great Britain and no British subject in the United States who, before proceeding to Great Britain or the United States, respectively, was ordinarily resident in a place in the possessions of the United States or in His Majesty's dominions, respectively, where the law does not impose compulsory military service shall, by virtue of this convention, be liable to military service under the laws and regulations of Great Britain or the United States, respectively: Provided further, That in the event of compulsory military service being applied to any part of His Majesty's dominions in which military service at present is not compulsory, British subjects who, before proceeding to the United States were ordinarily resident in such part of His Majesty's dominions, shall thereupon be included within the terms of this convention." (Art. 1.)

"This convention shall not apply to British subjects in the United States (a)

who were born or naturalized in Canada, and who, before proceeding to the United States, were ordinarily resident in Great Britain or Canada or in any other part of His Majesty's dominions to which compulsory military service has been or may be hereafter by law applied, or outside the British dominions; or (b) who were not born or naturalized in Canada, but who before proceeding to the United States were ordinarily resident in Canada." (Art. 4.)

The classes of British subjects to which the convention with Canada applies are set forth in article 1 of that convention, which reads as follows:

"All male citizens of the United States in Canada (hereinafter called Americans) and all male British subjects in the United States (a) who were born or naturalized in Canada, and who, before proceeding to the United States were ordinarily resident in Great Britain or Canada or in any other part of His Majesty's dominions to which compulsory military service has been or may be hereafter by law applied, or outside the British dominions; or (b) who were not born or naturalized in Canada, but who, before proceeding to the United States, were ordinarily resident in Canada (hereinafter called Canadians), shall, unless before the time limited by this convention they enlist or enroll in the forces of their own country or return to the United States or Canada, respectively, for the purpose of military service, be subject to military service and entitled to exemption or discharge therefrom under the laws and regulations, from time to time in force, of the country in which they are: Provided, That in respect to Americans in Canada the ages for military service shall be the ages specified in the laws of the United States prescribing compulsory military service, and in respect to Canadians in the United States the ages for military service shall be, for the time being, 20 to 44 years, both inclusive." (Art. 1.)

Opportunity to Enlist.

All British subjects and all Canadians, as above defined, between the ages of 21 to 30, both inclusive, who have made declaration of intention to become citizens of the United States, and who are liable to military service under the selective-service act of May 18, 1917, may, during a period of 60 days from July 30, the date of exchange of the ratifications, enlist or enroll voluntarily in the British or Canadian forces at any office of the British and Canadian recruiting mission in the United States, or may leave the United States for the purpose of military service in their own country.

British subjects and Canadians between the ages of 21 to 30, both inclusive, who have not made declaration of intention to become citizens of the United States, and British subjects and Canadians of the age of 20 and 31 to 44, both inclusive, whether they have or have not declared their intention to become citizens of the United States, may enlist or enroll or leave the United States, as the case may be, for the purpose of military service in their own country during 60 days from July 30, the date of the exchange of the ratifications, if on or before July 30 they are required to register by a proclamation of the President, under chapter 12 of the act of July 9, 1918, or, if not so required to register on or before July 30, then they may enlist or enroll or leave the United States, as the case may be, for military service in their own country, before the expiration of 30 days after the date when registration shall be thereafter required by proclamation of the President.

Liable to Military Service.

If within these periods of 60 and 30 days they do not enlist or enroll or leave the United States for military service in their own country, they will, unless exempted by the British ambassador under article 3 of the conventions, be liable to military service in the United States and entitled to classification and exemption under the laws and regulations relating to compulsory military service in force in the United States in the same manner as if they were American citizens.

Under article 3 of the conventions the British ambassador at Washington is authorized to grant exemption from military service in the United States within the respective periods of 60 and 30 days, aforesaid, as the case may be. British subjects and Canadians may now apply for such exemption, subject to certain rules and limitations, which will be made known by the ambassador upon request. Full information as to the terms and conditions of service with the British and Canadian forces—pay, separation allowances, etc.—may be obtained by application at any office of the British and Canadian recruiting mission. A list of the offices of the mission may be obtained from any British consular officer in the United States.

TEXT OF MILITARY SERVICE TREATY BETWEEN U. S., ENGLAND, AND CANADA

The full text of the convention relating to military service of British subjects in the United States and of citizens of the United States in Great Britain and Canada and notes relating to Article I follow:

BRITISH EMBASSY,
Washington, June 3, 1918.

Hon. ROBERT LANSING,
Secretary of State of the United States.

SIR: With reference to the military-service convention between the United States and Great Britain signed to-day, I am instructed by His Majesty's Government to explain why the proviso to Article I does not limit the military service of citizens of the United States in Great Britain to those of the ages specified in the laws of the United States prescribing compulsory military service, as requested by the United States Government. The reason for the omission of this clause in the proviso is a desire to avoid the delay that would be involved in modifying the military service acts, 1916 to 1918, which control the operation of any convention of this character. I beg you, therefore, to be good enough not to press this proposal.

The effect of these acts is to make United States citizens in Great Britain under this convention liable to military service between the ages of 18 and 49, both inclusive. The limitation of the ages of United States citizens in Great Britain for the purpose of military service to those prescribed in the laws of the United States relating to compulsory military service may, however, be attained without amendment of these acts by exercise of the United States of its right of exemption under Article III.

His Majesty's Government understand, therefore, that the United States Government will exercise their right under Article III to exempt from compulsory military service in Great Britain all citizens of the United States in Great Britain outside the ages specified in the laws of the United States prescribing compulsory military service.

I have the honor to be, with the highest consideration, sir,

Your most obedient, humble servant,

READING.

JUNE 3, 1918.

His Excellency the EARL OF READING,
Ambassador of Great Britain on Special Mission:

I have the honor to acknowledge the receipt of Your Excellency's note of this date in regard to the military service convention between the United States and Great Britain, signed to-day, in which you state that you are instructed to explain why the proviso to Article I does not limit the military service of citizens of the United States in Great Britain to those of the ages specified in the laws of the United States prescribing compulsory military service as requested by the United States Government. In explanation Your Excellency states as follows:

"The reason for the omission of this clause in the proviso is a desire to avoid the delay which would be involved in modifying the military service acts, 1916 to 1918, which control the operation of any convention of this character. I beg you, therefore, to be good enough not to press this proposal.

"The effect of these acts is to make United States citizens in Great Britain under this convention liable to military service between the ages of 18 and 49 years, both inclusive. The limitation of the ages of United States citizens in Great Britain for the purposes of military service to those prescribed in the laws of the United States relating to compulsory military service may, however, be attained without amendment of these acts by the exercise by the United States of its right of exemption under Article III."

Your Excellency adds that—

"His Majesty's Government understand, therefore, that the United States Government will exercise its right under Article III to exempt

FULL TEXT OF U. S.-BRITISH-CANADIAN MILITARY SERVICE TREATY

from compulsory military service in Great Britain all citizens of the United States in Great Britain outside the ages specified in the laws of the United States prescribing compulsory military service."

In reply I have the honor to inform your excellency that the Government of the United States is pleased to accept this explanation of said Article I, and, in lieu of a clause in this article limiting the military service of citizens of the United States in Great Britain to those of the ages specified in the laws of the United States prescribing compulsory military service, to exercise its right under Article III to exempt from compulsory military service in Great Britain all citizens of the United States in Great Britain outside of the ages specified in the laws of the United States prescribing compulsory military service.

I have the honor to be, with the highest consideration,

Your Excellency's most obedient servant,

ROBERT LANSING.

PART I.—CONVENTION RELATING TO THE SERVICE OF CITIZENS OF THE UNITED STATES IN GREAT BRITAIN AND OF BRITISH SUBJECTS IN THE UNITED STATES.

The President of the United States of America and His Majesty the King of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, Emperor of India, being convinced that for the better prosecution of the present war it is desirable that citizens of the United States in Great Britain and British subjects in the United States shall either return to their own country to perform military service in its Army or shall serve in the Army of the country in which they remain, have resolved to enter into a convention to that end, and have accordingly appointed as their plenipotentiaries, the President of the United States of America, Robert Lansing, Secretary of State of the United States; and His Britannic Majesty, the Earl of Reading, Lord Chief Justice of England, High Commissioner and Ambassador Extraordinary and Plenipotentiary on Special Mission to the United States, who, after having communicated to each other their respective full powers, found to be in proper form, have agreed upon and concluded the following articles:

ARTICLE I.

All male citizens of the United States in Great Britain and all male British subjects in the United States, shall, unless before the time limited by this convention they enlist or enroll in the forces of their own country or return to the United States or Great Britain, respectively, for the purpose of military service, be subject to military service and entitled to exemption or discharge therefrom under the laws and regulations from time to time in force of the country in which they are: *Provided*, That in respect to British subjects in the United States the ages for military service shall be for the time being 20 to 44 years, both inclusive: *Provided, however*, That no citizen of the United States in Great Britain and no British subject in the United States who, before proceeding to Great Britain or the United States, respectively, was ordinarily resident in a place in the possessions of the United States or in His Majesty's Dominions, respectively, where the law does not impose compulsory military service shall, by virtue of this convention, be liable to military service under the laws and regulations of Great Britain or the United States, respectively: *Provided further*, That in the event of compulsory military service being applied to any part of His Majesty's Dominions in which military service at present is not compulsory, British subjects who, before proceeding to the United States were ordinarily resident in such part of His Majesty's Dominions, shall thereupon be included within the terms of this convention.

ARTICLE II.

Citizens of the United States and British subjects within the age limits aforesaid who desire to enter the military service of their own country must, after making such application therefor as may be prescribed by the laws or regulations of the country in which they are, enlist or enroll or must leave Great Britain or the United States, as the case may be, for the purpose of military service in their own country before the expiration of 60 days after the date of the exchange of ratifications of this convention, if liable to military service in the country in which they are at the said date; or if not so liable, then before the expiration of 30 days after the time when liability shall accrue; or as to those holding certificates of exemption under Article III of this convention, before the expiration of 30 days after the date on which any such certificate becomes inoperative unless sooner renewed; or as to those who apply for certificates of exemption under Article III and whose applications are refused, then before the expiration of 30 days after the date of such refusal, unless the application be sooner granted.

ARTICLE III.

The Government of the United States and His Britannic Majesty's Government may through their respective diplomatic representatives issue certificates of exemption from military service to citizens of the United States in Great Britain and British subjects in the United States, respectively, upon application or otherwise, within 60 days from the date of the exchange of ratifications of this convention, or within 30 days from the date when such citizens or subjects become liable to military service in accordance with Article I, provided that the applications be made or the certificates be granted prior to their entry into the military service of either country.

Such certificates may be special or general, temporary or conditional, and may be modified, renewed, or revoked in the discretion of the Government granting them. Persons holding such certificates shall, so long as the certificates are in force, not be liable to military service in the country in which they are.

ARTICLE IV.

This convention shall not apply to British subjects in the United States (*a*) who were born or naturalized in Canada, and who, before proceeding to the United States, were ordinarily resident in Great Britain or Canada or in any other part of His Majesty's Dominions to which compulsory military service has been or may be hereafter by law applied, or outside the British Dominions; or (*b*) who were not born or naturalized in Canada, but who before proceeding to the United States were ordinarily resident in Canada.

ARTICLE V.

The Government of the United States and His Britannic Majesty's Government will, respectively, so far as possible facilitate the return of British subjects and citizens of the United States who may desire to return to their own country for military service, but shall not be responsible for providing transport or the cost of transport for such persons.

ARTICLE VI.

No citizen or subject of either country who, under the provisions of this convention, enters the military service of the other shall, by reason of such service, be considered after this convention shall have expired or after his discharge to have lost his nationality or to be under any allegiance to His Britannic Majesty or to the United States, as the case may be.

ARTICLE VII.

The present convention shall be ratified by the President of the United States of America by and with the advice and consent of the Senate of the United States and by His Britannic Majesty, and the ratifications shall be exchanged at Washington or at London as soon as possible. It shall come into operation on the date on which the ratifications are exchanged and shall remain in force until the expiration of 60 days after either of the contracting parties shall have given notice of termination to the other; whereupon any subject or citizen of either country incorporated into the military service of the other under this convention shall be as soon as possible discharged therefrom.

In witness whereof the respective plenipotentiaries have signed the present convention and have affixed thereto their seals.

Done in duplicate at Washington the third day of June, in the year of

(Continued on page 6.)

Official U. S. Bulletin

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

American Communique

The following is authorized by the Secretary of War:

American Official Communique No 77.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
July 30, 1918.

Section A. On the line of the Ourcq the enemy has renewed his counter attacks to force back our advancing troops. In severe fighting we have repulsed his attacks and improved our position.

How the American People Have Met the War Taxes

The Treasury Department authorizes the following:

More than $4,500,000,000 has been collected in internal revenue taxes, including income and excess-profit taxes, for the fiscal year. This exceeds by over $1,000,000,000 the estimates made a few months ago, and by over $900,000,000 the estimates made a year ago when the revenue measures were passed by Congress.

The success in collecting this large revenue is attributed by the Treasury Department to the patriotism and cooperation of the American people in promptly and cheerfully meeting the war burdens imposed upon them.

Save for the country's sake.

SISTERS OF ARMY MEN MAY BE SENT TO FRANCE FOR WAR WORK

Regulations Regarding Issuance of Passports Somewhat Modified.

The following memorandum has been authorized by the War Department:

On representation of responsible heads of the Red Cross, Y. M. C. A., and other allied bodies who are doing war work in France that they are unable to obtain a sufficient number of women as workers, the prohibition by the War Department, concerning the granting of passports to relatives of officers and men in the United States Army, is modified so as to permit the use of sisters of soldiers as workers under the following conditions:

The Conditions.

First. The sisters must be duly accredited members of one of the regular authorized organizations.

Second. Each must be particularly qualified by training for the position she is to fill.

Third. That she is sent to France as a worker and not as a relative.

Fourth. That she will make no efforts to visit her relatives in France, whether sick or well.

Fifth. That the organization to which she belongs will make itself responsible for returning her to America in case she violates these rules.

Sixth. That if she marries an officer or a soldier in the American Expeditionary Forces after her arrival she will automatically be sent back to the United States by the organization in which she is serving.

An agreement has been reached with the heads of the organizations affected to submit to the headquarters of the A. E. F. in France, for approval, lists showing the numbers they recommend being sent, and those actually sent will, therefore, be based upon the calls of the heads of these societies in France.

PEYTON C. MARCH,
General, Chief of Staff.

PROPOSALS FOR CANAL WORK.

The United States Reclamation Service, Department of the Interior, is asking for proposals for the construction of canals on the Rio Grande irrigation project, New Mexico-Texas. The work involves about 136,500 cubic yards of excavation and is located near Rincon, N. Mex.

Bids will be opened at the office of the United States Reclamation Service, El Paso, Tex., on September 3, 1918.

Need 25,000 Young Women

The country needs 25,000 young women between the ages of 19 and 35 to enroll in the United States Student Nurse Reserve. Apply at the nearest recruiting station established by the Woman's Committee of the Council of National Defense.

WARNS RED CROSS OFFICIALS NOT TO ENGAGE IN POLITICS

The American Red Cross has issued the following interoffice letter addressed to all division managers:

The first general election since the entrance of the United States in the war is to take place before long. The Red Cross is and must be maintained a strictly nonpartisan, nonpolitical organization. The reasons for this are so obvious to everyone that they need no elaboration.

Membership in the Red Cross includes so many people and there are so many men of prominence engaged in its work either at home or abroad that it is not at all unlikely that many of them will be candidates for office. No matter how sincerely any Red Cross official or worker may strive to keep separate his Red Cross work from any possible political ambitions which he may entertain, he may and probably will be quite unable to prevent his friends from using his connection with the Red Cross in order to gain favor with the voters.

"No Taint of Selfishness."

While such action can not be controlled, all candidates for office who are at heart sincere well-wishers for the Red Cross should realize that they must do all in their power to prevent the public from gaining an impression that political preferment can or should, directly or indirectly, be affected by Red Cross work either at home or abroad. The text of Red Cross service to mankind is stamped by the approval of the American people, regardless of politics, race, or religion. No taint of selfishness or self-seeking can be allowed to creep into the work, endangering and even perhaps destroying its great accomplishment.

War Council Instructions.

Accordingly, the Red Cross war council instructs me to direct that you request all officials of the Red Cross, either in chapters or division headquarters, who are in any position of executive authority, and who at the same time contemplate candidacy for public office, either to resign in their official capacity from the Red Cross or to refrain from such candidacy. At the same time we ask that you give this statement the broadest publicity, and that you use every influence of your office to prevent, in so far as is possible, the use of the Red Cross or of any of its services, either directly or indirectly, in the advancement or in connection with the political campaign of any person.

GEORGE EATON SCOTT,
Acting General Manager.

DATES FOR EXAMINATIONS.

Itinerary of the Engineering Reserve Corps Traveling Board.

The War Department authorizes publication of the following:

The traveling board of officers to examine candidates for admission into the Engineering Reserve Corps will be in Philadelphia, Wednesday, July 31, in room 116, Commercial Trust Building; in New York, Thursday and Friday, August 1 and 2, at 29 West Thirty-ninth Street; and in Boston, Saturday, at 84 State Street.

WORK OF CONGRESS BRIEFLY TOLD

The Ways and Means Committee yesterday tentatively agreed to increase the 2 and 3 per cent tax on certain designated articles in existing law to 10 per cent. At the conclusion of the sessions of the committee Chairman Kitchin gave out the following statement:

"The committee has had under consideration excise taxes on such articles as automobiles, piano players, graphophones, sporting goods, cosmetics, cameras, etc., and tentatively has agreed to levy a tax of 10 per cent on the gross sales of the manufacturers, producers, and importers in lieu of the present rates. A distinction is made between motor trucks and other classes of automobiles. In the case of motor trucks a tax of only 5 per cent was agreed to be levied.

"Also the committee had under consideration a tax on admissions to theaters, operas, moving-picture shows, etc. The committee favors doubling the taxes on admissions and dues, and also imposing a 1 per cent tax on all admissions where the maximum charge does not exceed 7 cents."

The chairman said that the committee planned to-day to take up the luxury lists recently submitted by the Treasury Department. Taxes on tobacco also have been deferred until the Treasury furnishes data which has been sought of it regarding the tobacco schedule. Rates in the present war-revenue act on the articles that are likely to be largely increased under yesterday's tentative agreement are as follows: Admissions, 1 cent for each 10 cents charged; club dues, 10 per cent; automobiles, piano players, sporting goods, and cameras, each 3 per cent; cosmetics, 2 per cent.

Red Cross War Fund Totals $176,528,158

The Red Cross issues the following:

The total of the second Red Cross war fund continues to grow, and the returns still are incomplete. Reports from the various divisions received since the last figures were printed, July 1, show contributions amounting to $176,528,158. This passes the mark of the most optimistic calculations, made after it was definitely known that the subscriptions would go beyond $150,000,000.

Only two divisions—the Gulf and the Northern—have reported the returns from the drive all in hand at division headquarters. On July 1 the total stood at $170,038,394. With 11 of the 13 continental divisions still to be heard from finally, there is the prospect that the fund may go a considerable notch higher than the amount now showing.

ARMY FUNERAL EXPENSES.

GENERAL ORDERS, No. 56.

WAR DEPARTMENT,
Washington, June 13, 1918.

I. Transportation will be furnished civilian attendants accompanying the remains of deceased officers, soldiers, nurses, field clerks, or civilian employees only when such attendants are civilian employees in the military service.

GERMANS LOSE TEN MILES

(Continued from page 1.)

the area of the Soissons-Rheims salient. On July 18 the perimeter of the crescent was 74 miles, it has now been reduced to 54 miles. This means a reduction of 10 miles since last Saturday. The enemy's maximum retreat in the center of the salient is 14 miles.

Objectives Set Aside.

Whatever the enemy's objective was at the start of the drive, and whatever our hope was in the counter offensive on the flank of this salient, it is now perfectly evident that those aims have been set aside. The objective of each army is the other army; each one of them wants to kill as many of the others as possible. The holding back of the jaws by the Germans at Soissons and near Rheims has made it practically impossible for us to expect a bag. They have had two weeks now to withdraw from the dangerous points down near the Marne, and the objective of each army is the other army. During the last few days the American forces on that salient have been increased by the arrival of the 42d Division, which is taking part in the fighting near Fereen-Tardenois and Sergy. The American division in the vicinity of Roncheres and Cierges is our 3d Division.

Six New Divisions.

I have ordered the formation of six new American divisions in the United States. They will be numbered from 15 to 20 and will be organized at Camps Logan, Kearney, Beauregard, Travis, Dodge, and Sevier. These divisions will have as a nucleus, as the six divisions organized last month did, two regular infantry regiments, following the policy of the War Department to replace as far as possible every soldier at home who is fit for service abroad with the Home Guards or men of limited service. The regular regiments referred to will be the nucleus of these divisions.

Following out the same policy, we have ordered the transfer from the cavalry to the field artilery arm of the service of 15 National Army cavalry regiments, numbered from 301 to 315. These men have been in the United States for some time and have had a good deal of training, and are now going to be utilized for service abroad. These regiments will form part of the field artillery for the new divisions now being organized.

Replies to Written Questions.

Gen. March replied to written questions as follows:

When Gen. Wright was appointed temporary corps commander he relinquished the command of his division, and no doubt his senior officer, Brig. Gen. J. L. Hines, is in temporary command of that division.

We have no definite information as to the location of the 89th Division.

Verbal Questions and Answers.

Question: Can you say who will command these new divisions?

Answer: We will have to make new general officers. An announcement will be made in a short time of a number of general officers who have been selected for the six divisions organized last month and other batches for the divisions to be organized from month to month, and so on through. This will require the promotion of officers for the entire Army, who will be promoted by selection.

Question. Will you say anything on the matter of unifications?

Answer. The Secretary of War, I understand, has told the correspondents of the scheme I have been advocating for one Army. That has been approved and we are working out the details now. I intend to put on the collar of every man serving in the American Army the letters "U. S." which has heretofore been reserved for the Regular Army, taking off the letters "N. G." and "N. A.", and making one Army of the United States.

Casualty Lists.

Question. In the matter of casualties, press reports this morning refer to heavy losses, and the German accounts of the last three or four days emphasize the tremendous losses. Can anything be said to prepare the country for what to expect?

Answer. In the matter of casualties the War Department has adopted the following policy and we have ordered Gen. Pershing to carry it out. There will be no separation of casualties into lists going over a long period of time, but he will cable them in as they occur, all casualties, which will be released to the public at once. He has been sent a cablegram to that effect, and as soon as the machinery starts we will give out to the press all casualties, no matter what they are.

Question. We have now seven divisions along the battle line between Soissons and Rheims?

Answer. Seven divisions are so reported.

Question. Was it the Third Division that was opposed to the Prussian Guard?

Answer. We have nothing definite, but as that division is in the vicinity, the supposition is that it was either the Third Division or the Forty-second.

MARINE CORPS ENLISTMENT AGE LIMIT RAISED TO 40 YEARS

Extension of the maximum age limit from 36 to 40 years for original enlistment in the Marine Corps, taking effect immediately, is announced. All Marine Corps recruiting stations have been instructed by telegraph that applicants up to 40 years, inclusive, are now eligible for acceptance in the sea-soldier branch of the service. Aside from extending the upper age limit four years, the rigid physical requirements of the Marine Corps remain unchanged.

Following is the statement of strength to close of business July 29:

Enlisted, Marine Corps	52,240	
Enrolled, Reserve	5,824	
Enrolled, Class 5, Reserve (aviation)	434	
Enrolled, Fleet Marine Corps Reserve	86	
		58,584
Commissioned officers (permanent, probationary, and temporary)	1,165	
Commissioned officers, Reserve	498	
Commissioned officers, Reserve (aviation)	122	
Warrant officers (permanent, temporary, and Reserve)	192	
		1,977
Total		60,561
Actual enlistment papers received July 1-29, 1918		7,649
Estimated enlistment papers not received and applicants pending at recruit depots		3,000

PART II. — CONVENTION RELATING TO THE SERVICE OF CITIZENS OF THE UNITED STATES IN CANADA AND OF CANADIANS IN THE UNITED STATES.

The President of the United States of America and His Majesty the King of the United Kingdom of Great Britain and Ireland, and of the British Dominions Beyond the Seas, Emperor of India, being convinced that for the better prosecution of the present war it is desirable that citizens of the United States in Canada and Canadian British subjects in the United States shall either return to their own country to perform military service in its army or shall serve in the army of the country in which they remain, have resolved to enter into a convention to that end and have accordingly appointed as their plenipotentiaries the President of the United States of America, Robert Lansing, Secretary of State of the United States, and His Britannic Majesty, the Earl of Reading, Lord Chief Justice of England, high commissioner and ambassador extraordinary and plenipotentiary on special mission to the United States, who, after having communicated to each other their respective full powers found to be in proper form, have agreed upon and concluded the following articles:

ARTICLE I.

All male citizens of the United States in Canada (hereinafter called Americans) and all male British subjects in the United States (a) who were born or naturalized in Canada, and who, before proceeding to the United States were ordinarily resident in Great Britain or Canada or in any other part of His Majesty's Dominions to which compulsory military service has been or may be hereafter by law applied, or outside the British Dominions; or (b) who were not born or naturalized in Canada, but who, before proceeding to the United States, were ordinarily resident in Canada (hereinafter called Canadians), shall, unless before the time limited by this convention they enlist or enroll in the forces of their own country or return to the United States or Canada, respectively, for the purpose of military service, be subject to military service and entitled to exemption or discharge therefrom under the laws and regulations, from time to time in force, of the country in which they are: *Provided*, That in respect to Americans in Canada the ages for military service shall be the ages specified in the laws of the United States prescribing compulsory military service, and in respect to Canadians in the United States the ages for military service shall be for the time being 20 to 44 years, both inclusive.

ARTICLE II.

Americans and Canadians within the age limits aforesaid who desire to enter the military service of their own country must enlist or enroll or must leave Canada or the United States, as the case may be, for the purpose of military service in their own country before the expiration of 60 days after the date of the exchange of ratifications of this convention, if liable to military service in the country in which they are at the said date; or, if not so liable, then before the expiration of 30 days after the time when liability shall accrue; or, as to those holding certificates of exemption under Article III of this convention, before the expiration of 30 days after the date on which any such certificate becomes inoperative unless sooner renewed; or, as to those who apply for certificates of exemption under Article III, and whose applications are refused, then before the expiration of 30 days after the date of such refusal, unless the application be sooner granted.

ARTICLE III.

The Government of the United States, through the consul general at Ottawa, and His Britannic Majesty's Government, through the British ambassador at Washington, may issue certificates of exemption from military service to Americans and Canadians, respectively, upon application or otherwise, within 60 days from the date of the exchange of ratifications of this convention or within 30 days from the date when such citizens or subjects become liable to military service in accordance with Article I, provided that the applications be made or the certificates be granted prior to their entry into the military service of either country. Such certificates may be special or general, temporary or conditional, and may be modified, renewed, or revoked in the discretion of the Government granting them. Persons holding such certificates shall, so long as the certificates are in force, not be liable to military service in the country in which they are.

ARTICLE IV.

The Government of the United States and the Government of Canada will, respectively, so far as possible facilitate the return of Canadians and Americans who may desire to return to their own country for military service, but shall not be responsible for providing transport or the cost of transport for such persons.

ARTICLE V.

No citizen or subject of either country who, under the provisions of this convention, enters the military service of the other shall, by reasons of such service, be considered, after this convention shall have expired or after his discharge, to have lost his nationality or to be under any allegiance to the United States or to His Britannic Majesty, as the case may be.

SURVEY ORDERED TO RELEASE MEN FOR ACTIVE SEA SERVICE

Rear Admiral McGowan, Paymaster General of the Navy, has issued the following order to the Bureau of Supplies and Accounts:

Every man released from shore duty, whatever his rank or rating, adds just one more to the fighting force.

Every man of every rank and rating desires, of course, to get to the firing line as soon as his services ashore can be spared.

Critical Survey Directed.

No man in the Navy is willing in wartime to do anything that a woman can do as well, whereas no officer can be expected to be content in any part of the shore establishment unless engaged upon supervisory work so important in its nature that it can not properly be delegated to any person of lesser rating.

Wherefore, it is requested and directed that the officer in charge of each division of the Bureau of Supplies and Accounts at once make a careful and critical survey of his personnel—both commissioned and enlisted—to the end that the Paymaster General may know how many and which men can possibly be spared without seriously interfering with the work.

These reports will include not reservists alone, but regulars as well; and it is to be distinctly understood in this connection that applications from individuals for sea or overseas service will not be necessary, the one and only object being to carry on the work here and at the same time release the maximum number of men for duty at the front.

ARTICLE VI.

The present convention shall be ratified by the President of the United States of America, by and with the advice and consent of the Senate of the United States, and by His Britannic Majesty, and the ratifications shall be exchanged at Washington or at London as soon as possible. It shall come into operation on the date on which the ratifications are exchanged and shall remain in force until the expiration of 60 days after either of the contracting parties shall have given notice of termination to the other; whereupon any citizen or subject of either country incorporated into the military service of the other under this convention shall be as soon as possible discharged therefrom.

In witness whereof the respective plenipotentiaries have signed the present convention and have affixed thereto their seals.

Done in duplicate at Washington the third day of June, in the year of our Lord one thousand nine hundred and eighteen.

ROBERT LANSING. [SEAL.]
READING. [SEAL.]

ORDERED TO WASHINGTON.

Special Orders, No. 170:

216. Maj. George E. A. Reinburg, junior military aviator, Signal Corps, will proceed to Washington, D. C., and report in person to the director of military aeronautics for duty.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

ARMY

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	36
Died of wounds	40
Died of disease	6
Died of aeroplane accident	1
Died of accident and other causes	5
Wounded severely	67
Wounded (degree undetermined)	15
Missing in action	24
Total	194

Killed in Action.

Capt. Shelby Ledford. Mrs. Kathleen Ledford, 2 Summit Street, Sault Ste. Marie, Mich.

Lieut. Eldon F. Brewster. P. H. Brewster, College Park, Ga.

Lieut. William E. G. Cooper. Mrs. Carrie F. Cooper, Hillsboro, Ind.

Lieut. John W. Hassell. Mrs. Ella W. Hassell, Williamston, N. C.

Lieut. Thomas Hopkins. Mrs. Edna I. Hopkins, 1124 Bitting Avenue, Wichita, Kans.

Lieut. Richard W. Moody. Amile G. Peterson, Newark, S. Dak.

Lieut. Thurston Elmer Wood. Capt. A. N. Wood, United States Navy, 1908 Shunk Street, Philadelphia, Pa.

Lieut. Thomas Haldane Young. Mrs. Marian E. Young, 419 Sixth Street, Brooklyn, N. Y.

Sergt. John D. Huffman. Mrs. Davidson C. Huffman, 625 Tenth Avenue, Hickory, N. C.

Sergt. Frank J. Sarley. Miss Mildred Heintz, 20 Hobson Street, Detroit, Mich.

Sergt. Curtis E. Smith. Samuel D. Smith, Rockwood, Tenn.

Corpl. Percy J. Bates. Mrs. Mary E. Bates, Burlington, Vt.

Corpl. Obed H. Folgero. Jonas Folgero, Slater, Iowa.

Corpl. Joseph H. Krauss. Mrs. H. Wasserman, 14 Morningside Avenue, New York, N. Y.

Corpl. William Stephens. Mrs. H. A. Hatton, 52 West One hundred and thirty-ninth Street, New York, N. Y.

Mechanic Faison Harris. Mrs. Rebecca Harris, 112 Slocum Street, Goldsboro, N. C.

PRIVATES.

Fred B. Ashley. Mrs. Charles Ashley, Seal Cove, Me.

Dennis Butler. Mrs. Jennis Starr, Stilwell, Okla.

Jim E. Conrad. James O. Conrad, General Delivery, Arlie, Tex.

Philip Cunningham. W. T. Cunningham, 258 Washington Street, Gloucester, Mass.

M. Joseph Dorgan. Mrs. Marguerite Dorgan, East Willow Avenue, Glendale, Ohio.

Frank Palmer Hommon. Mrs. George D. Cornelius, 220 Church Street, Huntingdon, Pa.

Michael E. Howard. Mrs. Elizabeth Howard, 300 Lawrence Street, Lawrence, Mass.

Richard McIsaac. Mrs. Alice McIsaac, 12 Pitkin Street, West Lynn, Mass.

James D. McKeever. Mrs. John McKeever, 45½ Hicks Street, Brooklyn, N. Y.

Angelo Martini. Byron Boesse, Hancock, Mass.

George L. Oneil. Mrs. Mary Bellville, Colebrook, N. H.

Millard T. Parish. George W. Parish, Smithfield, N. C.

Daniel W. Pittman. Isaac Pittman, R. F. D. No. 1, Powder Springs, Ga.

William A. Platt. Mrs. Anna Platt, 507 Bridge Street, Towanda, Pa.

Howard M. Polen. Charles H. Polen, Germano, Ohio.

Philip J. Pricer. Joseph Pricer, 233 Taylor Street, Pittsburgh, Pa.

Clifton Smith. Mrs. Ethel Smith, 20 Chubb Street, Lawrence, Mass.

Miles A. Suarez. Miss Hyla M. Suarez, 519 West One hundred and twenty-first Street, New York, N. Y.

Thomas J. Wilton. John A. Wilton, Deferiet, N. Y.

Mike Yeager. Mrs. Anna Yeager, Coalridge, Ohio.

Died from Wounds.

Capt. John T. Bossi. Vincent V. Bossi, R. F. D. No. 2, Arkansas City, Kans.

Lieut. Hamon Gray. Mrs. O. H. Gray, 1212 Michigan Avenue, LaPorte, Ind.

Lieut. John S. Morrison. Mrs. Anna Morrison, 35 Radford Street, Yonkers, N. Y.

Lieut. Paul S. Strickland. Mrs. S. Strickland, 385 Orchard Street, New Haven, Conn.

Sergt. Pierce B. Atwood. Lewis Atwood, Peaslee, Gaulbert Co., Louisville, Ky.

Sergt. Harry J. Bickhart. James Bickhart, 2801 West Chestnut Avenue, Altoona, Pa.

Sergt. Carroll D. Harpell. Mrs. John Harpell, 63 Madison Avenue, Everett, Mass.

Sergt. Edward Martin. Max Martin, 1222 Boston Road, New York, N. Y.

Corpl. Charles M. Buskey. Mrs. Bion O. Wilson, 27 Dewey Street, Springfield, Vt.

Corpl. John P. Cranna. John Cranna, 222 Worthen Street, Lowell, Mass.

Corpl. Martin Hellgren. John Hellgren, 9025 South Throop Street, Chicago, Ill.

Corpl. Harry R. Moore. Lawrence F. Moore, 601 North Madison Street, Greencastle, Iowa.

Corpl. Walter I. Moore. Harry Moore, 166 Park Street, Northampton, Mass.

Corpl. Gerald R. I. Silk. Mrs. Isabel Silk, Lowell, Mass.

Corpl. John M. Snyder. Mrs. L. A. Snyder, care of Acme Smith Plaster Co., 790 South Alameda Street, Los Angeles, Cal.

Mechanic Gordon A. Green. Mrs. N. E. Green, Pleasant Street, Ashland, Mass.

Wagoner Harold G. Arms. Mrs. W. H. Arms, 51 Crystal Avenue, Springfield, Mass.

PRIVATES.

Joseph Aukstikalnis. Stephen Cizino, 255 Broadway, South Boston, Mass.

Howard B. Bean. Leve Bean, Turtle Lake, Wis.

Thomas J. Bradley. Dennis Bradley, 3 Elmwood Street, Boston, Mass.

Andrew Owen Clifford. Andrew Jackson Clifford, R. F. D. No. 2, Afton, N. Y.

James T. Evans. Mrs. James A. Newby, R. F. D. No. 2, Cicero, Ind.

Roy Garner. R. L. Garner, Chickalah, Ark.

Ralph Hudson. Mrs. R. Hudson, 94 South Main Street, Wilkes-Barre, Pa.

Stanley J. Lesniowski. Joseph Lesniowski, 251 Person Street, Buffalo, N. Y.

Stephen W. Manchester. Miss Ellen W. Manchester, 37 Haskell Street, Westbrook, Me.

John J. Marx. Mrs. Caroline Marx, 289 South Hancock Street, Wilkes-Barre, Pa.

William Morley. John Morley, 619 Ash Street, Anaconda, Mont.

James B. Norris. Mrs. Bessie B. Hatfield, Crab Orchard, Tenn.

Elam B. Palm. Jacob C. Palm, R. F. D. No. 1, Ephrata, Pa.

Domenic Panozzo. Allesandro Panozzo, Box 59–A, Kankakee, Ill.

David Papineau. Antoine Papineau, 71 Cross Street, Anthony, R. I.

Leroy Rivers. Mrs. Fannie Adams, East Hamstead, N. H.

Braden W. Shallenberger. Geo. A. Shallenberger, care of Easton Furniture Co., Yakima, Wash.

Anthony F. Sylvia. Mrs. Alvin Sylvia, 1031 Davel Street, Fall River, Mass.

John Tolleson. Dr. I. D. Tolleson, Waldron, Ark.

Jose F. Trujille. Frank Trujille, Tucumcari, N. Mex.

John Wilson. John Wilson, jr., 85 Pomeroy Avenue, Kearney, N. J.

Died of Disease.

Corpl. Edward J. Bell. Miss Letitia Bell, 10 Sherman Avenue, New York, N. Y.

PRIVATES.

Orleanis Burton. Mrs. Anna Burton, 169 Crescent Street, Brockton, Mass.

Delmar M. Eppstein. Moses David Eppstein, Farmer City, Ill.

Roy W. Hardin. Mrs. Nancy Hardin, Craig, Mo.

Frank W. Holmes. Miss Eva Demming, 1015 Third Avenue, Seattle, Wash.

Robert D. Lane. Mrs. W. H. Lane, Circleville, Ohio.

Died from Aeroplane Accident.

Lieut. Paul L. Clifford. James D. Clifford, 164 Montagon Street, Brooklyn, N. Y.

Died from Accident and Other Causes.

Lieut. Warren G. Harries. Mrs. G. H. Harries, 401 P Street NW., Washington, D. C.

PRIVATES.

Patrick J. Brennan. Mrs. Beatrice Coyle, 62 Eighteenth Avenue, Astoria, N. Y.

Anthony Fields. George Fields, R. F. D. No. 1, Lebanon, Va.

Henry F. Mickle. W. M. Mickle, Roanoke, Ala.

Donald C. Munro. J. Munro, Kings Park, N. Y.

Wounded Severely.

Lieut. Col. John A. Crane. Mrs. Mary S. Crane, care of National Union Bank, Baltimore, Md.

Capt. William H. Humphreys. Mrs. Verta J. Humphreys, care of Dr. W. J. Jones, Crozet, Va.

Capt. John Walter Nicholson. Mrs. Augustus R. Nicholson, 277 Henderson Avenue, Athens, Ga.

Lieut. William L. Alley. Mrs. Robert L. Alley, box 234; North Emporia, Va.

Lieut. Bernard A. Bingham. Mrs. Cora Bingham, Mantua, Ohio.

Lieut. Richard C. Brunaugh. J. F. Brunaugh, 39 Clarkson Street, New York, N. Y.

Lieut. Fred G. Coffield. Mrs. Fred G. Coffield, 116 Franklin Place, South Bend, Ind.

Lieut. Floyd E. Evans. Mrs. John E. Williams, Hinckley, Ill.

Lieut. David John Fitzgerald. Mrs. E. Fitzgerald, 110 McDonald Avenue, Minden, La.

Lieut. Thomas S. Lyons. Mrs. Thomas S. Lyons, 297 Main Street, Franklin, Tenn.

Lieut. Jeremiah E. Murphy. T. J. Murphy, 86 Liberty Street, Bridgeport, Conn.

Lieut. Ralph S. Schmitt. B. E. Schmitt, 1938 One hundred and sixteenth Street, Cleveland, Ohio.

Lieut. Albert H. Spence. Mrs. Mabel Wilson Spence, care of William A. Hoak, Green Street, Auburndale, Flushing, N. Y.

Lieut. John Elmer Wright. David Rice Wright, R. F. D. No. 4, Mount Pleasant, Pa.

Sergt. Arthur Bouley. Mrs. Exilile Bourbeau, 53 Worcester Street, Nashua, N. H.

Sergt. Henry R. Bushman. Mrs. Dessit R. Bushman, 4538 Red Bud Avenue, St. Louis, Mo.

Sergt. Clement F. Carroll. Mrs. Mary Carroll, 1205 Fourth Avenue, Moline, Ill.

Sergt. Edward Martin. Mrs. Lenora Hamilton, Greensburg, Ky.

Sergt. Henry John Socha. Mrs. Augusta Socha, R. F. D. No. 3, Port Huron, Mich.

Sergt. Ralph O. Williams. Mrs. Maggie Williams, Norristown, Tenn.

Corpl. Carl B. Burnham. Herbert Burnham, Wolcott, Vt.

Corpl. Emile Cormier. Anthony Cormier, Millinocket, Me.

Corpl. Herbert H. Foster. George H. Foster, Farmington, Me.

Corpl. Arthur J. Hall. Mrs. Mary Hall, 26 Eastern Avenue, Gloucester, Mass.

Corpl. Donald S. Johnston. Mrs. Bunyan Johnston, McConnelstown, Pa.

Corpl. Daniel John O'Neil. Mrs. Margaret O'Neil, 1191 East Ninety-sixth Street, Canarsie, N. Y.

Corpl. Ernest C. Russell. Miss Minnie L. Russell, 4507 Idaho Avenue, Nashville, Tenn.

Corpl. Andrew O. Tallman. William Tallman, 709 Herkimer Street, Joliet, Ill.

Master Engineer Walter Easton Allen. Thomas Allen, Box 784, Savannah, Ga.

Cook William F. Hess. Carl Hess, Broadbrook, Conn.

Cook William H. Lynch. Mrs. R. G. Ross, Newcastle, Nebr.

Wagoner Foster Keammerer. Milton F. Keammerer, 340 North Second Street, Steelton, Pa.

PRIVATES.

Clayton H. Baker. Ralph Baker, Tully, N. Y.

Michael Boliski. Pete Canolonis, 2034 Davenport Avenue, Cleveland, Ohio.

Glen Figard. George P. Figard, Saxton, Bedford County, Pa.

Frank Giglio. Sylvester Giglio, Hoffmans, N. Y.

CASUALTIES REPORTED BY GEN. PERSHING

Henry Gilson. Samuel Blackman, 708 North Eighth Street, Philadelphia, Pa.

NAVY

The Navy Department announces the following casualties:

Thomas Terrance Haran, fireman, third class, United States Navy, drowned July 27. Brother, Patrick J. Haran, 2709 Tilden Avenue, Brooklyn, N. Y.

John Franklin Henderson, seaman, second class, United States Naval Reserve Force, drowned July 24 at Norfolk, Va. Father, David B. Henderson, Rugby, Va.

Sealed Bids Wanted

General Engineer Depot, United States Army, 1438 U Street, Washington, D. C.—Sealed bids are wanted until dates indicated under circular proposals as follows for furnishing miscellaneous supplies for the General Engineer Depot. Additional information may be had upon application to the purchasing officer as above:

Proposal No. 1059, opening of August 6, 1918.—Galvanized bolts, spikes, and washers as per specifications.

Proposal No. 1060, opening of August 6, 1918.—Hexagon nuts and washers as per specifications.

Proposal No. 1062, opening of August 6, 1918.—600 tons of expanded metal with effective area of 0.25 square inch, weighing approximately 85 pounds per square foot.

Proposal No. 1063, opening of August 9, 1918.—Boxes, metal; cans, steel, etc., as per specifications.

Proposal No. 1064, opening of August 16, 1918.—Switchboards, 3-wire, as per specifications.

Proposal No. 1065, opening of August 16, 1918.—6,000 pounds rubber sheet gasket, cloth insertion 3/22 inch thick, as per specifications; 2,000 pounds asbestos sheet packing wire insertion, $\frac{1}{16}$ inch thick, as per specifications; 500 feet $\frac{1}{2}$-inch rubber gasket tubing, sample to be submitted.

3,000 feet $\frac{1}{2}$-inch steel-armored air hose in 20-foot lengths; 150 lengths extra for attaching fittings; 190 $\frac{1}{4}$-inch brass couplings as per specifications; 150 hose clamps for $1\frac{3}{16}$-inch O. D. hose; 150 $\frac{1}{4}$-inch long nipple connections; 150 1-inch to $\frac{1}{4}$-inch pipe reducer connections.

VOLUNTEER FOOD WORKER.

The Food Administration issues the following:

O. H. Cheer, of McCan & Co., Pittsburgh, has joined the Food Administration as a volunteer expert in retail distribution of butter, cheese, eggs, and poultry.

Mr. Cheer, who is a grocer and distributer of long experience, will investigate retail distribution with an eye to equalization of prices so that they may be consistent with local conditions and cost of doing business.

Revision of Priorities Regulations as Announced By War Industries Board In Circular Issued to Applicants

ANALYSIS OF CHANGES

Amendments Intended to Simplify Administration and at Same Time Give Greater Assurance That War Requirements Will Be Met—Signed by Heads of All Departments Concerned.

The War Industries Board authorizes the following:

The priorities division of the War Industries Board has issued, under date of July 1, 1918, Circular No. 4, embodying a revision of its rules and regulations governing priority in production. Only such changes have been made as have been suggested by the experience of the past six months, and these will tend to simplify the administration of priorities from the viewpoint of both the Government and the manufacturer, and at the same time give greater assurance that the war requirements will be promptly met.

Signatures to the Circular.

The circular is signed by Edwin B. Parker as priorities commissioner, Bernard M. Baruch as chairman of the War Industries Board, Secretary of War Baker, Secretary of the Navy Daniels, and Edward N. Hurley, chairman of the United States Shipping Board and president of the Emergency Fleet Corporation.

The circular will be mailed at once to all who have made application at any time for priority certificates and to all against whom certificates have been issued. They are asked by the priorities committee not to request copies unless they fail to receive them after a reasonable time has elapsed. Then copies may be procured on application to Maurice Hirsch, secretary of the priorities committee, Washington, D. C.

Certain Changes Made.

The new circular continues in effect Class AA, which comprises only emergency war work; Class A, which comprises other war work; and Class B, which comprises orders and work which, while not primarily designed for the prosecution of the war, yet are of public interest and essential to the national welfare or otherwise of exceptional importance. In order to secure rating within these three classes application must be made to the priorities committee on forms furnished on request, save in cases where provision is made for automatic classifications, and the conditions for procuring automatic classifications have been strictly complied with.

The circular embodies, however, two fundamental changes:

First. The addition of Class D (corresponding to what was formerly Class C) and the creation of Class C as a class entitled to precedence.

Second. The establishment of automatic ratings.

The circular in full follows:

RULES AND REGULATIONS GOVERNING PRIORITY IN PRODUCTION.

These rules and regulations governing priority in production will supersede all directions, rules, and regulations heretofore promulgated by this committee. All priority certificates heretofore issued and now outstanding shall remain in full force and effect according to their original terms:

During the war in which the United States is now engaged all individuals, firms, associations, and corporations engaged in the production of raw materials and manufactured products (save foods, feeds, and fuels) are requested to observe the following regulations respecting priority, namely:

Classifications.

CLASSES PRESCRIBED.

1. All orders and work are divided into five general classes: Class AA, Class A, Class B, Class C, and Class D, with subdivisions of Class AA, Class A, and Class B indicated by suffix number, thus: Class AA–1, Class AA–2, etc.; Class A–1, Class A–2, etc.; and Class B–1, Class B–2, etc.

CLASS AA DEFINED.

2. Class AA comprises only emergency war work of an exceptional and urgent nature.

CLASS A DEFINED.

3. Class A comprises all other war work; that is to say, orders and work necessary to carry on the war, such as arms, ammunitions, destroyers, submarines, battleships, transports, merchant ships, and other water craft; airplanes, locomotives, etc., and the materials or commodities required in the production or manufacture of same.

CLASS B DEFINED.

4. Class B comprises orders and work which, while not primarily designed for the prosecution of the war, yet are of public interest and essential to the national welfare or otherwise of exceptional importance.

CLASS C DEFINED.

5. Class C comprises all orders and work not covered by priority certificates issued by the Priorities Committee or not taking an automatic rating, in accordance with the provisions of sections 7, 8, and 9 hereof, which orders and work are to be utilized in furtherance of one or more of the purposes embraced within the "general classification of purposes Demanding preference treatment" promulgated by the Priorities Board, appearing on page 17 of this circular, as same may be from time to time amended or substituted; or which orders and work are placed by or are to be utilized in connection with an industry or plant appearing on Preference List No. 1, promulgated and published by the Priorities Board under date of April 6, 1918, and all amendments or substitutes therefor. No Class C certificates shall be issued.

CLASS D DEFINED.

6. Class D comprises all orders and work not embraced in Class AA, Class A, Class B, or Class C, and no certificates will be issued therefor. All orders for work or materials not covered by priority certificates or not taking an automatic classification in accordance with the provisions of sections 8 and 9 hereof, and not taking a Class C classification under the provisions of section 5 hereof, will fall within Class D.

AUTOMATIC CLASSIFICATIONS.

7. Each order placed after June 30, 1918, by a duly authorized officer of the War Department or of the Navy Department of the United States, or of the United States Shipping Board Emergency Fleet Corporation, which falls within Class A as defined in section 3 hereof, shall, by virtue of this rule, upon the placing of the order, automatically be classified as A–5, *provided* said order carries an indorsement personally signed by the officer placing the order, reading:

Unless rerated by express order in writing by the Priorities Committee of the War Industries Board, this order is by authority of said Priorities Committee rated as Class A–5, and its execution shall take precedence over all your orders and work of a lower classification to the extent necessary to insure delivery according to the date specified herein, as prescribed by Circular No. 4, issued by the Priorities Division of the War Industries Board, of date July 1, 1918, and all amendments thereto.

8. Each order for materials, equipment, or supplies for the purposes or uses hereinafter in this section mentioned shall, by virtue of this rule, automatically take a classification as herein prescribed, namely:

(a)	For the manufacture of turbines (all classes)	A-4
(b)	For the repair or construction of steam railroad locomotives for use on the railroads under the jurisdiction of the U. S. Railroad Administration	A-4
(c)	For the production of electrodes	A-5
(d)	For the manufacture of rope wire and of wire rope	A-5
(e)	For the building of ships or other water craft for and under direct contracts with the U. S. Shipping Board Emergency Fleet Corporation	A-5
(f)	For the building of all cargo water craft (but not pleasure craft) save such as are under construction by or for the U. S. Shipping Board Emergency Fleet Corporation	A-5
(g)	For the manufacture of machine tools for working both metal and wood; of machinists' tools, of small tools, of hand tools, and of mining tools, machinery, and equipment	A-5
(h)	For the manufacture of steam railroad materials, equipment, and supplies (other than locomotives) for use on the railroads under the jurisdiction of the U. S. Railroad Administration	B-1
(i)	For the manufacture of locomotive cranes and traveling cranes	B-1
(j)	For the manufacture of electrical equipment other than turbines (but not electrical supplies as distinguished from equipment)	B-2
(k)	For the manufacture of farm implements	B-2
(l)	For the manufacture of textile machinery	B-2
(m)	For the manufacture of tools, implements, machinery, and equipment required for the production, harvesting, distribution, milling, canning, and refining of foods and feeds	B-2

Priorities Regulations Announced by War Industries Board

(n) For the manufacture of binder twine and rope ---------- B-2
(o) For the manufacture of oil-well supplies or equipment—by which is meant supplies for the production of petroleum and natural gas, but not including pipe lines, storage tanks of 1,000 barrels capacity or over, tank cars, or refineries---------- B-2

No order shall take an automatic classification under the provisions of this section 8 save where the person intending to use the materials, equipment, or supplies ordered states under oath in writing that they are to be used for one or more of the purposes mentioned in this section and for no other purpose; which affidavit shall be indorsed on or attached to the order and shall be in the form following:

Unless rerated by express order in writing by the Priorities Committee of the War Industries Board, this order is by authority of said Priorities Committee rated as Class — under and by virtue of subdivision — of section 8 of Circular No. 4 issued by the Priorities Division of the War Industries Board of date July 1, 1918, and all amendments thereto.

For the purpose of securing the said rating I do solemnly swear —

(1) That I have taken and filed whatever pledge is required by the War Industries Board from the industry of which I am a member; and

(2) That the materials, equipment, or supplies covered by this order are intended for use, and will be used, for the purpose or purposes mentioned in the said subdivision or subdivisions of said section 8, and for no other purpose.

9. Each order for materials, equipment, or supplies for such purposes or uses as fall within Class C as defined in section 5 hereof, will automatically be classed as Class C; provided the person intending to use the materials, equipment, or supplies ordered shall file with and as a part of said order an affidavit in writing in the form following:

Unless rerated by express order in writing by the Priorities Committee of the War Industries Board, this order is by authority of said Priorities Committee rated as Class C under and by virtue of section 9 of Circular No. 4 issued by the Priorities Division of the War Industries Board of date July 1, 1918, and all amendments thereto.

For the purpose of securing the said rating I do solemnly swear—

(1) That I have taken and filed whatever pledge is required by the War Industries Board from the industry of which I am a member; and

(2) That the materials, equipment, or supplies covered by this order are intended for use, and will be used, for the purpose or purposes mentioned and referred to in section 5 of said circular, and for no other purpose.

10. Where the party placing an order under sections 7, 8, or 9 hereof conceives it to be in the public interest that the order should take a higher classification than the automatic classification prescribed herein, then in such event an application for such higher classification setting forth the reasons therefor may be filed and same will be considered by and promptly acted upon by the Priorities Committee. No such application should be made, however, save in cases where the automatic rating will not secure delivery on or near the date required, and such application must disclose facts evidencing that the public interest requires an earlier delivery of the order than can be secured under the existing automatic rating. The application must be made on the regular Priorities Committee Application Form P C 15.

CLASS D ORDERS.

11. All orders save such as are automatically classed under the provisions of sections 7, 8, and 9 hereof, shall be automatically classed as Class D unless covered by certificates or other written directions issued in accordance with the rules and regulations embodied in this circular or amendments thereto.

Precedence of Classes.

RULES OF PRECEDENCE.

12. Orders and work in Class AA shall take precedence of orders and work in all other classes; those in Class A shall take precedence of those in classes B, C, and D; those in Class B shall take precedence of those in Classes C and D; those in Class C shall take precedence of those in Class D; all irrespective of the dates the orders were placed.

Orders and work in Class AA–1 shall take precedence of orders and work in Class AA–2 and all lower classes; those in Class A–1 shall take precedence of those in Class A–2 and all lower classes; those in Class B–1 shall take precedence of those in Class B–2, etc.

Where work is in progress on several classified orders the rules of precedence set forth in sections 13 and 14 thereof will be observed.

ORDERS IN DIFFERENT CLASSES.

13. The classification of an order simply means that it shall be given such precedence over orders of a lower classification as may be necessary (and only such as may be necessary) to insure delivery on the date specified in the order. It does not mean that work should cease on orders of a lower classification, or that the order should be completed and delivery made in advance of orders taking a lower classification if this is not necessary to effect delivery within the time specified. The one to whom a priority certificate is directed or with whom an order taking an automatic classification is placed should make his own production plans, so as to get the maximum of efficiency out of his operations, making all deliveries at the times contracted for, if possible, and where this is not possible, giving precedence to the orders taking the highest classification.

ORDERS IN SAME CLASS.

14. As between orders in the same subdivision of a class (as A–1), save where otherwise specifically requested by the committee, the date of delivery contracted for will control unless this will operate to delay the delivery required by an earlier order of the same class, in which event the earlier order will have precedence in delivery. For example: Two orders, Order X and Order Y, are both covered by A–1 certificates. Order X is dated October 1, 1918, and calls for delivery February 1, 1919. Order Y is dated November 1, 1918, but calls for delivery January 1, 1919. As between these two orders preference will ordinarily be given to Order Y, because it calls for an earlier delivery date. If, however, such delivery will delay the completion of Order X, then preference should be given Order X, because it is the earlier order. If possible, both orders will be completed on the delivery dates called for. The dates of the certificates are not controlling.

DOUBTFUL CASES.

15. In case of doubt as to which certificate or order should have precedence, the matter should be laid before the committee by correspondence or in conference, so that the committee may give specific instructions.

Applications.

FORM OF APPLICATION.

16. Applications for priority certificates must be made on the form of application prescribed by this committee. (See form set out at p. 14 and 15 of this circular.)

WHO MAY APPLY.

17. As a general rule, where an application is necessary, it should be made by the one intending to use the materials, equipment, and supplies.

UNITED STATES GOVERNMENT.

18. If the order has been placed by some purchasing officer of the United States Army, Navy, Shipping Board Emergency Fleet Corporation, or any other branch or department of the Government, the application should be made by and in the name of the department or official for whose account the order has been placed.

ALLIED GOVERNMENTS.

19. If the order has been placed for export to the territory of an allied Government or for delivery to an allied Government or to some person for account thereof, the application must be made to this committee through and with the written approval of the War Mission which is representing said Government in the United States and also with the written approval of the Allied Purchasing Commission.

A GOVERNMENT CONTRACTOR.

20. One who has a contract with the Government with the allies, and who needs priority assistance to obtain the materials, commodities, or work to fill such contract may make application direct to this committee. In some instances the committee will have already issued a priority certificate against such contractor directing him to give priority to the filling of his Government contract or contracts. In other instances such certificates will not have been issued. In either event, however, one who is working on Government contracts may make application direct if he needs priority assistance. While it is not necessary for such applications to be made through or with the approval of the Government official placing the contract, it is desirable that this course should be pursued where it will not involve substantial delay. Where this course is not pursued, such applicant's connection with the Government work and the correctness of his representations will be verified and checked by the committee.

GOVERNMENT SUBCONTRACTORS.

21. Those who may be one or more times removed from a direct contractor with the Government or with the allies, but who are furnishing materials, supplies, or commodities to be used in connection with the fulfillment of such direct contract, may make application direct to the committee for such assistance as they may need to obtain such materials, commodities, or supplies. Such applications need not be approved by either the principal contractor or by the agency of the Government or the allies placing the

Priorities Regulations Announced by War Industries Board

original order, but the representations of the applicant will be verified by the committee.

APPLICANTS NOT ENGAGED DIRECTLY OR REMOTELY ON GOVERNMENT CONTRACTS.

22. One who has placed an order for any material, commodities, or supplies which fall within class B, as defined in section 4 hereof, and who requires priority assistance to procure reasonably prompt delivery thereof, may make application direct to the Committee. In such cases the paragraphs in the application seeking to elicit information with respect to the applicant's connection with the Government or allied contracts may be disregarded.

AGAINST WHOM APPLICATIONS MAY BE MADE.

23. Applications for priority should be made against the actual producer or manufacturer. The committee will not—save in exceptional cases, where the issuance of a certificate will clearly expedite the filling of an important order—administer priority against jobbers, brokers, or middlemen. When an order is placed through a third person his name should appear in paragraph 4 of Application Form PC 15 (see pp. 14 and 15 of this circular).

PREMATURE DELIVERIES.

24. In placing orders care should be exercised in determining the date that delivery will actually be required. The contractor should not ask to have delivery made before he will be prepared to use the articles. A rigid adherence to this rule will greatly facilitate timely deliveries of urgent orders and prevent needless interference. The application must state the date of delivery promised by the producer.

Priority Certificates.

FORM AND EFFECT OF CERTIFICATES.

25. When the Committee shall approve an application and give it a rating it will issue a priority certificate in the form set forth on page 16 of this circular. The one to whom the certificate shall be directed will, in fulfilling the contract or order mentioned in the certificate, give to it such precedence or priority as it may be entitled to under the classification specified in the certificate and the rules of this circular.

PRIORITY CLASSIFICATIONS SUPERSEDE OTHER INSTRUCTIONS.

26. Priority classifications, whether evidenced by certificates or automatic ratings as prescribed in sections 7, 8, and 9 hereof, shall supersede any and all previous instructions, by whomsoever issued, with respect to priority in production and delivery of the contract or order covered thereby, except commandeering orders and special priority directions issued in pursuance of section 28 hereof.

EXECUTION OF CERTIFICATES.

27. Certificates or other documents signed by order of the priorities committee (printed) and countersigned in person by any person whose name appears thereon as one of the persons authorized to countersign shall be deemed to have been authorized by said committee, the priorities commissioner, and the War Industries Board.

SPECIAL PRIORITY DIRECTIONS.

28. That unusual emergencies may be promptly met and cases of great urgency provided for, the priorities committee may, by an order in the form of a letter, a special certificate or otherwise, signed personally by the priorities commissioner, direct that a particular contract or order shall have priority over other contracts or orders covered by existing certificates or automatic ratings, or may in the same manner reclassify or regrade existing contracts or orders covered by outstanding certificates or automatic ratings.

DELIVERY OF CERTIFICATES.

29. Unless requested to the contrary, the priorities committee will forward direct to the applicant the original and one copy of the certificate, if issued, that the applicant may send the original to the one to whom it is directed, retaining the copy for his files. If the applicant desires, and so expressly states, the certificates, if issued, will be forwarded to the one to whom directed. Should the committee decline to approve the application, prompt notification of such action will be sent direct to the applicant.

Scope of Work.

30. The committee undertakes where necessary to administer priority in the production of all raw materials and finished products save foods, feeds, and fuels.

FUEL.

31. The production, supply, and distribution of fuel is under the supervision of the United States Fuel Administrator, who, in the distribution of fuel to industries and plants, is guided by the Preference List, in so far as it classifies such industries and plants according to their relative importance. The Preference List is compiled and promulgated by the Priorities Board, of which the Priorities Commissioner is chairman and H. G. Phillipps is secretary. While the Priorities Committee does not administer priority in the production of fuel, should those engaged on orders covered by priority certificates, automatic classifications, or special priority directions experience difficulty in securing a fuel supply to the extent of interfering with the production covered by such priority, they may apply for a place on the Preference List on application form PL–1, which will be furnished to them by H. G. Phillipps, secretary, on request. Such applications will be investigated and appropriate recommendations will be made to the Fuel Administrator, to the end that all orders to which this committee has accorded priority in production may not be unnecessarily delayed for lack of fuel.

The committee will also consider applications by fuel producers for priority assistance to procure materials, tools, equipment, or supplies required for the production of fuel.

FOODS AND FEEDS EXCLUDED.

32. The committee does not distribute foods or feeds, over the production, supply, and distribution of which the United States Food Administrator has supervision. Requests for assistance in purchasing foods and feeds or in expediting deliveries thereof should be addressed to the United States Food Administrator, Washington, D. C.

The committee, however, will consider applications from producers of foods and feeds for priority assistance to procure materials, tools, equipment, or supplies required for their production.

TRANSPORTATION.

33. This committee does not administer priority in transportation. The United States Railroad Administration in furnishing transportation service is guided by the Preference List mentioned in section 31 hereof, defining the relative importance of industries and plants. Should those engaged on orders covered by priority certificates, automatic classifications, or special priority directions experience difficulty in arranging for the transportation of materials, equipment, or supplies to the extent of interfering with the production of said orders. representations to this effect addressed to the manager of inland traffic, War Industries Board, Washington, D. C., setting forth such facts in detail, duly verified by affidavit, will be carefully considered and in proper cases certified to the United States Railroad Administration to the end that all orders to which this committee has accorded priority in production may not be unnecessarily delayed for lack of transportation. Special application forms for this purpose may be secured from the manager of inland traffic, War Industries Board.

This committee will also consider applications of transportation companies for priority assistance to procure materials, equipment, or supplies required in their operations.

EXPORT AND IMPORT LICENSES EXCLUDED.

34. The committee does not issue export or import licenses. All applications for such licenses should be addressed to the War Trade Board, Washington, D. C.

PRICES AND PURCHASES EXCLUDED.

35. The committee does not fix or assist in fixing prices. Neither does it make or assist in making purchases.

REGRADING OF SCHEDULES.

36. When it appears that a large per cent of the capacity of any plant is covered by certificates or automatic ratings of the same subdivision of a class, the Priorities Committee will, when it appears desirable so to do, arrange, through conference between it, the authorized representatives of such plant, and those placing the orders covered by such certificates or automatic ratings, for the reclassification thereof or the rearrangement and regrading of the schedules within each subdivision of a class, so as to insure the most urgent orders having precedence without unnecessarily interfering with the efficient management and operation of such plant.

Instances Where Applications Should Not Be Made.

ORDERS NOT WITHIN CLASS AA, CLASS A, OR CLASS B.

37. No application should be made for priority in any case which does not fall within Class AA, Class A, or Class B, as defined in sections 2, 3, and 4 hereof.

Priorities Regulations Announced by War Industries Board

BEFORE ORDER IS PLACED.

38. Applications should not, save in very exceptional instances, be made for priority assistance unless an order is actually placed for the materials, commodities, or work.

WHERE NO SHORTAGE EXISTS.

39. Save in very exceptional cases priority assistance is only required where the demand exceeds the supply.

WHERE NO DELAY IS EXPECTED.

40. Although there may be a general shortage in a given product, the particular producer or manufacturer with whom the order is placed may be prepared to make delivery on scheduled time. Inquiry should first be made of him to ascertain if there will be a delay. In all cases the application should state when delivery is needed and when delivery is promised.

The Test.

41. The paramount purpose of priorities is the selective mobilization of the products of the soil, the mines, and the factories for direct and indirect war needs in such a way as will most effectually contribute toward winning the war. In requesting priority the petitioner should join with the committee in applying the test: To what extent, if at all, will the granting of this application contribute, directly or indirectly, toward winning the war; and if at all, how urgent is the need?

CONCLUSION.

The sole object of this division is to render a very seal service to the Government and to the Nation, within the scope of its activities, and to that end invites and confidently hopes to receive the wholehearted cooperation of every department of the Government and of all others with whom it has to deal. Careful and painstaking consideration will be given all applications for priority, and decisions will be promptly rendered thereon.

Routing

To ____ Date ____

APPLICATION FOR PRIORITY CERTIFICATE.

Read Circular No. 4, and instructions, before filling in application.

Use typewriter.

"Applicant" must be the concern which is to use the material or equipment.

A separate application blank must be filled in for each case presented; several orders on one concern may be covered in one application.

Applications made by the Government need not be attested.

To the PRIORITIES COMMITTEE,
Washington, D. C.

———, ———, 1918.

The undersigned hereby requests issuance of a priority certificate for the reasons stated below:

1. Insert here name and address of concern which is to produce the material or equipment or perform the work described in paragraph 5.	Name. Address.
2. Insert here name and address of applicant.	Name. Address.
3. State here number and date of order *placed with concern* named in paragraph 1.	Number of order. Date of order. Date delivery needed. Date delivery promised.
4. If order was placed through an agent, insert here his name and address.	Name. Address.
5. State here ONLY the *quantity* and *description of material* or *equipment* for which priority is being asked. If material is metal, give tonnage.	
6. Enter here ONLY the priority number (s) and rating (s), if any, for which the material described under paragraph 5 is required.	
7. If materials or equipment mentioned in paragraph 5 are for use in filling a Government order given directly to applicant, insert here name of Government department, number, date of order, quantity, and full particulars of such order, and dates of delivery required.	
8. If materials or equipment mentioned in paragraph 5 are being applied for by a subcontractor, such subcontractor will state the name of original contractor and give an exact description of what he (subcontractor) is to furnish, with quantities and deliveries required.	
9. If materials or equipment be required for purposes other than mentioned in paragraphs 7 and 8, state fully the purpose for which they are to be used.	
10. State whether or not applicant has in stock any of the materials (and how much) which may be used, in whole or in part, in the filling of such orders.	
11. How much of the material(s) mentioned in paragraph 5 has (have) been shipped?	
12. Has person named in paragrpah 2 the plant and equipment now available to execute all orders on which he is now engaged?	
13. What per cent of applicant's plant output is now devoted to war needs?	
14. Any additional information the applicant may wish to present.	

Each question bearing on this application must be fully answered upon the form itself, and not by letter. Do not send letters of transmittal.

The undersigned being first duly sworn on oath says that the statements contained in the foregoing application are full, true, and correct; that the quantities are accurately stated, and that all articles, material, and work described in paragraph 5 hereof are intended for use in and necessary for the completion of the order(s) concerning which this application is made.

Countersigned:

PRIORITIES COMMITTEE.

NOTES.

1. Unless otherwise requested, the original and a duplicate of this certificate will be forwarded to applicant, who should reforward the original to the person on whom the certificate is issued, retaining the duplicate. The person on whom the certificate is issued will have no notice of its issuance until received by him.
2. Prompt report must be made to this committee by the person on whom the certificate is issued when the order covered hereby has been completed, and in making such report the number of this certificate must be given.
3. This certificate is not assignable. The materials secured hereunder must be used for the purpose stated in the application unless otherwise directed by the priorities committee.

General Classification of Purposes Demanding Preference Treatment.

For the guidance of all governmental agencies in the production, supply, and distribution of raw materials, finished products, electrical energy, fuel, and transportation by rail, water, pipe lines, and otherwise, including all necessary raw materials, partially manufactured parts and supplies for completion of products, the Priorities Board has adopted the following general classification of purposes demanding preference treatment:

Aircraft.

Munitions, Military and Naval Supplies, and Operations.—Building construction for Government needs. Equipment for same.

Fuel.—Domestic consumption. Manufacturing necessities named herein.

Food and Collateral Industries.—Foodstuffs for human consumption, and plants handling same. Feeding stuffs for domestic fowls and animals, and plants handling same. All tools, utensils, implements, machinery, and equipment required for production, harvesting, and distribution, milling, preparing, canning, and refining foods and feeds such as seeds of foods and feeds, binder twine, etc. Products of collateral industries, such as fertilizers, fertilizer ingredients, insecticides, and fungicides. Containers for foods and feeds, collateral products. Materials and equipment for preservation of foods and feeds, such as ammonia and other refrigeration supplies, including ice.

Clothing.—For civilian population.

Railroad or other necessary transportation equipment, including water transportation.

Public utilities serving war industries, Army, Navy, and civilian populations.

EDWIN B. PARKER,
Chairman, Priorities Board.

WASHINGTON, D. C., *March 27, 1918.*

Preference List No. 1.

In pursuance of a resolution unanimously adopted by the Priorities Board, at a meeting held April 6, 1918, the following Preference List of classes of industries, whose operation as a war measure is of exceptional importance, is promulgated and published for the guidance of all agencies of the United States Government in the supply and distribution of coal and coke, and in the supply of transportation by rail and water for the movement of coal and coke to said industries.

The Priorities Commissioner shall, under the direction of and with the approval of the Priorities Board, certify additional classes of industries, and also certify individual plants whose operation as a war measure is of exceptional importance, which industries and plants when so certified shall be automatically included in this Preference List, which shall be amended or revised from time to time by action of the Priorities Board to meet changing conditions.

No distinction is made between any of the industries or plants which are or may be included in this Preference List, and no significance should attach to the order in which the industries or plants appear in the list.

Aircraft.—Plants engaged exclusively in manufacturing aircraft or supplies and equipment therefor.

Ammunition.—Plants engaged in the manufacture of ammunition for the United States Government and the allies.

Army and Navy cantonments and camps.

Arms (small).—Plants engaged in manufacturing small arms for the United States Government and the allies.

Chemicals.—Plants engaged exclusively in manufacturing chemicals.

Coke plants.

Domestic consumers.

Electric equipment.—Plants manufacturing same.

Electrodes.—Plants producing electrodes.

Explosives.—Plants manufacturing explosives.

Farm implements.—Manufacturers exclusively of agricultural implements and farm-operating equipment.

Feed.—Plants producing feed.

Ferro-alloys.—Plants producing.

Fertilizers.—Manufacturers of fertilizers.

Fire brick.—Plants producing exclusively.

Food.—Plants manufacturing, milling, preparing, refining, preserving, and wholesaling food for human consumption.

Food containers.—Manufacturers of tin and glass containers and manufacturers exclusively of other food containers.

Gas.—Gas-producing plants.

Gas.—Plants manufacturing exclusively gas-producing machinery.

Guns (large).—Plants manufacturing same.

Hemp, jute, and cotton bags.—Plants manufacturing exclusively hemp, jute, and cotton bags.

Insecticides. — Manufacturers exclusively of insecticides and fungicides.

Iron and steel.—Blast furnaces and foundries.

Laundries.

Machine tools.—Plants manufacturing machine tools.

Mines.

Mines.—Plants engaged exclusively in manufacturing mining tools and equipment.

Newspapers and periodicals.—Plants printing and publishing exclusively newspapers and periodicals.

Oil.—Refineries of both mineral and vegetable oils.

Oil production.—Plants manufacturing exclusively oil-well equipment.

Public institutions and buildings.

Public utilities.

Railways.

Railways.—Plants manufacturing locomotives, freight cars, and rails, and other plants engaged exclusively in manufacture of railway supplies.

Refrigeration.—Refrigeration for food and exclusively ice-producing plants.

Seeds.—Producers or wholesalers of seeds (except flower seeds).

Ships (bunker coal).—Not including pleasure craft.

Ships.—Plants engaged exclusively in building ships (not including pleasure craft) or in manufacturing exclusively supplies and equipment therefor.

Soap.—Manufacturers of soap.

Steel.—Steel plants and rolling mills.

Tanners.—Tanning plants, save for patent leather.

Tanning extracts.—Plants manufacturing tanning extracts.

Tin plate.—Manufacturers of tin plate.

Twine (binder) and rope.—Plants producing exclusively binder twine and rope.

Wire rope and rope wire.—Manufacturers of same.

EDWIN B. PARKER,
Chairman, Priorities Board.

WASHINGTON, D. C., *April 6, 1918.*

LIGHT SERVICE MEN PRAISED.

Keeper and Ship Commander Commended for Aiding In Rescues.

The Department of Commerce issues the following:

Mr. THOMAS KNIGHT,
Keeper, Hillsboro Inlet Light Station, Fla.
(Through Commissioner of Lighthouses.)

SIR: Referring to report of the assistance rendered by you on June 13, 1918, to a Government hydroplane adrift in the vicinity of Hillsboro Inlet Light Station with disabled motor, and with three occupants, the department takes much pleasure in commending you for the excellent service thus rendered, which will be noted on the records as part of your official history.

Respectfully,

WILLIAM C. REDFIELD,
Secretary.

ALEX. ANDERSEN,
Commanding Light Vessel No. 52.
(Through Commissioner of Lighthouses.)

SIR: Referring to the assistance rendered on June 4, 1918, to a disabled airplane, with two occupants aboard, which had fallen into the water in the vicinity of Fenwick Island Shoal Light Vessel *No. 52*, Delaware, the department takes pleasure in commending you and the seamen who assisted in this matter, which will be noted on the records as part of the official history of all concerned. It is requested that the inclosed copy of this letter be brought to the attention of those on board light vessel *No. 52* who participated in the excellent service rendered.

Respectfully,

WILLIAM C. REDFIELD,
Secretary.

Order Extending Functions of the Inland Traffic Service, Division of Purchase, Storage, and Traffic, General Staff

The War Department authorizes the following:

WAR DEPARTMENT,
OFFICE OF CHIEF OF STAFF,
PURCHASE, STORAGE,
AND TRAFFIC DIVISION,
Washington, July 19, 1918.

Office Order No. 38.

1. In accordance with instructions from the Secretary of War, dated June 8, 1918, directing the organization of the Inland Traffic Service, a copy of which was furnished all concerned by first indorsement, Adjutant General's Office, June 14, 1918 (320-Inland Traffic Service, Miscl. Div.), and is attached hereto and made a part of this order, the functions of the Inland Traffic Service of the Division of Purchase, Storage, and Traffic, General Staff, are hereby extended as provided therein.

2. August 1, 1918, is fixed as the date upon which the instructions of the Secretary of War, above referred to, will become effective, except that with respect to the New York branch the date July 1, 1918, was selected, and operations under this order commenced accordingly.

3. There are established:

(a) Branch offices of the Inland Traffic Service at the following points:

Boston, Mass.
New York, N. Y.
Chicago, Ill.
St. Louis, Mo.
Atlanta, Ga.
Pittsburgh, Pa.
New Orleans, La.

(b) District offices at the following points:

Birmingham, Ala.
Charlotte, N. C.
Jacksonville, Fla.
Detroit, Mich.
Toledo, Ohio.
Peoria, Ill.
Dallas, Tex.
Albany, N. Y.
Buffalo, N. Y.
Cincinnati, Ohio.
Cleveland, Ohio.
San Francisco, Cal.
Portland, Oreg.
Indianapolis, Ind.
Kansas City, Mo.
Baltimore, Md.
Norfolk, Va.
Philadelphia, Pa.
Richmond, Va.

(c) Civilian representatives of the Inland Traffic Service will be placed in charge at depots, warehouses, posts, camps, cantonments, aviation fields, arsenals, and other places, as may be determined necessary from time to time by the chief, Inland Traffic Service, not to exceed the total number of such civilians in charge as authorized by order of the Secretary of War.

(d) Commissioned officers will serve as representatives at depots, warehouses, posts, camps, cantonments, aviation fields, arsenals, and other places, to which civilians are not assigned, where the volume of traffic matters makes the presence of an agent of the Inland Traffic Service necessary, as announced from time to time by the chief, Inland Traffic Service.

(e) Such civilians and commissioned representatives will have charge of Inland Traffic Service activities in their respective supply bureaus, depots, camps, posts, and other stations to which they are assigned, under the jurisdiction and subject to the authority of the chief, Inland Traffic Service, reporting as directed by him.

4. The chief, Inland Traffic Service, is hereby authorized—

(a) To appoint assistant chiefs, civilians in charge of district offices, to select commissioned assistants thereto, to appoint civilians to have charge at supply bureaus and at depots, camps, posts, and other stations, and such civilian personnel for branch and district offices as is provided for in the instructions from the Secretary of War above referred to.

(b) To assign to the branch and district offices the territory over which they will exercise supervision.

(c) To select and determine from those recommended the commissioned officers to have charge at such camps, posts, and other stations, and in the event that any officer so selected does not perform the duties required by the Inland Traffic Service in a satisfactory manner to request that he be relieved and another officer assigned to duty.

(d) To arrange for the necessary office quarters for the branch and district offices above authorized, furniture, supplies, and other requisites.

(e) To establish, when in his judgment necessary, one additional branch and one additional district office at locations to be selected by him, and to arrange for the necessary personnel, quarters and supplies in the manner authorized herein.

5. Chiefs of supply bureaus, and of sections and divisions thereof, the officer in charge of the construction division, commanding officers of all depots, warehouses, posts, camps, cantonments, aviation fields, arsenals, and other places concerned in the shipment of War Department property, will immediately designate to the chief, inland traffic service, for assignment to such work, where such service is required, a commissioned officer of appropriate rank and experience, for consideration and confirmation if satisfactory.

At all places listed in paragraphs 3 (c) and 3 (d), necessary personnel, office quarters, equipment and supplies shall be provided as directed by the instructions of the Secretary of War of June 8, 1918, above referred to.

GEO. W. GOETHALS,
Director of Purchase, Storage, and Traffic.

To: The commanding generals of all Regular Army, National Army, and National Guard Divisions, department commanders, ports of embarkation, War Department bureaus, Coast Artillery district commanders, and commanding officers of all excepted places.

WAR DEPARTMENT,
OFFICE OF CHIEF OF STAFF,
PURCHASE, STORAGE, AND
TRAFFIC DIVISION,
Washington, June 8, 1918.

From: The Adjutant General of the Army.

To: The Director of Purchases, Storage, and Traffic.

Subject: Organization of Inland Traffic Service.

The Secretary of War directs that the attached papers be returned to you with the following information:

1. At a date to be fixed by the Chief of Inland Traffic Service, the supply bureaus and each section or division thereof, and the construction division will discontinue their transportation organization in so far as they deal with the ordering of cars, routing and transportation of troops, ammunition, and supplies of all kinds, and all activities of that character, as more fully outlined in paragraph 3 hereof, will thereupon be assumed by the Inland Traffic Service.

2. Chiefs of supply bureaus and of sections and divisions thereof, officer in charge of construction division, commanding officers of all depots, warehouses, posts, camps, cantonments, aviation fields, arsenals, and other places where such service is required, will assign to such work, under the direct jurisdiction of the Inland Traffic Service, in so far as the above-named functions are concerned, a commissioned officer of appropriate rank and experience, such additional personnel as may be necessary to perform the services named, office quarters, equipment, etc., at the expense of the supply bureau or other branch concerned.

3. The Inland Traffic Service will take over and perform all duties pertaining to the transportation, inland and coastwise, of all troops, also all property of the War Department moving by express, freight or otherwise, and the routing thereof, beginning with the ordering of cars or other vehicles for use in shipping the property; also including all matters pertaining to expedition or preference in movement, tracing, checking of railroad yards, instructions to carriers, including the disposition of shipments on arrival at destination, all other relations with the carriers, switching service, and questions pertaining to transportation as distinguished from the concentration and shipping of the property and the acceptance or storing or otherwise disposing of it on arrival at destination, will require prompt acceptance of the property, unloading of cars, and accomplishment of bills of lading.

The Inland Traffic Service shall have jurisdiction over and control of railroad freight and passenger equipment, other than locomotives, belonging to the Government, and the records thereof. This to include tank cars belonging to the Signal Corps and the Ordnance Department, the freight cars purchased from the Panama Canal, and such other equipment as may be acquired from time to time. The assignment of tank cars and other special service cars to the service in

(Continued on page 16.)

PRIORITY POLICIES AND REGULATIONS GOVERNING DISTRIBUTION OF STEEL AND ITS PRODUCTS OUTLINED BY THE PRIORITIES DIVISION OF WAR INDUSTRIES BOARD

The Priorities Division of the War Industries Board has issued the following circular setting forth priority policies and regulations governing the distribution of steel and steel products:

CIRCULAR NO. 5.

To all Producers, Manufacturers, Dealers, and Consumers:

SECTION I.

The problem—The Nation's present business—your present business—is War. When this fact shall have taken firm root in the hearts and minds of the men, women, and children of this country, our industrial problems will be found comparatively easy of solution, and the task of readjusting and mobilizing the industries of the Nation to meet the requirements of the military program more than half discharged.

For the winning of the war steel is now the world's most precious metal. It is consumed, or used to some extent, every day by practically every civilized man in every civilized country, and nowhere in such vast quantities per capita as in the United States. The present and constantly increasing steel requirements of this country and its allies for direct and indirect war needs, 100 per cent of which must under any and all circumstances be promptly supplied, are so enormous as to well-nigh absorb our constantly expanding producing capacity. The result is obvious. There will be comparatively little iron and steel left to distribute to those industries engaged in nonwar work and to consumers for application to nonwar uses. Every possible use of iron and steel or their products which can be deferred must be deferred until after the war. This duty is personal and can not be avoided or delegated to your friends and neighbors. No consumption is so small as to be immaterial, and no saving insignificant. Every pound collected and sold to scrap-iron dealers finds its way back into the general supply of iron and steel. "The last quarter hour will win the war," and in that quarter hour the last shell will be fired. That shell may be made from steel that has been saved through the collection of scrap or through denial of the luxury of purchasing steel in the form of articles which have come to be regarded as peacetime necessities.

Among other tasks which the President has laid upon the War Industries Board is that of so distributing the supply of iron and steel available, or which can be made available, as to meet the war requirements and as far as possible the essential needs of the civilian population. This task is being discharged in part through the administration of priorities.

SECTION II.

The priority plan.—The term "priority" implies discrimination—purposeful discrimination. All priorities are relative and the classifications are based upon the relative importance of the particular industry or the particular plant involved to the war program or to supplying the essential needs (as distinguished from wants) of the civilian population.

Careful attention is invited to sections 1 to 11, inclusive, of the copy of Circular No. 4 issued by the Priorities Division of the War Industries Board under date of July 1, 1918, which sections prescribe five principal classes into which all orders and work are divided, with subdivisions thereof, and which also provide a method for classifying all orders and work.

It will be noted that priority certificates are issued covering three classes, namely, Class AA, Class A, and Class B. Class C comprises all orders and work not covered by priority certificates or taking a Class A or Class B automatic rating, but which are embraced within the "General Classification of Purposes Demanding Preference Treatmena," appearing on page 17 of Circular No. 4, or which orders and work are placed by or are to be utilized in connection with an industry or plant appearing on Preference List No. 1 prepared by the Priorities Board and appearing on pages 18 and 19 of Circular No. 4. In the majority of cases the application of the Classification of Purposes and the Preference List to orders received by manufacturers, jobbers, or retailers can readily and accurately be made.

SECTION III.

Administrative interpretation of "purpose list."—Communications have been received by the Priorities Committee from manufacturers, jobbers, and retailers expressing doubt as to whether or not certain specified uses fall within the Classification of Purposes entitled to Preference Treatment. In order to insure uniformity and consistency in the distribution of steel and its products, the Priorities Committee will undertake, on application, to decide all such doubtful cases, and from time to time issue as a supplement to this Circular No. 5 administrative rulings embodying such decisions as are of general interest, and also defining the term "essential uses" as used in the pledge appearing on page 3 of the bulletin issued July 3, 1918, a copy of which also accompanies this circular.

SECTION IV.

Rationing industries.—As it is obviously impossible to supply all industries utilizing iron and steel in their activities with their normal supply, the War Industries Board, through its Priorities Division, cooperating with the commodity section dealing with the particular industry or product involved, with the Conservation Division and representatives of other interested Government agencies, has inaugurated a system of industrial hearings in which committees representing the entire industry appear and present (a) the normal requirements of such industry for iron and steel, (b) their reasonable requirements under war conditions, (c) the stocks now on hand in each plant, and (d) the fuel consumed, and all other pertinent facts.

A portion at least of the product of nearly every industry may be properly classed as a direct or indirect war requirement or essential to the civilian population, but in many the percentage of nonessentiality predominates. On the other hand, nearly every industry, including so-called war industries, have a percentage of nonessentiality in their production.

It is the policy of the War Industries Board, through the hearings mentioned, to take counsel with each industry, determine the extent to which it can and should as a war measure curtail its production—and particularly curtail its consumption of iron and steel—limiting its output to essential uses as far as practicable, but without destroying or unnecessarily injuring any industry or legitimate business. On these hearings the chairman of the Conservation Division or his representatives give the industry the benefit of their expert knowledge and research into methods of standardization and substitution, and cooperate with the industry in (a) reducing needless lines, varieties, and sizes of products, thereby securing economy in manufacture and reducing the volume of stocks which the manufacturer, wholesaler, and dealer are required to carry, (b) through the elimination of wasteful styles, models, and methods, greatly conserving materials, and (c) through the substitution of products or materials not needed for those that are needed for war work, conserving the latter without unnecessarily reducing the output of the industry.

When the maximum conservation of materials and products has been attained through these processes of standardization, substitution, and curtailment, the representatives of the War Industries Board participating in these conferences indicate to the industry their views as to the maximum consumption by the industries of the materials and products in question, treating the industry as a unit where such a course is practicable.

The chief of the Commodity Section dealing with the particular industry then prepares a schedule apportioning such indicated maximum of materials or products to each plant on a basis which will enable each member of the industry to procure the same per cent of his normal production as all other members, taking into account the existing stocks of each. When this has been done each plant places its orders for the amount apportioned to it with its regular sources of supply, and such orders take a Class C rating.

The War Service Committees of those industries which have not as yet participated in such hearings will be given an appointment on application to the Priorities Commissioner or to the chief of the appropriate commodity section of the War Industries Board.

(Continued on page 16.)

Order Extending Functions of the Inland Traffic Service

(Continued from page 14.)

which they are to be employed, and the making of leases or contracts for their use will, as heretofore, be under the jurisdiction of the bureau or department to which the cars belong.

4. The Director of Purchases, Storage, and Traffic is hereby authorized to take the necessary steps to bring about consolidation required and is authorized—

(a) To establish not to exceed eight branch offices of the Inland Traffic Service to be tentatively located, subject to such changes in location as the Director of Purchases, Storage, and Traffic may direct, at important centers as follows:

Boston, Mass.
New York, N. Y.
Chicago, Ill.
Pittsburgh, Pa.
Atlanta, Ga.
New Orleans, La.
San Antonio, Tex.
San Francisco, Cal.

each of such branch offices to be in charge of a qualified civilian with the title of assistant chief, Inland Traffic Service, who will exercise supervision over the traffic service within the territory to which he is assigned, each such assistant chief to be provided an assistant—a commissioned officer with rank not below that of captain—one principal clerk, five traffic clerks, one clerk, five clerks and stenographers.

(b) To establish not to exceed 20 district offices at less important centers, as required, reporting to assistant chief, each of said district offices to be in charge of a civilian traffic expert without title, and to provide an assistant—a commissioned officer with grade not below that of first lieutenant—one principal clerk, three traffic clerks, and three clerks and stenographers. The district offices may be established in cities or at important depots, cantonments, posts, or arsenals, or other places under military control.

(c) To designate, where necessary, a commissioned or civilian representative in charge of traffic service where practicable, utilizing the services of the officer in charge of such duties as indicated in paragraph 2 above, in—

Each supply bureau and in each subdivision thereof where required;
Each quartermaster depot;
Each expeditionary quartermaster depot;
Each engineer depot;
Each ordnance depot;
Each medical depot;
Each signal corps depot;
Each warehouse;
Each post;
Each camp;
Each cantonment;
Each aviation field;
Each arsenal;
Construction division;

or other place where such service is required, and where a district office has not been established, this office to be provided the necessary assistance as indicated in paragraph 2 above, and at smaller and less important places, where practicable, to perform the duties under the Inland Traffic Service in addition to his regular duties.

The number of civilian representatives to be designated for supply bureaus, depots, warehouses, posts or other points above named shall not, however, exceed 50 in addition to those designated for branch and district offices, and such civilian representatives shall be designated only for points above named where, in the judgment of the director of purchases, storage, and traffic, the amount and importance of the transportation work so requires.

(d) To employ the necessary personnel above enumerated at salaries not exceeding the following:

	Per annum.
Assistant chiefs	$6,000
In charge of district offices	4,200
In charge of supply bureaus and depots	3,600
In charge at camps, posts, etc	3,000
Principal clerks, branch offices	2,400
Principal clerks, district offices	2,100
Other traffic clerks	1,800

(e) To rent the necessary office accommodations for the branch and district offices above authorized.

(f) To retain under their present salaries the present force of railway experts, clerks, stenographers, and messengers now employed by the Inland Traffic Service, in addition to those above authorized to carry on the work under the reorganization herein directed.

By order of the Secretary of War:

ROY A. HILL,
Adjutant General.

WAR DEPARTMENT, A. G. O.,
June 14, 1918.

To the commanding generals of all Regular Army, National Army, and National Guard Divisions; department commanders; ports of embarkation; War Department bureaus; Coast Artillery district commanders, and commanding officers of excepted places for their information and guidance.

By order of the Secretary of War.

ROY A. HILL,
Adjutant General.

PRIORITY POLICIES AND REGULATIONS GOVERNING DISTRIBUTION OF STEEL AND ITS PRODUCTS OUTLINED

(Continued from page 15.)

SECTION V.

Subsidiary pledges.—Complying with the requests from numerous sources to be furnished with forms of pledges which jobbers are required to exact from customers or retailers under the terms of the jobbers' pledge set forth on the third page of the accompanying bulletin of July 3, 1918, the following is prescribed:

I do hereby pledge myself not to use, or so far as lies within my power permit the use of, any stocks now in, or which may hereafter come into, my possession or control, save for essential uses, as that term may be defined from time to time by the Priorities Division of the War Industries Board; that I will not hoard, or countenance the hoarding of, stocks, and will use my utmost endeavor to insure that they be distributed and applied solely to essential uses.

SECTION VI.

Resales.—As all pig iron and steel manufactured products are being distributed under the direction of the War Industries Board according to the relative importance, as measured by the public interest, of the uses to which it is to be devoted, it is obviously improper for any manufacturer, jobber or dealer to dispose of any stocks of raw materials or semifinished products now in, or which may hereafter come into, his possession, whether obtained through priority direction or oherwise, save with the express approval of the Priorities Division, or the general authority embodied in Circular No. 4 or the bulletin of July 3, 1918, both above mentioned. No manufacturer, jobber, or dealer violating this rule can expect favorable consideration of any application for priority which he may subsequently make.

It is imperative that every manufacturer, jobber, and retailer of iron and steel products should fully realize and make his salesmen and customers realize that his attitude toward his trade is exactly the reverse of that in normal times. It requires no salesmanship merely to sell goods where the demand greatly exceeds the supply, but it does require real salesmanship and a high degree of patriotism to sell with discrimination with a view of limiting the purchases to strictly essential uses, the controlling consideration being, Where can these stocks be best placed in the public interest?

While the several divisions of the War Industries Board are anxious to assist you, and will not hesitate as occasion may require to direct you, this nevertheless is your problem. With confidenee we look to you for such policing of the distribution of iron and steel products as will insure each pound being applied only to essential uses.

Respectfully submitted.

EDWIN B. PARKER,
Priorities Commissioner.

WASHINGTON, D. C., *July 22, 1918.*

DETAILED TO GENERAL STAFF.

Special Orders, No. 170:

319. By direction of the President, the following-named officers are detailed under the provisions of section 11, act of Congress approved May 18, 1917, as members of the General Staff Corps for the period of the present emergency:

Col. Peter Murray, Infantry; Col. William F. Clark, Quartermaster Corps; Col. Robert J. Fleming, Cavalry; Col. John W. Craig, Infantry, National Army; Col. Casper H. Conrad, jr., Infantry, National Army; Col. Charles B. Drake, Quartermaster Corps; Lieut. Col. Charles A. Romeyn, Infantry, National Army; Lieut. Col. Grosvenor L. Townsend, Infantry, National Army; Lieut. Col. Frank L. Case, Quartermaster Corps; Lieut. Col. James G. Hannah, Infantry, National Army; Lieut. Col. James W. Furlow, Infantry; Lieut. Col. Richard H. Jordan, National Army; Maj. Townsend Whelen, National Army. The officers named will remain on their present duties.

Summary of General Labor Conditions, Based on Reports to U. S. Department, Covering the Week Ending July 20

The Department of Labor authorizes the following:

The following summary of labor conditions throughout the United States is based upon reports from Department of Labor offices for the week ended July 20, 1918:

The Building Trades.

In New England along the coast there is some demand for builders, but in the inland towns there is little activity. At New York and Philadelphia building is going on, but the supply of builders at New York is sufficient, and Philadelphia has a few carpenters to spare. In the rest of Pennsylvania, in Buffalo, and in the industrial region of northeastern Ohio carpenters are in great demand. Westward—as far as Iowa—the demand for builders is rather weak.

At Wilmington, Del., at Norfolk, and from South Carolina west to Alabama and Nashville, Tenn., carpenters are in great demand. Norfolk is attracting men from eastern North Carolina; Alabama, from Florida; and Nashville, Tenn., from the entire Southwest. At Kansas City and Omaha building is quite active.

Mechanics, Electricians, Etc.

In the industrial centers of New England and New York mechanics are much in demand. In Chicago and southwestern Wisconsin the supply is inadequate. At St. Louis there is a sufficient number of men, but at Atlanta, Ga., and Seattle, Wash., the supply is inadequate. At no place is there a considerable surplus of first-class mechanics.

Automobile workers and electrical workers are by no means so scarce. There are electrical workers in the West and Southwest available for work elsewhere, with only scattered towns, such as Rockford, Ill., and Muskegon, Mich., calling for such men. Automobile workers are wanted at Seattle, but there is a surplus of them in Missouri, at Wheeling, W. Va., and at other points.

Munition workers are needed very badly at Wilmington, Del., and in northeastern Ohio. There is a supply available at Knoxville, Tenn., and at Orange and San Antonio, Tex. There is also a certain number at Boston, though munition workers are in demand as close by as Springfield, Mass.

Skilled Workmen.

Machinists are needed throughout the East and on the Pacific Coast. There is a general shortage of boilermakers; only such States as Oklahoma and Arizona report a surplus. Toolmakers, lathe hands, blacksmiths, and iron workers are wanted throughout New England and Pennsylvania, and along the Great Lakes. Philadelphia, Wilmington, Baltimore, and Norfolk still need men badly, as do the towns on the North Pacific coast. At Portland, Oreg., there are many hulks in the river, lying there because there are no men to install the machinery.

Common Labor.

In Connecticut, and from Pennsylvania down to Norfolk, common labor is badly needed. Norfolk finds it extremely difficult to get a sufficient number of men from the territory within which it is permitted to recruit them. Labor is extremely scarce in Illinois and Iowa. St. Louis, too, finds men scarce; it is because men are offered higher pay out of town. In the Southern States the situation seems to be much easier. Crops have been laid by, and the farm labor, thus released, has supplemented the supply of common labor. The same result has been brought about in west Texas and north Montana where the crops have been destroyed by a continued drought. In Oregon and Washington the labor supply is still inadequate.

Farm Labor.

The greatest need for farm laborers exists in the States along the Atlantic coast, because men there are attracted by the high wages of the ship-building industry. Experienced farm hands are needed in New Hampshire and Minnesota. As the result of a serious drouth and of forest fires in Northern Montana, especially near Missoula, there is a surplus of idle farm laborers. In the Southern and Central States, from Alabama west to Nebraska and Oklahoma, farm help is not in much demand, because the harvest is over and the crops have been laid by.

Female Labor.

Throughout the country women are leaving domestic, hotel, and factory work to engage in or to seek clerical positions. Nevertheless, the clerical applications can not all be filled, because employers desire experienced clerks, whereas the majority of the applicants are inexperienced. New Hampshire, Connecticut, and Ohio need women workers in their factories, but West Virginia has a surplus of factory workers. Now that immigration has ceased during the period of the war, the shortage of women for domestic and hotel work is a serious problem.

LICENSE FOR ALL IMPORTS.

Italian Decree Restricts Goods Except for State Use.

Ambassador Page has cabled from Rome that the Italian foreign office calls attention to a decree dated May 26, 1918, affecting all imports into Italy. According to this decree, all goods of foreign origin or coming from abroad and intended for importation into Italy are subject to a preventive license from the treasury, except goods intended for the use of the State, regarding which international agreements now in force still hold good. Requests must be presented to the technical executive council of the interministerial provisions committee in Rome. No purchases of products for importation for present or future consignment may be made without the license in question.

Imprisonment, fines, and confiscation of goods will be resorted to in case of violations of these regulations. Importation is permitted for shipments proved to have been made prior to May 28, 1918.—Commerce Reports.

CIVIL SERVICE COMMISSION DATES FOR EXAMINATIONS

The United States Civil Service Commission announces open competitive examinations as follows:

List No. 1.—Examination of the non-assembled type; that is, those in which competitors are not assembled for scholastic tests, but are rated upon the subjects of education, training, and experience, and corroborative evidence. Applications for these examinations are received at any time:

Mechanical engineer, Ordnance Department, War Department.

Inspector of textile fabrics, Quartermaster Corps, War Department.

Subclerical (messenger, skilled laborer, and watchman), Departmental Service.

List No. 2.—Examinations of the non-assembled type, for which applications must be filled by the dates specified:

Statistician and economist for vocational education and vocational rehabilitation, Board for Vocational Education, August 13.

Assistant analytical chemist and mineralogist, Bureau of Mines, Interior Department, August 13.

Assistant mineral technologist, Bureau of Mines, Interior Department, August 13.

Junior metallurgist, Bureau of Mines, Interior Department, August 13.

Chauffeur, Departmental Service, August 27.

List No. 3.—Examinations in which competitors will be assembled for scholastic tests:

Railway mail clerk, Railway Mail Service, August 10.

Full information and application blanks may be obtained by addressing the United States Civil Service Commission at Washington, or the civil service district secretary at Boston, New York, Philadelphia, Atlanta, Cincinnati, Chicago, St. Paul, St. Louis, New Orleans, Seattle, or San Francisco.

National Forest Lands Open to Homestead Entry

The Department of the Interior authorizes the following:

Upon the recommendation of Secretary of the Interior Lane, and Secretary of Agriculture Houston, the President has signed an Executive order excluding a small area from the Angeles National Forest, in California, and restoring the public lands therein, subject to disposition, to homestead entry in advance of other forms of disposition. Such lands will become subject to entry only under the homestead laws requiring residence at and after 9 o'clock a. m., September 25, and to settlement and other forms of disposition on and after October 2, 1918. There will be restored under this order 3,012 acres in San Bernardino County, and it is reported that the lands could be cultivated, the soil conditions being favorable for agriculture, except for lack of water for irrigation purposes.

For detailed information communications should be addressed to the United States land office at Los Angeles, Cal.

Make every day a thrift day and help your Government end the war days.

NOTICE OF PROPOSED PURCHASES FOR THE UNITED STATES NAVY

WASHINGTON, *July 18, 1918.*

The Bureau of Supplies and Accounts of the Navy Department has issued notice of proposed purchases of the following material. Bidders desiring to submit proposals should request the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., to send schedules covering the material which they propose to offer, giving schedule number.

MISCELLANEOUS.

Articles.	Quantity.	Delivery at navy yard.	Sch.
Baskets for cups, plates, and bowls	6,000	Various	1882
Fids, cringle; hand	Miscellaneous	do	1883
Mallets, caulking	do	do	1883
Palms, roping and seaming	do	do	1884
Paper, toilet	do	do	1884

HAND TOOLS, HARDWARE, ETC.

Adzes, ship carpenters'	Miscellaneous	Various	1890
Augers, ship	do	do	1890
Awls, saddlers'; belt; brad	do	do	1890
Axes, broad, chopping; coopers'	do	do	1890
Bars, chisel; pinch; scaling-off	do	do	1887
Bevels, ship, carpenters'; sliding T	do	do	1887
Bits, auger; gimlet	do	do	1889
Bits, countersunk; expansive; screw-driver.	do	do	1890
Boards, serving, 4 x 4, 3½ x 3½ x 1	do	do	1887
Bolts, flush, bronze; square neck	do	do	1888

1862 and 1863	July 23, 1918
1867 to 1880, inclusive	Aug. 6, 1918
1881	July 30, 1918
1885	Aug. 6, 1918

Interpretation of Labor Board Award In News-Print Paper Pulp Controversy Is Announced by the Investigators

DECISIONS REACHED ON DISPUTED POINTS

Questions Arising Between Employers and Employees Reviewed—Joint Committees Ordered to Organize a Permanent Committee. No Reopening of Case While Strikes Continue.

The National War Labor Board authorizes the following:

An interpretation of the recent award of the National War Labor Board in the news-print paper and pulp industry has been arrived at by C. A. Crocker and T. M. Guerin, composing the section of the board which conducted the original investigations and upon whose report the award was made. Failure of the International Paper Co. and its employees to agree upon interpretation of a number of important points in the award led to a controversy which has resulted in strikes completely closing down eight mills operated by that concern and one mill operated by the Finch-Pruyn & Co., at Glens Falls, N. Y. Approximately 4,000 workers are on strike now. More than 40,000 workers are employed in the industry, and are therefore affected by the award and the official interpretation of its disputed terms.

Report on the Award.

Following is the report of Messrs. Crocker and Guerin, setting forth their interpretation of the award:

The section to which the full board referred the matter of interpretation of award in the News-Print Industrial Case met on June 26, and the following is our report:

This section received from the group of employers and the labor group in the form of a brief their understanding of the board's award on June 27, 1918.

On section 1 of the award the labor group set up the claim that as the award pertains to wages and hours of labor and general working conditions, that the bonus paid by several companies, parties to the award, was wages and that it also was a part of the conditions of written or verbal agreement that was not disturbed or in conflict with the award, and that the bonus that was paid up to the time of the making of the award should be continued as an addition to the minimum wage scale and be added to the 10 cents an hour increase that every employee was to receive under the award.

Claim of the Employers.

On this same section and question the employers claim it was the intent of the board to create a standard minimum wage rate as a substitute for and in place of various rates and forms of compensation that the employers had been paying heretofore; and that the rates of the award are in fact minimum wage rates to be extended as to the classifications and in the payment of back wages for the months of May and June in compliance with their retroactive feature of the award made, such payment of bonuses should be deducted from the amount of money due the members for their retroactive wages. That the bonuses paid during the period of the hearings were in fact wages.

Decision Regarding Bonuses.

This committee decides that if the bonus paid over and above the wage scale agreed to by employers and employees, that it was a voluntary contribution to the men on the part of the companies, and in making this contribution or bonus the employers stated that it was to continue until further notice. We therefore find that the workmen are not entitled to the bonus in addition to the wage award made by the War Labor Board unless the employers desire to continue it as a voluntary act as was done prior to this dispute arising.

We also find, on account of the notices posted by the employers, that the bonus would continue until further notice, that they are morally bound to pay this bonus to the men until such notice was given to the men of the discontinuance, and that no part of the bonus shall be deducted from the wages of the men or the retroactive money that was earned and due the men by the award.

In the question of the establishment of the minimum wage, it was the intent of the award that each and every man working in the paper mill of the companies who are parties to the award should receive an increase in wages of 10 cents an hour in addition to the wages that were received May 1, 1918. The only exception to this rule is where the employees received an increase of more than 10 cents an hour in order to bring their wages to the minimum provided for in the award.

Wages on Hourly Basis.

It was also the intention of the award that no employee would receive a reduction in his daily wages from what he was receiving on May 1, 1918, by the changing from 9 to 8 hours a day. In order that this may be clearly understood, we hereby decide that in each and every case where the employee receives his 10 cents an hour on the hourly basis, if the total sum does not bring his daily wages for 8 hours to the same amount as he formerly received for a 9-hour day, we decide that additional payments must be made in order that his daily earnings shall not be reduced in any case.

The question has been raised as to the lack of understanding of the duties of the committees of both employers and employees as provided for in the award and how far they should go. In defining this matter we decide that the committees must hold a meeting and organize a permanent committee, making such rules as they deem necessary for the carrying on of their business.

The power of the joint committee shall be:

1. To see that each and every workman received at least 10 cents an hour more in wages than he was receiving on May 1.

2. That they shall draft their classification scales in harmony with the classifications as set forth in the award. After each employee receives the 10 cents an hour increase, they shall put them in the classification to which that wage would rightfully bring them as a basic classification. After that is accomplished any increase in wages to the individual workman which would need reclassification may be done by the employer provided notice of same is given to the joint committee. All changes of classification after the men have received their increase in wages, and have been classified by the joint committee, can be taken up by the workmen and their superintendents or employers, and any wages above the minimum agreed upon shall not be construed as a violation of this award.

Duty of Joint Committee.

It is the duty of the joint committee to see that all employers who are party to this award shall file with them the names and a description of the work each of the men were employed at in their plants on or before May 1, and this joint committee shall so classify them so that their identification as an employee performing similar work in all mills will have the same title.

All grievances that men may have of any kind must first be taken up under existing rules, agreement, or regulations that were in effect prior to this award.

In case of the absence of any separate classifications, such as sulphur cooks, for example, in one mill would be receiving 50 cents an hour, in another mill 60 cents an hour, and in another mill 70 cents, the joint committee is empowered to establish classification governing such cases on the basis of the May wages with 10 cents an hour increase.

Overtime of Tour Workers.

In regard to section 3, overtime: We do not intend that this section is to apply to tour workers, as there is no opportunity for tour workers to work overtime only as provided for in section 6. Therefore, they are not entitled to overtime only as provided for in section 6.

In regard to maximum wage, as appearing in printed schedule attached: On the original schedule the word "maximum" in all cases was eliminated, and we rule that the award does not provide for a maximum in any case. We only set the lowest or minimum wage.

In regard to larger and faster machine schedules that did not appear on the first printed list: We are attaching list of minimum rate of wages on all machines.

In regard to the question as to the interpretation of section 8, the term "boss machine tender": When acting as foreman section 8 will apply, but when the boss machine tender is working under a foreman section 8 does not apply as to limiting him to manual labor to only 10 per cent of his time.

All other questions as set forth in this brief asking for interpretations upon them that could not be considered by the board only in case where the board would grant a reopening.

The quitting of the men in some of the paper mills is a direct violation of sec-

Order Organizing Army Gas Service into the "Chemical Warfare Service"

GENERAL ORDERS, No. 62.

WAR DEPARTMENT,
Washington, June 28, 1918.

I—1. Under authority conferred by sections 1, 2, 8, and 9 of the act of Congress "Authorizing the President to increase temporarily the military establishment of the United States," approved May 18, 1917, and the act "Authorizing the President to coordinate or consolidate executive bureaus, agencies, and offices, and for other purposes, in the interest of economy and the more efficient concentration of the Government," approved May 28, 1918, in pursuance of which act the President has issued an Executive order dated June 25, 1918, placing the experiment station at American University under control of the War Department, the President directs that the gas service of the Army be organized into a Chemical Warfare Service, National Army, to include:

Divisions of Service.

a. The Chemical Service Section, National Army.

b. All officers and enlisted men of the Ordnance Department and Sanitary Corps of the Medical Department as hereinafter more specifically specified (regular officers affected being detailed and not transferred).

2. The officers for this service will be obtained as provided by the third paragraph of section 1 and by section 9 of the act of May 18, 1917, the enlisted strength being raised and maintained by voluntary enlistment or draft.

3. The rank, pay, and allowances of the enlisted men of the Chemical Warfare Service, National Army, shall be the same as now authorized for the corresponding grades in the Corps of Engineers.

Head to be Director.

4. The head of the Chemical Warfare Service, National Army, shall be known as the Director of the Chemical Warfare Service, and, under the direction of the Secretary of War, as such, he shall be, and hereby is, charged with the duty of operating and maintaining or supervising the operation and maintenance of all plants engaged in the investigation, manufacture, or production of toxic gases, gas-defense appliances, the filling of gas shells, and proving grounds utilized in connection therewith and the necessary research connected with gas warfare, and he shall exercise full, complete, and exclusive jurisdiction and control over the manufacture and production of toxic gases, gas-defense appliances, including gas-shell filling plants and proving grounds utilized in connection therewith, and all investigation and research work in connection with gas warfare, and to that end he shall forthwith assume control and jurisdiction over all pending Government projects having to do or connected with such manufacture, production, and operation of plants and proving grounds for the Army and heretofore conducted by the Medical Department and Ordnance Department under the jurisdiction of The Surgeon General and the Chief of Ordnance, respectively, and all material on hand for such investigation or research, manufacture or production, operation of plants and proving grounds, and all lands, buildings, factories, warehouses, machinery, tools and appliances, and all other property, real, personal, or mixed, heretofore used in, or in connection with, the operation and maintenance of such plants and proving grounds for the purpose of investigation or research, manufacture or production, already procured and now held for such use by, or under the jurisdiction and control of the Medical Department or the Ordnance Department, all books, records, files, and office equipment used by the Medical Department or the Ordnance Department in connection with such investigation or research, manufacture or production, or operation of plants and proving grounds, all rights under contract made by the Medical Department or Ordnance Department in, or in connection with, the operation of such plants and institutions as specified herein, all rights under contract made by the Medical Department or Ordnance Department in, or in connection with such work, and the entire personnel (commissioned, enlisted, and civilian) of the Ordnance Department and Sanitary Corps of the Medical Department as at present assigned to or engaged upon work in, or in connection with, such investigation or research, manufacture or production, or operation of plants and proving grounds, are hereby transferred from the jurisdiction of the Ordnance Department and the Medical Department and placed under the jurisdiction of the Director of the Chemical Warfare Service, it being the intention hereof to transfer from the jurisdiction of the Medical Department and the Ordnance Department to the jurisdiction of the Director of the Chemical Warfare Service, every function, power, and duty connected with the investigation, manufacture, or production of toxic gases, gas-defense appliances, including the necessary research connected with gas warfare, gas-shell filling plants, and proving grounds utilized in connection therewith, all property of every sort or nature used or procured for use in, or in connection with, said operation of such plants and proving grounds and the entire personnel of the Ordnance Department and Sanitary Corps of the Medical Department as at present assigned to, or engaged upon work in, or in connection with, the operation and maintenance of such plants engaged in the investigation, manufacture, or production of toxic gases, gas-defense appliances, including gas-filling plants and proving grounds utilized in connection therewith.

Transfer of Funds.

5. All unexpended funds of appropriations heretofore made for the Medical Department or Ordnance Department and already allotted for use in connection with the operation and maintenance of plants now engaged in, or under construction for the purpose of engaging in, the investigation, manufacture, or production of toxic gases or gas defense appliances, including gas shell filling plants, are hereby transferred to, and placed under the jurisdiction of, the Director of the Chemical Warfare Service for the purpose of meeting the obligations and expenditures authorized herein: and, in so far as such funds have not been already specifically allotted by the Medical Department and the Ordnance Department for the purposes specified herein, they shall now be allotted by the Secretary of War, in such proportions as shall to him seem best intended to meet the requirements of the situation and the intentions of Congress when making said appropriations, and the funds so allotted by the Secretary of War to meet the activities of the Chemical Warfare Service, as heretofore defined herein, are hereby transferred to, and placed under the jurisdiction of, the Director of the Chemical Warfare Service for the purpose of meeting the authorized obligations and expenditures of the Chemical Warfare Service.

In Effect During War.

6. This order shall be and remain in full force and effect during the continuation of the present war and for six months after the termination thereof by proclamation of the treaty of peace, or until theretofore amended, modified, or rescinded.

II. By direction of the President, Maj. Gen. William L. Sibert, United States Army, is relieved from duty as Director of the Gas Service, and is detailed as Director of the Chemical Warfare Service, National Army.

[322.06, A. G. O.]

By order of the Secretary of War:

PEYTON C. MARCH,
General, Chief of Staff.

Official:

H. P. MCCAIN,
The Adjutant General.

LABOR BOARD AWARD IN NEWSPRINT PAPER CONTROVERSY

Revised Regulations Regarding Mails To and From U. S. Expeditionary Forces

The Post Office Department authorizes the following:

OFFICE OF THIRD ASSISTANT POSTMASTER GENERAL,
Washington, July 24, 1918.

The instructions regarding the classification, conditions, rates of postage, etc., applicable to mail to and from the United States Expeditionary Forces in Europe are revised and consolidated as follows:

1. All mail matter originating in the United States or any of its possessions for transmission to soldiers and others, including civilians connected with the United States Expeditionary Forces in Europe, and all mail originating with those forces for transmission to the United States or its possessions, is subject to the United States domestic classification, conditions, and rates of postage. Such mail may not exceed seven pounds in weight.

Validity of Stamps.

2. United States postage stamps only are valid for the prepayment of postage on matter above described, provided that the stamps in use in the Canal Zone and the Philippines are valid for the prepayment of postage on such matter as originates in those possessions.

3. Mail intended for members of the Expeditionary Forces should bear the name and address of the sender in the upper left corner and be addressed in the following manner: (1) Name of addressee, including his rank, first name in full, and initials, if any; (2) official designation of the unit or organization to which addressee belongs, as, for example, "Co. X, —— Infantry;" (3) the words "American Expeditionary Forces." If the official designation of the unit or organization to which the addressee belongs is not given in the address, the matter will not be dispatched and the postmaster at the office of origin shall not accept it, but shall return such matter to the sender for proper address. Under no circumstances should the location or station of a military organization be included in the address on mail for any member of such forces.

Prevention of Delay.

4. In order to prevent delay in dispatch and secure prompt delivery of mail addressed to the Expeditionary Forces, it is important that the postage be fully prepaid. To this end postmasters are requested to advise patrons to hand in at the post office mail addressed to such forces in order that it may be weighed, rated, and have the full amount of postage affixed before the sender leaves the office.

5. Parcels of fourth-class or domestic parcel-post matter to and from the forces in Europe must not exceed 7 pounds in weight. The eighth-zone rate of 12 cents for each pound or fraction thereof is chargeable on parcels subject to pound rates. Parcels may not be registered, insured, or sent c. o. d. (See article 5, page 90, July, 1918, Postal Guide.) Every parcel must bear the sender's name and address, which should be placed in the upper left corner of the address side, and it is of the utmost importance that such parcels be securely packed and wrapped, fully and plainly addressed as indicated in paragraph (3) of this circular, and have proper postage prepaid thereon. Wooden boxes should not be used; articles should be packed in strong corrugated cardboard boxes or wrapped in heavy paper or cloth.

Parcels for Individuals.

6. (a) Parcels for members and individuals connected with the American Expeditionary Forces in Europe shall not be accepted for mailing or dispatched unless they contain such articles only as are being sent at the written request of the addressee, approved by his regimental or higher commander or an executive officer of the organization with which he is connected. (Order No. 1259, March 28, 1918.)

(b) Postmasters must secure the assurance of the sender in each case that all the articles contained in the parcel are sent at the addressee's approved written request, and that such request is inclosed in the parcel, by requiring the sender to place on the wrapper of the parcel under his name and address the following indorsement:

"This parcel contains only articles sent at approved request of addressee, which is inclosed."

The approved written request shall be inclosed in the parcel.

(c) The term "regimental commander" has reference to an officer in command of a regiment, or separate battalion or similar separate unit. The War Department has advised this office that in many instances a lieutenant-colonel or major may be acting as such commanding officer, and, therefore, a request for articles duly approved by an officer who is a major or of higher rank than major is regarded as meeting the requirements of Order No. 1259. When the approval of a regimental officer is authenticated by a staff officer, the name of the former should appear above the signature of the latter, as for example—

"Approved by order of Col. Richard Roe, John Doe, captain, Infantry, Adjutant."

War Department Ruling.

The War Department has also advised that an officer may not approve his own request for articles unless he is a regimental or higher commander having authority to approve requests in general, and that officers not assigned to regiments should obtain the approval of commanders higher in rank than regimental commanders.

The indorsement of the signature or initials of a lieutenant or other officer, together with the letters "OK" on a soldier's letter merely for the purpose of showing that the letter has been censored and passed does not constitute such an approval of any request for articles which his letter may contain, as is required by Order No. 1259. In each instance it is necessary that the request be duly approved by the soldier's regimental or higher commander.

(d) Parcels whether sealed or unsealed, containing articles, including books, not being sent in accordance with such approved written request shall not be accepted for mailing. Such parcels to the sender.

structions are based was issued at the request of the War Department owing to the lack of [illegible] railways and it is impracticable to make any exceptions to the order.

Adjutant General's Decision.

(f) The office of The Adjutant General of the Army has given notice that that office will no longer pass upon requests for articles which have not been approved in the required manner by the military authorities abroad.

(g) The restrictions of Order No. 1259 governing the mailing of parcels do not apply to parcels sent to officers and men on board United States naval vessels or attached to naval bases when addressed in care of the postmaster at New York, N. Y., and not addressed to the American Expeditionary Forces in France. The restrictions of this order also do not apply to newspapers or magazines addressed to members of the Expeditionary Forces and no approved requests are required therefor.

7. (a) An individual export license is not required for the shipment of merchandise sent by individuals by mail for the personal use of individuals serving in the United States Navy or in units of the United States Army and American Red Cross connected with the American Expeditionary Forces in Europe, such shipments being covered by General Export License No. R A C-43, issued by the War Trade Board. In such cases all that is necessary is that the sender place the number of this license together with a list of the contents, on the outside of each parcel or package, preferably in the upper left corner of the address side of the wrapper below his name and address, which are also required.

Postal Export Licenses.

(b) Individual postal export licenses are required when merchandise is addressed to persons connected with the Expeditionary Forces who are not serving in the Army or Navy or the American Red Cross, or when mailed by dealers to any persons connected with the Expeditionary Forces, and in such cases postmasters shall inform persons desiring to secure export licenses or information pertaining thereto that requests therefor should be addressed to the War Trade Board, Washington, D. C., or to any one of its branches at Boston, Mass.; Chicago, Ill.; Detroit, Mich.; Eagle Pass, Tex.; El Paso, Tex.; Galveston, Tex.; Laredo, Tex.; Los Angeles, Cal.; Mobile, Ala.; New Orleans, La.; New York, N. Y.; Nogales, Ariz.; Philadelphia, Pa.; Portland, Oreg.; St. Louis, Mo.; San Francisco, Cal.; Savannah, Ga.; and Seattle, Wash.

Soldiers' and Sailors' Mail.

8. Letters written and mailed by soldiers, sailors, and marines (assigned to duty in a foreign country or engaged in the present war may be mailed free of postage provided they bear in the upper left corner the name of the soldier, sailor, or marine, together with the designation of the service to which he belongs, as, for instance, Private John Joe, U. S. Army, U. S. Navy, or U. S. Marine Corps, as the case may be (Pars. 3 and 4, sec. 406, P. L.

(Continued on page 22.)

Schedule for Horse-Drawn Spring Vehicles Requires One Standard Type for Buggies

The War Industries Board authorizes the following:

The Conservation Division of the War Industries Board has sent to manufacturers of horse-drawn spring vehicles a letter which says:

"The division has been informed that manufacturers in your industry are producing a greater variety of buggies, spring wagons, and other products than is necessary in time of war, and that it will be entirely practicable to effect a material reduction. By such a reduction materials and equipment can be saved and the amount of capital invested in manufacturers' and merchants' stocks substantially reduced. The elimination of the avoidable use of steel and iron, both urgently required for war purposes, is particularly desired.

'A schedule which has been prepared is being submitted to each manufacturer of horse-drawn spring vehicles. The program of manufacture is to become effective at once, unless by some modification it can be shown that still further conservation of much needed materials can be brought about. If you have suggestions on this program whereby greater economies can be effected, we shall be glad to receive them."

Under the provisions of the conservation schedule, all buggies are to be made of one standard type and spring wagons are to be limited to two hundred types, a light spring wagon and a two-seated vehicle.

Text of the Schedule.

Following is a copy of the schedule:

SCHEDULE FOR MANUFACTURERS OF HORSE-DRAWN SPRING VEHICLES.

1. Standard tread. — The manufacture of all vehicles to be restricted to one standard tread of 56 inches, measured from center to center of tire on ground.

STANDARD BUGGY.

All buggies to be made of one standard type in accordance with the following specifications:

2. (a) Wheels. ¾ and ⅞ by 39-43, 6½-inch hub, F-8 No. 1 flange, $\frac{5}{16}$-inch tire.

(b) Gears.—Spread reach style only.

(c) Axles.—$\frac{15}{16}$-inch fan-swedged, 1½-inch true arch, with 6½-inch standard spindle, box, and nut. One universal pattern for all manufacturers.

(d) Springs.—36-inch, 3 and 4 plate as standard.

(e) Fifth wheel.—12-inch.

(f) Body hangers. — All metal or Bailey 3½-inch drop, or wood bars and loops, 5-inch drop clipped on.

(g) Axle clips.—Flat style.

(h) Reach irons.—Flat, ⅜ by ¾-inch, round edge.

(i) Body. 20 and 23-inch bottom measure by 55 inches long at the bottom, 6-inch panels on 20-inch body, and 6½-inch panels on 23-inch. Body hangers, toe rails, dashes, and boots to be of two sizes only.

(j) Seats.—One low back seat in two widths and one high back seat.

(k) Sockets.—Three-bow metal straight sockets only, no handy and 4-bow sockets; no leather-covered sockets.

(l) Shafts.—Plain or common eye, "common" finish, 21-inch heel, 44-inch out-to-out of heel.

(m) Paint.—Black to be regular. Eliminate all other colors possible.

(n) Steps.—6-inch drop, 5½-inch projection, 3½ by 4¼ inch pad, 6 inches center to center of holes, 3-prong style.

SPRING WAGONS.

Spring wagons to be made in two standard types, viz, a light spring wagon (No. 021) and a two-seated spring wagon (No. 034), the specifications governing their manufacture to be as follows:

3. Light spring wagons:

(a) Body.—32 by 76 inches outside, 6½-inch panels, hardwood rail. Drop end gate, fastener No. 5697-D; hinge No. 5820-C, wood dash with rail, removable seat, iron corners on seat and body. All body irons standardized to one size for each purpose served.

(b) Axles.—Hess, No. 13, 1⅛ inches square; slight arch; wood cap on front axle only; 1⅛-inch double reach; shackles No. 39110, stay braces, 26 by 2 inches round; 1⅛ inches between holes.

(c) Axle accessories.—One style clip, axle wood caps, fifth wheel, and all other parts attached to the axle. All parts attached to axle to be one kind and size for each purpose served.

(d) Springs.—3-spring gear. Front, one 1¼-inch, 4-leaf, 34-inch. Rear, two 1¼-inch, 3-leaf, 34-inch. Spring chair No. 6615-B.

(e) Fifth wheel.—Full circle, 11-inch malleable, No. 891-B.

(f) Wheels.—1 inch, 39-43 inch $\frac{15}{16}$-inch tires, No. 3 flange.

(g) Shafts.—1½ by 2 inch Pioneer No. 4.

(h) Poles.—One size pole for each type of spring wagon.

(i) Seat.—Skeleton back.

(j) Miscellaneous.—Steps, 1 pair, No. 1930-A; rub-wear irons, 1 pair, No. 1630; irons for attaching seat to body, Nos. SS-39-D, 4833, 4834, 6403-B.

4. Two-seated spring wagons:

(a) Body.—36 by 90 inch outside, 8-inch panels; hardwood rail, drop-end gate; fastener No. 5697-D, hinge No. 5820-C; leather dash; removable seat; iron corners on seat and body; body irons outside center brace No. SS-474, rear brace No. 6175-A. All body irons standardized to one size for each purpose served.

(b) Axles.—Same as specified for light spring wagons.

(c) Axle accessories.—Same as specified for light spring wagons.

(d) Springs.—¾ platform gear; Hess No. 48, Hayes spring in front; 1⅜-inch, 34-inch, 4 and 6 plate, 5-inch opening; Hess No. 16, 1⅜-inch cross spring, 5-leaf, 40-inch, 3¼-inch opening; Hess No. 13, 1⅜-inch side springs, 4-leaf, 31-inch, 3-inch opening; spring chair No. 6615-N; spring shackle 6800-B.

(e) Fifth wheel.—Full circle, 11-inch malleable, No. 891-B.

(f) Wheels.—1⅛-inch, 39–43-inch, $\frac{5}{16}$-inch tires, No. 9 flange.

(g) Shafts. — Same as for light spring wagons.

(h) Seat.—Panel back.

(i) Miscellaneous. — Steps, 1 pr., No. 1930-A, also 1 pr. No. 1926-B; runwear irons, 1 pr., No. 1650; irons for attaching seat to body Nos. SS-39-D, 4833, 4834, 6403-B; option No. 6398-B hand-lever brake; option of pole 2 by 2½ inch; pioneer No. 3.

5. Spindles, etc.—All spindles and all spindle boxes and nuts for spring wagons to be interchangeable.

6. Date effective.—This schedule to become effective not later than January 1, 1919, and no vehicles or equipment differing therefrom to be manufactured after that date except for repair purposes.

CONSERVATION DIVISION,
WAR INDUSTRIES BOARD.

MOVING PICTURES DISPLAYED ON CAMP HOSPITAL CEILINGS

The National War Work Council Y. M. C. A. authorizes the following:

The problem of how to amuse the wounded soldiers who are unable to sit up has been solved in a simple manner by the Y. M. C. A. at the base hospitals in the camps. Portable motion-picture machines are so stationed that the projections appear on the ceiling, and all the patient lying on his back need do is to look up.

In connection with the recreational and entertainment work for the wounded and convalescent soldiers in the cantonments the Y. M. C. A. War Work Council has just given to the Lythic Construction Co., of New York City, the contract for the erection of a large hut at Camp Upton. It will be 80 by 53 feet, with a high gable roof and a large chimney at one end, giving it the appearance of an immense farm house of the typically New England homelike sort—the kind suggestive of home comforts and of "the pies mother used to make." The building will be ready for use within six weeks.

One of the features of a novel nature will be the so-called "quiet room," where anyone who desired to be alone can go. Another noteworthy matter is that there will be a grand veranda running the entire length of the building and overlooking the athletic grounds.

REVISED REGULATIONS REGARDING MAILS.

(Continued from page 21.)

and R.). Such letters shall, upon reaching the office of address, be delivered without collection of any postage whatever thereon, regardless of whether or not they are rated with postage due. These instructions are applicable to all letters which bear evidence indicating that they are from a soldier, sailor, or marine stationed abroad.

9. When there is doubt in any particular instance as to the application of the foregoing conditions governing the sending of mail to or from the Expeditionary Forces, or further information concerning the subject is desired, inquiries relative thereto should be addressed to the Third Assistant Postmaster General, Division of Classification.

A. M. DOCKERY,
Third Assistant Postmaster General.

MATERIALS FOR WHICH BIDS WILL BE RECEIVED BY INDIAN AFFAIRS OFFICE

Bids will be received by the Commissioner of Indian Affairs, Washington, D. C., as set forth below. The right is reserved to reject any and all bids, to accept one part and reject the other, and to waive technical defects as the interests of the service may require. No person would be received as a contractor who is not a manufacturer of or regular dealer in the articles which he offers to supply. Bids must be accompanied by a certified check or draft on some solvent national bank, or a proper bond in favor of the United States of America for 5 per cent of amount of bid, as follows: Bids over $500 to $5,000, inclusive, check, draft, or bond; bids over $5,000, check or draft only. Bids will be received until 2 o'clock p. m. August 7, 1918. Envelopes containing bids must be marked "Proposal for addition to dormitory." The dormitory is located at Sherman Institute, Riverside, Cal. The materials required are as follows:

300 square yards of curtain awning, approximately 12-ounce; submit sample.
15,000 hard-burned brick, salmon color, large size.
100 barrels Portland cement.
75 tons crushed rock.
40 barrels lime.
100 pounds fiber.

Electrical Supplies.

26 junction boxes, standard round, 3 inches diameter, 2 inches deep, for half-inch conduit pipe, complete with screws and covers raised, with opening and insulated bushings.
6 junction boxes, 4 inches diameter, 2 inches deep, for half-inch conduit pipe, complete with screws and closed covers raised; no openings for outlets.
36 conduit-box receptacles for 3-inch round box, brass shell, key.
6 half-inch L. B. condulets, complete with screws and covers.
6 three-quarter-inch L. B. condulets, complete with screws and covers.
50 half-inch star bushings.
50 half inch locknuts.
12 three-quarter-inch star bushings.
12 three-quarter-inch locknuts.
400 feet half-inch conduit pipe.
100 feet three-quarter-inch conduit pipe.
1,500 feet No. 14 B. S. G. R. C. D. B. electric wire.

Hardware.

48 window-shade rollers, 1¾ inches, tin covered, with brackets, 44 inches long.
500 square yards No. 24 gauge expanded metal lath.
24 boxes I. C. tin, size 14 by 20 inches, 107 sheets to box.
27 sheets galvanized iron, No. 26 gauge, sheets 30 by 90 inches.
4 squares Spanish tin tile.
200 linear feet screen wire, 4 feet wide.
200 linear feet screen wire, 3 feet wide.
600 feet strap iron $\frac{3}{16}$ by $\frac{1}{4}$ inch.
350 rivets $\frac{3}{16}$ by $\frac{5}{8}$ inch.
23 sheets corrugated iron, galvanized, No. 24 gauge, size 50 by 50 inches, corrugations approximately 4 to 1 inch.

Plumbing Supplies.

1 4-inch double quarter bend.
18 sanitary T branches, 4 by 4 inches.
6 sanitary T branches, 2 by 4 inches.
18 90-degree long-turn Y branches, drainage fittings, cast iron, screwed for W. I. pipe, 2 by 2 inches.
200 feet 2-inch W. I. pipe, galvanized, standard.
8 shower baths, as per specifications.
20 1 by 1 by ½-inch W. I. tees, beaded.
6 4-inch threaded iron ferrule, with brass trap screws.
20 pieces 4-inch double-hub C. I. soil pipe, standard.
10 pieces 4-inch single-hub C. I. soil pipe, standard.
300 feet vitrified sewer pipe, salt glaze, 4-inch, No. 1 quality.
18 toilets. See specifications.
1 lavatory. See specifications.
6 quarter bends, single hub, 4-inch.
6 sixth bends, single hub, 4-inch.
36 ½-inch malleable iron street ells, galvanized, beaded, 90 degrees, standard.
9 2-inch street ells, malleable iron, galvanized, beaded, 90 degrees, standard.
12 1-inch street ells, malleable iron, galvanized, beaded, 90 degrees, standard.
12 ¾-inch ells, malleable iron, galvanized, beaded, standard, 90 degrees.
12 1-inch ells, malleable iron, galvanized, beaded, standard, 90 degrees.
18 tees, galvanized iron, beaded, standard ¾ by ¾ by ½ inch.
12 tees, galvanized iron, standard ¾-inch.
18 flanges, galvanized iron, standard ¾-inch.
14 flanges, galvanized iron, standard 1½-inch.
150 expansion bolts, brass, with heads, ¼ by 3 inches.
100 feet ½-inch pipe, standard, galvanized.
200 feet ¾-inch pipe, standard, galvanized.
100 feet 1-inch pipe, standard, galvanized.
120 feet 1½-inch pipe, standard, galvanized.
12 ½-inch ells, malleable iron, galvanized, beaded.
18 ½-inch angle valves, glove brass trimmings, iron body, standard.
12 ¾-inch angle valves, glove brass trimmings, iron body, standard.
6 1-inch angle valves, glove brass trimmings, iron body, standard.
4 tees, cast iron, 2 by 2 by 1½ inches.
1 tee, cast iron, 2 by ½ by 2 inches.
1 reducing coupling, cast iron, 1 by 2 inches.
1 tee, cast iron, ¾ inch.
1 tee, cast iron, 1 inch.
2 ¾-inch iron body valve, brass trimmings.
2 1-inch iron body valve, brass trimmings.
4 1½-inch 45-degree ells, cast iron.
4 1½-inch 90-degree ells, cast iron.
4 1½-inch radiator valves, with unions, rough body, finished trimmings.
1 ¾-inch steam trap required for pressure at 5 pounds, which must operate and must discharge air as well as water without the aid of separate air passages. Trap to be nonattached rolling ball type, consisting of only three essential parts, the body, nonattached, rolling ball and the discharge bushing. The hollow copper ball is to act as a valve to regulate the discharge from the trap and is to be free to revolve or move in any direction, having no lever, rods, weights, or valves of any description attached to it. The trap to contain no thermostatic parts.

Specifications.

Toilet and tank.—Vitroware reverse trap, siphon action, wash-down closet; cast-iron enameled, low tank 14 by 20 by 8 inches with 2-inch nickel-plated flush connections and flanges; supply pipe with nickel-plated angle valve, size ½-inch standard; slip joint size of tank supply pipe to tank; plain oak seat and lid. Toilet fitted with flanges and connections for cement floor, including expansion bolts and washers for same. All to be nickel finished. Toilet complete with flushing and screw hooks for hanging tank.

Lavatory.—Porcelain enameled iron one-piece lavatory with integral back patent overflow and concealed hangers; nickel-plated waste plug, chain stay, chain and rubber stopper, nickel-plated compression basin faucets with four ball handles with china index. Nickel-plated supplies to wall with wheel handle compression stop and wall flanges; 1½-inch nickel-plated brass trap to floor, no vent, with cleanout and floor flanges. Slabs 14 by 26 inches, bowl 10 by 16 inches, back 6 inches high; to be enameled all over and to weigh approximately 90 pounds. Cuts to accompany all bids and bids approximating the above specifications will be considered.

Shower-bath fixtures.—The shower-bath fixtures to be adjustable ball-joint rain shower, face of shower head to be cast brass with round perforations, and be threaded and removable, and not less than 5 inches in diameter. Fixture to be provided with a cast-brass china index, nonscalding regulating valve, with ¾-inch drain cock, and to be fitted with ¾-inch brass expansion bolts not less than 3 inches long for fastening to masonry wall, heads and nuts of bolts to be hexagonal with rounded top, with brass-milled wheel compression stops, and with finished brass horizontal check valves. Inlet to shower head to be ½-inch and have ball handle compression stop valve, ½-inch compression ball handle stop valves for hot and cold water supply, ½-inch ells, valves, and nipples to make up this shower. All metal fittings and connections of shower bath to be finished brass.

Any other shower bath having different features than above specified will be considered, cuts and full description to be submitted.

Materials for Asylum.

Bids are also invited on the following materials for the asylum of insane Indians at Canton, S. Dak., bids to be received until 2 o'clock p. m., August 6, 1918, by H. R. Hummer, superintendent, as follows:

5 dozen cans beans, string, 2 pounds.
20 dozen cans peas, [illegible] 2 pounds.
2 dozen pipes, briar.
2 dozen packs cards, playing.
5 dozen cans pear slices, 2 pounds.
5 dozen pints tomato catsup.
10 pounds coconut, shredded.
200 pounds sugar, brown.
1 gross Bon-Ami, cleaner, in cakes.

For the same institution, bids will be received until 2 o'clock p. m. August 7, 1918, on the following materials:

10 pounds ammonium bromide, granulated, in 8-ounce cartons.
10 pounds potassium bromide, granulated, in 4-ounce cartons.
10 pounds Elixir pepsin, in pints, U. S. Pharmacopœia.
1 box bandages, assorted.
Bandages, roller, unbleached and unsized, assorted, in pasteboard box; 1 dozen, 1 inch by 1 yard; 2 dozen, 2 inches by 3 yards; 2 dozen, 2½ inches by 3 yards; 1 dozen, 3 inches by 4 yards; ½ dozen, 3½ inches by 5 yards; 1 dozen, 4 inches by 6 yards; ½ dozen, 4 inches by 8 yards.

Material for Belknap Agency.

Bids will also be received at the office of the Commissioner of Indian Affairs, Washington, D. C., until 2 o'clock p. m., August 7, 1918, for the following materials for the Fort Belknap Agency, Harlem, Mont.:

Steam radiators, 2-column, approximately 38 inches high:

2, 60 square feet radiation each.
2, 56 square feet radiation each.
1, 48 square feet radiation each.
1, 44 square feet radiation each.
2, 40 square feet radiation each.
2, 24 square feet radiation each.
1, 20 square feet radiation each.

2-column, approximately 23 inches high:

1, 56 square feet radiation.
3, 1-inch radiator valves.
9, 1½-inch radiator valves.
12, No. 1 air valves.
1, No. 5 air valve.
7, 1-inch N. P., B. & C. plates.
17, 1½-inch N. P., B. & C. plates.
2 pounds aluminum bronze.
1, gallon liquid.
1, 2½-inch gate valve.
1, 1½-inch gate valve.
120 feet, 2½-inch black pipe.
60 feet, 1½-inch black pipe.
60 feet, 1¼-inch black pipe.
30 feet, 1-inch black pipe.
12 feet, 2½-inch grabler hangers.
4 feet, 1½-inch grabler hangers.
20 feet, No. 2 hangers, iron.
3, 2½ by 1¼ inch cast tees.
9, 2½ by 1½ inch cast tees.
1, 2½ by 1 by 2½ inch cast tee.
1, 1½ by 1 by 1½ inch cast tee.
6, 2½-inch cast ells.
6, 1½-inch cast ells.
2, 1¼-inch cast ells.
4, 1-inch cast ells.
1, 2½ by 1½ inch cast ell.
9, 1½ by 1¼ inch cast ells.
3, 1¼ by 1 inch cast ells.
12, 1½-inch cast 45° ells.
12, 1¼-inch cast 45° ells.
6, 1-inch cast 45° ells.
1, 2½-inch cast flange union.
1, 1½-inch cast flange union.
120 feet, 2½-inch air cell 3-ply covering.
60 feet, 1½-inch air cell 3-ply covering.
9 feet, 1½ inch air cell 3-ply covering.
10, 2½-inch black nipples.
16, 1½-inch black nipples.
12, 1¼-inch black nipples.
10, 1-inch black nipples.

Material for Rosebud Agency.

Bids will be received at the office of the Commissioner of Indian Affairs, Washington, D. C., until 2 o'clock p. m. August 1, 1918, for the Rosebud Agency, Rosebud, S. Dak., for the following supplies:

100,000 pounds of galvanized barbed wire, cattle, on 100-pound reels; 1,000 pounds galvanized staples 1½ inches.
15,000 steel posts, not less than 6 feet long, weighing not less than 6½ pounds, either galvanized or painted with some standard color of paint, to be put on by the manufacturer. (Submit cuts and full description.)

Bids will be received by the Commissioner of Indian Affairs, Washington, D. C., until 2

(Continued on page 24.)

Regulations for Physical Examinations Under New Standard for All U. S. Armies

The War Department authorizes publication of the following preliminary statement and rules for standards of physical examination governing the entrance to all branches of the armies of the United States.

The regulations are for the use of medical officers of the Regular Army, National Army, National Guard, Medical Reserve Corps, recruiting officers of the United States Army, and of local boards and medical advisory boards under the selective-service regulations.

I. PRELIMINARY STATEMENT AND RULES.

1. The purpose of the Standards of Physical Examination is to secure greater efficiency and uniformity in the examination of registrants and enlisted men. Medical examiners should consider the standards as a guide to their discretion; therefore they are not to be construed too strictly or arbitrarily. The object is to procure men who are physically fit, or who can be made so, for the rigors of field service, or for special and limited service, and the determination of these questions is left to the judgment and discretion of the examining boards, appointed under authority of the selective-service law, and to the military examining surgeons at mobilization camps and other Army posts and stations.

Apply to Volunteers.

2. As the physical standards established by these regulations apply to voluntary applicants for enlistment, as well as to registrants, under the selective-service act, the term "registrants," as used therein, may be considered as including applicants for enlistment where such interpretation is necessary to a proper application of the text.

3. Voluntary applicants for enlistment who do not come within the standards of acceptance for general military service as applied to registrants under the selective-service act will be rejected for all military service, unless the defects are waived by authority of The Adjutant General of the Army.

4. Local boards have original jurisdiction, subject to review on appeal to district boards, and may accept or reject registrants for military service as follows.

Acceptance and Rejection.

(a) Registrants who on examination are found to present conditions which fall within the proper standards shall be unconditionally accepted for general military service.

(b) Registrants who on examination are found to suffer from remediable defects which fall within the proper standards may be accepted for general military service in the deferred remediable group.

(c) Registrants who on examination are found to present defects which fall within the proper standards may be accepted for special and limited military service.

(d) Registrants who on examination are found to present defects which fall within the proper standards shall be unconditionally rejected for all military service.

5. Local boards need not make a complete physical examination of every registrant. Upon discovery of a defect requiring unconditional rejection the physician of the local board need proceed no further; but in all other cases there must be a complete examination as prescribed in section 182, Selective Service Regulations.

Powers of Advisory Boards.

6. Medical advisory boards have no power to determine finally whether a registrant shall be accepted or rejected for military service. This power is placed by the Selective Service Regulations in the local and district exemption boards. The functions of the medical advisory boards are, as the name imports, to examine registrants referred to them by the exemption boards and State adjutants general, and to return the result of their examinations, inserted at the proper places in Form 1010 P. M. G. O., "Report of Physical Examination" (sec. 282, Selective Service Regulations, p. 155). The medical advisory boards are not required to make a complete examination of every registrant. At any point in the course of the examination when it is found that the registrant is physically or mentally unfit within the standards of unconditional rejection, the examination need proceed no further. After a medical advisory board has completed the examination of the registrant, the chairman, or a designated member of the advisory board, shall certify the result in the proper space on Form 1010, and return the result in triplicate to the local board through the mail or by messenger other than the registrant.

Purpose of Advisory Boards.

7. Medical advisory boards were created for the purpose of reexamination of registrants who request to be reexamined by a medical advisory board, or concerning whose physical condition the physicians of the local boards are in doubt. Local boards should feel free to ask the advice of the medical advisory boards concerning the mental and physical fitness of registrants. There should be cordial cooperation between the local boards and the medical advisory boards. Cooperation may be made profitable and practical through actual consultation and conference between the local boards and medical advisory boards when this is possible. In many districts the members of the medical advisory boards have the opportunity to be in close touch with the local boards. In some large advisory districts the opportunity for frequent consultation and conference may be infrequent and difficult. Through the medical aide to the governor ways and means for cooperation may be found. The standard of efficiency of the medical advisory boards should result in the rejection of all registrants referred to the advisory board for examination who are physically and mentally defective within the standards of unconditional rejection. This is very important as a measure of economy and justice to the Government, the Army, and the registrant.

8. Local boards and medical advisory boards should be especially careful in the selection of registrants who suffer from defects of vision, defects of hearing, and with chronic discharge from the ear or ears; toxic conditions associated with abnormal conditions of the thyroid gland; valvular disease of the heart; tuberculosis; epilepsy, mental disease or deficiency, and irremediable defects of the feet. In other words, to make a good soldier the registrant must be able to see well, have comparatively good hearing, his heart must be able to stand the stress of physical exertion, he must be intelligent enough to understand and execute military maneuvers, obey commands, and protect himself, and must be able to transport himself by walking as the exigencies of military life may demand.

9. District boards have appellate jurisdiction over all decisions of local boards, including the findings of local boards as to physical qualifications; but in considering appeals as to physical qualifications the district board may not conduct any new physical examination or receive or consider any evidence which was not considered by the local board. (See sec. 126, Selective Service Regulations.)

Medium of Communication.

10. The Army medical officer detailed as medical aide to the governor should be the instrument of communication between the governor or his adjutant on the one hand and the local and medical advisory boards on the other hand in all matters concerning questions relating to physical examinations. He should inspect the work, records, and methods of local boards and medical advisory boards from time to time as he may be directed by the governor and give them all necessary instructions and assistance.

11. Local boards may not induct registrants accepted for general military service who are i n the deferred remediable group or for special or limited military service, until a special call has been made by the Provost Marshal General's Office for these groups of registrants.

12. The final decision as to the acceptance or rejection of inducted men under these regulations rests with the military authorities at the mobilization camps or other military stations to which the registrants are sent upon induction into the military service.

MATERIALS FOR WHICH BIDS WILL BE RECEIVED FOR INDIAN OFFICE

(Continued from page 23.)

o'clock p. m. August 2, 1918, for the following materials:

One 12 to 16 ton capacity per hour ensilage cutter.

One 10 to 20 horsepower farm caterpillar tractor.

One endless canvas belt 100 feet long, 8 inches wide, 5 ply, for above equipment.

Also quote for use with ensilage cutter and complete with belt a 20-horsepower 3-phase electric motor, 440-volts.

Bids on high-wheel tractors will also be received and given consideration.

NATIONAL ARMY CHAPLAIN.

Special Orders, No. 170:

57. The appointment is announced of Francis Joseph Macelwane as chaplain, National Army, with rank of first lieutenant, from July 17, 1918. He will proceed to Payne Field, West Point, Miss., and report not later than August 5, 1918, to the commanding officer, aviation school at that place, for assignment to duty under his command.

LABOR BOARD DECIDES AGAINST ESTABLISHING AT THIS TIME A GENERAL MINIMUM WAGE

TO CONSIDER INDIVIDUAL CASES

Resolution Defines Attitude of Board as Opposed Both to Unjust Profits for Capital and Unreasonable Demands by Labor.

The National War Labor Board authorizes the following:

The National War Labor Board has decided against establishing at this time a minimum wage to be applied generally throughout industry. It announced that the question of the determination and application of a fair living wage would be decided in each case on the basis of the particular facts ascertained. At the same time, however, the board adopted a resolution, written by former President William H. Taft and submitted jointly by Mr. Taft and Frank P. Walsh, the joint chairmen, in which the attention of capital and labor is invited to the wisdom of composing their differences upon the basis of the principles and policies of the board as approved and promulgated by the President in his proclamation of April 8, 1918.

Intent of the Resolution.

In this resolution the War Labor Board adopts an attitude firmly opposed both to unjust profits on the part of capital and unreasonable demands on the part of labor, stating that capital should have only such reasonable returns as will assure its use for the world's and the Nation's cause; and that the physical well-being of labor and its physical and mental effectiveness, in comfort reasonable in view of the exigencies of the war, should likewise be assured.

In so many words, the board declares the war to be an interregnum in which the wheels of industry should turn only in the common cause and for common ends, and neither for unjust profits on the part of capital nor unfairly inflated wages on the part of labor, stressing maximum production as the paramount necessity and unselfish cooperation as the preliminary essentials to this accomplishment.

The adoption of the resolution marks the end of a lengthy discussion of the question of declaring and establishing a

FEDERAL CONTROL OF WIRES ASSUMED BY MR. BURLESON

Companies Will Continue to Operate Lines Until Further Notice.

Postmaster General Burleson early today authorized the following statement:

"Pursuant to the proclamation of the President of the United States, I have assumed possession, control, and supervision of the telegraph and telephone systems of the United States. This proclamation has already been published and the officers, operators, and employees of the various telegraph and telephone companies are acquainted with its terms.

Companies to Continue Operation.

"Until further notice the telegraph and telephone companies will continue operation in the ordinary course of business through regular channels. Regular dividends heretofore declared and maturing interest on bonds, debentures, and other obligations may be paid in due course and the companies may renew or extend their maturing obligations unless otherwise ordered by the Postmaster General. All officers, operators, and employees of the telegraph and telephone companies will continue in the performance of their present duties, reporting to the same officers as heretofore and on the same terms of employment. Should any officer, operator, or employee desire to leave the service he should give notice as heretofore to the proper officer so that there may be no interruption or impairment of the service to the public.

Official Bulletin Index

An index for the Official Bulletin for the first six months of 1918 has been prepared and may be had on application to this office. An index for each month hereafter will be printed in an early issue of the Bulletin after the close of that month.

ALLIED FOOD CONTROLLERS JOIN IN EMPHASIZING NECESSITY FOR BUILDING UP LARGE RESERVES

WARNING IS SENT FROM LONDON

Conference Resolution Urges All to Prepare Against Possible Crop Failures Here and Elsewhere and the Diminution of Farm Labor.

The United States Food Administration issues the following:

"We can not administer the food problem on the basis of one year's war. We must prepare for its long continuance if we are to insure absolute victory," declare the food controllers of the United States, France, Italy, and Great Britain in a joint resolution adopted at a conference in London. The resolution, which was cabled to the United States Food Administration, emphasizes the necessity of building up reserves in North America as an insurance against possible crop failures here and elsewhere, and the diminution of agricultural labor.

The cable follows:

Text of Cablegram.

"Resolved, That while the increased production of the United States renders it possible to relax some of the restrictions which have borne with peculiar hardship upon all our peoples, yet it is absolutely necessary that rigid economy and elimination of waste in the consumption and handling of all foodstuffs, as well as increased production, should be maintained throughout the European allied countries and in North America. It is only by such economy and elimination of waste that the transportation of the necessary men and supplies from North America to the European front can be accomplished and that stocks of foodstuffs can be built up in North America as an insurance against the ever-present danger of harvest failure and the possible necessity for large and emergency drafts to Europe. We can not administer the food problem on the basis of one year's war. We must prepare for its long continuance if we are to insure absolute victory."

Before the war only about 10 per cent of the food deficit in the allied countries was provided by America. Approximately 50 per cent of the allied deficit was filled

WAR DEPARTMENT WILL ASSIST IN TAKING OF SOLDIERS' VOTE BUT NOT TO DIRECT BALLOTING

TO COOPERATE WITH THE STATES

Amended Laws to be Carried Out So Far As Practicable Without Interfering With Military Duties—Can Not Furnish Lists.

GENERAL ORDERS, No. 63.

WAR DEPARTMENT,
Washington, June 28, 1918.

III. 1. The War Department is desirous of perfecting arrangements under which it will be possible to take the votes of members of the American Expeditionary Forces in both primary and general elections without seriously interfering with military operations, and the question has received long and careful consideration by department officials. An examination of the present State laws on the subject show that a practicable method of taking these votes under prevailing conditions in Europe is provided in very few cases.

Amendments to State Laws.

In order, therefore, that qualified voters from all the States may exercise their voting privilege while serving in the American Expeditionary Forces the cooperation of the States with the military authorities is essential, to the extent that the States shall so amend their present election laws as to validate votes of soldiers that have been cast under limitations which the department has found necessary to prescribe. It is, of course, highly desirable that these amended laws be passed by the States at the earliest practicable moment in order that they may be operative on the dates of the approaching primary elections, consideration being given to the fact that, after the passage of the laws, considerable time will necessarily be consumed in making preliminary arrangements and in getting the executed ballots back to the States to be counted. In all cases where practicable laws are passed by the States the department will cooperate heartily with the State authorities and afford them every available facility in taking the soldiers' votes.

Military Aid Limited.

2. The ability of the military authorities to assist in taking the votes of members of the American Expeditionary Forces at both primary and general elections is necessarily limited, because of the extraordinary conditions which will prevail during the existing emergency in several respects. The extent of these limitations is set forth below, and should be carefully considered in connection with the framing of any legislation on this subject.

a. The War Department will not be responsible in any way for obtaining the vote of anyone in France or in any other part of Europe, but will assist the States to secure the votes of men in the military service so far as it may be possible to do so without interfering with military duties.

b. It will not be possible to take the vote of any soldier who is actively engaged in military operations, unless such soldier be able to cast his vote by transmitting an executed ballot through the mails as ordinary correspondence.

Can Not Supply Lists.

c. In no case will the War Department furnish to States, or to election officials thereof, lists of persons who have entered the military service therefrom. Neither can the War Department undertake to forward to men who are, or who are supposed to be, in the military service blank ballots or any other species of election forms or literature which may have been addressed to them, care of the War Department or of any bureau or office of the War Department, for their use or guidance in connection with casting their votes at either a primary or a general election. However, when qualified voters of a certain State are known to be in the military service as members of a certain organization, but the organizational address is unknown, the War Department will furnish such address upon receipt of request therefor from the State, or an election official thereof.

d. The censorship which is now imposed upon every letter coming out of France can not be waived in favor of mail purporting to be votes of persons in the military service.

Administering of Oaths.

e. Where State laws require that oaths shall be administered and certificates made in order to validate the votes, officers of the military service will be permitted, but not required, to administer such oaths and make such certificates; provided that this will in no way interfere with active military operations.

f. Where the State laws require the sending of election commissioners to take the soldiers' votes, the military authorities will place at the disposal of such commissioners every assistance that is found to be compatible with the exigencies of the military situation. In most instances, however, it will be impracticable to permit commissioners to take the votes.

By order of the Secretary of War:

PEYTON C. MARCH,
General, Chief of Staff.

Official:
H. P. MCCAIN,
The Adjutant General.

3,000,000 Hand and Rifle Grenades Being Made Every Month for Army and Production Soon to Be Doubled

The War Department authorizes the following from the Ordnance Department:

Hand grenades of four types are now being produced at the rate of 2,000,000 a month, it is announced by the Ordnance Department.

Within the next four months, according to program, this rate will be more than doubled.

Rifle grenades are being produced at the rate of about 1,000,000 a month. This rate will be multiplied appreciably within the next six months.

Orders have been placed for more than 60,000,000 grenades of both hand and rifle type, and more than 18,000 persons are employed in various plants throughout the country engaged in making them.

Of the hand grenades under manufacture, there are two types of the so-called fragmentation grenades, which depend on the effect of explosives and the scattering of fragments; one type of phosphorous grenade, which, on bursting, throws a shower of burning fragments of phosphorous and a cloud of dense white smoke, and a gas grenade, which spreads a low-lying cloud of dense white suffocating gas.

The soldier throws the hand grenade much after the manner of an athlete putting the shot. When ready to throw the grenade, he grasps it firmly in the right hand, removes the safety pin, and keeps the lever tight against the body of the grenade. As it leaves the soldier's hand, the lever is released, and a firing mechanism is timed to explode the grenade in from four to six seconds after it is thrown.

The rifle-grenade holder is attached to the muzzle of the rifle much as a bayonet is. The bullet from the rifle passes through a tube in the center of the grenade, forcing a striker against a primer, which ignites the fuse. The grenade is thrown a distance of 200 yards by the force of the gases generated by firing the rifle. The grenade is timed to explode about eight seconds after it leaves the rifle muzzle.

Need 25,000 Young Women

The country needs 25,000 young women between the ages of 19 and 35 to enroll in the United States Student Nurse Reserve. Apply at the nearest recruiting station established by the Woman's Committee of the Council of National Defense.

DETAILED TO WASHINGTON.

Special Orders, No. 165:

263. By direction of the President, Lieut. Col. Kenneth S. Perkins, Field Artillery, National Army, is detailed under the provisions of an act of Congress approved May 18, 1917, in the Inspector General's Department. He will repair to this city and report in person to the Inspector General of the Army for duty.

GOVERNMENT ASSUMES CONTROL OF RECRUITING COMMON LABOR FOR WAR WORK EMPLOYMENT

RAILROADS AND FARMS EXCEPTED

Employers of 100 or More Unskilled Workmen Hereafter Can Obtain Them Only Through U. S. Service. All Advertising Forbidden.

The Department of Labor authorizes the following:

Government control of the recruiting and distribution of unskilled labor for war production began to-day. No employer engaged wholly or partly in war work, whose maximum force exceeds 100 workers, either skilled or unskilled, can get unskilled labor except through, or under the direction of, the United States Employment Service of the Department of Labor. Railroads and farmers are excepted from this blanket order.

All Advertising Prohibited.

Advertising of any kind for unskilled labor, whether by card, poster, newspaper, handbill or any other medium, is prohibited to employers engaged in war work, in regulations governing the central war labor recuiting program announced by the Department of Labor. The regulations also authorize the continued use of the field recruiting forces of war industries in getting unskilled labor under strict Federal control, rendering impossible the enticing of labor that during the past year and more has demoralized the labor market, created an enormous turnover and held back production of war materials.

Present Shortage 500,000.

Returns received up to the present by the Federal Employment Service show a shortage in the war industries of approximately 500,000 unskilled workers; and the complete returns are expected to double this figure. Every war industry in the country has been requested to telegraph its present unskilled labor requirements and those of the next two months to the Department of Labor and to inform the local office of the U. S. Employment Service of its day-to-day needs.

The half million unskilled laborers now known to be required constitutes the total of the first assignment of quotas which the States will be called upon to furnish. The recruiting of the local quotas will be under the general direction of community labor boards, composed of a representative each of the United States Employment Service and of the locality's employers' and employees.

May Recruit Skilled Labor.

For the time being no restrictions are placed upon employers engaged in war work in recruiting their own skilled labor, other than that they should so conduct their efforts as to avoid taking or causing restlessness among men already engaged in other war work, including railroads, farms, and mines, as well as work covered by direct or subcontracts for Government departments. The State directors of the Employment Service have been instructed to give all possible assistance to employers engaged in war work who desire to recruit skilled labor.

Authorizations for the continued use of recruiting forces will be granted by the State directors of the States in which the industries having them are operating, and the State directors will have control over such forces.

"War Work" Defined.

The Department of Labor defines "war work" as follows:

1. The manufacture of products or erection of structures directly or indirectly supplied to some department of the Government for use in connection with the war. "Indirectly supplied" includes goods delivered under subcontracts to Government contractors.

2. Coal mining is wholly war work.

3. Railroads and farms are engaged in war work to the extent that under this program they are protected from all recruiting by other industries.

AGREEMENT ON CONSTRUCTION OF WATER CRAFT IS REACHED

All Contracts Will Be Cleared Through Fleet Corporation and War Industries Board.

The War Industries Board authorizes the following:

At a meeting held in the office of the priorities commissioner of the War Industries Board yesterday, July 31, at which all of the agencies of the Government interested in the building of water craft were represented, the following conclusions were reached:

1. Each Government agency shall prepare its own plans and specifications for such ships or other water craft as it may require, conferring and collaborating from time to time with other interested agencies to the end that uniform standards as nearly as practicable shall be adopted.

2. If an agency of the Government other than the Emergency Fleet Corporation desires and requests it, the said corporation will, where practicable, undertake to construct, or to have constructed, proposed vessels according to the plans and specifications prepared by the first-named agency.

3. In any event no contracts for the construction of vessels will be placed by any such Government agency until they have been cleared through the Emergency Fleet Corporation and through the War Industries Board. In the event of disagreement between the agency proposing the construction and the Fleet Corporation the controversy shall be adjusted or decided by the War Industries Board.

Through pursuing this course the activities of all of the different agencies of the Government interested in the construction of water craft will be coordinated, competition will be eliminated, and conflicts in supplies of materials, transportation, power, fuel, and labor will be avoided.

MANY NEW PAPER MANUFACTURE RULINGS GO INTO EFFECT TO-DAY

The War Industries Board authorizes the following:

Several rulings of the pulp and paper section of the War Industries Board governing the manufacture of various grades of paper and paper products became effective to-day. Among the products affected are book, cover, and writing paper, wrapping and glazed papers, envelopes and fine stationery. Similar rulings will shortly be announced for other grades.

These rulings, which are based upon the recommendations of the war committees of the various branches of the paper industry, fix the maximum weights that can be made hereafter, eliminating the heavier weights previously made and standardizing the sizes, weights, and colors, so that the mills can obtain a larger production with the same amount of labor and fuel.

Must Modify Unfilled Orders.

Manufacturers and merchants of these products have been requested to notify their customers that all unfilled orders on their books August 1 must be modified so as to conform to the rulings.

The cooperation of all persons affected by these rulings is requested, so that the benefits resulting from their adoption will be realized as promptly as possible.

It is expected that as soon as the readjustments have been made production will be considerably increased and also a considerable saving in car space will be realized. Another important result of these rulings will be the release of a considerable amount of working capital now tied up in slow-selling stocks.

Conservation Campaign.

Supplementing the above program, the Pulp and Paper Section is planning an educational campaign for the more intelligent and economical use of paper. Consumers will be shown how they can help win the war by using, wherever possible, lighter weight paper instead of the heavier grades, and plain and less-expensive papers instead of the fancy and expensive grades. The fine papers represent the expenditure of more labor and fuel than the cheaper grades and they also contain, as a rule, more of the valuable chemicals such as sulphur and chlorine which are urgently needed by the Government in making ammunition and poisonous gases. All of the finer grades of paper also contain rags which are scarce and needed for war purposes. Many people are using rag papers when a good chemical pulp paper would serve the purpose just as well.

The savings which banks, stores, business offices, etc., could make in their paper bills by eliminating all wasteful and uneconomical uses and substituting less expensive for heavier and more expensive grades would amount in the aggregate to an enormous sum.

ORDERED TO WASHINGTON.

Special Orders, No. 170.

83. Maj. John C. McDonnel, junior military aviator, Signal Corps, will proceed to Washington, D. C., and report in person to the director of military aeronautics for duty.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor.*

RATES BY MAIL.

Daily	One year	$5.00
	Six months	3.00
	One year, postage prepaid to foreign countries	8.00
	Six months, postage prepaid to foreign countries	4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

FOUR NEW FLYING FIELDS ARE NAMED FOR DECEASED AIRMEN

The War Department authorizes the following statement from the Department of Military Aeronautics:

Four new flying fields in the neighborhood of Hazelhurst Field, Mineola, L. I., and under the command of Maj. C. K. Reinhart, J. M. A., Department of Military Aeronautics, have been named Lufbery, Mitchel, Damm, and Brindley Fields.

The new field at Wantagh, L. I., has been named "Lufbery Field," in memory of Maj. Raoul Lufbery, Aviation Section, Signal Reserve Corps, previously of the Lafayette Escadrille, who was killed in an aerial combat in Lorraine, France, May 19, 1918.

Field No. 2, at Mineola, L. I., is now known as "Mitchel Field." It is named in honor of Maj. Puroy Mitchel, Aviation Section, Signal Reserve Corps, late mayor of New York, who was killed in an aviation accident at Gerstner Field July 6, 1918.

The field near Babylon, L. I., is named "Henry J. Damm Field," in memory of the late Lieut. Col. Henry J. Damm, Signal Corps, who, with Maj. Brindley, was killed in an aviation accident at Moraine City, near Dayton, Ohio, May 2, 1918.

The field at Commack, L. I., is designated as "Brindley Field," in memory of the late Maj. Oscar A. Brindley, Signal Corps, who was killed in an aviation accident at Moraine City, Ohio, May 2, 1918.

Field No. 1, at Mineola, will continue to be called Hazelhurst Field.

239 Sick and Wounded are Landed in U. S. During Week Ending July 26

The War Department authorizes the following statement from the office of the Surgeon General:

During the week ending July 26 the number of sick and wounded landed in the United States from the American Expeditionary Forces was 239. These men were sent to the various Army hospitals where facilities for treatment and physical reconstruction have been provided.

LABOR BOARD DECIDES AGAINST A GENERAL MINIMUM WAGE

(Continued from page 1.)

fixed amount as the minimum to be paid any workman in the United States.

It reaffirms, however, the principle that the worker is entitled to a wage sufficient to sustain himself and his family in health and reasonable comfort and restates the purpose of the board to apply the principle in each of the cases to come before it for decision.

It may also be announced that decisions in a large number of important cases which have been under investigation and consideration for the past month will be made public to-morrow, to be followed by other decisions within a few days.

Text of the Resolution.

Following is the resolution as passed unanimously by the board:

Resolved, That the National War Labor Board deems it an appropriate time to invite the attention of employers and workers alike to the wisdom of composing their differences in accord with the principles governing the National War Labor Board, which were approved and promulgated by the President in his proclamation of April 8, 1918.

That this war is not only a war of arms, but also a war of workshops; a competition in the quantitative production and distribution of munitions and war supplies; a contest in industrial resourcefulness and energy.

That the period of the war is not a normal period of industrial expansion from which the employer should expect unusual profits or the employees abnormal wages; that it is an interregnum in which industry is pursued only for common cause and common ends.

Reasonable Returns for Capital.

That capital should only have such reasonable returns as will assure its use for the world's and Nation's cause, while the physical well-being of labor and its physical and mental effectiveness in a comfort reasonable in view of the exigencies of the war, should likewise be assured.

That this board should be careful in its conclusions not to make orders in this interregnum based on approved views of progress in normal times which, under war conditions, might seriously impair the present economic structure of our country.

That the declaration of our principles as to the living wage and an established minimum should be construed in the light of these considerations.

That for the present the board or its sections should consider and decide each case involving these principles on its particular facts, and reserve any general rule of decision until its judgments have been sufficiently numerous and their operations sufficiently clear to make generalization safe.

MINEOLA TO WASHINGTON BY AIR IN 2 HOURS AND 15 MINUTES

The War Department authorizes the following statement:

Under orders to report to headquarters, Division of Military Aeronautics, Washington, Maj. C. K. Rhinehart, commanding first provisional wing at Mineola, Long Island, made the flight from that field to this city yesterday in 2 hours and 15 minutes. With him in the plane was Capt. Fred Harvey. The officers alternated in piloting. They left Mineola at 8.35 a. m. and landed at Philadelphia at 9.20 a. m., having covered the distance in 45 minutes. They left Philadelphia at 10 a. m. and reached Washington at 11.30. This is regarded as excellent time considering the rain and mist through which they flew most of the way. In their favor, however, was a northeast wind which stayed with them practically the entire distance.

FEDERAL CONTROL OF WIRES.

(Continued from page 1.)

"I earnestly request the loyal cooperation of all officers, operators, and employees, and the public, in order that the service rendered shall be not only maintained at a high standard, but improved wherever possible. It is the purpose to coordinate and unify these services so that they may be operated as a national system with due regard to the interests of the public and the owners of the properties.

"No changes will be made until after the most careful consideration of all the facts. When deemed advisable to make changes announcement will be made."

ORDERED TO PLATTSBURG.

Special Orders, No. 167:

483. Col. John A. Daypray, United States Army (retired), now on active duty as professor of military science and tactics, Catholic University of America, Washington, D. C., will proceed to Plattsburg, N. Y., and report to the commanding officer of Plattsburg Barracks for such additional duty as may be required of him in connection with the students' training corps camp at that place.

WORK OF CONGRESS BRIEFLY TOLD

A tax of 2 cents a gallon on gasoline was decided upon by the Ways and Means Committee at its session of yesterday when the $8,000,000,000 war revenue bill was under consideration. An excise tax of $5 a year on all motorcycles also was agreed upon. The most important action of the committee next to the imposition of the tax on gasoline was an agreement to impose a graduated tax on the use of all automobiles and motor trucks to be paid by the owner based upon the original cost. This tax begins at $10 a year on all cars costing $500 or less and ranging up to $140 a year on all cars costing more than $4,500 and not above $5,000. The tax on every car costing more than $3,000 increases at the rate of $20 on every $500 of increase. The schedule of taxes up to $5,000 valuation is as follows: Cars costing $500 or less, $10; between $500 and $750, $15; between $750 and $1,000, $20; between $1,000 and $1,500, $30; between $1,500 and $2,000, $40; between $2,000 and $2,500, $50; between $2,500 and $3,000, $60; between $3,000 and $3,500, $80; between $3,500 and $4,000, $100; between $4,000 and $4,500, $120; between $4,500 and $5,000, $140.

Thus tax on the use of automobiles is payable by the owner and is in addition to the 10 per cent on gross sales of automobiles and 5 per cent on gross sales of motor trucks adopted by the committee on Tuesday and which is paid by the manufacturer or producer. The committee estimates that the tax on gasoline will yield $45,000,000 and the excise tax on automobiles and motorcycles $125,000,000. For the purpose of expediting action on the "luxury" list submitted by the Treasury Department, Chairman Kitchin appointed a subcommittee to give these items special study and report what items, if any, should be made subject to taxation. This committee consists of Representatives Hull, of Tennessee; Helvering, of Kansas; and Moore, of Pennsylvania. It is expected to report to the full committee by next Saturday.

Returning of Uniforms Under P. O. Mailing Frank

OFFICE OF THE
POSTMASTER GENERAL,
Washington, July 29, 1918.

Order No. 1774.

Section 496, Postal Laws and Regulations, is amended by the addition of the following, as paragraph 5½:

5½. Upon the discharge or furlough to the Reserve of an enlisted man, * * * within four months after such termination of his active service he shall return all uniform clothing, which he was * * * permitted to retain for wear to his home, by mail, under a franked (penalty) label which shall be furnished him for the purpose, and in conformity with the instructions given him at the time of such termination of his active service. (Chapter 17, section 10, act of July 9, 1918.)

A. S. BURLESON,
Postmaster General.

STANDARD CLOTHS ADOPTED FOR ALL OFFICERS' UNIFORMS

General Order Designating Materials for Garments Made in the United States.

GENERAL ORDERS, No. 56.

WAR DEPARTMENT.
Washington, July 13, 1918.

IV. 1. The following cloths are adopted as standard materials for officers' uniforms, and all uniforms for officers made in the future in the United States will be of one of these prescribed standards:

For coat and breeches, summer wear:
a. An O. D. cotton.
b. A 13-ounce all-wool worsted gaberdine.

For coats, breeches, and overcoats:
a. A 12-ounce worsted serge.
b. A 17-ounce whipcord.
c. A 21-ounce whipcord or elastique.

For riding breeches:
a. A 24-ounce Bedford cord.

For overcoats:
a. A 30-ounce Melton or kersey.

Samples, according to standards adopted and on file in the office of the Quartermaster General, will be supplied to all local quartermasters and kept available for inspection by officers. All cloth will be supplied at cost by the Quartermaster Corps, and a sufficient quantity will be kept on hand by the various depot, camp, post, and station quartermasters to meet the contemplated requirements.

2. The Quartermaster Corps will invite bids for making uniforms. The contracts will be let at a specified cost per uniform, one contract (or more if necessary) to be let for each general supply depot; all uniforms or material purchased within the zone of jurisdiction of any depot to be supplied under the provisions of the contract of such depot. Contracts will be let in the usual manner to the lowest responsible bidder, care being taken that only firms experienced in making uniforms to measure should be considered responsible in this connection.

3. Contractors must have representatives at all camps, posts, and stations in the territory covered by their contracts, not necessarily living there, but to go there upon call of the local quartermaster, to measure, fit, and make delivery of uniforms and such alterations as may be required, the Government to furnish a suitable room or building for this purpose. Other tailoring in the nature of repairs, pressing, etc., is authorized, at rates to be determined by local commanding officers. Every garment must be guaranteed by the contractor to fit, and be made to fit, the officers' acceptance being proof thereof. All changes or alterations will be made at the expense of the contractor.

4. All properly fitted garments not delivered through no fault of the contractor will be taken by the local quartermaster at contract price for delivery to officers, if practicable. If this is impracticable, the garments will be placed in stock for sale or issue.

5. Orders for uniforms will be made through the office of the local quartermaster, who will have supervision over the contractor's agent. The cost of the uniform will be the contract price plus the cost of the cloth. Officers purchasing uniforms will pay the local quartermaster the same, who in turn will settle with the contractor.

6. In addition to furnishing cloth to contractors as above noted, the Quartermaster Corps will furnish cloth at cost direct to officers who desire to have tailoring done by firms with which the Government does not have a contract.

7. Upon notice from the Quartermaster General that firms with which contracts have been made are prepared to make uniforms, all other contracts or agreements made by any branch or department of the Army for making officers' uniforms which interfere with the operation of this order, or contract executed in compliance therewith, will be terminated at once.

By order of the Secretary of War:

PEYTON C. MARCH,
General, Chief of Staff.

Official:
H. P. MCCAIN,
The Adjutant General.

RED CROSS GIVES $165,000 TO HELP DESTITUTE GREEKS

The Red Cross issues the following:

Plans have been made by the American Red Cross Commission to Serbia for the relief of the Greek population in the territory now being administered by that commission. The plans have been approved by Consul General Horton, of Saloniki, who has stated that the Greek civilian population is in destitute circumstances owing to the general mobilization.

In conformity with the plans the War Council has appropriated the sum of $165,087 for the purchase monthly, for a period of three months, of 320 tons of foodstuffs and ten tons of soap. These monthly shipments of supplies are for relief purposes in the Saloniki sections, and will not be used in old Greece.

Marine Corps Officers Chosen for Promotion

Secretary Daniels yesterday made the following announcement:

The President has approved and will send to the Senate nominations for the promotion of the following officers in the Marine Corps, in accordance with the last naval bill:

To be permanent major general—Brig. Gen. John A. Lejeune.

To be temporary major general—Brig. Gen. L. W. T. Waller.

To be temporary brigadier generals—Col. James E. Mahoney, Col. Charles G. Long, Col. Benj. H. Fuller, Col. Wendell C. Neville, Col. Cyrus S. Radford, Col. John T. Myers, and Col. Albertus W. Catlin.

Three of the officers promoted by the President are now in France—Brig. Gen. John A. Lejeune, who becomes major general; Col. Wendell C. Neville and Col. Albertus W. Catlin, who become brigadier generals.

Gen. Lejeune has recently gone to France. Gen. Pershing had recommended the promotion of Col. Neville and Col. Catlin, who have been in France for some time and who were in the recent battles around the Marne.

LIST OF CASUALTIES AS REPORTED AMONG THE U. S. FORCES OVERSEAS

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	12
Died from wounds	23
Died of disease	11
Died from aeroplane accident	2
Died from accident and other causes	5
Wounded severely	61
Wounded (degree undetermined)	2
Missing in action	3
Prisoner	1
Total	120

Killed in Action.

LIEUTENANTS.

Wiley C. Bissett. Mrs. Wiley C. Bissett, 70 Hancock Street, New Bern, N. C.

William Wallrich. M. G. Wallrich, Shawnee, Wis.

CORPORALS.

George Washington Reese. Mrs. Esau Reese, 1135 East Center Street, Mahanoy City, Pa.

Joseph C. St. Lawrence. Mrs. Elizabeth O. St. Lawrence, 17 Fountain Street, South Braintree, Mass.

Wagoner Edward Zindler. Mrs. Reeka Zindler, 25 Oakland Avenue, Oshkosh, Wis.

PRIVATES.

Joseph Lawrence Dalbey. Mrs. Francis Dalbey, 2410 South Rosewood Street, Philadelphia, Pa.

Guerrini D'Avolio. Anthony D'Avolio, 1110 South Morgan Street, Chicago, Ill.

Alexandre A. Drummond. Mrs. Mary Drummond, 4 Beco Do Lombo Boa Vista Funchal, Madeira, Portugal.

David Geecheak. Andrey Nolebabchuk, Levasan Avenue, South River, N. J.

Harry E. Little. Frank E. Little, 41 Felsway East, Malden, Mass.

Ralph W. Shirley. Arthur R. Shirley, Fryeburg, Me.

Alfred Smith. Mrs. Fannie Smith, 19 Mulberry Street, Millville, N. J.

Died from Wounds.

Maj. James C. Williams. P. W. Williams, Ramer, Ala.

LIEUTENANTS.

Thomas R. Bradley. John G. Bradley, 406 University Avenue, Waxahachie, Tex.

Walter W. Craig. William T. A. Craig, New Bethlehem, Pa.

Pete Haddix. Mrs. Cora Haddix, Evenwood, W. Va.

Elmer E. Hagler. Dr. E. E. Hagler, Hagler Building, Springfield, Ill.

James W. Hanbery. Mrs. James W. Hanbery, care of State Normal School, Pittsburg, Kans.

Howard R. Huston. Theodore F. Huston, Deering, N. Dak.

William L. Le Conte. James A. Le Conte, 155 Cleburne Avenue, Atlanta, Ga.

Arthur T. McAllister. Mrs. Emma McAllister, Boonville, Mo.

George B. McCoy. Judge Walter I. McCoy, Supreme Court, District of Columbia.

Leon F. Roemer. Mrs. A. Roemer, 1719 North Newkirk Street, Philadelphia, Pa.

Harold Clinton Waggatt. H. P. Waggatt, 180 Hancock Street, Everett, Mass.

SERGEANTS.

George S. Koonce. Mrs. Della Koonce, 511 Sixth Avenue, Evansville, Ind.

Walter T. Mann. Alexander Mann, 163 North Main Street, Plains, Pa.

Charles Miller Sullivan. Daniel C. Sullivan, Box 24, Sparta, Wis.

CORPORALS.

Harold E. Mason. Mrs. Minnie Mason, Sioux Falls, S. Dak.

Roy W. Watson. Mrs. Jennie Edgell, 225 Elm Street, Fond du Lac, Wis.

PRIVATES.

John W. Fondren. Richard S. Fondren, Coleman, Tex.

Paul David Kelley. Mrs. Lizzy Kelley, Milton Junction, Wis.

Frank Mattern. Mrs. Frank Mattern, Mobridge, S. Dak., or Mrs. Frank Mattern, 801 Seventh Avenue SE., Aberdeen, S. Dak.

Guiseppi Polaio. Roslaio Polaio, Polistua, Italy.

Loyd Shoemaker. Everet Shoemaker, Alvin, Ill.

Max A. Straub. J. A. Straub, Herndon, Pa.

Died of Disease.

Capt. John D. Irving. Dr. Peter Irving, 116 East Fifty-eighth Street, New York, N. Y.

Lieut. Michael Joseph Trock. Mrs. Josephine Trock, 379 Greenfield Avenue, Milwaukee, Wis.

Sergt. Henry P. Keith. George Bowers Porter, R. F. D. No. 1, Filliam, Mo.

PRIVATES.

Thomas H. Agar. Henry W. Agar, Killduff, Iowa.

Leo Bird. Mrs. Mary Jane Bird, R. F. D. No. 2, Box 150, Mattern, Ga.

Everett C. Case. Julius C. Case, Churchville, N. Y.

Louis Coty. Alfred Tinart, 133 Main Street, Worcester, Mass.

Caleb Green. Mrs. Nanie Green, 2706 Second Street, Meridian, Miss.

William Icheln. Martin Felske, Lockhart, Minn.

William S. O'Keefe. William F. O'Keefe, 239 Springvale Avenue, Everett, Mass.

Lloyd J. Ward. Mrs. Charlotte Ward, River Street, Lowville, N. Y.

Died of Aeroplane Accident.

LIEUTENANTS.

Cecil S. Huntington. Miss Helen Huntington, 208 Primrose Road, Burlingame, Cal.

Joseph J. Mason. L. W. Mason, 5554 Avondale Place, Pittsburgh, Pa.

Died from Accident and Other Causes.

Capt. George W. Werseba. Mrs. Edgar D. Thorpe, 145 Lewis Street, Perth Amboy, N. J.

LIEUTENANTS.

Julian Washington Hohenberg. Adolphe Hohenberg, Wetumpka, Ala.

Frank B. Sanders. Mrs. Millie D. Sanders, Chesterfield, S. C.

Mechanician Ernest G. Kehoe. Mrs. Vienna F. Kehoe, 200 Lionel Avenue, Solvay, N. Y.

Pvt. John Hannula. Paul Hannula, Karkku, Kutela, Finland.

Wounded Severely.

Maj. Howard W. Beal. Mrs. J. D. Beal, Lewiston, Me.

Capt. Henry A. Schwarz. Mrs. G. H. Schwarz, Windsor Hills, Baltimore, Md.

LIEUTENANTS.

Robert Amedee Bringham. Mrs. R. A. Bringham, Bath, N. Y.

Albert G. Kennedy. Barham Kennedy Jonesville, S. C.

Ernest C. Dedicke. Lieut. Alfred E. Dedicke, 50th Infantry (Potomac Park), Washington, D. C.

John L. Roberts. H. L. Roberts, Idaho Springs, Colo.

SERGEANTS.

Albert W. Anderson. William Anderson, 115 Washington Avenue, Monaca, Pa.

Andrew J. Bocks. William H. Walford, 15 East Genesee Street, Buffalo, N. Y.

Vern J. Boutilier. Charles Boutilier, Oakfield, Me.

Lawrence Bartholomew McEntyre. Mrs. Lottie F. McEntyre, 1005 Tonawanda Street, Buffalo, N. Y.

Clouts Lawrence Montgomery. Thomas B. Montgomery, R. F. D. No. 13, Lebanon, Ind.

John H. Theus. Mrs. Pearl Schrimshire, Reynolds, Ga.

CORPORALS.

Frank H. Ames. William P. Ames, 29 Lincoln Street, Rochester, N. H.

James Earl Colgrove. Mrs. Linnie O. Colgrove, Hulls, Ill.

William J. Daly. Henry Gorman, 563 Fairmount Street, Fitchburg, Mass.

Emanuel Panoff. Meyer Panoff, 41 Amboy Street, Brooklyn, N. Y.

Mechanician George Underwood. George Underwood, 30 Bourne Street, Lowell, Mass.

PRIVATES.

Peter L. Anderson. Thowold Anderson, Rolfsrey 33½, Copenhagen, Denmark.

Peter L. Baker. Harry Baker, 2356 Harrison Avenue, Ogden, Utah.

Claude Granvil Bechtel. Mrs. Henry Bechtel, R. F. D. No. 1, Hanover, Pa.

Arnold J. Bertrand. Joseph Bertrand, Red Lodge, Mont.

Carl Blair. John Blair, Big Sandy, W. Va.

Frank L. Briggs. Lewis Briggs, Harrison, Me.

John Bryda. Miss Mary Bryda, Timber Swamp Road, Westfield, Mass.

George J. Bush. Michael Murphy, 39 Hazelton Street, Haverhill, Mass.

Ralph Herbert Challenger. Mrs. George Challenger, Lebanon, Pa.

Charlie Melton Lee Clark. Samuel Lee Clark, Walter, Okla.

John W. Clingerman. Mrs. Virginia B. Clingerman, Elkins, W. Va.

Charles Oscar Cross. R. C. Cross, R. F. D. No. 4, Box 16, Faribault, Minn.

Howard P. Curry. Edward E. Curry, McDowell, Va.

Samuel J. Dana. Joe W. Dana, Pleasant Point, Me.

August Devos. August Devos, Pitco, Pa.

Patrick E. Dunn. Mrs. Ruth Stella, Livingston, Mont.

Abe Dworsky. Mrs. Sarah Lewis, 200 West One hundred and eleventh Street, New York, N. Y.

Willard M. Early. Mrs. Charles Early, 9 Crawford Street, Oil City, Pa.

Carl Ebert. Hermon Ebert, Salem Depot, N. H.

Robert Wesley Faulkner. Mrs. A. Bowling, 6328 Stenton Avenue, Germantown, Philadelphia, Pa.

Ralph W. George. T. George, Cecilville, Cal.

Newton E. Grant. Loyal Grant, 24 East High Street, Union City, Pa.

Raymond Hamlin. Mrs. Lavina Houck, R. F. D. No. 2, Beach, N. Dak.

Heber Hebert. John Tetreau, Washingtonville, N. Y.

Stanley Hill. W. C. Hill, 145 Milk Street, Boston, Mass.

Harold D. Jeffrey. Mrs. Ida M. Jeffrey, 3124 Wisconsin Avenue NW., Washington, D. C.

Homer Jewell. Mrs. Belle McClaran, Culver, Kans.

Edward E. Jones, jr. Edward F. Jones, 14 Downing Street, Brooklyn, N. Y.

James Dallas Leasure. Miss Mary Leasure, 510 Penn Street, Parkersburg, W. Va.

Walter John Lesher. Mrs. William Lesher, 275 Peacock Street, Pottsville, Pa.

Joseph Luksin. Mrs. Frieda Luksin, 666 Metropolitan Avenue, Brooklyn, N. Y.

Herbert A. Mowry. Walter H. Mowry, 202 Whittier Avenue, Providence, R. I.

Harry M. Mullen. James Mullen, 14 Bailey Street, Dorchester, Mass.

James Emery Punco. Mrs. Verna Ollar, First Avenue, Raritan, N. J.

John W. Rankin. Mrs. Carrie E. Rankin, Plainville, Kans.

Edward Rasmussen. James Rasmussen, Oxford, Ind.

Harry Gordon Riley. Clifford B. Riley, Toms Creek, Va.

William Roberts. Don G. Vale, Vinton, Ohio.

Archie L. Salmon. Mrs. Alice Salmon, 1018 Hall Street, Owensboro, Ky.

Anthony R. Shields. Mrs. Harriette Shields, 623 Court Street, Utica, N. Y.

Lawrence Emsley Smith. Mrs. Addie Dexheimer, 2537 Montgomery Street, St. Louis, Mo.

PRIVATES.

Harry L. Sproul. Lincoln H. Sproul, Cherryfield, Me.

Michael J. Tierney. Patrick Tierney, 80 Grove Street, Clinton, Mass.

Frank Vaughan. Will Vaughan, Prestonsburg, Ky.

Wounded (Degree Undetermined).

LIEUTENANTS.

Miles W. Kresge. J. Harry Kresge, 462 Walnut Street, South Bethlehem, Pa.

Edward O. Merritt. Mrs. E. O. Merritt, North Augusta, S. C.

Missing in Action.

Corpl. Gennaro Scipione. Gaetano Scipione, Province of Terama, Abruzzi, Cermigniano, Italy.

PRIVATES.

Rollin C. Freshour. Mrs. W. A. Freshour, Ripon, Cal.

Paul Zanetos. Mrs. Mary Zanetos, Agrilia, Greece.

PRISONER.

Pvt. Charles E. Locke. Mrs. Lucy Locke, 305 West Seventh Street, Cincinnati, Ohio.

BRILLIANT AIRPLANE FLARE IS PERFECTED TO AID U. S. FLYERS IN NIGHT BOMBING OPERATIONS

LIGHT EQUAL TO 400,000 CANDLES

Flare Released From Plane by Lever and Airman Then Picks Out His Target and Drops His Bombs Accordingly.

Maj. Gen. C. C. Williams, Chief of Ordnance, authorizes the following:

An airplane flare with a brilliancy equalling that of 400,000 candles has been perfected. When hanging from its parachute over a German munition plant it lights up an area so brightly that an airman, thousands of feet in the air, can select any building he is directed to make a target for his aerial bomb, and, it may be added, American aviators are becoming so expert in bombing that they can usually hit the target at which they shoot.

In every European city within the zone of aerial raiding operations, the rule is rigidly enforced against the burning of lights in any building that might possibly be used as a target. Therefore, the airman must be able to supply his own means of locating the object of this attack.

Cities Are Charted.

When orders are received to bomb, say a particular railroad center, the aviator proceeds very much in the same manner as does the captain of a vessel. The cities and their environs are charted and the night-flyer proceeds by compass, due allowance, of course, being made for atmospheric conditions. He is also frequently aided by prominent markings, such as the reflection of moonlight from a river.

Having reached the particular district sought, he must locate the particular object of his attack from his position, which may be 5,000 or 10,000 feet, or even higher, above the earth. Equipped with the airplane flare, the aviator pulls a lever and releases it. As it drops, the resistance offered by the air sets the fuse mechanism in operation. The result is the emission of a powerful light of from 300,000 to 400,000 candlepower, which completely illuminates the terrain below. The amount of light given is equal to that of a battery of from 150 to 175 street arc lamps, or of from 15,000 to 17,500 ordinary incandescent lamp bulbs such as are used in the home.

Parachute Holds Light In Suspension.

As soon as the flare gets into operation, a huge parachute made of the best quality of silk opens and holds the brilliant light in suspension in the air for a sufficient time to allow the aviator to select his objective or target. Having located the factory, railroad depot, ammunition dump, hangars, munition plant, or whatever the target may be, the aviator drops the bomb and proceeds on his way.

The height at which an aviator flies when attacking depends, of course, on surrounding conditions. If the enemy is aware of his presence and is preparing for attack, he must keep up and out of range of antiaircraft guns. An idea of the effective light thrown on the ground by this flare may be gained from the fact that, when suspended at a height of from 1,500 to 2,000 feet, it will clearly light a circular area one and a half miles in diameter. When on a bombing raid an aviator seldom flies at such a low height, more generally keeping 5,000 feet or more above ground, in which case the effectively lighted area is of course diminished.

Additional Names of American Prisoners and Camps Where Detained in Germany

The following is a list of soldiers of the American Expeditionary Forces whom it has been ascertained are now prisoners of war in Germany:

Name.	Rank.	Where interned.	Emergency address.
Jones, John Walter	Private	Rennbahn	Mrs. Mary Jones, mother, 1014 Church St., Oxford, Ala.
Lawrence, Harold G.	do	Darmstadt	R. H. Lawrence, father, 315 S. 14th St., Independence, Kans.
Locke, Charles Edward	do	Giessen	Mrs. Lucy Locke, mother, 306 W. 7th St., Cincinnati, Ohio.
Morris, John Walter	Captain	Rastatt	George Morris, brother, care of Hon. John K. Shields, U. S. Senate, Washington, D. C.
Presper, Elmer J.	do	Cassel	Dr. John Presper, father, 2307 Frankford Ave., Philadelphia, Pa.
Smith, John E.	Corporal	Darmstadt	Mrs. Pearl Smith, wife, 325½ Main St., Lyons, Iowa.
Williams, George M.	do	Limburg	Ewing, Williams, father, 340 S. Green St., Henderson, Ky.

Private, first class, Jerry A. Brown, heretofore reported missing in action, is now reported to have died in a German hospital; name and location not stated. He gave as his emergency address, Mrs. Norma Brown, wife, 575 Mitthof Street, Columbus, Ohio.

MARINE CORPS CASUALTIES

The following casualties in the Marine Corps are reported by the commanding general of the American Expeditionary Forces:

Died from wounds received in action	**3**
Wounded in action (severely)	**1**
Total	4

Died from Wounds Received in Action.

Sergt. John J. McAmis. David W. McAmis, father, 1911 Howell Street, Covington, Ky.

Pvt. Richard A. Evans. Etta Evans, mother, substation 2, Richmond, Va.

Pvt. John O. Cowl. Grace Stewart, sister, Leon, Iowa.

Severely Wounded in Action.

Pvt. David D. Cairns. William J. Cairns, father, West Street, Cochesett, Mass.

Previously Reported Killed in Action, Now Reported Wounded in Action.

Pvt. Realis C. Kiestler. Dona Eudy, mother, Cypress, Ill.

SERVICE BUREAU
. . . OF THE . . .
COMMITTEE ON PUBLIC INFORMATION
FIFTEENTH AND G STREETS
WASHINGTON, D. C.
Information available as to Officials, Functions, and Location of all Government Departments

CALL FOR LARGE FOOD RESERVE

(Continued from page 1.)

last year by the United States and Canada. And from the 1918 crops we will very probably be called upon to supply a much larger proportion of this ever-increasing European deficit.

About 1,500,000 tons of shipping could be saved if we made it possible to withdraw ships now taking to Europe food from Australia, India, and South America. Were this done, it would be possible to transport and maintain in France a much larger army of American soldiers. Many of the difficulties of convoy could be overcome if the bulk of shipping plied the single lane between Europe and North America. Interpreted in terms of men on the fighting front, every ship diverted from Australia could perform an equivalent service from American ports and in the time it had taken for one round trip from Europe to Australia could make two additional trips from Europe to the United States. In other words, it could furnish Europe with the same amount of food and in the same length of time could make one trip as a troopship and another to transport additional food.

With men leaving our farms in ever-increasing numbers to engage in direct war work, we probably see this year the height of our agricultural production. To protect ourselves and the allies against the inevitable shortages of the future we must take advantage of this year's production to lay by reserves.

Although public eating places and households which voluntarily went to a no-wheat basis earlier in the year have been released from their promise to forego entirely the use use of wheat, they must still practice economy. Release from their pledge only places them on the same basis as the rest of the American people. Probably as long as the war lasts they must use victory bread. They must face as rigid economy in other directions. Especially is this true at present in the case of sugar. The American people as a whole are expected to adopt on August 1 an honor ration of 2 pounds of sugar per person per month.

APPORTIONMENT OF SOFT COAL IS DISCUSSED AT CONFERENCE

Government Requirements and Those of War Industries Under Consideration.

The Fuel Administration issues the following:

The apportionment of the available supply of bituminous coal for the year was discussed at a conference beginning July 30, called by United States Fuel Administrator Garfield, at which were represented the Shipping Board, the Railroad Administration, the War Industries Board, and the Fuel Administration. The conference sought a basis of apportionment which would meet the necessary requirements of domestic consumers and would insure the Army, the Navy, the Shipping Board, and industries supplying war materials a 100 per cent coal supply.

Government Needs Multiply.

It was developed that the Government requirements for coal are increasing by leaps and bounds. The War Industries Board representatives made it clear that the various Government departments estimated their steel needs for the year at 22,000,000 tons, as against a present capacity of about 16,000,000 tons. It is estimated that each ton of steel requires nearly 5 tons of coal in its manufacture and transportation. To supply this steel for ships, shells, rails, and other war material would require 110,000,000 tons of coal.

A very large percentage of the coal for bunkering the ships of the Shipping Board and the Navy and for supplying the by-product coke ovens which must be maintained to keep the steel industry going must come from the coal fields of Pennsylvania, West Virginia, and Maryland, which produce the particular grade of coal required for these purposes.

Other Demands to be Filled.

These fields must, to a large extent, also fill the industrial coal demands of New England, New York, New Jersey, Pennsylvania, Maryland, Delaware, West Virginia, Virginia, to a lesser extent that of Ohio and Michigan, and to a considerable extent the metallurgical and illuminating gas plants of Indiana and Illinois. Even the record output now coming from these producing fields can not meet the constantly increasing demand of the Government and the war industries, and at the same time care for the normal industrial demands of this section of the country.

The conference discussed plans for allotting the coal produced in such a way as to give each section of the country its pro rata share of the amount remaining after the war requirements have been filled.

Restriction in Some Industries.

It was made clear that the use of coal in some war industries would be necessarily restricted by reason of the shortage in the supply of steel and other raw materials. These restrictions will permit the diversion of some portion of the coal which the Fuel Administration had contemplated allotting to nonwar industries to more direct war use.

HISTORIC RICHELIEU MEDAL IS VOTED TO THE RED CROSS

The Red Cross issues the following:

The Richelieu Grand Gold Medal, a medal originated by Cardinal Richelieu in the time of Louis XIV, and bestowed in the first instance on the Dames de Charité for their work in the hospitals of France, has just been voted to the American Red Cross by the Academie Francaise, in appreciation of "the immense services rendered by this work to the victims of the war in France."

Letter to Mr. Davison.

This action was transmitted to the president of the American Red Cross in the following letter from the ambassador of France to the United States:

"DEAR MR. PRESIDENT:

"I am informed by my Government that the 'Academie Francaise' has decided to bestow the Richelieu grand gold medal to the American Red Cross, in order to show its appreciation of 'the immense services rendered by this work to the victims of the war in France.'

"It affords me particular pleasure to inform you, in accordance with the instructions I have received, of the bestowal of this medal on your so justly admired society. It is only a token, but it testifies to the gratitude every one of my compatriots feels for the splendid work done by the American Red Cross to alleviate suffering and undo the work of destruction of a relentless enemy.

"I have the honor to be with best compliments and regards,

"Sincerely yours,

"JUSSERAND."

Reply to Ambassador.

Acknowledging the honor as communicated above, the chairman of the Red Cross War Council has addressed Ambassador Jusserand by letter as follows:

"My Dear Mr. AMBASSADOR:

"The honor done the American Red Cross by the "Academie Francaise" in bestowing upon the Organization the Richelieu grand gold medal is characteristic of the heart and soul of the French people, who, by their gracious attitude, have permitted the American people, through the American Red Cross, to give in slight degree an expression of their admiration and affection for the people of France.

"As I have many times said publicly, so I wish to write to you, that however much we may be permitted to do, it can not, at best, be anything more than an expression of gratitude to your people for the incalculable service rendered us many, many years ago, and for their having fought and bled and died for us, as well as for themselves, in this war.

"Believe me, my dear Mr. Ambassador, with regards and esteem, to be

"Very sincerely yours,

"HENRY P. DAVISON,

"Chairman, Red Cross War Council."

As a further mark of appreciation of the honor accorded the society, the Red Cross War Council has formally ordered the correspondence entered on its minutes.

A country worth fighting for is a country worth saving for. Buy THRIFT STAMPS.

CROCKERY AND CHINA MAKERS REPORT NEED FOR MATERIALS

Producers in Conference Ask Assistance of the War Industries Board.

The War Industries Board authorizes the following:

Manufacturers of crockery and chinaware, representing over 90 per cent of the production in this country, in presenting problems connected with the conduct of their industry, have asked assistance of the War Industries Board in connection with securing necessary materials, fuel, and transportation. Further conferences will be held.

The Government is interested especially, because it is a heavy purchaser of dishes and other crockery for the various camps and cantonments, Government dormitories for the housing of Government workers, the Navy and Marine Corps, the Emergency Fleet Corporation, and its other activities. An important development of the conference was the expected early standardization of Government requirements along this line.

W. E. Wells, of Newell, W. Va., war service delegate of the manufacturers, stated to the hardware and hand tool section of the War Industries Board, Murray Sargent, chief, that the industry employs about 20,000 persons, 10,000 of whom are women, consumes about 300,000 tons of coal and about 1 per cent of the gas production annually, and requires for transportation, including both incoming and outgoing material, about 80 cars per day.

Working 65 Per Cent Capacity.

The industry is working at about 65 per cent of its maximum production, being restricted by labor shortage. It is using about 50,000 tons of imported English clay and from 35,000 to 40,000 tons of Georgia and Florida clay annually. The American clay is held to be as good as the English, but is gritty, and until the domestic clay is made cleaner the manufacturers say they must continue to use some English clay.

Prior to the war 60 per cent of the chinaware consumed in this country was imported from England, France, and Austria. These imports are cut off, and the increased demand and higher labor costs have brought about conditions in the industry, the manufacturers claim, where assistance is needed from the War Industries Board to protect the Government and the public from an insufficient supply of crockery and chinaware.

Maltsters to Buy no Grain for Malting before Oct. 1

Pending the determination of the amount of malt required for next winter's operations, the Food Administration has just issued a rule prohibiting all maltsters buying for malting purposes any grain before October 1, 1918.

There is at the present time a sufficient supply of malt to meet the requirements of the country until January 1, and the rule is designed to prevent the manufacture of any more malt than can be lawfully consumed by users of malt.

French Veterans of Verdun, of the Marne, and the Aisne Pay Honor to Their Younger Comrades From America When Thirty Marine Officers and Men Are Decorated With the Cross of War in Recognition of Brave Deeds

Marine Corps headquarters furnishes for publication the following correspondence received from France:

FRANCE, May, 1918.—At the Front: Within the sound and range of the German guns, hidden by the sheltering trees of a dense forest, amid a heavy morning mist and a drizzling rain, French veterans of Verdun, the Marne, the Aisne, and the Somme honored their younger comrades of America by conferring upon them the Croix de Guerre. Thirty marines, including 5 officers and 25 noncommissioned officers and men, were awarded this coveted French decoration for gallant conduct, courage, and coolness in action against the enemy during the occupation of a sector by the marine brigade.

Some Dead or in Hospital.

Of the total number who were cited in French orders for this decoration only 11 were present. Three, Gunnery Sergt. Edward G. Warren, Corpl. John L. Kuhn, and Pvt. Edward C. Gehlert, were killed in action; 16 were wounded and in the hospital. The crosses for those wounded were presented to them in the field hospital. A number of French soldiers were decorated at the same time and, as is the custom, half a company from each of the companies whose men were honored, were present and drawn up so as to form a square and the presentation of the decorations took place within this human inclosure. The marines and poilu, side by side, presented a picture symbolical of the close bond existing between America and France in this conflict, and particularly so of the manner in which marines have worked and fought with the French soldiers during the period of their instruction in the adjacent sector. The ceremonies differed little from the usual presentation of the French cross, but had a peculiar interest for the marines for several reasons.

Officers' Names Withheld.

Censorship regulations prohibit mentioning the names of the officers, consisting of a major, a first lieutenant, and three second lieutenants. The major received the decoration "for having impressed a most wonderful military spirit upon the men of his command. By the judicious disposition of his troops he made it possible for a fraction of his company, violently attacked at night by a strong assaulting detachment, to resist victoriously and to inflict serious losses on the enemy." The four lieutenants received the decoration for "conducting their units with indomitable courage and coolness in a hand-to-hand fight against an enemy superior in number and repulsing him with heavy losses."

The enlisted men who received the Croix de Guerre, in addition to the three men killed in action, and their citation, is as follows:

Corpl. Wolcott Winchenbaugh (Lester P. Winchenbaugh, father, 220 Dana Avenue, Hyde Park, Mass.). "In the midst of a night attack made by superior forces of the enemy he displayed a beautiful example of bravery and coolness in rescuing his wounded lieutenant and bringing him back into our lines under a violent fire."

Pvt. Kenneth C. Sands (Van Sands, father, Pinney Street, Baden, Pa.). "A very courageous soldier, wounded at his post, where he had gone to repel an attack. He showed the greatest 'sang froid' after having been wounded."

Corpl. Thomas Regan (Patrick Regan, father, 137 Park Avenue, Orange, N. J.). "A very brave corporal. Seriously wounded at his post at the instant he had taken it. After being wounded he made his preparations to fight with the greatest of calm and coolness."

Pvts. Ross J. Turner (James Turner, father, Cloverdale, N. Y.) and Alfred G. Beyer (R. H. Beyer, father, Ellinger, Tex.). "Wounded several times in the course of a night combat. Remained at their post and continued firing until the enemy was repulsed."

Pvts. Earl Sleeth (Josephine E. Sleeth, mother, Grenola, Kans.) and Frank H. Hullinger (Elizabeth Hullinger, mother, 5921 South Winchester Avenue, Chicago, Ill. "Volunteered under violent bombardment to insure liaison of its advanced posts which was attacked by a strong enemy detachment."

Wounded, Stuck to Their Post.

Sergt. Louis Cukela (Sam Cukela, brother, Minneapolis, Minn.), Corpl. Clarence H. Babb (Bertha Babb, mother, 832 West Fifty-fifth Street, Chicago), Corpl. Hugh E. Bolender (Henry T. Bolender, father, Maysville, Ky.), Corpl. Lazard Bailey (June Frank, aunt, 1719 Clio Street, New Orleans, La.); Pvts. George F. Berry (James W. Berry, father, Sweetwater, Tenn.), Walter Klamm (Joseph Klamm, brother, 353 Oak Street, Hammond, Ind.), George C. Brooks (Susan A. Brooks, mother, Rich Hill, Mo.), Henry H. Cameron (Alice Cameron, mother, 1118 Commerce Street, Fort Worth, Tex.), Harry G. Askins(evidently error in transcription; no record at Marine Corps Headquarters); Thomas M. Underwood (Carrie Underwood, mother, Fairview, W. Va.), Raymond J. Hess, (James Hess, father, Homer, Mich.), Joseph C. Maloney (Mrs. Ella Maloney, mother, 411 North Perrine Street, Jackson, Mich.), Frank E. Goss (Mrs. Margaret A. Goss, mother, Blairsville, Pa.), Charles W. Milburn (Annie Milburn, wife, 2103 Michigan Avenue, Los Angeles, Cal.), and Henry L. Davis (Nora Davis, mother, Harrodsburg, Ky.) "Wounded in the course of a lively night attack of the enemy. Courageously remained at their combat post, continuing to fire and displaying heroic courage, finally forcing the enemy to withdraw." (Although these men were wounded, some were but slightly wounded and were present at the ceremonies.)

The presentation was scheduled for 9 o'clock. The French soldiers and the marines arrived at the designated place about 8.30, direct from the trenches, where they had been temporarily relieved. The morning was a dreary one; a drizzling rain, falling from a sullen sky, was whirled stingingly against one's face by sudden gusts of wind. A heavy mist hung close to the ground and increased in density each moment. The spot where the ceremonies were to take place was designated by a company of French soldiers who had arrived earlier.

From different directions in the woods the other units, French and American, arrived on the scene. The soft carpet of the forest deadened the sound of their footsteps and the men, coming among the trees enveloped in the shrouds of the heavy mist, presented the illusion of silent, roaming ghosts, mud spattered, tired, fearless and brave, heroes of other battles, arriving and gathering for a meeting of the clan. The roar of a heavy gun in the close vicinity, the sharp command of an officer in charge of the latest arrivals, disturbed the silence.

A French officer arrived, issued some instructions, and suddenly the different units maneuvering in the fog gathered into some semblance of order and drew up into position. The officer, reading from a list, called out the names of those who were to be decorated and one by one they stepped out of the ranks, halted wonderingly in odd groups until told just where to stand. They were lined up in the proper order when the French brigade colonel and his staff arrived.

French and American Officers.

The French divisional general arrived just a few minutes before 9 o'clock and was announced by a flourish of trumpets. The American officers arrived about the same time, and among those present was the major general commanding the division, the brigadier general who, that morning assumed command of the marine brigade, and the marine brigadier general who on the following day was returning to the States. For that reason the ceremonies were of unusual interest to the marines.

The decorations were awarded in almost all cases for courageous action during an attack on the marines by a strong detachment of specially trained assault troops, known as the famous "Hindenberg Circus." It was the first large raid which the Germans attempted on a part of our sector, and it was nipped in the bud and completely frustrated, due to the fact that the marines were very much awake and on the job. The boche launched the raid upon a small portion of the sector which had just been turned over by one company to another during the process of a battalion relief.

The enemy evidently knew the time this relief was to take place, and counted

COTTONSEED-OIL REFINERS TO CONVENE IN WASHINGTON FOR CONFERENCE ON POLICY

NEW BUYING AND SELLING RULES

Cost of Ginning This Year Expected To Be 25 Per Cent Higher Than Last—New Special License Regulations Soon Ready.

The Food Administration authorizes the following:

Cottonseed-oil refiners, representing the industry nationally, will meet at the Food Administration in Washington, August 14, for a general conference on policy during the coming season. Other conferences, with stock feeders and fertilizer manufacturers present, will be held later.

Cost of cotton ginning this year will be at least 25 per cent higher than last, according to Food Administration estimates, largely because of higher wages for labor. The average cost last year, in 10 States, was $3.01 for a bale of cotton. The highest was $5.36, in Oklahoma, and the lowest $1.96, in Georgia.

Zoning System Considered.

A zoning system such as that established last year, based on varying oil and meal yields in the several districts, is under consideration. Last year the average yield per ton throughout the cotton belt was a trifle less than 41 gallons. Texas gave 38 gallons and the Mississippi Valley, the best producer, nearly 44 gallons per ton. The Department of Agriculture is collecting data on the oil and meal yield, to be submitted to the Food Administration.

New Rules and Regulations.

New rules and regulations to guide buyers and sellers of cotton seed and peanuts, as well as cotton ginners, give especial consideration to proper handling and conservation of oil as a war necessity. No dealer under Federal license who buys or sells cotton seed shall dispose of it at a price greater than $3 a ton in excess of his purchase price if he himself provides the facilities for conducting his business and assumes the risk. If others share the risk and provide facilities, either wholly or in part, his profit shall not exceed $1.50 per ton. The remainder of the margin in such case shall be retained by those who provide the capital and assume the risks.

Deduction for Haulage.

Dealers who buy seed away from the railway and haul it to stations may deduct the haulage from the price they pay to the producer, if the latter will sell under these conditions. No licensee, operating either as broker or dealer, who buys cotton seed in carload lots shall receive as his compensation more than 25 cents per ton. Such compensation shall be borne by either seller or final buyer as part of his spread or differential, and not be added to cost of the seed.

No licensee owning, controlling, or operating a ginnery shall make any unreasonable charge for the service of cleaning seed cotton or separating the seed from the lint.

Ginners must keep a record showing name and address of persons for whom they gin cotton, amount handled, and actual charge, and must always be ready to furnish detailed information to the Food Administration.

Especial emphasis is laid upon keeping the seed clean and free from foreign substances. The charge for ginning shall be the same whether or not the cotton or seed is bought by the ginner. Ginners are to gin cotton submitted to them as rapidly as consistent with good work, and upon demand are to return to owners

(Continued on page 15.)

New Regulations for Cotton Ginning Issued by the Food Administration

The United States Food Administration issues the following Circular No. 43:

To all cotton ginners:

This circular supersedes Circular No. 41, dated June 22.

(1) Attention is hereby called to rule 8 of the Special License Regulations, No. I, effective July 1, 1918: No licensee owning, controlling or operating a ginnery shall make any unreasonable charge for the service of cleaning seed cotton or separating the seed from the lint.

Record of all Ginning.

(2) Ginners are to keep a correct record showing the name and address of each party for whom they gin cotton, the amount of cotton ginned in each case, and the actual charge made for such service. They must be in position at all times to furnish detailed information to the United States Food Administration.

(3) It is necessary that ginners perform this service in such a way that the seed cotton shall be cleaned and the lint removed from the seed in an efficient manner. Such foreign substances as are removed from the seed cotton shall not be returned to the seed, but the seed shall be kept in a clean condition. Ginners are not permitted to mix any foreign material with cotton seed during the time that it is under their control or in their possession.

(4) The charge for ginning shall be the same whether or not the cotton or the cotton seed is purchased by the ginner.

Dry and Seed Cotton.

(5) Ginners are to gin as rapidly as possible, consistent with good work, all dry seed cotton tendered them, and upon demand they are to return to the owner the cotton and cotton seed ginned by them. If cotton seed is purchased by the ginner, he must be guided by our rule No. 5 and Circular No. 40.

(6) Ginners are to keep a careful record, showing the name and address of each party from whom they purchase cotton seed, together with the quantity and price paid for same.

U. S. FOOD ADMINISTRATION,
By T. F. JUSTISS,
Cotton Seed Industry Division.

Rules for Cottonseed Buyers and Sellers Issued by the U. S. Food Administration

The United States Food Administration issues the following Circular No. 40:

To all buyers and sellers of cotton seed:

Effective July 1, 1918, and until further notice, you are to observe the following announcement and regulations:

The carload market price at railroad points shall be the basis price of cotton seed.

Instructions to Licensees.

Licensees engaged in the buying of cotton seed in small quantities for sale or shipment in carload quantities, operating as provided for in either section (1) or section (2) following, are to ascertain the price that shall be paid for cotton seed by deducting $3 per ton from the basis price on the day of purchase.

(1) No licensee engaged in the buying or selling of cotton seed and for which purpose he provides the necessary facilities, capital, and bears the expenses and risks incident to the business shall sell any cotton seed at more than $3 per ton (including delivery and loading of seed into cars or mills) above the price which he paid for the said cotton seed.

(2) No licensee operating as principal, whose capital is furnished by another and whose expenses and business risks and facilities, in whole or in part, are borne by another, and no licensee operating as agent under his own license or under the license of another, shall receive as his compensation for his services more than $1.50 for each ton of cotton seed negotiated by him. The remainder of the margin as provided for in section (1) shall be retained by the party or parties furnishing the capital and facilities and assuming the risks and expenses, in whole or in part.

Deduction from Basis Price.

Provided that licensees referred to in section (1) and in section (2) who purchase cotton seed at points distant from railway stations are permitted to buy their seed at such deduction from the basis price as will enable them in determining the cost price of said seed to absorb the actual cost of hauling to the railway station.

(3) No licensee, operating either as broker or as dealer, who buys cotton seed in car lots shall receive as his compensation more than 25 cents per ton. Such compensation shall be borne by either seller or final buyer as part of his spread or differential, and not added to the cost of the seed.

(4) The above regulations shall apply to all contracts involving the production of cotton seed from the crop of 1918–19.

U. S. FOOD ADMINISTRATION,
By T. F. JUSTISS,
Cotton Seed Industry Division.

Instructions With Respect to Branch and District Offices Of the Inland Traffic Division of the War Department

The War Department authorizes the following:

WAR DEPARTMENT,
Washington, D. C., August 1, 1918.

Circular No. 2-A, superseding and canceling Circular No. 2.

Instructions with respect to the branch and district offices, Inland Traffic Service, War Department:

1. Effective August 1, 1918, the organization of the Inland Traffic Service of the War Department is extended as hereinafter indicated.

2. Branch and district offices, in charge of the persons named, reporting as designated, are hereby established as follows:

Branch offices reporting to the chief, Inland Traffic Service, Washington D. C.

Location.	Assistant chief—Name and address.	With supervision over district office at—
Atlanta, Ga.	A. S. Edmonds, Forsythe Building	Charlotte, N. C. Jacksonville, Fla. Birmingham, Ala.
Boston, Mass.	J. E. McGrath, No. 25 Huntington Avenue	
Chicago, Ill.	R. B. Robertson, Southern Pacific Building, 35 West Jackson Boulevard.	Detroit, Mich. Peoria, Ill. Toledo, Ohio.
New Orleans, La.	N. C. Barnett	Dallas, Tex.
New York, N. Y.	B. M. Flippin, Room 527, 45 Broadway	Albany, N. Y. Buffalo, N. Y.
Pittsburgh, Pa.	J. E. Weller, Chamber of Commerce Building	Cleveland, Ohio. Cincinnati, Ohio. Indianapolis, Ind.
St. Louis, Mo.	C. H. Morrill	Kansas City, Mo.

District offices reporting to Chief, Inland Traffic Service, Washington, D. C.

At—	Name of person in charge and address.	Reporting to—
Baltimore, Md.	Capt. S. A. Tubman (acting), Lexington Building.	Washington, D. C.
Norfolk, Va.	J. F. Dalton	Do.
Philadelphia, Pa.	J. B. Trimble, Widener Building	Do.
Portland, Oreg.	W. C. Diblee	Do.
Richmond, Va.	G. A. Craig	Do.
San Francisco, Cal.	F. L. Hanna, Southern Pacific Building	Do.

District offices reporting to branch offices.

At—	Name of person in charge and address.	Reporting to—
Albany, N. Y.	C. E. Harris, Room 1, Post-office Building	New York, N. Y.
Buffalo, N. Y.	A. P. Wakefield, Room 530, Federal Building	Do.
Birmingham, Ala.	R. M. Dozier	Atlanta, Ga.
Cleveland, Ohio.	Leonard Smith	Pittsburgh, Pa.
Cincinnati, Ohio.	W. H. Connor, 314 Post-office Building	Do.
Charlotte, N. C.	C. Sanderson, 202 Mint Building	Atlanta, Ga.
Dallas, Tex.	John D. Gowin	New Orleans, La.
Detroit, Mich.	A. J. Dutcher	Chicago, Ill.
Indianapolis, Ind.	G. W. Smith, 314 Post-office Building	Pittsburgh, Pa.
Jacksonville, Fla.	Willis Callaway, 707 Heard Natl. Bank Building	Atlanta, Ga.
Kansas City, Mo.	J. L. Hohl	St. Louis, Mo.
Peoria, Ill.	Chas. Shackell	Chicago, Ill.
Toledo, Ohio.	P. B. Doddridge, 415 Ohio Building	Do.

3. The services of the branch and district offices are available to all bureaus of the War Department alike and their activities will be exercised in connection with property of all such bureaus without preference or prejudice. Direct communication with representatives of the Inland Traffic Service is authorized.

4. The duties of those in charge of branch and district offices with respect to the transportation of troops are as follows:

A. The movement of troops is directed from the office of the chief, Inland Traffic Service, through the troop-movement section of the United States Railroad Administration. Therefore, branch and district offices will have no duties in connection therewith except such as may be delegated by special instructions issued from time to time. They will, however, render assistance at all times when required by the officer in charge and will promptly report to and await instructions from the chief, Inland Traffic Service, in any case of importance coming to their notice, requiring advice and instruction.

5. The duties of those in charge of branch and district offices with respect to the transportation of property are as follows:

A. To represent the Inland Traffic Service in all matters within its jurisdiction, subject to the established rules and regulations.

B. To promptly and effectively respond to all requirements of the War Department, pertaining to the transportation of War Department property, inland and coastwise.

C. To respond, with respect to matters within their jurisdiction, to requests from officers and representatives of the United States Railroad Administration and the individual carriers, including water lines.

D. To perform all duties pertaining to the transportation, inland and coastwise, of all property of the War Department moving by express, freight or otherwise, and the routing thereof, beginning with the ordering of cars or other vehicles for use in shipping the property, also including all matters pertaining to expedition or preference in movement, tracing, checking of railroad yards, instructions to carriers with respect to the movement of War Department property, including the disposition of shipments on arrival at destination, all other relations with the carriers, switching service and questions pertaining to transportation as distinguished from the concentration and shipping of the property and the acceptance or storing or otherwise disposing of it on arrival at destination; will require prompt acceptance of the property, unloading of cars and accomplishment of bills of lading.

E. To exercise special supervision over the shipment of property by express and to substitute freight service when practicable.

F. To inform themselves with respect to the service available by inland and coastwise waterways, and the rates applicable, and to encourage the movement of the maximum amount of property via such routes when safe and practicable and the expense therefor is not in excess of the expense for movement by rail, including cartage and considering land-grant deductions. Any departure from the latter rule must be approved by the Chief Inland Traffic Service.

G. To confer with officers and agents of the carriers, to insure the prompt movement to its destination of all property of the War Department being delayed en route; to report to the consignee and to the Chief Inland Traffic Service, through the proper channels, the action taken in all such cases; and for such other purposes as may be necessary.

H. To keep themselves informed at all times with respect to the conditions at important railway centers and junction points, transfer depots, etc.; to prevent, so far as possible, delay in the movement of War Department property; and to promptly report any congestion of facilities resulting in delay in the movement of such property, and, if known, the causes therefor.

I. The United States Railroad Administration having established at Washington (Nineteenth Street and Virginia Avenue) a car record bureau wherein the shipment, interchange, junction passing and arrival at destination of Government shipments in carloads are recorded, that record will be resorted to in so far as may be practicable in the tracing of delayed shipments.

The Inland Traffic Service maintains in connection with this record and in the same building its tracing section, with which direct communication is authorized.

J. Branch and district offices may, when necessary and expedient, trace delayed shipments through local railroad offices within their respective territories or districts. It is especially directed, however, that preference be given to the handling of all tracers for both carload and less than carload shipments through the Washington office.

Branch and District Offices of the Inland Traffic Division

K. Expediting the movement of important shipments shall at all times be distinguished from the matter of tracing and effecting delivery at destination of shipments delayed in transit. Branch and district offices are authorized to arrange direct with the proper officers of the carriers interested for the movement of such shipments when moving wholly within the territory assigned to the branch in which the shipments originate. All other requests must be submitted to the office of the Chief, Inland Traffic Service, Washington, for transmission to the car service section of the United States Railroad Administration.

L. To give especial attention to the conditions at the ports of export, to insure prompt delivery of all property to the consignee upon arrival, prompt unloading of cars, prevent the incurring of demurrage charges or the accumulation of property in excess of the facilities available to store or otherwise care for it, obtain reports from the carriers of all shipments held for disposition and to inform the Chief, Inland Traffic Service, periodically as required, as to the situation, including advice as to the ability of the responsible officer to accept and unload property on arrival.

M. To exercise such other functions and perform such other duties as may be prescribed by the Chief, Inland Traffic Service, War Department, or by his authority, from time to time.

N. To report to the Chief, Inland Traffic Service, through the proper channels, all failures to observe the orders, rules, and regulations of the Inland Traffic Service.

6. The following territorial assignments are made:

Assistant chiefs in charge of branch offices will have general supervision over all territory assigned thereto and will also have direct charge of the details of operations in the territory assigned to their respective branches and not assigned to districts therein.

ATLANTA BRANCH.

Tennessee, North Carolina, South Carolina, Georgia; Florida, east of Chattahoochee River; Alabama, north of Louisville & Nashville Railroad, running west from Flomaton to Mississippi State line; Mississippi, on and north of the line of the Southern Railway, Columbus, Miss., to Greenville, Miss.

Birmingham district.—Alabama, north of L. & N. R. R. running west from Flomaton to Mississippi State line; Tennessee west of line of L. & N. R. R. Guthrie to Nashville, and N. C. & St. L. Nashville to Alabama State line; Mississippi north of Southern Railway, Columbus, Miss., to Greenville, Miss.

Charlotte district.—North Carolina and South Carolina, except Charleston, S. C., and Port Royal, S. C.

Jacksonville district.—Florida, east of Chattahoochee River; Georgia on and south of Seaboard Air Line Railroad running from Montgomery to Savannah, Ga., also latter port, Charleston, S. C., and Port Royal.

BOSTON BRANCH.

Rhode Island, Connecticut, Massachusetts, Vermont, New Hampshire, and Maine; Canada, east of line of Grand Trunk Railway, Rouses Point, north to but not including Montreal.

CHICAGO BRANCH.

Ohio, on and north of line of Lake Erie & Western R. R., Sandusky, Ohio, to Indiana State line; Indiana, on and north of line of L. E. & W. Ohio-Indiana State line to Lafayette, Ind.; thence on and north of Wabash R. R. to Illinois-Indiana State line near Danville; Illinois, on and north of Wabash R. R., Illinois-Indiana State line near Danville, through Springfield to Hannibal, Mo.; Iowa, North Dakota, South Dakota, Minnesota, Wisconsin, and Michigan; Canada, Province of Ontario, west of line of Grand Trunk from Goderich, Ontario, through London to Lake Erie.

Detroit district.—Michigan, except that part lying on and south of L. S. & M. S. Railroad, Indiana-Michigan State line near White Pigeon, through Adrian to Lake Erie near Monroe; Canada, Province of Ontario, line west of line of Grand Trunk Railroad, Goderich to Lake Erie, through London.

Peoria district.—Illinois, on and west of line of Illinois Central Railroad, Decatur, Ill., through LaSalle to Freeport and Wisconsin State line, and north of the line of the Wabash Railroad, Decatur to Hannibal, Mo.; State of Iowa except points on Missouri River.

Toledo district.—Ohio, on and north of line of Lake Erie & Western R. R., Sandusky, Ohio, to Indiana State line; Indiana on and north of line of L. E. & W. from Ohio State line to Lafayette, Ind., and east of line of Monon, Lafayette to Michigan State line; Michigan on and south of line of L. S. & M. S. R. R. Michigan-Indiana State line, near White Pigeon through Adrian to Lake Erie near Monroe.

NEW ORLEANS BRANCH.

Florida west of Chattahoochee River; Alabama on and south of the line of Louisville & Nashville Railroad, running from Flomaton to Mississippi State line; Mississippi south of Southern Ry., Columbus, Miss., to Greenville, Miss.; Louisiana, Oklahoma, Texas, and New Mexico.

Dallas district.—Texas on and west of line of T. & P. extended from Shreveport to Longview; thence I. & G. N. to Rockdale; thence S. A. & A. P. to Corpus Christi; Oklahoma and New Mexico.

NEW YORK BRANCH.

State of New York; New Jersey on and north of line of Pennsylvania Railroad, Trenton to Sea Girt; Canada on and west of line of Grand Trunk Railway, Rouses Point to Montreal and on and east of line of Grand Trunk Railway, Goderich to Lake Erie.

Albany district.—Province of Quebec, on and west of Grand Trunk Railway, Rouses Point to Montreal; Province of Ontario on and east of line of Canadian Pacific Railway running from Renfrew, Ont., to Kingston, Ont.; New York east of the line of Northern Central Railroad, Sodus Point to Elmira, N. Y., thence Delaware, Lackawanna & Western Railroad to Binghamton, N. Y., thence Delaware & Hudson Railroad to and including Albany and Troy, N. Y.

Buffalo district.—New York, on and west of line of Northern Central Railroad Sodus Point, N. Y., to Elmira, N. Y.; Province of Ontario lying west of line of Canadian Pacific Railway from Renfrew to Kingston, Ont., and east of line of Grank Trunk, Goderich south through London, Ontario, to Lake Erie.

PITTSBURGH BRANCH.

Pennsylvania, west of line of Pennsylvania R. R. running from Elmira, N. Y., to Harrisburg, Pa., thence west of line of Cumberland Valley R. R., Harrisburg to Maryland State line; West Virginia, west of the Maryland State line and Western Maryland R. R., to Elkins, West Virginia, thence on and north of the Coal and Coke R. R., Elkins to Charleston; thence C. & O. Ry., to Kentucky State line; Kentucky; Ohio, south and east of Lake Erie & Western R. R. from Sandusky to Indiana State line; Indiana, south of Lake Erie and Western Indiana State line to Lafayette, and Wabash Ry., Lafayette to Illinois State line; Illinois on and east of Big 4 R. R., Cairo to Indiana-Illinois State line.

Cincinnati district.—Ohio on and south of the C. H. & D. Indiana State line to Hamilton; on and east of the B. & O. R. R., Hamilton to Piqua, on and south of the Pennsylvania Line, Piqua to Columbus, and T. & O. C. R. R., Columbus to Ohio-West Virginia State line; Indiana on and south of the Southern Ry., Louisville to Illinois-Indiana State line near Mount Carmel, including Jeffersonville, Illinois, on and east of the Big 4, Illinois-Indiana State line to Cairo, Kentucky.

Cleveland district.—Ohio south and east of the Lake Erie & Western R. R., Sandusky to Lima; east of B. & O. R. R., Lima to Piqua; north of the Pennsylvania R. R., Piqua to Columbus, and T. & O. C. R. R., Columbus to Ohio-West Virginia State line.

Indianapolis district.—Indiana south of the L. E. & W. R. R., Ohio-Indiana State line to Lafayette, and Wabash Ry. Lafayette to Illinois State line, and north of the Southern Ry., Louisville to Illinois State line near Mount Carmel; Ohio west of the B. & O. R. R., Lima to Hamilton and north of the C. H. & D. R. R., Hamilton to Indiana State line.

ST. LOUIS BRANCH.

Illinois south of line of Wabash R. R., from Indiana State line near Danville to Hannibal, Mo., through Springfield, Ill., and north and west of Big 4 R. R., Cairo to Illinois-Indiana State line; Missouri, Nebraska, Kansas, Arkansas, Colorado, and Wyoming.

Kansas City district.—Nebraska, Kansas, Colorado, and Wyoming; also Missouri River points, including St. Joseph, Mo., Atchison, Leavenworth, Kansas; Omaha and South Omaha, Nebraska; and Council Bluffs, Iowa; Missouri on and west of Missouri Pacific R. R. from Kansas City through Butler and Lamar to Arkansas State line.

WASHINGTON, D. C.

District of Columbia, Virginia, West Virginia, east and south of line from Elkins, W. Va., to Charleston, W. Va., via Coal & Coke Ry.; thence to Kentucky State line via C. & O. Ry., comprising Richmond and Norfolk districts; Maryland, Delaware; Pennsylvania on and east of line of Penna. R. R., running

(Continued on page 16.)

PLANS FOR PHYSICAL RECONSTRUCTION OF DISABLED SOLDIERS IN THE GENERAL MILITARY HOSPITALS ARE ANNOUNCED

List of Institutions Where Rehabilitation Work Will Be Carried on—Many Kinds of Treatment to Be Employed and Many Vocations to Be Taught.

The following statement is authorized by the War Department:

The Surgeon General, with the approval of the General Staff, announces the completion of plans for the physical reconstruction of disabled soldiers in the general military hospitals. These plans are formulated with a view to close cooperation with the War Department committee on education and special service in the work of restoring men to full or limited military service, and with the Federal Board for Vocational Education, which is authorized by the law to provide vocational training for disabled men after their discharge from the Army and Navy.

The records of 516 cases treated in 4 hospitals show 134 men able to return to full military duty, 210 fit for limited service and 172 who are eligible for discharge. In the last group 12 are classed as helpless or institutional cases; 121 are able to return to their former occupations; and 39 will need further training to fit them for earning a livelihood. These figures show the division of responsibility in the work of reconstruction.

Most Pressing Need.

The task of fitting men for further military service is at present the most pressing need because wherever an able-bodied man behind the lines can be replaced by one less fit physically, but vocationally capable, a soldier is gained for active duty. The reconstruction work in the hospitals, therefore, will emphasize technical training in all lines capable of adaptation to the physical limitations of disabled men and in which employment will act as a therapeutic agent. When play and work and study will help a man to get well, this kind of medicine will be prescribed to the patient. If the work he does leads to further service in the Army or to better prospects in civilian life so much the better.

Hospitals Designated.

The Surgeon General has designated the following general military hospitals for the work of physical reconstruction:

Walter Reed General Hospital, Washington, D. C.

General Hospital No. 2, Fort McHenry, Md.

General Hospital No. 3, Colonia, N. J.

General Hospital No. 6, Fort McPherson, Ga.

General Hospital No. 7, Roland Park, Baltimore (for the blind).

General Hospital No. 8, Otisville, N. Y.

General Hospital No. 4, Fort Porter, N. Y.

General Hospital No. 9, Lakewood, N. J.

General Hospital No. 11, Cape May, N. J.

General Hospital No. 16, New Haven, Conn.

General Hospital No. 17, Markleton, Pa.

Letterman General Hospital, San Francisco, Cal.

United States Army Hospital, Fort Des Moines, Iowa.

Plattsburg Barracks Hospital, Plattsburg Barracks, N. Y.

General Hospital, Fort Bayard, N. Mex.

Policy to be Followed.

The policy to be followed in these hospitals, as announced by the Surgeon General, is that hereafter no member of the military service disabled in line of duty, even though not expected to return to duty, will be discharged from service until he shall have attained complete recovery or as complete recovery as may be expected when the nature of his disability is considered. In furtherance of this policy, physical reconstruction is defined as complete mental and surgical treatment carried to the point of maximum functional restoration, both mental and physical. To secure this result all methods recognized by modern medicine as conducive to cure will be utilized. In other words, not only the ordinary means of medicine and surgery, including all specialties, will be utilized, but also physical measures such as are employed under physiotherapy, including hydro, electro, and mechanotherapy, active exercises, indoor and outdoor games, and passive exercise in the form of massage. Provision in the form of adequate buildings and equipment for physiotherapy have been adopted in each of the hospitals.

Functional Restoration Final Aim.

Modern medicinal treatment does not end with physical cure. Functional restoration is the final aim of the modern physicians and surgeons. It is conceded that the physical rehabilitation of disabled men is peculiarly dependent upon their mental attitude. The more serious the disability, the greater the danger of mental depression and an indisposition to respond to medical and surgical treatment. The educational work should begin, therefore, at the moment when the man has arrived at the stage where he begins to worry about his future, whether in this country or overseas. The first problem is to divert his attention by simple recreation, through reading, pictures, games, handiwork occupations, and the like, with a view to securing a genuine interest in the attainment of some worthy end—the end most certain to hold his attention and to claim his best efforts in his future vocation. Hence, by gradual steps he may be induced to supplement his previous vocational experience by academic, scientific, or technical instruction, or to choose a new vocation and begin preparation for it if such a course is necessary.

Need of "Cheer-Up" Work.

The need of "cheer-up" work in the hospitals extends to all who are mentally capable of planning for their own future. This means a relatively large proportion of the entire number. The beginning is made at the bedside with the introduction of various kinds grouped under the term "occupational therapy." When the man is able to leave the ward and can be benefited physically by technical training, he has the opportunity of working at specific trades either in the curative workshop, in specially provided classrooms, or out of doors.

The teachers for this work have been secured from the convalescent disabled soldiers who are already skilled in their vocations and from the enlisted personnel of the Army secured by transfer or by induction of registrants disqualified for general military service but qualified for special limited service. These instructors work under the direction of educational officers chosen for their professional standing in civil life and commissioned in the Sanitary Corps of the Medical Department. The General Staff has just authorized commissions for 119 educational officers for this purpose.

Three Classes of Disabled Soldiers.

From the military standpoint disabled soldiers may be placed in three general classes:

(a) Those who can be restored to full duty.

(b) Those who can be fitted for limited service.

(c) Those disabled to the extent of unfitting them for further military service.

It is the announced policy of the Surgeon General that patients of the first class (a) should have, when circumstances warrant it, the benefit of therapeutic treatment through play, work, and study, as may be prescribed by medical officers, in order that their morale may be stiffened, their special skills improved, their future usefulness increased, and their recovery hastened.

Patients of the second class (b) should have, whenever conditions permit and the medical officers approve, such specific training — physical and vocational — as will in the judgment of the educational officers best fit such patients for limited service of a particular kind. At present patients are being trained in general hospitals for limited service as general and vocational teachers, typists, printers, tailors, cobblers, harness makers, welders, motor mechanicians, painters, machine workers, woodworkers, bookkeepers, statisticians, telegraphers, photographers, telephone operators, cooks, storekeepers, electricians, etc.

List to be Extended.

The list will be extended with the advice and cooperation of the committee on education and special service of the War Department to meet other needs as they arise. In connection with the large general hospitals there is abundant opportunity for practice in many trades and occupations. At Fort McPherson, for example, practical experience can be gained in 20 different trades. Moreover, there is immediately adjacent to the hospital a large quartermaster's mechanical repair shop covering all phases of mechanical repair and construction to which men can be assigned for limited service or to gain experience.

Patients of the third class (c) should be encouraged in every possible way to accept the benefits accorded them for vocational training by the Federal Board for Vocational Education. To this end

(Continued on page 15.)

FRENCH VETERANS OF VERDUN, OF THE MARNE, AND THE AISNE

(Continued from page 9.)

upon taking advantage of the usual confusion attending such movements. The relief was effected, however, with precision and dispatch, and the change was completed just as the boche shelling commenced.

The raid was preceded by a shelling lasting about an hour, immediately followed by an intense barrage. The curtain of shells extended the whole length of that part of the sector occupied by this company, and, first dropping into the front lines, gradually moved backward toward our rear lines, until those in front were isolated from their support.

In the meantime the boche had crossed No Man's Land and some were cutting our wire while others hurled grenades into our trenches and prepared the way for the raiding party which was following close behind. The marines in the front line replied immediately with rifles and grenades, and a lively fight at close range resulted and lasted until machine guns were called into action and a counter barrage placed down.

Instances of Individual Courage.

In addition to the splendid manner in which this company repelled the attack of the enemy, superior in number, there were many instances of individual courage and bravery on the part of noncommissioned officers and men, both in the hand-to-hand combat for possession of the trenches and in holding important posts in the face of the enemy. The marines repelled the attack successfully and forced the enemy to retreat hurriedly, leaving behind a toll of killed and wounded, both officers and men.

The French general who pinned the decorations on the breasts of the proud marines eloquently praised their achievements in a short speech in which he summarized their deeds of bravery, remarking on the fine state of discipline and efficiency of the brigade, and congratulating its commanding officer upon his excellent organization. He then pinned the little bronze emblems on the men, and shook each one by the hand with a personal word of congratulation.

The ceremonies over, the officers took their position on the side of the road winding through the forest, and the companies, first the French and then the American, marched by in review to the lively tune of the "Marche Lorraine." The French, in column of two, led by a bronzed, wiry veteran mounted on a horse, his saber raised to the position of salute, the wind flapping back his mud-smeared overcoat, while the blinking rays of the morning sun endeavored to penetrate the pearly mist, reminded one of a painting by Detaille.

"So France Marched By."

So France marched by, rounding out the fourth year of her gallant fight, a little tired, yet full of confidence; a little discouraged at times, but still holding on with grim determination and gathering new strength, fresh inspiration from across the sea; fighting hard with the knowledge that it is a good fight.

And then passed the ones in the uniform of the marines—young, eager, inspiring, swinging along in the exuberance of youth; proud in the knowledge that they had turned their first page of the book of this war and acquitted themselves as men; proud that their older, more experienced comrades had included them in the circle of those deserving of honor. Thus they passed down the road, smiling, under the dripping trees, and disappeared in the fog.

LIST OF PURCHASE CONTRACTS MADE BY BUREAU OF AIRCRAFT PRODUCTION

The following is a list of purchases contracted for by the Bureau of Aircraft Production:

[NOTE.—The first figures at the beginning of each paragraph is the ORDER NUMBER, the second the CONTRACT NUMBER.]

July 3, 1917.

130003. 4225. Dyneto Electric Corporation, Syracuse, N. Y., 100 battery charging sets.

360014. 4218. Eastman Kodak Co., Rochester, N. Y., 12,600 dozen commercial plates.

360.015. 4219. Eastman Kodak Co., 750 gross process films.

480006. 4213. Austin Manufacturing Co., Harvey, Ill., 1 motor sweeper and supplies.

480011. 4217. Dominion Asbestos & Rubber Co., 154 Nassau Street, New York City, 1;380 sheets ...bestos.

710010. 4222. American Bleached Goods Co., New York City, N. Y., 90,000 yards balloon cloth.

740002. 4212 Hawkeye Division, Eastman Kodak Co., Rochester, N. Y., 25 aerial lenses.

740006. 4216. United States Lens Co., Geneva, N. Y., 1,200 negative lenses.

July 5, 1918.

31224. 4226. Alien Property Custodian, southwest corner Sixteenth and P Streets NW., Washington, D. C., 10,000 Splitdorf magnetos.

110010. 4231. Julian P. Friez & Sons, 1330 East Baltimore Street, Baltimore, Md., 600 heliographs.

130004. 4221. Ward Leonard Electric Co., Mount Vernon, N. Y., 200 battery charging panels.

370035. 4234. Brown & Sharpe Manufacturing Co., Providence, R. I., one universal and tool-grinding machine.

710009. 4223. American Bleached Goods Co., New York City, N. Y., 15,000 yards balloon cloth.

710011. 4227. The Anderson Chemical Co., Wallington, N. J., 2,000 gallons diacetone alcohol.

July 6, 1918.

180001. 4203. Standard Underground Cable Co., Pittsburgh, Pa., 193,680 feet cable.

180002. 4204. Western Electric Company, 463 West Street, New York, N. Y., cable.

180003. 4205. John A. Roebling's Sons Co., Trenton, N. J., 210,000 feet cable.

370041. 4235. Brown & Sharpe Manufacturing Co., Providence, R. I., 1 tool grinding machine and attachments.

710012. 4228. American Cellon Co., 87 Fifth Avenue, New York, N. Y., 50,000 gallons cellulose acetate dope.

750007. 4233. Napier-Browning Co., 105 West Fortieth Street, New York City, 4,000 protractors.

770001. 4232. Manhattan Electrical Supply Co., 41–47 Morris Street, Jersey City, N. J., 6,100 connectors.

July 8, 1918.

120008. 4230. Bell & Howell Co., Candler Building, 220 West Forty-second Street, New York City, motion picture equipment, cameras, lenses, etc.

130008. 4256. General Radio Co., 11 Windsor Street, Cambridge, Mass., 2,500 receiving sets.

710016. 4242. Geo. H. Amick, Clendenin, W. Va., 50,000 feet walnut lumber.

840002. 4237. Mr. Guy Leonard, Baltimore, Md., services as supervisor of construction and operation of plants manufacturing acetate of lime and other chemicals.

July 9, 1918.

130011. 4238 Western Electric Co., 463 West Street, New York City, 280 amplifiers, 300 transmitting sets.

480014. 4253. Murray & Tregurtha Co., 340 West First Street, South Boston, Mass., 2 sea sleds and motors.

710019. 4251. Chemical Products Co., 30 Charles River Road, Cambridge, Mass., 42,000 pounds cellulose acetate.

710020. 4244. Champion Ignition Co., Flint, Mich., 16,000 spark plugs.

710022. 4246. Simmons Hardware Co., District National Bank Building, Washington, D. C., 5,000 gunner's safety belts.

710023. 4254. Lewis Thompson & Co., Colonial Trust Co. Building, Philadelphia, Pa., 25,000 feet Mexican mahogany lumber.

720040. 4247. Canadian Aeroplanes (Ltd.), Toronto, Ontario, Canada, spares for JN–4D planes, 25 landing gears, 200 wing skids, 50 tail skids, 50 petrol cocks.

720041. 4250. Canadian Aeroplanes (Ltd.), Toronto, Ontario, Canada, 150 planes for Curtiss Canadian airplanes.

730023. 4245. Ericsson Manufacturing Co., Buffalo, N. Y., 95 items, spares for Berling magneto D–81, contact springs, screws, interrupter levers, etc.

740009. 4240. American Propeller & Manufacturing Co., Baltimore, Md., 1,000 air fans.

July 12, 1918.

130016. 4277. Century Telephone & Construction Co., Buffalo, N. Y., 109 instruction buzzer sets.

130017. 4281. Century Telephone & Construction Co., Buffalo, N. Y., 50 instruction buzzer sets.

160033. 4285. Russell, Burdsall & Ward Co., Port Chester, N. Y., 37,000 galvanized lag screws.

710035. 4287. The Dow Chemicals Co., Midland, Mich., 15,000 pounds cellulose acetate.

710036. 4290. The Celluloid Co., 30 Washington Place, New York City, 25,000 pounds tripheny phosphate.

720057. 4279. National Pneumatic Co., 50 Church Street, New York City, interrupter gear parts—Bowden wire controls, 300; copper pipe lines, 900 sets; trigger motors complete, 1,200; generator pistons with plungers, 1,800; reservoirs complete, 240.

720062. 4282. Curtiss Aeroplane & Motor Corp., Buffalo, N. Y., spares for JN4–D planes, ailerons, 6; engine bed cross bars, 13; control wires complete, 50 sets; wing masts, landing gear struts, etc.

720063. 4289. Curtiss Aeroplane & Motor Corp., Buffalo, N. Y., ailerons, control wires, wind shield, wing masts, landing gear struts, turnbuckles, control pulleys, bolts and nuts, etc.

720065. 4283. Phoenix Furniture Co., Grand Rapids, Mich., 500 Handley-Page propellers.

720067. 4286. Goodyear Tire & Rubber Co., Akron, Ohio, tape, tubes, rubber cores, fabric rollers and stitchers.

July 17, 1918.

130025. 4328. Western Electric Co., 463 West Street, New York City, services development of two high power output amplifiers.

140010. 4322. Western Electric Co., 463 West Street, New York, telephone supplies, cords, resistance lamps, test boards, switchboard lamps, etc.

140014. 4320. Western Electric Co., 463 West Street New York City, telephone material, extension bells, lamp caps, condensers, mouthpieces, plugs, receivers, etc.

340059. 4325. General Electric Co., Schenectady, N. Y., 868 tripods, 620 of same being 11 feet, 248 of same being 6 feet.

370069. 4336. Singer Sewing Machine Co., New York, N. Y., 125 2-needle, ⅜-inch gauge, sewing machines.

710044. 4329. National Gauge & Equipment Co., La Cross, Wis., 2,500 oil pressure gauges.

770003. 4331. James Cunningham Son & Co., Rochester, N. Y., 30 windlasses.

O. R. EWING,
Captain, A. S. (P.) N. A.

ORDERED TO WASHINGTON.

Special Orders, No. 170:

63. Maj. Frederick J. Wood, Engineer Reserve Corps, is relieved from his present station and duties and will proceed to this city, take station, and report to the officer in charge of construction division for duty.

CONTRACTS PLACED BY QUARTERMASTER OF THE UNITED STATES MARINE CORPS

Contracts have been placed by the Quartermaster, United States Marine Corps, as follows:

July 22, 1918.

No. 392-19. Packard Motor Car Co., Detroit, Mich., chassis and equipment.
No. 398-19. Acme Steel Goods Co., New York, N. Y., box strapping.
No. 393-19. Morris Truck & Wheel Co., Philadelphia, Pa., truck wheels.
No. 400-19. McCray Refrigerator Co., Kendallville, Ind., refrigerator.
No. 396-19. Savannah Roofing Co., Savannah, Ga., smoke pipe.
No. 404-19. Curran & Barry, New York, N. Y., duck.

July 23, 1918.

No. 370-19. Holland Butterine Co., Jersey City, N. J., oleomargarine.
No. 370-19. Wilson & Co., Chicago, Ill., subsistence.
No. 370-19. Cudahy Packing Co., Chicago, Ill., subsistence.
No. 370-19. James H. Crook, Newburgh, N. Y., subsistence.
No. 370-19. F. David & Co., Newport, R. I., subsistence.
No. 370-19. H. H. Dutton, Portsmouth, N. H., subsistence.
No. 370-19. New England Bakery Co., New London, Conn., subsistence.
No. 370-19. Newport Bakery, Newport, R. I., subsistence.
No. 370-19. H. H. Ruch, New Orleans, La., subsistence.
No. 370-19. H. T. Cottam & Co. (Inc.), New Orleans, La., subsistence.
No. 370-19. Standard Grocery Co., Charleston, S. C., subsistence.
No. 370-19. N. K. Fairbanks Co., Chicago, Ill., subsistence.
No. 370-19. Hipolito-Martinez, Algiers, La., subsistence.
No. 370-19. Wolfe & Ronan, Savannah, Ga., subsistence.
No. 370-19. Oscar Frommel & Bro., New York, N. Y., subsistence.
No. 370-19. Klein Grocery Co., Pensacola, Fla., subsistence.
No. 370-19. Blackstone Supply Co., Boston, Mass., subsistence.
No. 370-19. Thames Fruit & Produce Co., New London, Conn., subsistence.
No. 370-19. R. M. Eastwood, Norfolk, Va., subsistence.
No. 370-19. C. Recio, Key West, Fla., subsistence.
No. 370-19. L. J. Upton & Co. (Inc.), Norfolk, Va., subsistence.
No. 370-19. New London Fruit & Produce Co., New London, Conn., subsistence.
No. 370-19. Blue Valley Creamery Co., New York, N. Y., subsistence.
No. 370-19. Frank Christaldi, Philadelphia, Pa., subsistence.
No. 370-19. J. L. Christian, Philadelphia, Pa., subsistence.
No. 370-19. Amos C. Humphrey, Hingham, Mass., subsistence.
No. 370-19. Morris & Co., Chicago, Ill., subsistence.
No. 370-19. Swift & Co., Chicago, Ill., subsistence.
No. 370-19. F. A. Denison, Washington, D. C., subsistence.
No. 370-19. Austin, Nichols & Co. (Inc.), Brooklyn, N. Y., subsistence.
No. 370-19. Frederic W. Schaper, Haverstraw, N. Y., subsistence.
No. 370-19. John G. Schuerger, Washington, D. C., subsistence.
No. 370-19. Samuel E. Hunter, New York, N. Y., subsistence.
No. 370-19. John Groves Co. (Inc.), Charlestown, Mass., subsistence.
No. 370-19. New London Bakery & Delicatessen Co., New London, Conn., subsistence.
No. 370-19. Ferguson Bakery, Boston, Mass., subsistence.
No. 396-19. Dowman Dozier, Atlanta, Ga., sheet iron.
No. 396-19. John F. Riley, Charleston, S. C., asbestos mill board.
No. 396-19. Newport Rolling Mill Co., Newport, Ky., sheet iron.
No. 370-19. Arthur Dedes, Portsmouth, N. H., subsistence.
No. 405-19. Waterbury Farrel Foundry & Machine Co., Waterbury, Conn., decapping machine.
No. 287-19. H. S. Mitchell, Vancouver, Wash., lumber.
No. 287-19. Eastern & Western Lumber Co., Portland, Oreg., lumber.
No. 409-19. Manhattan Card & Paper Co., New York, N. Y., paper.
No. 406-19. Standard Oil Co. (N. J.), Baltimore, Md., gasoline and fuel oil.
No. 408-19. Standard Sanitary Mfg. Co., Pittsburgh, Pa., plumbing material.
No. 395-19. W. H. Schwartz, Norfolk, Va., concrete paving.
No. 394-19. Pittsburgh Plate Glass Co., Philadelphia, Pa., wire glass.
No. 394-19. Pennsylvania Wire Glass Co., Philadelphia, Pa., wire glass.
No. 394-19. Harris Perilstein, Philadelphia, Pa., glass.

July 24, 1918.

No. 370-19. Greenbaum & Donohue, Wharton, N. J., subsistence.
No. 370-19. Castner & Co., Wharton, N. J., subsistence.
No. 370-19. L. Lehman & Co., Dover, N. J., subsistence.
No. 370-19. Armour & Co., Chicago, Ill., subsistence.
No. 412-19. L. Goldsmith & Son, Newark, N. J., trunk lockers.
No. 317-19. The Art Metal Works, Newark, N. J., collar devices.
No. 174-19. Austin-Nichols & Co., Brooklyn, N. Y., subsistence.
No. 174-19. American Sugar Refinery Co., New York, N. Y., subsistence.
No. 174-19. Benjamin Moritz & Co., New York, N. Y., subsistence.
No. 220-19. The Faye & Baker Mfg. Co., North Attleboro, Mass., whistles.
No. 220-19. Bishop-Babcock-Becker Co., Cleveland, Ohio, tacks.
No. 403-19. Keystone Driller Co., Beaver Falls, Pa., well pipe.
No. 220-19 Pheoli Mfg. Co., Washington, D. C., burrs and rivets.
No. 220-19. Ward & Co., Washington, D. C., coal scuttles.
No. 220-19. Berry Bros., Columbus, Ohio, carriage bolts.
No. 220-19. Odell Hardware Co., Greensboro, N. C., carriage bolts.
No. 220-19. Minnesota Mining & Mfg. Co., St. Paul, Minn., emery cloth.
No. 220-19. The Manhattan Supply Co., New York, N. Y., hardware supplies.
No. 220-19. Henry Disston & Sons (Inc.), Tacony, Philadelphia, Pa., hardware supplies.
No. 220-19. Dale Brewster Machinery Co. (Inc.), New York, N. Y., hardware supplies.
No. 220-19. The Griffin Mfg. Co., Erie, Pa., hardware supplies.
No. 220-19. Madison Trading Co. (Inc.), New York, N. Y., hardware supplies.
No. 220-19. Keuffel & Esser Co., Hoboken, N. J., hardware supplies.
No. 220-19. The H. C. Tack Co., Cleveland, Ohio, hardware supplies.
No. 220-19. Simmons Hardware Co., Philadelphia, Pa., hardware supplies.
No. 220-19. Freirich & Mansell, New York, N. Y., sponges.
No. 220-19. Ford Pulley & Hardware Co. (Inc.), New York, N. Y., hardware supplies.
No. 220-19. John Chatillon & Sons, New York, N. Y., hardware supplies.
No. 341-19. Capewell Horse Nail Co., Hartford, Conn., horseshoe nails.
No. 402-19. Georgia Supply Co., Savannah, Ga., gaskets.
No. 414-19. Acme Steel Goods Co., New York, N. Y., box strapping.
No. 416-19. The Holt Mfg. Co., Peoria, Ill., tractor.
No. 316-19. Charles Kurzon, New York, N. Y., hardware.

July 25, 1918.

No. 424-19. Otto Goetze Co., New York, N. Y., jean.
No. 419-19. E. J. Brooks & Co., New York, N. Y., seals.
No. 220-19. Sanson & Rowland, Philadelphia, Pa., screws.
No. 220-19. William H. Devitt, Philadelphia, Pa., paper.
No. 220-19. The Charles Parker Co., Meriden, Conn., screws.
No. 422-19. Joseph N. Snellenburg, Philadelphia, Pa., mattress covers.
No. 420-19. Morris & Co., Chicago, Ill., subsistence.

COTTONSEED-OIL REFINERS TO CONVENE IN WASHINGTON

(Continued from page 10.)

the identical cotton and seed furnished by them. They must keep careful record of seed purchased.

Licensees must not receive more cotton seed or peanuts than they have storage room for, and shall not store on the ground or in such manner that waste occurs. As a measure to conserve oil, it is provided that cotton seed must not be sold for feed or fertilizer without the written consent of the food administrator.

Uniform Market Prices.

In general, no licensee may pay higher prices for cotton seed or peanuts in one market than in another on the same quality of goods.

Cotton seed or peanuts may not be stored in quantity for more than 60 days, excepting that less than 20 tons may be stored as long as necessary for the requirements of the licensee's business. Sales shall be made at reasonable margins over cost, without regard to replacement value. Shipments shall be made in cars loaded to capacity, unless express permission is given in writing by the Federal Food Administrator to ship less. All wasteful practices are forbidden.

Copies of Special License Regulations No. 9 will soon be mailed to all licensees operating cotton gins or oil mills or buying cotton seed.

PHYSICAL RECONSTRUCTION OF DISABLED SOLDIERS.

(Continued from page 13.)

they should have while in the hospital such physical training and general education as will best promote their physical reconstruction and at the same time contribute most to their vocational training. Patients who do not elect or who are not eligible to continue their education under the Federal board should receive such training as the medical and educational officers deem best in each individual case.

RELIEVED FROM DUTY.

Special Orders, No. 169.

238. Lieut. Col. James Totten, Coast Artillery, National Army, is relieved from temporary duty in the military intelligence branch, executive division, General Staff, and will comply with the provisions of paragraph 271, Special Orders No. 116, War Department, May 17, 1918.

No. 423-19. Reiffel & Husted, Chicago, Ill., trumpets.
No. 417-19. F. A. Hardy & Co., Chicago, Ill., goggles.

July 26, 1918.

No. 328-19. Wilson & Co., Inc., New York, N. Y., boxing gloves.
No. 428-19. Donovan Motor Car Co., Boston, Mass., truck.
No. 427-19. Jabez Burns & Sons, New York, N. Y., roasting outfits.
No. 418-19. Edward F. Bracken, Paoli, Pa., lumber.
No. 198-19. American Ring Co., Waterbury, Conn., saddle shields.
No. 198-19. O. B. North & Co., New Haven, Conn., snaps.
No. 198-19. The Eberhard Mfg. Co., Cleveland, Ohio, buckles.
No. 220-19. Knickerbocker Supply Co., New York, N. Y., matches.

PURCHASES AND CONTRACTS TO BE MADE BY THE HARDWARE AND METALS DIVISION OF U. S. ARMY QUARTERMASTER CORPS

The following is a list of purchases and contracts to be made during the coming week by the hardware and metals division of the office of the Quartermaster General of the Army, 1800 Virginia Avenue NW. The executive officers are:

Wm. A. Graham, chief.

Maj. H. J. Arnold, assistant to chief on outside relations (liaison officer).

Maj. H. P. Hill, assistant to chief on inside relations.

Procurement branch No. 1 (metals and heavy hardware), George E. Welles, chief.

Procurement branch No. 2 (small tools and chests), Wm. F. Fusting, chief.

Procurement branch No. 3 (camp and kitchen equipment), W. J. Peck, chief.

Procurement branch No. 4 (office equipment and sundries), G. H. Richards, chief.

Contract and purchase branch, Earl A. Darr, chief.

Production and inspection branch, Capt. Joseph Odlin, chief.

Administrative branch, T. M. Lynch, chief.

Unless otherwise stipulated, formal contract will be made.

PROCUREMENT BRANCH NO. 1, SECTION 1-A.

Bids to Be Submitted on or Before August 3, 1918. A. S. Rogers (Room 422) Buyer.

Manilla rope, No. 1:		
¾-inch	feet	40,000
½-inch	do	70,000
1½-inches	coils of 600 ft	14
¼-inch	pounds	15,000
[illegible]-inch	do	43,000
3½-inch circumference	coils	200
Cotton rope:		
⅝-inch diameter	pounds	7,500
¼-inch diameter	do	10,000
Braided cotton sash cord, No. 6	feet	60,000
Manila yacht rope, bleached, first grade Plymouth or equal:		
¾-inch	feet	5,000
[illegible]-inch	do	4,000
⅝-inch	do	4,000
½-inch	do	1,000
Diggers, post-hole	each	2,110
Twine, 4-ply, jute wrapping	pounds	1,000
Ropes, emergency, for use with one-mule combat carts	each	51,368
Italian hemp twine, No. 24, cable laid, special for thong cords, 33½-inch lengths	pounds	2,000
Hemp twine, No. 60, 5-ply, 1-pound balls	pounds	375
No. 48, 4-ply, ½-pound balls	do	750
No. 24, 4-ply, ½-pound balls	do	1,375

PROCUREMENT BRANCH NO. 2, SECTION 2-A.

Bids to Be Submitted on or Before August 5, 1918. C. L. Butts (Room 110) Buyer.

Steels, butchers'		10,266
Sets, carving	sets	3,806
Knives:		
Bread		5,139
Butcher		20,551
Cleavers		3,946
Forks, carving, meat		5,139
Shears:		
Saddlers', pairs, 9 by 12 inches, pairs		3,806
Tinners' hand, straight 3 by 4½ inches		3,806
Double cut, tinners'	pairs	5,712
Knives, drawing:		
6-inch		253
8-inch		6,341
Screws, cap:		
Fillister head, assorted	gross	760
Square heads, assorted	do	780
Round head, assorted	do	730
Hexagon head, assorted	do	760
Flat head, assorted	do	760

Bids to Be Submitted on or Before August 8, 1918. Mr. J. D. Rennick (Room 106) Buyer.

Clamps, steel, drop-forged:		
6-inch		3,043
4-inch		750
6-inch		342
8-inch		850
12-inch		800

PROCUREMENT BRANCH NO. 2, SECTION —.

Bids to Be Submitted on or Before August 3, 1918. Capt. C. B. Price (Room 428) Buyer.

Wire cutters, model 1918	each	600,000

PROCUREMENT BRANCH NO. 1, SECTION NO. 1-B.

Bids to Be Submitted on or Before August 10, 1918. S. St. J. Eshleman (Room 424) Buyer.

Screws, wood, brass:		
Round head	gross	1,380
Flat head	do	560
Screws, wood, iron, bright, flat head	gross	3,040
Handles, sledge, hammer, model 1912, blueprint Rock Island Arsenal May 26, 1914	each	1,791

PROCUREMENT BRANCH NO. 3, SECTION 3.

W. J. PECK (Room 120) Buyer.

Wicks, oil stove, Perfection, No. 125	each	92,000
Globes, lantern:		
Green	do	12,687
Red	do	12,687
Clear	do	317,148
Blue	do	12,687

PROCUREMENT BRANCH NO. 3, SECTION 3-B.

Bids to Be Submitted on or Before August 7, 1918. J. G. Williams (Room 114) Buyer.

Hose, fire, 2½-inch	feet	100,000
Nozzles, fire, brass	each	500
Kreso dip	barrels	50
Cotton, caulking		500
Burner, thawing	each	6
Balers, rag	do	1
Fire pots, 7-pint	do	200
Torches, gasolene	do	900
Jute, rope	tons	15
Tanks, hand pump, fire	each	100
Scale, platform, 5-tons	do	8
Cans, oil, spring bottom	do	20,000
Cocks, brass, barrel	do	15,000
Bungs, galvanized, flanged	do	15,000
Gaskets, composition	do	75,000
Sterilizers, steam, portable, and stationary	each	150
Boiler, 10 horsepower, vertical	do	1

PROCUREMENT BRANCH NO. 1, SECTION 1-C.

Bids to Be Submitted on or Before August 6, 1918. John Bertram (Room 420) Buyer.

Screws, cap, hexagon-head, S. A. E. thread		247,000
Benders, tire	pieces	209
Rivets, copper, flat-head, taper	pounds	1,400
Nuts, hot-pressed, square-tapped, ½-inch	pieces	49,660
or about	pounds	3,670
Blocks, tackle, iron		1,400
Crow bars, pinch-point:		
12-pound		1,200
25-pound		500

BRANCH AND DISTRICT OFFICES OF INLAND TRAFFIC DIVISION

(Continued from page 12.)

south from Elmira, N. Y., to Harrisburg, Pa., thence on and east of Cumberland Valley R. R., to Maryland State line; New Jersey south of Penna. R. R., Trenton to Sea Girt, comprising Philadelphia and Baltimore Districts; California, Utah, Nevada, and Arizona, comprising San Francisco district; Oregon, Washington, Idaho, and Montana, comprising Seattle district.

Baltimore district.—Maryland; Pennsylvania on and east of line of Cumberland Valley, Maryland State line to Harrisburg; on and west of line, Northern Central Railroad, Harrisburg to Maryland State line, not including Harrisburg.

Norfolk district.—Newport News, Norfolk, Portsmouth, Phoebus, Hampton, Pig Point, Cape Charles, Port Norfolk and vicinity.

Philadelphia district.—Pennsylvania on and east of line of Pennsylvania Railroad running south from Elmira, N. Y., to Harrisburg, Pa., thence east of Northern Central R. R. to Maryland State line; Delaware; New Jersey south of line of Penna. R. R., Trenton to Sea Girt, N. J.

Richmond district.—Virginia, West Virginia east and south of the line from Elkins, W. Va., to Charleston, W. Va., via Coal & Coke Ry.; thence to Kentucky State line via C. & O. Ry., except Newport News, Norfolk, Portsmouth, Phoebus, Hampton, Pig Point, Cape Charles, Port Norfolk and vicinity.

San Francisco district.—California, Nevada, Utah, and Arizona.

Seattle district.—Oregon, Washington, Montana, Idaho.

By authority of the Director of Purchase, Storage, and Traffic.

H. M. Adams,
Chief Inland Traffic Service,
War Department.

PROCUREMENT BRANCH NO. 3, SECTION 3-C.

Bids to Be Submitted on or Before August 8, 1918. W. B. Mitchell (Room 118) Buyer.

Brushes:		
For greasing loaves	each	5,000
tool, sets for sign painting	do	500
bench	do	5,000
Sieves, flour, 13-inch	do	2,550
Openers, can	do	900,000
Graters, tin	do	4,800
Polish, metal, paste or liquid	pints	500
Steamers, for 8-gallon square boilers	each	3,040

PROCUREMENT BRANCH NO. 3, SECTION 3-D.

Bids to Be Submitted on or Before August 10, 1918. M. A. Dunning (Room 122) Buyer.

Machines, sewing, similar and equal to Singer type 31-K-15, foot power, complete, with spare parts for one year	800
Machines, sewing, similar and equal to Singer type 31-K-15 motor power, complete, with double trough power, benches (sectional), each section 47 inches long mounting two (2) machines with necessary shafting treadles, pulleys, etc., and spare parts for one year	200
Two horsepower motors, alternating current 220-volts, 50-cycle, 3-phase with double throw, 3-pole, fuse knife switch	20

Official Bulletin

PUBLISHED DAILY under order of THE PRESIDENT of THE UNITED STATES by COMMITTEE on PUBLIC INFORMATION
GEORGE CREEL, Chairman ★ ★ ★ COMPLETE Record of U. S. GOVERNMENT Activities

VOL. 2 WASHINGTON, FRIDAY, AUGUST 2, 1918. No. 376

ALL PHYSICALLY FIT MEN IN THE ORDNANCE SERVICE ORDERED FOR FIELD DUTY

EXAMINATIONS TO BEGIN AT ONCE

Overseas Assignment for Those Qualified Except Workers in Arsenals and Proving Grounds—Result of "Man Power" Policy.

The War Department authorizes the following from the Ordnance Department:

In accordance with the War Department's man-power policy, an order has been issued by the Chief of Ordnance, restricting service in the Ordnance Department in Washington and at ordnance depots and contract plants in the United States to men physically disqualified for general military service.

Men physically and otherwise fit for general military service are no longer to be enlisted or inducted into the military service for duty with the Ordnance Department in Washington or at ordnance depots and contract plants in the United States. Exception is made in the case of arsenals and proving grounds.

Releases for Field Service.

Men of this class already in the service and on duty in Washington or at ordnance depots and contract plants in the United States, excepting arsenals and proving grounds, are to be released as soon as possible for active field duty in the Ordnance Department. Thus the Ordnance Department will make use of every man properly qualified for field service. This will mean service overseas. The ordnance service overseas, which includes the supply of ammunition and fighting equipment to the Army, as well as the maintenance of such equipment, is officially designated as the service of support.

Detachment commanders in the Ordnance Department in command of en-

Portuguese Bark Sunk By Submarine 550 Miles Off the American Coast

The Navy Department has received information that the Portuguese bark *Porto* was sunk by an enemy submarine at sea, about 550 miles off the American coast, on July 27. Eighteen survivors, the entire crew, were landed to-day by a British steamer at an American port.

The vessel was carrying cotton from Savannah, Ga., to Oporto, and was sunk by bombs placed aboard by the submarine crew.

Broadens His Request That Newspapers Print No Details Concerning The Movement of Ships

Secretary Daniels makes the following request:

To the press in America:

I issued a request to the press in America on July 6, 1918, to eliminate any mention, either in the advertising or news columns, of the sailing, or departure, or location, or supposed location, of any ship in American waters.

I am very happy to say that there has been hearty and complete compliance with this request, and that the cooperation of the press has aided the Navy Department greatly in its work.

Experience, however, has demonstrated the fact that the request should not have been limited to American waters, and that the publication of the sailing, departure, location, and movements of ships in foreign waters is also dangerous and should not be made. I am, therefore, amending my request by adding "or in other waters." The amended request is as follows:

"The appearance of submarines on the Atlantic coast makes it imperative that no mention should be made in any newspaper, either in the advertising or news columns, of the sailing or departure, or location, or supposed location, of any ship in American or other waters.

"This information conveyed by advertising is as dangerous as in the news columns, and I am making this request to all the newspapers in the country in the assurance that they will cooperate with the Government in its efforts to prevent any information about ships reaching submarines which may be off the Atlantic coast."

JOSEPHUS DANIELS,
Secretary of the Navy.

Official Bulletin Index

An index for the Official Bulletin for the first six months of 1918 has been prepared and may be had on application to this office. An index for each month hereafter will be printed in an early issue of the Bulletin after the close of that month.

SHIPPING BOARD SURVEY BEGUN TO ELIMINATE NONESSENTIAL EMPLOYEES WITHIN DRAFT AGE

GENERAL ORDER DEFINING STATUS

Every Man Concerned Required to Make Statement Regarding Liability to Service as Basis for Action in Applications for Exemption.

The United States Shipping Board issues the following:

The United States Shipping Board Emergency Fleet Corporation, desiring to limit to the minimum the number of its employees within the draft age, has issued a general order entitled "Military liability and status of the employees of the corporation."

Statement by Mr. Coonley.

Howard Coonley, vice president of the corporation, made the following prefatory statement to the order: "The officers of the United States Shipping Board Emergency Fleet Corporation feel that they should ask for exemption for those individuals only who have special experience and ability which makes them essential to the successful carrying out of the shipbuilding program.

"In such cases the officials take the position that it is the duty of the individual to subordinate a natural desire for active service at the front to greater service which he can render in the shipbuilding program. It is, therefore, his patriotic duty to be governed by our judgment in the matter. In cases other than these it is felt that the greatest national good can be rendered by entering the military service."

Text of the Order.

The order reads as follows: "Every man in the employ of the United States Shipping Board Emergency Fleet Corporation who is or has been within the draft, regardless of whether he has been exempted therefrom, placed in deferred classification therein, or been granted delay in induction into service, is hereby required to fill in, sign, and forward to Howard Coonley, vice president, at Room No. 1018, No. 140 North Broad Street, before August 10, 1918, a statement on the blank form entitled Personnel __, Form __, Statement of military liability and status.

"The blank forms can be obtained from the head of each division and section.

"Hereafter no application for 'Emergency Fleet listing' or deferred classification in draft or for delay of induction into military service shall be made on behalf of any draftee by any individual employed by the United States Shipping Board Emergency Fleet Corporation upon the ground that such draftee is an official

or employee of the Emergency Fleet Corporation except as hereinafter provided.

"On or before August 12 the vice president will transmit the various statements of 'military liability and status' which will then have been filed with the vice president as required by the first paragraph of this order, to the head of the respective divisions and sections by whom the men of draft age are employed. The head of each division and section shall then promptly determine and notify the vice president in writing, which, if any, of the men whose names have been so furnished him by the vice president can not be released for military service without retarding ship production, and submit with such notification a brief of the supporting facts.

"The Vice President may then, in his discretion, acting in the interest of the United States, notify such men in writing that from the national point of view it is their apparent duty to remain in the service of this corporation rather than to enter military service, and in such cases will direct the head of the division or section to file application for 'Emergency Fleet listing' or deferred classification of such men.

National Viewpoint to Rule.

"The United States Shipping Board Emergency Fleet Corporation will not aid any draftee to secure at his own instance 'Emergency Fleet listing' deferred classification in the draft, or any delay of induction into military service.

"When the United States Shipping Board Emergency Fleet Corporation seeks 'Emergency Fleet listing' deferred classification in draft, or delay in induction into military service for a draftee, it is to be clearly understood that such request will be confined to cases where the qualifications of, and services which are being rendered by, the draftees are, from the national viewpoint, more essential for ship production than for military service."

CREW STOOD BY THEIR GUNS AFTER SHIP WAS TORPEDOED

The Committee on Public Information issues the following:

Secretary Daniels has commended Zelmar Bailey, chief boatswain's mate, United States Navy, for the manner in which the armed guard under his command conducted itself following the torpedoing of the steamship *Argonaut*, June 5, 1918.

The gun crew stood at their stations for 40 minutes after the torpedo hit the vessel in the hope that the submarine would come up, and Bailey and the gun crew did not leave the ship until she was about to sink.

The Navy Department, through Chief Boatswain's Mate Bailey, has conveyed its appreciation to all the members of the gun crew for the manner in which they conducted themselves.

Bailey enlisted at Detroit, Mich., September 29, 1915. Next of kin, Mary M. Rhodes, Union City, Mich.

Rescued Drowning Woman.

Secretary Daniels has commended J. E. Dowty, seaman, second class, United States Naval Reserve Force, for his gallantry in jumping into San Francisco Bay, July 8, 1918, into oil-covered water and rescuing from drowning a Japanese woman who had fallen overboard from a steamer. Dowty enlisted at San Francisco, July 10, 1917. Next of kin, Mary E. Dowty, Fall City, Nebr.

Saved His Shipmate.

J. Valdez, ship's cook, first class, United States Navy, has been commended for his promptness and presence of mind in jumping overboard on the morning of June 20, 1918, and rescuing a shipmate from drowning. Valdez enlisted at Los Angeles, Cal., October 19, 1916. Next of kin, Susie Valdez, San Bernardino, Cal.

ATHLETIC MATERIAL PURCHASED FOR MEN AT TRAINING CAMPS

The War Department authorizes the following from the War Department Commission on Training Camp Activities:

Athletic material sufficient to supply 1,750 companies, or 125 complete regiments, has been purchased by the War Department Commission on Training Camp Activities, an appropriation of $250,000 having been obtained for this purpose.

Items in the Supplies.

The supplies, for which the War Department through the commission invited bids, included the following items: 17,500 sets of boxing gloves, 7,000 baseball bats, 21,100 baseballs, 3,500 playground baseball bats, 10,500 playground balls, 3,000 Rugby footballs, 7,000 soccer footballs, 3,500 volley balls, and 1,750 medicine balls.

Allotment of the material to the various training camps is being made, and much of the equipment has already been distributed.

As part of the commission's campaign to raise funds for the purchase of athletic equipment for the camps, it is announced that with the sum of $3,600 obtained from the United States National Lawn Tennis Association the commission has purchased and distributed 1,050 tennis rackets, 220 nets, and 2,700 balls.

Match Games Planned.

Arrangements have been made with a national baseball organization, composed of business men who have interested themselves in baseball as a sport rather than a money-making proposition, to put on a limited number of outside games in the various large cities of the country, in which camp teams will be matched against civilian amateur or semiprofessional clubs. All proceeds from the games will be turned over to the commission's athletic fund.

Need 25,000 Young Women

The country needs 25,000 young women between the ages of 19 and 35 to enroll in the United States Student Nurse Reserve. Apply at the nearest recruiting station established by the Woman's Committee of the Council of National Defense.

NO GOVERNMENT ORDER ISSUED ON HOURS FOR GASOLINE SALES

The Fuel Administration issues the following:

The attention of the War Industries Board and of the United States Fuel Administration has been called to the wide prevalence throughout the United States of a mistaken impression that some order or recommendation has been issued from Washington with respect to the sale of oil and gasoline. In some places, local automobile dealers' associations have even issued circulars laying down the rule that dealers in oil and gasoline must make no sale of these products on Sundays and holidays or after 6 p. m. on other days, and stating "it is now an order from Washington."

No Governmental Order.

No such order or recommendation has been issued by any governmental authority or with any governmental approval. The Fuel Administration has urged that wasteful practices in the use of oil and gasoline shall be stopped and all reasonable and proper measures of conservation shall be observed. No limitations, however, have been placed upon the sale of these products.

No Interference Intended.

It is not intended to interfere in any way with the activities of automobile dealers' associations or others who, after consideration of the local conditions, may seek to bring about some limitation upon the hours during which oil and gasoline shall be sold to the public; but it is desired that it be clearly understood that no orders or recommendations have been issued by any governmental authority upon this subject.

MINE "HEROES OF THE PICK" PRAISED BY SECRETARY BAKER

The Fuel Administration issues the following:

Secretary of War Newton D. Baker, deeply impressed with the patriotic spirit manifested by the 150 mine workers of Mercer County, Pa., who, though retired on account of age, went back to work as soon as they learned of the country's vital need for more coal, wrote a letter of appreciation to United States Fuel Administrator Harry A. Garfield. He wrote:

WAR DEPARTMENT,
Washington, July 30, 1918.

MY DEAR MR. GARFIELD: I was greatly impressed when I learned recently about 150 retired miners in Mercer County, Pa., recognizing the Nation's urgent need of increased fuel, had volunteered to go back to the mines and serve their country there.

This is the spirit which free and liberal government always engenders and which insures the triumphs of our arms and aims. I should like, through you, to send a personal greeting to these heroes of the pick.

NEWTON D. BAKER,
Secretary of War.

More and more the operators and mine workers are coming to realize the force of President's Wilson's statement that "the work of the world wait on them."

INCREASE IN NAVY SUBSISTENCE ALLOWANCE IS AUTHORIZED

Secretary Daniels Announces Step to Meet the Higher Cost of Living.

Secretary Daniels announces that to meet the increase in the cost of living the subsistence allowance for the enlisted and enrolled personnel of the Regular Navy and Naval Reserve Force has been increased, the following circular letter having been sent out to all ships and stations by the Bureau of Navigation:

Circular Letter.

1. Beginning August 1, 1918, subsistence for enlisted and enrolled personnel is authorized as follows:

(a) For persons on duty at shore stations or on detached duty from vessels or shore stations, for whom neither quarters or messing facilities are available, $2 per day. (Not authorized for any person lodged or subsisted to any extent at Government expense.)

(b) For enlisted and enrolled persons attached to traveling recruiting parties, $3 per day.

(c) For enlisted or enrolled persons on detached duty at stations at which there are quarters and facilities for messing together, and at which the total number does not exceed 25, $1 per day.

(d) For enlisted or enrolled persons on duty at temporary stations or stations just being established at which there are quarters and facilities for messing together and at which the number is less than 100, 75 cents per day. No station will be considered temporary that has been organized for a longer period than three months. At all permanent stations and at stations that may hereafter assume a permanent status and to which no supply officer is attached, at which the total number exceeds 25, regular messes will be established and the men will be subsisted in accordance with instructions contained in Article I-4549, the ration allowance under these instructions being 55 cents per man per day for complements less than 35 and 50 cents per man per day when in excess of 35.

(e) At permanent stations where there is a supply officer and where a general mess is established with a complement in excess of 100 the Navy ration in kind will be issued.

(f) All cases of enlisted men not covered by subparagraphs (a), (b), (c), (d), and (e), for whom subsistence is desired owing to lack of suitable quarters, shall be referred to the bureau.

(g) Allowances heretofore authorized since March 12, 1918, in excess of the above, for men ashore in Europe, South America, Alaska, Canal Zone, and Philippine Islands, remain effective.

2. This letter is a revision of the bureau's Circular Letter 54-18 of March 12, 1918, which letter is canceled and supercedes all previous instructions on the subject of subsistence for the enlisted and enrolled personnel of the regular Navy and Naval Reserve Force on detached duty.

No trouble to buy, cheap, convenient, a real investment—WAR-SAVINGS STAMPS.

War Department Authorizes $250,000 As Its Share With Navy in Cost of Improving Charleston Water System

The War Department authorizes the following statement:

As its share of the total cost for necessary additions to the Charleston, S. C., waterworks to fit it to meet the growing demands of the Army and Navy, the War Department has authorized the spending of $250,000. The Navy Department has signified its willingness to join the War Department in an equal sharing of the cost.

City of Charleston's Offer.

Under the terms of a contract the commissioners of public works of the city of Charleston propose to reimburse the Government for 75 per cent of the total cost of such additions by deducting 50 per cent from the total charge on monthly bills to be rendered and applying such deduction to the payment to the Government of the agreed purchase price of such additions.

Additions Made Necessary.

The large additions to the Army and Navy activities in the territory supplied by the waterworks system of the city made necessary extensive additions to the present plant. The city could not make the additions at its own expense and asked the cooperation of the Government. An investigation was made of the condition of the works, and it was upon the report received that the appropriations were agreed on.

5,586 STUDENTS SELECTED FOR TECHNICAL TRAINING

The Provost Marshal General's Office authorizes the following:

For education in general military service, under the order designating men of the draft age on the selected rolls, who are at least grammar-school graduates, 5,506 have been apportioned among the following institutions for technical training, entrainment being fixed for August 15:

California: Agricultural College of Utah, Logan, Utah	207
Colorado: Colorado Agricultural College, St. Collins, Colo	237
Delaware: Bliss Electric School, Takoma Park, D. C	50
Florida: University of Florida, Gainesville, Fla	150
Georgia: University of Florida, Gainesville, Fla	190
Idaho: University of Idaho, Moscow, Idaho	103
Illinois: Northwestern University, Evanston, Ill	206
Iowa: Des Moines College, Des Moines, Iowa	206
Kentucky (colored): Branch Normal School	175
Louisiana: Louisiana State University, Baton Rouge, La	164
Maryland: Georgia School of Technology, Atlanta, Ga	290
Michigan: Michigan School of Mines, Houghton, Mich	206
Mississippi (colored): Western University, Quindaro, Kans	103
Nebraska: Agricultural College of Utah, Logan, Utah	145
Nevada: University of Nevada, Reno, Nev	103
New Jersey: Pennsylvania State College, State College, Pa	206
New York:	
Clarkson Institute of Technology, Potsdam, N. Y	190
Syracuse University, Syracuse, N. Y	154
Cornell University, Ithaca, N. Y	370
Oklahoma:	
Arkansas University, Fayetteville, Ark	309
Oklahoma University, Norman, Okla	154
Oregon: Benson Polytechnic Institute, Portland, Oreg	303
Pennsylvania: Lafayette College, Easton, Pa	412
Rhode Island: Bliss Electric School, Takoma Park, D. C	156
Utah: Utah University, Salt Lake City	450
Washington: Oregon Agricultural College, Corvallis, Oreg	247
Total	5,506

SCHWAB AND HURLEY REQUEST MORE STEEL FOR SHIPBUILDING

The War Industries Board authorizes the following:

At a meeting of the War Industries Board Charles M. Schwab, Director General of the Emergency Fleet Corporation, and Edward N. Hurley, chairman of the United States Shipping Board, made a request for an additional allowance of steel plates to carry out the Government's shipbuilding program.

In addition to an amount of about 50,000 tons of plates per week, regularly furnished for shipbuilding purposes, Mr. Schwab asked for the delivery of an extra 10,000 tons a week during the next three months to serve as a reserve during the winter period.

The War Industries Board will consider the request with a view to supplying as much of the amount asked as possible, in view of the constantly increasing demands for steel from the other departments of the Government.

JOIN FOOD ADMINISTRATION.

Dr. Dodson and E. S. Brigham on National Headquarters Staff.

The Food Administration issues the following:

Dr. W. R. Dodson, dean of the College of Agriculture of the University of Louisiana, and E. S. Brigham, commissioner of dairying of Vermont, are new members of the Food Administration staff in Washington. Dr. Dodson has charge of problems of interest to both the Food Administration and the Department of Agriculture. Mr. Brigham will head the butter and cheese section.

Dean H. L. Russell of the College of Agriculture of the University of Wisconsin, who has rendered exceptional service to the Food Administration in the capacities which Dr. Dodson and Mr. Brigham now assume, has been recalled to Wisconsin by pressing duties at the University.

Give up your luxuries that the Kaiser may be made to give up his ambitions.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor.*

RATES BY MAIL.

Daily	One year	$5.00
	Six months	3.00

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

366,392 War Animals Purchased for the Army

The War Department authorizes the following:

The number of animals purchased by the Remount Division of the Quartermaster Corps from the beginning of the war, April 6, 1917, to July 15, 1918, is as follows:

	Horses.	Mules.	Total.
United States:			
Mature	174,676	123,640	298,316
Young	4,238	-------	4,238
France	58,093	5,745	63,838
Total	237,007,	129,385	366,392

Articles of Clothing for Army Delivered Since April 1st, 1917

The War Department authorizes the following:

The latest statistical report of the Clothing and Equipage Division of the Quartermaster Corps shows that there have been delivered from April 1, 1917, to date 4,373,000 pairs of spiral puttees, 55,958,000 pairs of woolen stockings, 10,507,000 pairs of woolen breeches, 8,069,000 woolen coats, and 5,377,000 overcoats.

In the week ended July 20, 191,000 over-seas caps were delivered.

MESS ATTENDANT DROWNED.

The Navy Department is informed that William M. T. Beckley, mess attendant, first class, United States Navy, fell overboard from the U. S. S. *Ozark* at 9.30 p. m. July 25, and was drowned. The body was not recovered. Wife, Elizabeth Beckley, 306 Mero Street, Frankfort, Ky.

American Official Communique on Operations of U. S. Forces

The following is authorized by the Secretary of War:

American Official Communique No. 78.

HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES,
July 31, 1918.

Section A.—Last night on the line of the Ourcq the enemy again renewed his counterattacks. In the region of Seringas Et Nesles assaulting parties which temporarily penetrated our lines were cut off by our machine-gun fire and their members killed, wounded, or captured. Southwest of the Bois Menuniere our troops, after severe bayonet fighting, drove the enemy before them into the woods. We have taken the Bois De and have reached the Village of Coerges.

In Lorraine and in Alsace hostile raiding parties were repulsed with loss.

Section B.—The following is a translation of an order from German great headquarters, transmitted by the first army to the Schemettow Corps, June 10, 1918:

"In order to hinder the formation of an American Army in France, it is important that the American troops engaged along the front be struck as hard as possible. It is intended to use these troops as a nucleus for new formations.

"LUDENDORF."

Mr. Wilson Felicitates President of Honduras on Entrance Into War

The following message has been sent to the President of Honduras through the American legation at Tegucigalpa:

"May I not express to you the deep gratification felt by the Government and people of the United States that our sister Republic, Honduras, should have aligned herself with the United States of America and the many great governments throughout the world which have arrayed themselves against Germany to fight for the freedom of mankind.

"WOODROW WILSON."

FIELD DUTY IS ORDERED FOR ALL FIT MEN IN ORDNANCE

(Continued from page 1.)

listed units have been instructed to have all enlisted men of their commands physically examined in order that their military and combat fitness may be determined. Men will be divided into three classes—the first class to consist of those physically, mentally, and morally acceptable for any character of general military services; the second class, satisfactory for domestic and any but the heaviest combat service overseas; and the third class, available for limited domestic service. All men of the first rating on duty in Washington or at Ordnance depots or contract plants in the United States, excepting arsenals and proving grounds, will be replaced as quickly as possible by men of the second and third ratings. The men of the first class will, in every service, be given active field duty in the Ordnance Department.

Examinations Start at Once.

Examinations of the enlisted personnel of the department, in conformity with this order, will start immediately, and arrangements are already being made for the substitution of limited-service men at various ordnance plants in the United States. For example, arrangements have been made at the Woodbury Bag-Loading Plant, Woodbury, N. J., for housing and maintaining a guard of 300 privates of the limited-service class from Governor's Island, New York.

As part of the general policy of releasing man power wherever possible for service with the Army in the field the Ordnance Department is substituting girls for the male messengers formerly employed in the Ordnance buildings in Washington as part of the civilian personnel.

President Sends Greeting to the Swiss Republic on the National Holiday

The following telegram has been sent:

"THE WHITE HOUSE,
"*July 31, 1918.*

"HIS EXCELLENCY,
"PRESIDENT SWISS FEDERATION,
"*Berne:*

"On the national holiday of your country I take pleasure in sending you greetings from the people of the United States. The Swiss Confederation and the American Federal Government are the two oldest Republics in the world. Their present friendship is but the natural result of the relations which have always existed between them and which it will be our desire and constant effort to continue.

"I take this opportunity to express to your Excellency my personal esteem.

"WOODROW WILSON."

HOUSING FOR 600 FAMILIES.

New York Firm Awarded Contract for Bridgeport (Conn.) Buildings.

The Department of Labor authorizes the following:

The Bureau of Industrial Housing and Transportation announces that the Cauldwell Wingate Co., 381 Fourth Avenue, New York City, has been awarded the contract for the construction of apartments and houses at Bridgeport, Conn., which will provide accommodations for 600 families.

PROCEEDINGS OF THE CONGRESS BRIEFLY TOLD

The Ways and Means Committee yesterday voted to double the existing taxes on capital stock of corporations, brokers, theaters, and other places of amusement and on the manufacturers of tobacco. A new tax was put on shooting galleries. Another new tax tentatively agreed upon is 1 per cent on the retail sales of mail order houses doing a business of $100,000 or over, a tax of 10 per cent on the sale of seats of stock, produce, and grain exchanges, and a tax of 20 per cent on the dues or fees paid by all members of such associations. The committee estimated that the taxes decided upon yesterday, in addition to those on gasoline, automobiles and trucks, motorcycles, admissions, etc., previously agreed upon, will yield approximately $1,000,000,000. At the suggestion of the Railroad Administration for the purpose of simplifying the scrip and mileage books soon to be issued, the 10 per cent tax on Pullman seats and berths was reduced to 8 per cent to conform to the rate on passenger fares. Existing stamp taxes on deeds, notes, and other negotiable instruments will remain as in the present war revenue law. A proposal to impose a tax of $3 a bale on cotton and $5 a head on dogs was rejected.

For Department of Aeronautics.

Senator New, of Indiana, introduced a bill to create a department of aeronautics under the direction of a Cabinet officer. Its text is as follows:

"Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled—

"SECTION 1. That there is hereby created for the period of the present war and for one year thereafter an executive department in the Government of the United States, to be known as the department of aeronautics, the head of which shall be designated the secretary of aeronautics, who shall be appointed by the President and confirmed by the Senate. He shall be a member of the Cabinet and shall receive a salary of $12,000 per year. The secretary of aeronautics shall have direct and complete control of all matters pertaining to the designing, purchase, manufacture, and production of aircraft and aircraft equipment intended for the use of the Army, the Navy, and the Marine Corps of the United States.

"SEC. 2. The department shall also have an assistant secretary, who shall be appointed by the President and confirmed by the Senate, who shall receive a salary of $5,000 a year; and such other officers and employees as may be found necessary for the proper and efficient transaction of the business of the department.

"SEC. 3. The unexpended balance of such appropriations as may have hitherto been made for the purchase and manufacture of aircraft and aircraft equipment, and all appropriations which may hereafter be made for such purpose shall be available for the purposes of the department."

Warns of German "Kultur."

During discussion in the Senate yesterday afternoon, Senator Borah, of Idaho, delivered a speech warning the country that steps should be taken to make it forever impossible in the future for German "kultur" through German organizations to have any influence upon the citizenship of this country. He said that the great mass of German citizens, if permitted to go their own way, would become amalgamated and make good Americans.

The control and management of the railroads by the Government was up for discussion yesterday in the Senate. Senator Pittman, of Nevada, praised Government operations of the roads. Senator Smoot, of Utah, condemned the service, but applauded the people for "putting up with it." Senator Johnson, of California, spoke briefly in support of Government ownership, but said that the present service should not be accepted as the measure of permanent Government control.

CAMPAIGN TO CONSERVE CHAIN TAKEN UP AS A WAR MEASURE

The War Industries Board authorizes the following:

A campaign of education for the conservation of chain to be carried out with the public through recognized effective trade channels is planned by the war service committee of the chain manufacturers. The uses of chain are varied and many and the war needs of steel and iron are imperative and increasing.

Decided as War Measure.

Decision to take this step as a war measure followed conferences by the war service committee, with John C. Schmidt, chief of the chain section of the War Industries Board; A. W. Shaw, chairman of the conservation division; and A. J. M. Baker, of the priorities division. A number of items leading to conservation were presented to the committee for examination and consideration to be followed by a report and recommendations.

The committee discussed with Mr. Baker questions of requirements for priority which will be sought by the chain manufacturers in the production of essential chain.

Members of Committee.

Members of the committee are: C. M. Power, of the American Chain Co., New York; Staunton B. Peck, of the Link-Belt Co., Philadelphia; and A. B. Way, of the Bridgeport Chain Co., Bridgeport, Conn.

Machine Guns to Train Reserve Corps Officers

The War Department authorizes the following from the Ordnance Department:

Student members of the United States Reserve Officers' Training Corps units at schools and colleges are to be given practical training in the use of standard American machine guns.

A total of 50 light Browning (automatic rifles) and 25 heavy Browning machine guns has been set aside for this purpose.

Luxuries as usual means a victorious Germany. Save and buy war-savings stamps.

SUCCESS OF AIR MAIL SERVICE IN ALL WEATHER CONDITIONS

The Post Office Department authorizes the following:

The Air Mail Service furnished another demonstration on August 1 of the practicability of making air flights in all sorts of weather. Lieut. Killgore left Philadelphia at 1.25 p. m. in a severe rainstorm, flying the entire distance through a blinding rain which obscured all visibility, reached Washington on schedule time—3 p. m. After leaving Philadelphia Lieut. Killgore broke his goggles and was compelled to fly the entire distance without protection to his eyes. He flew at the height of about 1,500 feet, and the rain and wind encountered was very heavy all the way. He was compelled to fly by compass and the guidance of judgment acquired from the experience of frequent flights over the route.

Regarded With Satisfaction.

The success of the air-mail pilots in flying through the storms which destroy all visibility of landmarks and subject them to the influences of heavy winds is regarded with great satisfaction by the Post Office Department. The ability of the pilots to fly regardless of weather is of more importance to the service than the accomplishment of extraordinary feats of speed under favorable conditions, as upon the regularity of the service rests its practical dependability at all times.

To start with flights through storms was regarded with some apprehension lest the regularity of the service should be hampered by weather conditions. During the past two months several very severe storms have been encountered by the postal airmen, yet every flight undertaken through a storm has been successful, and that of Lieut. Killgore was made without loss of time.

Air Service in Winter.

The greatest service to business which the Post Office Department expects from the Air Mail Service in wintertime will be the keeping open the lines of written communication during those distressing periods following blizzards when railroads are frozen up or snowed in for days.

CONTRACTS FOR 36 VESSELS LET BY THE SHIPPING BOARD

The United States Shipping Board Emergency Fleet Corporation announces that 26 steel cargo vessels and 10 tugboats were contracted for during the week ending July 27.

Included in the contracts were the four 10,000-ton steel cargo vessels to be built in China by the Kianguan Dock & Engineering Works, Shanghai, China. The other contracts were placed as follows: Eight 8,800-ton steel cargo vessels, Long Beach Shipbuilding Co., Long Beach, Cal.; fourteen 8,800-ton steel cargo vessels, Ames Shipbuilding & Dry Dock Co., Seattle, Wash.; six steel tugs, ocean-going, Northwest Engineering Works, Green Bay, Wis.; and four wood tugs, Harbor Northwest Engineering Works, Green Bay, Wis.

A war saver is a life-saver.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	42
Died of Wounds	48
Died of disease	7
Died from accident and other causes	7
Wounded severely	126
Wounded (degree undetermined)	2
Missing in action	6
Total	238

Killed in Action.

Capt. Walter McCauley Gearty. Mrs. Walter M. Gearty, 2558 North Hutchinson Street, Philadelphia, Pa.

LIEUTENANTS.

Merritt Dunbar. Mrs. Emma Ramsey, Walnut, N. C.

Charles W. W. Field. Mrs. Emily D. Field, North Windham, Me.

Herbert K. Jones. H. Llewelyn Jones, Meade, Kans.

James Aaron Pigue. Mrs. James A. Pigue, 2017 Belmont Street, Nashville, Tenn.

Joseph Clovis Smith. Mrs. A. J. Smith, 128 Rugby Avenue, Rochester, N. Y.

Robert H. Turner. Mrs. Lily Presnell Turner, Statesville, N. C.

SERGEANTS.

Jerry J. Driscoll. Jerry Driscoll, Clifton Springs, N. Y.

Henry U. Kiernan. Joseph F. Kiernan, Avenue T, Sheepshead Bay, Brooklyn, N. Y.

Henry T. Newman. August Newman, 26 Flower Street, South Manchester, Conn.

Angel G. Pappas. John G. Pappas, Box 17, Ipswich, Mass.

Edward K. Stofflet. Mrs. Elizabeth E. Stofflet, Box 145, Alburtis, Lehigh County, Pa.

CORPORALS.

Harrison Garfield Hayes. Glen M. Hayes, 408 Clifford Street, Flint, Mich.

James Muller. Miss Ethel P. States, Tennis Avenue, Andalusia, Pa.

Bugler Robert Porcelli. Tony Porcelli, 134 Grove Street, Fayetteville, N. C.

PRIVATES.

Walter P. Atkins. Mrs. Annie Atkins, 1008 Fifth Avenue, New Brighton, Pa.

Bartholomeo Auito. Toney Auito, 337 East Congress Street, Detroit, Mich.

Ernest D. Bannister. Miss Clara A. Bannister, R. F. D. No. 8, Cumming, Ga.

William J. Bauhof. Mrs. Josephine Bauhof, 2862 Banberry Street, Philadelphia, Pa.

John C. Bolton. Mrs. S. F. Bolton, 116 East Liberty Street, Schuylkill Haven, Pa.

Everett J. Bushweller. John F. Bushweller, 630 Fourth Street, Dunmore, Pa.

Samuel W. Forman. Mrs. Loretta Forman, 438 Thirty-seventh Street, Brooklyn, N. Y.

Milton D. Fulghum. Mrs. Ella J. Fulghum, 321 Fourth Avenue NW., Watertown, S. Dak.

James E. Kane, jr. James E. Kane, sr., 458 West Seventeenth Street, New York, N. Y.

Richard Kopplin, jr. Richard Kopplin, sr., 517 Ridge Avenue, Webster Groves, Mo.

Frank Kutch. John Kutch, 512 East Arch Street, Pottsville, Pa.

John H. Leach. James C. Leach, R. F. D. No. 13, Charlestown, W. Va.

Joseph Levanovitch. Mrs. Mary Levanovitch, 138 West Lyon Street, Olyphant, Pa.

Carl Link. Edd Link, Thomasville, N. C.

Floyd D. McGee. Frank B. McGee, 1541 South Nineteenth Street, Lincoln, Nebr.

George Maxfield. Mrs. Clara Maxfield, 210 North Main Street, Rochester, N. H.

Elic C. Monger. Arch Monger, R. F. D. No. 2, Caney, Kans.

Amos W. Morris. Mrs. Matilda Morris, 128 Lewis Street, Minersville, Pa.

Albert M. Mullerschoen. Mrs. Nettie Mullerschoen, 1622 Butler Street, Philadelphia, Pa.

Francis E. O'Neill. Mrs. Charles O'Neill, 1654 North Allison Street, Philadelphia, Pa.

Return to Civil Service After Military Service

EXECUTIVE ORDER.

A person leaving the classified civil service to engage in the military or naval service of the Government during the present war with Germany and who has been honorably discharged may be reinstated in the civil service at any time within five years after his discharge, provided that at the time of reinstatement he has the required fitness to perform the duties of the position to which reinstatement is sought.

WOODROW WILSON.

THE WHITE HOUSE,
July 18, 1918.

Hezekiah S. Porter. Whitney S. Porter, Higganum, Conn.

John E. Rabineau. Mrs. Josephine B. Rabineau, 1909 West Main Street, Richmond, Va.

Russ R. Richardson. Mrs. Lillie Richardson, 1442 O'Ferrell Street, San Francisco, Cal.

William H. Rotan. George A. Rotan, Washington Road and Thirteenth Street, Baltimore, Md.

Harvey C. Wayne. Mrs. Victoria Damemberger, Custer, Ill.

Clarence Wohlfeld. Morris Wohfeld, South East Street, Frankfort, Ind.

George Younginger. Mrs. Albert Younginger, 44 Wilson Place, Belleville, N. J.

Died of Wounds.

Maj. Louis Farrell. Mrs. Louis Farrell, Fort Snelling, Minn.

CAPTAINS.

Roscius H. Back. Judge R. H. Back, 510 East Eighteenth Street, Vancouver, Wash.

James D. Basey. Mrs. James D. Basey, Tyron, N. C.

LIEUTENANTS.

Herman E. Bonsall. Mrs. Laura M. Bonsall, 346 Fifth Avenue, Parnassus, Pa.

Elliott B. Clark. Edwin Clark, Weldon, N. C.

Alfred P. Conover. Mrs. Alfred P. Conover, Atlantic Street, Keyport, N. J.

Charles A. Lewis. Mrs. Charles A. Lewis, 912 Adams Street, Birmingham, Ala.

Sergt. John Suba. John Suba, Indian Harbor, Ind.

CORPORALS.

Berdan J. Kenison. W. R. Kenison, R. F. D., Sebago Lake, Me.

Carl McGlothen. F. M. McGlothen, Sheldon, Iowa.

Edward L. Mann. Eugene Mann, 642 High Street, Holyoke, Mass.

Charles J. Regan. Mrs. Mary E. Regan, 88 Ferrin Street, Charlestown, Mass.

Harry H. Sherman. Fred Sherman, 106 North Street, Calais, Me.

Clarence Sowersby. Mrs. Lulu Sowersby, Box 37, New Troy, Mich.

PRIVATES.

William B. Ackles. Clifton Ackles, R. F. D. No. 3, Red Oak, Iowa.

Francis Allie. Mrs. J. J. Allie, 5219 Ramsey Street, West Duluth, Minn.

Antonio Anoefriata. Congetia Ni Coloza, 138 Common Street, Lawrence, Mass.

Clark W. Ash. Mrs. Katie Ash, Montborne, Wash.

Russell Benjamin. Charles Rice, 15 Nesmith Street, Derry Village, N. H.

Samuel Benson. Mrs. Mary Laukaski, 190 Steenvay Avenue, Long Island City, N. Y.

Frank Berkofski. John Kolivinski, Eynon, Pa.

Warren Black. James Emmett Black, 1215 South Hickory Street, Ottawa, Kans.

Arthur Brooks. Mrs. Mary Brooks, 9 Tannery Yard, North Adams, Mass.

Clarence Emett Brown. Harry Sanders, 212 West Main Street, Lebanon, Ind.

William J. Callahan. Mrs. E. I. Callahan, 27 Rock Street, Woburn, Mass.

Lee Coleman. Mildred Coleman, Petersburg, Ind.

Willie H. Collins. William H. Collins, R. F. D. A, Cairo, Ga.

Stuart Logan Cummings. Mrs. Georgia Cummings, 505 Holton Street, Carnegie, Pa.

Ary A. Duke. Mrs. E. L. Duke, Dozier, Ala.

John M. Fitzpatrick. Mrs. L. J. Fitzpatrick, 6 Jerome Street, Somerville, Mass.

John M. Flanagan. Mrs. John Flanagan, 110 Park Street, Bristol, Conn.

Emil F. Geliske. Fred Geliske, R. F. D. No. 2, Kingston, Mich.

Charles Lanzner. Joseph Lanzner, 1015 Springwood Avenue, Asbury Park, N. J.

Herbert H. Milliken. John W. Milliken, Freedom, N. H.

Elmer Nickerson. Mrs. Minnie Nickerson, Provincetown, Mass.

Paul E. Noel. Mrs. Ella Noel, 613 East Third Avenue, Oskaloosa, Iowa.

William A. Peterson. Sidney Peterson, Manchester, N. H.

Lester D. Purcell. J. O. Purcell, R. F. D. No. 3, Red Oak, Iowa.

Stanley Rekowski. Marcel Rekowski, Milven Place, Naugatuck, Conn.

Fred J. Rentschler. Mrs. P. Schaefer, 21 Ward Street, New Haven, Conn.

James H. Scott. Mrs. Minnie E. Scott, Box 145, Alexis, Ill.

Dwight Simpson. Mrs. O. C. Anderson, 174 West Fourth Street, Chillicothe, Ohio.

John Ulan. Eddy Ulan, Norwich, Conn.

Amos E. Walker. John Walker, Columbia City, Ind.

KILLED BY SHELL CONCUSSION.

Peculiar Manner of Rev. Mr. Murray's Death at Battle Front.

The National War Work Council, Y. M. C. A., issues the following:

Particulars of the death of the Rev. Walter Murray, of East Orange, N. J., a Y. M. C. A. worker killed before Chateau-Thierry, were contained in a cablegram received by the Y. M. C. A. National War Work Council. Mr. Murray was between two shells which exploded simultaneously, the concussion killing him, although not a mark was made on his body. He had been serving the American soldiers from a canteen near the front line trenches when he was killed. His body was buried in Officers' Row with military honors. The officers highly praised his work as well as that of the other "Y" men who remained in the trenches with the troops throughout the attack, carrying them fruit, cookies, and smokes under severe bombardment. Mr. Murray formerly was a Baptist clergyman in Philadelphia and leaves a wife and three children.

William A. Evans. John W. Evans, Dunn's Apartments, North Second Street, Pottsville, Pa.

Maxwell O. Parry. Mrs. D. M. Parry, 1390 West Thirty-sixth Street, Indianapolis, Ind.

Corpl. Lloyd E. Long. Mrs. Alice I. Long, Apollo, Pa.

PRIVATES.

John F. Becker. Mrs. Bridget Becker, 5521 Hunter Street, Philadelphia, Pa.

Gilmore Brown. Mrs. Jennie Brown, Brookville, Pa.

(Continued on page 8.)

CHANGES IN TRAINING COURSE AT ARMY CHAPLAIN SCHOOL

The War Department authorizes the following:

As the result of a visit of inspection by the advisory committee on religious and educational activity in the Army and Navy, a number of changes have been made in the instructional courses in the Training School for Army Chaplains at Camp Zachary Taylor.

More stress will be laid in future upon acquainting the students with the work of the Army and Navy Commissions on Training Camp Activities and all related war activities, particularly those within the camps, such as the Y. M. C. A., Knights of Columbus, Jewish Welfare Board, etc. Each of these groups has been asked to detail a representative to act as a liaison agent. The representatives will become members of the school faculty.

Handbook to Be Prepared.

The committee has recommended that a handbook be prepared containing a variety of information useful to chaplains, including a brief statement of the principal fundamental tenets of the various religious denominations, so as to give to each chaplain an intelligent understanding of the men whom he must serve of denominations other than his own. This recommendation has been approved.

Increase of practical field work under the guidance of experienced chaplains has been ordered and the faculty is to be augmented as soon as possible by the presence of chaplains who have had field experience at the front.

Some of the Recommendations.

Other recommendations concurred in call for a short review of the great events in our history and the fundamental principles of our Government; a more intensive military training; some little additional time each day for personal religious exercises; prayers, reading the scriptures, etc., an increased library, with a bibliography of helpful books; and the conversion of the last day of the course into a day of prayer or spiritual retreat for all candidates, the differing religious bodies to meet separately or together, according to their own rules.

Hereafter, so far as practicable, all chaplains will be appointed from among those who have successfully completed the course of training provided for in this school.

Washington Navy Yard Housing for Employees

The Department of Labor authorizes the following:

Fourteen dormitories, together with a mess hall and kitchen, constitute the first portion of the housing development to be undertaken by the Bureau of Industrial Housing and Transportation at the Washington Navy Yard. Plans have been completed and bids requested for the construction of these buildings, which are designed to accommodate about 500 navy-yard workers.

In addition to the foregoing, it is proposed to construct [illegible] apartment buildings and 300 houses to meet the needs of navy-yard workers and their families. Plans for these structures are also well under way and it is hoped that actual construction will begin within the next few weeks.

TREASURY CERTIFICATE ISSUE OVERSUBSCRIBED $84,750,500

The Treasury Department authorizes the following:

Secretary McAdoo announces that the third biweekly issue of United States Treasury certificates of indebtedness in anticipation of the fourth Liberty loan was oversubscribed $84,750,500. The total subscriptions aggregated $584,750,500. The aggregate of subscriptions for certificates in anticipation of the fourth Liberty loan to date is $2,183,835,000.

Eight Districts Oversubscribe.

Eight of the 12 Federal reserve districts oversubscribed their quotas and the remaining 4—Richmond, Atlanta, Minneapolis, and Dallas—fell a little short of theirs. The quotas (in round numbers) and subscriptions, by districts, are as follows:

Federal reserve bank.	Quota.	Subscription.
United States Treasury		$4,327,000
Boston	$43,300,000	48,267,500
New York	169,600,000	211,714,000
Philadelphia	35,300,000	36,872,500
Cleveland	45,300,000	55,927,000
Richmond	17,300,000	16,886,000
Atlanta	14,600,000	13,168,500
Chicago	70,000,000	83,310,500
St. Louis	20,000,000	25,952,500
Minneapolis	17,300,000	16,800,000
Kansas City	20,000,000	23,369,000
Dallas	12,000,000	10,156,000
San Francisco	35,300,000	38,000,000
Total	500,000,000	584,750,500

ORDER AMENDING NAVIGATION RULES OF THE PANAMA CANAL

EXECUTIVE ORDER.

By virtue of the authority vested in me, I hereby establish the following Executive order for the Canal Zone:

SECTION 1. Paragraph 20 of the Executive order of July 9, 1914, entitled "Rules and regulations for the operation and navigation of the Panama Canal and approaches thereto, including all waters under its jurisdiction," is hereby amended to read as follows:

"20. The captain or master of a vessel in canal waters, except while the vessel is being passed through the locks, shall be charged with the safe handling and proper navigation of the vessel; the pilot is to be considered as being on board solely in an advisory capacity, but masters of vessels must abide by rules and regulations of the canal as interpreted by the pilot. No claim against the Panama Canal for damages on account of injury to a vessel or its cargo while in Canal Zone waters, arising from the operation of the canal (other than the passing of vessels through the locks) shall be allowed unless it shall be determined by the Governor of the Panama Canal that such injury was due to the negligence or want of care on the part of agents or employees of the Panama Canal, and there shall be an appropriation available for the payment of such claim."

SEC. 2. This order shall take effect from and after this date.

WOODROW WILSON.

THE WHITE HOUSE,
July 26, 1918.

Navy Base Hospital Unit Arrives in England

Secretary Daniels announces that the officers, enlisted men and equipment of a Navy base hospital, under command of Medical Director Charles M. DeValin, United States Navy, recruited principally from Los Angeles, Cal., has arrived in England for service with the Navy Expeditionary Forces in that area. This hospital, which will comprise personnel and equipment sufficient for 500 beds, was organized by Dr. Ray Smith, of Los Angeles, as director, and was mobilized some time ago for service abroad.

NEW AIR ENDURANCE RECORD.

Ensign Barnes Aloft 30 Hours and 30 Minutes in "Blimp" Machine.

The Navy Department has received a dispatch stating that Ensign P. J. Barnes, United States Naval Reserve Flying Corps, operating in European waters, has established a new endurance record for the "Blimp" type of airship by remaining in the air 30 hours and 30 minutes.

At the time Ensign Barnes enrolled in the Naval Reserve Flying Corps his home was in Minneapolis, Minn.

Special Orders, No. 168:

269. The assignment of Maj. Edward H. Pearce, Adjutant General's Department, National Army, to duty at headquarters, Western Department, is announced.

CASH AMOUNTS ADVANCED TO RAILROADS, AS LOANS AND FOR OTHER PURPOSES, TOTALS $43,205,050 IN MONTH OF JULY

GOES TO 37 SYSTEMS

Money Used Either on Account of Standard Rentals or to Pay Back Wages Under Commission's Award—Grand Total Advanced to Date Amounts to $203,714,050.

Director General McAdoo authorizes the following statement:

The advances made by the Railroad Administration to all railroads for the month of July, either as loans or on account of standard rentals or back wages, aggregate $43,205,050. This sum was distributed to 37 different railroad systems or roads.

The amount advanced to all roads prior to July 1, 1918, was $160,509,000 (to 42 different railroads or systems), making the total sum advanced to all railroads throughout the country by the Director General of Railroads up to August 1, 1918, $203,714,050.

The money thus dispensed was obtained as follows:

From the United States Treasury revolving fund	$180,559,000
From surplus balances of certain railroads	23,155,050
Total	203,714,050

Money to Pay Back Wages.

Of the $43,205,050 disbursed in the month of July, the larger portion, or approximately $23,269,000, was advanced to the Federal managers of certain railroads to pay up the back wages due to their employees from January 1 to May 31, in accordance with award submitted in June by the arbitration committee, and for other operating needs; $6,328,775 was advanced to railroads on account of their standard estimated rentals; and $13,607,275 was advanced in the shape of loans, on demand, at 6 per cent per annum interest.

Lines Receiving Advances In July.

The railroad lines to which advances were made during the month of July were as follows:

Chicago, Milwaukee & St. Paul Railway	$5,725,000
Pennsylvania Railroad Lines	5,500,000
New York Central Lines	5,000,000
Southern Railway Lines	3,695,000
Lehigh Valley Railroad	3,500,000
Chicago, Rock Island & Pacific	3,000,000
Missouri, Kansas & Texas Lines	2,420,000
Illinois Central Railroad	2,000,000
Denver & Rio Grande Railway	1,400,000
Wabash Railway	1,350,000
Seaboard Air Line Railway	1,350,000
Missouri Pacific Railroad	1,000,000
Hudson & Manhattan Railroad Company	1,000,000
Central of Georgia Railroad	750,000
Chesapeake & Ohio Railway Company	750,000
Chicago & Alton Railroad	600,000
Terminal Railroad Association of St. Louis	525,000
St. Louis Southwestern Railway	500,000
Galveston, Harrisburg & San Antonio Railway	500,000
Chicago, Indianapolis & Louisville Railway	325,000
Indiana Harbor Belt Railroad	220,000
San Antonio & Aransas Pass Railway	200,000
Chicago Junction Railway	200,000
Buffalo, Rochester & Pittsburgh Railway	200,000
Norfolk Southern Railroad	190,000
Atlanta, Birmingham & Atlantic Railway	189,000
Belt Railway of Chicago	155,000
Duluth, South Shore & Atlantic Railway	150,000
New York, Chicago & St. Louis Railroad	132,275
New Orleans Great Northern Railroad	120,000
Kansas City, Mexico & Orient Railway	120,000
Chicago & Western Indiana Railroad	115,000
Minneapolis & St. Louis Railroad	100,000
Ann Arbor Railroad	75,000
St. Louis-San Francisco Lines	60,000
Washington, Brandywine & Point Lookout Railroad	50,000
Detroit, Toledo & Ironton Railroad	38,775

Total Advances to Date.

The total advances made to date, including the loans to railroad corporations, compensation, and also advances made by the Director General to the Federal Managers aggregated $203,714,050. which was distributed. as follows:

New York, New Haven & Hartford Railroad	$46,964,000
New York Central Lines	40,000,000
Pennsylvania Railroad Lines	30,500,000
Chicago, Milwaukee & St. Paul Railway	14,725,000
Illinois Central Railroad	9,750,000
Baltimore & Ohio Railroad	9,000,000
Erie Railroad	7,500,000
Chicago, Rock Island & Pacific Railway	6,000,000
Denver & Rio Grande Railroad	4,100,000
Southern Railway Lines	3,695,000
Lehigh Valley Railroad	3,500,000
Chesapeake & Ohio Railway Co	2,750,000
Wabash Railroad	2,650,000
Southern Pacific Lines	2,500,000
Seaboard Air Line Railway	2,350,000
Delaware & Hudson Co	2,000,000
Chicago, Burlington & Quincy Railroad	1,500,000
Chicago, Indianapolis & Louisville Railway	1,325,000
Missouri Pacific Railway	1,000,000
Hudson & Manhattan Railroad Co	1,000,000
Minneapolis & St. Louis Railroad	850,000
St. Louis–San Francisco Lines	810,000
Buffalo, Rochester & Pittsburgh Railway	800,000
Central of Georgia Railway	750,000
Chicago & Alton Railroad	600,000
Norfolk Southern Railroad	540,000
Terminal Railroad Association of St. Louis	525,000
Hocking Valley Railway	500,000
Central Vermont Railway	285,000
Ann Arbor Railroad	275,000
Detroit, Toledo & Ironton Railroad	238,775
Indiana Harbor Belt Railway	220,000
San Antonio & Aransas Pass Railway	200,000
Chicago Junction Railway	200,000
Illinois Southern Railroad	160,000
Belt Railway of Chicago	155,000
Duluth, South Shore and Atlantic	150,000
New York, Chicago & St. Louis Railroad	132,275
Kansas City, Mexico & Orient Railway	120,000
New Orleans Great Northern	120,000
Chicago & Western Indiana Railway	115,000
Washington, Brandywine & Point Lookout Railroad	50,000

Of the above, all were in shape of loans to railroad corporations or advances on account of compensation, except $23,269,000, which was advanced to the Federal managers for the purpose of meeting operating needs, principally back wages.

Sums Received from Railroads.

The $30,777,869.61 deposited with the Director General between [illegible] July 31 by various railroads from their surplus funds was received from the following railroads:

Atlantic Coast Line and Louisville & Nashville	$6,000,000.00
Southern Pacific Lines	3,500,000.00
Atchison, Topeka & Santa Fe Railway	3,000,000.00
Denver & Rio Grande Railway	[illegible]
Chicago, Burlington & Quincy Railroad	1,500,000.00
Norfolk & Western Railway	1,500,000.00
Northern Pacific Railroad	1,500,000.00
Hudson & Manhattan Railroad Co	1,100,000.00
Missouri Pacific Railroad	1,000,000.00
Colorado & Southern	[illegible]
Illinois Central Railroad	[illegible]
St. Louis-San Francisco Railway	750,000.00
Fort Worth & Denver City	700,000.00
Alabama Great Southern Railroad	691,195.07
Chicago & North Western Railway	[illegible]
El Paso & Southwestern System	500,000.00
Galveston, Harrisburg & San Antonio Railway	[illegible]
Kansas City Southern	[illegible]
Elgin, Joliet & Eastern	500,000.00
Chicago Great Western	[illegible]
Duluth, Missabe & Northern	400,000
Cincinnati, New Orleans & Texas Pacific Railway	[illegible]
Spokane, Portland & Seattle Railway	[illegible]
Houston & Texas Central	300,000.
Central of Georgia Railway	300,000.00
Gulf Coast Lines	200,000
Vicksburg, Shreveport & Pacific	200,000.00
Alabama & Vicksburg Railway	200,000.00
International & Great Northern	150,000.00
New York, Ontario & Western	150,000.00
New Orleans & Northeastern	100,000.00
Louisville, Henderson & St. Louis	100,000.00
Duluth & Iron Range	100,000.00

Transfer of Balances.

In accordance with the provisions of the Director General's General Order No. 37, issued under date of June 19, the working balances of all railroad companies under Government control are being transferred from the corporate treasurers to the Federal treasurers, and practically all railroad operating bank accounts will hereafter be kept in the name of the United States Railroad Administration.

RAILWAY CLERKS' PAY RAISED.

Consul Richardson, at Moncton, reports:

Under the terms of a new schedule of wages agreed upon between the management of the Canadian Government Railways and the Canadian Brotherhood of Railway Employees several months ago the clerks in the various departments are now in receipt of their current pay checks in which are included back time dating from December 1, 1917. To all office employees increases of pay from $10 to $25 per month have been granted. Fifty dollars has been made the minimum monthly compensation of female employees, in clerical positions, who are 17 years of age or over. Satisfactory increases have also been arranged for the outside employees who come within the scope of the Canadian Brotherhood of Railway Employees. These include freight-office clerks, shed employees, and some others.—Commerce Reports.

Supplement to Railroad Director's General Order No. 27 Relating to Hours and Wages in Mechanical Departments

The United States Railroad Administration, W. G. McAdoo, Director General, authorizes publication of the following:

WASHINGTON, D. C., *July 25, 1918.*

SUPPLEMENT NO. 1 TO GENERAL ORDER NO. 27.

In the matter of wages, hours, and other conditions of employment of employees in the mechanical departments (specified herein) of the railroads under Federal control, it is hereby ordered:

Article I.—Classification of Employees.

SECTION 1. — Machinists. — Employees skilled in the laying out, fitting, adjusting, shaping, boring, slotting, milling, and grinding of metals used in building, assembling, maintaining, dismantling, and installing locomotives and engines (operated by steam or other power), pumps, cranes, hoists, elevators, pneumatic and hydraulic tools and machinery, scale building, shafting and other shop machinery; ratchet and other skilled drilling and reaming, tool and die making, tool grinding and machine grinding, axle, wheel and tire turning and boring; engine inspecting; air equipment, lubricator and injector work; removing, replacing, grinding, bolting and breaking of all joints on superheaters, oxy-acetylene, thermit and electric welding on work generally recognized as machinists' work; the operation of all machines used in such work, including drill presses and bolt threaders using a facing, boring, or turning head or milling apparatus, and all other work generally recognized as machinists' work.

1–A. Machinist apprentices. — Include regular and helper apprentices in connection with the above work.

1–B. Machinist helpers. — Employees assigned to help machinists and apprentices. Operators of all drill presses and bolt threaders not equipped with a facing, boring or turning head or milling apparatus, bolt pointing and centering machines, wheel presses, bolt threaders, nut tappers and facers; cranesmen helpers, toolroom attendants, machinery oilers, box packers and oilers; the applying of couplings between engines and tenders, locomotive tender and draft rigging work, except when performed by carmen.

SEC. 2. Boilermakers. — Employees skilled in laying out, cutting apart, building or repairing boilers, tanks and drums, inspecting, patching, riveting, chipping, calking, flanging and flue work; building, repairing, removing and applying steel cabs and running boards; laying out and fitting up any sheet iron or sheet steel work made of 16 gauge or heavier, including fronts and doors; grate and grate rigging, ash pans, front and netting and diaphragm work; engine tender steel underframe and steel tender truck frames, except where other mechanics perform this work; removing and applying all stay bolts, radials, flexible caps, sleeves, crown bolts, stay rods and braces in boilers, tanks and drums, applying and removing arch pipes; operating punches and shears for shaping and forming, pneumatic stay bolt breakers, air rams and hammers; bull, jam and yoke riveters; boilermakers' work in connection with the building and repairing of steam shovels, derricks, booms, housings, circles and coal buggies; eyebeam, channel iron, angle iron and tee iron work; all drilling, cutting and tapping, and operating rolls in connection with boilermakers' work; oxyacetylene, thermit and electric welding, on work generally recognized as boilermakers' work; and all other work generally recognized as boilermakers' work.

2–A. Boilermaker apprentices.—Include regular and helper apprentices in connection with the above.

2–B. Boilermaker helpers.—Employees assigned to help boilermakers and their apprentices. Operators of drill presses and bolt cutters in the boiler shop, punch and shear operators (cutting only bar stock and scrap).

SEC. 3. Blacksmiths. — Employees skilled in welding, forging, shaping, and bending of metal; tool dressing and tempering; spring making, tempering, and repairing; potashing, case and bichloride hardening; flue welding under blacksmith foreman; operating furnaces, bulldozers, forging machines, drop-forging machines, bolt machines, and Bradley hammers; hammersmiths, drop hammermen, trimmers, rolling-mill operators; operating punches and shears doing shaping and forming in connection with blacksmiths' work; oxyacetylene, thermit and electric welding on work generally recognized as blacksmiths' work, and all other work generally recognized as blacksmiths' work.

3–A. Blacksmith apprentices.—Include regular and helper apprentices in connection with the above.

3–B. Blacksmith helpers.—Employees assigned to helping blacksmiths and apprentices; heaters, hammer operators, machine helpers, drill-press and bolt-cutter operators, punch and shear operators (cutting only bar stock and scrap), in connection with blacksmiths' work.

SEC. 4. Sheet-metal workers.—Sheet-metal workers shall include tinners, coppersmiths, and pipe fitters employed in shop yards and buildings and on passenger coaches and engines of all kinds, skilled in the building, erecting, assembling, installing, dismantling, and maintaining parts made of sheet copper, brass, tin, zinc, white metal, lead, and black planished and pickeled iron of less than 16 gauge, including brazing, soldering, tinning, leading, and babbitting; the bending, fitting, cutting, threading, brazing, connecting, and disconnecting of air, water, gas, oil, and steam pipes; the operation of babbitt fires and pipe-threading machines; oxyacetylene, thermit, and electric welding on work generally recognized as sheet-metal workers' work, and all other work generally recognized as sheet-metal workers' work.

4–A. Sheet-metal worker apprentices.—Include regular and helper apprentices in connection with the above.

4–B—Sheet metal worker helpers.—Employees regularly assigned as helpers to assist sheet metal workers and apprentices.

SEC. 5—Electrical workers, first class.—Employees skilled in repairing, rebuilding, installing, inspecting, and maintaining the electric wiring of generators, switchboards, motors and control, rheostats and control, static and rotary transformers, motor generators, electric headlights and headlight generators; electric welding machines, storage batteries and axle lighting equipment; pole lines and supports for service wires and cables, catenary and monorail conductors and feed wires, overhead and underground; winding armatures, fields, magnet coils, rotors, stators, transformers and starting compensators; all outside and inside wiring in shops, yards, and on steam and electric locomotives, passenger train and motor cars, and include wiremen, armature winders, switchboard operators, generator attendants, motor attendants, substation attendants, electric crane operators for cranes of 40 tons capacity or over; cable splicers, linemen and groundmen, signalmen and signal maintainers, where handling wires and apparatus carrying 240 volts or over, or in dense traffic zones, and all other work properly recognized as first-class electrical workers' work.

5–A—Electrical workers, second class.—Operators of electric cranes of less than 40 tons capacity; linemen and groundmen, signalmen and signal maintainers, where handling wires and apparatus carrying less than 240 volts, and in normal traffic zones, and all other work properly recognized as second-class electrical workers' work.

5–B—Electrical worker apprentices.—Include regular and helper apprentices in connection with the above.

5–C—Electrical worker helpers.—Employees regularly assigned as helpers to assist electrical workers and apprentices, including electric lamp trimmers who do no mechanical work.

SEC. 6. Carmen.—Employees skilled in the building, maintaining, dismantling, painting, upholstering, and inspecting of all passenger and freight-train cars, both wood and steel; planing mill, cabinet and bench carpenter work, pattern and flask making, and all other carpenter work in shop and yards; carmen's work in building and repairing motor cars, lever cars, hand cars, and station trucks; building, repairing, removing, and applying locomotive cabs, pilots, pilot beams, running boards, foot and headlight boards, tender frames and trucks; pipe and inspection work in connection with air-brake equipment on freight cars; applying patented metal roofing; repairing steam-heat hose for locomotives and cars; operating punches and shears doing shaping and forming, hand forges and heating torches, in connection with carmen's work; painting, varnishing, surfacing, lettering, decorating, cutting of stencils and removing paint; all other work generally recognized as painters' work under the supervision of the locomotive and car departments; joint car inspectors, car inspectors, safety appliance, and train-car repairers, wrecking derrick engineers, and wheel-record keepers; oxy-acetylene, thermit, and electric welding on work generally recognized as carmen's work, and

Supplement to Railroad Director's Order Relating to Wages

all other work generally recognized as carmen's work.

6–A. Carmen apprentices.—Include regular and helper apprentices in connection with the above.

6–B. Carmen helpers.—Employees regularly assigned to help carmen and apprentices; car oilers and packers, material carriers, and rivet heaters; operators of bolt threaders, nut tappers, drill presses, and punch and shear operators (cutting only bar stock and scrap).

SEC. 7. Molders.—Include molders, cupola tenders, and core makers.

7–A. Molder apprentices.—Include regular and helper apprentices in connection with the above.

7–B. Molder helpers.—Employees regularly assigned to help molders, cupola tenders, core makers and their apprentices.

Article II.—Rates and Method of Application.

SECTION 1. For the above classes of employees (except carmen, second-class electrical workers, and all apprentices and helpers), who have had four or more years' experience and who were on January 1, 1918, receiving less than 55 cents per hour, establish basic minimum rate of 55 cents per hour, and to this basic minimum rate and all other hourly rates of 55 cents per hour and above, in effect as of January 1, 1918, add 13 cents per hour, establishing a minimum rate of 68 cents per hour.

SEC. 1–A. For carmen and second-class electrical workers who have had four or more years' experience and who were on January 1, 1918, receiving less than 45 cents per hour, establish a basic minimum rate of 45 cents per hour, and to this minimum basic rate and all other hourly rates of 45 cents and above, in effect as of January 1, 1918, add 13 cents per hour, establishing a minimum rate of 58 cents per hour.

SEC. 1–B. Rates of compensation exceeding the minimum rates established herein to be preserved; the entering of employees in the service or the changing of their classification or work shall not operate to establish a less favorable rate or condition of employment than herein established.

SEC. 1–C. The Director General recognizes that the minimum rates established herein may be exceeded in the case of men of exceptional skill, who are doing special high-grade work, which has heretofore enjoyed a differential. Such cases would include pattern makers, passenger car repair men, oxy-acetylene, thermit, and electric welding in car-repair work, etc., and should be presented to the Board of Railroad Wages and Working Conditions for recommendation as provided in General Order No. 27.

SEC. 2. The above classes of employees (except carmen, second-class electrical workers, and all apprentices and helpers) who have had less than four years' experience in the work of their trade will be paid as follows:

(a) One year's experience or less, 50 cents per hour.

(b) Over one year and under two years' experience, 53 cents per hour.

(c) Over two years' and under three years' experience, 57 cents per hour.

(d) Over three years' and under four years' experience, 62 cents per hour.

SEC. 2–A. Carmen and second-class electrical workers who have had less than four years' experience in the work of their trade will be paid as follows:

(a) One years' experience or less, 48½ cents per hour.

(b) Over one year and under two years' experience, 50½ cents per hour.

(c) Over two years' and under three years' experience, 52½ cents per hour.

(d) Over three years' and under four years' experience, 54½ cents per hour.

SEC. 2–B. If retained in the service after the expiration of the 4-year period the employees mentioned in section 2 and section 2–A shall receive the respective minimum of their craft.

Article III.

SECTION 1. Regular apprentices between the ages of 16 and 21, engaging to serve a four-year apprenticeship, shall be paid as follows: Starting-out rate and for the first six months, 25 cents per hour, with an increase of 2½ cents per hour for each six months thereafter up to and including the first three years; 5 cents per hour increase for the first six months of the fourth year and 7½ cents per hour for the last six months of the fourth year.

SEC. 1–A. If retained in the service after the expiration of their apprenticeship, apprentices in the respective trades shall receive not less than the minimum rate established for their craft.

SEC. 2. Helpers in the basic trades herein specified will be paid 45 cents per hour.

SEC. 3. Helper apprentices will receive the minimum helper rate for the first six months, with an increase of 2 cents per hour for every six months thereafter until they have served three years.

SEC. 3–A. Fifty per cent of the apprentices may consist of helpers who have had not less than two consecutive years' experience in their respective trades in the shop on the division where advanced. In the machinist, sheet-metal worker, electric, and molder trades the age limit for advancement will be 25 years; in the boilermaker, blacksmith, and carmen trades 30 years.

SEC. 4. In the locomotive and car departments gang foremen or leaders and all men in minor supervisory capacity and paid on an hourly basis will receive 5 cents per hour above the rates provided for their respective crafts.

SEC. 5. The supervisory forces of the locomotive and car departments, paid on a monthly basis and exercising supervision over the skilled crafts, will be paid an increase of $40 per month in addition to the monthly rate as of January 1, 1918, with a minimum of $155 per month and a maximum of $250 per month.

Article IV.—General Application.

SECTION 1. Each railroad will, in payments to employees on and after July 1, 1918, include these increases therein.

SEC. 1–A. The increases in wages and the rates established herein shall be effective as of January 1, 1918, and are to be paid according to the time served to all who were then in the railroad service or who have come into such service since and remained therein. A proper ratable amount shall also be paid to those who for any reason since January 1, 1918, have been dismissed from the service, but shall not be paid to those who have left it voluntarily. Men who have left the railroad service to enter the military service of the Army or Navy shall be entitled to the pro rata increase accruing on their wages up to the time they left, and the same rule shall apply to those who have been transferred from one branch of the railroad service or from one road to another.

SEC. 2. The hourly rates named herein are for an eight-hour day and one and one-half time will be paid for all overtime, including Sundays and the following holidays: New Year's Day, Washington's Birthday, Decoration Day, Fourth of July, Labor Day, Thanksgiving, and Christmas.

SEC. 3. While the specific rates per hour named herein will be retroactive to January 1, 1918, the special overtime provisions established in section 2 of this article will be effective as of August 1, 1918, with the provision that in computing overtime to determine back pay to January 1, 1918, overtime will be paid at a pro rata rate for all overtime worked in excess of the hours constituting the recognized day or night shift, except where higher overtime rate basis exists, or has been applied, in which event the more favorable condition shall be the basis of computing back pay accruing from this order.

SEC. 4. Employees, except monthly salaried employees, coming within the scope of this order, sent out on the road for emergency service, shall receive continuous time from the time called until their return, as follows: Overtime rates for all overtime hours whether working, waiting, or traveling, and straight time for the recognized straight time hours at home stations, whether working, waiting or traveling, except that after the first 24 hours, if the work is completed or they are relieved for 5 hours or more, such time shall not be paid for, provided that in no case shall an employee be paid for less than 8 hours on week days and 8 hours at one and one-half time for Sundays and holidays for each calendar day. Where meals and lodging are not provided by the railroad an allowance will be made for each meal or lodging. Employees will receive allowance for expenses not later than the time when they are paid for the service rendered.

SEC. 5. Employees specified herein when sent from home point to temporarily fill vacancy or perform work at outside division points, will be paid straight time and overtime rates as per shop rules, including going and return trip, in addition to which they will be paid pro rata at the rate of $2 per day for meals and lodging.

SEC. 6. Carmen stationed at points requiring only one employee on day shift or night shift, or day and night shifts, shall be paid 8 hours at not less than the hourly rate provided herein.

SEC. 7. Mechanics now regularly assigned to perform road work and paid on a monthly basis shall be paid for 8 hours at not less than the hourly rate provided herein.

SEC. 8. Employees on a piecework basis shall receive not less than the minimum rate per hour awarded to the hourly workers, including time and one-half for overtime, as hereinbefore provided; other-

Supplement to Railroad Director's Order Relating to Wages

wise piecework rates provided in General Order No. 27 shall apply.

SEC. 9. The application of this order shall not, in any case, operate to establish a less favorable wage rate than in effect January 1, 1918.

Article V.—Payments for Back Time.

SEC. 1. As promptly as possible the amount due in back pay from January 1, 1918, in accordance with the provisions of this order, will be computed and payment made to the employees, separately from the regular monthly payments, so that employees will know the exact amount of these back payments.

SEC. 2. Recognizing the clerical work necessary to make these computations for back pay, and the probable delay before the entire period can be covered, each month, beginning with January, shall be computed as soon as practicable, and, as soon as completed, payments will be made.

Article VI.—Interpretation of This Order.

SEC. 1. Railway Board of Adjustment No. 2 is authorized by Article IX of General Order No. 27 to perform the following duty:

"Wages and hours, when fixed by the Director General, shall be incorporated into existing agreements on the several railroads, and should differences arise between the managements and the employees of any of the railroads as to such incorporation, such questions of difference shall be decided by the Railway Board of Adjustment No. 2 when properly presented, subject always to review by the Director General."

SEC. 2. In addition to the foregoing other questions arising as to the intent or application of this order in respect to the classes of employees within the scope of Railway Board of Adjustment No. 2 shall be submitted to such board, which board shall investigate and report its recommendations to the Director General.

SEC. 3. All rates applied under this order shall be filed by the Regional Directors with the Board of Railroad Wages and Working Conditions.

SEC. 4. The rates, increases, and other conditions of employment herein established for the classes of employees herein specified shall supersede the rates, increases and other conditions established by General Order 27, except as provided in section 8, Article IV.

In reaching the conclusions upon which this order is based, I have been keenly conscious not alone of the interests of the large number of railway employees who are greatly benefited thereby, but also of my solemn duty to the American people to see to it that the trust they have committed to me is discharged faithfully, with justice to them as well as to the railroad employees concerned. No right decision can be made which considers only the demands and interests of any class of men apart from the paramount interests of the public and the supreme necessity of winning this war.

Now that the decision has been made, the American people, whose servants we are, expect every railroad employee to devote himself with new energy to his work, and by faithful and efficient service to justify the large increases of pay and the improvement in working conditions hereby granted. The American people have a right to expect this, and they will be content with nothing less.

It is of the utmost importance that motive power and cars shall be kept in repair and that the output of railroad shops throughout the country shall be greatly increased in the future. Unless this is done, the railroads can not efficiently perform the increased duties imposed upon them by the war, and the fighting power of our armies in France and of our navies on the high seas will be seriously impaired.

I am proud of the loyal service the great body of railroad men throughout the country have rendered to their Government since the railroads have come under Federal control. It is a genuine pleasure to make this acknowledgment, but I should not fail to say at the same time that there are instances where agitations and disturbances in some of the locomotive and car shops have been extremely hurtful to the country. The loyal and patriotic employees, who constitute the great majority of the army of railroad workers, have not yielded, be it said to their credit and honor, to these disturbances. But the few who have, have done their country a grievous injury by impairing the efficiency and reducing the output of the shops where these disturbances have occurred.

The loyal and patriotic employees can render a new and powerful service to their country by using their influence to expose any who may become slackers in their work, by cooperating with their officers in the enforcement of discipline, and by increasing, to the utmost limit of their capacity, the output of locomotives and cars which are so essential to the efficient operation of the railroads of the country and to the success of our armies in the field. I know I can count on the patriotism and devotion to duty of every true American engaged in the railway service of the United States.

W. G. MCADOO,
Director General of Railroads.

Instructions to Railroad Accountants In Circular Issued by Director Prouty

The United States Railroad Administration issues the following:

P. S. & A. CIRCULAR No. 18.

Each chief accounting officer, on behalf of the carrier or carriers which he represents, shall prepare certain data hereinafter indicated relating to the six-months period of Federal control ended June 30, 1918, and shall submit the same to the undersigned on or before August 1, 1918.

That portion of the returns dealing with the expenditures for additions and betterments shall be stated on the basis of the expenditures incurred during the period under consideration and not on the basis of the actual payments made. As supplemental to the data relating to expenditures for equipment there shall be shown the amount of equipment trust notes issued during the six-months period which were outstanding on June 30, 1918.

The information submitted shall be upon letter-size sheets and arranged in the order of the inquiries here made:

Cash:
1. Cash on hand January 1, 1918, including cash in transit.
2. Cash on hand June 30, 1918, including cash in transit.
3. Cash remitted at the request of and to the credit of the Director General, exclusive of the amount transferred to his account on the Federal books as of December 31, 1917.
4. Cash received for operating purposes from the Director General.

Cash collections for account of the corporation:
5. Corporate transactions.
6. Operating transactions.

[NOTE.—See Order No. 17 for a general description of items pertaining to corporate and operating transactions, respectively.]

Cash payments out of Federal funds for account of the corporation:
7. Interest on funded debt.
8. Dividends on capital stock.
9. Rental of leased roads.
10. Retirement of funded debt, including equipment trust notes.
11. War taxes.
12. Advances to affiliated companies.
13. Obligations of affiliated companies.
14. Liberty loans.
15. Other corporate obligations.
16. Operating liabilities December 31, 1917.

Expenditures for additions and betterments chargeable to the corporation:
17. Road and general expenditures.
18. Equipment expenditures.
19. Equipment trust notes.

Income:
20. Operating revenues.
21. Operating expenses.
22. Taxes, excluding war taxes.
23. Equipment rents—Cr.
24. Joint facility rents—Cr.
25. Equipment rents—Dr.
26. Joint facility rents—Dr.
27. Net income or loss.
28. Balance on the Federal books as of June 30, 1918, in the account "Revenues prior to January 1, 1918."
29. Balance on the Federal books as of June 30, 1918, in the account "Expenses prior to January 1, 1918."

Submit with the replies to the foregoing a copy of the trial balance of the Federal books taken as of June 30, 1918. If the trial balance can not be submitted at this time explain the circumstance and name the approximate date that it can be furnished.

C. A. PROUTY,
Director.

CARPENTER'S MATE PRAISED.

Promptness in Quelling Fire Commended by Secretary Daniels.

Secretary Daniels has commended Richard Edward Ryeberg, chief carpenter's mate, United States Navy, for his promptness and good judgment on July 2, when a fire occurred in the Naval Hospital Dispensary, Norfolk, Va.

The medical officer reports that, notwithstanding the intense heat from the turpentine fire, Ryeberg, seizing a nearby fire extinguisher, plunged through the smoke, and after emptying its contents went back with a second extinguisher, and succeeded in quelling the fire before the first stream of water could be turned upon it.

Ryeberg enlisted at Charleston, S. C., December 5, 1915. Wife, Mrs. Richard E. Ryeberg, Newport, R. I.

HEYDEN CHEMICAL WORKS TAKEN OVER BY THE ALIEN PROPERTY CUSTODIAN

IS OWNED IN GERMANY

Second Largest Plant in This Country and Did a Business of $4,000,000 in 1917—Action the Result of Investigation Into an Alleged Transfer of Stock—New Directors Appointed.

The Alien Property Custodian authorizes the following:

A. Mitchell Palmer, Alien Property Custodian, announces that he has taken over the Heyden Chemical Works, which has a large plant at Garfield, N. J. The Heyden concern is the second largest corporation of its kind in this country. It has an office at 135 William Street, New York. In 1917 it did a business of $4,000,000.

Discovery of Ownership.

The Heyden Works was taken over by Mr. Palmer when Francis P. Garvan, director of the Bureau of Investigation of the Alien Property Custodian's Office, discovered that it was owned by the Chemische Fabrik von Heyden, of Radebeul, Germany, the largest chemical company in the world, and that an attempt to camouflage the real ownership of the company had been made by George Simon, the representative of the German company in this country, with the aid of T. Ellett Hodgskin, a New York attorney.

Mr. Garvan found that Simon, with the aid of Hodgskin, sought to "Americanize" the Heyden Works by an alleged purchase for $149,000 of the 745 shares of stock owned by the Chemische Fabrik von Heyden, the ownership of which in 1916 netted the German company $1,026,626 in royalties and profits.

The money to finance this alleged sale of stock from the American company was supplied by Richard Kny, father-in-law of Simon.

The Heyden Chemical Works has the exclusive use in this country of many valuable patents, processes, and formulas for the making of salol, sodium salicylate, saccharine, formaldehyde, benzoate of soda, and other by-products of carbolic acid. These patents, processes, and formulas will be Americanized.

Organized by German.

George Simon, who lives in Brooklyn and is a German subject, came to this country in 1900 as the agent of the Chemische Fabrik von Heyden and organized the Heyden Chemical Works, with a capitalization of $10,000. Later the capital stock was increased to $150,000. The stock was divided into 750 shares, of which the German company received 745 shares for the patents, processes, formulas, etc., which they made over to the Heyden Co.

In the contract entered into between the German company and the American company it was agreed that 8 per cent be guaranteed on the stock, thereby concealing large royalties and profits of the German concern. This contract recognized the property rights of the German company. In 1915 the royalties paid to the Chemische Fabrik von Heyden was $820,603, and in 1916 the royalties and participation of profits for the German company jumped to $1,026,626.

German Ownership Admitted.

Under a grilling cross-examination by Mr. Garvan, Simon admitted that the Heyden Chemical Works was owned by the Chemische Fabrik von Heyden. He said that the concern was reorganized so as to hide the German ownership. In 1916, when the relations between this country and Germany began to look threatening, Simon said he sought the advice of T. Ellett Hodgskin, of 20 Nassau Street, New York, with a view to Americanizing the Heyden Co. Hodgskin represented various German interests, among them the Bauer Chemical Co. and the Jaeger Sanitary Woolen System, both of which have been taken over by Mr. Palmer.

Simon told Mr. Garvan that Hodgskin and he communicated with the von Heydens, of Berlin, and arranged for the American stockholders and directors to take over the corporation. He said that he went abroad for the purpose of ascertaining the wishes of the German company looking to safeguard their interests in this country, because Chemische Fabrik von Heyden had lost all of its property and holdings in both England and Japan because of the war.

Arranged for Purchase.

On his return to this country Simon arranged for the purchase, by Hodgskin, of the 745 shares of the Heyden concern owned by the Chemische Fabrik von Heyden. Simon said he was desirous of obtaining this stock for himself, but inasmuch as he was a German subject he realized that he could not accomplish the purpose he had in mind.

On April 29, 1916, Hodgskin made his alleged "purchase of the 745 shares of the German-owned stock in the Heyden Chemical Co., for $149,000, which was at par value. Through Simon he borrowed the $149,000 to pay for it from Richard Kny, of Brooklyn, who is Simon's father-in-law. As collateral for the loan Hodgskin gave Kny a certificate for the 745 shares.

To protect the German ownership of the Heyden company, however, Simon got Hodgskin to write a letter to him wherein Hodgskin agreed to sell back the stock to the German interests at any time within 18 months for the sum of $149,000 with interest.

Cancellation of Contract.

One phase, however, had apparently been overlooked by Hodgskin and not discovered by him until the latter part of the year 1917. The contract between the Chemische Fabrik von Heyden and the Heyden Chemical Works, wherein the valuable processes, patents, and formulas were turned over to the American company, provided that the duration of the contract be unlimited unless either party gave six months' notice of his desire to terminate the contract. Accordingly on December 18, 1917, Hodgskin called a meeting of the directors of the Heyden Chemical Works and caused a resolution to be adopted whereby the contract of June 7, 1906, between the two companies be cancelled as of December 31, 1916. By this time Hodgskin had not only obtained control of the company but had caused himself to be elected president of the board of directors and fixed his salary at $16,000 per annum. This was the status of the company when the Bureau of Investigation of the Alien Property Custodian began its investigation.

Board Resolution Rescinded.

It was pointed out by Mr. Carvan that this action was illegal, and on July 12, 1918, the board of directors adopted a resolution rescinding the resolution of December 18, 1917, and reinstating the original contract of June 7, 1906. On July 12, 1918, Hodgskin turned over to Richard Kny all of the stock standing in his name in consideration of the cancelling of the loan. A certificate for 745 shares of stock was then issued to Richard Kny.

Richard Kny claims that he in good faith in 1916 loaned $149,000 to Hodgskin, so that Hodgskin might "purchase" the company, and Simon and Kny both say this money was transmitted to Germany. Richard Kny has surrendered to the Alien Property Custodian the certificate of 745 shares of stock issued to him and formally turned over the company to the Alien Property Custodian.

New Directors Appointed.

Mr. Palmer has appointed the following directors of the company:

Leroy Baldwin, president Empire Trust Co., 120 Broadway, New York City, is the president of the company.

James A. Branegan, chemist, 1421 Chestnut Street, Philadelphia, is the new vice president of the company.

F. N. B. Close, Bankers Trust Co., 16 Wall Street, New York City, is the new secretary of the company.

J. Harry Covington, former chief justice of the Supreme Court of the District of Columbia, and Royal H. Weller, ex-assistant district attorney, of 31 Nassau Street, New York City, have been designated by Mr. Palmer as counsel.

PATENT MEDICINES IN ONTARIO.

Consul Felix S. S. Johnson, Kingston, reports:

Under an amendment to the Ontario license act, adopted at the last session of the legislature, license boards are given much wider powers in the control of preparations containing alcohol. They are authorized to submit samples to the provincial board of health, and if that body considers them insufficiently medicated to prevent their being consumed for the alcohol contained in them their sale may be forbidden. The board may also prohibit the sale of alcoholic patent medicines which would be likely to be taken in quantities injurious to health for the sake of the alcohol contained therein. In the near future all well-known patent medicines containing alcohol in any considerable proportion will be submitted to the provincial board of health for analysis.—Commerce Reports.

STATEMENT SUBMITTED TO THE HOUSE ON APPROPRIATIONS AND EXPENDITURES FOR THE YEAR 1919 AND PRIOR YEARS

Extension of remarks of Hon. Swagar Sherley, of Kentucky, in the House of Representatives, Monday, July 15, 1918, as reported in the Congressional Record:

Mr. SHERLEY. Mr. Speaker, under leave to extend my remarks I submit herewith a statement showing appropriations made during the second session of the Sixty-fifth Congress, including appropriations for the fiscal year 1918, and prior fiscal years.

It is impossible at this time to submit a classification of these appropriations other than as is indicated by the title of the acts carrying the specific sums. It should be borne in mind that while the statement submitted below shows appropriations and authorizations for expenditures in a sum little short of $30,000,000,000, the amount of expenditures in the next fiscal year will not necessarily reach any such total. In point of fact the probability is that such expenditures will be at least five or six billions of dollars less than that amount. In this connection perhaps it is interesting to consider appropriations made for the fiscal year 1918. I submit such a statement for that fiscal year subdivided between the amount for loans to allies and those for other purposes, which show a total for both purposes of approximately $18,900,000,000. Of this amount there were actually expended for governmental purposes, including the payment in the form of loans to our allies, of a little over thirteen and one-half billions of dollars, leaving approximately $5,300,000,000 of balance under such appropriations, not now expended.

There is also submitted a statement showing authorized bond issues to date of $22,000,000,000, with actual bonds issued of $9,978,000,000 in round figures, leaving remaining bonds authorized to be issued of $12,021,000,000 in round figures.

In addition to this there have been authorized an issue of war-savings stamps of $2,000,000,000, of which there have been in round figures $307,000,000 issued.

It is estimated that under existing tax laws approximately $4,100,000,000 will be raised exclusive of postal revenues, which should provide approximately $350,000,000, making a total revenue from existing laws and loans authorized and not heretofore issued of approximately $18,161,000,000.

Appropriations made during the second session, Sixty-fifth Congress.

Act.	Cash.	Contracts to be met by subsequent appropriations.	Total.
Agricultural appropriation act	[1] $27,875,353.00		[1] $27,875,353.00
Army appropriation act	10,226,878,312.91	$1,858,332,801.00	12,085,211,113.91
Diplomatic and consular appropriation act	7,937,376.66		7,937,376.66
District of Columbia appropriation act	[2] 15,046,768.66		[2] 15,046,768.66
Fortification appropriation act	2,814,348,267.85	2,623,465,845.00	5,437,814,112.85
Indian appropriation act	11,021,910.00		11,021,910.00
Legislative, executive, and judicial appropriation act	69,937,863.25		69,937,863.25
Military Academy appropriation act	2,589,846.25		2,589,846.25
Naval appropriation act	1,573,468,415.84	34,000,000.00	1,607,468,415.84
Pension appropriation act	220,050,000.00		220,050,000.00
Post Office appropriation act	377,573,342.00		377,573,342.00
River and harbor appropriation act	23,771,900.00	82,700.00	23,851,600.00
Sundry civil appropriation act	2,019,654,470.07	945,549,000.00	2,965,203,470.07
Total regular acts	17,390,153,826.49	5,461,430,346.00	22,851,584,172.49
Urgent deficiency appropriation act	731,901,789.46	1,250,000.00	733,151,789.46
Additional urgent deficiency appropriation act	90,700,022.62		90,700,022.62
General deficiency appropriation act	1,015,486,390.74		1,015,486,390.74
Total deficiency acts	1,838,088,202.82	1,250,000.00	1,839,338,202.82
Permanent annual and indefinite appropriations, including $588,049,168 interest on the public debt, $153,814,000 for the sinking fund, and $39,904,255.36 for the preparation and issuance of loans	[3] 844,507,368.36		[3] 844,507,368.36
Purchase of bonds issued by Federal land banks	200,000,000.00		200,000,000.00
Operation of railroads under Federal control and compensation to their owners	500,000,000.00		500,000,000.00
War Finance Corporation and Capital Issues Committee	500,200,000.00		500,200,000.00
Loans to our allies, by the third and fourth Liberty bond acts	3,000,000,000.00		3,000,000,000.00
Increased compensation to certain postal employees during 1919	[4] 26,946,030.00		[4] 26,946,030.00
Increase compensation to certain other Government employees during 1919	[5] 25,000,000.00		[5] 25,000,000.00
Miscellaneous appropriations, including $2,000,000 for vocational rehabilitation of soldiers and sailors	3,666,000.00		3,666,000.00
Total all other appropriations	5,100,319,398.36		5,100,319,398.36
Grand total	[6] 24,328,561,427.67	5,462,680,346.00	[6] 29,791,241,773.67

[1] Vetoed by the President. New bill not yet passed.
[2] Exclusive of the sum of $3,820, still in disagreement between the two Houses.
[3] Approximated as of date of May 11, 1918, for interest on public debt and expenses of loans.
[4] The estimated cost of increased compensation to postal employees during 1919 is $40,000,000 of which sum $13,053,970 is definitely appropriated in Post Office appropriation act and the sum of $26,946,030 is the approximate amount to be paid from the indefinite appropriation carried in the act for that purpose.
[5] Approximated.
[6] The bill to stimulate agriculture and to facilitate the distribution of agricultural products and the bill to encourage production and to regulate ores, metals, and minerals now pending in the Senate as passed by the House of Representatives require appropriations, respectively, of $11,212,283 and $10,500,000 in addition to the grand total stated herein.

(Continued on page 15.)

ORDER REGULATING MARKINGS ON U. S. ARMY SHIPMENTS

General Orders, No. 55.

IX. Paragraph 1, General Orders, No. 34, War Department, 1918, is amended as follows:

(1) Change subparagraph *a* (4) to read as follows:

a. * * *

(4) *U. S. number.*—This shall be the number officially assigned to a shipment by the Embarkation Service or such other agencies as may be empowered by the Embarkation Service to designate such numbers. The U. S. number shall consist of five parts.

(*a*) The letters U. S. indicating United States property.

(*b*) Figures representing the month and day of month.

(*c*) A code letter (or letters) indicating the organization unit orginating such number.

(*d*) Three figures indicating the number of the shipment authorized during a day, each day's designations commencing with "001."

(*e*) A package number — separated from preceding figures by a dash—the packages in each shipment being numbered from 1 up.

For example, U. S. 601X327—14 would represent the three hundred and twenty-seventh shipment authorized by the Embarkation Service (indicated by "X") on June 1 and the fourteenth package of that shipment. If the first part of number were U. S. 1214, etc., it would indicate a shipment authorized on December 14. This number need not be marked on packages containing subsistence supplies but shall appear on all transportation papers relating to such commodities. Indicate by marking this number, in its entirety, in upper right-hand corner of face of package or tags.

(2) In sixth line of subparagraph d, page 4, change the sentence "Use a black waterproof ink or stencil paint" to read "Use only U. S. Army stencil black oil paint."

(3) Add the following subparagraph:

e. Duplicate markings.—There shall be inclosed within each package a card of sufficient size on which shall be recorded in legible characters all the standard markings, established by this general order, appearing on the face and ends of the package, so that if all or any of the exterior markings are obliterated or defaced, the package will contain ample directions which will insure the required delivery to its destination.

[400.161, A. G. O.]

By order of the Secretary of War:

PEYTON C. MARCH,
General, Chief of Staff.

Official:
H. P. MCCAIN,
The Adjutant General.

ORDERED TO FORT OGLETHORPE.

Special Orders, No. 170.

133. Maj. Carl Lovelace, Medical Reserve Corps, is relieved from duty at the medical officers' training camp, Fort Riley, Kans., and will proceed to Fort Oglethorpe, Ga., and report in person to the commandant, medical officers' training camp, Camp Greenleaf, that post, for temporary duty.

GENERAL ORDER RELATING TO ARMY GOODS STORED OR SHIPPED AT EMBARKATION PORTS

GENERAL ORDERS, No. 54.

WAR DEPARTMENT,
Washington, June 3, 1918.

III. 1. At each primary port of embarkation the director of purchases, storage, and traffic will appoint a port storage officer on the staff of the commander of the port. The port storage officer will be in executive control of all storage facilities at the port, operated for the joint use of the several bureaus of the Army, and will exercise such control over the storage facilities operated by individual bureaus as may be necessary to coordinate the storage and shipping activities through bureau depots with the general supply movement of the port.

2. Each supply bureau will be represented at each primary port of embarkation by a port supply officer, appointed by the chief of the bureau. The port supply officers will serve on the staff of the commander of the port and will constitute the technical advisers and assistants of the port storage officer on all matters connected with the supplies of their respective bureaus. Their duties comprise all provisions necessary for the receipt, storage, preservation, and protection of supplies and material pertaining to their respective bureaus at the port, under the supervision of the port storage officer and in conformity with such regulations as he, under the authority of the commander of the port, may prescribe. They will keep themselves informed as to the plans and intentions of the commander of the port, making, through military channels, such reports to the chiefs of their respective bureaus as may be necessary to best facilitate the proper handling of supplies and material. On routine bureau matters not affecting the general policy of the port direct correspondence is authorized between port supply officers and their respective bureau chiefs. They will be prepared at all times to furnish the port storage officer with necessary information respecting the plans of their several bureaus.

3. Supplies intended for shipment overseas will be invoiced to the proper port supply officer, and the accountability for such supplies will cease when they are delivered to the embarkation service at the port concerned, port supply officers filing with their returns proper evidence of that fact. Accountability for engineer supplies may be dropped when turned over to a common carrier, as previously authorized in instructions of December 29, 1917, in which case the engineer port supply officer will have responsibility only for the property after receipt and until delivered to the embarkation service at the port, or, at the discretion of the supply officer, general engineer depot, they may be invoiced to the engineer port supply officer as in other bureaus, in which case they will be accounted for and dropped as specified for other bureaus.

4. Bureau chiefs charged with the administrative examination and settlement of property accounts may accept as proper vouchers to returns certified invoices, accompanied by sufficient evidence from embarkation supply officers that the property enumerated on such certified invoices has actually been shipped overseas.

5. Port supply officers will furnish the chiefs of their respective bureaus overseas with itemized lists of all property shipped abroad. These lists will be used to form the basis for the preparation of such returns and the establishment of such methods of property responsibility and accountability as, in the discretion of the commanding general, A. E. F., may be necessary and practicable in the premises. Chiefs of supply bureaus will empower representatives on the staff of the commanding general, A. E. F., to act in their names in all matters connected with the examination and settlement of property accountability in Europe, which, under the Army Regulations, are required to be performed by chiefs of bureaus of the War Department. In like manner the Secretary of War empowers the commanding general, A. E. F., to act in his name in all matters of property accountability in Europe which, under the Army Regulations, are required to be performed by the Secretary of War.

6. Supplies intended for oversea shipment through a port other than a primary port of embarkation will be shipped to the port quartermaster thereof, and accountability therefor will be dropped by the accountable officer on filing with his return certified invoices accompanied by proper evidence from the port quartermaster that the supplies have been shipped overseas. The itemized lists called for in paragraph 5 will be sent to chiefs of bureaus overseas by the port quartermaster.

7. Supplies turned over to the embarkation service for shipment overseas will be in the hands of that service until delivered to the Government representatives at ports of debarkation abroad, and in case of loss or damage during that time such proceedings and papers as may be necessary to protect the interest of the Government and to fix the responsibility for such loss or damage will be the duty of the embarkation service. Receipted copy of manifest showing delivery of supplies abroad will be considered sufficient evidence to relieve the embarkation service of further responsibility for such supplies.

8. The distribution of supplies and material to ports for shipment overseas will be made under the direction of the chiefs of the several supply bureaus, and all requisitions for the issue of supplies and materials will be originated by or handled through the chiefs of bureaus. All arrangements for the shipment of supplies overseas will be made through the commander of the port.

Expense at Ports.

9. The expense incurred at ports in handling and storing supplies and material will be divided between the different bureaus pro rata based on ship tonnage passing through those facilities at the port operated for the joint use of the several bureaus. The necessary transfer of funds will be made to the Division of Purchases, Storage, and Traffic.

10. These regulations are not intended to apply to property issued to individual enlisted men, a method of accounting for which has been provided in Army Regulations.

By order of the Secretary of War:

PEYTON C. MARCH,
General, Chief of Staff.

Official:
H. P. MCCAIN,
The Adjutant General.

STATEMENT ON APPROPRIATIONS AND EXPENDITURES

(Continued from page 11.)

Appropriations and expenditures, 1918.

	Appropriations for loans to allies.	All other appropriations.	Total appropriations.
Appropriations for fiscal year 1918	$7,000,000,000.00	$11,892,027,501.58	$18,892,027,501.58
Expenditures under above appropriations for 1918	[1] 5,623,029,750.00	7,958,672,721.14	13,581,702,471.14
Approximate balances under above appropriations for 1918	1,376,970,250.00	3,933,344,780.44	5,310,325,030.44
Appropriations for fiscal year 1919	3,000,000,000.00	21,328,561,427.67	[2] 24,328,561,427.67

[1] Includes $885,000,000 disbursed during the fiscal year 1917.
[2] In addition to this sum contracts are authorized to be entered into which aggregate $5,462,680,346 and for which appropriations subsequently will have to be made.

Approximate receipts, 1919.

Total bonds authorized to be issued, inclusive of $10,000,000,000 noted above for loans to allies		$22,000,000,000.00
Bonds issued		9,978,785,800.00
Remaining to be issued		12,021,214,200.00
War savings stamps:		
Authorized	$2,000,000,000.00	
Issued	307,092,391.00	
		1,692,907,609.00
Total bonds and war savings stamps authorized and issued		13,714,121,809.00
Revenues under existing tax laws for 1919		4,097,715,000.00
Postal revenues for 1919		349,800,000.00
Grand total		18,161,636,809.00

I trust to be able at a later date to give more accurately figures as to the actual expenditures for the past fiscal year, as well as an approximation of the likely expenditures for the present fiscal year of 1919. The statement of appropriations for 1919 is believed to be accurate within a few thousand dollars. It should be noted that as to this statement that the supply bills relative to the Department of Agriculture and the District of Columbia and the bill to regulate the production of minerals have not yet become laws, and the statement is predicated upon their present status.

WAR DEPARTMENT PROGRAM FOR TRAINING DETACHMENTS

The War Department Committee on Education and Special Training issues the following:

The War Department's program provides for the instruction of 220,000 soldiers in the National Army training detachments before June 30, 1919. Every two months 50,000 soldiers will be graduated from courses in essential trades of military value given in 110 educational institutions. To-day 17,000 soldiers inducted through the draft boards have completed such instruction.

46,000 Now in Training.

There are 46,000 in training now. By November 1 of this year 90,000 men will have been trained. These units of the National Army are on the same basis as other troops. The course provides for three hours daily military instruction and six hours daily of technical instruction. The latter is considered by the Government only additional equipment for the fighting man.

Must Be Physically Fit.

Members of the National Army training detachment must be physically fit. At present only 500 men have been accepted for "limited service." The high standard of physical condition must be kept because the soldiers from these detachments will largely be assigned to combatant units. If retained in organizations where they continue the industrial work they must be equal also to continuing it under fire and must therefore be fighters. Plans are being formulated for opening this branch of the Army for enlistment of physically fit men outside the present draft age.

DISCUSS PLANS TO CONSERVE FURNITURE-MAKING MATERIALS

The War Industries Board authorizes the following:

Representatives of the furniture manufacturing industry of the United States have conferred with officials of the Conservation Division and the Wood Products Section of the War Industries Board over plans to be worked out by the industry for the conservation of materials and also of space in the transportation of the products.

Plans to Be Made Later.

A number of suggestions along these lines were made to the manufacturers by the representatives of the War Industries Board. These suggestions will be carried back to the industry to be considered in detail and a report will be made later by the industry to the board. The plans that will be formulated for this industry will be similar to those that the Conservation Division already has put into effect in many other industries.

Concerns Represented.

The concerns represented at the conference were: National Alliance of Case Goods Manufacturers, Library Table Association, Southern Furniture Manufacturers Association, National Association of Bedding Manufacturers, National Commercial Fixtures Association, National Willow Furniture Manufacturers, Extension Table Manufacturers, National Association of Piano Bench Manufacturers, Upholstered Furniture Association, Parlor Frame Manufacturers Association, and National Association of Chair Manufacturers.

Rules for Writing Paper Manufacture Issued by the War Industries Board

The War Industries Board has sent out the following to writing paper makers:

WASHINGTON, D. C., *July 12, 1918.*

DEAR SIR: Because of the present and prospective shortage of raw materials resulting in curtailment of tonnage, it is necessary that economies both in production and consumption shall become immediately effective.

At a conference with representatives of writing paper manufacturers, held at the offices of the Pulp and Paper Section, the attached recommendations were made, and it is now the purpose to make these changes effective August 1 unless substantial reasons are immediately presented to show that by some modifications the purposes of the Government can be better carried out.

Yours truly,

T. E. DONNELLY,
Chief, Pulp and Paper Section.

List of Regulations.

First. That all writing papers be made to substance numbers.

Second. That the maximum basis of weight for different grades of paper be as follows:

(A) All bond papers, maximum weight substance No. 20.

NOTE.—It is further recommended that in special cases permits be given for the use of No. 24 for Government and legal documents.

(B) Flat writings, maximum weight substance No. 24.

NOTE.—It is suggested that a recommendation be made that the No. 24 substance weight be used only for special purposes and that as far as possible the flat writings be confined to 20 pounds or lighter weight substance.

(C) Wedding and note correspondence paper, maximum weight substance No. 28.

(D) Ledger papers, maximum weight substance No. 36.

NOTE.—It is suggested that the ledger papers be made only in five thicknesses, i. e., 20, 24, 28, 32, and 36 substance weights. The recommendation that 32 and 36 be used only for permanent records in forms for large record books.

(E) Pasted wedding bristols to be manufactured only in two and three sheets, substance No. 28, i. e., 21 by 33, 52 pounds.

Third. That all grades of paper manufactured be reduced to as few as possible, and not more than five grades each of flat writings, bonds, or ledger paper be manufactured in any one mill.

Fourth. That colors be reduced, exclusive of white, in any one grade as follows: Bond papers to six, flat writings to six, ledgers to buff, envelope papers to six, cover papers to seven, wedding and note papers to five.

Fifth. That all index bristols be run to substance numbers in three weights, namely, No. 52, 68, and 84, the latter being a maximum weight, and that the colors be reduced to three, exclusive of white, namely, buff, blue, and salmon.

Sixth. That all shipping rolls of writing papers be wrapped instead of cased.

Notice of Ordnance Contracts Awarded

The War Department authorizes the following from the Ordnance Department:

Announcement is made by the Ordnance Department that it has negotiated contracts for ordnance material with the following concerns:

Kohler Co., Kohler, Wis., and American Radiator Co., Buffalo, N. Y., for 155 mm. shells;

American Radiator Co., Buffalo, N. Y., for 4.7-inch shells;

John Inglis Co. (Ltd.), Toronto, Canada, for antiaircraft shell forgings;

Gordon C. Edwards, Toronto, Canada, for booster casings.

ASSIGNED TO GARDEN CITY.

Special Orders, No. 170:

211. Maj. Charles T. Waring, Signal Corps, will proceed to Garden City, Long Island, N. Y., and report in person to the commanding officer, aeronautical general supply depot and concentration camp, for duty.

STATUS OF THE COLLEGE MAN IN STUDENTS' TRAINING CORPS

The War Department, Committee on Education and Special Training, issues the following:

The military status of the college man in the ranks of the Students' Army Training Corps and his relation to the draft have been cleared up by a War Department decision. The student soldier is enlisted already in military service of the United States. Upon reaching draft age he becomes subject to registration whenever the President directs. He is then placed in class 5-D by his local board. The draft board will not include him in calls for induction as long as he remains in the S. A. T. C.

On the day the order number of the student soldier is reached the fact is reported to the college president, to the commanding officer, and to The Adjutant General. A report upon the man's record as a student soldier and as a scholar is put before the War Department's Committee on Education and Special Training with the recommendation that he be called at once to an officers' training camp, called to an Army camp, or permitted to complete college training by transfer to the Enlisted Reserve Corps.

Official Bulletin

PUBLISHED DAILY under order of THE PRESIDENT of THE UNITED STATES by COMMITTEE on PUBLIC INFORMATION
GEORGE CREEL, Chairman ★ ★ ★ COMPLETE Record of U. S. GOVERNMENT Activities

VOL. 2 WASHINGTON, SATURDAY, AUGUST 3, 1918. No. 377

FUEL ADMINISTRATOR TO DRAFT PETROLEUM SPECIFICATIONS

Executive Order of President Places New Power in Hands of Dr. Garfield.

The United States Fuel Administration has made public the following Executive order issued by President Wilson:

Executive Order.

Whereas, in order to avoid duplication of effort, and in the interest of economy and the more efficient concentration of the Government and for the better utilization of resources and industries, it is desirable that there shall be a standardization of specifications for the supply of petroleum and its products to the United States Government,

Now, therefore, I, Woodrow Wilson, President of the United States, by virtue of the authority vested in me as Chief Executive, and by virtue of the powers conferred on me by the act of Congress entitled "An act authorizing the President to coordinate or consolidate executive bureaus, agencies, and offices, and for other purposes, in the interest of economy and the more efficient concentration of the Government," approved May 20, 1918, do hereby order that the function, power, and duty of preparing and adopting specifications for the supply of petroleum and its products to any and all departments, bureaus, agencies, and offices of the Government, be transferred to and exercised by the United States Fuel Administrator. The United States Fuel Administrator shall exercise such functions, powers, and duties through a

(Continued on page 8.)

Submarine Sinks Schooner Off Coast of Nova Scotia; Carries Away Provisions

The Committee on Public Information issues the following:

The Navy Department is informed that nine men in a dory who landed at Gannet Rock Light at 6.30 a. m. to-day (Aug. 3), reported that a schooner was sunk by submarine at 11.05 o'clock yesterday morning 35 miles west-southwest of Briar Island, near the coast of Nova Scotia.

The submarine crew took off provisions from the schooner and then set it afire, they reported. The submarine, they said, appeared to be about 200 feet long and carried two guns.

FIXED PRICE CONTRACTS TO BE RULE IN BUYING ARMY SUPPLIES

Cost-Plus Agreements Will Be Used Only in Exceptional Cases, It Is Announced.

The War Department authorizes the following statement:

It has been decided by the Superior Board of Review of the General Staff that, wherever possible, fixed price contracts shall be used in the purchase of supplies for the War Department.

In the exceptional cases, where it is clearly to the advantage of the Government that a cost plus contract be used, a cost plus fixed compensation contract is to be made, rather than a cost plus percentage contract.

Boards Must Approve Contracts.

The decision on all such contracts is not to be made by any individual. Hereafter no cost plus contract will be made, unless it has first been approved by the particular supply bureau's board of review. Such boards have now been established in every bureau that has to do with the making of contracts of the procurement of supplies. These boards are composed of officers and civilians who have not taken any part in the preliminary arrangements of the proposed contract.

Further Check To Insure Fairness.

As a further check to insure absolute fairness to the Government, it has been decided that no cost plus contract shall be approved by a supply bureau board of review, unless the making of cost plus contracts under the particular circumstances involved shall first have been approved by the Superior Board of Review. This board is composed of the Director of Purchases and Supplies, chairman; the Surveyor of Contracts and the chairmen or the chief procurement officers of the supply bureau's boards.

The Superior Board of Review operates on policies formulated by the General Staff through the Purchase, Storage and Traffic Division.

MORE THAN 300,000 MEN EMBARKED DURING JULY; 1,300,000 MARK CROSSED IN OVERSEAS MOVEMENT

NO CASUALTY ESTIMATE

Gen. March, Chief of Staff, Reviews Battle Situation. Ground so Covered With German Dead That Allied Troops Could Not Advance Without Walking on Them—Enormous Quantities of Munitions Abandoned by Enemy.

Press interview by Gen. March August 3, 1918:

When I spoke to you last on Wednesday, the two opposing lines had been nearly stationary and engaged in more or less desperate fighting during July 30 and 31. Since that time blows on both flanks were resisted by the Germans until, on August 1, heavy attacks by the British and French on the Chadun Plateau, south of Soissons and further southeast around Deugneux, bent back the enemy's line at this point for a distance something like two miles. The result of these blows on the flanks forced a retirement along the entire German front on August 2.

On the west flank the enemy had to retire across the Crise River, and the French walked into Soissons. In the center during the day of August 2, the retirement covered an average distance of from three to four miles on a front of 30 miles.

On the east flank, on the heights west of Rheims, our advance was finally on a

(Continued on page 2.)

General Pershing Explains Delay in Collecting Lists of Casualties

The Secretary of War authorizes the following:

I have received a cablegram from Gen. Pershing with regard to reports of casualties. He points out that our troops are still widely separated, serving in many places, and that our wounded are taken to French and British hospitals as well as our own, causing great difficulty and complication in securing accurate information. In addition to this, the troops are separated from their records while in the area of conflict and must depend upon very inadequate and temporary telegraph lines which are subject to frequent interruption and must, for the most part, be devoted entirely to the urgent business of the battle itself. Gen. Pershing assures me that he is making every effort to collect casualty lists, have them confirmed and verified, and that they will be transmitted promptly.

Conference Held at State Department With Director of Bureau at Habana On International Trade-Mark Registry

On Thursday, July 11, 1918, a meeting was held at the office of Assistant Secretary of State Phillips for the purpose of presenting Dr. Mario Diaz Irizar, director of the International Trade-Mark Registration Bureau of the Americas established at Habana by the Cuban Government, to representatives of a number of the executive departments of the United States interested in the operation of the new bureau, as well as to representatives of international organizations, such as the Pan American Union and the International High Commission, directly concerned with the carrying into effect of the convention and agreements concluded at the Pan American Conference held at Buenos Aires in 1910, the Pan American Financial Conference held in Washington in 1915, and at the meeting of the International High Commission held in [illegible].

Convention Signed at Buenos Aires.

At the Fourth International Conference of American States in Buenos Aires in August, 1910, a convention concerning the protection of trade-marks was signed by representatives of 20 American Republics. The convention provided for the establishment of two registration bureaus, respectively, at Habana for North, Central, and West Indian America, and one at Rio de Janeiro for South America. The two bureaus were intended to register certificates of ownership of trade-marks issued by the respective trade-mark offices of the countries of origin of registrants. The bureaus were intended to exchange each week records of such registration and in this way, upon the payment of a single fee at either of the bureaus, a registrant would automatically secure protection of his trade-mark in all the countries of the hemisphere which had ratified the convention. When two-thirds of the countries comprising either group had ratified the convention the bureau corresponding to that group was to be opened. Accordingly, in December, 1917, the President of Cuba was able to inaugurate the bureau at Habana for the [illegible] group, a sufficient number of countries having ratified the convention. The bureau at Rio de Janeiro can not be opened until three more countries have ratified the convention.

Countries Ratifying Convention.

A list follows of the countries in the two groups which have to date ratified the convention or adhered to it:

Southern group.—Brazil, Ecuador, Paraguay, and Bolivia.

Northern group.—United States, Cuba, Dominican Republic, Guatemala, Honduras, Nicaragua, Panama, Costa Rica.

The Cuban Government has already appropriated $10,000 toward the expenses of the bureau during its first year of operation, and has ceded an appropriate site for the construction of a permanent home for the bureau. It has further generously contributed toward the cost of erecting such a home to the amount of $25,000. The total cost of erection and the cost of maintenance of the bureau will be borne by the countries of the northern group, respectively, in a manner similar to the proportional contribution made by the American Republics toward the support of the Pan-American Union. The same procedure will be followed later in the case of the bureau at Rio de Janeiro.

Dr. Irizar's Mission.

Having dispatched a number of matters preliminary to the actual opening of the bureau, Dr. Mario Díaz Irízar, the director, has come to Washington to confer with the trade-mark authorities of the United States Patent Office. The conference was opened formally, as stated above, at a general meeting presided over by the Assistant Secretary of State. At this meeting there were present Hon. William Phillips, Assistant Secretary of State; His Excellency Dr. Carlos M. de Céspedes, minister of Cuba to the United States; Dr. Mario Díaz Irízar; Hon. L. S. Rowe, Assistant Secretary of the Treasury, and secretary general of the central executive council, International High Commission; Hon. F. J. Yanes, assistant director, Pan-American Union; Hon. James T. Newton, Commissioner of Patents; Hon. Lester Woolsey, Solicitor of the Department of State; Hon. Julius G. Lay, foreign trade adviser of the Department of State; Hon. Thorvald Soldberg, Register of Copyright; Dr. C. E. McGuire, assistant secretary general, International High Commission; Mr. C. P. Carter, assistant to the chief, Bureau of Foreign and Domestic Commerce, Department of Commerce; Mr. C. M. Barnes, assistant to the adviser on commercial treaties, Department of State.

Speakers at Meeting.

After Mr. Phillips had outlined the purposes of the meeting and expressed the gratification of all interested parties that the Cuban Government had been able so promptly and vigorously to carry into effect the duties imposed upon it by the convention of 1910, Dr. Díaz Irízar briefly surveyed the task which the bureau at Habana would have to undertake. He set forth the steps taken by the Government of Cuba to give effect to the convention and the personal wish of President Menocal to help in any way possible.

Dr. Rowe pointed out that in his conference here Dr. Díaz Irízar could not only derive assistance from the appropriate technical officials in the formulation of his rules, but that he in turn could be of great assistance to these officials in preparing domestic legislation here necessary to give effect in the United States to the Trade-Mark Convention.

Thanks Cuban Minister.

Mr. Phillips thanked the Cuban minister for the prompt and effective way in which the Government of Cuba, and in which he, personally, had contributed to the realization of the system of protection of this branh of industrial property contemplated by the convention of 1910.

His excellency the minister of Cuba then expressed the sincere intention of his Government to do all that might be necessary to make the work of the new bureau in every way satisfactory.

A small committee was then selected to confer with Dr. Díaz Irízar during his stay in Washington.

MORE THAN 300,000 MEN SENT TO FRANCE IN MONTH OF JULY

(Continued from page 1.)

4-mile front for a distance of about 1 mile.

Our line last evening ran nearly parallel to the valley of the combined Vesle and Ardre Rivers, and the distance from where we are to their position, which is a more or less natural defensive position, is only a little more than 6 miles.

The perimeter of this gradually diminishing salient has now come down to 48 miles on August 2, from 74 miles at the start. The depth of the enemy's retirement is now 16 miles.

During this advance, beginning with the counter-offensive, we have had eight United States divisions now engaged, 1st, 2d, 3d, 4th, 26th, 28th, 32d, and 42d. We have located definitely the troops which were engaged against the Fourth Prussian Guards. They were the 42d Division—the Rainbow Division.

The objective of our forces is still the enemy's army, and the success of the advance is indicated by the confidential cablegram, which I am going to read to you.

Ground Covered with Corpses.

An officer of Gen. Muir's (Twenty-eighth) Division just returned from Fere-en-Tardenois reports that it does not seem possible for an army to have gathered as many guns, as much ammunition as the Germans had abandoned in their retreat, which had been so hasty that they had not time to bury their dead. The ground was so covered with corpses that it was impossible to advance without walking over them, and further, that the advance of the Twenty-eighth Division had been extremely rapid in spite of the fact that their position was some distance from the nearest railroad.

In connection with the American forces abroad there has been some discussion about the proportion of the forces which is brigaded with the British, and I will say that Gen. Pershing has in his own area as his own force, not brigaded with the British, over 1,000,000.

The number of men embarked during the month of July, just closed, was over 300,000. That breaks the record; the previous high record was in the preceding month, when we reached 276,000. The number of men embarked to France is now over 1,300,000.

Answers to Written Questions.

Gen. March replied to written questions as follows:

Question: Is the Seventy-ninth Division the division from which troops have been shipped to Italy?

Answer: No.

Question: What are the names and assignments of brigadier generals returning from France?

(Continued on page 5.)

FOURTH BI-WEEKLY OFFERING OF U. S. TREASURY CERTIFICATES IS ANNOUNCED BY SECRETARY

MINIMUM PLACED AT $500,000,000

Reduction in Amount Made Possible by Increased Returns From War Savings Stamps, Income and Excess Profits Taxes.

The Treasury Department authorizes the following:

In consequence of the over-subscription of the first three issues of Treasury Certificates in anticipation of the Fourth Liberty Loan and the increased returns from War Savings Certificates and from income and excess profits taxes, the Secretary of the Treasury finds it possible to reduce the minimum amount of the fourth bi-weekly offering of Treasury Certificates to five hundred million dollars. This, however, is only a minimum amount, and those institutions which have made arrangements to subscribe their share on the basis of an offering of seven hundred and fifty million dollars will be free to do so.

Terms of the Offer.

The Secretary of the Treasury, under the authority of the Act approved September 24, 1917, as amended by the Act approved April 4, 1918, offers for subscription, at par and accrued interest, through the Federal Reserve Banks, $500,000,000 or more Treasury certificates of indebtedness, Series IV D, dated and bearing interest August 6, 1918, payable December 5, 1918, with interest at the rate of 4½ per cent per annum. Applications will be received at the Federal Reserve Banks. Subscription books will close at the close of business August 13, 1918. Certificates will be issued in denominations of $500, $1,000, $5,000, $10,000, and $100,000. Said certificates shall be exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) graduated additional income taxes, commonly known as surtaxes, and excess profits and war profits taxes, now or hereafter imposed by the United States, upon the income or profits of individuals, partnerships, associations, or corporations.

Interest and Taxation.

The interest on an amount of bonds and certificates authorized by said act approved September 24, or by said act as amended by said act approved April 4, 1918, the principal of which does not exceed in the aggregate $5,000, owned by any individual, partnership, association, or corporation, shall be exempt from the taxes provided for in clause (b) above. Upon ten days' public notice, given in such manner as may be determined by the Secretary of the Treasury, the certificates of this series may be redeemed as a whole at par and accrued interest on or after any date, occurring before the maturity of such certificates, set for the payment of the first installment of the subscription price of any bonds offered for subscription by the United States after the offering and before the maturity of such certificates.

Accepted at Par.

The certificates of this series, whether or not called for redemption, will be accepted at par, with adjustment of accrued interest, if tendered on such installment date in payment on the subscription price then payable of any such bonds subscribed for by any allotted to holders of such certificates. The certificates of this series do not bear the circulation privilege and will not be accepted in payment of taxes. The right is reserved to reject any subscription and to allot less than the amount of certificates applied for and to close the subscriptions at any time without notice. Payment at par and accrued interest for certificates allotted must be made on and after August 6, 1918, and on or before August 13, 1918. After allotment and upon payment Federal Reserve Banks will issue interim receipts pending delivery of the definitive certificates. Qualified depositaries will be permitted to make payment by credit for certificates allotted to them for themselves and their customers up to an amount for which each shall have qualified in excess of existing deposits when so notified by Federal Reserve Banks.

Federal Banks' Authority.

As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions and to make allotment in full in the order of the receipt of applications up to amounts specified in their respective districts.

Captured German Officer's Diary Records Sudden Amendment of His Estimation of the American Marine as a Fighter

Secretary Daniels authorizes the following:

How the contemptuous opinion of the Germans for the fighting ability of American troops may be changed literally overnight is shown in an extract from the diary of a German officer who was captured and taken into the American lines by the Marines. A translation of the diary has just been received at Marine Corps headquarters.

Reserve Lieut. Tillmanns, the writer of the diary, belonged to the Second Battalion of the Fortieth Regiment (Baden Guards), Twenty-eighth Division. This was the fourth division which the Marines had against them in the fighting around Chateau-Thierry. The other three were so badly cut up that they could not carry out their orders to attack.

Diary Tells the Story.

The extract from Lieut. Tillmann's diary follows:

"June 6th: Departure from Rocourt 3 p. m. to Breuyres further back Coincy. We had to move out of Rocourt because it did not belong to our sector. Rear is crammed full of troops. Billets, therefore, very scarce.

"June 7th: At the front. American troops have made counterattacks. We have to move to the front again. Route of march over Rocourt Epaux. We are lying in the woods to the right of Etrepilly for the present, in position. In the night of 8th and 9th we will relieve the front line. It must be a sad outfit which allows itself to be thrown out by the Americans. In the evening of the days of the 8th, there was heavy artillery fire. Fortunately, the artillery fire did not reach us.

"June 8th to 9th: Moved forward at night and relieved the 461st Regiment at 4 in the morning in the Bois de Belleau. Incomprehensibly wide sector. Where there were three companies, we have only one.

"Worst Night of His Life."

"June 9th to 10th: The worst night of my life. I am lying in the thick woods on an open height in little holes behind rocks, for this is heavy artillery fire, until 6 o'clock in the morning. It is a wonder that the fellows were all at their posts when the Americans attacked. The attack, thank God, was repulsed. God has again mercifully preserved me."

The diary ends abruptly, as the next day the writer was a prisoner in the hands of the Americans.

Lieut. Meyering Wins Distinguished Service Cross for Bravery

WAR ORDERS, No. 59.

WAR DEPARTMENT.
Washington, June 22, 1918.

By direction of the President, and under the provisions of paragraph 3, General Orders, No. 6, War Department, 1918, the distinguished-service cross was awarded on May 30, 1918, to First Lieut. William D. Meyering, 23d Infantry, for extraordinary heroism in action while commanding a platoon of infantry which was attacked by the enemy on the morning of April 6, 1918. He took effective measures before and during the attack to defeat the enemy and handled his men well, under fire, until he was seriously wounded. Forced to attend to his wound, he refused assistance and walked through the enemy's barrage to a dressing station. He objected to being taken to the rear till he knew the outcome of the attack. His brave example inspired his men to drive off the enemy, who did not reach our trenches. He lost his right hand by amputation as the result of the wound.

By order of the Secretary of War:

PEYTON C. MARCH,
General, Chief of Staff.

Official:
H. P. MCCAIN,
The Adjutant General.

Better than money because they earn money; buy a WAR-SAVINGS STAMP TO-DAY.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor.*

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 13, 1917.

American Communiques

The following is authorized by the Secretary of War:

American Official Communique No. 79.

[illegible]
Headquarters, French Armies,
August 1, 1918.

[illegible] the line of the enemy's local attacks, arising [illegible] made in our troops and counter-attacks launched by the enemy, have occurred at several points. We have taken the village of Clerges and advanced beyond it. The situation in this vicinity is [illegible].

American Official Communique No. 80.

[illegible] 2, 1918.

Section A.—Yesterday on the line of the Ourcq our troops in hard fighting captured Hill 230, south of Coulonges, and the woods east of the [illegible] the enemy, relinquishing his efforts to stop our advance, commenced to fall back, with our troops in close pursuit. The fire of our artillery has interrupted his communications, and he is attempting to destroy large quantities of material [illegible], which has already progressed to a depth of 5 miles, continues.

Last night our aviators successfully bombed the railroad station and yards at Conflans. Numerous hits were made, causing several fires and one large explosion. All of our machines returned.

GENERAL TERM "AIR SERVICE" TO DESIGNATE TWO BUREAUS

The War Department authorizes the following:

In a communication received at the offices of Maj. Gen. W. L. Kenley and Mr. John D. Ryan, from the Adjutant General's Office, it is stated that hereafter Air Service will be the general term including the Division of Military Aeronautics and the Bureau of Aircraft Production.

The officers and enlisted men of the Division of Military Aeronautics and those serving in the Bureau of Aircraft Production shall be known as members of the Air Service, Military Aeronautics, and Aircraft Production, respectively.

The chief of the Bureau of Aircraft Production will hereafter be addressed as the Director of Aircraft Production, and the chief of the Division of Military Aeronautics, as the Director of Military Aeronautics.

PLANS DISCUSSED FOR FIXING MAXIMUM PRICES FOR RAGS

The War Industries Board authorizes the following:

A. L. Gifford, the Rag and Fiber Administrator of the Woolens Section, was in conference on Thursday with several section heads and other officials of the War Industries Board. The subject of discussion was the establishment of maximum prices on rags, and plans are being formulated as rapidly as possible, taking all interests into consideration.

Upon the completion of these plans, which are in a measure dependent upon reports which are in preparation by various representatives of the rag industry, an announcement will be made of a definite policy and of such regulations as it is deemed advisable to put into force to conserve the interests of the Government in its relation with the rag industry.

New Production District for Ordnance With St. Louis Named as Headquarters

The War Department authorizes the following from the Ordnance Department:

The Ordnance Department announces the establishment of a new production district in the United States, to be known as the St. Louis production district. Its headquarters will be at St. Louis, and M. E. Singleton, of that city, has been named ordnance district chief.

The territory to be embraced in the St. Louis district, as well as the date on which the St. Louis office will start operations, will be announced later.

Division of the country into production districts was undertaken by the Ordnance Department as part of its plan of decentralization and in order to promote more rapid and efficient methods of carrying out the enormous ordnance program. Under this system the production work in each district is under its own responsible head, who is answerable directly to the Ordnance Department in Washington.

Number of Motor Vehicles of All Sizes Purchased for the Quartermaster Service

The War Department authorizes the following:

From April 8, 1917, to July 1, 1918, the motor transport service of the Quartermaster Corps purchased 27,005 motorcycles and 25,874 side cars for motorcycles. During the same period 8,809 motor ambulances were purchased.

On July 1 reports showed that there were overseas 4,398 motor trucks of less than 1-ton capacity, 5,703 1½-ton trucks, 7,987 3 to 5 ton trucks, and 3,420 passenger cars.

Prospective deliveries of motor trucks for July were 4,797; for August, 4,355; and for September, 4,448.

Prices Paid for Foodstuffs for Army by Subsistence Division During July

The War Department authorizes the following:

Prices paid by the subsistence division of the Quartermaster Corps for the most important articles of food supplies to the camps and cantonments in the month of July were as follows:

The base price for Army beef in July was $23.05 per hundred pounds at Chicago. The Army cut of beef is worth $1 per hundredweight more than the standard cut. Hams were purchased at 31 cents per pound, delivered at camps, and bacon at 43½ cents per pound, delivered at camps.

July purchases of butter were made on an average of 42½ cents per pound, f. o. b. Chicago, and 43½ cents delivered at camps. July prices for oleomargarine were 26¼ cents per pound, f. o. b. Chicago, and on an average of 27½ cents per pound delivered at camps. The price for lard was 26½ cents delivered at camps and for lard substitutes 21¾ cents per pound delivered at camps.

Flour was purchased at $11.10 per barrel of 196 pounds, packed in 98-pound sacks, f. o. b. Chicago. The average price for sugar was $7.30 per hundred pounds, f. o. b. seaboard refineries. Potatoes were purchased at an average cost of $2.84 per hundred pounds delivered at camps, and the average price paid for onions in July was $2.97 per hundred pounds delivered at camps.

WORK OF CONGRESS BRIEFLY TOLD

Following the session of the Ways and Means Committee yesterday afternoon, Chairman Kitchin announced that the committee had reached a tentative decision to practically double all taxes on cigars, cigarettes and tobacco. In some instances the increases are more than double existing rates. This action is independent of the increases previously adopted with respect to the special license tax on manufacturers of tobacco. Internal revenue taxes on tobaccos under existing law yield about $168,000,000 and yesterday's action if finally written into the bill, is expected to increase the total taxes from this source to about $340,000,000. The proposed new rates which are to be paid by the manufacturer or importer, are as follows:

On cigars weighing not more than three pounds per 1,000, $2 per 1,000 (present tax $1); cigars weighing more than three pounds per 1,000 and retailing at not more than 4 cents each, $5 per 1,000 (present tax, $3); cigars weighing more than three pounds per 1,000 and retailing for more than 4 cents and not over 7 cents each, $10 per 1,000 (present tax, $4); cigars weighing more than three pounds per 1,000, selling for more than 7 cents each and not more than 15 cents, $15 per 1,000 (present tax, $6); cigars weighing more than three pounds per 1,000, selling for more than 15 cents each and not more than 20 cents, $20 per 1,000 (present tax, $8); cigars weighing more than three pounds per 1,000, selling for more than 20 cents each, $30 per 1,000 (present tax, $10).

Cigarettes weighing not more than 3 pounds per 1,000, retailing at less than 2 cents each, $5 per 1,000 (present tax, $2.05); cigarettes of same weight retailing at 2 cents each or more, $8 per 1,000 (present tax, $2.05); cigarettes weighing more than 3 pounds per 1,000, $10 per 1,000 (present tax, $4.80 per 1,000).

Tobacco, including leaf, plug, chewing or smoking, 30 cents per pound (present tax, 13 cents).

Cigarette papers and tubes for cigarette manufacture will pay a tax equal to double the amount now paid. On packages of papers, containing from 25 to 50 papers, the present tax of one-half of 1 cent is increased to 1 cent; packages containing from 50 to 100 papers will pay 2 cents instead of 1 cent; packages containing more than 100 papers will be taxed 1 cent for every 100 papers. The tax on cigarette tubes is raised from 2 cents per 100 to 4 cents.

The committee has made such headway that it was stated yesterday the bill might be made ready to report when the House reconvenes August 19. The subcommittee to which was referred the so-called luxury list of the Treasury Department made some progress yesterday and expects to be able to submit a final report to the full committee by Monday.

CAMP DONIPHAN DISCONTINUED.

General Orders, No. 55:

I. Camp Doniphan is discontinued as a separate encampment, and General Orders, No. 95, War Department, 1917, is amended accordingly.

MORE THAN 300,000 MEN SENT TO FRANCE IN MONTH OF JULY

(Continued from page 2.)

Answer: The general officers returning from France are as follows: Brig. Gen. James J. Hornbrook, assigned to the Southern Department; Brig. Gen. Charles W. Kutz, assigned to command the Engineer Camp at Camp Humphreys; Brig. Gen. George C. Saffarans, assigned to Seventeenth Brigade, Ninth Division, Camp Sheridan, Montgomery, Ala.; Brig. Gen. Alfred A. Hickok, assigned to Nineteenth Brigade, Tenth Division, Camp Funston, Kans.; Brig. Gen. Douglas MacArthur, assigned to Twenty-first Brigade, Eleventh Division, Camp Meade, Md.; Brig. Gen. John N. Hodges, Twenty-third Brigade, Twelfth Division, Camp Devens, Mass.; Brig. Gen. Cornelius Vanderbilt, Twenty-fifth Brigade, Thirteenth Division, Camp Lewis, Wash.

Question: Who is commander of the 85th Division?

Answer: This division was under the command of Maj. Gen. William M. Wright, who has now been assigned temporarily to the command of a corps, and the senior officer left with the division until a new Major General is appointed is Brig. Gen. J. L. Hines. He is assumed to be in temporary command of that division.

Question: Where is the 28th Division?

Answer: Still on the front line. I have pointed out that it is in this drive.

Question: What can you say regarding the activities and location of the 35th and 89th Divisions?

Answer: The 35th is actually on the line in the Vosges, in a quiet sector not far from the Swiss frontier. The 89th has reached France, but we have had no further report.

In connection with the assignment of officers to new divisions, I have assigned Maj. Gen. Jesse McI. Carter, Chief of the Militia Bureau, to command one of the divisions, and will detail an officer temporarily in charge of the militia activities during the remainder of the war.

Verbal Questions and Answers.

Verbal questions answered by Gen. March:

Question: Most of the questions asked about the corridor relate principally to the mooted question of casualties. Various numbers have already been suggested.

Answer: The casualty question I understood was to be covered by the Secretary of War, and I believe he did say something about it. Gen. Pershing replied to our order to send in all casualties that the delay in sending them in was due to the fact that our men were serving under the British and the French as well as under our own commanders, but that casualties would be cabled as soon as they had been completely verified. You can well imagine how disastrous it would be if the casualties were cabled and then corrections had to be made. The distress would be beyond all question, and so these lists are going to come in and as soon as they do come in they will be given out, whatever they are.

Question: Can you tell how many corps are operating as corps—as complete units?

Answer: In this sector of the line (indicating the line just captured on Percen-Tardenois) our First Corps is operating, with Gen. Liggett in command. You will see by the position of the flags that our divisions have now been put in contiguously and are actually getting together as an American force.

Question: Has the Thirty-fifth Division been put in place of the Thirty-second on the Swiss frontier? Last week you reported the Thirty-second on the Swiss border and now in the fighting line.

Answer: Yes; in nearly the same place.

Question: Have you any information as to what extent the light Browning machine gun has been used and how effective it has been?

Answer: We have no reports. Details like that come in in written reports as the tests progress, and of course Gen. Pershing in sending cables sends only the broadest details. If there is any suspicion in our minds that something isn't working well, we cable and ask for a special report. But if anything comes in I will be very glad to give it out.

No Casualties Estimate.

Question: Have you any estimate as to the number of casualties?

Answer: None whatever.

Question: Have you any mention of names in the Forty-second Division?

Answer: No. You know that the division is under Gen. Menoher and that his chief of staff was Col. (now Brigadier General MacArthur. Both have done splendidly, the division has done splendidly. If any mention is made in the cables of any officers junior in rank I will give it out every time.

Question: How many men have been sent to Italy?

Answer: I do not know how many have actually arrived there yet. I told you the actual strength of the first batch sent from America. They are arriving there and as reports come in as to the strength in Italy I will be glad to give them out.

Question: Can you say what unit has gone to Italy?

Answer: No. I do not think that the unit has been identified by the enemy.

Question: Are the men in Italy actually on the fighting line?

Answer: Not as far as now reported.

July Saving Stamp Sales Pass All Prior Records

The Treasury Department issues the following:

For the month of July the cash receipts in the Treasury Department from the sales of war savings and thrift stamps surpassed all previous records, totaling $211,417,942.61, and representing an investment or a loan to the Government at the average rate of $2 for every man, woman, and child in America.

From the beginning of the war savings campaign, and up to and including July 31, total receipts from the sales of war savings securities are $518,510,334.03, this representing the purchase of war savings stamps to a total maturity value of $624,711,245.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

ARMY

The following casualties are reported by the commanding general of the American Expeditionary Forces, the emergency addresses following immediately after the names:

Killed in action	112
Died of wounds	11
Died of disease	11
Died of accident and other causes	5
Wounded severely	56
Wounded (degree undetermined)	2
Missing in action	9
Total	206

Killed in Action.

Maj. James B. Nalle. Mrs. J. B. Nalle, Cairo Apartment, Washington, D. C.

LIEUTENANTS.

Herman St. J. Boldt, jr. Maj. H. St. J. Boldt, 39 East Sixty-first Street, New York, N. Y.

James Aubrey Cooper. J. T. Cooper, R. F. D., Box 40, Hale Center, Tex.

Harry Stevenson George. Wesley D. George, 100 McNaugher Street, Pittsburgh, Pa.

Byron H. Mehl. Mrs. H. W. Mehl, 527 Chestnut Street, Leavenworth, Kans.

Robert O. Purdy, jr. R. O. Purdy, sr., Sumter, S. C.

Charles M. Stramberg. Miss Anne Stramberg, 26 Hamlet Street, Somerville, Mass.

Mas. Engr. Hugh G. Middletown. Mrs. Marie V. Cahoon, Attalla, Ala.

SERGEANTS.

Harry Benjamin Bloyd. Mrs. Flora E. Bloyd, Kelso, Wash.

Michal John Clanders. Mrs. Lena Kelly, 2243 Marigney Street, New Orleans, La.

Ray M. Karls. S. F. Karls, Jasper, Mo.

Lee Meece. Bill Meece, Dykes, Ky.

Lewis A. Pye. Miss Clara Pye, 199 Leighton Avenue, Rochester, N. Y.

CORPORALS.

James H. Bissell. Charles H. Bissell, 399 Water Street, Keene, N. H.

Dwight Jason Cowles. Leonard B. Cowles, care Armour Co., Kansas City, Kans.

Leo. A. Desilets. Ludger Desilets, 283 West Street, Keene, N. H.

Allen J. Fitzmorris. Frank Fitzmorris, 64 East Front Street, Skowhegan, Me.

Vincent L. Giantvalley. Mrs. Katherine Doring Giantvalley, 3929 Thirtieth Avenue, South Minneapolis, Minn.

John Russo. Mrs. Jennie Butti, 136 Bay Fourteenth Street, Brooklyn, N. Y.

Thomas Seale. Llewlyn Seale, 133 Steinway Avenue, Long Island City, N. Y.

James P. Shaw. Buckley Holden, 27 Washington Road, New Bedford, Mass.

Anton M. Sorensen. Fred Sorensen, R. F. D. 7, Penn Yan, N. Y.

George B. Vickroy. Mrs. Eli Vickory, R. F. D., Lancaster, Ohio.

William B. Weaver. William C. Weaver, Piney Creek, N. C.

Laurence B. Williams. S. P. Williams, 99 Milk Street, Boston, Mass.

Bugler Henry J. Keough. Mrs. Mary Keough, 129 De Russey Street, Binghampton, N. Y.

Bugler Asher Yaffee. Mrs. Lena Yaffee, 935 South State Street, Syracuse, N. Y.

Wagoner William J. Duggar. Mrs. Dora Duggar, Middlesboro, Ky.

Mech. Eli Bouley. Mrs. Nancy Bouley, 16 Buck Street, Nashua, N. H.

PRIVATES.

Kelly Akers. No emergency address given.

Stanley Anderson. Alfred Anderson, Hartington, Nebr.

John Arcomano. Mrs Anna Arcomano, 215 Pearl Street, Brooklyn, N. Y.

Arthur Auten. Ora Auten, Gaines, Mich.

Clayton S. Babcock. Bert Babcock, Hamilton, Ohio.

Orville F. Ballard. Mrs. F. Ballard. R. 4, Box 99, Waupaca, Wis.

Wounded (Degree Undetermined.)

PRIVATES.

Ferdinand W. Siercks. Peter F. Siercks, Prairie View, Kans.
Richard E. Souders. Mrs. Catherine Souders, 348 South Parsons Avenue, Columbus, Ohio.

Missing in Action.

Lieut. Roland W. Edwards. Mrs. F. N. M. Edwards, 36 Henderson Street, Arlington, Mass.
Lieut. Henry C. Lewis. S. W. Lewis, 51 Chivden Street, Germantown, Pa.
Lieut. Joseph M. Mellen. Case Mellen, Garden City, Long Island, N. Y.
Lieut. Herbert D. Smith. William Herbert Smith, 229 West Seventy-eighth Street, New York, N. Y.
Corp. William W. Boness. J. T. Boness, 3621 Twenty-sixth Avenue SW., Seattle, Wash.

PRIVATES.

Angelo Catanto. Patsey Vastervelle, 165 Jefferson Street, Newark, N. J.
John Marra. Tony Marra, 40 Downing Street, New York, N. Y.
Waine Pietila. Emil Pietila, White Point, Mich.
Harry E. Yoos. Miss Stella Yoos, 208 South Franklin Street, Pottstown, Pa.

Previously Reported Missing—Now Reported Killed in Action.

Pvt. Thomas Kennedy. Miss Bessie Kennedy, 226 South Orange Avenue, Newark, N. J.

Previously Reported Missing—Now Reported Wounded in Action.

Corp. Chester Zientarski. Mrs. Valentine Zientarski, 74 Brownwell Street, Buffalo, N. Y.

PRIVATES.

Harry K. James. Mrs. S. C. Dimond, 123 High Street, Bristol, R. I.
Charles E. Knickerbocker. Edward Knickerbocker, 10½ Main Street, Cortland, N. Y.

Previously Reported Missing—Now Reported Died from Accident and Other Causes.

Corp. William Walter Gillum. Mrs. Mollie Green, Jackson, Ky.
Pvt. Jerry A. Brown. Mrs. Norma Brown, 575 Mitthof Street, Columbus, Ohio.

Previously Reported Killed in Action—Now Reported Wounded in Action.

PRIVATES.

John Popelka. Rudolph Popelka, 2727 West Twenty-second Street, Chicago, Ill.
Harry M. Slawkin. Mrs. Rose Slawkin, 234 Overhill Street, Pittsburgh, Pa.

MARINE CORPS

The following casualties in the Marine Corps are reported by the commanding general of the American Expeditionary Forces:

Killed in action	4
Severely wounded in action	5
Slightly wounded in action	2
	11

Killed in Action.

Gunnery Sergt. Cecil A. Williams. Thomas W. Hollaman (uncle), Ahoskil, N. C.
Sergt. Oliver C. Farrant. Alfred A. Farrant (father), 483 Washington Street, Leicester, Mass.
Corpl. Forrest G. Williams. Luther G. Williams (father), Charleston, W. Va.
Pvt. Walter S. Austin. Charles P. Austin (father), 3506 East Ledge Street, Cincinnati, Ohio.

Severely Wounded.

PRIVATES.

Albert L. Gahr. LaBelle Gahr (mother), R. F. D. 2, Hawthorn, Ky.
Victor Jones. Harriet Jones (mother), 27 Meadow Street, Duquesne, Pa.
Oscar E. Martin. Fannie Martin (mother), East Bend, N. C.
James W. Porter. Lory F. Porter (father), 108 Howard Street, Reading, Mass.
Jack G. Williams. Clara Williams (mother), 902 South First Street, Louisville, Ky.

Slightly Wounded.

Pvt. James A. Madison. Ella Madison (mother), Webster, N. C.
Previously reported died of wounds received in action, now reported wounded in action:
Pvt. Saylor D. Shanafelt. Daniel Shanafelt (father), General Delivery, Sigourney, Iowa.

PRISONER OF WAR IN GERMANY.

The War Department authorizes the following:

The War Department is in receipt of information that Pvt. Irving E. Lines, whose emergency address is E. A. Lines, 217 East Avenue, West Haven, Conn., is a prisoner of war in Germany; camp unknown.

THE WEEKLY WEATHER FORECAST

The Weather Bureau has issued the following forecast for the period August 5 to 10, inclusive:

North and Middle Atlantic States.—Showers Monday or Tuesday; fair thereafter. Temperatures somewhat above normal.

South Atlantic and East Gulf States.—Local thunderstorms in East Gulf States Wednesday, Thursday and Friday and in South Atlantic States Tuesday and Wednesday. Frequent day rains in Florida.

West Gulf States.—Fair weather, with normal temperature.

Ohio Valley and Tennessee.—Showers about Friday. Normal temperature through the week.

Region of Great Lakes.—Generally fair except showers Monday lower lakes and on all lakes Friday or Saturday. Temperature will rise first of week to normal; little change thereafter.

Upper Mississippi and lower Missouri Valleys.—Showers Thursday. Temperatures mostly above normal.

Northern Rocky Mountain and plateau regions.—Showers Wednesday; continued warm weather.

Southern Rocky Mountain and plateau regions.—Probably showers Monday or Tuesday. Temperatures above normal.

Pacific States.—Fair weather, with normal temperatures.

Make thrift your buy-word.

Additional List of American Prisoners and Camps in Germany Where Interned

The War Department authorizes publication of the following additional list of American prisoners of war interned at various prison camps in Germany, as reported by the Royal Prussian war ministry, central information bureau, which list was forwarded to the American Legation at Berne by the Royal Spanish Embassy at Berlin:

Name.	Rank.	Date of capture.	Place of capture.	Emergency address.
CAMP HAMMELBURG.				
Andrews, Warren	Corporal	Apr. 20, 1918	Toul	Nelson Andrews, Meriden, Conn.
Darman, Chester	Private	do	do	Francis Darman, Moundsville, W. Va.
French, Ernest A	do	do	do	Martha Taylor, New Haven, Conn.
Thompson, Warren E	do	do	do	Frederick Thompson, Newark, N.J.
CAMP DARMSTADT.				
Woods, Henry E	Sergeant	Apr. 20, 1918	Seicheprey	Mrs. Molley Woods, 107 Plymouth Street, New Haven, Conn.
Smith, Frank L	do	do	do	Mrs. Bessie A. Smith, 21 South Avenue, Revere, Mass.
Nolan, Joseph F	do	do	do	62 Chestnut Street, Hartford, Conn.
Miller, Frederick	do	do	do	Mrs. Mary Miller, Evergreen Court, New Haven, Conn.
Falconnade, Edward A	do	do	do	89 Peck Avenue, West Haven, Conn.
CAMP LIMBURG.				
Colburn, Leonard	Private	Apr. 20, 1918	Seicheprey	W. Colburn, 419 Orchard Street, New Haven, Conn.
Coleman, James	Corporal	do	Toul	Miss Robertson, 371 Remington Street, Bridgeport, Conn.
Congleton, Leroy	do	do	Seicheprey	George Congleton, 56 Osage Avenue, Philadelphia, Pa.
Doherty, Edward	Private	Apr. 7, 1918	Lorraine	Mrs. J. Doherty, 1253 Center Street, Newton Center, Mass.
Dunning, Miles	Corporal	Apr. 20, 1918	Toul	Mrs. Burr, Forestville, Conn.
McCartin, John	Private	do	Seicheprey	Mrs. McCartin, 50 Thompson Street, New Haven, Conn.
Meehan, Patrick	Corporal	Apr. 12, 1918	Lorraine	Mrs. Bessy Meehan, 20 Genesse Street, Springfield, Mass.
Wall, Patrick	Private	Apr. 20, 1918	Seicheprey	L. Wall, County Leitam, Ireland.
Whitehead, Lee	Corporal	Apr. 13, 1918	St. Mihiel	F. W. Whitehead, Jeffrey, Ky.
CAMP LANDSHUT.				
Putnam, Thomas	Sergeant	May 4, 1918	Favarolles, near Montdidier.	Mrs. Audenried, 49 Rue Galiles, Paris, France.
CAMP GIESSEN.				
Korman, George	Private			Mrs. Eva Korman, 55 Barclay Street, Newark, N. J.
Puntillo, James	Private			Joseph Bangenajo, 103 High Street, Newark, N. J.
Watkins, David I	Private			Mrs. S. J. Watkins, Sonora, Ky.
Bergeron, Arsene	Private			Head Grenier, 33 Garfield Avenue, Florence, Mass.
Bennett, Edward	Private			Mrs. Lillie Atkins, Arjay, Ky.
Marquies, Wilfred	Private			Mrs. Leda Schanard, 65 Taylor Street, Fall River, Mass.
CAMP TUCHEL.				
Leonard, Harry	Private			Mrs. Jane Harrigan, 1447 Broadway, Camden, N. J.
CAMP GRAUDENZ.				
Parsons, C. S	Lieutenant			Not known.

FUEL ADMINISTRATOR TO DRAFT PETROLEUM SPECIFICATIONS

(Continued from page 1.)

Committee on Standardization of Petroleum Specifications, which shall be composed of the following members: A chairman, who shall be appointed by the United States Fuel Administrator; one member who shall be appointed by the Secretary of War; one member who shall be appointed by the Secretary of the Navy; one member who shall be appointed by the chairman of the Shipping Board; one member who shall be appointed by the Director General of the Railroad Administration; one member who shall be appointed by the Director of the Bureau of Mines; and one member who shall be appointed by the Director of the Bureau of Standards. The specifications so prepared and adopted shall be binding upon and govern all departments, bureaus, agencies, and offices of the Government. It shall further be the duty of the United States Fuel Administrator, acting through said Committee on Standardization of Petroleum Specifications, to take all proper means to bring about a standardization of petroleum specifications for the purchases in the United States of the allied governments.

This order shall be and remain in full force and effect during the continuance of the present war, and for six months after the termination thereof by the proclamation of a treaty of peace, or until amended, modified, or rescinded.

WOODROW WILSON.

THE WHITE HOUSE, *31 July, 1918.*

COAL OPERATORS IN CONFERENCE WITH FEDERAL FUEL OFFICIALS

Government's Position Relative to the Drafting of Miners Stated by Maj. Conklin.

The Fuel Administration issues the following:

A conference of men from all over the country, chosen by James B. Neale, Director of Production of the United States Fuel Administration, as his aids in the intensive campaign for increased production, was held yesterday at the United States Fuel Administration. The conference was addressed by Maj. Roscoe Conklin, of the United States Army, who explained the attitude of the United States Government in regard to the drafting of coal mine workers.

Not Regarded as "Slackers."

It was stated by those familiar with labor conditions in the mining districts that there was a disposition on the part of some mine workers to regard those of their comrades who obtained deferred classifications as slackers. Director of Production Neale declared that it should be most thoroughly understood that the Government and the United States Fuel Administration regards the man who remains at the mine doing his work, increasing the production of coal, as serving his country quite as truly and bravely as if he were on the firing line in France.

Unity of Effort Reported.

Reports from the most prominent coal mining districts in the country were to the effect that everywhere the coal operators are determined to, and the mine workers are displaying the most patriotic earnestness in trying to, increase the production of coal. Voluntarily they are giving up many of their cherished recreations and are sacrificing their holidays. It was reported from the Connellsville district, for instance, that the men who voluntarily worked on July 4 turned out enough coke on that day to build 20 steel ships.

Details of Campaign.

Production Director Neale explained fully the details of the proposed production campaign, with its appointment of production committees in every mine and the steps that are to be taken to insure full hours of labor each day and six full days a week. It was the consensus of opinion that a high mark should be set in the future toward which the mine workers might aim.

Among those present at the conference were Charles O'Neill, Altoona, Pa.; F. M. Lockhart, of Somerset, Pa.; Brooks Fleming, Fairmont, W. Va.; Howard P. Byrdon, Cumberland, Md.; James S. Amend, Greensburg, Pa.; W. L. Byers, Connellsville, Pa.; J. W. Dawson, Huntington, W. Va.; Judge H. C. Selheimer, Birmingham, Ala.; J. Lincoln, Pittsburgh, Pa.; J. J. Roby, Cleveland, Ohio; J. H. Kilgore, Norton, Va.; J. H. Pritchard, of southern Ohio; C. E. Lenhart, Uniontown, Pa.

Remember! the men in our Army and Navy do not expect luxuries. Should we at home expect them? Buy necessities and war-savings stamps.

INSTRUCTIONS TO OFFICERS IN SIGNING OF ARMY CONTRACTS

General Orders, No. 55:

VII. Paragraph 2, section V, General Orders, No. 47, War Department, 1918, is amended to read as follows:

No contract will be signed by an officer whose name does not appear in the body of the contract as the contracting officer. Contracts will be made in the name of, and will be signed by, the officers designated by the chief of the bureaus to which the contracts pertain, such appointments to be effective only after announcement of the names, rank, and contracting authorities of such officers by the chief of the bureau concerned. Any officer so appointed shall be designated in the contract itself as the contracting officer and shall make and personally sign contracts in his own name. This shall be strictly complied with. Paragraph 563, Army Regulations, requires that the officer signing the contract shall be the person who makes the affidavit of disinterestedness, and this paragraph shall be strictly complied with.

900,000 WAR RISK CHECKS MAILED IN MONTH OF JULY

The Treasury Department authorizes the following:

More than 900,000 checks were mailed to the dependents of soldiers and sailors by the Bureau of War-Risk Insurance during the month of July, Secretary McAdoo announces. The last allotment and allowance checks for June were put in the mail July 31. June allotments and allowances are not payable until July. July checks are now being written and will be sent forward beginning August 1.

Nearly 5,000,000 Checks Issued.

Close to five million checks have been issued to date by the Bureau of War-Risk Insurance. About 90 per cent of them are for allotments and allowances, the remainder being for compensation and insurance payments.

The monthly output of checks has been increasing steadily and will shortly cross the one million mark.

The 900,000 checks sent out for June payments represent about $24,000,000. The night and day force of the disbursing office of the Bureau of War-Risk Insurance is now turning out 8 miles of checks every day.

The new allotment and allowance system instituted by the recent amendments to the war-risk insurance act is expected to accelerate even further the distribution of Government checks.

New Rule in Effect.

Beginning August 1 the Bureau of War-Risk Insurance will pay only allotments that carry with them Government allowances. The compulsory allotment to a wife and children will be $15 a month for all enlisted men regardless of rank or pay. The elimination of the old sliding scale arrangement will greatly reduce the mathematics of award making and thus speed up the work of the bureau.

Easy to buy, convenient to handle, no red tape—Get a WAR-SAVINGS STAMP to-day.

NATIONAL BANK CHARTERS APPLIED FOR AND GRANTED

Applications to the Comptroller of the Currency during the week ending Friday, August 2, 1918, for authority to organize national banks and to convert State banks into national banks, charters issued, charters extended and reextended, increases and reductions of capital approved, changes of title approved, and national banks placed in voluntary liquidation—

APPLICATIONS FOR CHARTER.

For organization of national banks:	
The Twin Falls National Bank, Twin Falls, Idaho	$150,000
The Farmers & Merchants' National Bank of Clarkfield, Minn.	25,000
For conversion of State banks:	
The Beach National Bank, Beach, N. Dak.; conversion of the Beach State Bank	50,000
The First National Bank of Alexander, N. Dak.; conversion of the Alexander State Bank	25,000
The First National Bank of Haviland, Kans.; conversion of the Haviland State Bank	50,000
Total	300,000

CHARTERS ISSUED.

Original organizations:	
The Prairie Depot National Bank of Freeport, Ohio (P. O. Prairie Depot, Ohio)	25,000
Conversion of State banks:	
The First National Bank of Montgomery, Minn.; conversion of the First State Bank of Montgomery	25,000
Total	50,000

INCREASES OF CAPITAL APPROVED.

The Northwestern National Bank of Portland, Oreg.; capital increased from $500,000 to $1,000,000	500,000
The First National Bank of Seattle, Wash.; capital increased from $400,000 to $500,000	100,000
Total	600,000

CHARTERS EXTENDED.

The Lincoln County National Bank, of Stanford, Ky.; charter extended until close of business July 29, 1938.

The Herkimer National Bank, Herkimer, N. Y.; charter extended until close of business July 29, 1938.

The Medina County National Bank, of Medina, Ohio; charter extended until close of business July 31, 1938.

SUMMARY.

	No. of banks.	Capital.
Applications for charter	5	$300,000
Applications rejected	1	25,000
Charters issued	2	50,000
Charters extended	3	
Increases of capital approved	2	600,000

PERMITS ORIENTAL STUDENTS TO WORK DURING VACATIONS

The Department of Labor authorizes the following:

The Department of Labor has approved the suggestion that Japanese and Chinese students be permitted to perform manual labor during vacation time as a part of the general plan to take advantage of all possible sources of labor for the period of the war. Under our present immigration laws no laborers of those races may be admitted to the United States, but the Secretary of Labor has consented to the use of such vacation periods, provided that it is distinctly understood that all persons who take advantage of the change in the regulations will resume their studies at the close of their vacations. All Japanese and Chinese students may avail themselves of this privilege upon application to commissioners of immigration and inspectors in charge. They will be required to keep such officers informed regarding their whereabouts and occupation, and are also required to advise such officers when they cease working and return to their studies. This permission applies only to students who are already in the United States and is not to be construed as applying to students who are not now in the country, but who might choose hereafter to take advantage of this construction of the law.

75,000 TONS OF NITRATE SOLD TO FARMERS UNDER FOOD ACT

The United States Department of Agriculture authorizes the following:

Despite the shortage of ships and two shipwrecks, farmers received 75,000 tons of nitrate of soda from Chile, bought through the War Industries Board and distributed by the Department of Agriculture, according to an announcement by the Bureau of Markets.

Sold Under Food Control Act.

The nitrate was sold and delivered under authority of the food control act, which authorized the President to procure and sell nitrate of soda at cost for the purpose of increasing food production, and appropriated $10,00,000 for this purpose. The War Industries Board was designated by the President to make arrangements for the purchase of the nitrate and the Secretary of Agriculture was charged with its sale and distribution. The nitrate was sold at $75.50 a ton at ports, its cost as nearly as it could be determined in advance. Applications for more than 120,000 tons, the total amount purchased in Chile, were received by the department in February, 1918. On account of shortage of available shipping it was possible to bring in only 75,000 tons, leaving on hand in Chile between 35,000 and 40,000 tons. Ships have just been assigned by the Shipping Board for the transportation to this country of the remainder of the nitrate contracted for last year which, of course, can not be used this season.

Prospects for Next Year.

No announcement can be made at this time as to whether nitrate will be offered for sale to farmers next year. The question of procuring nitrate for agricultural purposes is closely connected with the demand for nitrate for munitions and with the availability of tonnage for bringing in the nitrate. It has been intimated to the department by the War Industries Board and the War Department that the need for nitrate for munitions is such that it is doubtful whether it will be possible to import any next year for use as fertilizer.

MAJ. WOLF TRANSFERRED.

Special Orders, No. 172:

160. Maj. Samuel H. Wolfe, Quartermaster Reserve Corps, is relieved from further duty in the Bureau of War Risk Insurance and will report to the Quartermaster General for duty in the finance division of his office.

Wage Increase Granted Men on 22 Street Railway Systems in Decisions Announced by National War Labor Board; Awards Are Made Retroactive in the Majority of Cases

The National War Labor Board authorizes the following:

Former President William H. Taft and Mr. Frank P. Walsh, joint chairmen of the National War Labor Board, acting as administrators in street-railway controversies before the board, have agreed upon and rendered awards for the period of the war in 22 of the cases. The corporations affected by the awards are as follows:

Chicago Surface Lines and Elevated Railroads.
Chicago & West Towns Railway Co.
Evanston Railway Co., Evanston, Ill.
Cleveland Railway Co.
Cleveland & Eastern Traction Co.
Cleveland, Painesville & Eastern Railway Co.
Cleveland, Painesville & Ashtabula Railway Co.
Cleveland, Southwestern & Columbus Railway Co.
Columbus Railway, Power & Light Co.
Detroit United Railway.
Galesburg Railway Lighting & Power Co., Galesburg, Ill.
Omaha & Council Bluffs Street Railway Co.
New Orleans Railway & Light Co.
Joplin (Mo.) & Pittsburg (Kans.) Railway Co.
United Traction Co., Albany, N. Y.
Schenectady Railway Co.
New York State Railways, Rochester, N. Y.
International Railway Co., Buffalo, N. Y.
Public Service Co. of New Jersey, Newark, N. J.
Pennsylvania-New Jersey Railway Co., Trenton, N. J.
Scranton Railway Co., Scranton, Pa.
East St. Louis Lines, East St. Louis, Ill.

These companies employ in the aggregate approximately 50,000 men.

Wage Increases in Every Case.

Substantial wage increases are granted in every case. The wage rates fixed vary, however, and no flat minimum or maximum to be applied generally is established. In a general way, nevertheless, it may be said that the wages for motormen and conductors in the larger cities are fixed at from 48 to 50½ cents an hour. The rate for apprentice motormen and conductors in the larger cities is fixed at 43 cents, as a general rule. In the smaller cities the pay for motormen and conductors is increased to 45 cents and for apprentice motormen and conductors to 41 cents an hour. In the cases of small interurban roads, where the employees as a general rule live in rural communities, the wage for motormen and conductors is fixed at 42 cents and for apprentices at 38 cents an hour.

The arbitrators took into consideration local conditions and such other facts as were peculiar to individual cases in the fixation of the wage rates. In a great many of the cases trackmen, pitmen, pitmen's helpers, controllers, oilers, etc., also demanded increased wages and improved working conditions. Their wages were increased in the same ratio as the highest increase to conductors and motormen. Even this increase, it was found by the arbitrators, did not provide these men with a wage deemed sufficient under the living wage principle governing the National War Labor Board and the arbitrators therefore fixed 42 cents an hour as a general minimum for these men.

Time and a Half Basis.

In all cases where motormen and conductors are compelled to work in excess of the period of their regular runs they are to be paid on the basis of time and half time for the excess, thus placing them on the same plane with skilled mechanics in Government industries. This award marks a new departure in the adjudication of street railway disputes in that it provides for the penalization of companies for extending the spread of hours in which men perform their day's work beyond the number of 13 hours. Motormen and conductors in a majority of the cities are compelled to break up their working time during the day on account of the rush hours. Wherever this split of time spreads beyond 13 hours the companies are penalized by being compelled to pay all the way from one-third time to double time to the workers according to the spread. This, it is believed, will have a tendency to diminish the spread of the work hours of the men.

The award arbitrarily fixes the limit of apprenticeship on the cars at one year. This accelerates the method of graduating the men from one wage classification into another. Thus, instead of compelling men to work a full year before they may expect a wage increase and two years before they may expect a second increase, the award fixes three months as the first period upon the completion of which men shall receive their first increase and the second increase is made payable nine months after receipt of the first one. Heretofore the wages have been raised in small amounts every year, covering fixed periods, so that in several instances which have come under the observation of the arbitrators it took 10 years for the motorman or conductor to get the highest wage rate paid by the company.

Percentage of Awards.

While it is difficult to state definitely the exact percentage of increase granted in the awards it may be said that in the larger cities the increase is from 35 to 40 per cent. The increase in Detroit, for instance, approximates 40 per cent; in New Orleans, 50 per cent. In the smaller cities, such as Galesburg, Ill., it runs as high as 65 per cent on account of the extremely low pay received by the men up to this time. In New Orleans the wage was fixed lower than in other larger cities, the principal reason being the climatic conditions which made possible the omission of the items of fuel and heavy clothing from the cost of living budgets.

A flat wage of 50 cents an hour is fixed for all regular motormen on the Chicago elevated lines, regardless of the duration of their employment. In virtually all of the cases the awards are made retroactive, the earliest date being April 1, 1918. Ample time is allowed the companies for the payment of the back pay. Provision is made in every instance for the reopening of the case every six months for adjustments which may be rendered necessary by changed conditions, such as the cost of living, etc. Furthermore, the National War Labor Board retains jurisdiction in each case to the extent of assigning an administrator to interpret and enforce the award, the right of appeal from the administrators' decision being reserved to the parties. The award remains in full force pending decisions upon such appeals, however.

Right to Organize Upheld.

In cases where the right to organize has been an issue the arbitrators applied the War Labor Board principles, protecting workers in the exercise of their right to join trade-unions without fear of molestation by the employer. Where individual employment contracts have been exacted by employing companies they are ordered eliminated for the period of the war on the ground that they constitute an interference with the free right of men to organize. Such an order was made in the case of the Omaha & Council Bluffs Street Railway Co. The administrators were called upon to render a decision with respect to the right of organized operatives to wear the button of their local union in the case of the Columbus Railway, Power & Light Co. This question has frequently become an issue between street railway companies and their employees. In the Columbus award the arbitrators declared their inability to "see any objection under ordinary circumstances to the workers wearing a modest button of the ordinary size and design, worn presumably not for any objectionable purposes, but as men wear Red Cross or fraternal buttons." In the same case four men, named as having been discharged for union activities, were ordered reinstated in their former positions and ratings with full pay for lost time.

Decisions After Hearings.

The awards follow hearings conducted by Messrs. Taft and Walsh in the great population centers of the country over a period of two months, as well as investigations by the staff of the War Labor Board and consideration by the joint chairmen of a great mass of statistics on the subject of the cost of living and technical data submitted by experts retained both by the companies involved and the workers' organizations. Although a

Wage Increase Granted Men on 22 Street Railway Systems

great number of attorneys representing individual companies appeared before the arbitrators in the numerous hearings which have been held, the companies in a general way were represented before the arbitrators by Philip H. Gadsden, general counsel for the Association of Public Utility Corporations. Representing the workers before the arbitrators were W. D. Mahon, president of the Amalgamated Association of Street and Electric Railway Employees, and James H. Vahey of Boston, general counsel for the association.

It may be announced that the staff of the War Labor Board is now engaged upon investigations preliminary to decisions by the two chairmen in the street railway controversies which have come before the board during the course of consideration of the cases decided to-day. A staff of women investigators is conducting an investigation of street railway industries with regard to the employment and treatment of women who have been entering the industry in large numbers in several communities. The attitude of the National War Labor Board toward the employment of women, of course, is that they should receive for their services pay equal to that received by men for performing like services.

Cases Remaining Undecided.

Following is a list of the street railway cases before the board which remain undecided, but which will be decided as rapidly as possible:

Kansas City Street Railways, Kansas City, Mo.
Memphis Street Railway Co., Memphis, Tenn.
Cincinnati & Dayton Traction Co., Cincinnati, Ohio.
Interurban Lines, Portland, Oreg.
Pacific Electric Railway Co., Los Angeles, Cal.
Georgia Railway & Power Co., Atlanta, Ga.
Wilkes-Barre Railway Co. Wilkes-Barre, Pa.
Denver City Tramway Co., Denver, Colo.
Rhode Island Co.
Boston Elevated Railway Co.
Birmingham Street Railway, Birmingham, Ala.
Philadelphia Rapid Transit Co., Philadelphia, Pa.
Elyria & Cleveland Railway Co., Elyria, Ohio.
Jacksonville Traction Co., Jacksonville, Fla.
Kansas City & Western Railway Co., Leavenworth, Kans.
Dayton Street Railway Co., Dayton, Ohio.

Statement of Company Finances.

With respect to the relation of the wage increases granted to the financial conditions of the companies concerned, the arbitrators made the following statement and recommendation in each case:

FARE RATES.

This increase in wages will add substantially to the operating cost of the company and will require a reconsideration by the proper regulating authority of the fares which the company is allowed by law to collect from its passengers.

We make part of this award the words we have used in the award in the Cleveland case:

We have recommended to the President that special congressional legislation be enacted to enable some executive agency of the Federal Government to consider the very perilous financial condition of this and other electric street railways of the country, and raise fares in each case in which the circumstances require it. We believe it to be a war necessity justifying Federal interference. Should this be deemed unwise, however, we urge upon the local authorities and the people of the locality the pressing need for such an increase adequate to meet the added cost of operation.

This is not a question turning on the history of the relations between the local street railways and the municipalities in which they operate. The just claim for an increase in fares does not rest upon any right to a dividend upon capital long invested in the enterprise.

Reason for Increase.

The increase in fare must be given because of the immediate pressure for money receipts now to keep the street railroads running so that they may meet the local and national demand for their service. Overcapitalization, corrupt methods, exorbitant dividends in the past are not relevant to the question of policy in the present exigency. In justice the public should pay an adequate war compensation for a service which can not be rendered except for war prices. The credit of these companies in floating bonds is gone. Their ability to borrow on short notes is most limited. In the face of added expenses which this and other awards of needed and fair compensation to their employees will involve, such credit will completely disappear. Bankruptcy, receiverships and demoralization, with failure of service, must be the result. Hence our urgent recommendation on this head.

In the cases of the Chicago companies, the board made the following supplemental statement on the question of the rates of fare:

"The award in this case is an increase in maximum wages from 39 to 48 cents an hour. It was required by an increase in the cost of living of the street-car employees and is not more than fair. It does entail on the company, however, a heavy increase in its operating expenses; the Chicago companies are being operated under a partnership arrangement with the city, so that the city shares in the net income, after fixed charges and operating expenses are paid in the ratio of 55 per cent for the city and 45 per cent for the stockholders. The showing made by the company to us clearly discloses that in order to enable it to render adequate service the fares which it is permitted to charge should be substantially increased."

The arbitrators then make part of their award the language used in the Cleveland case, as quoted in the foregoing paragraph.

In the case of the International Railway Co., of Buffalo, N. Y., the increases granted were conditioned upon the continuance in force of the rate of fare recently granted by the city council of Buffalo. Should the city council revoke this rate, then the wage increases shall automatically terminate.

Summary of Awards.

The awards are summarized as follows:

CHICAGO SURFACE LINES AND ELEVATED RAILROADS.

	Cents.
Surface lines:	
Motormen and conductors—	
First 3 months, per hour	43
Next 9 months, do	46
Thereafter, do	48
Elevated lines:	
Motormen (extra)—	
First 3 months, do	44
Next 9 months, do	45
Thereafter, do	46
Motormen (regular)—	
First year and thereafter, per hour	50
Conductors—	
Extra, per hour	40
Regular, do	43
Guards (extra)—	
First 3 months, do	37
Next 9 months, do	38
Thereafter, do	39
Guards (regular)—	
First year and thereafter, per hour	40

In this case and in all other cases not otherwise noted, it is stipulated that the wages of employees other than motormen and conductors which have been submitted to the arbitrators for fixation shall be increased by the same percentage that the maximum of the wage scale paid to motormen and conductors is increased by the award; provided, however, that if this percentage increase does not bring the wage of any adult male employee up to a minimum of 42 cents per hour, he shall be paid said minimum of 42 cents per hour.

The Chicago award becomes effective as of August 1, 1918.

CHICAGO & WEST TOWNS RY. CO.

Motormen and conductors:	Cents.
First 3 months, per hour	43
Next 9 months, do	46
Thereafter, do	48

Effective August 1.

EVANSTON RY. CO.

Motormen and conductors:	Cents.
First 3 months, per hour	41
Next 9 months, do	43
Thereafter, do	45

Effective August 1.

CLEVELAND RY. CO.

Motormen and conductors:	Cents.
First 3 months, per hour	43
Next 9 months, do	46
Thereafter, do	48

Where the elapsed time consumed by swing runs exceeds 14 hours an addition of pay for the period of excess consumed time shall be allowed, as follows:

For the fifteenth hour, 15 minutes.
For the sixteenth hour, 30 minutes.
For the seventeenth hour, 45 minutes.
For the eighteenth and each successive hour, 1 hour.

On Sundays and holidays and on night-car runs the run shall be straight, with no more than 8 hours' time, and with 10 hours' pay for 8 hours' time on night runs.

Effective May 1, 1918; company allowed until October 1 for back payments.

Wage Increase Granted Men on 22 Street Railway Systems

CLEVELAND, PAINESVILLE & EASTERN RY. CO.

CLEVELAND, PAINESVILLE & ASHTABULA RY. CO.

Motormen and conductors:	Cents.
First 3 months—per hour	38
Next 9 months—do	40
Thereafter—do	42

Extra trips, extra work, or tripper service in addition to the runs to which the men are respectively assigned shall be paid time and one-half for all such time, and time and one-half from the completion of their runs to the starting time of the extra trip for extra work.

CLEVELAND, SOUTHWESTERN & COLUMBUS RY. CO.

Next 9 months—do	43
Thereafter—do	45

Company ordered to receive committees representing the workers and instructed against interference with their right to organize in a union; right of workers to wear union button upheld; Carl R. Fenneman, William Hagans, F. W. Killiam, and M. E. Reed alleged to have been discharged by company, ordered reinstated in their former positions and ratings with pay for all time lost on account of their discharge.

Effective July 1, 1918.

CLEVELAND & EASTERN TRACTION CO.

Motormen and conductors:	Cents.
First 3 months—per hour	38
Next 9 months—do	40
Thereafter—do	42

Effective May 1, 1918; company allowed until October 1 to make back payments.

DETROIT UNITED RY. CO.

Motormen and conductors:	Cents per hour.
First 3 months	43
Next 9 months	46
Thereafter	48

No change in classes of runs as laid down by the Arbitration Board of 1917; break or layoff time amounting to 45 minutes or less shall be paid for at rates prescribed in this award and shall be considered part of the platform time; Sunday and holiday runs shall all be straight with no more than 8 hours' time; night runs shall be straight with no more than 8 hours' time and with 10 hours' pay; general selection of runs to be made every six months, one between April 15 and May 15, the other between October 15 and November 15; car inspectors, controller men, pitmen, and pitmen's helpers have the right to organize in trade-unions and to bargain collectively through chosen representatives; company's operation on the basis of the open shop, union and nonunion men working side by side, to continue and not to be deemed a grievance; wages for these men not decided at this time, for the reason that the parties did not submit any evidence upon the subject. It is, therefore, referred to an examiner for complete investigation and report to the arbitrators. All platform workers working extra trips or tripper service in addition to the runs to which they are respectively assigned shall be paid time and one-half. No objection shall be made to the employment of women or colored men, if necessity arises. Overalls are to be worn on interurban lines under reasonable regulations of the company as to uniform length and appearance. Supplemental statement by arbitrators on question of rates of fare:

"This award increases the maximum rate in Detroit from 40 cents an hour to 48 cents an hour. The increase is substantial, but required by the increased cost of living, and is fair. Other changes in working conditions more favorable to the men will normally add to the wage cost. The fares allowed to the Detroit Railway are exceptionally low, being 3 cents a passenger on some lines, 4 cents on others, and 5 cents on others. They should all be raised to meet the increased operating cost due to the high prices of needed material and equipment and the increased pay herein awarded." The language used in the Cleveland case is also made part of this award.

Award effective June 1, 1918; company allowed until September 1 to make back payments.

GALESBURG RY., LIGHTING & POWER CO.

Motormen and conductors:	Cents.
First 3 months—per hour	38

Arbitrators order that company shall pay to all extra men who answer the roll calls a guaranteed wage of $17.50 per week for the first year and at the rate of $20 per week thereafter. Pay of men failing to answer roll call on any one day or days shall be reduced only in the proportion that the roll calls he fails to answer bear to the total number of roll calls during the week. Elapsed time consumed by swing runs in excess of 13 hours to be compensated for on basis applied in the Cleveland case. Men shall be paid in accordance with actual platform time that they work, and the request for a 10-hour day is denied. Where the rest period between the time of terminating one day's work and the time for reporting for another day's work is less than 10 hours, an addition of pay shall be allowed for the period of time below 10 hours, as follows:

For the first hour below 10 hours, 15 minutes.

For the second hour below 10 hours, 30 minutes.

For the third hour below 10 hours, 45 minutes.

For the fourth and each succeeding hour, 1 hour.

Time and one-half time for extra work, extra trips or tripper service, in addition to the runs to which men are respectively assigned.

Effective June 7, 1918; company allowed until September 1 in which to make back payments.

PENNSYLVANIA-NEW JERSEY RY. CO., TRENTON, N. J.

Motormen and conductors:	Cents.
First 3 months—per hour	38
Next 9 months—do	40
Thereafter—do	42

Effective June 22; company allowed until September 1 in which to make back payments.

(Continued on page 15.)

RED CROSS HOME SERVICE

Information for Soldiers' and Sailors' Families, Issued by Department of Civilian Relief.

First Checks Issued Under the Recent War Risk Amendments.

On August 1 the Bureau of War-Risk Insurance commenced to issue checks for July allotments and allowances. Nine hundred thousand checks were issued by the bureau during the month of July, most of which were for allotments and allowances for the month of June. None of these checks were affected by the amendments to the war-risk insurance law or the changes in governmental procedure thereunder, both of which took effect July 1.

The checks which are now being issued by the bureau are therefore the first which reflect the new changes. As explained in THE OFFICIAL BULLETIN of July 27, page 16, many of these checks will be for a smaller amount than formerly, first because of the amendment to the law providing for a flat allotment rate of $15 in all cases, and, second, because of the change in procedure whereby the allotments in excess of the amount necessary to secure an allowance will no longer be paid by the War-Risk Insurance Bureau.

Change in Payments.

No person who has been receiving a check for an allotment under the war-risk insurance law and has not also been receiving an allowance will receive any money from the War-Risk Bureau this month nor hereafter. Such payments, as explained in THE OFFICIAL BULLETIN of July 27, will henceforth be made through the service department with which the enlisted man is connected, and then only if he has executed a new form requesting such an allotment.

The substance of these regulations has been mailed or cabled to all commanders of the United States forces here and abroad, with instructions that all enlisted men be notified of the necessity of executing these new forms if the allotments are to continue. Lest many enlisted men fail to heed this notice or fully to understand its significance, their families should be advised to write to them, urging prompt execution of the new forms. This advice applies to every soldier's or sailor's family which has been receiving an allotment through the Bureau of War-Risk Insurance but no allowance.

Unnecessary to Write to Bureau to Obtain Insurance Certificates.

Beneficiaries of Government insurance policies should be advised that it is unnecessary for them to write to the Bureau of War-Risk Insurance requesting that insurance certificates be sent to them or inquiring why the certificates have not been received.

As explained in THE OFFICIAL BULLETIN of June 15, page 8, relatives of enlisted men need not feel worried because they do not have these insurance certificates in their possession. Possession of the certificate is not necessary to enforce a claim for insurance. The Government has a record of the insurance and of the beneficiary, and the pay accounts of the organization to which the man is attached show the monthly deductions of the premium which he pays for insurance.

The Bureau of War-Risk Insurance has a force at work night and day preparing and mailing these certificates to the beneficiaries. One million eight hundred thousand certificates of insurance have thus far been issued, and the total amount of insurance applied for by men in the service is over $23,000,000,000. To write letters to the Bureau of War-Risk Insurance inquiring why the insurance certificates have not been received can do no good and may serve to increase the work of the insurance section and thereby delay the issuance of the certificates.

Regulations Governing Exemption of Canadians From United States Military Service.

Regulations have recently been issued through the British Embassy at Washington governing applications of Canadians for exemption from military service under the recent treaty with Great Britain for reciprocal conscription. As ratifications of these military service conventions were exchanged on July 30, the period of sixty days before Canadians of United States draft age become liable to military service under the laws of the United States will expire September 20.

The regulations governing the application of Canadians for exemption are in part as follows:

I. The military service convention between Great Britain and the United States in relation to Canada applies to all male British subjects in the United States of the age for the time being of 20 to 44 years, both inclusive, including those who have taken out first papers (a) who were born or naturalized in Canada and who before proceeding to the United States were ordinarily resident in Great Britain or Canada, or in any other part of His Majesty's Dominions to which compulsory service has been or may be hereafter by law applied, or outside the British Dominions; or (b) who were not born or naturalized in Canada, but who before proceeding to the United States were ordinarily resident in Canada. These are hereinafter called Canadians.

Voluntary Enlistments.

II. Canadians of present United States draft age, namely, 21 to 30 years, both inclusive, may during a period of sixty days from the date of exchange of ratifications of the convention, enlist voluntarily in the Canadian Expeditionary Force at any office of the British or Canadian recruiting mission, or may apply for enlistment to any British consular officer or civilian recruiting committee. If within that period they do not so enlist they shall, unless exempted, become liable to military service under the laws of the United States.

III. Canadians, outside the present United States draft age, are subject to the same provisions, except that the period for voluntary enlistment will be 30 days from the date which may be fixed for their registration under the laws of the United States.

IV. Full information as to the terms and conditions of service with the Canadian expeditionary force, pay, separation allowance, etc., may be obtained upon application at any office of the British and Canadian recruiting mission.

British Ambassador.

V. The British ambassador at Washington has power to grant Canadians exemption from military service in the United States within the respective periods of 60 and 30 days aforesaid, as the case may be; and, the Senate of the United States having approved the Convention, Canadians may now apply for such exemption, subject to the following rules or limitations:

1. Only those who apply to the British ambassador in the event of their being found entitled to exemption, to join the Canadian expeditionary force. Other Canadians who desire exemption must apply under the local laws and regulations, to the United States boards.

2. Canadians electing upon the condition aforesaid to apply for diplomatic exemption may submit their claims in writing, established by affidavit or solemn declaration, to the director of the military service branch of the Department of Justice at Ottawa. * * * (Full particulars as to the proofs required in submitting claims for exemption may be obtained at any office of the British and Canadian recruiting mission.)

Grounds for Exemption.

3. The application must be made by the man for whom exemption is claimed, and upon one or more of the following grounds, which must be specified:

(a) That he is a member of His Majesty's regular reserve or auxiliary forces, as defined by the army act.

(b) That he is a member of the military forces raised by the Governments of any of His Majesty's dominions other than Canada, or by the Government of India.

(c) That he is serving in the Royal Navy or in the Royal Marines, or in the United States or Canadian Naval Service, or is a member of the Canadian Expeditionary Force.

(d) That he was since August 4, 1914, served in the military or naval forces of Great Britain or her allies in a theater of actual war, and has been honorably discharged therefrom.

(e) That he is a clergyman, or a member of recognized order of an exclusively religious character, or a minister of a religious denomination existing in Canada on August 29, 1917.

(f) That it is expedient in the national interest that he should, instead of being employed in military service, be engaged in other work of Canadian national importance in which he is habitually en-

(Continued on page 15.)

Health Conditions at the National Guard, National Army, and Regular Army Camps as Reported for the Week Ending July 26

The War Department authorizes the following statement from the office of the Surgeon General:

Herewith is a detailed report on the health conditions of troops in the United States [including Porto Rico] for the week ending July 26. The report of the Division of Sanitation to the Surgeon General of the Army for that week is as follows:

1. General: The health of troops continues very good. Admission and noneffective rates are materially lower than last week and the death rate for disease (2.12) is the lowest rate recorded since October 19, 1917. Measles and venereal diseases show a slight increase in the number of new cases. Pneumonia admissions remain practically the same as last week. A decrease is shown in the number of new cases of other more serious diseases.

2. Divisional camps: Camp Cody again has the lowest sick rates of all camps of this group. Camps Sevier, Beauregard, and Shelby have the highest sick rates. The largest number of new cases of pneumonia reported from a single camp is 13 (Camp Cody). A few scattering cases are reported from the majority of camps of this group. Measles is prevailing in Camps Beauregard, Kearney, and Sevier. There were 54 new cases of malaria reported from all camps of this group, 17 of these are credited to Camp Beauregard and 15 to Camp Shelby.

3. Cantonments: Camp Grant has the lowest sick rates of all large camps (admission 476, noneffective 13.8). The highest rates are reported from Camps Pike, Travis, and Jackson. Five hundred and nine new cases of measles are reported from all camps of this group against 400 last week. Camp Pike leads, with 112 new cases; and Camps Lee and Dodge next, with 74 each; and Camp Gordon with 57. While pneumonia continues to prevail in all camps of this group the number of new cases reported is fewer than last week. Twenty-three new cases are credited to Camp Gordon, 19 to Camp Lee, 17 to Camp Las Cases, and 16 to Camp Pike. Overcrowding exists in many cantonments, and the induction of new men in large masses without provision for proper detention and isolation makes the control of measles and pneumonia in cantonments increasingly difficult. Malaria is negligible as a cause of admission in camps of this group excepting Camps Pike and Travis, 32 and 15 new cases respectively.

4. Departmental and other troops: The eastern and northeastern continue with the lowest, and the southern and southeastern with the highest sick rates of all departments. There is no unusual prevalence of disease at any of the stations of this group calling for comment.

Summary.

Troops.	Noneffective rate.		Admission rate for disease.		Death rate.

[1] First figure in this column for each camp gives the total number of new cases during the week. The figure in parentheses is the number of those cases which were contracted during the week by men in that camp's command at the time of contracting the disease; the difference, therefore, is the number of cases first reported during the week, which were either (a) cases brought from civilian life by recruits, or (b) cases brought by men transferred from other camps to the camp under which the case is reported, or (c) old cases which have previously evaded detection. An interrogation point signifies that the report from that camp did not segregate cases contracted at the camp from other cases.

New cases of typhoid fever also reported from Camp Bowie (1), Cody (1), Fremont (1), Shelby (1), Gordon (3), Jackson (4), Lee (2), Pike (1), Travis (2), Northeastern (1), Aeronautics (1).

Causes of deaths by camps.

Camp or department.	Number of deaths.	Causes.

LIST OF SOLDIERS WHO DIED DURING THE WEEK

List of names of soldiers (not members of the American Expeditionary Forces) reported to The Adjutant General's office as having died during the week ending July 26, 1918. (Included in this list are the names of soldiers not members of the American Expeditionary Forces, not previously published, who died prior to the week mentioned and subsequently to March 8, 1918. These names are indicated by an asterisk.)

Camp Beauregard, La.—Pvt. Cyrus W. Mitchell, Bear, La.; First Lieut. Loy Alva Patterson, Council Grove, Kans.*

Camp Custer, Mich.—Second Lieut. Rodney S. Cooke, Moncovi, Wis.*; Pvt. John L. Falconer, R. F. D. No. 1, McGregor, Mich.; Pvt. S. T. Granger, R. F. D. No. 2, Swartzcreek, Mich.

Camp Devens, Mass.—First Class Pvt. James M. Greene, Cleveland, Ohio; Pvt. Andrew Shannon, 113 Antrium Street, Cambridge, Mass.

Camp Dix, N. J.—Pvt. Geo. Sampson, Twenty-fourth and Main Streets, Jacksonville, Fla.

Camp Dodge, Iowa.—Pvt. Hans J. Olson, Ring, N. Dak.

Camp Grant, Ill.—Cook Marcus M. Ascerenza, 1009 West Grand Avenue, Chicago, Ill.

Camp Gordon, Ga.—Pvt. William D. Fielding, R. F. D. No. 2, Ochlochnee, Ga.

Camp Hancock, Ga.—Pvt. Carl D. Hallowell, Princeton, Ky.*

Camp Hill, Va.—Pvt. Alonzo Wilson, Deland, Fla.*

Camp Humphrey, Va.—Pvt. Edward Barsness, Kingon, Minn.*

Camp Jackson, S. C.— Pvt. Joseph S. Burgin, Marion, N. C.; Pvt. Joseph P. Connor, 52 Spring Street, Charleston, S. C.; Pvt. Leander May, Norum, Fla.; Pvt. Julius Nieman, 1025 Gest Street, Cincinnati, Ohio; Pvt. Ceaman O. Page, Box 26, Route No. 1, Webster, Fla.; Pvt. Ernest Siler, Biscoe, N. C.

Camp Johnston, Fla.—Pvt. Henry Noah Lance, 85 Honey Path Street, Wareshoals, S. C.

Camp Kearny, Cal.—Pvt. Samuel C. Samuelson, Route 6, Rural Delivery, Pellican Rapids, Minn.; Corpl. Dick P. Shaw, Snelling, Cal.

Camp Lee, Va.—Second Lieut. Herbert Dell Chamberlain, St. Charles, Minn.; Pvt. John Shaw, Hawkrun, Pa.

Camp Lewis, Wash.—Pvt. Ernest McFarlane, 1805 South State Street, Salt Lake City, Utah.*

RED CROSS HOME SERVICE.

(Continued from page 13.)

gaged, or for which he has special qualifications, as, for instance, British or Canadian missions or business. The application for an employee upon this ground must be supported by an affidavit or solemn declaration of his employer.

(g) That it is expedient in the national interest that he should be educated or trained for any work of Canadian national importance for which he is being educated or trained.

(h) That he is unfit for military service by reason of ill health or infirmity, certified by the medical officers attached to the British and Canadian Recruiting Mission.

Affidavit Supporting Claims.

It is essential that there should be embodied in the applicant's affidavit or solemn declaration in support of his claim an engagement to the following effect:

"I solemnly undertake and engage that if I be found disentitled to exemption I will when required so to do by the director of the military service branch of the department of justice at Ottawa, or other competent Canadian authority, enlist in the Canadian Expeditionary Force and report for duty at the time and place required, subject to payment of my reasonable traveling expenses for the purpose."

It shall, moreover, be a condition of the granting of exemption that the applicant shall promptly answer in writing any questions touching his claim for exemption which may be notified to him by the director or other competent Canadian authority.

Certificates of exemption granted under these regulations shall be subject to be reviewed, limited, extended, or withdrawn upon cause shown.

As the time within which applications for exemption may be considered is strictly limited, Canadians who wish to apply under these regulations should realize the importance of submitting their applications at the earliest possible date.

New Regulations and the Commodity List for European Holland and Denmark Proper

The War Trade Board issues the following:

The War Trade Board in a new ruling (W. T. B. R. 180) announces the adoption of the following regulations with respect to the exportation of certain commodities to European Holland and Denmark proper:

(1) The list of commodities which will be considered for exportation to European Holland and Denmark proper has been revised. Applications for licenses to export the commodities as listed below will now be given consideration. Previous announcements with respect to such commodities (W. T. B. R. 50, Feb. 20, 1918; W. T. B. R. 96, Apr. 20, 1918; W. T. B. R. 118, May 22, 1918; W. T. B. R. 146, June 20, 1918) are hereby withdrawn.

List of Commodities.

(2) The list of commodities which will now be considered for exportation to European Holland and Denmark proper is as follows:

Adding and calculating machines.
Alabaster for statuary.
Artists' materials, excluding oils and turpentine.
Athletic goods, not containing rubber or leather.
Automobiles (passenger), bicycles, motorcycles, and spare parts of, but no tires and no accessories.
Buttons, bone or horn.
Carpets, oriental, of high value.
Cash registers.
China.
China clay.
Clocks, including clocks for time checking.
Clothing made up of silk or mixed silk.
Coral.
Cutlery:
  Knives—
    Table, dessert, butchers', cooks', bread, carving, pocket, hunting, painters', palette, shoemakers', pruning, budding, and bowie.
  Scissors.
  Steel forks, table and carving.
  Razors, including safety razors and blades not containing nickel or tin.
Drugs:
  Acetylsalycylic acid.
  Aconite, pure.
  Agaricin.
  Althæ root.
  Amidol and substitutes.
  Argentin.
  Arsenobilin.
  Arsenous acid.
  Barium, sulphuric, pure, for X-ray.
  Beta naphthol.
  Bromine.
  Bufylchloralhydrate.
  Camomile.
  Chromic acid.
  Diæthylbarbiuric acid.
  Digitalis.
  Emetine.
  Ferric compounds.
  Fruit of fennel.
  Hydrobromic acid.
  Ichthyol.
  Inula root.
  Iron, reduced.
  Kharsivan.
  Leaves of lycoctonum.
  Metol.
  Nitrate of silver.
  Opium alkaloids.
  Paraldehyde.
  Phenacetine.
  Salicylic acid.
  Sodium arsenate.
  Sodium bromide.
  Sodium cacodylate.
  Sodium nitroprusside.
  Sodium salicylate.
  Sulphuric acid.
  Veronal.
Dental burs, dental fillings other than such as contain platinum or other rare metals.
Diamonds other than industrial.
Dyes and dyestuffs.
Earthenware.
Electroplated goods and silverware containing not more than 5 per cent nickel or copper.
Feathers of high value.
Films, cinema.
Flowers, artificial.
Flower seeds, except seeds of oil-bearing plants.
Fountain pens.
Furs of high value.
Gauge glasses.
Glassware.
Hair ornaments and combs, except such as are manufactured from caseine or corozo.
Hardware for builders if of iron or steel.
Hats, trimmed ready for use.
Hats, straw.
Household furnishings, fixtures, and equipments if manufactured of wood, iron, or steel.
Jewelry, imitation.
Laces, handmade, such as maltese.
Ledgers, loose-leaf, and similar stationery.
Leathers, imitation, made up for hats.
Lighting fixtures if of iron or steel.
Machinery:
  Cotton-goods machinery.
  Laundry, not containing rubber or copper.
  Sugar-refining machinery.
  Spare or replacement parts of.
  Printing presses not containing an undue proportion of copper, nickel, or antimony.
  Typesetting and type-casting, excluding type metal.
Marble for statuary.
Medical and surgical appliances, other than those containing rubber.
Morocco leather, small fancy articles.
Musical instruments, except when composed entirely or mainly of metals.
Office furniture, equipment, and supplies.
Oil paintings.
Opera glasses for use in theaters.
Paper materials, fancy, for book covers.
Phonographs, phonographic records.
Photographic goods.
Pianos.
Pen nibs.
Perfumery, but not essential oils.
Pictures, reproductions of.
Precious stones, real and imitation.
Ribbon silk.
Silks and manufactures thereof, except gaze a blutoir and Asiatic silk or similar silk wherever manufactured.
Salt cake.
Sanitary ware, plumber's goods, if of iron, steel, or earthenware.
Screw spanners of cycles.
Sewing machines.
Scales and balances not including weights of copper or brass.
Shrubs.
Spectacles.
Teeth, artificial, except such as contain platinum, iridium, or other rare metals.
Tobacco pipes.
Tooth brushes.
Toilet preparations (excluding soap) not in tin or lead containers, and not containing more than 1 per cent of glycerine.
Trimmings, silk.
Toys.
Truffles, fresh or preserved.
Typewriters and spare parts and accessories, except typewriter ribbons not cut for use and except ribbons over 2 inches wide.
Wall paper.
Wines.

(3) Prospective importers in European Holland should obtain from the Netherlands Overseas Trust Co. an import certificate. Upon receipt of the certificate the importer should notify the prospective exporter that such a certificate has been obtained and advise him of the serial number thereof. The exporter should thereupon apply to the War Trade Board, Bureau of Exports, Washington, D. C., for an export license, using Application Form X and such supplemental information sheets concerning the commodity as are required, and, in addition, furnish on Supplemental Sheet X-102 the gross weight of the proposed shipment and the serial number of the import certificate of the Netherlands Overseas Trust Co.

All shipments to European Holland, except those consigned to the Government of the Netherlands, must be consigned directly to and only to the Netherlands Overseas Trust Co. (W. T. B. R. 77, Mar. 15, 1918).

(4) In the case of proposed shipments to Denmark, the prospective importer abroad first should obtain an import certificate from the Merchants' Guild of Copenhagen or the Danish Chamber of Manufacturers. When this certificate is received, the prospective importer should advise the exporter in the United States of the serial number. Application for export licenses should be made on Application Form X, and the applicant should attach thereto the appropriate supplemental information sheets, and also Supplemental Information Sheet X-105, upon which should be noted the Merchants' Guild of Copenhagen or the Danish Chamber of Manufacturers' import certificate serial number. Such shipments need not be consigned to the Merchants' Guild of Copenhagen or the Danish Chamber of Manufacturers, but may be consigned to an individual.

(5) Licenses will be valid only for shipment on vessels flying the flag of the country to which commodities are destined.

CIVIL SERVICE COMMISSION ANNOUNCES EXAMINATIONS

The United States Civil Service Commission announces open competitive examinations as follows:

List No. 1. Examinations of the nonassembled type; that is, those in which competitors are not assembled for scholastic tests but are rated upon the subjects of education, training, experience, and corroborative evidence. Applications for these examinations are received at any time: Auditing clerk, Internal Revenue Service; statistical expert, statistician, clerk qualified in statistics, photostat foreman, and photostat operator, Ordnance Department, War Department; architect, structural designer, architectural designer, senior architectural draftsman, junior architectural draftsman, and architectural tracer, Construction Division, War Department; production expert, Navy Department; printer, bookbinder, and pressman, Government Printing Office.

List No. 2. Examinations of the nonassembled type, for which applications must be filed by the dates specified: Assistant sanitary engineer, Public Health Service, August 27.

List No. 3. Examinations in which competitors will be assembled for scholastic tests: Truck-crop specialist, Department of Agriculture, August 21–22.

Full information and application blanks may be obtained by addressing the United States Civil Service Commission at Washington, or the civil service district secretary at Boston, New York, Philadelphia, Atlanta, Cincinnati, Chicago, St. Paul, St. Louis, New Orleans, Seattle, or San Francisco.

The close of receipt of applications for law clerk on July 30, 1918, is also announced.

Better than money because they earn money; buy a WAR-SAVINGS STAMP TO-DAY.

Official Bulletin

PUBLISHED DAILY under order of THE PRESIDENT of THE UNITED STATES by COMMITTEE on PUBLIC INFORMATION
GEORGE CREEL, Chairman ★ ★ ★ COMPLETE Record of U. S. GOVERNMENT Activities

VOL. 2 WASHINGTON, MONDAY, AUGUST 5, 1918. No. 378

STATEMENT BY SECRETARY BAKER EXPLAINING 18 TO 45 DECISION AS AGE LIMITS OF NEW DRAFT

PROBLEM CAREFULLY CONSIDERED

All Possible Combinations Studied Before Action Taken—Clause Relating to Younger Men—Rumors About Casualties Denied.

Press interview by the Secretary of War, August 3, 1918:

"I have before me a copy of the Washington Times carrying a statement that Gen. Pershing estimates United States casualties at 12,000, and says that Gen. March said that to the Military Affairs Committee. That is not so. Gen. March said nothing on the subject, nor did I. Nobody said anything on that subject or anything like it, that I can recall.

"There was a chart showing the total number of casualties in the American Expeditionary Force up to the present time, of all kinds, from all sources, and that aggregated something like 12,000, and that chart was shown, but it had nothing whatever to do with casualties in the present drive.

Age Limits In New Draft.

"All the possible combinations of age limits were carefully studied and it was found that in order to get the men into class 1 for the program proposed 18 to 45 was necessary. The bill when introduced however, will contain a provision authorizing the President to call men out of class 1 by classes, according to ages, so that if it is found possible the men between 18 and 19 will be called out later than the older men who are found eligible to class 1.

"This will undoubtedly have the effect of taking men who are otherwise deferred and putting them into useful labor, but it does not conscript anybody for labor. It is purely a military matter."

Statement by Committee.

Notice to correspondents:

The statement is published to-day that the Chief of Staff, Gen. March, informed the Senate Committee on Military Affairs that a "rough estimate of the casualties, as computed by Gen. Pershing, was about 12,000." Another estimate was "16,000."

These statements are absolutely false. Gen. March did not give any estimate or intimate any number of American casualties. On the contrary, Gen. March announced to the newspaper correspondents to-day that no statement as to casualties was available and explained the situation as regards casualties.

(Continued on page 2.)

AMERICA'S ACTION IN SIBERIA LIMITED, ACTING SECRETARY OF STATE ANNOUNCES, IN A STATEMENT OUTLINING PURPOSES

ARMED INTERVENTION UNWISE AT THIS TIME

Military Program Now Adopted Intended Only to Help Czecho-Slovaks Against Germans and Austrian Prisoners and to Steady Efforts for Self-Government by the Russian People Themselves—In Accord With Allies.

The Acting Secretary of State issues the following statement to the press in re American-Japanese action in Siberia:

In the judgment of the Government of the United States, a judgment arrived at after repeated and very searching considerations of the whole situation—military intervention in Russia would be more likely to add to the present sad confusion there than to cure it, and would injure Russia rather than help her out of her distresses.

Doubtful Service to Russia.

Such military intervention as has been most frequently proposed, even supposing it to be efficacious in its immediate object of delivering an attack upon Germany from the east, would in its judgment be more likely to turn out to be merely a method of making use of Russia than to be a method of serving her. Her people, if they profited by it at all, could not profit by it in time to deliver them from their present desperate difficulties, and their substance would meantime be used to maintain foreign armies, not to reconstitute their own or to feed their own men, women, and children. We are bending all our energies now to the purpose, the resolute and confident purpose of winning on the western front, and it would in the judgment of the Government of the United States be most unwise to divide or dissipate our forces.

Object of Present Plan.

As the Government of the United States sees the present circumstances, therefore, military action is admissible in Russia now only to render such protection and help as is possible to the Czecho-Slovaks against the armed Austrian and German prisoners who are attacking them and to steady any efforts at self-government or

President Wilson Greets Great Britain's King on War Anniversary

The President yesterday sent the following message to the King of England:

"America cordially extends her hand to Great Britain upon this anniversary of Great Britain's entrance into the present war in which the forces of civilization are engaged against the forces of reaction, and rejoices with her that the two nations stand side by side in so great a cause.

"WOODROW WILSON."

THIRTY-THREE MEN ARE LANDED FROM LOST STEAMER POSEIDON

According to the latest information received by the Navy Department, 33 survivors of the steamship *Poseidon*, which was sunk in collision last Wednesday night, have been landed, and the bodies of the captain and three of the crew taken to port. The captain was rescued after the sinking of the *Poseidon*, but died Thursday night.

The total complement of the *Poseidon* is given at 39, which leaves 2 men apparently unaccounted for.

Official Bulletin Index

An index for the Official Bulletin for the first six months of 1918 has been prepared and may be had on application to this office. An index for each month hereafter will be printed in an early issue of the Bulletin after the close of that month.

self-defense in which the Russians themselves may be willing to accept assistance. Whether from Vladivostok or from Murmansk and Archangel, the only present object for which American troops will be employed will be to guard military stores which may subsequently be needed by Russian forces and to render such aid as may be acceptable to the Russians in the organization of their own self-defense.

Cooperating With Allies.

With such objects in view the Government of the United States is now cooperating with the Governments of France and Great Britain in the neighborhood of Murmansk and Archangel. The United States and Japan are the only powers which are just now in a position to act in Siberia in sufficient force to accomplish even such modest objects as those that have been outlined. The Government of the United States has, therefore, proposed to the Government of Japan that each of the two governments send a force of a few thousand men to Vladivostok, with the purpose of cooperating as a single force in the occupation of Vladivostok and in safeguarding, so far as it may, the country to the rear of the westward-moving Czecho-Slovaks; and the Japanese Government has consented.

Assurance to Russian People.

In taking this action the Government of the United States wishes to announce to the people of Russia in the most public and solemn manner that it contemplates no interference with the political sovereignty of Russia, no intervention in her internal affairs—not even in the local affairs of the limited areas which her military force may be obliged to occupy—and no impairment of her territorial integrity, either now or hereafter, but that what we are about to do has as its single and only object the rendering of such aid as shall be acceptable to the Russian people themselves in their endeavors to regain control of their own affairs, their own territory, and their own destiny. The Japanese Government, it is understood, will issue a similar assurance.

Assented to by Allies.

These plans and purposes of the Government of the United States have been communicated to the Governments of Great Britain, France, and Italy, and those Governments have advised the Department of State that they assent to them in principle. No conclusion that the Government of the United States has arrived at in this important matter is intended, however, as an effort to restrict the actions or interfere with the independent judgment of the Governments with which we are now associated in the war.

It is also the hope and purpose of the Government of the United States to take advantage of the earliest opportunity to send to Siberia a commission of merchants, agricultural experts, labor advisers, Red Cross representatives, and agents of the Young Men's Christian Association accustomed to organizing the best methods of spreading useful information and rendering educational help of a modest kind in order in some systematic way to relieve the immediate economic necessities of the people there in every way for which an opportunity may open. The execution of this plan will follow and will not be permitted to embarrass the military assistance rendered to the Czecho-Slovaks.

It is the hope and expectation of the Government of the United States that the Governments with which it is associated will, wherever necessary or possible, lend their active aid in the execution of these military and economic plans.

MORE OCCUPATIONS OPENED FOR MEXICAN LABOR IN U. S.

New Order Extends Kinds of Work and Conditions for Admitting Immigrants.

The occupations in which Mexican laborers may engage after being admitted to the United States under the special provisions temporarily modifying the head tax, literacy test, and contract-labor provision have been extended by supplemental order of Secretary of Labor Wilson.

Under the departmental order of June 12 the immigration restrictions for Mexican labor were lifted only for Mexicans coming to this country to engage in agricultural pursuits, railroad maintenance of way, and lignite-coal mining.

Additions to List.

The new order, now in effect, adds to this list mining of all kinds and common labor work in connection with construction being done by or for the Government in Texas, New Mexico, Arizona, and Southern California, all included in the jurisdiction of immigration district No. 23.

In addition, the provision that Mexican laborers coming into the country under the war-emergency provisions of the previous order must have a small portion of their wages deducted to be returned when they leave the United States has been discontinued.

Commissioner General of Immigration Caminetti is in general charge of the admission of Mexican laborers.

To facilitate the admission of Mexican laborers, they will be permitted to enter the United States at all ports of entry along the Gulf and Atlantic coast as far north as Charleston, S. C., in addition to the entry ports along the Mexican border.

More Immigration Officers.

The immigration office forces at towns most used by the Mexicans are being increased. Specially trained examiners of the United States Employment Service are assisting immigration inspectors in examining applicants at these points.

Encouraging reports come from the border States as to the effect the influx of Mexican labor has had already in alleviating local labor shortage. The Employment Service office at Yuma, Ariz., reports that "The demand and supply for farm hands is about balanced. Any shortage of farm hands heretofore existing has been relieved to a large extent by the operation of departmental order No. 54261–202 (Admission of Mexican labor)."

Other Federal employment offices along the border report numbers of Mexicans entering under the new provisions. Many of the immigrants are already at work cutting cotton in the Southwestern States.

PLACEMENT OF UNSKILLED LABOR UNDER GOVERNMENT CONTROL

Ordnance Department Anticipates Improvement in Conditions at the Various Plants.

The War Department authorizes the following from the Ordnance Department:

Improvement in the labor situation as affecting ordnance plants is anticipated as a result of the action of the Government in taking over the exclusive placement of all unskilled labor required by war industries.

At present there is approximately a 9 per cent shortage of labor—skilled and unskilled—in the New York production district of the Ordnance Department. While reports are not available from other districts, it is understood that the situation in the New York district is better than the average elsewhere.

Hoped to Curb Competition.

Competition between the plants for labor and unsatisfactory plant conditions have both contributed to a more or less constant labor turnover.

It is anticipated that the action of the Government in taking over the placement of unskilled labor in war plants will go far toward solving the problem of competition. In the matter of working conditions within the plants much is being accomplished by the graduates of the employment managers' schools established under Government auspices at Harvard and Columbia Universities and at Rochester for men and at Bryn Mawr College for women.

These graduates are trained in the proper methods of employing labor and handling employees. They are taught to emphasize the advantage of placing employees in the kind of work most congenial to them and for which they are best fitted. They are also trained in avoiding conditions within the plants that will make labor discontented.

Government Aid Utilized.

At present officials of the Ordnance Department are availing themselves of the aid of the Government labor agencies in order to meet the shortage of unskilled labor in several of the large rolling mills, which supply material to cartridge factories.

SECRETARY BAKER EXPLAINS 18 TO 45 DRAFT AGE DECISION

(Continued from page 1.)

At the request of the Chief of Staff editors and correspondents are hereby cautioned against publishing the false statement that any estimate has been made regarding the number of American casualties.

Signed.

Committee on Public Information, War Department Bureau.

No trouble to buy, cheap, convenient, a real investment—WAR-SAVINGS STAMPS.

SUMMARY OF COAL PRODUCTION FOR THE WEEK ENDING JULY 27

Decrease in Bituminous Output and a Slight Increase in Movement of Anthracite.

The Fuel Administration issues the following:

The output of bituminous coal in the United States declined approximately 1 per cent during the week of July 27, according to reports received by the United States Fuel Administration from the United States Geological Survey. The output for the coal year to date is about 15,000,000 net tons short of the country's requirements. The production (including lignite and coal made into coke) for the week is estimated at 12,802,000 net tons, a decrease compared with the week preceding of 121,000 net tons, but an increase over the corresponding week of 1917 of 1,471,000 net tons, or 13 per cent.

Daily Average Production.

The average daily production is estimated at 2,134,000 net tons, as against 2,154,000 net tons during the week of July 20 and as compared with 1,889,000 tons during the week of July 27, 1917.

This week's output is 9 per cent behind the average weekly output required during the balance of the summer months to make up the deficit to date. The difference between the summer requirements and that specified for the balance of the coal year is occasioned by the necessity to ship practically all lake coal during the summer months and 50 per cent more tidewater coal to New England during the summer than in the winter.

Fifteen Million Tons Behind.

Production to date is approximately 15,000,000 net tons behind the schedule, and in order to meet all requirements as outlined by the United States Fuel Administration it will be necessary that the output of coal during the last of the summer months—August and September—shall exceed 14,000,000 net tons per week, 714,000 net tons, or 5.5 per cent in excess of the record week to date.

The average daily requirements have been ascertained by the United States Fuel Administration to be as follows: For the summer months, April 1 to September 30, 2,100,000 net tons; for the winter months, October 1 to March 31, 1,970,000 net tons. For the entire coal year, April 1, 1918, to March 31, 1919, there must be a daily average of 2,035,000 net tons.

Anthracite shipments increased slightly during the week, the total movement amounting to 40,942 carloads as against 40,664 carloads during the previous week.

Working Conditions During Week.

During the week of July 20, the bituminous mines produced 85 per cent of the present full-time output, the losses to production being distributed as follows: Car shortage, 5.1 per cent; labor shortage, including strikes, 4.4 per cent; mine disability, 4.2 per cent; no market, 0.1 per cent; all other causes, 1.2 per cent.

Improved working conditions were reported by the operators in northern and central Ohio, central Pennsylvania, New River, and Winding Gulf, and in the Western and Pacific Coast States. The improvements were attributed to better transportation conditions. More available labor was reported in the New River district and less mine disability in the Ohio district and better market conditions in the Western States.

Where Decrease Occurred.

The material decrease of production occurred in Illinois, southern Ohio, Westmoreland and Somerset Counties in Pennsylvania, the high volatile district of southern West Virginia, Fairmont, all Kentucky fields, and southwest Virginia. In all districts except Kentucky the causes of increased losses were attributed to car and labor shortage and mine disability, whereas in the Kentucky fields the shortage of coal cars was the limiting factor.

Operators in North River and Winding Gulf, Pocohontas, and Western and Pacific Coast States reported 100 per cent car supply during the week of July 20.

Training of Marines Reflected In Reports Showing Small Number Captured by Germans

Secretary Daniels authorizes the following:

Officers of the Marine Corps point out that the casualty lists so far received show the good effects of the training of the marines in protecting themselves against capture.

Out of 60 casualties among officers serving in France, only 1 had been reported as missing, up to July 31. Of more than 2,000 casualties among the enlisted men only 5 are known to be in the hands of the enemy. Up to July 31, a total of 72 enlisted men had been reported missing since the marines got into action, but none of these has yet been verified as having been taken prisoner, and it is expected that a large proportion of them will be transferred to some other classification when later detailed reports are received.

Temporary Tent Camp For 15,000 at Upton

The War Department authorizes the following statement:

A temporary tent camp to accommodate 15,000 men has been authorized as an addition to Camp Upton, Long Island. The camp will cost approximately $50,000. Construction will begin at once.

DIES IN SEAPLANE ACCIDENT.

The Navy Department is informed that Charles Edward Kruger, electrician, second class (radio), United States Naval Reserve Force, was killed July 30 in a seaplane accident. At date of enrollment, July 19, 1917, at Atlanta, Ga., Kruger gave as his next of kin, mother, Mrs. Julia Mizell Kruger, 221 Thirty-third Street, Newport News, Va.

RECRUITING FOR MARINE CORPS REACHES HIGH MARK IN JULY

Secretary Daniels authorizes the following:

Marine Corps recruiting reached its highest point during the month of July. The total number of men enlisted was 8,152, with the addition of 432 men enrolled in the Marine Corps, Reserve, making a total of 8,584. Considering the fact that selective-service men in class 1 were not available during the latter part of the month, and that the extension of the maximum age from 36 to 40 years did not become effective until July 31, this is considered an excellent showing.

The total enlisted strength of the Marine Corps on July 31 was 52,712. The Marine Corps Reserve had a total on that date of 6,371. The total enlisted strength was 59,083.

The largest showing for July was made by the Eastern Recruiting Division with a total of 3,161 men enlisted and 221 enrolled. The Central Division came second with 2,885 men enlisted and 126 enrolled. The largest district showing was made by New York, where 1,000 men were enlisted and 90 enrolled.

BRITISH AIRMEN'S ITINERARY ON AMERICAN SPEAKING TOUR

The Committee on Public Information (Speaking Division) authorizes the following:

All the cities to be visited by the American and British aviators, for which an aviation tour is now being arranged by the Speaking Division, Committee on Public Information, have been selected and approximate dates determined upon which they will be visited. All these dates are subject to alteration in case of unfavorable weather conditions. They are: Cincinnati, August 14; Dayton, August 15; Columbus, August 16; Cleveland, August 17, 18; Toledo, August 19; Detroit, August 20, 21; Indianapolis, August 22, 23; St. Louis, August 24, 25; Kansas City, August 26, 27; Des Moines, August 28, 29; Omaha, August 30, 31; Minneapolis and St. Paul, September 1, 2, 3; Milwaukee, September 4; Chicago, September 5, 6.

Visits During State Fairs.

The visits to Des Moines and St. Paul will come during the time of the Iowa and Minnestoa State fairs. The visit to Chicago will come during the time of the Allied War Exposition, which takes place there September 1 to 15.

Maj. Gen. William L. Kenly, director of military aeronautics, has assigned Maj. C. K. Rhinehart to be in command of the party. He will have with him probably six or seven young American pilots, flying several different types of American planes.

The guest of honor of the party will be Brig. Gen. Charles F. Lee, C. M. G., veteran British aviator, now head of the British aviation mission to the United States. He will be accompanied by one or two other veteran British pilots with British planes.

Protect your soldiers with your savings.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, by the Committee on Public Information.

Office: No. 16 Jackson Place, Washington, D. C. Tel. Main 5600.

Copies of THE OFFICIAL BULLETIN will be furnished without charge to all newspapers and magazines; to every post office in the United States (to be posted daily, for the benefit of the public, under order of the Postmaster General); to officials of the United States Government and all governmental institutions equipped for the dissemination of official news.—EDWARD S. ROCHESTER, *Editor*.

RATES BY MAIL.

Daily	One year	$5.00
	Six months	3.00
	One year, postage prepaid to foreign countries	8.00
	Six months, postage prepaid to foreign countries	4.50

Make all checks, money orders, and drafts payable to THE OFFICIAL BULLETIN.

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

New Air Service Field Opened at Jackson, S. C.

The War Department authorizes the following statement from the Division of Military Aeronautics:

Emerson Field, a new Air Service flying field at Jackson, S. C., was opened on August 1. It is named in memory of Lieut. William Emerson, Field Artillery, who was the first Artillery officer killed while serving with an American aero squadron at the front.

The field, which was authorized on May 2, is to operate in conjunction with artillery, and for this purpose includes both airplanes and balloons.

At present there are about 450 officers, including pilots, and 350 men stationed at Emerson Field.

Mine Run Coal Prices In Missouri and Kansas

The Fuel Administration issues the following:

To meet a demand of the mills, the railroads and power plants in a portion of the State of Missouri and a portion of the State of Kansas, the United States Fuel Administrator has established prices on the modified mine run product of mines in Barton and Vernon counties, Missouri, and in Cherokee and Crawford Counties, Kansas.

The order which was made effective as of August 3, fixed the price of nut run or stoker coal at $3.05 per net ton, and for mill coal, $2.95 per net ton.

Save for the country's sake.

American Official Communiques on Operations of U. S. Forces

The following is authorized by the Secretary of War:

AMERICAN OFFICIAL COMMUNIQUE NO. 81.

August 3, 1918.

Section A.—The full fruits of victory in the counteroffensive begun so gloriously by Franco-American troops on July 18 were reaped to-day when the enemy, who met his second great defeat on the Marne, was driven in confusion beyond the line of the Vesle.

The enemy, in spite of suffering the severest losses, has proved incapable of stemming the onslaught of our troops fighting for liberty side by side with French, British, and Italian veterans. In the course of the operations 8,400 prisoners and 133 guns have been captured by our men alone.

Section B.—There is nothing to report in this section.

AMERICAN OFFICIAL COMMUNIQUE NO. 82.

August 4, 1918.

Section A.—Our troops have taken Fismes by assault and hold the south bank of the Vesle in this section.

Another Training School For U. S. Balloon Pilots

Secretary Daniels announces that the Navy contemplates establishing an additional training school for balloon pilots. This school will probably be located at some point east of the Mississippi and south of the Ohio River, and it is hoped that suitable quarters for the personnel can be secured at some school, university, or country club.

In addition to available buildings, a field will be necessary to carry on the outdoor work. It is also essential that there be good transportation facilities at the point selected.

New Field Artillery Center To Cost Nearly $4,000,000

The War Department has authorized the following statement:

Work has just begun by the Construction Division of the Army on the new Field Artillery Training Center at West Point, Ky., near Louisville. The estimated cost for the land and the buildings, including a 500 bed hospital and a 500 horse veterinary hospital, is $3,721,000.

The tract of land is approximately 20,000 acres and was purchased for $500,000.

Work will be pushed so as to make the camp available as soon as possible.

To Build Six Hospitals At Vancouver Barracks

The War Department authorizes the following statement:

Six additional hospital buildings will be erected at Vancouver Barracks, Oreg., at an estimated cost of $74,000. Of these three will be contagious wards. The work will be done at once under the supervision of the Construction Division of the Army.

50 PER CENT MINIMUM FIXED FOR CLASS 1 REGISTRANTS

The Provost Marshal General authorizes the following:

No. B-2265.

To all draft executives:

Am of the opinion that you should hold under a very special scrutiny the report of any local board which fails to classify at least 50 per cent of June 5, 1918, registrants in net class 1; that is, finally classified in class 1 and examined physically and accepted for general military service. The studies of the prior operation of the draft indicate that 50 per cent should be a minimum. The only exceptions which can be recognized by this office are where an unusually large number of registrants of this class are aliens or have been released to the Navy, Marine Corps, or Emergency Fleet. The national average should be much higher than 50 per cent, because industrial, agricultural, and dependency deferment and physical rejection should be much lower. My telegram, E-1948, placing in current quota all actual fighting men in class 1 necessary to fill July and August calls, making liberal estimate for physical rejections at camp, ought, in its practical effect, to close releases from class 1 to the Navy, Marine Corps, and Emergency Fleet. Failure to get a proper classification of June 5, 1918, registrants as here indicated must of necessity be followed by orders issuing from this office for a revision of that classification if we are to meet requisitions already in sight. Please regard this matter as of first importance.

CROWDER.

Special Orders, No. 170.

64. By direction of the President, Brig. Gen. Charles R. Boardman, National Army, is honorably discharged from the service of the United States, to take effect upon his arrival in the United States, his services being no longer required.

WORK OF CONGRESS BRIEFLY TOLD

The subcommittee of the Ways and Means Committee appointed to study and report on the Treasury's recommendations for a tax on luxuries, reached a tentative conclusion Saturday to recommend a 10 per cent tax on a number of articles that may be classed as luxuries. This list while not yet complete nor finally agreed upon, it was said would include jewelry, silk underwear, curios and antiques, liveries, art, except where sold by the artists themselves, tapestry, hunting garments, ladies' driving habits; a license tax on riding academies, cut glass, opera glasses, meerschaum and amber pipes, cigar holders and humidors, smoking jackets and lounging robes, furs, but not those merely an incidental part of other clothing; ornamental lamps, umbrellas, parasols and canes when mounted in precious metals and stones, and like articles. The present intention is to put the tax on the retailer, who will be expected to collect the tax at the time of the sale.

It was stated that the committee was favorable to a plan that will permit the payment of taxes on the partial payment plan, but this will not be finally acted upon until other taxes have been passed upon.

CONTRIBUTE TO THE RED CROSS AS FOOD VIOLATION PENALTIES

The Food Administration issues the following:

The Food Administration announces that it has recently accepted the offers of a number of Chicago licensees to make substantial Red Cross contributions in lieu of revocations of their licenses for violations of the rules and regulations. These contributions were accepted in place of more drastic action for the reason that in each case the company showed that its violations had not been willful and because of their complete frankness and cooperation with Food Administration officials during the investigation into their business and their agreement to keep proper records and comply with all requirements in the future.

List of Licensees Affected.

The following are among the licensees affected:

John F. Lalla & Co., wholesale grocers. Incorrect reports and failure to keep records as required; also excessive profits in canned goods, dried fruits, rice, and other licensed commodities. Efficiency expert to be employed. $1,500 contribution.

See & Co., wholesale grocers. Records improperly kept so reports could not be verified. Excessive profits. $1,500 contribution.

A. E. Gilberg & Co., wholesale grocers. Excessive profits shown by their reports, books, and admissions. $250 contribution.

Junker & Co., wholesale grocers. Sales of rice flour and edible corn starch at excessive profits. $1,000 contribution.

Podolsky Bros., wholesale grocers. Inaccurate reports and excessive profits on canned tomatoes, canned corn, and canned peas. $1,000 contribution.

Hilker & Bletsch, bakers' supply house. Excessive profits on edible corn starch and rice flour. $2,000 contribution.

North Carolina Firm Penalized.

The United Cash Store, of Marshville, N. C., had a bargain sale of sugar. It sold in 25-pound lots to individual customers and didn't bother to find out whether the sugar was to be used in canning nor how much the customers already had on hand, and took no other precautions to see that the necessity for sugar conservation was not ignored.

The company was also found by the Food Administration to be guilty of selling flour in excessive quantities and without substitutes.

As a result, by order of the Food Administration licensed dealers will not be permitted to sell any licensed food commodities to it for the next six months. The order becomes effective Monday, August 5, and remains in force until February 5, 1919.

The philosophy of the W. S. S. is save, save, save.

1,000 NEW NURSES EACH WEEK NEEDED FOR THE ARMY SERVICE

The War Department authorizes the following from the Office of the Surgeon General:

Surg. Gen. Gorgas has called upon the American Red Cross, as the chief nurse-recruiting agency of the Army, to employ every possible means to increase the enrollment of nurses for immediate assignment to duty. He asked that at least 1,000 nurses a week be enrolled for the next two months.

The increase in the Army, both at home and abroad, has necessitated a proportionate increase in the number of nurses in the service. The Army to-day is growing faster than the nurse corps is increasing, and as the armies overseas enter the front-line trenches in greater numbers the greater will be the need for nurses in the Army Nurse Corps.

Trained nurses who wish to be of service to their country can do so at once by going to the local office of the Red Cross and making application to join the Army Nurse Corps. If found satisfactory, they will be assigned to duty at once, either in the base hospitals in this country or overseas.

Nurses enrolling in the Army Nurse Corps are members of the United States Army and work directly under officers of the Medical Department of the Army.

Certain Mineral Waters Admitted for Import

The War Trade Board issues the following:

List of restricted imports No. 1 (item 70) has been so amended in a new ruling of the War Trade Board (No. 182) as to permit the importation of mineral waters from France, the United Kingdom, and Italy, when shipped from a convenient port where loading can be done without delay.

PLANS OF THE ALLIED NATIONS TO CARE FOR DISABLED SOLDIERS

The Department of Labor authorizes the following:

Plans developed by the allied nations for the care of disabled soldiers are described in the August Monthly Labor Review of the Bureau of Labor Statistics.

Delegates from Belgium, France, Italy, Portugal, Serbia, Siam, Canada, Australia, South Africa, New Zealand, India, New Foundland, and the United States met in London to confer on the subject. Methods of enabling disabled soldiers to become self-supporting were discussed.

U. S. Hospitals Abroad.

The American authorities have decided to provide hospital care and treatment and training in England, France, or Italy for every wounded American soldier whose disabilities are of such a character that there is even a remote likelihood of his being in reasonable time restored to active service on the firing line or retrained so that he may take one of the innumerable positions behind the lines, where many disabled men could be employed, thereby releasing for the front line many physically fit men who are now occupying these clerical or other positions. Only the man who probably can give no further military service or for whom a long course of treatment is in store will be sent to America.

Experience In Other Countries.

Authorities from other countries reported on the results of the rehabilitation methods used. Most men, it was announced, who find themselves disabled appear to have repugnance for their former trade or profession, yet in spite of this 46 per cent of the men fitted with artificial legs or arms at Roehampton Hospital have returned to their old trades or businesses. It was suggested that occupations suited for arm cripples be restricted by law to their use so long as there is a sufficient number of men so handicapped to fill them. The British minister of labor reported that about 63 per cent of the men of the army had the promise of reinstatement in their original employment, and that of the number already released (about 500,000) approximately 60 per cent had had the promise fulfilled.

Col. Thompson Appointed Supervisor of Arsenals

The War Department authorizes the following from the Ordnance Department:

Announcement is made by the Ordnance Department of the designation of Col. John T. Thompson, United States Army, retired, as supervisor of manufacturing arsenals, vice Col. S. E. Blunt, United States Army, retired. Along with his new duties Col. Thompson will continue to serve as advisory engineer to the Chief of Ordnance.

Col. Thompson was in charge of the development of the United States model 1917 rifle, and saw this model through to quantity production. Up to July 20, 1918, a total of 1,469,846 rifles of this type had been produced, inspected, and accepted.

President's Proclamation Relating to Rates, Terms, and Conditions of Vessel Charters

The following explanation of the President's proclamation is authorized by the United States Shipping Board:

The control of the Shipping Board over the chartering of American vessels, and of foreign vessels chartered by American citizens, is made more complete by a proclamation of the President made public to-day. The proclamation provides that no American sailing vessel over 50 tons, and no American steamer over 250 tons, can be chartered unless the terms of charter are approved by the Shipping Board. No foreign vessel can be chartered to an American citizen without the Shipping Board's approval. After a charter has been approved no deviations from the terms of charter are permitted without the approval of the board. Severe penalties are provided for any violation.

Chartering Committee as Agency.

The Shipping Board has appointed the chartering committee, with offices in New York, as the agency to approve charters. This committee has been at work for nearly a year, but in enforcing its orders it has had to rely on pressure asserted through control of bunker licenses. It has now direct authority, backed up by effective criminal penalties.

The proclamation does not cover vessels on the Great Lakes, or inland canals or rivers, or vessels engaged in the coastwise trade.

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA.

A PROCLAMATION.

Whereas an act of Congress, approved July 18, 1918, entitled "An act to confer on the President power to prescribe charter rates and freight rates and to requisition vessels, and for other purposes," contains, among others, the following sections conferring authority upon the President:

"Sec. 5. That the President may, by proclamation, require that vessels of the United States of any specified class or description, or in any specified trade or trades, shall not be chartered unless the instrument in which such charter is embodied, and the rates, terms, and conditions thereof are first approved by him. Whenever any vessel is comprised in any such proclamation, it shall be unlawful to make any charter thereof, or comply with or perform any of the rates, terms, or conditions of any charter thereof, or to operate such vessel under any charter, without first obtaining the approval thereof by the President.

"Whenever any charter of such vessel is approved it shall be unlawful, without the approval of the President first obtained, to make any alterations in such charter, or additions thereto, or deletions therefrom, or to make or receive any payment, or do any act with respect to such vessel, except in accordance with such charter.

"Sec. 8. That the President may, by proclamation, extend the provisions of sections 5, 6, and 7, or any of them, to any vessel of foreign nationality under charter to a citizen of the United States or other person subject to the jurisdiction thereof."

"SEC. 10. That the President may, by proclamation, require that no citizen of the United States, or other person subject to the jurisdiction thereof, shall charter any vessel of foreign nationality unless the instrument in which such charter is embodied and the rates, terms, and conditions thereof are first approved by the President. After the making of such proclamation it shall be unlawful for any such citizen or person to make any charter of any such vessel, or comply with or perform any of the rates, terms, or conditions of any charter thereof, or to operate any such vessel under any charter without first obtaining the approval thereof by the President.

Whenever any such charter is approved it shall be unlawful, without the approval of the President first obtained, to make any alterations in such charter or additions thereto or deletions therefrom, or to make or receive any payment or do any act with respect to such vessel, except in accordance with such charter."

And whereas, section 2 of said act provides as follows:

"SEC. 2. That the President may exercise the power and authority hereby vested in him through such agency or agencies as he shall determine from time to time."

And whereas, the necessities of the war require that the control now exercised over shipping by the United States Shipping Board be made more effective;

Now, therefore, I, Woodrow Wilson, President of the United States of America, acting under authority conferred in section 5 of said act, do proclaim that hereafter vessels of the United States, being full power-driven vessels of 250 tons gross burden or over, or sailing vessels with or without auxiliary power of 50 tons gross burden or over, excepting vessels plying exclusively on the inland rivers and canals of the United States, vessels operating in the Great Lakes or other inland waters, and vessels operating exclusively in the coastwise trade of the United States, shall not hereafter be chartered unless the instrument in which such charter is embodied, and the rates, terms, and conditions thereof are first approved by the President.

Under authority conferred in section 8 of said act, I do further proclaim that the provisions of said section 5, and of this proclamation, shall be, and they are hereby, extended to any vessel of foreign nationality under charter to a citizen of the United States or other person subject to the jurisdiction thereof.

Under authority conferred in section 10 of said act, I do further proclaim that hereafter no citizen of the United States or other person subject to the jurisdiction thereof shall charter any vessel of foreign nationality unless the instrument in which such charter is embodied and the rates, terms, and conditions thereof are first approved by the President.

I do hereby designate the United States Shipping Board as the agency through which shall be exercised all power and authority conferred upon the President in sections 5, 8, and 10 of said act with respect to the classes or descriptions of vessels and the trades specified in this proclamation. Such power and authority may be exercised by said United States Shipping Board through such agents or agencies as it may create or designate.

Nothing contained in this proclamation shall be deemed to withdraw from the United States Shipping Board or the War Trade Board any authority now exercised, directly or indirectly, over foreign or American vessels, by virtue of powers conferred under Title VII of an act entitled "An act to punish acts of interference with the foreign relations, the neutrality, and the foreign commerce of the United States, to punish espionage, and better to enforce the criminal laws of the United States, and for other purposes," approved June 15, 1917.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

Done in the District of Columbia this 29th day of July, in the year of our Lord one thousand nine hundred and eighteen and of the independence of the United States of America the one hundred and forty-third.

[SEAL.] WOODROW WILSON.

By the President:

FRANK L. POLK,
Acting Secretary of State.

INDIVIDUAL IMPORT LICENSES FOR SUGAR AND WHEAT REQUIRED

The War Trade Board issues the following:

For the purposes of facilitating the enforcement, in the States along the Canadian border, of the regulations of the Food Administration, with respect to sales of sugar, wheat, and wheat products, the War Trade Board has issued the following ruling (W. T. B. R. 181):

On and after August 1, 1918, sugar, wheat, and wheat products may not be imported into the United States, except under an individual import license issued by the War Trade Board; and, accordingly, the general license heretofore issued, authorizing the importation without individual licenses of small quantities of these commodities, has been revoked as of August 1, 1918.

The Canadian authorities have taken similar action by prohibiting the exportation from Canada into the United States of sugar, wheat, and wheat products except under an individual Canadian export license.

NAVY ENGINEMAN DROWNED.

The Navy Department is informed that Daniel Joseph Crowley, engineman, second class, United States Navy, fell overboard from the U. S. S. *Walke*, July 29, and was drowned. The body was recovered. His wife, Mrs. Catherine A. Crowley, resides at 63 Hinckley Street, Somerville, Mass.

THREE MEN OF DODGERS' CREW ARE COMMENDED FOR BRAVERY

Secretary Daniels has commended three members of the crew of the U. S. S. *Dodger II* for their heroism in saving the lives of the men on the Spanish steamer *Serantes* when that vessel was destroyed by fire on July 13.

John King Galleher, chief boatswain's mate, United States Naval Reserve Force, is commended for the excellent seamanship he displayed and the great risks he took in order to save the lives of men on the burning ship.

Burton Ernest Emro, seaman, second class, United States Naval Reserve Force, is given credit for extraordinary heroism in seizing a rope that was hanging over the bow of the Serantes, climbing hand over hand to the deck of the burning vessel and rescuing a man who had fallen unconscious on the deck.

Braved Burning Oil.

George Francis Grady, seaman, United States Naval Reserve Force, is commended for his gallant work in rescuing from the water members of the crew of the Spanish ship. The commanding officer reports that vast quantities of oil were burning on the water and barrels of oil were bursting all around, but Grady, in addition to rescuing men who had jumped into the water, brought the dinghy to the side of the burning vessel to rescue the unconscious man picked up on the deck.

Addresses of the Men.

Galleher enlisted at New York, March 29, 1917. Father, John Henry Galleher, Brooklyn, N. Y.

Emro enlisted at New York, Nov. 21, 1917. Father, Peter Emro, New Milford, Conn.

Grady enlisted at New York, May 1, 1917. Father, William Grady, Brooklyn, N. Y.

ESTIMATED SAVING OF COAL IN "LIGHTLESS" MANHATTAN

The Fuel Administration issues the following:

According to records kept by representatives of the United States Fuel Administration, the saving of more than 60,000 kilowatt-hours, which is equal to about 100 tons of coal, was made on the first night of the "lightless nights" in the Borough of Manhattan, New York City. The saving will be much greater during the winter, when the daylight-saving hour will be restored and darkness begins very much earlier.

Saving in Manhattan.

The figures given indicate a coal economy through "lightless nights" of 40,000 tons a year in the Borough of Manhattan alone. From the data now on hand, the Fuel Administration's bureau of conservation estimates a national saving through the operation of the "lightless night" order of more than 1,000,000 tons of coal a year.

Results in Philadelphia.

In one amusement park in Philadelphia using a total of 3,500 kilowatts, the records show a saving of 2,054 kilowatts in one night. In order to effect a complete enforcement of the order, the Philadelphia County fuel administrator has divided the county into 82 districts, each district being in charge of an inspector.

Standard U. S. Revolvers Give to Our Soldiers Advantages Over Enemy Who Employ 28 Models

The War Department authorizes the following from the Ordnance Department:

Twenty-eight different models of pistols and revolvers requiring cartridges of four different sizes are in use in the German Army, according to the Army "Verordnungsblatt." The American troops have one model pistol and one model revolver, both shooting the same caliber ammunition. Standardization gives the Americans an advantage in this regard.

The United States also has standardized its rifle. Both the model 1917 and the Springfield shoot the same caliber ammunition. Army, Navy, and Marine Corps use the same rifles, revolvers, and pistols.

The following pistols and revolvers are used by the Germans: Pistols, model '08 (normal model and long model); Mauser pistol (9 mm. 7.65 mm., and 7.63 mm., with or without an aiming butt end); Bayard pistols (9 mm., large and small, and 7.65 mm.); Browning pistols (9 mm., large and small, with or without an aiming butt end); Walther pistols (9 mm. and 7.65 mm.); Pieper pistols (9 mm. and 7.65 mm.); Jaeger, Dreyse, Menta, Sauer, Messert (2 models), Langenhahn, Frommer-Stop, and Beholla pistols (all of 7.65 mm.); a pistol from Liege (6.35 mm.); and revolvers, models '79 and '83.

Architects and Engineers For U. S. Housing Contracts

The Department of Labor authorizes the following:

The Bureau of Industrial Housing and Transportation announces the following appointments in connection with projected housing developments:

Staten Island, N. Y.—Architects, Delano & Aldrich, 126 East Thirty-eighth Street, New York City; town planner, A. F. Brinkerhoff, 327 Fifth Avenue, New York City; engineer, C. S. Pollock, Park Row Building, New York City.

Florence, Ala.—Architects, Warren & Knight, Birmingham, Ala.; town planner, Harold A. Caparn, 220 West Forty-second Street, New York City; engineer, Julian Kendrick, Birmingham, Ala.

Sheffield, Ala.—Architects, Warren & Knight, Birmingham, Ala.; town planner, Harold A. Caparn, 220 West Forty-second Street, New York City; engineer, Julian Kendrick, Birmingham, Ala.

Tuscumbia, Ala.—Architects, Warren & Knight, Birmingham, Ala.; town planner, Harold A. Caparn, 220 West Forty-second Street, New York City; engineer, Julian Kendrick, Birmingham, Ala.

WESTERN COAL DEALERS REFUND OVERCHARGES TO CUSTOMERS

The Fuel Administration issues the following:

A sum closely approximating $16,000 has been refunded by retail coal dealers in Minnesota and South Dakota either to their local customers or, in case these could not be located, to the local Red Cross chapters.

Result of Investigation.

This is a result of an investigation made by G. O. Russell, field agent of the Bureau of Investigation who has been working with the Federal fuel administrators for South Dakota and Minnesota. It has been his task to investigate and recommend the gross retail margins in those States, and these added to the coal price at the mine, plus the freight charges, determine the price the retail dealer has a right to charge his customers.

Overcharges About $16,000.

The overcharges which brought the refunded amount up close to $16,000 represent several hundred dealers in the two States.

Supplemental lists of other dealers who have not obeyed the law are being made, and the investigation of overcharges is being carried on so thoroughly and systematically that the United States Fuel Administration hopes soon to eradicate the practice.

Cotton Crop Estimates Based on Bureau Reports

The United States Department of Agriculture authorizes the following:

The Crop Reporting Board of the Bureau of Crop Estimates of the United States Department of Agriculture estimates, from the reports of the correspondents and agents of the bureau, that the condition of the cotton crop on July 25 was 73.6 per cent of a normal, as compared with 85.8 on June 25, 1918; 70.3 on July 25, 1917; 72.3 on July 25, 1916; and 77, the average on July 25 of the past 10 years.

A condition of 73.6 on July 25 forecasts a yield per acre of about 177.3 pounds and a total production (allowing 1 per cent from planted area for abandonment) of about 13,619,000 bales. That is, the final outturn will probably be larger or smaller than this amount, according as conditions hereafter are better or worse than average conditions. Last year the production was 11,300,254 bales, two years ago 11,449,930, three years ago 11,191,820, and four years ago 16,134,930 bales.

IMPORTS ON U. S. TRANSPORTS.

War Trade Board Ruling on Haiti and Santo Domingo Licenses.

The War Trade Board issues the following:

By a new ruling of the War Trade Board (W. T. B. R. No. 186) licenses may hereafter be issued freely for the importation from Haiti and Santo Domingo, upon transports maintained by the United States Navy, of all products which have originated in these Republics.

MATERIALS FOR WHICH BIDS WILL BE RECEIVED BY INDIAN ACENCY OFFICES

The United States Indian Service, Department of the Interior, announces that proposals will be received at the points designated as follows:

No person shall be received as contractor who is not a manufacturer, grower, or regular dealer in the article which he offers to supply.

For the Nuyaka Boarding School, Nuyaka, Okla., bids to be received until 2 o'clock p. m. August 8, 1918:

No. 1. Pumping outfit, complete, consisting of a 4-horsepower gasoline engine and a direct-geared pump.

Bids invited f. o. b. Beggs, Okla., as well as other points preferable to bidder.

For the Cherokee Orphan Training School, Park Hill, Okla., bids to be received until 6 o'clock p. m. August 19, 1918:

No. 1. Road drag, straight blades, 6 inches wide, made of solid T-shaped double service, all-steel drag—no castings; blades 8 feet long, 6 inches wide, approximate weight 275 pounds. Delivered f. o. b. Park Hill, Okla.

For Keshena Indian School, Keshena, Wis., bids to be received until 4 o'clock p. m. August 16, 1918:

24 barrels white lime, to be well burned. Shipments to be made weekly of 5 barrels.

75 gallons boiled linseed oil.

Bidders kindly quote f. o. b. Shawano, Wis.

For Salem Indian School, Chemawa, Oreg., bids to be received until 11 o'clock a. m. August 7, 1918:

1 underfeed mechanical stoker, standard type.

Dead plates, adapting stoker to boiler furnace.

1 blower, steel plate, No. 45 special.

New front, 5 feet high by 7 feet wide; the necessary lower portion of boiler front adapted to receive stoker.

Secondary automatic feed attachment (Cole).

Top plate.

Connecting bar for three automatics.

Two boilers are now equipped with Jones's underfeed mechanical stoker, each 72 by 18, 150 horsepower each; the boiler to be equipped is 66 by 18 ret. tub. at 100 horsepower; the blower to be of sufficient size to operate all three stokers; a 5 by 7 engine already in place will handle the No. 45 blower required, a bolted rig being used.

For White Earth School, White Earth, Minn., bids to be received until 11 o'clock a. m. August 14, 1918:

For furnishing one hot-air furnace, fitted with soft coal and wood grates, complete with pipes and necessary wall registers; furnace to be of sufficient capacity to properly heat four-room cottage and bath, as per inclosed floor plan. Bidder will please submit cut and description of furnace offered, and state plainly the point of delivery. Freight station, Ogema, Minn.

Set of 3 urinals; porcelain urinal stalls with integral shields and drip receptors, arranged in battery, with interlocking seams; 3-inch nickel plated brass outlet strainers; nickel plated flush spreaders and connections; automatic Vitroware tank with nickel-plated brackets, nickel-plated flush pipes, complete. Dimensions: Height, about 43 inches; width, about 18 inches; depth below floor line, about 4 inches.

Bidder must submit cut and description of stalls when bid is placed and state plainly the point of delivery.

Freight station is Ogema, Minn.

For the Rosebud Boarding School, Rosebud, S. Dak., bids will be received until 2 o'clock p. m., August 10, 1918:

300 feet ½-inch black or galvanized piping.

300 feet ¾-inch black or galvanized piping.

300 feet 1-inch black or galvanized piping.

300 feet 1½-inch black or galvanized piping.

300 feet 2-inch black or galvanized piping.

2 dozen each of ½-inch, ¼-inch, ¾-inch, and 1-inch plugs.

2 dozen each of ¼-inch, ½-inch, ¾-inch, and 1-inch globe valves.

1 dozen each of ¼-inch, ½-inch, ¾-inch, and 1-inch right-hand couplings.

3 rolls ½-ply rubber or rainbow packing of three different thicknesses.

3 rolls 3-ply rubber rainbow packing of three different thicknesses.

12 pounds jute or oakum for sewer calking of joints.

8½ pounds balls of asbestos wicking packing.

10 pounds Dixon's flake graphite.

For the Standing Rock Indian Agency, Fort Yates, N. Dak., bids will be received until 2 o'clock p. m., August 10, 1918:

4,050 feet sewer pipe, 8-inch, vitrified, salt glazed.

1,100 feet sewer pipe, 6-inch, vitrified, salt glazed.

4,500 feet cast-iron soil pipe, 4-inch, single hub, 22 pounds to the foot.

200 feet cast-iron soil pipe, 4-inch, single hub.

1 cast-iron cross, 4-inch.

10 cast-iron tees, 4-inch.

10 fire hydrants ("Iowa" or equal), 4-inch connection.

11 manhole frames and solid covers, 22-inch opening, light pattern.

1,200 pounds pig lead.

100 pounds jute.

60 barrels fresh cement.

For the Genoa Indian School, Genoa, Nebr., bids will be received at the office of the United States Indian Service, Washington, D. C., until 2 o'clock p. m., August 17, 1918.

For supplying and placing in position one steel water tank at Indian School, Genoa, Nebr.:

40,000-gallon capacity. Tank is to replace present one, which is on steel tower 80 feet high. State whether you propose to supply flat bottom or hemispherical bottom tank. Connection must be made with present water-supply pipe. Place of erection is one-eighth mile from side track.

Please submit cut and give full description of your offering.

Convenient boarding place for workmen near at hand.

Bids must be accompanied with certified check to amount of 5 per cent of bid.

FLOUR "FAIR PRICE" SCHEDULE FOR PACIFIC COAST MILLERS

Scale for Certain Localities Is Announced by the U. S. Food Administration.

The Food Administration issues the following:

The United States Food Administration announces a fair-price flour and feed selling schedule for a number of the Pacific coast mills. Announcement will be made within a few days covering the prices for the few remaining mills throughout the country to which new schedules have not yet been given. Schedules have now been furnished to each of over 7,500 mills in the country, including all mills east of the Rocky Mountains.

In Line With Milling Policy.

The announcement is in line with the plan of the Food Administration for the control of flour-milling profit during the present crop year. Under this plan each mill is given a definite schedule at or under which the Food Administration will consider it fair that flour mills make sales of their flour and various grades of feed. These schedules are given mills on a basis of sales in carload quantities, on cash or draft payment basis, and without the cost of packages being included. To ascertain the fair cost to the ultimate consumer it is necessary to add to these prices the cost of freight, the cost of packages, and the cost of handling less than carload quantities. These charges will average from $1.75 to $3.50 per barrel on flour and $10 to $15 per ton on feed, or in some cases more than that.

Schedule for Certain Points.

The schedules for some representative Pacific coast points, telegraphed to-day to several mills on the Pacific coast, are as follows:

	Flour.	Bran.	Mixed feed.	Middlings, shorts, red dog.
Portland, Tacoma, Astoria, Seattle	$9.95	$23.15	$24.40	$25.15
San Francisco	10.15	23.75	25.00	25.75
Los Angeles	10.35	24.30	25.55	26.30
San Diego	10.27	26.81	28.06	28.81

POST OFFICE FRAUD ORDER.

OFFICE OF POSTMASTER GENERAL,
Washington, July 22, 1918.

Order No. 1736 has this day been issued against Mr. P. H. Reynolds, at 75 Johan van Vliet Straat, Haarlem, Holland.

A. S. BURLESON,
Postmaster General.

PLAN OF LOANS TO FARMERS IN CERTAIN DROUTH SECTIONS IS EXPLAINED BY THE TREASURY

NO ADVANCES ARE TO EXCEED $300

Will Be Issued in Cases of Necessity Secured by Crop of Wheat or Substitute Grain—To Bear Interest at Six Per Cent.

The following statement, supplementary to that issued July 29, is given out by the Treasury and Agricultural Departments in reference to loans to farmers in certain drouth-stricken areas from the President's special fund.

This statement should be read in connection with that issued on July 29 and published in THE OFFICIAL BULLETIN of July 30. The areas now under consideration are those in the Northwest and Southwest, where two successive crop failures have resulted from severe drought and winter-killing.

Loan in Cases of Necessity.

The money will be advanced as a loan in cases of necessity upon the crop of wheat or substitute grains planted. No loan will be made in excess of $3 per acre, and no applicant will be financed beyond 100 acres. Therefore, no loan will be made in excess of $300. Notes given will bear 6 per cent interest, payable in the southern districts October 1 and in the northern districts November 1, 1919.

The Federal land banks of the districts embracing the affected areas will be designated by the Secretary of the Treasury as the financial agents of the Government to make and collect the loans. They will expect the cooperation of local banks in the taking of applications, forms of which will be supplied on request, as soon as they can be printed. Banks and other local agencies assisting will be asked to contribute their services for the good of their several communities.

Department to Decide.

The determination of the question of making each loan will, in the first instance, rest with the Department of Agriculture, which, through its various agencies, assisted by farm loan associations and other local farmers' organizations, will investigate each application.

Applicants must agree to use seed and methods approved by the Department of Agriculture, and the money will not be advanced until the crop is planted and a representative of that department certifies to the Federal land bank that the applicant has completed his planting in proper manner and with proper seed. Upon the receipt by the Federal land bank of such certificate, applicant will be required to give note and chattel mortgage on the crop planted.

Basis for Temporary Credit.

In order to give applicants a basis for temporary credit to assist in obtaining the seed, the Department of Agriculture will promptly investigate all applications, and as soon as approved the Federal land bank will issue a statement of approval to the effect that the money will be advanced when the crop is planted and the necessary certificate and note and mortgage are executed and delivered. The machinery of the Treasury Department and the Department of Agriculture for this work is already in existence and will be put in motion at once, and no substantial delays will result if the interested communities do their own part promptly.

Banks wishing to assist their communities in this matter should at once communicate with the Federal land bank of their district.

Restriction of Loans.

The plan is to assist only those who have exhausted their resources. No loan will be made to any farmer who has unencumbered real or personal property sufficient to secure a loan of $300. In such cases country banks are urged, as a matter of public service, to render assistance and avail themselves of the facilities of the Federal reserve banks and the War Finance Corporation, which are prepared to render support to such efforts.

Each borrower will be required, as a part of his contract, to agree that, if his yield is 7 bushels per acre or more, he will pay into a guaranty fund a sum equal to 25 per cent of the amount loaned him to cover any losses that may occur. If the amounts so contributed exceed the actual loss by the Government, the excess will be returned pro rata to the contributors.

War Industries Board Regulations Governing Priority in Production, Amended in Supplement to Circular

The War Industries Board authorizes the following:

The Priorities Commissioner of the War Industries Board has issued Supplement No. 1 to Circular No. 4, defining the rules and regulations governing priority in industrial production. To the list of automatic classifications previously given the amendment allows automatic classifications for materials, equipment and supplies to be used for five additional purposes and names the classifications into which they fall.

Amendment to Class C Ratings.

There is also an amendment to the section comprising Class C ratings, which, in effect, is an extension of the "general classification of purposes demanding preference treatment." This addition grants Class C rating on materials for the maintenance of existing equipment for the supply of light, heat, power and sanitation; for the necessary repairs of existing buildings and manufacturing plants; for drugs, medicines and medical and surgical supplies; for the operation of machine shops and blacksmith shops; for wire cloth for screening buildings; for nails, screws, bolts and nuts; for bale ties, including cotton and hay.

Text of the Supplement.

The text of the supplement follows:

Effective at once, Circular No. 4 of the Priorities Division of the War Industries Board is amended as follows:

Section I. Following subdivision (o) of section 8, page 5, add:

(p) For the operation and maintenance (not new construction, expansion or replacement) of coke oven plants, mines, smelters, furnaces, rolling mills, wire drawing mills, pipe and tube mills, employed in the production of fuels, metals and metal products A-6

(q) For the manufacture of iron and steel chain B-2

(r) For the manufacture of repair parts to shoe machinery and for the operation and maintenance (not new construction, expansion or replacement) of shoe manufacturing plants B-2

(s) For the maintenance of jobbers' stocks of plates, sheets, bars, shapes, structural shapes, tubular products, wire and wire products, tin plate, heavy hardware, farm implements, mining tools, machinery and equipment, oil well supplies and similar products, upon the strict compliance with the conditions prescribed by section 5 of the bulletin issued by the Priorities Commissioner and the Director of Steel Supply, dated July 3, 1918, (P. C. Form No. 18), and Section V of Circular No. 5 of the Priorities Division of the War Industries Board, dated July 22, 1918 ..... B-4

(t) For the maintenance of stocks of fabricators of steel to be used in the construction of ships, buildings and bridges upon strict compliance with the conditions prescribed by section 5 of the bulletin issued by the Priorities Commissioner and the Director of Steel Supply, dated July 3, 1918, (P. C. Form No. 18), and Section V of Circular No. 5 of the Priorities Division of the War Industries Board, dated July 22, 1918 ..... B-4

Section II. Section 5, pages 3 and 4, is so amended as to hereafter embrace within class C, under the conditions set out in section 9, each order for materials, equipment or supplies for the additional purposes or uses following:

(a) For the maintenance of existing equipment, for the supply of heat, light, power and sanitation;

(b) For the necessary supplies and essential repairs (not extensions or replacements) to existing buildings and manufacturing plants;

(c) For drugs, medicines and medical and surgical supplies;

(d) For the operation of machine shops and blacksmith shops;

(e) For wire cloth for screening buildings;

(f) Nails, screws, bolts and nuts used for any purpose;

(g) Bale ties, including cotton and hay.

EDWIN B. PARKER,
Priorities Commissioner.
WASHINGTON, D. C., *August 1, 1918.*

Additional Contract Let for Shell Body Forgings

The War Department authorizes the following from the Ordnance Department:

An additional order for 155 mm. shell body forgings has been placed with Whitaker-Glessner Co., of Portsmouth and Martins Ferry, Ohio.

INCREASE IN COAL CARS LOADED SHOWN IN RAILROAD REPORT

A report to Director General McAdoo was made by the Car Service Section of the Railroad Administration August 2 on the quantity of coal of all kinds loaded at the mines by roads for the week ended July 20, 1918, as compared with the same period for 1917. A summary of the report follows:

	1918.	1917.
Total cars bituminous	225,771	192,147
Total cars anthracite	40,664	42,840
Total cars lignite	3,999	2,544
Grand total cars, all coal	270,434	237,531

A summary of the decreases and increases in coal loaded since January 1, 1918, up to and including the third week of July, 1918, as compared with the same periods of 1917 follows:

	Decrease.	Increase.
Month of January	79,172 cars	
February		31,250 cars
March		46,613 "
April		73,408 "
May		84,998 "
June		88,840 "
First three weeks of July		83,022 "

Increase—1918 over 1917—328,959 cars.

Maximum Prices Continue on Goat and Other Skins

The War Industries Board authorizes the following:

The maximum prices on goat skins, foreign sheep skins, cabrettas, deer, and elk skins, as determined by the Price Fixing Committee of the War Industries Board in the schedule of maximum prices of May 1 are to continue in force until further notice. A more complete list of such skins will be published later.

The maximum prices on Nigerian hides for August, September, and October shipments shall apply to stocks on hand and shipments prior to August 1.

HOUSING CONTRACT LET.

George A. Fuller Company To Erect One Set of Dormitories Here.

The Department of Labor authorizes the following:

The George A. Fuller Company, of this city, has been awarded the contract for the construction of residence halls which are to be erected on the Union Station plaza under the direction of the Bureau of Industrial Housing and Transportation. The award was made as a result of competitive bids, which will reduce the cost of the development to an absolute minimum. The estimated time of completion is three and one-half months.

This project, constituting the first of the units to be erected in Washington by the Bureau of Industrial Housing and Transportation for the accommodation of war workers, is designed to provide quarters for 2,000 persons.

For the information of persons who are desirous of reserving accommodations in these residence halls, the bureau wishes to state that no accommodations are being set aside for the present. As soon as the buildings are approaching completion, the matter of making reservations for all who apply will be actively taken up.

Malted Milk Company Pays $50,000 in Goods as Food Law Penalty

The Food Administration issues the following:

In recognition of its violation of the instructions of the Food Administration, the Horlick Malted Milk Co. has contributed 9,900 dozen cases of 1-pound bottles of its product, representing in value $50,000, half to go to the Quartermaster Department of the Army and half to the Bureau of Medicine and Surgery of the Navy. The company had on hand more flour than was permitted. Its surplus stock of flour has now been surrendered and its operations curtailed to meet the requirements of the Food Administration.

The controlling factors in the company, as soon as the facts came to their attention, dealt with the situation with great frankness, repudiated utterly the acts of the individual responsible, and expressed the utmost regret that they should unwillingly be connected with such methods and their desire to give to the Food Administration satisfactory evidence of their good faith.

The contribution aforesaid was accepted as such evidence, it being obviously undesirable that the demand of infants and invalids for the company's product should fail to be met.

Commercial Grain Flour Stocks on July First

The United States Department of Agriculture authorizes the following:

The commercial stocks of wheat reported to the Department of Agriculture in a food survey dated July 1, 1918, amounted to 9,237,059 bushels. This refers to stocks actually reported and does not represent an estimate of the total commercial stocks of the country; neither do the figures include stocks on farms on July 1. The commercial stocks reported were held by 7,989 firms out of a total of 12,019 submitting reports, the firms consisting of elevators, warehouses, grain mills, and wholesale grain dealers, and were equal to 28.8 per cent of the stocks held by the same firms on July 1, 1917.

Six Sapper Regiments to Receive Preliminary Training at Camp Forrest

The War Department authorizes the following from the Engineer Corps:

Preliminary training of the six new divisional engineer regiments will be given, under the direction of the Chief of Engineers, at Camp Forrest, Ga., it is announced.

The new regiments, which will be sappers, are to be built up around a nucleus of officers and noncommissioned officers who have passed through the Engineer training camp at Camp Humphreys, Va. The best of the instruction officers turned out at Camp Humphreys are to be rewarded by assignment to the new regiments.

After the new regiments have completed their preliminary training they will go to their respective divisions, where their training will be completed.

AIR MAIL PILOTS SOLVING MANY NAVIGATION PROBLEMS

The Post Office Department issues the following:

The air mail pilot is solving the problem of flying in all sorts of weather. Prior to the establishment of the Air Mail Service it was regarded as impracticable to make flights with airplanes during severe storms.

The practice of this daily service has shown that the mail can be carried through the air in the teeth of a storm.

On three or four occasions the air mail pilots have encountered severe thunder and lightning, wind, hail, and rain without being stopped in their flight. No flight attempted in a storm has yet failed.

Passed Through Thunderstorm.

On Thursday Lieut. Stephen Bonsal from Philadelphia to Washington ran into a violent thunderstorm at Laurel, Md., at an altitude of 5,000 feet and proceeded on his way to the landing field in Washington without interruption. It was impossible to distinguish any landmarks in such torrents of rain. When he descended to a lower altitude for observation he was near the wireless towers at Radio, Va. To observers he appeared to drop out of the clouds from nowhere at an angle of 45° to a height of about 300 feet when he leveled the plane and made a perfect landing at Potomac Park in the midst of a torrent of rain. The plane arrived on schedule time, not being delayed by the storm. The propeller was slightly damaged by the pelting rain.

Lieut. Bonsal was not assisted by radio guide but depended entirely upon his compass and his judgment from familiarity with the route. When radio and other systems for determining location, which are being tried out, are installed it will greatly simplify flights of this sort where the landscape is obscured and the velocity of the wind render uncertain the traveling of planes.

One Regular Daily Patron.

One Washington patron of the service sends a letter daily to New York by airplane. During the month of June all of these letters save one reached New York and were delivered before the close of business hours. The one letter was delayed in delivery until 9 o'clock p. m. on the day of mailing, and this was made the subject of complaint to the department.

An important package that had to be in New York before the end of the day was sent from Washington Thursday by airplane and its delivery at 3.41 was acknowledged by wire.

Admits Sausage Casings to U. S. Importation

The War Trade Board issues the following:

The War Trade Board has, by a new ruling (W. T. B. R. 183), amended list of restricted imports No. 2 (item 117) so as to provide that sausage casings may be imported from the United Kingdom, France, or Italy, but only when such shipments come forward from a convenient port and when they are loaded without delay.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

Total Army and Marine Corps Casualties

The following weekly statement of casualties is authorized by the War Department:

Total number of reported casualties to date, including those reported to-day:

Killed in action (including 291 at sea)	2,373
Died of wounds	907
Died of disease	1,514
Died of accident and other causes	616
Wounded in action	7,044
Missing in action (including prisoners)	710
Total to date	13,164

Following is a summary of Marine Corps casualties to date:

Officers:		
Deaths	28	
Severely wounded	31	
Missing	1	
		60
Enlisted men:		
Deaths	716	
Wounded	1,188	
In hands of enemy	5	
		1,981
Total		2,041

ARMY

AUGUST 4.

The following casualties are reported by the commanding general of the American Expeditionary Forces:

Killed in action	91
Died of wounds	8
Died of disease	5
Died of aeroplane accident	1
Died from accident and other causes	4
Wounded severely	130
Wounded slightly	1
Wounded (degree undetermined	31
Missing in action	12
Total	283

Killed in Action.

Maj. John Howard Wills. Mrs. J. W. Craddock, 208 Madison Street, Lynchburg, Va., or James S. Anderson, Auburn, Ala.

Lieut. Forbes Rickard, jr. Mrs. Forbes Rickard, 950 Lafayette Street, Denver, Colo.

SERGEANTS.

Lloyd C. Ackerman. Henry C. Ackerman, 615 East Maryland Street, Evansville, Ind.

Albert Andrews. Robert L. Smith, Hugeton, Kans.

Lester Avant. E. S. Avant, Midland City, Ala.

Otis L. Goff. Arthur J. Goff, Wade, Miss.

Roual W. Nordquist. Nils Nordquist, 184 Whitail Street, Quincy, Mass.

Charles W. Rogers. George W. Rogers, R. F. D. No. 1, Cob Hill, Ky.

Maniphe Stonecipher. Mrs. Maniphe Stonecipher, Iuka, Ill.

Carrol S. West. A. T. West, R. F. D. No. 2, Kezar Falls, Me.

CORPORALS.

Edward J. Brown. Edward J. Brown, 88 First Street, Newark, N. J.

Roy Lee Cherry. William Cherry, Rouseville, Pa.

Daniel Vincent Coon. Mrs. Frank Buer, 1128 West Main Street, Waterbury, Conn.

David W. Davis. O. C. Davis, R. F. D. No. 2, Hedrick, Iowa.

Clayton B. Kaiser. Mrs. Emma Kaiser, R. F. D. No. 3, Nazareth, Pa.

Daniel P. McGrath. Miss Helen McGrath, St. Agnes Academy, Kansas City, Mo.

John B. Murphy. John P. Murphy, 2516 Maple Street, Dallas, Tex.

Albert Sheppard. Mrs. Sarah Boswell, 414 Gaylord Avenue, Ludington, Mich.

Benjamin L. Stone. Neuson P. Stone, R. F. D. 1, Sanville, Va.

Fred Wurst. Mrs. E. Wurst, 170 Queen Street, Dubuque, Iowa.

Bugler Edward H. Ulearey. Conrad E. Ulearey, 944 South Mole Street, Philadelphia, Pa.

Mechanician Noah C. Frink. Ehot H. Frink, Charlotte, Vt.

Cook William J. Lang. Mrs. Frances Lang, 675 Bennett Street, Appleton, Wis.

PRIVATES.

Eddie O. Anderson. Albert Anderson, Wilbur, Wash.

Herman Baker. Harry Baker, 2356 Harrison Avenue, Ogden, Utah.

Earl R. Barcus. Mrs. Edna M. Barcus, 2515 Broadway, Indianapolis, Ind.

Frank Barnes. Mrs. Tina Barnes, 4321 McKee Avenue, Covington, Ky.

Albert C. Barnstead. Mrs. Ada M. Barnstead, 9 Bowers Avenue, Somerville, Mass.

Urban Bergeron. Mrs. Mary Bergeron, 422 Ahnaip Street, Menasha, Wis.

Simon F. Black. Mrs. Martin G. Black, R. F. D., Box 113, Union, Mo.

Charles Brenner. Mrs. Sarah E. Brenner, 530 East One hundred and forty-eighth Street, New York, N. Y.

Guiseppe J. Bulleri. Pete Bulleri, R. F. D. 4, Ellensburg, Wash.

Calvin A. Carbaugh. Mrs. Belinda Rainhold, 134 South Cherry Avenue, York, Pa.

Frank Cherby. John Cherby, 20 Allen Street, New London, Conn.

Bertina Christianson. John C. Christianson, Viroqua, Wis.

Herman L. Clemmer. G. J. Miller, R. F. D. 2, Raphine, Va.

John F. Cody. Mrs. Garrett Cody, 149 Franklin Street, Stoneham, Mass.

PROCEDURE FOR LICENSING SHIPMENTS FOR EXPORTATION TO FOUR ALLIED COUNTRIES

BECOMES EFFECTIVE ON AUGUST 12

War Trade Board Regulations Apply to Commodities to or Through United Kingdom, France, Belgium, and Italy.

The War Trade Board issues the following:

Revised procedure for licensing shipments for exportation to or through the United Kingdom, France, Italy, and Belgium, effective August 12, 1918:

(1) The War Trade Board, after consultation with the United States Food Administration, the United States War Industries Board, and the war missions of the respective European allied Governments, announce in a new ruling, W. T. B. R. 184, the adoption of a simplified procedure, effective August 12, 1918, for the issuance of export licenses for shipments which are—

(a) Destined to the United Kingdom, France, Italy, or Belgium (excluding their colonies, possessions, and protectorates), either directly or by way of any other country or colony; or

(b) Destined to any country or colony by way of the United Kingdom, France, Italy, or Belgium, excepting shipments destined to Switzerland by way of France or Italy.

Purpose of New Procedure.

(2) The purposes of the new procedure are to save ship tonnage and to prevent the useless consumption of material and labor by preventing the manufacture of articles which may not be exported or which the Government of the country of destination does not wish to have imported.

(3) War Trade Board Ruling 104, dated May 13, 1918, describing the old procedure, will be rescinded and superseded by this new procedure on August 12, 1918. Applications filed prior to that date in accordance with the old procedure will be accepted for consideration.

(4) Applications for licenses filed on and after August 12, 1918, to export any commodity to the destinations and in the manner mentioned above in paragraphs (a) and (b) will be refused if the applicant, subsequently to August 12, 1918, and prior to the issuance of the license applied for, shall purchase or otherwise acquire or commence to manufacture or produce or fit the articles specified in the application for the fulfillment of a specific export order.

Applications for License.

(5) On and after August 12, 1918, applications for licenses to export any commodity to the destinations and in the manner mentioned above in paragraphs (a) and (b) must include one of each of the following papers, properly executed:

(a) An application on Form X, to which should be attached—

(b) Such supplemental information forms as may be required by the rules and regulations of the War Trade Board to be used in connection with shipments of certain commodities or shipments to certain countries (as Form X-1, X-2, etc.);

(c) A new supplemental information sheet, Form X-115.

(6) In Form X-115 the applicant is required to give certain information and make certain agreements in conformity with the purposes above mentioned. Applicants must also show thereon that permission to import or purchase (if required) has been duly granted by the Government of the allied country to or through which the shipment is to be made. Applications for licenses to export to France must have attached thereto a copy of the French Government "attestation."

Mailed Direct to Board.

(7) Applications filed with X-115 attached should be mailed directly to the War Trade Board, Washington, D. C. They will then be referred by the War Trade Board to the war mission of the allied country to or through which the shipment is to be made, and to the United States War Industries Board or to the United States Food Administration, if necessary, and these applications will be considered by the War Trade Board in accordance with its rules and regulations. This will relieve applicants for export licenses from the necessity of applying to the war missions, to the War Industries Board, or to the Food Administration, as required by War Trade Board Ruling No. 104.

(8) Export licenses issued under this procedure will be valid for 90 days. In unusual cases the War Trade Board will grant licenses for longer periods if from the nature of the business a real necessity is shown to exist for the issuance of such licenses.

(9) Reapplications for licenses to take the place of expiring or expired licenses, issued either under the revised procedure above described or under the procedure announced in War Trade Board Ruling 104, dated May 13, 1918, should include the papers mentioned in paragraph (5) above as necessary for an original application, with the exception that Form X-115 should be omitted and Form X-8 (as revised on Aug. 1, 1918) should be added.

Policy of the Board.

(10) It is the policy of the War Trade Board to discourage and prevent exporters purchasing, manufacturing, or producing articles for the fulfillment of specific export orders until an appropriate export license has been issued. The attention of the War Trade Board has been directed to a number of instances in which manufacturers before obtaining export licenses have made articles for specific export orders which were useless for domestic consumption, but which, under the regulations of the War Trade Board, could not be exported. It is essential for the proper conservation of commodities in the United States that this practice be stopped, and it is the purpose of the War Trade Board to refuse licenses to exporters who violate this policy.

The food YOU waste to-day may mean HUNGER to Someone, Somewhere, Sometime. Be Saving!

LIST OF OVERSEAS CASUALTIES

(Continued from page 15.)

Alvin L. Robison. Henry Robison, Stillwell, Ind.

Died of Wounds Received in Action.

Pvt. Guy Thomas. Lulu Thomas, mother, Price, Utah.

Wounded in Action (Severely).

Pvt. Reuben Tousley. Charles H. Tousley, brother, 2215 View Road, Cleveland, Ohio.

Motor Muffler Changes to Result in a Saving

The War Department authorizes the following:

Changes in specification for woolen mufflers for the use of motor-truck and motorcycle drivers as effected by the clothing and equipage division of the Quartermaster Corps will result in a saving of approximately $22,000.

The fringe on this type of muffler will be left off, and contracts have been modified to this effect on approximately 200,000 mufflers, with a saving of about 11 cents on each muffler. The elimination of the fringe does not affect the efficiency of the muffler.

Official Bulletin

PUBLISHED DAILY under order of THE PRESIDENT of THE UNITED STATES by COMMITTEE on PUBLIC INFORMATION
GEORGE CREEL, Chairman ★ ★ ★ COMPLETE Record of U. S. GOVERNMENT Activities

VOL. 2 WASHINGTON, TUESDAY, AUGUST 6, 1918. No. 379

DAILY CASUALTY LISTS NOT BASIS FOR MAKING ESTIMATES OF TOTAL, SAYS MR. CROWELL

SHOULD BE NO UNDUE SPECULATION

Assistant Secretary of War in Press Interview Decries Publications which would Exaggerate or Minimize the Total Number.

Press interview with Assistant Secretary of War Benedict C. Crowell.

We are beginning to receive from Gen. Pershing the toll of victory in the Marne-Aisne offensive.

The casualty lists that are now being made public have been received by cable from headquarters, American Expeditionary Forces, and represent losses in the recent fighting.

No Indication of Total.

There is no indication of the total number of recent casualties, and the lists made public on Monday give the names of 706 officers and men. Other lists are coming in by cable, are being decoded, and the next of kin are being notified by telegraph by The Adjutant General's Office in advance of the publication of the names in the press, pursuant to the established custom of the War Department.

Not Basis for Daily Average.

The fact that 706 casualties are made public in a single day does not indicate that that number is to be taken as the daily average to be expected, and there should be no speculation on any such basis. Gen. Pershing will supply complete and verified casualty lists as rapidly as they can be prepared and transmitted. These will be given to the press, and will speak for themselves as to numbers. I say this to emphasize the point that there should be no speculation as to total casualties, pending the receipt of advices on this subject from Gen. Pershing. Publications which would exaggerate or minimize the total number of casualties would create unnecessary anxiety among the relatives and friends of American soldiers, and should of course be very carefully avoided.

Personal Grief Tempered.

The losses reported and to come will bring sadness to many homes. But personal grief will be tempered by the righteousness of the cause in which these brave men have given themselves, and by the pride which all free peoples take in the magnificient results of their heroism.

Better than money because they earn money; buy a WAR-SAVINGS STAMP TO-DAY.

TANK STEAMER JENNINGS SUNK BY U-BOAT; ALL OF CREW SAVED

Secretary Daniels authorizes the following:

The Navy Department is advised that the captain and 13 men of the crew of the American tanker *O. B. Jennings*, sunk Sunday by a submarine 100 miles off the Virginia coast, have arrived safely at Norfolk, Va.

The men reached Norfolk in the small boat in which they left the *Jennings*.

This, with the 30 previously reported rescued, accounts for all the crew.

A wireless call from the Jennings was received Sunday between 11 o'clock and noon, stating that she was being gunned by submarine.

Naval vessels were sent at once to the position indicated and picked up the survivors.

The *O. B. Jennings* was a tank steamship of 7,890 net tons, built in 1917, and belonged to the Standard Oil Co.

SUBMARINE CHASER SUNK.

The Navy Department is informed that Submarine Chaser No. 187 was sunk last night near Hog Island, off the Virginia coast, in collision with another vessel. There was no loss of life, all the crew being rescued.

CASUALTIES IN THE NAVY.

The Navy Department reports the following casualties:

Philip Riznick, seaman, second class, United States Naval Reserve Force, accidentally killed August 3 by being struck by a locomotive. Riznick was in foreign service, attached to a naval base. Father, Max Riznick, 1222 Washington Street, Roxbury, Mass.

Wedworth West McAllister, chief yeoman, United States Naval Reserve Force, died at Whitinsville, Mass., August 1, from the effects of a fall. Mother, Mrs. Lillie L. McAllister, 31 Ames Avenue, Mitteneague, Mass.

Official Bulletin Index

An index for the Official Bulletin for the first six months of 1918 has been prepared and may be had on application to this office. An index for each month hereafter will be printed in an early issue of the Bulletin after the close of that month.

HIGHER EDUCATION PROGRAM AS OUTLINED IN REPORT OF SECRETARY LANE'S COMMITTEE

WAR NEED FOR TECHNICAL MEN

Plans Closely in Line with Proposal to Make the Draft Age 18 to 45—Importance to the Government is Pointed Out.

The Department of the Interior authorizes the following:

Closely in line with the War Department's recommendations to make the draft ages 18 to 45, with provision for training of the younger men, is the report of Secretary Lane's special committee on higher education and industry, just made public, wherein the Nation's need for technically trained men is defined and a specific higher education program urged.

Views of Committee.

The committee, which consisted of Fuller E. Callaway, a financier of Lagrange, Ga., Samuel M. Felton, director general of military railways for the War Department, and President E. A. Alderman, of the University of Virginia, points out how essential it is, if the Government's far-reaching military plans are to be carried out successfully, that the processes of higher education be maintained at the highest possible efficiency—especially those having to do with the future supply of men and women trained in scientific and technical subjects, including teachers in these fields.

Impossible to Exaggerate Importance.

That it is impossible to exaggerate the importance of engineering knowledge and skill, in the broadest sense, is the judgment of Secretary Lane's committee, not only directly in the conduct of military operations, but indirectly in the essential war industries, including agriculture. The report says:

"The engineering problems confronting the United States are infinitely greater than those of any other of the great nations. For an average distance of more than 4,500 miles, across the continents and the seas, we must transport all of the men, munitions, and supplies which are to represent us in this great struggle. Furthermore, the central powers prepared themselves for this conflict over a long period of years, and by this means determined its character to their own advantage in large measure. The loss by our allies of men of highly specialized training in the early stages of the war, and the difficulties in the way of recovery, leave this Nation in the position of trustee of the only remaining sources of supply."

Letter of the President of San Salvador Commending President Wilson's Address Made to Visiting Mexican Journalists

President Wilson has received a message from the President of San Salvador, of which the following is a translation:

SAN SALVADOR, *July 4, 1918.*

To His Excellency WOODROW WILSON,
President of the United States of America, Washington, D. C.

MOST EXCELLENT SIR: The Central American press has just published the telegram from Washington to the legations of the United States giving the text of your open-hearted and patriotic speech to the Mexican newspaper writers and publishers who recently visited the great Republic whose destinies you so wisely guide. And I can not resist the desire of sending you this letter which will bring you my most fervent congratulations offered in my private capacity and in that of ruler of the Salvadorean people on the abundance of doctrine encompased in that notable piece of oratory in which, with truly apostolic eloquence, you have shown the way to that political harmony that is to cement the peace and future welfare of the American nations.

Dispels Mistrust and Doubt.

From the height of your labors for the good of your people and of all mankind you have poured a limpid stream of sentiments and principles which washes out every speck of misconception or mistrust as to the attitude of the United States in her relations with Latin America. And in this sense, most excellent sir, you have accomplished the most transcendental and patriotic achievement, because dispelling mistrust and doubt in the interpretation of the rights of the peoples is promoting in the most effective way their harmony and the stability of their peaceful intercourse, so that they may easier realize their destinies.

"Peace—I am quoting your words—can come only by trust. As long as there is suspicion there is going to be misunderstanding. As long as there is misunderstanding there is going to be trouble." This is a great truth of which every day has brought the most distressing confirmation, and your words, marked by simple honesty and sincerity, having instilled trust into the heart of America, it is but justice to look upon you as a true apostle of peace and broad-minded statesman in whose judgment those others who also long for the firm maintenance of international concord must have faith.

Adhesion to Sentiments.

As the ruler of the Salvadorean people, as a citizen of Latin America, I wish to express to you my firm adhesion to the ideas of justice and sentiments of fraternity with which your speech to the Mexican journalists is replete.

In expounding the Monroe doctrine you have dispelled prejudgments and unfavorable suspicions that have for many years hampered the full blossoming and propagation of principles of true cordiality which must, for the common good, exist between the United States and the other Republics of the American Continent.

Your grand conception of an international convention that would guarantee the political independence and territorial integrity of the nations of this hemisphere carries the highest purpose that has struck the chords of American public law from the days of Washington to our times. You would indeed be the great Paladin of Law and Liberty in America if you would follow up your momentous initiative which without a doubt will receive the support and the greatest sympathy and best will of all the statesmen and rulers of our continent who, like you, Excellent Sir, are convinced that conventions of that nature are the foundation upon which to build the future life of nations, after the present war.

I wish to improve this opportunity to say, in the name of my people and of the Government over which I preside, that all the motives of our political life, with special regard to the maintenance of our international relations, have sprung from the purest sentiments of justice and cordiality, from an endeavor to uphold within the forms of self-respect our national entity, so as to be always in position to take an able and conscientious part in any civilized evolution looking to the greater rapprochement and prosperity of the American States.

Enthusiastic Approval Given.

In this aspect it is proper to hold forth our enthusiastic approval of the ideas and purposes manifested by Your Excellency in your recent speech; and I believe I am in accord with the opinion and sentiment of the other peoples and Governments of Latin America when I make the prediction that all would sincerely rejoice in the consummation of the magnificent plan of the international convention conceived in a moment of lofty and generous inspirations by the serene statesman, the upright man who guides the mightiest of the American democracies with such wisdom and prudence.

Permit me to tender to you, Most Excellent Sir, in the name of my fellow citizens and in my own, the strongest assurances of adhesion to your sound policy of mutual respect and cordiality, free of suspicion, inaugurated by your recent interpretation of the Monroe Doctrine, and by the upright attitude you have set for your Government in its relations with the other peoples of the great family of our Continent.

Count upon our determined cooperation in bringing to a tangible form your noble thought of securing by reciprocal trust and indissoluble bonds of law the peace of the nations; and be assured that if after the present world conflict the American States succeed in fortifying their future life on the strength of the international convention brought to view in the splendor of your ideals of justice, you will deserve to be regarded as a paladin of mankind and to have your name linked with that of George Washington in the respect of the world and the glorious verdict of history.

Accept, Most Excellent Sir, the assurances of my highest and most distinguished consideration.

C. MELENDEZ.

Message to the British Foreign Affairs Minister From Secretary Lansing on Anniversary of War

The Secretary of State has sent the following telegram to Arthur James Balfour, British minister for foreign affairs:

The declaration of war by Great Britain against Germany is a memorable event in the annals of civilization, and the noble devotion of the British Empire to the cause of human liberty commands the admiration and gratitude of all peoples who are blessed with democratic institutions.

Permit me on this fourth anniversary of your country's defense against the autocratic power of central Europe to express to you and to all men who owe allegiance to the British Crown the profound satisfaction which Americans feel that their armies and Navy are associated in this great crusade for liberty with such brave and loyal comrades in arms as these who are fighting on land and sea under the union jack.

May the undaunted spirit which has sustained your people through these four long years of conflict continue until victory is achieved and the world is freed forever from the peril of Prussianism.

ROBERT LANSING.

President Wilson's Reply.

President Wilson has sent the following in reply to the above letter from the President of San Salvador:

"Your Excellency's very generous letter of the 4th of July has just been placed in my hands and I am availing myself of the earliest opportunity of expressing to you the very deep appreciation with which it was received and read. It is delightful to feel that a mutual understanding is being established among the nations of the Americas which promises to constitute a genuine and permanent foundation of friendship, and I beg Your Excellency to believe that the speech to the Mexican editors, to which you so kindly refer, came without premeditation from my very heart. I wish you also to know that it expressed something very much more than my own personal feeling and policy, for I believe that it expressed the real attitude of the people of the United States and the policy which they would always wish to see their Government adopt and pursue. I join with you in looking forward with the highest hope and confidence to such a union of minds and purpose in America as will lead to abiding peace and friendly cooperation."

Special Orders, No. 172:

232. The appointment of Philip Loring Reed as major, chemical warfare service, National Army, with rank from July 24, 1918, is announced. He will proceed to New York, N. Y., and report in person to the officer in charge of gas defense division, chemical warfare service, 19 West Forty-fourth Street, for duty.

FEDERAL RESERVE BOARD'S WEEKLY BANK STATEMENT

Gains of 6.7 millions in gold reserves and net liquidation of 30.5 millions in earning assets, largely discounted bills, together with substantial withdrawals of Governments deposits and further gains in note circulation are indicated by the Federal Reserve Board's weekly bank statement issued as at close of business on August 2, 1918.

Investments.—Discounted bills on hand show a decrease of 31.2 millions, the New York, Boston, and Dallas banks reporting the largest reductions for the week. Of the total shown, 685.9 millions, as against 675.7 millions the week before, is represented by war paper, i. e., member banks' notes secured by United States war obligations and customers' paper similarly secured. Acceptances on hand went up about 3.9 millions, the New York, Cleveland, and Richmond banks reporting the largest additions of paper bought in the open market. Redemption by the Government on August 1 of 1908–1918 bonds accounts for the reduction in the holdings of long-term Government securities reported by the New York, Philadelphia, Cleveland, and Chicago banks. United States short-term securities on hand increased about 0.7 millions, largely at the New York bank. Total earning assets indicate net liquidation of 30.5 millions.

Government Fund Withdrawals.

Deposits.—Large net withdrawals of Government funds from the western banks are shown, total Government deposits being 71.8 millions less than the week before. Members' reserve deposits declined 11.7 millions and net deposits 64.1 millions.

Reserves.—Gold reserves show a gain of 6.7 millions and total cash reserves a gain of 5.6 millions. Continued concentration of gold reserves at the New York bank is noted, the bank holding at present about 45 per cent of the system's gold, as against 36.4 per cent at the beginning of the current year. The ratio of total reserves to aggregate net deposit and Federal reserve note liabilities shows a rise for the week from 58.1 to 58.7 per cent.

Note circulation.—During the week the Federal reserve agents issued a total of 28.7 millions net of Federal reserve notes. The banks report a total Federal reserve note circulation of 1,906.5 millions, a gain of 35.6 millions for the week, besides a small increase in their liabilities on Federal reserve bank notes in circulation.

Capital.—An increase of $77,000 in paid-in capital is due primarily to payment for Federal reserve bank stock by newly admitted members in the St. Louis and Dallas districts.

Condition of Member Banks, July 26.

Further additions to the banks' holdings of Treasury certificates in connection with the third issue of these certificates, coupled with considerable gains in Government deposits, are indicated by the weekly statement of condition on July 26 of 725 member banks in leading cities.

United States bonds, other than circulation bonds, on hand show a reduction for the week of 12.6 millions, notwithstanding the larger number of reporting banks. Treasury certificates increased 258.9 millions, of which 154.2 millions represents the increase for the central reserve city banks. Loans secured by United States war obligations show a gain of 13.7 millions, while other loans and investments went up about 5.5 millions. For all reporting banks the ratio of United States war obligations and loans secured by such obligations to total loans and investments works out at 14.6 per cent, compared with 12.8 per cent the week before. For the banks in the central reserve cities this ratio shows a rise from 14 to 16.2 per cent.

Government Deposits Increase.

Government deposits increased during the week about 226.5 millions, of which 184.1 millions represents the gain at central reserve city banks. Net demand deposits of all reporting banks fell off 42.7 millions, the central reserve city banks alone reporting a decrease under this head of 26.3 millions. Total time deposits show a gain of 17.5 millions, though for the central reserve city banks a loss of about 5 millions under this head is noted. Total reserves fell off 10.9 millions and cash in vault about 10.8 millions.

For all reporting banks the ratio of investments to deposits shows a rise from 124.7 to 125 per cent, while for the central reserve city banks, owing to the relatively larger gain in deposits, a decline from 114.9 to 114.2 per cent is noted. The ratio of combined reserve and cash to total deposits declined from 15.3 to 14.8 per cent for all reporting banks and from 16.3 to 15.9 per cent for the banks in central reserve cities. Aggregate excess reserves show a slight decrease from 102.8 to 96.5 millions. For the central reserve city banks an increase of these reserves from 69.5 to 76.2 millions is noted.

Settlement of Twenty Industrial Disputes Announced for the Week Ending August 3

The Department of Labor, Division of Conciliation, issues the following:

Settlement of 20 industrial disputes between employer and employees during the past week was announced to-day by the Department of Labor. Seven of these were controversies, six strikes, and seven threatened strikes. No strike occurred in any of the important cases, and none in any which involved over 50 men. There is an increased diminution not only in the tendency toward strikes, but in the actual number of controversies.

Adjustments reported, week of July 29 to Aug. 3, 1918.

Name.	Conciliator.	Workmen affected.

IMPORT RULING WITH RESPECT TO THE COUNTRY OF ORIGIN

The War Trade Board issues the following:

The War Trade Board has issued the following ruling (W. T. B. R. 185) with respect to the origin of those articles included in the lists of restricted imports which, under certain conditions, may be imported from Canada or Mexico or from convenient European or Mediterranean North African ports:

In every case where it is provided by the import restrictions that licenses may be issued for the importation of restricted articles from Canada or Mexico or convenient European ports or convenient Mediterranean North African ports, such licenses shall be issued only when the articles proposed to be imported have originated or in the customary course of trade have been manufactured or substantially enhanced in value by manufacturing processes—

(a) In the case of importations from Canada, in Canada.

(b) In the case of importations from Mexico, in Mexico.

(c) In the case of importations from convenient European ports and convenient Mediterranean North African ports, in Europe or Mediterranean North Africa.

Official U. S. Bulletin

EXECUTIVE ORDER.

I hereby create a Committee on Public Information, to be composed of the Secretary of State, the Secretary of War, the Secretary of the Navy, and a civilian who shall be charged with the executive direction of the committee.

As civilian chairman of the committee I appoint Mr. George Creel.

The Secretary of State, the Secretary of War, and the Secretary of the Navy are authorized each to detail an officer or officers to the work of the committee.

WOODROW WILSON.

April 14, 1917.

American Communique

The following is authorized by the Secretary of War dated August 5, 1918:

American Official Communique No. 83.

HEADQUARTERS OF THE AMERICAN EXPEDITIONARY FORCES, *August 5, 1918.*

Section A. On the line of the Vesle heavy artillery fighting is in progress. On August 3 our aviators shot down two hostile airplanes.

RELIEVES GEN. R. K. EVANS.

Gen. Greene Ordered to Command Department of Philippines.

General Orders, No. 58:

V. By direction of the President, Brig. Gen. Henry A. Greene, United States Army, is relieved from his present duties and will proceed to San Francisco, Cal., and take the first available transport to sail from that place for the Philippine Islands, and upon arrival at Manila will assume command of the Philippine Department, relieving Brig. Gen. Robert K. Evans, United States Army, retired, who after being thus relieved will proceed to his home, and upon arrival there report by telegraph to The Adjutant General of the Army. Brig. Gen. Evans is relieved from active duty to take effect upon his arrival at his home. The travel directed is necessary in military service.

When you buy war savings stamps you do not give—you receive.

Enemy-Owned Money and Property in Possession of Alien Custodian Now Exceeds $500,000,000 Mark

A. Mitchell Palmer, the Alien Property Custodian, announces that the total amount of enemy-owned money and property taken over by him had passed the five-hundred-million-dollar mark. The total number of trusts reported to the Alien Property Custodian is 23,405, of which 13,765 trusts have been opened. The total of the latter is $441,395,795.

The large amount of enemy money and property now in Mr. Palmer's hands awaiting formal opening as trusts will bring the amount of enemy money and property he has taken over to considerably above the half-billion-dollar mark.

The formal statement of the trusts already opened discloses the fact that the Alien Property Custodian is the largest individual buyer of Liberty bonds in this country. Every dollar of enemy money taken over by him is sent to the Treasury to be invested in Liberty bonds. When possible all enemy property taken over is converted into cash and the proceeds invested in Liberty bonds.

In a statement issued by the Alien Property Custodian showing the trust accounts opened up to July 31, 1918, the sum of $42,970,027 is given as invested in Liberty bonds. There is on deposit in the Treasury, awaiting the next Liberty bond issue, $2,807,905.

The statement of trust accounts opened is as follows:

Cash deposited with secretary-treasurer:		
Invested in Government securities	$42,970,027.82	
Uninvested	2,807,905.63	
		$45,777,933.45
Stocks		149,489,387.70
Bonds (other than investments made by secretary-treasurer)		53,398,829.97
Mortgages		9,063,667.98
Notes receivable		5,918,517.46
Accounts receivable		54,466,539.43
Real estate		6,028,100.71
General business and estates in operation or liquidation, merchandise, miscellaneous, investments, etc		83,059,128.35
Enemy vessels		34,193,690.00
Total		441,395,795.05
Number of trusts reported to Alien Property Custodian		23,405
Number of trusts opened		13,765

HIGHER EDUCATION REPORT BY SECRETARY LANE'S COMMITTEE

(Continued from page 1.)

Pointing out how the War Department has already taken steps, through the establishment of the student army training corps, to utilize the higher educational institutions in training young men under 21, Secretary Lane's committee makes the following recommendations:

"The people of the United States should recognize that the maintenance of the war strength of the Nation in its full power demands the utmost efforts of all existing well organized and adequately equipped colleges, universities, and technical schools. This means ever increasing and more devoted bodies of students as well as faculties.

"Young people having the requisite qualifications should heed this urgent call of their country, and apply themselves diligently, enthusiastically, and in increasing numbers to the task of preparing for the highest service of which they are capable. Wherever practicable, young men should at the same time join the students' enlisted reserve and prepare for military service, in order to be ready for that call also when it comes.

"Institutions of higher education should adjust their courses, so far as possible, to immediate war needs and to the demands which must inevitably come with the establishment of peace, and should develop especially those scientific and practical branches of study which are essential to the winning of the war, to the development of our industries and commerce, and to the accomplishment of the tasks of the civic and political life of the Nation.

"Educational institutions should use every effort to make the opportunities and privileges of training for public service accessible to all suitably prepared men and women of college age. In the cases of many worthy young men and women this will require some provision for assistance in meeting payments for tuition and laboratory fees and other necessary expenses of higher technical training."

STAFF DUTY IN WASHINGTON.

General Orders, No. 53:

III. Induction into military service for duty with the General Staff and bureaus in Washington is authorized only in cases of men technically qualified for such duty, physically disqualified for general military service, and physically qualified for special and limited military service only.

PROCEEDINGS OF THE CONGRESS BRIEFLY TOLD

Chairman Chamberlain, of the Senate Committee on Military Affairs, and Chairman Dent, of the House Committee on Military Affairs, yesterday introduced the new man-power bill under which the draft age is to be extended to include all persons from 18 to 45 years of age, inclusive. The bills were referred at once to the appropriate committees in each House. Early action is anticipated, but whether because of the presentation of this legislation at a date earlier than was expected when the three-day recess agreement was taken, the House and Senate will be reconvened for active business before August 19 and 24, is yet to be determined. Senator Chamberlain called a meeting of his committee to begin consideration of the measure and the first session was held this morning. In introducing the bill Senator Chamberlain said he would be willing to have the recess arrangement abandoned and the Senate reconvened as speedily as possible to go on with the proposed legislation. A number of Republicans agreed that this would be the proper thing to do. In the House Chairman Dent said he did not think it would be possible to obtain a quorum of his committee much before the time for the reconvening of the House.

Estimates submitted to Senator Chamberlain by Provost Marshal General Crowder show that the total number of fighting men which will be added to the American forces by the new bill will be slightly less than 2,500,000. This, with the more than 3,000,000 now in training or under arms, raises the maximum fighting strength of the United States Army to more than 6,000,000 men.

Gen. Crowder's figures are as follows:

"Between the ages of 32 and 45 there will be a maximum of 10,028,973 males, of whom 7,734,482 are married and with other dependents. Deductions for those in the deferred classes for industrial and agricultural pursuits will amount to 401,159; other deferments, 501,448, leaving a total of men who can safely be counted upon of 1,391,884. From this deductions for alien enemies, enlistments, physical defectives, and workers for the Emergency Fleet Corporation will reduce the aggregate to 601,236 fighting men of these ages.

"Of the registrants between 18 and 20, it is estimated there will be 3,171,671, of whom 272,351 are married with dependents, leaving a total of 2,899,317; deducting from these the number of aliens, defectives, and workers for the Fleet Corporation leaves 1,797,609 fighting men of these ages."
